John Cowen, Jr, Mayor

NOTICE OF A PUBLIC MEETING OF THE
CITY COMMISSION OF THE CITY OF BROWNSVILLE

Pursuant to Chapter 551, Title 5 of the Texas Government Code, the Texas Open Meetings Act, notice is hereby given that the City Commission of the City of Brownsville, Texas, in accordance with Article V, Section 12, of the Charter of said City, will convene a **Regular Meeting**, on **October 06, 2026**, at **5:00 p.m.**, in the Commission Chambers, on the Second Floor of the Brownsville City Hall - Old Federal Building, located at 1001 East Elizabeth Street, Brownsville, Cameron County, Texas, 78520.

Pursuant to Section 551.127, Texas Government Code, one or more Commissioners or employees may attend this meeting remotely using videoconferencing technology. The video and audio feed of the videoconferencing equipment can be viewed and heard by the public at the address posted above as the location of the meeting. Members of the public, employees, and the City Commission may join via the Webex Teleconference Meeting by logging on at:

This Notice and Meeting Agenda are posted online at: https://brownsvilletx.gov/129/Agendas-Minutes Members of the public who submitted a "Public Comment Form" will be permitted to offer public comments as provided by the agenda and as permitted by the presiding officer during the meeting. A recording of the meeting will be made and will be available to the public in accordance with the Open Meetings Act. At any time during the course of the posted meeting, the Brownsville City Commission may retire into Executive Session under Texas Government Code 551.071 to confer with legal counsel on any subject matter on this agenda in which the duty of the attorney to the City Commission under Texas Disciplinary Rules of Professional Conduct of the State Bar of Texas clearly conflicts with Chapter 551 of the Texas Government Code. Further, at any time during this meeting, the City Commission may retire to deliberate on any subject slated for discussion at this meeting, as may be permitted under one or more exceptions to the Texas Open Meetings Act set forth in Title 5, Subtitle A, Chapter 551, Subchapter D of the Texas Government Code.

CALL TO ORDER

a) ROLL CALL

b) INVOCATION

c) PLEDGE OF ALLEGIANCE TO THE FLAGS OF THE UNITED STATES OF AMERICA AND STATE OF TEXAS

PROCLAMATION(S)

1) National Disability Employment Awareness Month (Commissioner B. Martinez; Mayor J. Cowen Jr.)

2) Recognizing Faulk Middle School (Commissioner B. Martinez; Commissioner L. Macias)

PUBLIC COMMENT PERIOD

- **Non-Agenda Items:** Kindly submit a "Public Comment Form" stating the City business or City policy you wish to speak to an hour before the start of the scheduled meeting time with the City Secretary. Forms are not reserved for anyone nor may time be deferred to anyone. PowerPoint presentations may not be accommodated. This period is limited to five (5) speakers with a time limit of three (3) minutes per speaker.
- **Agenda Items:** Kindly submit a "Public Comment Form" stating which item(s) on the agenda you wish to speak to an hour before the start of the scheduled meeting time with the City Secretary. Speakers will be allowed to address the Commission on the agenda item before it is to be considered. The speaker is limited to three (3) minutes.
- **Time Limits:** The City Commission shall have the discretion to modify its regulations regarding time limits on public comment if necessary. For example, the time limit may be shortened to accommodate a lengthy agenda or it could be lengthened to allow additional time for discussion on a complicated matter or if there is a need for an interpreter.

CITY MANAGER(S)

1) Youth Advisory Board Update

PRESENTATION(S)

1) Presentation on Hotel Occupancy Tax Applicants and Timeline Overview for Fiscal Year 2027 (Convention & Visitors Bureau)

CONSENT AGENDA ITEM(S)

The following are considered to be routine by the City Commission and will be approved by one motion. There will be no separate discussion of these items unless a City Commissioner so requests, in which event the item will be removed from the Consent Agenda and considered in its normal sequence on the Agenda.

PUBLIC COMMENT PERIOD

Mayra A. Rios, City Secretary, reported that 62 forms were received by the deadline, of which 32 were designated for Public Hearing No. 5 regarding data centers, and further noted that 25 individuals signed up to speak while 5 did not wish to speak, with written comments to be recorded in the minutes.

Motion: Motion was made by City Commissioner Bryan Martinez, seconded by City Commissioner Linda C. Macias, to suspend the number of speakers to allow all registered individuals to address the City Commission. The vote was cast 7 for, 0 against. The motion carried unanimously.
Susan Gutierrez, 4 Augusta Road, Brownsville, Texas, expresses opposition to the removal of four heritage trees at Boca Chica, Willard, and Central Ave. They request a hold on removal, exploration of alternatives, and the opportunity to participate in future discussions.

DRAFT

Victoria Osegarda, 175 Downs Dr. Brownsville, Texas, expressed strong concern over AI, claiming federal courts allow certain harmful AI generated content.

Christian Estrada, Brownsville resident, thanked the commission for fiscal responsibility. Requested more collaboration among major organizations, better coordination on infrastructure projects to avoid redundancy, and involvement of technical personnel in planning discussions.

Ricki Oberoi,5402 Bordley Drive, Brownsville, Texas, submitted a Public Comment Form, but he was not present to express his comments to the Commission.

Kris Wood, 134 Candlewick Ct. Brownsville, Texas, thanked the commission for their decision regarding the SpaceX agreement.

Gilberto Salinas, 500 E St Charles St in Brownsville, Texas, praised leadership for focusing on water security. Emphasized water as a foundational necessity for future development and economic prosperity.

Jerry Briones, 500 E St Charles St in Brownsville, Texas, thanked leadership for approving the agreement. Emphasized reduced burden on ratepayers, less dependence on the river, and the importance of acting before shortages become crises.

Jovanna Rangel, 500 E St Charles St in Brownsville, Texas, supported the partnership as a way to strengthen water infrastructure without adding financial burden on families.

Herendida Martinez, 500 E St Charles St in Brownsville, Texas, thanked officials for supporting economic growth.

Griselda Munoz, 500 E St Charles St in Brownsville, Texas, praised the city's forward looking approach. Emphasized the necessity of reliable infrastructure for businesses and residents, stating that investment prevents future bottlenecks and supports responsible growth.

Jason Medina, 500 E St Charles St in Brownsville, Texas, business owner who supports the MOU with SpaceX, Emphasized rapid growth, the need for stronger infrastructure, and described the agreement as essential to preparing Brownsville for expanding economic opportunities.

Jane Lozano, 500 E St Charles St in Brownsville, Texas, thanked commissioners and described the agreement's major impact on water capacity.

Esmeranda Villarreal, 1600 University Blvd, Brownsville, Texas, supported the city's water sustainability investments. Supported diversification of water resources and planning for long-term business competitiveness.

Rafael Vela, 501 E St Charles Brownsville, Texas, described Workforce Solutions' role in preparing residents for opportunities from the SpaceX project. Emphasized the importance of sustained infrastructure investment for workforce stability and long-term job growth.

Francisco Orozco, 502 E St Charles, Brownsville, Texas, thanked commissioners for approving the water infrastructure agreement.

Anna Oquin, 500 E St Charles St., Brownsville, Texas, submitted a Public Comment Form, but she was not present to express her comments to the Commission.

Benjamin Peña, 500 E St Charles St in Brownsville, Texas, supported expansion of SRWA and described current water supply challenges.

DRAFT

Eliud Cavazos, 4877 Western Rd., Brownsville, Texas, thanked commissioners for approving the infrastructure investment. Stated the investment stimulates regional advancement and opportunities.

Alexis Diaz, 1744 Carthage Ct., Brownsville, Texas, expressed frustration over the Saturday decision. Opposed giving land or property under perceived pressure.

Jesse Gonzalez, 1100 E Elizabeth St., Brownsville, Texas, expressed feeling betrayed by leadership. Connected local decisions to global injustices.

Jackson Yuen, 8700 Houston Rd., Brownsville, Texas, represented the youth perspective, thanking commissioners. Viewed the MOU as securing Brownsville's future amid concerns about development in Louisiana.

Jack Yuen, 8700 Houston Rd., Brownsville, Texas, on behalf of his wife, encouraged solutions rather than name-calling. Acknowledged concerns about affordability and gentrification but thanked commissioners for making a difficult decision.

Mary Gallegos, 3160 North Buckingham Court, Brownsville, Texas, submitted a Public Comment Form but wished to register her comments directly to the Commission expressing opposition to the Data Center.

Victor Zamora, 511 E Brecha Dr. Brownsville, Texas, submitted a Public Comment Form but wished to register his comments directly to the Commission expressing opposition to the Data Center.

Nicole Logan, 32518 Edgewater Isle Dr. Brownsville, Texas, submitted a Public Comment Form but wished to register her comments directly to the Commission expressing opposition to the Data Center.

Veronica Medrano, 980 Plantation St. Brownsville, Texas, submitted a Public Comment Form but wished to register her comments directly to the Commission expressing opposition to the Data Center.

Shoda Leggett, 3148 Basque Drive, Brownsville, Texas, submitted a Public Comment Form, but he was not present to express his comments to the Commission.

Irvin Martinez, 3148 Basque Dr. Brownsville, Texas, thanked commissioners for the MOU with the South Texas Afghanistan Veterans Association, recognizing its importance to veterans and the broader Brownsville community.

Miguel Altamirano, 519 E Madison St. Brownsville, Texas, submitted a Public Comment Form, but he was not present to express his comments to the Commission.

Mark Hodgson, 5434 Dragonwick, Brownsville, Texas, highlighted water resource management as a top issue discussed with businesses. Thanked leadership for their vision.

PRESENTATION(S)

1) **Presentation by the Brownsville Public Utilities Board providing an Annual Report on the Progress of Collaboration with the City of Brownsville, as required by the City Charter. (Brownsville Public Utilities Board)**

DRAFT

Gerardo Martinez, Chair of the Brownsville Public Utilities Board (BPUB), provided an annual update to the Mayor and City Commission. He outlined organizational and policy changes implemented over the past year, including separating electric and water/wastewater service policies, conducting cost of service studies, creating an internal legal team, and expanding in house engineering capacity. Mr. Martinez also highlighted BPUB's partnerships with BPUB Camp, the Greater Brownsville EDC, and the Port of Brownsville, emphasizing coordinated planning to support regional growth.

He described internal organizational improvements such as restructuring under new leadership, recruiting director level talent, strengthening cybersecurity, enhancing asset management, and establishing an enterprise project management office to better oversee capital projects. Mr. Martinez noted several policy updates, including flexible work arrangements, community partnership leave, cost of living adjustment parameters, performance evaluations, retirement enhancements, and leadership training. He also reported on cost reduction efforts such as the line extension policy, AMI meter deployment, recent grant awards, and OSA CAFÉ savings.

Mr. Martinez provided a high level explanation of ERCOT operations and BPUB rate structures, clarifying that local generation is sold into the grid while PUB purchases power separately, making rates more complex than a single kilowatt hour charge. He encouraged accurate rate comparisons through PowerToChoose.org. In response to questions, he confirmed that AMI deployment is underway and will apply system wide without requiring customer requests, with project completion anticipated around May 2027.

Marilyn Gilbert, General Manager and CEO of BPUB, delivered her report alongside members of her executive team. She thanked the City Commission for approving the Memorandum of Understanding, noting that it is central to the annual charter required report covering fiscal years 2025–2026. Ms. Gilbert highlighted continued collaboration between BPUB and the City, particularly through coordinated infrastructure investments such as recent joint projects. She also emphasized long term planning efforts, including the long anticipated expansion of the SRWA plant and the advancement of the state supported infrastructure reuse program. Ms. Gilbert outlined BPUB's work in eliminating duplication of services, improving coordination on roadway and utility projects, and ensuring state compliance through backflow testing performed at no cost to the City. She reviewed administrative efficiency improvements implemented over the past year. Additional updates included customer satisfaction studies, shared digital workflow tools with City departments, extensive street lighting maintenance, underground cable replacement projects, fiber optic collaboration with the City, and significant reliability upgrades completed at the Brownsville–SPI Airport. She further reported on emergency preparedness coordination with the City, enhanced communication channels, and formal committee meetings that support ongoing project alignment. Ms. Gilbert reiterated the importance of drought preparedness and the long term value of current water resiliency projects. She concluded with updates on strategic planning documents, resource plans, ongoing rate studies, and new asset management systems.

Brief discussion among the City Commission and City staff.

CITY MANAGER'S UPDATE(S)

1) **"National Preparedness Month" (Commissioner N. Galonsky; Commissioner L. Macias)**

DRAFT

Alan Guard, City Manager, introduced the Emergency Operations Department, led by Odee Leal, who provided a brief presentation in recognition of "National Preparedness Month", emphasizing community readiness, regional partnerships, and the importance of family emergency planning before a disaster.

13) Consideration and **ACTION** to apply for The US Department of Justice FY2026 Model Cities Initiative Grant. (Police Department)
14) Consideration and **ACTION** to approve the submission of Brownsville Metro's application to the Federal Transit Administration (FTA) FY 2026 Innovative Coordinated Access and Mobility (ICAM) Pilot Program in the amount of $2,000,000 with $300,000 in local funds for the proposed project of replacing Paratransit vehicles that have surpassed their useful life. (Brownnsville Metro)
15) Consideration and **ACTION** to Authorize a Contract with Galiguer Corporation DBA Xtreme Security & Fire in the amount of $100,769 for Contract No.348-26-EPMO-CP, for a term of 30 Days, for Verkada Cameras and Door Access controls for the Cannery Public Market. (Enterprise Project Management Office Department)
16) Consideration and **ACTION** to approve a Contract with ARGIO Roofing & Construction, LLC in the amount of $285,131.87 for Contract No. 346-26-ISD-CP, for repairs to the Market Square Dome, as budgeted. (Internal Services Department)
17) Consideration and **ACTION** to approve **Resolution Number 2026-118** supporting proposed state legislation that would require county election officials to offer annual election services contracts to municipalities conducting May municipal elections, while preserving each municipality's discretion whether to contract for those services. (Office of the City Secretary)
18) Consideration and **ACTION** on **Resolution Number 2026-117**A to appoint or reappoint members to the Youth Advisory Board. (Office of the City Manager)
19) Consideration and **ACTION** on **Resolution Number 2026-120**, to authorize the execution of an Advance Funding Agreement (AFA) between the City of Brownsville and the Texas Department of Transportation to implement major traffic signal improvement at the intersection of Palm Blvd and Jefferson St. (Engineering & Public Works Department).
20) Consideration and **ACTION** to approve **Resolution Number 2026-124** the submission of Brownsville Metro's application to the Federal Transit Administration (FTA) FY 2026 Grants for Low or No Emissions Program $12,967,600 with $2,288,400 in local funds for the proposed project of vehicle expansion and replacement of vehicles. (Brownsville Metro)
21) Consideration and **ACTION** to approve **Resolution Number 2026-126** supporting Brownsville Metro's competitive grant application to the Federal Transit Administration (FTA) under the Bus and Bus Facilities Competitive grant program in the amount of $5,645,700 with local support of $1,411,425 to support the development of a Mulitmodal Transit Facility (Brownsville Metro)
22) Consideration and **APPROVAL on SECOND and FINAL READING on Ordinance Number 235-2026-012**, to rezone from Residential Single-Family (R-1) to Residential Transition (R-3) to allow a townhome development for 3.205 acres out of Share 4, Espiritu Santo Grant, Cameron County, Texas, located at Vasquez Ranch Road, Brownsville Texas 78520, as shown in Exhibit "A". (District 4) (Planning & Redevelopment Department)
23) Consideration and **APPROVAL on SECOND and FINAL READING on Ordinance Number 235-2026-018**, to rezone from Agriculture (AG) to Residential Single-Family (R-1) to allow a single-family residential subdivision for all of Summer Lakes Subdivision Phase 4, Cameron County, Texas, located at Summerhill Boulevard, Brownsville, Texas 78520, as shown in Exhibit "A". (District 4) (Planning & Redevelopment Department)
24) Consideration and **ACTION on SECOND READING on Ordinance Number 2026-1817** to adopt the City of Brownsville's Downtown Renaissance's Master Plan. (Planning & Redevelopment)

DRAFT

25) Consideration and **APPROVAL on SECOND and FINAL READING on Ordinance Number 235-2026-903-S**, to request a Specific Use Permit (SUP) in a Commercial Corridor (CC) zoning district to allow a commercial plaza and establish reduced setbacks for Lots 16, 17, and 18, Block 1, Naranja Vista Subdivision, Cameron County, Texas located at 9935 Naranjo Road, Brownsville, Texas 78521, as shown in Exhibit "A". (District 3) (Planning & Redevelopment Department)
26) Consideration and **APPROVAL on SECOND and FINAL READING on Ordinance Number 235-2026-904**, to rezone from Residential Single-Family (R-1) to Residential Suburban (R-2) to allow an existing duplex subdivision for all of Hidden Meadows Subdivision Section 2, Cameron County, Texas, located at Hidden Meadows Boulevard, Brownsville, Texas 78520, as shown in Exhibit "A". (District 4) (Planning & Redevelopment Department)
27) Consideration and **APPROVAL on SECOND and FINAL READING on Ordinance Number 235-2026-905**, to rezone from Commercial Corridor (CC) to Residential Transition (R-3) to allow an existing single-family development for an approximate 2.09 acres out of Lots 1, 2, 5, 6, 7, and 8, Block 40, out of Share 28 of the Brownell Tract, coming from a portion of El Jardin Subdivison, located at Lester Drive, Brownsville, Texas 78521, as shown in Exhibit "A". (District 2) (Planning & Redevelopment Department)
28) Consideration and **APPROVAL on SECOND and FINAL READING on Ordinance Number 2026-1818** accepting and approving an update to the Madeira Espiritu Santo Public Improvement District Number One (PID) Operations and Maintenance Service and Assessment Plan; accepting and approving the updated assessment roll for the PID; making a finding of special benefit to property within the PID; levying special assessments against such property and establishing a lien on such property; providing for the method of assessment and the payment of the assessments levied against the PID assessed property; providing penalties and interest on delinquent Assessments; and, also providing official notice of the PID's updated SAP to the Cameron County Clerk in accordance with Chapter 372 of the Texas Local Government Code, as amended. (Planning & Redevelopment Department/Office of the City Attorney/City Manager's Office)
29) Consideration and **APPROVAL on SECOND and FINAL READING of Ordinance Number 2025-1781-B** to adopt an end-of-year amendment to amend the Fiscal Year 2026 Budget. (Financial Services Department)
30) Consideration and **APPROVAL on SECOND and FINAL READING of Ordinance Number 2026-1815** to adopt the Fiscal Year 2027 Annual Budget for the Brownsville Community Improvement Corporation. (BCIC)
31) Consideration and **APPROVAL on SECOND and FINAL READING of Ordinance Number 2026-1816** to adopt the Fiscal Year 2027 Annual Budget for the Greater Brownsville Economic Development Corporation. (GBEDC)
32) Consideration and **APPROVAL on SECOND and FINAL READING of Ordinance Number 2024-223-D**, to amend Chapter 86, "Streets, Sidewalks, and Certain other Public Places," to adopt an encroachment licensing fee and right of way management regulations. (Engineering and Public Works Department)

Motion: Motion was made by City Commissioner Pedro Cardenas, seconded by City Commissioner Tino Villarreal, to approve Items 1 through 32 for the consent agenda items. The vote was cast 7 for, 0 against. The motion carried unanimously.

City Staff requested to alter the agenda to consider item 5, under Public Hearing, as the next item.

DRAFT

PUBLIC HEARING(S)

1) **Consideration and APPROVAL on SECOND and FINAL READING of Ordinance Number 2026-1820 to adopt the Fiscal Year 2027 Annual Budget. (Financial Services Department)**

Stephen Muse, Financial Services Director, presented a brief summary of the 2027 operating budget during its second and final reading. He reported that the largest increase was in the General Fund, totaling 3.2 million dollars. The Fleet and Facilities Fund reflects an increase of approximately 1.1 million dollars, and the Landfill Fund shows a similar increase of about 1.1 million dollars. Mr. Muse also noted that two new operating funds are being adopted this year. The Stormwater Drainage Maintenance Fund carries a proposed budget of 2.8 million dollars, based on the residential unit rate of $4.99. Additionally, the Fiber Fund includes operational expenses and identifies the amount of revenue needed from leases to cover those costs.

Brief discussion among the City Commission and City staff.

Mayor John Cowen Jr. opened the public hearing.

There were no speakers.

Motion: Motion made by City Commissioner Tino Villarreal, seconded by City Commissioner Pedro Cardenas, to close the public hearing. The vote was cast 7 for, 0 against. The motion carried unanimously.

Motion: Motion made by City Commissioner Tino Villarreal, seconded by City Commissioner Nurith Galonsky, to approve first reading of Ordinance 2026-1820. The vote was cast 7 for, 0 against. The motion carried unanimously.

2) **Consideration and APPROVAL on SECOND and FINAL READING of Ordinance Number 2026-1821 to ratify the Fiscal Year 2027 budget that will raise more total property taxes than last year's budget. (Financial Services Department)**

Stephen Muse, Financial Services Director, the Texas Local Government Code requires a separate vote to ratify the revenue generated from the adopted tax rate, in addition to the vote on the budget itself and the separate vote on the tax rate.

Brief discussion among the City Commission and City staff.

Mayor John Cowen Jr. opened the public hearing.

There were no speakers.

Motion: Motion made by City Commissioner Tino Villarreal, seconded by City Commissioner Nurith Galonsky, to close the public hearing. The vote was cast 7 for, 0 against. The motion carried unanimously.

DRAFT

Motion: Motion made by City Commissioner Tino Villarreal, seconded by City Commissioner Nurith Galonsky, to approve first reading of Ordinance 2026-1821. The vote was cast 7 for, 0 against. The motion carried unanimously.

Roll Call Votes Summary:
Ayes: Mayor John Cowen Jr., Commissioner Tino Villarreal, Commissioner Nurith Galonsky, Commissioner Bryan Martinez, Commissioner Linda Macias, Commissioner Gustavo De Leon, and Commissioner Pedro Cardenas.

3) **Consideration and APPROVAL on SECOND and FINAL READING of Ordinance Number 2026-1822 levying ad valorem taxes for the Tax Year 2026 for the use and support of the Municipal Government of the City of Brownsville, Texas, for the Fiscal Year 2027, providing for the interest and sinking fund for the Fiscal Year 2027 City of Brownsville, Texas, General Obligation Debt. (Financial Services Department)**

Stephen Muse, Financial Services Director, explained that the item under consideration is the adoption of the tax rate used in the budget. He noted that the current tax rate is $0.60, while the voter approval tax rate calculated for the year was $0.61. The City elected to keep the existing $0.60 tax rate, resulting in no increase from the current rate. Muse added that the breakdown between the portion dedicated to debt service and the portion allocated to the General Fund is provided in the materials below. He also stated that the State requires the commission to adopt this item using specific statutory language.

Brief discussion among the City Commission and City staff.

Mayor John Cowen Jr. opened the public hearing.

There were no speakers.

Motion: Motion made by City Commissioner Nurith Galonsky, seconded by City Commissioner Gustavo De Leon, to close the public hearing. The vote was cast 7 for, 0 against . The motion carried unanimously.

Motion: Motion made by Commissioner Nurith Galonsky, seconded by Commissioner Pedro Cardenas, to approve that the property tax rate be increased by the adoption of a tax rate of $0.603504, which is effectively an 8.06 % increase in the tax rate. The vote was cast 7 for, 0 against. The motion carried unanimously.

Roll Call Votes Summary:
Ayes: Mayor John Cowen Jr. , Commissioner Tino Villarreal, Commissioner Nurith Galonsky, Commissioner Bryan Martinez, Commissioner Linda Macias, Commissioner Gustavo De Leon, and Commissioner Pedro Cardenas.

4) **Public Hearing and ACTION on FIRST READING of Ordinance Number 2026-1761-B of the City of Brownsville, Texas, to update the Master Fee Schedule of the City of Brownsville and**

DRAFT

amend pertinent sections of the Code of Ordinances to reflect those updates, and dealing with related matters. (Financial Services Department)

Stephen Muse, Financial Services Director, presented an overview of proposed fee updates across City departments. The proposal includes 114 new fees, 122 increases, 104 eliminations, and 48 reductions. He summarized key departmental changes, noting fee adjustments within the City Secretary's Office, Health, Wellness, and Animal Services, BARC, Planning and Redevelopment, Landfill, Health Department, Parks and Recreation, Golf Center, Event Center, Sports Park, Airport, Library, and the Convention and Visitors Bureau. Highlights included various permit related increases, new fees for departmental services, multiple eliminations of outdated fees, reductions for certain programs, and standardization of resident versus non resident pricing in several divisions. Mr. Muse also noted significant updates such as event related permit changes, youth program rental adjustments, Airport fee modifications, and new vendor registration fees through the CVB.
Commissioners raised questions about the shift away from resident and non resident fee structures. Mr. Muse stated that standardizing fees simplifies online registration systems but agreed to follow up with Parks on concerns that resident fees may increase as a result. Additional concerns were raised about landfill pricing for non residents and airport parking fees.

City staff committed to reviewing those items during the second reading of the ordinance.

Brief discussion among the City Commission and City staff.

Mayor John Cowen Jr. opened the public hearing.

There were no speakers.

Motion: Motion made by City Commissioner Bryan L. Martinez, seconded by City Commissioner Tino Villarreal, to close the public hearing. The vote was cast 5 for, 0 against [De Leon and Cardenas absent]. The motion carried unanimously.

Motion: Motion made by City Commissioner Bryan L. Martinez, seconded by City Commissioner Tino Villarreal, to approve first reading of Ordinance 2026-176-B. The vote was cast 5 for, 0 against [De Leon and Cardenas absent]. The motion carried unanimously.

5) **Public Hearing and ACTION on FIRST of THREE PUBLIC HEARINGS on imposing a temporary moratorium on the acceptance, processing, and approval of applications for High-Intensity Data Processing Facilities, Event Centers, Private Game Clubs, Automotive Quick Lube Facilities, and Self-Storage Facilities within the City of Brownsville and its extraterritorial jurisdiction, pursuant to Texas Local Government Code §§ 212.131–212.139; and ACTION on Resolution Number 2026-121 directing the City Manager to initiate the process to adopt a 90-day moratorium on the aforementioned uses and ratifying direction to the City Manager to reactivate the City of Brownsville Environmental and Conservation Task Force that was tasked with providing advice and recommendations to the City Council regarding data center policies and development regulations. (City Manager's Office/ Office of the City Attorney/ Planning and Redevelopment Department)**

DRAFT

Will Trevino City Attorney, presented the process for adopting a moratorium primarily focused on data centers, prompted by a July 1, 2026, zoning application for a facility at the former Walmart site. Staff determined that current City regulations do not adequately address data centers, leading to initiation of the moratorium procedure. The first public hearing was held following the required 30 day notice, and Resolution No. 2026 01 21 was presented to initiate the 90 day moratorium allowed under state law. A second public hearing is scheduled for October 6, 2026, after which the City Commission must make a final determination within 12 days.

The moratorium ordinance will undergo two readings: October 13th and November 17th, with approval requiring a three fourths vote of the full Commission. The initial moratorium would run from November 18, 2026, through February 16, 2027. A single extension—up to an additional 90 days—is permitted, with required notices and hearings, potentially extending the moratorium until May 17, 2027.

Mr. Trevino explained that state law requires written findings, an appeal process, and adoption of final regulations once the moratorium concludes. He outlined the current interpretation of data centers under the UDC and noted the Governor's temporary pause on new data center connections to the ERCOT grid. He also reviewed industrial zoning areas and highlighted different types of data centers with varying impacts on water, energy, and noise.

The proposed resolution directs the City to conduct a comprehensive regulatory review and reactivate the Environmental and Conservation Task Force to evaluate impacts and provide recommendations. Four additional uses—poker lounges, quick lube facilities, event centers, and self storage—are also included in the moratorium process, with proposed amendments already moving through Planning and Zoning review.

Commissioner Bryan L. Martinez also requested clarification on the required appeal process.

Mr. Trevino explained that state law mandates an appeal mechanism and that the City proposes designating the City Commission as the appellate body. The City Attorney stated that legislative priorities vary and that, based on interim reports, zoning does not appear to be a primary focus this session. He noted ongoing concerns about state level actions reducing local regulatory authority and cited recent statutory changes that lengthened the moratorium adoption process from five days after publication to a 90 day timeline.

Commissioner Martinez emphasized that the lack of statewide regulations makes it difficult for cities to manage data centers effectively and expressed hope that the Legislature will prioritize the issue.

Mr. Trevino emphasized that adopting anything longer than 90 days initially would violate state law and expose the City to legal challenges. The City must follow all statutory steps, including publishing a notice and holding required hearings before extending the moratorium.

Mr. Trevino noted that staff has already scheduled all necessary dates: publication on December 30, 2026; the first extension hearing on January 19; and the second reading on February 2. This timeline ensures there is no lapse in coverage, allowing the City to reach the full 180 day period permitted by law. Even if regulations are finalized earlier, the moratorium would still remain in effect.

Mayor John Cowen Jr. asked to confirm that the moratorium timeline presented is the fastest allowed under state law, which the City Attorney affirmed. The Mayor also asked when a draft ordinance regulating data centers could be presented.

Mr. Trevino noted that a draft is already prepared and can be brought forward at the next meeting.

Commissioner Pedro Cardenas questioned whether special meetings could accelerate the moratorium schedule by adjusting hearing dates.

DRAFT

Mr. Trevino agreed to review the dates but explained that publication requirements may limit the ability to compress the timeline.
The Commission then discussed whether certain land use categories—other than data centers—could be removed from the moratorium since related UDC amendments are already in progress.
Mr. Trevino confirmed that categories can be adjusted, though the data center portion would remain due to the task force's role.
The Environmental and Conservation Task Force was also discussed. Staff explained that it can meet as often as needed, meetings can be streamed, and work should ideally be completed within the 90 day moratorium period, with the full 180 days available if necessary.
Finally, commissioners requested clarification on task force membership and appointment procedures.
Mr. Trevino stated that representation can be modified before adoption and that appointments may occur immediately or through the standard application process.
Commissioner Cardenas suggests ensuring each commissioner has at least one appointment to the task force.

Mayor John Cowen Jr. opened the public hearing.

Elisa Babron, 5307 Nicholstone St Brownsville, Texas, submitted a Public Comment Form, but she was not present to express her comments to the Commission.
Uriel Gavito, 5527 Southmost Blvd in Brownsville, Texas, expressed concerns about the democratic process, questioned the police presence and intimidation of media, criticized lack of media coverage, and urged transparency and engagement regarding SpaceX and data centers.
Pablo Esquivel, District 4 resident, criticized the annexation and water deal, stated that the commission disregarded public concerns, and requested a ban on data centers due to their environmental, privacy, and societal impacts.
Yolanda Speece, 305 West Madison Brownsville, Texas, described an incident involving police aggression, criticized Brownsville Police Department conduct, and questioned the city's handling of public safety and accountability.
Gustavo Sanchez, 1001 E Elizabeth St #234, Brownsville, Texas, warned of environmental harm and lack of regard for human life, and urged adoption and extension of a data center moratorium.
Julia Ferrel, 221 W 2nd St, Brownsville, Texas, spoke as a mother, warning of heat, pollution, water shortages, and the impact of data centers on children's health. She urged approval of the moratorium.
Leah Hollingshead, 4200 Las Palmas Cir. Brownsville, Texas, she objected to the potential data center, highlighted nationwide data center impacts, questioned the rushed MOU, and argued that Brownsville residents should not bear data center harms.
Dr. Laura Cisneros, 384 las rosas, ave. Brownville, Texas, she emphasized existing water shortages, pollution, respiratory illnesses, and noise concerns. She urged the commission to consider location, families, and community health.
Dr. Etienne Rosas, 704 Paredes Ln Rd. Brownsville, Texas, accused SpaceX of dictating terms, criticized the rushed process, warned of water shortages linked to AI data center expansion, and urged strong regulation and community involvement.
Jacqueline Morales, 704 Paredes Ln Rd. Brownsville, Texas, recounted attending a state Senate hearing on data centers, raising concerns about water and electricity usage, criticized the rushed deal with SpaceX, and urged a long-term moratorium and learning from other Texas cities.

DRAFT

Brandy Garcia,2964 Stanolind ave. Brownsville, Texas, expressed confusion about supporting water access while considering data centers, stated loss of trust in officials, and urged officials to reflect on their decisions.
Rebekah Hinojosa, 1249 E Adams St. Browsville, Texas, opposed the 444-acre de-annexation and the MOU, criticized the lack of transparency, and demanded a community-led moratorium and a task force free of corporate influence.
Viviana Trevino, 1900 University Blvd, Apt 2009 Brownsville, Texas, submitted a Public Comment Form, but she was not present to express her comments to the Commission.
Nathan Watson, 51, Alberta Dr. Brownsville, Texas, compared the SpaceX deal to a "shake down," warned of future demands, and explained prior instances of SpaceX attempting to gain long-term control of public infrastructure.
Dr. Christopher Basaldu, 651 Old Port Isabel Rd. Brownsville, Texas, criticized SpaceX's impact on sacred lands, called data centers harmful and unnecessary, and condemned the commission for enabling environmental and cultural destruction.
Martha Ramirez, 6315 Penjamo St. Brownsville, Texas, argued that corporations do not pay the true environmental costs, explained water and electricity concerns, and urged rejection of additional data centers.
Annelisa Rosas 25 fireside dr. Brownsville, Texas, described an incident of inappropriate behavior from a SpaceX supporter during a meeting, argued that corporations are not community members, and demanded a moratorium.
Josette Hinojosa, 1225 W. Washington Brownsville, Texas, highlighted national support for moratoriums, described community organizing, criticized the commission's alignment with corporations, and argued for a community-led process.
Jonathan Berg, 613 West Saint Charles St. Brownsville, Texas, emphasized data centers' strain on electricity and water, linked them to pollution, and urged approval of the moratorium to protect Brownsville.
Hermilio Hernandez, 411 E 9th St. Brownsville, Texas, voiced disappointment and frustration with recent decisions and stated loss of trust in city leadership.
Adhelmy Sanchez Martinez,478 Rey Juan Carlos St. Brownsville, Texas, represented several organizations, did not oppose water investment but questioned SpaceX's role, and urged creation of permanent protections and stronger zoning regulations.
Hugo Izaguirre, 2964 stanolind ave. Brownsville, Texas, he expressed support for a full 180-day moratorium, criticized the commission for allowing SpaceX influence, and urged placing residents above corporate interests.
Melani Velasquez, 5401 Amatista Dr. Brownsville, Texas, warned of environmental strain from AI data centers, heat impacts, climate fears among young people, and urged prioritizing sustainable technology.
Desto Huerta, 801 Tropical Drive, Brownsville, Texas, criticized corporate influence, emphasized water access concerns, urged a community-led task force, and advocated limiting utility access for data centers.
John Cuviller,801 Tropical Drive Apt 3, Brownsville, Texas, criticized the commission for siding with billionaires, urged excluding corporate interests from the task force, and requested representation from local labor unions.
Gloria Galindo, 4926 Camino Verde St. Brownsville, Texas, submitted a Public Comment Form, but she was not present to express her comments to the Commission.

DRAFT

Keyla Garcia, 624 pera ave Brownsville, Texas, submitted a Public Comment Form, but she was not present to express her comments to the Commission.
Rodrigo Guerera, 34, Shadowbrook Ln, Brownsville, Texas, submitted a Public Comment Form, but he was not present to express his comments to the Commission.
Amelia Murillo, Brownsville resident, urged officials to reconsider decisions, highlighted community and environmental vulnerability, and described disrespectful behavior from a SpaceX representative.
Alfredo Medrano Jr. a Brownsville resident, highlighted Brownsville's rare biodiversity, criticized neglect of native plants, warned of heat impacts from development, and advocated for strong native plant ordinances.
Angel Reyna, a Brownsville resident, questioned the motives of city leadership, criticized support for SpaceX, and argued that data centers primarily benefit wealthy investors, not the community.
Juan Perez, a Brownsville resident cautioned against unchecked data center development, noted an economic bubble forming around AI infrastructure, urged reliance on community sustainability rather than corporate-driven development.
Ernesto Casas Brownsville resident, described data centers as contributing to surveillance, labor displacement, noise pollution, and rising utility costs; warned they primarily benefit corporations.

Motion: Motion made by City Commissioner Pedro Cardenas, seconded by City Commissioner Nurith Galonsky, to close the public hearing. The vote was cast 7 for, 0 against. The motion carried unanimously.

Motion: Motion made by City Commissioner Tino Villarreal, seconded by City Commissioner Pedro Cardenas, to approve Resolution No. 2020 6 121 directing the City Manager to initiate the process to adopt a 90 day moratorium and to reactivate the City of Brownsville Environmental and Conservation Task Force. The motion included specifying that the moratorium applies to high intensity data processing facilities and excludes event centers, private game clubs, automotive quick lube facilities, and self storage facilities. The vote was cast 7 for, 0 against. The motion carried unanimously.

ITEMS FOR INDIVIDUAL CONSIDERATION(S)

1) **Consideration and ACTION to acknowledge the financial statements and cash investment report for the City of Brownsville for the third quarter ended June 30, 2026. (Financial Services Department)**

Stephen Muse, Financial Services Director, presented the Q3 Financial Report as of June 30. General Fund revenues totaled 116.3 million and expenditures were 108.1 million. Sales tax revenues increased to 37.2 million, and property tax collections reached 68.6 million. Landfill revenues totaled 13.7 million, the PUB cash transfer was 8.7 million, and veterans bridge revenues were approximately 2.9 million. Fund balances remained stable, with a General Fund balance of 55 million. Veterans bridge traffic and revenues increased, building permit values rose significantly, and investment earnings improved. Enterprise funds continued showing positive performance.

DRAFT

Motion: Motion was made by Commissioner Bryan L. Martinez, seconded by City Commissioner Nurith Galonsky, to acknowledge the financial statement and cash investment report. The vote was cast 6 for, 0 against [De Leon absent]. The motion carried unanimously.

2) **Consideration and ACTION to award contract number 141-26-BMT-IFB to 2GS LLC dba Earthworks Enterprise in the amount of $1,539,579 for the Southmost Nature Trail Phase III, as budgeted. (Multimodal Transportation)**

Juan Pena, Transit and Mobility Planner, presented the Southmost Nature Trail Phase III construction project for consideration. The project covers approximately two miles, beginning at the South most Public Library and extending east and north around Morningside Park, ending at Morningside Elementary School. Improvements include lighting, enhanced pedestrian crosswalks, safety features, and new walkways connecting the library, park, and school. The project was advertised in April, with bids collected in May. Earthworks Enterprise submitted the second lowest but most responsible bid at 1.5 million. If approved, construction is expected to begin in October and last approximately 98 working days. Staff recommended awarding the project, citing its value for community connectivity and recreation.

Motion: Motion was made by Commissioner Bryan L. Martinez, seconded by City Commissioner Linda C. Macias, to award contract number 141-26-BMT-IFB to 2GS LLC dba Eartworks Enterprise. The vote was cast 7 for, 0 against. The motion carried unanimously.

3) **Consideration and ACTION to authorize the approval of a Tree Removal Permit as an alternative to the preservation of Protected and Heritage Trees under the Unified Development Code, Section: 5.1.3.B – Heritage Tree, for a proposed fuel station and convenience store development on the property described as being a 2.272-acre tract of land situated in the Jose Salvador De La Garza Survey, Abstract No. 2, comprised of a portion of Block 19, Share 27, El Jardin Subdivision; and all of a called 1.08-acre tract out of a certain 1.584-acre tract in Block 19, El Jardin Subdivision, Share 27, E.S. Gt., Cameron County, located at 4660 Boca Chica Boulevard, Brownsville, Texas 78521 (Planning & Redevelopment Department / Office of the City Forester) (District 1).**

Martin Vega, Assistant Director of the Planning and Redevelopment Department, presented a request for a tree removal permit for protected and heritage trees at 4660 Boca Chica Boulevard. The project began prior to the adoption of updated June regulations and is therefore reviewed under the previous provisions. The 2.12 acre property, zoned Commercial Corridor, is proposed for development as a convenience store and fuel station. A total of 187.5 caliper inches of protected and heritage trees will be removed. Under the prior code, protected trees require one to one mitigation and heritage trees require three to one mitigation. The applicant proposes planting 39 new trees on site—including Chinese pastiche, live oaks, and cedar elms—totaling 156 caliper inches. The remaining 289.5 inches will be addressed through a fee in lieu of approximately $67,000, based on nursery estimates reviewed and verified by the City Forester. Two protected trees will remain on site, which grants the developer six mitigation credits under the code.
Commissioners discussed allowable uses of tree mitigation funds, noting that such funds can support tree planting in parks, along trails, and in areas needing canopy—such as the dog park.

DRAFT

Staff also clarified that recent code amendments limiting one gas station per intersection do not apply, as this application is vested under the prior code.

Motion: Motion was made by Commissioner Nurith Galonsky, seconded by City Commissioner Bryan L. Martinez, to deny the permit. The vote was cast 7 for, 0 against. The motion carried unanimously.

4) **Consideration and ACTION on SECOND and FINAL READING on Ordinance Number 2026-1823 of the City of Brownsville, Texas, to disannex, and hereinafter reduce the City of Brownsville corporate and extraterritorial jurisdiction boundary limits, a property described as being 444.45 acre tract of land, more or less, out of Tract "A", Share 7 of the San Martin Grant, Cameron County, Texas, together with all adjacent right-of-way, as shown in Exhibit "A" to the Ordinance. (District 2) (City Manager's Office)**

No action.

EXECUTIVE SESSION

Motion: Motion made by Commissioner Tino Villarreal, seconded by City Commissioner Bryan Martinez to enter into Executive Session at 9:52 p.m. The vote was 7 for, 0 against. The motion carried unanimously.

1) **Closed session pursuant to Tex. Gov't. Code Sections 551.071 (Consultation with Attorney), 551.072 (Deliberation regarding real property), and 551.087 (Deliberation regarding Economic Development Negotiations) related to Project Fulcrum. (Office of the City Attorney/ City Manager's Office)**
2) **Closed session pursuant to Tex. Gov't. Code Section 551.071 (Consultation with Attorney) related to Collective Bargaining Agreement with Brownsville Police Officers' Association, Charter 290577-01 (Office of the City Attorney/ City Manager's Office)**
3) **Closed session pursuant to Tex. Gov't. Code Section 551.071 (Consultation with Attorney) regarding Ordinance No. 2026-1797, City Code Section 2-26, public comment regulations. (Office of the City Attorney/ Office of the City Secretary)**
4) **Closed session pursuant to Tex. Gov't. Code Section 551.071 (Consultation with Attorney) related to Project Quantum. (Office of the City Attorney/ City Manager's Office)**
5) **Closed session pursuant to Tex. Gov't. Code Section 551.071 (Consultation with Attorney) related to Project Tune-Up. (Office of the City Attorney/ City Manager's Office)**

Items 1, 3, and 5 scheduled for discussion in Executive Session were addressed, and a certified agenda was maintained. Items 2 and 4 were tabled and were not discussed during Executive Session.

Upon the conclusion of the Executive Session, Mayor John Cowen Jr. reconvened the Regular Meeting at 10:34 pm.

POSSIBLE ACTION ON ANY ITEM(S) AS DISCUSSED IN EXECUTIVE SESSION

DRAFT

1) **Consideration and ACTION, if any, related to Collective Bargaining Agreement with Brownsville Police Officers' Association, Charter 290577-01. (Office of the City Attorney/ City Manager's Office)**

No Action.

2) **Consideration and ACTION, if any, related to Project Tune-Up. (Office of the City Attorney/ City Manager's Office)**

Motion: Motion was made by Commissioner Bryan L. Martinez, seconded by Commissioner Pedro Cardenas, to proceed as discussed in executive session. The vote was cast 7 for, 0 against. The motion carried unanimously.

ADJOURNMENT

There being no further business to come before the Commission, upon duly made motion the meeting adjourned at 10:35 PM.

Approved 6th day of October 2026.

_____
John Cowen, Jr.
Mayor

ATTEST:

_____
Mayra A. Rios,
City Secretary

Respectfully submitted by: Blanca E. Gonzalez, Administrative Assistant, MPA, TRMC

THE STATE OF TEXAS §
CITY OF BROWNSVILLE §
COUNTY OF CAMERON §

MINUTES of a **Special Meeting** of the City Commission of the City of Brownsville, Texas, held on **Tuesday, September 22, 2026**, at **5:00 p.m.** at the **City Commission Chambers,** located at **1001 East Elizabeth Street** and **via Webex Teleconference Meeting by logging on at:**

https://brownsvilletx.webex.com/brownsvilletx/j.php?MTID=mb0f8d1240d8f166059ae34c036f78f88

The following City Commission members were present:

JOHN COWEN, JR. Mayor

COMMISSIONERS:

TINO VILLARREAL, At-Large "A"

BRYAN L. MARTINEZ, District 1

LINDA C. MACIAS, District 2

GUSTAVO DE LEÓN, District 3

PEDRO E. CARDENAS, District 4

The following City Commission members were absent:

NURITH GALONSKY, At-Large "B"

The following staff members were present:

FELIX SAUCEDA Deputy City Manager/Chief of Police

DOROTEO GARCIA Deputy City Manager
WILL TREVINO, City Attorney

JENNIFER AVENDANO, First Assistant City Attorney

MARINA ZOLEZZI, Interim Assistant City Manager

EFREN TRUJILLO, Interim Chief of Staff

MAYRA A. RIOS City Secretary

The following staff members were present:

ALAN GUARD City Manager

CALL TO ORDER

a) **ROLL CALL**

DRAFT

Mayra A. Rios, City Secretary, introduced Blanca Gonzalez, Interim Deputy City Secretary, who will proceed to lead the meeting.
A quorum being present, Blanca Gonzalez, Interim Deputy City Secretary, read the call to order considering the matters as posted and filed for the record in the Office of the City Secretary pursuant to the Texas Open Meetings Act.
Mayor John Cowen, Jr., called the meeting to order at 5:00 p.m.
Mayor John Cowen, Jr., Commissioner Tino Villarreal, Commissioner Bryan L. Martinez, Commissioner Linda C. Macias, Commissioner Gustavo De Leon, and Commissioner Pedro Cardenas attended the meeting in person.

b) INVOCATION

Pastor Carlos Navarro delivered the invocation.

c) PLEDGE OF ALLEGIANCE TO THE FLAGS OF THE UNITED STATES OF AMERICA AND STATE OF TEXAS

The Pledge of Allegiance to the United States Flag and the Texas Flag was led by member of the Girls Scouts Troop 2139, Julissa Ramos, along with Mayor and City Commission.

PRESENTATION(S)

1) Presentation of Brownsville Housing Master Plan progress updates — Public Engagement & Housing Needs Assessments (Planning & Redevelopment Department)

Daniel Leal, Planning and Redevelopment Department Director, addressed the Mayor and City Commission and introduced the presentation. Mr. Leal explained that the Planning and Redevelopment Services team is pleased to present two projects that contribute to strengthening the city's long term planning efforts.
He noted that Brownsville is at an important moment in shaping its long term housing future. Over recent months, the department has collaborated with residents, community partners, and local leadership to better understand current housing conditions, challenges, and opportunities. The housing plan reflects this input by pairing data driven analysis with community perspectives to ensure the path forward aligns with the needs and aspirations of Brownsville's families and neighborhoods.
Mr. Leal then introduced the project team, including Jasmine Harper, Director at HR&A Advisors, who specializes in place based economic development, real estate, and retail strategies, and previously served with Denver's Office of Economic Development and Opportunity. He also introduced José Eduardo Sánchez, Cultural Organizer and Civic Infrastructure Strategist with more than 15 years of experience working alongside multicultural working class communities to expand civic participation and build community partnerships.

During the presentation, Jasmine Harper, Director of HR&A Advisors, and José Eduardo Sánchez of Tecolotl provided an overview of the Brownsville Housing Plan's analysis and community engagement progress.

DRAFT

Ms. Harper began by explaining that HR&A Advisors have spent the past several months working closely with the City's Planning and Redevelopment Department to understand Brownsville's current housing needs. She reviewed the housing needs assessment, which examined trends across the city and resulted in four major findings. These included significant population growth and increasing income divergence between new and long term residents; the continued accessibility of homeownership for a range of income groups; a persistent shortage of affordable rental housing for lower income households; and uneven housing investment across neighborhoods, with downtown and Southmost areas experiencing less reinvestment compared to the city's outer edges. She noted that these findings will guide the development of future policies, tools, and recommendations. Ms. Harper then transitioned the presentation to community engagement updates.

Mr. Sánchez reported that the engagement efforts have reached residents across the city through open houses, surveys, and outreach events. Since June, the team has hosted two open house events, collected 242 surveys, and facilitated more than one thousand resident interactions at various community gatherings, including the Farmer's Market, First Friday, Fourth of July celebrations, and the Lunada Artisan Market. He shared that residents consistently raised four main themes: concerns about affordability and homeownership as costs outpace incomes; the importance of quality neighborhood infrastructure; the desire for growth that strengthens existing communities; and interest in long term housing stability. Mr. Sánchez noted that this feedback directly informs HR&A's draft recommendations. He invited the public to attend the upcoming community open house on October 29 at the Brownsville Public Library Main Branch, where residents will be able to review draft recommendations and provide input before final policies are shaped.

Commissioner Bryan L. Martinez asked the project team whether demographics related to seniors and individuals with special needs were being considered in the housing plan, noting that two families had approached him during a recent engagement event expressing concern about these populations.
Samuel Nunez, Senior Planner, responded that the plan is indeed addressing the needs of seniors, individuals with accessibility concerns, and other specific demographic groups. He explained that the recommendation phase of the plan will include targeted strategies for different populations, including college students, seniors, and households with varying accessibility needs. Mr. Nunez added that one key concern raised by senior residents is the ability to age in place. Rising property values have created pressure for some longtime homeowners who feel compelled to sell their homes and relocate to more affordable options. The team is evaluating how the housing plan can provide solutions that support aging in place and housing stability for these residents.

Mayor John Cowen then expressed appreciation to all involved in the housing plan, noting that it is one of the most impactful initiatives the City has undertaken and reiterating the City's commitment to ensuring that Brownsville remains a viable option for all residents.

2) Introduction and Overview of the Brownsville Design Guidelines and Standards (Planning & Redevelopment Department)

Daniel Leal, Planning and Redevelopment Department Director, introduced the Brownsville Historic Design Standards and Guidelines project, describing it as a collaborative effort aimed at enhancing architectural quality, reinforcing the city's historic character, and providing clearer, more

DRAFT

consistent guidance for property owners, developers, and City staff. He noted that the project directly supports the Downtown Revitalization Plan by helping promote compatible residential and commercial development in the historic core. Mr. Leal introduced the project team, including Caitlin Admire of Freeze and Nichols, Justin Newhart of Terracon, and additional historic preservation staff, emphasizing their expertise in urban design, sustainability, and preservation.

Caitlin Admire provided an overview of the purpose and intended users of the new guidelines. The goal is to set clearer expectations for applicants, property owners, developers, and reviewers, reducing uncertainty and improving the alignment of design decisions made by staff and the Historic Preservation Commission (HPC). She explained that the guidelines will apply within the mapped historic overlay area, which contains approximately 440 vacant properties. Once adopted, the standards are expected to replace the existing historic overlay regulations.
Ms. Admire clarified the distinction between standards, requirements comparable to ordinance specifications—and guidelines, which outline recommended practices and intentions. She noted that the document will include both, with standards defining measurable requirements and guidelines offering flexible, encouraged approaches.

Justin Newhart described the framework of the draft document, including how it will interact with existing ordinances, outline design review processes, and provide clear, visual guidance for property owners and applicants. He reported that the guidelines will cover site design, building form, signage, and public realm elements to ensure compatibility with Brownsville's architectural and cultural identity. He highlighted community and stakeholder feedback calling for clarity, visual examples, predictability, and enforceability. The project is approximately halfway complete, with final adoption anticipated in December. During the question period, a commissioner asked how the HPC would be involved when projects fall outside the guidelines. Mr. Newhart explained that a waiver process would allow the HPC to review such requests based on the overall intent of the guidelines. The commissioner emphasized the importance of a fact based, standardized process to support consistent decision making.
The Commission expressed appreciation for the clarity and direction the guidelines will bring to Brownsville's historic development efforts.

PUBLIC COMMENT PERIOD

Blanca Gonzalez, Interim Deputy City Secretary, noted that 7 preregistered speakers were identified, with five indicating they did not wish to speak.

Motion: Motion was made by City Commissioner Bryan Martinez, seconded by City Commissioner Pedro Cardenas, to approve suspending the speaker limit and allow all speakers to address the Commission, each with a three-minute time limit. The vote was cast 6 for, 0 against [Galonsky absent]. The motion carried unanimously.

Tony Garcia, of 5159 Dale Iden Drive, Brownsville, Texas, founder of Warriors United in Arms, highlighted his group's $70,000 in donated improvements to the veterans park and outlined plans to honor Sergeant José M. Mendoza with a park renaming and proposed statue, inviting the Commission to the October 17th fundraiser.

DRAFT

Dr. Christopher Busaldu,651 Old Port Isabel Rd. Brownsville, Texas, addressed concerns regarding the proposed environmental task force resolution. He stated that its language appears to assume data center development is inevitable and urged the Commission to consider that data centers may not be economically viable.

Uriel Gavito, 5527 Southmost Rd. Brownsville, Texas, cautioned the Commission against allowing the task force to become a vehicle for "greenwashing." He emphasized that genuine ecological improvement requires the right members, adequate resources, and authority to enact real change.

Diablo Velez, 1254E. Tyler st. Brownsville, Texas, spoke regarding the Coca Cola mural downtown. He expressed concern that the mural did not reflect American Revolutionary themes and criticized its appropriateness and purpose.

Dr. Etennie Rosas, 33 Shadowbrook Lane, Brownsville, Texas, expressed support for a community led environmental task force, emphasizing the importance of clean water, air, housing, healthcare, and community integrity. He encouraged the Commission to adopt a research based sustainability framework that evaluates development projects proactively.

Rebekha Hinojosa, 3005 Old Alice Rd APT 1500A, Brownsville, Texas, resident and member of the South Texas Environmental Justice Network, advocated for transparency in the task force appointment process. She requested that the Commission publish candidate names before voting and allow public comment on nominees.

Kevin Collins, 5409 Austin Road, Brownsville, Texas, presented concerns regarding a proposed municipal drainage fee ordinance scheduled for future Commission consideration. He requested that religious organizations be included in the list of eligible exemptions, citing state statute and examples from Houston's ordinance.

CITY MANAGER'S UPDATE(S)

1) **Pet of the Month Adoption Spotlight**

Joanna Medina, Assistant Director of the Brownsville Animal Shelter presented the Pet of the Month and introduced Jordan Wally, the adoption specialist. They introduced Faith, a three month old lab mix who arrived at Bark as a stray. Faith was described as playful, sweet, curious, and full of typical puppy energy. The month of August was highlighted due to Bark's participation in the Clear the Shelters campaign.

2) **Introduction and welcome of the City's new Assistant Finance Director, Rodrigo Gimenez.**

Doro Garcia, Acting City Manager, welcomed the City's new Assistant Finance Director, Rodrigo Jimenez, with over 20 years of governmental accounting experience. Mr. Jimenez expressed gratitude for the warm welcome he received from day one and thanked the HR team and Finance Director for their support. He stated he looked forward to serving the community and contributing to the city's mission.

3) **Recognition of Service, Jorge Cardenas, Chief Information Officer.**

DRAFT

Doro Garcia, Acting City Manager, recognized the service of Jorge Cardenas, Chief Information Officer, for his nearly three years of work with the City of Brownsville. His leadership was acknowledged for advancing the city's fiber network, private 5G network, and cybersecurity protocols. Mr. Cardenas highlighted the growth of the IT Department from three staff members to 22 highly skilled and efficient team members. He thanked city leadership for their support and noted that maintaining technology is essential, much like nurturing a relationship. He expressed confidence in the department's future and gratitude for the opportunity to serve.

CONSENT AGENDA ITEM(S)

1) Consideration of approval of minutes from the City Commission Special Meetings held on August 17, 2026, August 21, 2026 and August 29, 2026. (Office of the City Secretary)
2) Consideration and **ACTION** to approve the Interlocal Agreement between the City and the Brownsville Independent School District for the use of their property to install and maintain a bus shelter located at 2477 Price Road. (Brownsville Metro)
3) Consideration and **ACTION** to approve Tokio Marine HCC for Stop Loss Services for the City of Brownsville for Fiscal Year 2027, in the amount not to exceed $1,059,730, as budgeted. (Organizational Development and Human Resources)
4) Consideration and **ACTION** to approve the CPI Rate Adjustment for Redfish Recycling effective October 1, 2026, not to exceed 3.53%. (Internal Services Department)
5) Consideration and **ACTION** to approve the CPI Rate Adjustment for Republic Services effective October 1, 2026, not to exceed 4.70%. (Internal Services Department)
6) Consideration and **ACTION** to approve a three-year purchase of VMware Cloud Foundation and VMware vDefend licensing and support from SHI Government Solutions, Inc., through Texas Department of Information Resources Contract DIR-CPO-5241, in a total amount not to exceed $263,502.72, payable in three annual installments of $87,834.24. (Information Technology Department)
7) Consideration and **ACTION** to approve the first renewal of Contract No. 093-24-FIN-RFP with Deep Blue Investment Advisors for Investment Advisory Services for $34,500. (Financial Services Department)
8) Consideration and **ACTION** to approve TRIPPP Consulting's Change Order #1, which would address the unforeseen success of increased trips for Fiscal Year 2026 with the Uber Rideshare Pilot program on Brownsville Metro's Route 30 in the amount not to exceed $40,000, as budgeted. (Brownsville Metro).
9) Consideration and **ACTION** to adopt **Resolution Number 2026-114**, reviewing, amending, and readopting all the provisions listed in the documents titled "City of Brownsville, Texas Amended Investment Policy" and "City of Brownsville, Texas, Amended Investment Strategy Statement". (Financial Services Department)
10) Consideration and **ACTION** to approve **Resolution Number 2026-128** supporting Cameron County's acquisition of the B&M International Bridge and related facilities and recognizing its importance to regional transportation, international trade, and economic development. (Engineering and Public Works)

Blanca Gonzalez, Interim Deputy City Secretary, noted that Item Number 8 had been requested to be removed, and no action was required.
The City Commission requested to pull Item 10 and placed on the next meeting agenda.
City Commissioner requested to pull consent items 5 and 9.

DRAFT

Motion: Motion was made by Commissioner Bryan L. Martinez, seconded by Commissioner Linda C. Macias to approve consent agenda items 1 through 7 and 9. The vote was cast 6 for, 0 against [Galonsky absent]. The motion carried unanimously.

Motion: Motion was made by Commissioner Tino Villarreal, seconded by Commissioner Linda C. Macias to table Item number 10 for a future meeting. The vote was cast 6 for, 0 against [Galonsky absent]. The motion carried unanimously.

PUBLIC HEARING(S)

1) **Public Hearing and ACTION on FIRST READING on Ordinance Number 235-2026-019, to rezone from Residential Estate (RE) to Residential Single-Family (R-1) to allow a single-family residential development for a 1.00-acre tract of land out of Lot 4, Block 307, El Jardin Re-Subdivision, Cameron County, Texas, located at 835 South Indiana Avenue, Brownsville, Texas 78521, as shown in Exhibit "A". (District 1) (Planning & Redevelopment Department)**

Samuel Nunez, Senior Planner of the Planning and Zoning Department, presented a request to rezone a property along South Indiana Avenue from Residential Estate (RE) to Residential Single Family (R 1). The proposed rezoning would allow for a future single family residential development, preliminarily envisioned as four residential lots with two access points from South Indiana Avenue. No subdivision application has yet been submitted. All required public hearing notifications were completed, including posting a sign at the property and mailing seven notices to adjacent property owners. No opposition was received. Mr. Nunez reviewed existing zoning in the surrounding area, noting that properties east of the site lie outside city limits under county jurisdiction. Nearby properties include residential estate, agricultural, residential suburban, and light industrial uses. Staff found the request consistent with the Comprehensive Plan and Future Land Use Plan and recommended approval. The Planning and Zoning Commission also recommended approval. The item was then opened for questions or comments from the commission.

Mayor John Cowen opened the public hearing.

There were no speakers.

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Linda C. Macias, to close the public hearing. The vote was cast 6 for, 0 against [Galonsky absent]. The motion carried unanimously.

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Linda C. Macias, to approve first reading on Ordinance 235-2026-019. The vote was cast 6 for, 0 against [Galonsky absent]. The motion carried unanimously.

2) **Public Hearing and ACTION on FIRST READING on Ordinance Number 235-2026-021-PD, to establish a Planned Development District (PD) to establish development-specific zoning regulations that would permit reduced setbacks, detached accessory structures in the front yard, and unique design standards for the proposed residences, for 2.817 acres, being all of Common Area 1 of Butterfly Grove Subdivision, Cameron County, Texas, located at 1903**

DRAFT

Grove Lane, Brownsville, Texas 78526, as shown in Exhibit "A". (District 3) (Planning & Redevelopment Department)

Carlos Guerra, Senior Planner of the Planning and Redevelopment Department, presented a request to establish a Planned Development District (PDD) for approximately 2.817 acres along Grove Lane. The PDD would permit reduced front setbacks, increased rear setbacks, detached accessory structures in the front yard, and unique design standards for a nine lot single family subdivision with two common green space areas. Required public notices were issued, including a sign posted on the property and 26 mailed notices to nearby owners. One letter was received expressing concern about potential on street parking and its impact on emergency access.
Mr. Guerra explained that the requested modifications are consistent with the Comprehensive Plan and represent a continuation of a PDD approved in 2018. He noted that each home would include a two car garage and double driveway, providing up to four off street parking spaces and helping mitigate curb parking concerns.
Staff clarified that parking restrictions cannot be imposed through the rezoning action but may be addressed during the plat review process. The Fire Department may recommend no parking zones if emergency vehicle access is affected, and the Traffic Department can apply striping or restrictions as needed.

Mayor John Cowen opened the public hearing.

There were no speakers.

Motion: Motion made by Commissioner Pedro Cardenas, seconded by Commissioner Gustavo De Leon, to close the public hearing. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

Motion: Motion made by Commissioner Pedro Cardenas, seconded by Commissioner Gustavo De Leon, to approve first reading on Ordinance 235-2026-021-PD. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

3) **Public Hearing and ACTION on FIRST READING on Ordinance Number 235-2026-022-S, to request a Specific Use Permit in a Regional Center (RC) zoning district to allow an event center for Suite G, Lot 3, Block 1, Springmart I Subdivision Replat #2, Cameron County, Texas, located at 3231 Pablo Kisel Boulevard, Brownsville, Texas 78526, as shown in Exhibit "A". (District 3) (Planning & Redevelopment Department)**

Carlos Guerra, Senior Planner of the Planning and Redevelopment Department, presented a request for a Specific Use Permit (SUP) to allow an event center within a Regional Center zone in the Pablo Kisel/Morrison area, located inside the Midtown Entertainment District Overlay. Public hearing notices were posted, and four mailed notices were sent; no opposition was received. The proposed event center would occupy a 2,800 square foot suite formerly used as a Christian bookstore, operating primarily during daytime hours and closing around 8–9 p.m. The venue would host small, family oriented events and would not sell alcohol. The plaza contains 190 parking spaces, and the maximum occupancy for the venue is 80 people. The request is consistent with the Comprehensive

DRAFT

Plan, and staff recommended approval with sound mitigation conditions. The Planning and Zoning Commission also recommended approval.

Mayor John Cowen opened the public hearing.

The business owner expressed her desire to change the zoning to a classification that better meets current needs without affecting surrounding businesses.

Motion: Motion made by Commissioner Linda C. Macias, seconded by Commissioner Tino Villarreal, to close the public hearing. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Linda C. Macias, to approve first reading of Ordinance 235-2026-022-S. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

4) **Public Hearing and ACTION on FIRST READING on Ordinance Number 2026-235.130, to amend the City of Brownsville Unified Development Code (UDC, Article 4 – Zoning Regulations, Subsection 4.4.3 – Permitted Use Chart, Subsection 4.4.4 – Additional Use Standards, and Article 6 – Definitions) to regulate poker lounges, event centers, quick lube facilities, self-storage facilities; and dealing with related matters, as shown in Exhibit "A". (Planning & Redevelopment Department)**

Carlos Guerra, Senior Planner of the Planning and Redevelopment Department, presented a series of proposed amendments to the Unified Development Code intended to clarify land use definitions, add use specific standards, and better protect adjacent neighborhoods. The amendments addressed four use categories: quick lube/oil change facilities, event centers, poker lounges, and self storage facilities. Mr. Guerra explained that current regulations do not adequately distinguish these uses or address their impacts on surrounding residential areas. Proposed changes included updated definitions, revised permitted use charts, separation requirements, restrictions on adjacency to residential properties, building placement standards, and operational conditions.

Mr. Guerra noted that several uses have begun to encroach into residential areas, prompting a need to proactively safeguard neighborhood character and preserve corridor properties for future high value development. For quick lube facilities, staff proposed removing the Traditional Neighborhood Corridor zone from permitted areas, establishing 600 foot residential buffers, and requiring 1,000 foot separation between similar facilities.

Commissioners discussed the rationale for prohibiting locations on primary and secondary arterials and requested additional consideration of distance standards.

For event centers, staff proposed requiring an SUP in designated commercial districts, implementing two year renewal periods, separation from residential zones, and time restrictions for indoor and outdoor events. Commissioners expressed concerns about proposed operating hour limits and the potential impact on downtown development.

Samuel Nunez, Senior Planner of the Planning and Zoning Department, presented proposed regulations for poker lounges, including establishing a new definition, requiring SUP approval, separation requirements, limits on clustering within commercial plazas, and compliance with applicable state laws. For self storage facilities, Mr. Nunez proposed allowing indoor storage in the

DRAFT

Regional Center, Light Industrial, and Heavy Industrial zones, limiting outdoor storage to industrial districts, and requiring a 600 foot residential separation and 2,500 foot separation between facilities. Commissioners questioned the impact of the spacing requirements on future supply as the city grows.
Staff recommended approval of the proposed ordinance and indicated willingness to incorporate Commission feedback.
Staff acknowledged the concerns and indicated that the proposed standards could be adjusted based on Commission direction.
Mayor John Cowen opened the public hearing.

There were no speakers.

Motion: Motion made by Commissioner Pedro Cardenas, seconded by Commissioner Tino Villarreal, to close the public hearing. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

Commissioner Tino Villarreal stated that he wished to table the item until November 3,2026, explaining that he needed additional information before taking action. He requested clarity on several points, including whether staff had met with commercial property owners to gather input, whether any economic analysis had been conducted, and whether the uses should be considered separately rather than grouped under one ordinance. He also noted that the proposed regulations might unintentionally advantage existing businesses over new entrants.
Will Trevino City Attorney asked whether the motion should be amended to reopen and continue the public hearing.

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Pedro Cardenas, to amend the previus motion and keep open the public hearing and table the Ordinance 2026-235.130 until November 3, 2026. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

ITEMS FOR INDIVIDUAL CONSIDERATION(S)

1) **Consideration and ACTION on SECOND and FINAL READING of Ordinance Number 2026-1761-B of the City of Brownsville, Texas, to update the Master Fee Schedule of the City of Brownsville and amend pertinent sections of the Code of Ordinances to reflect those updates, and dealing with related matters. (Financial Services Department)**

Stephe Muse, Financial Services Director, presented the second reading of proposed fee schedule updates and clarified corrections from the previous presentation. He outlined several new and adjusted fees, including:
- A hookah lounge permit fee of $250
- New fees for background discrimination services, vacant lot fees, and tire related business permits
- A First Friday event tote bag fee of $30 under Planning and Redevelopment Services
- Parks and Recreation fee changes, including revised rental fees, an increased exclusive park rental rate, a reduced event cleaning fee, and removal of the non motorized watercraft rental fee.

DRAFT

- A new water safety instructor certification fee and increases to youth program registration and maintenance overtime fees
- Gulf Center golf course fees ($20 standard, $30 for educators, $20 employee rate) and elimination of the 10×10 screen fee
- Sports Park additions, including a new full dome rental rate and increased fees for full shutdowns and traffic cone replacement

Mr. Muse clarified that resident and non resident rates will remain separate, correcting a prior misstatement. He also elaborated on the $50 lost ticket fee proposed for airport parking, noting it is intended to prevent revenue loss and will serve as a temporary measure until a license plate recognition system is implemented.

Motion: Motion made by Commissioner Pedro Cardenas, seconded by Commissioner Tino Villarreal, to approve the second and final reading of Ordinance Number 2026-1761-B. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

2) **Consideration and ACTION on Resolution Number 2026-121-A amending Resolution Number 2026-121 ratifying direction to the City Manager to reactivate the City of Brownsville Environmental and Conservation Task Force that was tasked with providing advice and recommendations to the City Commission regarding data center policies and development regulations. (City Manager's Office/ Office of the City Attorney/ Planning and Redevelopment Department)**

Will Treviño, City Attorney, stated that the resolution had been approved at the prior meeting and was now being brought forward with amendments based on commissioner feedback and citizen input. The amended structure of the task force includes seven community representatives with voting rights, aligning with the structure of other City boards and commissions. Each City Commissioner will appoint one member. Additionally, four ex officio non voting members will serve in advisory roles. The primary areas of review remain unchanged. However, the task force will be required to utilize clearly defined data and methodologies, publicly present its findings, develop a public facing dashboard, and conduct community engagement activities such as public meetings or town halls.
During discussion, commissioners inquired about the process for converting the task force into a permanent standing committee.
Mr. Trevino clarified that such action would require adoption of a separate resolution.
Commissioners expressed concerns that a three month timeframe was insufficient due to the volume of expected data, the upcoming holiday season, and the need for community participation. Suggestions included extending the working period to six months, allowing flexibility in meeting frequency, and ensuring adequate time for publication and hearing requirements related to any potential amendments to development regulations.
Following deliberation, the Commission agreed that the task force should provide an initial report with recommendations by 15 December 2026, followed by a final report due 15 March 2027, allowing the month of April for required public processes.

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Pedro Cardenas, to approve Resolution Number 2026 121 A, directing that the initial report containing recommendations on data center policies and regulations be submitted to the City Commission by

DRAFT

15 December 2026, and that the final report be submitted by 15 March 2027. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

Motion: Motion made by Commissioner Pedro Cradenas, seconded by Commissioner Tino Villarreal, to reconsider Resolution 2026 121 A for the purpose of making amendments consistent with the earlier discussion.
The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

Motion: Motion made by Commissioner Pedro Cradenas, seconded by Commissioner Linda C. Macias, to approve the resolution as previously amended, with the exception that the BPUB representative would be designated at a later date. The motion also reaffirmed the earlier amendment establishing the reporting deadlines by December 15, 2026 for the initial report and March 15, 2027 for the final report. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

3) **Consideration and ACTION to adopt Resolution Number 2026-127 identifying qualifying projects described in Exhibit "A" to the Memorandum of Understanding between Space Exploration Technologies Corp. (SpaceX) and the City of Brownsville dated August 29, 2026; and ratifying an escrow agreement between the City, PlainsCapital Bank, and SpaceX for the benefit of Brownsville Public Utilities Board and Southmost Regional Water Authority. (City Manager's Office/ Office of the City Attorney)**

Will Trevino, City Attorney, presented an update on the regional water expansion project involving the Brownsville Public Utilities Board (BPUB), the South Resaca Water Authority (SRWA), SpaceX, and the City of Brownsville. The project aims to increase the City's water capacity. He reminded the Commission that SpaceX's commitment of $220 million would fund two major water renewal initiatives. The first is the Indirect Potable Reuse Initiative, projected to increase water supply by approximately 8 million gallons per day. This project is currently underway at BPUB and is expected to be completed by 2030. The SpaceX funding will cover remaining financial gaps. The second initiative is the optimization and expansion of SRWA facilities to increase capacity to 10 million gallons per day. This includes reconstructing 20 wells, constructing two new wells, and performing various infrastructure upgrades. The resolution under consideration also approves the escrow agreement between SpaceX, the City of Brownsville, and Plains Capital Bank.
Mr. Trevino outlined the payment structure: an initial $40 million deposit upon execution of the agreement, anticipated on 28 September 2026, followed by six quarterly deposits of $30 million each. All escrow funds must be invested following public fund investment regulations. He emphasized that SpaceX receives no capacity rights, ownership interest, rate benefits, or preferential permitting or utility treatment. Disbursement of funds will require joint written instructions from SpaceX and the City. Expedited arbitration procedures are included to resolve any disputes. Escrow account fees will be paid by SpaceX, ensuring that all funds remain available strictly for project use. The agreement will terminate once all funds are disbursed. The anticipated project completion timeline aligns with the MOU's seven year term, with major milestones expected by 2030.
Commissioners asked about the transparency features of the upcoming website, including dashboards showing deposits, progress milestones, links for public information requests, and integration with BPUB's project tracking tools. Mr. Trevino confirmed that the intent is to provide

DRAFT

comprehensive and accessible information to ensure accountability for project execution and public reporting.

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Pedro Cardenas, to approve Resolution Number 2026-127. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

BOARD APPOINTMENT(S)

1) **Consideration and ACTION on Resolution Number 2026-131 to appoint members to the City of Brownsville Environmental and Conservation Task Force pursuant to Resolution Number 2026-121-A. (City Manager's Office/ Office of the City Attorney/ Planning and Redevelopment Department)**

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Linda C. Macias, to appoint Dr. Etienne Rosas, as a member of the Enviromatal & Conservation Task Force. The vote was cast 5 for, 0 against. [Galonsky and Martinez absent] The motion carried unanimously.

Motion: Motion made by Commissioner Gustavo De Leon, seconded by Commissioner Linda C. Macias, to appoint Carolyn Wood, as a member of the Enviromatal & Conservation Task Force. The vote was cast 5 for, 0 against. [Galonsky and Martinez absent] The motion carried unanimously.

Motion: Motion made by Mayor John Cowen Jr., seconded by Commissioner Tino Villarreal, to appoint Lisa Mithcel Bennet, as a member of the Enviromatal & Conservation Task Force. The vote was cast 5 for, 0 against. [Galonsky and Martinez absent] The motion carried unanimously.

Motion: Motion made by Commissioner Pedro Cardenas, seconded by Commissioner Linda C. Macias, to appoint Dr. Joseph Hollmann, as a member of the Enviromatal & Conservation Task Force. The vote was cast 5 for, 0 against. [Galonsky and Martinez absent] The motion carried unanimously.

Commissioner Pedro Cardenas expressed his desire to nominate Dr. Joseph Holdman as his appointee to the task force. He noted that Dr. Holdman was listed as a non voting ex officio member but requested that he be moved into a voting position. Commissioner Cardenas asked whether another individual could be designated to fill the non voting role instead.
Mr. Trevino responded that such a change was permissible and recommended that the Commission proceed without replacing the ex officio position, noting that Dr. Holdman brings valuable expertise from SRWA and BPUB.
Mayor John Cowen Jr. commented that it may still be beneficial to include someone from BPUB with electrical expertise in a staff capacity. He noted that this could be addressed later.

Motion: Motion made by Commissioner Linda C. Macias, seconded by Commissioner Gustavo De Leon, to appoint Scott Fry, as a member of the Environmental and Conservation Task Force. The vote was cast 5 for, 0 against. [Galonsky and Martinez absent]. The motion carried unanimously.

DRAFT

The appointments of Commissioners Galonsky and Martinez were tabled for the next City Commission meeting.

The City Commission request to alter the agenda to go back to Items for Individual Consideration Number Two to amend the approved body of the board.

EXECUTIVE SESSION

Motion: Motion made by Commissioner Pedro Cardenas, seconded by Commissioner Linda C. Macias to convene into Executive Session at 7:29 p.m. The vote was cast 5 for, 0 against [Galonsky and Martinez absent]. The motion carried unanimously.

1) **Closed session pursuant to Tex. Gov't. Code Section 551.071 (Consultation with Attorney) related to Collective Bargaining Agreement with Brownsville Police Officers' Association, Charter 290577-01. (Office of the City Attorney/ City Manager's Office)**
2) **Closed session pursuant to Tex. Gov't. Code Section 551.071 (Consultation with Attorney, including Contemplated or Pending Litigation and/or Settlement Offer) related to: TMLIRP Claim No. TX260469. (Office of the City Attorney)**
3) **Closed session pursuant to Tex. Gov't. Code Section 551.071 (Consultation with Attorney) related to the attorney-client privilege. (Office of the City Attorney)**

All items scheduled for discussion in the Executive Session were addressed, and a certified agenda was maintained.

Upon the conclusion of the Executive Session, Mayor John Cowen Jr. reconvened the Special Meeting at 8:27 pm.

POSSIBLE ACTION ON ANY ITEM(S) AS DISCUSSED IN EXECUTIVE SESSION

1) **Consideration and ACTION, if any, related to Collective Bargaining Agreement with Brownsville Police Officers' Association, Charter 290577-01. (Office of the City Attorney/ City Manager's Office)**

Jennifer Avendano, First Assistant City Attorney, addressed the City Commission, requesting that the Brownsville Police Officers Association (BPOA) and CLEAT representatives be provided the opportunity to speak on behalf of their membership.
Representatives of the BPOA thanked the Mayor, Commissioners, and City staff for their support throughout the negotiation process. He expressed appreciation for the collaborative effort and thanked Ms. Avendano for her assistance.
The Mayor and Commissioners expressed gratitude to the officers, BPOA, CLEAT, and City staff for their service, partnership, and professionalism. Several commissioners emphasized the importance of public safety to the community and commended the police department's engagement with residents and its commitment to maintaining Brownsville as one of the safest cities in the nation.

DRAFT

Motion: Motion made by Commissioner Tino Villarreal, seconded by Commissioner Linda C. Macias, to approve the collective bargaining agreement with the Brownsville Police Officers Association, Charter 290577 01 S. The vote was cast 5 for, 0 against [Galonsky, Martinez, and De Leon were absent]. The motion carried unanimously.

2) **Consideration and ACTION, if any, related to a limited waiver of the attorney-client privilege. (Office of the City Attorney)**

Motion: Motion made by Commissioner Tino Villarreal seconded by Commissioner Pedro Cardenas to proceed as discussed in executive session. The vote was cast 5 for, 0 against [Galonsky, Martinez and De Leon absent]. The motion carried unanimously.

ADJOURNMENT

There being no further business to come before the Commission, upon duly made motion the meeting adjourned at 8:33 PM.

Approved 6th day of October 2026.

_____
John Cowen, Jr.
Mayor

ATTEST:

_____
Mayra A. Rios,
City Secretary

Respectfully submitted by: Blanca E. Gonzalez, Administrative Assistant, MPA, TRMC

DRAFT

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Omar Ochoa, Assistant Director of Building Inspections and Permitting/Building Official
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to Authorize Contracts with Waste Solutions USA LLC and Alamo Environmental, Inc. dba Alamo1. For Contract No. 263-26-PLN-IFB, Building Demolition Services On An As-Needed Basis, for an initial term of three (3) years with two (2) optional one-year renewal periods. (Planning and Redevelopment Services Department)

Summary:

The Planning and Redevelopment Services Department requested a term contract for building demolition services to address unsafe, substandard, and dilapidated structures throughout the City. The contract will allow the City to obtain demolition, debris removal, site clearing, and related services on an as-needed basis through individual task orders.

- Procurement Method: IFB
- Submittals Received: Four (4)
- Contract Number: 263-26-PLN-IFB
- Vendor: Waste Solutions USA LLC and Alamo Environmental, Inc. dba Alamo1.
- Contract Amount: As Needed – based on unit prices for authorized Task Orders; no minimum amount of work guaranteed.
- Term: Five (5) Years – three (3) year initial term plus two (2) optional one-year renewals

Project Scope and Analysis:

The term contract for building demolition services is needed to streamline the process to demolish dilapidated residential structures that have deteriorated to the point that they pose a threat to public health, safety, and welfare. These structures may be vacant, abandoned, unsecured, fire-damaged, structurally unstable, or otherwise unsafe for occupancy. To ensure efficient and controlled execution, task orders will be issued on an as-needed basis and will be strictly aligned with official enforcement orders issued by the Building and Standards Commission.

Funding:

Source: Item does not require Fiscal approval

Amount: N/A

Local Contribution if Applicable: N/A

Recommendation:
The Planning and Redevelopment Services Department recommends that the City Commission authorize multiple award contracts with Waste Solutions USA LLC and Alamo Environmental, Inc. dba Alamo1 under IFB No. 263-26-PLN-IFB, Building Demolition Services On An As-Needed Basis, with compensation based on the unit prices submitted by each contractor for authorized Task Orders.

Commission Pillar:
Public Safety, Quality of Life & Vibrancy, Economic Development, Planning & Zoning

Attachments:

3. 263-26-PLN-IFB Contract ; Waste Solutions USA LLC

PROCUREMENT ANALYSIS

Date: Wednesday, August 19, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, Interim City Manager
CC: Mr. Damian Espinoza, Procurement Director
Mr. Daniel Leal, Planning & Redevelopment Services Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, September 22, 2026.
"Consideration and Action to Authorize Contracts with Waste Solutions USA LLC and Alamo Environmental, Inc. dba Alamo1. for Contract No. 263-26-PLN-IFB, Building Demolition Services On An As-Needed Basis, for an initial term of three (3) years with two (2) optional one-year renewal periods, Planning and Redevelopment Services Department."

Executive Summary:

- Department: Planning and Redevelopment Department
- Procurement Method: IFB
- Submittals Received: Four (4)
- Contract Number: 263-26-PLN-IFB
- Vendor: Waste Solutions USA LLC and Alamo Environmental, Inc. dba Alamo1.
- Contract Amount: As Needed – based on unit prices for authorized Task Orders; no minimum amount of work guaranteed
- Term: Five (5) Years – three (3) year initial term plus two (2) optional one-year renewals

Background:
The Planning and Redevelopment Services Department requested a term contract for building demolition services to address unsafe, substandard, and dilapidated structures throughout the City. The contract will allow the City to obtain demolition, debris removal, site clearing, and related services on an as-needed basis through individual task orders.

Procurement Process:
The Procurement Department issued an **Invitation for Bids (IFB)** in compliance with the Texas Local Government Code. The solicitation was advertised in the local newspaper and posted on the City's electronic bidding platform. **Four (4) bids** were received.

This procurement is governed by the following statute:

- **IFB (Competitive Sealed Bidding): Texas Local Government Code Chapter 252, Subchapter C – Competitive Sealed Bidding (§252.041).**

Results
A total of **four (4) bids** were received. After review of the submissions and unit pricing, **Waste Solutions USA LLC** submitted the lowest unit price on the majority of bid items, followed by **Alamo Environmental, Inc. dba Alamo1**. Both vendors were determined to be responsive and responsible and are recommended for a **multiple award**.

Services will be provided on an as-needed basis through individual Task Orders, with compensation based on the applicable unit prices submitted by each awarded contractor. The bid tabulation is provided as **Exhibit A**.

Vendor Information:

Waste Solutions USA LLC
2434 LCR 656
Thornton, TX 76687
Point of Contact: Fabricio Lima
Phone: (832) 405-6296
Email: fabricio@wastesolutionsusa.com

Alamo Environmental, Inc. dba Alamo1
2900 Nacogdoches Road
San Antonio, Texas 78217
Point of Contact: Jacob Robles
Phone: (210) 240-5554
Email: Jacob.robles@alamo1.com

Exhibits & Supporting Documents:
- Exhibit A – Bid Tabulation (lowest responsive/responsible bidder).
- Exhibit B – Form 2 - Statement of Conflict of Interest
- Exhibit C – Form 3 - Texas Ethics Commission Certificate of Interested Parties (1295)

Recommendation:
The Procurement Department recommends that the City Commission authorize multiple award contracts with Waste Solutions USA LLC and Alamo Environmental, Inc. dba Alamo1 under IFB No. 263-26-PLN-IFB, Building Demolition Services On An As-Needed Basis, with compensation based on the unit prices submitted by each contractor for authorized Task Orders.

The contracts will have an initial term of three (3) years, with two (2) optional one-year renewal periods, for a total potential term of five (5) years.
Approval of this agenda item will authorize the full contract value, including the renewal option. The City Manager will be authorized to execute renewal(s) if exercised.

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent vendor must describe any conflicts of interest related to the goods and/or services associated with this solicitation.

The Respondent shall complete and submit **Form CIQ (Form 2)** indicating any conflicts of interest for the service provider or key employees. If no conflicts exist, the Respondent must indicate "N/A" on the form and submit it as part of their response.

A conflict of interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s).

The Entity reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict of interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Waste Solutions USA LLC

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A - No known relationship with any City of Brownsville officer

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent vendor must describe any conflicts of interest related to the goods and/or services associated with this solicitation.

The Respondent shall complete and submit **Form CIQ (Form 2)** indicating any conflicts of interest for the service provider or key employees. If no conflicts exist, the Respondent must indicate "N/A" on the form and submit it as part of their response.

A conflict of interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s).

The Entity reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict of interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print, sign, and notarize the TEC Form 1295 and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC’s website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed and notarized in accordance with TEC requirements**.**

MASTER SERVICE AGREEMENT FOR BUILDING DEMOLITION SERVICES ON AN AS-NEEDED BASIS
Contract No. 263-26-PLN-IFB

This Agreement shall commence upon the approval of the City Commission and executed by the City of Brownsville's Mayor or designee. This agreement is between The City of Brownsville, Texas, hereinafter referred to as ("CITY") and Alamo Environmental, Inc. dba Alamo1 hereinafter referred to as ("Contractor"), collectively referred to as "Parties" and individually as "Party".

1. **Documents**
   a. The following documents (collectively, "Contract Documents") are hereby incorporated into and made part of this Agreement.

      i. Scope of Services, Conditions and Additional Services (Exhibit A)
      ii. Term of Agreement (Exhibit B)
      iii. Compensation and Fees Schedule (Exhibit C)
      iv. Sample Task Order with Instructions (Exhibit D)
      v. Form 2 - Statement of Conflict of Interest (Exhibit E)
      vi. Form 3 - Texas Ethics Commission Certificate of Interested Parties (1295) (Exhibit F)
      vii. Insurance (Exhibit G)
      viii. Form 10 – Cooperative Use Authorization Form (Exhibit H)
      ix. Form 12 – CDBG Federal Clauses Certification Form (Exhibit I)
      x. Form 13 – Acknowledgment and Intent to Comply (Exhibit J)
      xi. Form 14 – BABA Contractor Certification (Exhibit K)

2. **Scope of Services**
   a. Contractor shall perform the Services under this agreement upon written request orders by CITY. Unless otherwise specified in a project request, Contractor and CITY agree that the scope of work is deemed to include preliminary considerations and prerequisites, and all tasks which are an integral and inseparable part of the work described in the Contract Documents or by separate written request.
   b. Contractor will perform such Services in a diligent and workmanlike manner consistent with industry standards.
   c. By signing this Agreement, Contractor represents that it has thoroughly reviewed the Contract Documents incorporated into this Agreement, including but not limited to "Exhibit A" Scope of services and that it accepts the description of the Work and the conditions under which the Work is to be performed and completed.

3. **Independent Contractor; Personnel**
   a. The Contractor enters into this Agreement as, and shall remain, an independent contractor. Nothing in this Agreement shall be construed to create a relationship of employer–employee, partnership, or agency between the City and the Contractor. Neither the Contractor nor its employees or subconsultants shall be entitled to any benefits accorded to City employees, including, without limitation, workers' compensation, disability insurance, vacation or sick leave. The Contractor shall be solely responsible, at its own expense, for providing all required insurance, licenses, and permits, and for paying all applicable local, state, and federal taxes.
   b. The Contractor represents and warrants that all personnel and subconsultants performing services hereunder shall be properly trained, experienced, and, where required, licensed or registered to perform such services in the State of Texas.

4. **Term of Agreement.**

   a. The initial contract period shall commence upon approval by the City Commission and when executed by the City of Brownsville's Mayor or designee and shall end or be extended upon the terms specified in Contract Documents "Exhibit B". The term or any continuation of this Agreement shall be subject to both the appropriation and the availability of funds by CITY.

5. **Compensation**

   a. The Contractor shall be compensated for services as provided in Exhibit C of this Agreement, and as further defined in each Task Order issued hereunder. The compensation described in Exhibit C represents the City's maximum obligation for each authorized scope of services, but does not obligate the City to issue any minimum amount of work. The Contractor shall only be required to perform services specifically authorized by the City through a written Task Order.
   b. The Contractor may submit invoices no more often than monthly for Work satisfactorily completed under an authorized Task Order. Each invoice shall identify the applicable Task Order, the bid item(s) performed, the actual quantities completed, the applicable unit price(s), and the total amount requested for payment. Invoices shall include all supporting documentation required by the City, including disposal tickets, manifests, photographs, or other records, as applicable. Invoices shall be submitted within fifteen (15) days after the end of each month. The final invoice shall be submitted no later than sixty (60) days after expiration or termination of this Agreement. Electronic submission of invoices shall be permitted.
   c. The City may withhold payment, in whole or in part, if (i) services are defective or materially noncompliant with the Agreement and have not been remedied, (ii) the Contractor has failed to comply with material terms of this Agreement, or (iii) withholding is otherwise authorized by law. Any withholding shall be limited to the amount reasonably necessary to protect the City. Payment terms shall otherwise be governed by the Texas Prompt Payment Act (Tex. Gov't Code Ch. 2251).

6. **Inspection and Review of Work**

   a. The City may inspect the Work at any time to verify that the Work is being performed in accordance with this Agreement, the applicable Task Order, and all applicable requirements.
   b. The Contractor shall provide the City and its authorized representatives reasonable access to the project site for purposes of inspection, observation, and verification of the Work.
   c. The Contractor shall promptly correct, at its own expense, any Work determined by the City to be defective, incomplete, or not in compliance with the Contract Documents or applicable Task Order.
   d. Inspection, observation, review, or acceptance by the City shall not relieve the Contractor of responsibility for the proper performance and completion of the Work.

7. **Documentation, Invoicing, and Acceptance of Work**

   a. The Contractor shall maintain and submit documentation required by the City for each Task Order, which may include permits, disposal tickets or manifests, photographs, inspection records, certifications, and other supporting documentation applicable to the Work.
   b. Invoices shall identify the applicable Task Order and shall include sufficient supporting documentation to verify the quantities of Work satisfactorily completed and the amount requested for payment.
   c. Payment shall be based upon Work satisfactorily completed and accepted by the City in accordance with the applicable Task Order and the unit prices established in Exhibit C.

d. The City may require correction of incomplete or nonconforming Work before final acceptance and payment. Payment or acceptance by the City shall not relieve the Contractor of its obligations under this Agreement.

8. Records and Documentation

a. The Contractor shall maintain complete and accurate records relating to Work performed under this Agreement and each Task Order, including invoices, disposal documentation, permits, photographs, certifications, and other records required by the City or applicable law.
b. The Contractor shall provide copies of such records to the City upon request and shall retain records for the period required by applicable federal, state, and local law and any funding requirements applicable to the Work.
c. All reports, photographs, manifests, certifications, and other project-specific documentation prepared or submitted to the City in connection with a Task Order shall become part of the City's project records.
d. For Task Orders funded in whole or in part with federal or state funds, the Contractor shall comply with any additional recordkeeping, retention, access, audit, or documentation requirements incorporated into the applicable Task Order.

9. Insurance

a. The Contractor shall furnish proof of insurance requirements as specified in Contract Documents "Exhibit G". The coverage is to remain in force at all times during the contract period and the minimum insurance coverage is required. The commercial general liability insurance policy shall name the City of Brownsville, Texas, as an "additional insured." This MUST be written in the description section of the insurance certificate, even if there is a check-off box on the insurance certificate. Any costs for adding the City as "additional insured" shall be at the Contractor's expense.
b. The CITY shall be given notice 10 days prior to cancellation or modification of any required insurance. The insurance provided shall be endorsed or amended to comply with this notice requirement. In the event that the insurer is unable to accommodate, it shall be the responsibility of the Contractor to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested and addressed to the Procurement Department.
c. The Contractor's insurance must be provided by an A.M. Best's "A-"rated or better insurance company authorized to issue insurance policies in the State of Texas, subject to approval by the City of Brownsville Department of Safety and Risk Management. Any exclusions or provisions in the insurance maintained by the Contractor that excludes coverage for work contemplated in this solicitation shall be deemed unacceptable, and shall be considered breach of contract.

10. Termination

a. *Termination for Cause.* The aggrieved party may terminate this Agreement for cause if the party in breach has not corrected the breach within ten (10) days after written notice from the aggrieved party identifying the breach. CITY may also terminate this Agreement upon such notice as the City of Brownsville's City Manager deems appropriate under the circumstances in the event the City Manager determines that termination is necessary to protect the public health or safety. The parties agree that if the CITY erroneously, improperly or unjustifiably terminates for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

This Agreement may be terminated for cause for reasons including, but not limited to, Contractor's repeated (whether negligent or intentional) submission for payment of false or incorrect bills or invoices, failure to perform the Work to CITY's satisfaction; or failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement.

b. *Termination for Convenience.* CITY reserves the right, in its best interest as determined by the City of Brownsville's City Manager, to cancel this contract for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Agreement is terminated for convenience, Contractor shall be paid for any services performed to CITY's satisfaction pursuant to the Agreement through the termination date specified in the written notice of termination. Contractor acknowledges and agrees that he/she/it has received good, valuable and sufficient consideration from CITY, the receipt and adequacy of which are hereby acknowledged by the Contractor, for CITY's right to terminate this Agreement for convenience.

c. *Cancellation for Non-appropriated Funds.* CITY reserves the right, in its best interest as determined by the City of Brownsville's City Manager, to cancel this contract for non-appropriated funds or unavailability of funds by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. The obligation of CITY for payment to the Contractor is limited to the availability of funds appropriated in a current fiscal period, and continuation of the contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise provided by law.

d. *Force Majeure.* CITY and Contractor will be excused from the performance of their respective obligations under this agreement when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, civil commotion, malicious damage, act or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment, or service from a public utility needed for their performance, provided that:

    i. The non performing party gives the other party prompt written notice describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;

    ii. The excuse of performance is of no greater scope and of no longer duration than is reasonably necessary when considered in light of the Force Majeure;

    iii. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure; and

    iv. The non-performing party uses its best efforts to remedy its inability to perform.

    v. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of sixty (60) days, provided that in extenuating circumstances, CITY may excuse performance for a longer term. Economic hardship of the Contractor will not constitute Force Majeure. The term of the agreement shall be extended by a period equal to that during which either party's performance is suspended under this Section.

11. Materiality and Waiver of Breach.

a. The Parties agree that each requirement, duty, and obligation set forth in this Agreement is material to its performance. The City's failure at any time to enforce any provision of this Agreement shall not be construed as a waiver of that provision, or as a waiver of the City's right thereafter to enforce each and every provision of this Agreement. A waiver of any breach by the City shall be effective only if made in writing and shall not be deemed a waiver of any subsequent breach, nor shall it constitute a modification of the terms of this Agreement.

12. **Indemnification.**

a. **TO THE FULLEST EXTENT PERMITTED BY LAW, THE CONTRACTOR SHALL INDEMNIFY AND HOLD HARMLESS THE CITY, ITS OFFICERS, OFFICIALS, EMPLOYEES, AND REPRESENTATIVES FROM AND AGAINST CLAIMS, DAMAGES, LOSSES, AND EXPENSES, INCLUDING REASONABLE ATTORNEYS' FEES, TO THE EXTENT CAUSED BY THE NEGLIGENT ACTS, ERRORS, OR OMISSIONS OF THE CONTRACTOR, ITS EMPLOYEES, OR ITS SUBCONSULTANTS IN THE PERFORMANCE OF SERVICES UNDER THIS AGREEMENT.**

b. **THIS INDEMNITY SHALL NOT APPLY TO THE EXTENT THAT A CLAIM ARISES FROM THE NEGLIGENCE OR WILLFUL MISCONDUCT OF THE CITY OR ANY OTHER PERSON OR ENTITY NOT UNDER THE CONTRACTOR'S CONTROL.**

c. **THE CONTRACTOR SHALL NOTIFY THE CITY IN WRITING WITHIN 24 HOURS OF ANY CLAIM OR DEMAND MADE AGAINST THE CITY OR THE CONTRACTOR THAT IS RELATED TO THE SERVICES PROVIDED UNDER THIS AGREEMENT. THE CONTRACTOR SHALL COOPERATE FULLY IN THE INVESTIGATION AND DEFENSE OF SUCH CLAIMS. THE CITY MAY, AT ITS OWN EXPENSE, PARTICIPATE IN THE DEFENSE WITHOUT RELIEVING THE CONTRACTOR OF ITS INDEMNIFICATION OBLIGATIONS.**

d. **THIS INDEMNIFICATION OBLIGATION SHALL SURVIVE TERMINATION OR EXPIRATION OF THIS AGREEMENT.**

13. **Miscellaneous Provisions.**

a. *Successors and Assigns.* All of the provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, if any, successors, and assigns.

b. *Choice of Law.* The laws of the state of Texas shall govern the validity of this Agreement, the construction of its terms and the interpretation of the rights and duties of the parties hereto.

c. *No Waiver of Governmental Immunity.* NOTHING IN THIS AGREEMENT SHALL BE CONSTRUED TO WAIVE CITY'S GOVERNMENTAL IMMUNITY FROM LAWSUIT, WHICH IMMUNITY IS EXPRESSLY RETAINED TO THE EXTENT IT IS NOT CLEARLY AND UNAMBIGUOUSLY WAIVED BY STATE LAW.

d. *Assignment.* Contractor shall not assign any of Contractor's rights under this Agreement or delegate the performance of any of Contractor's duties hereunder, without the prior consent of CITY.

e. *Modification or Amendment.* No amendment, change or modification of this Agreement shall be valid unless in writing signed by the parties hereto.

f. *Venue.* This Agreement and any and all matters arising directly or indirectly here from shall be governed by and construed and enforced in accordance with the Laws of the State of Texas, in the Federal and State Courts of Cameron County, Texas having jurisdiction. (b) If at any time there is a dispute between or among the Parties with respect to any matter arising directly or indirectly from this Agreement (an "Agreement Matter"), the Parties agree that, prior to seeking judicial remedy, they will

engage in face-to-face negotiations in an attempt to resolve such dispute and shall, upon failing to negotiate a mutually-satisfactory resolution, choose a mutually agreeable neutral third party to mediate such dispute. Mediation shall be non-binding and shall be confidential.

g. *Notices.* Any and all notices, demands, or other communications required or desired to be given hereunder by any party shall be in writing and shall be validly given or made to another party if personally served, or if deposited in the United States mail, certified or registered, postage prepaid, return receipt requested. If such notice or demand is served personally, notice shall be deemed constructively made at the time of such personal service. If such notice, demand or other communication is given by mail, such notice shall be conclusively deemed given five days after deposit thereof in the United States mail addressed to the party to whom such notice, demand or other communication is to be given as follows:

If to Contractor:	Alamo Environmental, Inc. dba Alamo1 2900 Nacogdoches Road San Antonio, Texas 78217
If to CITY:	City of Brownsville 1001 E. Elizabeth St. Brownsville, Texas, 78521

Any party hereto may change its address for purposes of this paragraph by written notice given in the manner provided above.

h. *Entire Understanding.* This document and any exhibit attached constitute the entire understanding and agreement of the parties, and any and all prior agreements, understandings, and representations are hereby terminated and canceled in their entirety and are of no further force and effect.

i. *Unenforceability of Provisions.* If any provision of this Agreement, or any portion thereof, is held to be invalid and unenforceable, then the remainder of this Agreement shall nevertheless remain in full force and effect.

IN WITNESS WHEREOF the undersigned have executed this Agreement as of the day and year first written above.

APPROVED AS TO FORM

Alyssa J. Castillon
Assistant City Attorney

"EXHIBIT A" – Scope of Services, Conditions and Additional Services

Task Orders: All services under this Agreement shall be performed on an as-needed basis through written Task Orders issued by the City. Each Task Order shall identify the specific property or location, scope of work, applicable pricing or compensation, required completion timeframe, and any project-specific requirements. The execution of this Agreement does not guarantee the Contractor any minimum quantity of work, number of Task Orders, or minimum amount of compensation. The Contractor shall perform only those services specifically authorized by the City through an approved Task Order. The requirements and procedures governing Task Orders are set forth in **Exhibit D – Sample Task Order**.

Contractor shall provide all labor, materials, equipment, supervision, transportation, disposal, permits, safety measures, and related services necessary to complete assigned demolition projects. Major deliverables shall include, but are not limited to, demolition of assigned structures, removal of applicable foundations, clearing of trash and construction debris, lawful disposal of materials, site cleanup, and final grading of the property.

Demolition work may include, but is not limited to, residential, accessory, commercial, or other structures determined by the City to be unsafe, substandard, dilapidated, or otherwise subject to demolition pursuant to an order issued by the Building & Standards Commission.

Work shall be performed in accordance with all applicable federal, state, and local laws, rules, regulations, ordinances, permit requirements, safety standards, and environmental requirements.

1. **Project Assignment Information**
   For each demolition assignment, the City will provide the project information available to the contractor, which may include, but is not limited to:
   - Property address or location;
   - Approximate building area or square footage;
   - Type of structure;
   - Number of stories;
   - Foundation type, including whether the foundation is concrete, wood, pier-and-beam, slab-on-grade, or another type;
   - Known site conditions;
   - Required timeline;
   - Presence of accessory structures, fencing, flatwork, or debris;
   - Any special instructions or limitations related to the property.

2. **Minimum Work Requirements**
   Unless otherwise directed in writing by the City, each demolition assignment shall include the following:

   A. Structure Demolition

   The contractor shall demolish and remove the structure or structures identified by the City. Demolition shall include the removal of all building components, materials, and related debris associated with the assigned structure. The contractor shall account for relevant project characteristics, including:
   - Building area;
   - Number of stories;
   - Construction type;
   - Foundation type;
   - Site access;
   - Proximity to neighboring structures, utilities, sidewalks, streets, alleys, or public rights-of-way.

The contractor shall be responsible for verifying site conditions before beginning work and shall notify the City of any discrepancy, hazard, access limitation, or condition that may affect the demolition scope, cost, or schedule.

B. Foundation Removal

The contractor shall remove the foundation as directed by the City. Foundation types may include, but are not limited to:

- Concrete slab foundations;
- Concrete pier systems;
- Wood foundations;
- Pier-and-beam foundations;
- Other foundation systems encountered on site.

Where full foundation removal is required, the contractor shall remove foundation materials, associated debris, and any exposed or resulting hazards. Any exceptions or limitations to foundation removal must be approved by the City in writing before work proceeds.

C. **Clearing of Trash, Rubbish, and Construction Debris**

The contractor shall remove and properly dispose of all demolition debris, construction debris, trash, rubbish, and related materials from the property, unless otherwise directed by the City. This may include, but is not limited to:

- Demolished building materials;
- Loose trash and rubbish within the demolition area;
- Construction debris;
- Wood, metal, concrete, roofing materials, glass, fixtures, and similar materials;
- Debris resulting from demolition activities.

All materials shall be disposed of at the City of Brownsville landfill facility in accordance with applicable laws and regulations. The Contractor shall provide disposal tickets, manifests, photographs, or other documentation as required by the City to verify proper disposal.

D. Site Clearing and Final Grading

Upon completion of demolition and debris removal, the contractor shall leave the property in a clean, safe, and orderly condition. Final site work shall include:

- Removal of demolition-related debris;
- Elimination of unsafe holes, depressions, or hazards caused by demolition;
- Rough grading or final grading of the disturbed area;
- Leveling of the site to promote positive drainage where feasible;
- Leaving the site in a condition acceptable to the City.

The contractor shall not leave the property in a condition that creates a safety hazard, drainage issue, or nuisance.

E. **Protection of Adjacent Property and Public Infrastructure**

The contractor shall take all necessary precautions to protect adjacent properties, public sidewalks, streets, curbs, alleys, utilities, drainage facilities, trees, fences, and other improvements not identified for demolition.

Any damage caused by the contractor's operations shall be repaired at the contractor's expense and to the satisfaction of the City.

F. **Utility Coordination**

Prior to demolition, the contractor shall coordinate with the City and applicable utility providers, as necessary, to confirm that utilities have been properly disconnected, removed, capped, or otherwise made safe.
The contractor shall not begin demolition until utility conditions have been addressed to the satisfaction of the City or the appropriate utility provider.

G. **Safety and Site Control**

The contractor shall be responsible for maintaining a safe work site at all times. This includes providing appropriate barricades, fencing, signage, traffic control, dust control, and other safety measures necessary to protect workers, City personnel, neighboring properties, pedestrians, and the general public.
All work shall comply with applicable OSHA requirements and other safety standards.

3. Permits, Licenses, and Compliance

The Contractor shall perform all Work in accordance with all applicable federal, state, and local laws, ordinances, regulations, and codes. The Contractor shall obtain and maintain all permits, licenses, certifications, and approvals necessary to perform the Work.

The Contractor shall maintain all required licenses, permits, and certifications throughout the term of the Agreement and shall provide updated documentation upon the City's request.

4. Response Time and Availability

The Contractor shall maintain sufficient personnel, equipment, and resources to respond to demolition assignments in a timely manner. The Contractor shall mobilize and commence Work within the timeframe established in each Task Order or Notice to Proceed. The City may consider the Contractor's availability, capacity, and ability to meet required schedules when assigning Work under this Agreement.

5. Performance Requirements

- Timely completion of demolition services in accordance with work order schedules and City-established response times.
- Comply with all applicable federal, state, and local laws, regulations, permits, and requirements, including applicable OSHA and TCEQ requirements, Community Development Block Grant (CDBG) requirements, and all federal requirements incorporated into the Agreement or applicable Task Order.
- Performance of demolition, debris removal, disposal, and site restoration activities in a safe and professional manner consistent with industry standards.
- Maintenance of proper traffic control, site security, and public safety measures throughout the duration of the work.
- Coordination with City staff, utility providers, regulatory agencies, and other contractors as necessary.
- Submission of all required documentation, including permits, disposal manifests, photographs, inspection records, and closeout documents, as required by the City.
- Restoration of the site to a clean, safe, and acceptable condition upon completion of work.

6. Federal and CDBG Compliance

The Contractor acknowledges that CDBG funds may be used for Work performed under this Agreement and shall comply with all applicable federal requirements associated with such funding. Applicable federal provisions, including labor standards, wage requirements, reporting requirements, certifications, and other funding-specific conditions, shall be incorporated into the applicable Task Order when required.

7. Payment and Performance Bonds

Payment and Performance Bonds shall **not** be required upon execution of this Master Service Agreement. For each individual Task Order that constitutes a public works construction project and meets the bonding thresholds established under **Chapter 2253 of the Texas Government Code**, the Contractor shall furnish Payment and Performance Bonds in the amount required by law prior to commencement of Work.

All bonds shall:

1. Be issued by a surety authorized to conduct business in the State of Texas;
2. Comply with the requirements of Chapter 2253, Texas Government Code, and all other applicable state and federal laws;
3. Be submitted to and approved by the City before issuance of the Notice to Proceed for the applicable Task Order.

When a Task Order is funded in whole or in part with state or federal funds, the Contractor shall also comply with any additional bonding requirements contained in the applicable Task Order.

8. Davis Bacon

For all Davis-Bacon covered activities, the most current applicable Wage Determination published by the U.S. Department of Labor and available at the time of each new Purchase Order issuance shall be incorporated and used.

"EXHIBIT B" – Contract Term

Contract Term Details: The Contract, pending City Commission approval, includes a Base Period, Optional Renewal Periods, and a Total Contract Term as follows:

- **Base Period:** This initial period will begin upon City Commission approval and end on **September 30, 2029**

- **Optional Renewal Periods:** There are two (2) optional one-year renewal periods. If exercised, these periods will extend the contract as follows:
  - **First Renewal Period:** October 1, 2029, to September 30, 2030
  - **Second Renewal Period:** October 1, 2030 to September 30, 2031

- **Total Term of the Contract:** Including the Base Period and both optional renewals, the total contract term shall not exceed five (5) years, with a final end date of **September 30, 2031**, if all renewals are exercised.

"EXHIBIT C" – Compensation Structure

The City shall compensate the Contractor for Work performed under this Agreement in accordance with the unit prices submitted in the Contractor's Bid Price Form, which is incorporated herein by reference and made a part of this Agreement.

Compensation shall be based solely on the actual quantities of Work satisfactorily completed and accepted by the City under individual Task Orders issued pursuant to this Agreement.

The unit prices shall include all labor, supervision, materials, equipment, tools, transportation, permits, traffic control, mobilization, disposal, overhead, profit, insurance, taxes, and all other incidentals necessary to complete the Work in accordance with the Contract Documents, unless otherwise specifically provided in the applicable Task Order.

The City shall have no obligation to pay for Work performed without an authorized Task Order or for Work exceeding the authorized scope of a Task Order unless approved in writing by the City.

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent vendor must describe any conflicts of interest related to the goods and/or services associated with this solicitation.

The Respondent shall complete and submit **Form CIQ (Form 2)** indicating any conflicts of interest for the service provider or key employees. If no conflicts exist, the Respondent must indicate "N/A" on the form and submit it as part of their response.

A conflict of interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s).

The Entity reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict of interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

City Secretary Contact Information

City of Brownsville – Office of the City Secretary
1001 East Elizabeth Street, Brownsville, Texas 78520

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print, sign, and notarize the TEC Form 1295 and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed and notarized in accordance with TEC requirements.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement changes the policy to which it is attached effective on the inception date of the policy unless a different date is indicated below.

(The following "attaching clause" need be completed only when this endorsement is issued subsequent to preparation of the policy).

This endorsement, effective 12:01 AM 06/01/2026 forms a part of Policy No. WC 097-08-7533

Issued to ALAMO ENVIRONMENTAL, INC.

By COMMERCE AND INDUSTRY INSURANCE COMPANY

LIMITED ADVICE OF CANCELLATION PROVIDED VIA E-MAIL TO ENTITIES OTHER THAN THE NAMED INSURED (WORKERS' COMPENSATION ONLY)

This policy is amended as follows:

In the event that the **Insurer** cancels this policy for any reason other than non-payment of premium, and

1. the cancellation effective date is prior to this policy's expiration date;

2. the **Named Insured** or, if applicable, any other employers named in Item 1 of the Information Page is under an existing contractual obligation to notify a certificate holder when this policy is canceled (hereinafter, the "Certificate Holder(s)") and the **Named Insured** has provided to the **Insurer**, either directly or through its broker of record, the email address of a contact at each such entity; and

3. the **Insurer** received this information after the **Named Insured** receives notice of cancellation of this policy and prior to this policy's cancellation effective date, via an electronic spreadsheet that is acceptable to the **Insurer**,

the **Insurer** will provide advice of cancellation (the "Advice") via e-mail to each such Certificate Holders within 30 days after the **Named Insured** provides such information to the **Insurer**; provided, however, that if a specific number of days is not stated above, then the Advice will be provided to such Certificate Holder(s) as soon as reasonably practicable after the **Named Insured** provides such information to the **Insurer**.

Proof of the **Insurer** emailing the Advice, using the information provided by the **First Named Insured**, will serve as proof that the **Insurer** has fully satisfied its obligations under this endorsement.

This endorsement does not affect, in any way, coverage provided under this policy or the cancellation of this policy or the effective date thereof, nor shall this endorsement invest any rights in any entity not insured under this policy.

The following definitions apply to this endorsement:

1. **Named Insured** means the insured first named employer in Item 1 of the Information Page of this policy.

2. **Insurer** means the insurance company shown in the header on the Information Page of this policy.

All other terms, conditions and exclusions shall remain the same.

WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

This endorsement changes the policy to which it is attached effective on inception date of the policy unless a different date is indicated below.

This endorsement, effective 6/1/2026 12:01 AM forms a part of

Policy No. WC 97087533

Issued to ALAMO ENVIRONMENTAL, INC.

By NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, PA

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.

This agreement shall not operate directly or indirectly to benefit any one not named in the Schedule.

Schedule

Any entity or organization as required by written contract or agreement, executed prior to loss.

This form is not applicable in Kansas for private construction contracts as defined in K.S.A. 16-1801 through K.S.A 16-1807 or public construction contracts as defined in K.S.A. 16-1901 through 16-1908, except where permitted by statute or other applicable law, such as for use in wrap-up insurance programs.

Any person or organization for which the employer has agreed by written contract, executed prior to loss, may execute a waiver of subrogation. However, for purposes of work performed by the employer in Missouri, this waiver of subrogation does not apply to any construction group of classifications as designated by the waiver of right to recover from others (subrogation) rule in our manual.

This form is not applicable in California, Kentucky, New Hampshire, New Jersey, Texas, or Utah.

ADDITIONAL INSURED - OWNERS, LESSEES OR CONTRACTORS - SCHEDULED PERSON OR ORGANIZATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location(s) Of Covered Operations
ANY PERSON OR ORGANIZATION WHOM YOU BECOME OBLIGATED TO INCLUDE AS AN ADDITIONAL INSURED AS A RESULT OF ANY WRITTEN CONTRACT OR AGREEMENT YOU HAVE ENTERED INTO.	PER THE WRITTEN CONTRACT OR AGREEMENT.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

 © Insurance Services Office, Inc., 2018

A. **Section II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

C. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
2. Available under the applicable limits of insurance;

whichever is less.

This endorsement shall not increase the applicable limits of insurance.

© Insurance Services Office, Inc., 2018

ENDORSEMENT

This endorsement, effective 12:01 A.M. 6/1/2026
forms a part of Policy No. 992-57-10
issued to ALAMO ENVIRONMENTAL, INC.
by NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, PA.

AMENDMENT OF LIMITS OF INSURANCE
(Per Project or Per Location Aggregate Limit)

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE FORM

I. Your policy is amended to include either a Per Project General Aggregate Limit, a Per Location General Aggregate Limit or a Per Project and Per Location General Aggregate Limit. Please select only *one* of the following:

[X] **Per Project General Aggregate Limit**	$ 10,000,000
[ ] **Per Location General Aggregate Limit**	$
[ ] **Per Project and Per Location General Aggregate Limit**	$

IF NEITHER OF THESE BOXES ARE CHECKED, THIS ENDORSEMENT IS VOID. IF MORE THAN ONE OF THE THESE BOXES ARE CHECKED, THIS ENDORSEMENT IS VOID.

II. **SECTION III - LIMITS OF INSURANCE** , is amended to include the following:

1. The Limits of Insurance and the rules below fix the most we will pay regardless of the number of:
   a. Insureds;
   b. Claims made or "suits" brought; or
   c. Persons or organizations making claims or bringing "suits".

2. The General Aggregate Limit is the most we will pay for the sum of:
   a. Medical expenses under Coverage **C**;
   b. Damages under Coverage **A**, except damages because of "bodily injury" or "property damage" included in the products-completed operations hazard"; and
   c. Damages under Coverage **B**.

3. The Products-Completed Operations Aggregate Limit is the most we will pay under Coverage **A** for damages because of "bodily injury" and "property damage" included in the "products-completed operations hazard".

4. Subject to **2.** above, the Personal and Advertising Injury Limit is the most we will pay under Coverage **B** for the sum of all damages because of all "personal and advertising injury" sustained by any one person or organization.

5. Subject to **2.** or **3.** above, whichever applies, the Each Occurrence Limit is the most we will pay for the sum of:
   a. Damages under Coverage **A**; and
   b. Medical expenses under Coverage **C**

because of all "bodily injury" and "property damage" arising out of any one "occurrence".

6. Subject to **5.** above, the Damage to Premises Rented To You Limit is the most we will pay under Coverage **A** because of "property damage" to any one premises, while rented to you, or in the case of damage by fire, while rented to you or temporarily occupied by you with permission of the owner.

7. Subject to **5.** above, the Medical Expense Limit is the most we will pay under Coverage **C** for all medical expenses because of "bodily injury" sustained by any one person.

8. Subject to **2.**, **4.**, **5.**, **6.**, and/or **7.** above, the Per Project Aggregate Limit is the most we will pay under Coverages **A**, **B**, and **C** combined for the sum of:

   a. Damages under Coverage **A**;
   b. Damages under Coverage **B**; and
   c. Medical Expenses under Coverage **C**

   arising out of any single Project described above.

9. Subject to **2.**, **4.**, **5.**, **6.**, and/or **7.** above, the Per Location Aggregate Limit is the most we will pay under Coverages **A**, **B**, and **C** combined for the sum of:

   a. Damages under Coverage **A**;
   b. Damages under Coverage **B**; and
   c. Medical expenses under Coverage **C**

   arising out of the any single Location described above.

The Limits of Insurance of this Coverage Part apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits of Insurance.

III. The Limits of Insurance shown in the Declarations are deleted in their entirety and replaced by the Limits of Insurance set forth below.

	Limits of Insurance
General Aggregate Limit	$ 15,000,000
Each Occurrence	$ 5,000,000
Products-Completed Operations Aggregate Limit	$ 10,000,000
Personal & Advertising Injury Limit	$ 5,000,000
Damage to Premises Rented to	$ 300,000
Medical Expense Limit	$ 10,000
Per Project General Aggregate Limit, Per Location General Aggregate Limit or Per Project and Per Location General Aggregate Limit	$ 10,000,000

IV. SECTION V - DEFINITIONS, is amended to include the following:

23. "Location" means premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway, or right-of-way railroad.

All other terms and conditions of this policy remain the same.

Authorized Representative or Countersignature (in States Where Applicable)

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED - OWNERS, LESSEES OR CONTRACTORS - COMPLETED OPERATIONS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location And Description Of Completed Operations
ANY PERSON OR ORGANIZATION WHOM YOU BECOME OBLIGATED TO INCLUDE AS AN ADDITIONAL INSURED AS A RESULT OF ANY WRITTEN CONTRACT OR AGREEMENT YOU HAVE ENTERED INTO.	PER THE WRITTEN CONTRACT OR AGREEMENT.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. **Section II – Who Is An Insured** is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury" or "property damage" caused, in whole or in part, by "your work" at the location designated and described in the Schedule of this endorsement performed for that additional insured and included in the "products-completed operations hazard".

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
2. Available under the applicable limits of insurance;

whichever is less.

This endorsement shall not increase the applicable limits of insurance.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

PRIMARY AND NONCONTRIBUTORY - OTHER INSURANCE CONDITION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
LIQUOR LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

The following is added to the **Other Insurance** Condition and supersedes any provision to the contrary:

Primary And Noncontributory Insurance

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured under your policy provided that:

(1) The additional insured is a Named Insured under such other insurance; and

(2) You have agreed in writing in a contract or agreement that this insurance would be primary and would not seek contribution from any other insurance available to the additional insured.

I. **SECTION II - COVERED AUTOS LIABILITY COVERAGE, A. Coverage, 1. - Who Is Insured,** is amended to add:

d. Any person or organization, shown in the schedule above, to whom you become obligated to include as an additional insured under this policy, as a result of any contract or agreement you enter into which requires you to furnish insurance to that person or organization of the type provided by this policy, but only with respect to liability arising out of use of a covered "auto". However, the insurance provided will not exceed the lesser of:

(1) The coverage and/or limits of this policy, or

(2) The coverage and/or limits required by said contract or agreement.

AUTHORIZED REPRESENTATIVE

ENDORSEMENT

This endorsement, effective 12:01 A.M. 6/1/2026

forms a part of Policy No. 542-55-30

issued to **ALAMO ENVIRONMENTAL, INC.**

by **NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, PA.**

INSURANCE PRIMARY AS TO CERTAIN ADDITIONAL INSUREDS

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

Section IV - Business Auto Conditions, B., General Conditions, 5., Other Insurance, c., is amended by the addition of the following sentence:

The insurance afforded under this policy to an additional insured will apply as primary insurance for such additional insured where so required under an agreement executed prior to the date of accident. We will not ask any insurer that has issued other insurance to such additional insured to contribute to the settlement of loss arising out of such accident.

All other terms and conditions remain unchanged.

Authorized Representative or Countersignature (in States Where Applicable)

ENDORSEMENT

This endorsement, effective 12:01 A.M. 6/1/2026

forms a part of Policy No. 542-55-30

issued to ALAMO ENVIRONMENTAL, INC.

by NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, PA.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

Section IV - Business Auto Conditions, A. - Loss Conditions, 5. - Transfer of Rights of Recovery Against Others to Us, is amended to add:

However, we will waive any right of recover we have against any person or organization with whom you have entered into a contract or agreement because of payments we make under this Coverage Form arising out of an "accident" or "loss" if:

(1) The "accident" or "loss" is due to operations undertaken in accordance with the contract existing between you and such person or organization; and

(2) The contract or agreement was entered into prior to any "accident" or "loss".

No waiver of the right of recovery will directly or indirectly apply to your employees or employees of the person or organization, and we reserve our rights or lien to be reimbursed from any recovery funds obtained by any injured employee.

Form 10 - Cooperative Use Authorization & Administrative Fee Acknowledgment

Purpose

This form allows the Respondent to indicate whether it elects to participate in optional cooperative purchasing arrangements and acknowledges the associated administrative fee requirements if cooperative use is accepted. Cooperative use is not mandatory and is offered at the Respondent's discretion. By completing this form, the Respondent clearly identifies its intent regarding cooperative participation for contracts awarded by the City of Brownsville, Texas.

Solicitation No.: IFB# 263-26-PLN-IFB

Respondent Information

Legal Entity Name: Alamo Environmental, Inc. dba Alamo1

Primary Contact Name: Jacob Robles

Title: Senior Estimator

Telephone: 210-240-5554 **Email:** jacob.robles@alamo1.com

Optional Cooperative Use Authorization

☒ **YES** – The Respondent **agrees** to allow cooperative use

☐ **NO** – The Respondent **declines** cooperative use

If **YES** is selected, the Respondent acknowledges and agrees that:

Cooperative Use Authorization

It is the intent of the City of Brownsville, Texas ("City") that any contract resulting from this solicitation may be made available for use by other governmental entities, to the maximum extent permitted under applicable federal, state, and local laws, including but not limited to Texas Government Code Chapter 791 (Interlocal Cooperation Act) and other applicable joint purchasing statutes. The awarded contractor agrees to extend the same pricing, terms, and conditions of this contract to any eligible public agency, political subdivision, or governmental entity that elects to purchase goods or services under this contract, provided that such entity issues its own purchase order, contract, or interlocal agreement that references the City of Brownsville's contract. Each participating entity shall be solely responsible for its own contractual obligations, including but not limited to the issuance of purchase orders, receipt of goods or services, and payment of invoices. The City of Brownsville shall not be responsible for the performance, payment, or administration of any obligations incurred by participating entities under this cooperative use provision.

Administrative Fee Acknowledgment

The City of Brownsville will utilize an administrative fee, in the form of a percentage of the cost, that will apply to all contracts between the awarded contractor, the City, or participants resulting from this solicitation. The administrative fee will be remitted by the contractor to Civic Marketplace on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 3% of sales. The administrative fee shall be included in the contractor's pricing and shall not be invoiced separately to the City or participating entities.

Certification

By signing below, the undersigned certifies that they are duly authorized to bind the Respondent, that all statements made in this form are true and correct, and that the Respondent's selection regarding cooperative use accurately reflects its intent.

FORM 12 CDBG
City of Brownsville Federal Clauses Certification Form

FEDERAL CERTIFICATIONS & CDBG PROVISIONS
AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Federal and CDBG funds will be used; therefore, this form must be completed and returned.

Community Development Block Grant (CDBG)

This version of the *Federal Clauses FY2026* document includes all required federal provisions under 2 C.F.R. Part 200, along with additional clauses required to ensure full compliance with Community Development Block Grant (CDBG) or other HUD-funded contracts.

Instructions for Completing this Form
Suppliers and contractors must review each federal clause and indicate whether it applies to the specific contract. For every section below, please initial **"YES"** to confirm agreement and compliance, or **"N/A"** (Not applicable) if the clause does not apply to the scope of work or funding source.
Yes – contractor/supplier agrees to comply with the clause as written and, where applicable, will provide all required documentation or certifications.
N/A – Clause is not applicable to the contract (e.g., Davis Bacon Act for non-construction work, Buy America for non-transportation projects, etc.) Contractor/supplier must initial next to "N/A" to confirm inapplicability.
Incomplete forms or unmarked sections may disqualify contractor/supplier and/or delay contract approval.

Vendor Responsibility for Regulatory Compliance
It is the responsibility of the contractor/supplier to review, verify, and comply with the most current versions of all applicable federal provisions, clauses, and regulations referenced in this document. The contractor/supplier shall refer to official U.S. Government websites, including the Code of Federal Regulations (www.ecfr.gov), Federal Acquisition Regulation (www.acquisition.gov), and agency-specific resources (e.g., HUD, DOT, Treasury, or OMB), to ensure full and current compliance at the time of bid submission and throughout the contract term.

DEFINITIONS

Contract: A legal agreement by which a non-Federal entity purchases property or services to carry out a federally funded project.

Contractor: An entity that receives a contract as defined in Contract.

Cooperative agreement: A form of federal financial assistance used when substantial involvement is expected between the federal agency or pass-through entity and the recipient.

Federal awarding agency: The U.S. federal agency providing the funding.

Federal award: The financial assistance or cost-reimbursement contract provided directly by a federal agency or indirectly through a pass-through entity to carry out a public purpose.

Non–Federal entity (NFE): A state, local government, tribe, institution of higher education, or non-profit organization that receives and administers federal funds.

Pass-Through Entity (PTE): A Non-Federal entity that provides part of its federal award to another organization (a subrecipient) to carry out a portion of the program.

Subrecipient/Subaward: A Non-Federal entity that receives federal funds from a pass-through entity to carry out part of federal program. The legal instrument documenting this relationship is the subaward.

Recipient: A Non–Federal entity receiving funds directly from a federal agency.

Simplified acquisition threshold: The current small-purchase limit established under the FAR (presently $250,000, adjusted periodically for inflation).

Obligations: Orders placed on contracts or subawards made that require payment by the Non-Federal entity.

Termination: The ending of a federal award, in whole or in part, prior to the planned end of the period of performance. These definitions are provided for reference only. For full regulatory text, see 2 C.F.R. Part 200, Subpart A (§§ 200.0-200.1).

Certification Regarding Certain Telecommunications and Video Surveillance Services or Equipment (FAR 52.204-24 & 52.204-25)

The contractor/supplier certifies compliance with the prohibitions under Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232) and the Federal Acquisition Regulation (FAR) 52.204-24 and 52.204-25.

The contractor/supplier shall not provide or use any equipment, system, or service that includes covered telecommunications equipment or services from Huawei Technologies Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, Dahua Technology Company, or any subsidiary or affiliate of such entities.

If the contractor/supplier identifies any covered telecommunications equipment or services during performance, it shall immediately notify the contracting agency or the City of Brownsville in writing and provide all information required under FAR 52.204-25(d).

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

APPENDIX II TO 2 CFR PART 200 – Contract Provision for Non-Federal Entity Contracts Under Federal Awards

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Contractor/Supplier as detailed in the terms of the contract.

Does contractor/supplier agree? **YES** ____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(C) **Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."**

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does contractor/supplier agree? **YES** ____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, contractor/supplier will be in compliance with all applicable Davis-Bacon Act provisions.

Does contractor/supplier agree? **YES** ____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, contractor/supplier certifies that contractor/supplier will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act

during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non- Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

In the event Federal Transit Administration (FTA) or Department of Transportation (DOT) funding is used by Participating Public Agency, contractor/Supplier also agrees to include Clean Air and Clean Water requirements in each subcontract exceeding $100,000 financed in whole or in part with Federal assistance provided by FTA.

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(H) Prohibition on Fraud, Waste, and Abuse - The contractor/supplier certifies that it will take all reasonable steps to prevent, detect, and disclose any suspected fraud, waste, or abuse of federal funds associated with this contract, consistent with applicable laws and agency guidance. Any such activity will be promptly reported to the awarding agency, pass-through entity, or the Office of Inspector General, as appropriate.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(I) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220 cross-reference to Treasury/OMB Guidance Subpart C) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions

contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the contractor/supplier or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the contractor/supplier will notify the Participating Agency.

Does contractor/supplier agree? **YES** GCS Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(J) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (I) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(3) The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

Does contractor/supplier agree? **YES** GCS Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Procurement of Recovered Materials 2 C.F.R. § 200.323 / 40 C.F.R Part 247

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

When Participating Agency expends federal funds for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with 2 C.F.R. § 200.323

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Environmental Review (24 C.F.R. Part 58)

The contractor/supplier acknowledges that no funds shall be obligated or expended until the City of Brownsville has completed an environmental review and received a release of funds from HUD, as required under 24 C.F.R. Part 58. The contractor/supplier shall cooperate fully with the City in meeting all environmental review and mitigation requirements.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with the record retention requirements detailed in 2 CFR §§ 200.334-200.337. The contractor/supplier further certifies that contractor/supplier will retain all records as required by 2 CFR § 200.334 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18). Cross-link 2 CFR § 200.323(b)

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, contractor/supplier certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency

upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

(1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7.A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.
(2) A bidder or contractor/supplier must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA- funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower-tier subcontractors.

The following certificates titled FTA and DOT Buy America Certification should be completed and returned with the response as part of FTA and DOT requirements.

FEDERAL TRANSIT ADMINISTRATION (FTA) AND DEPARTMENT OF TRANSPORTATION (DOT) - BUY AMERICA: CERTIFICATION REQUIREMENT FOR PROCUREMENT OF ROLLING STOCK

CERTIFICATE OF COMPLIANCE
(select one of the two options, NOT BOTH)
Certificate of Compliance with 49 USC §5323(j)
The proposer hereby certifies that it will comply with the requirements of 49 U.S.C. 5323(j), and the applicable regulations of 49 CFR 661.11.
Check for YES: ☒

OR

Certificate of Non-Compliance with 49 USC §5323(j)

The proposer hereby certifies that it cannot comply with the requirements of 49 U.S.C. 5323(j), but may qualify for an exception to the requirement consistent with 49 U.S.C. 5323(j)(2)(C), and the applicable regulations in 49 CFR 661.7.

If any portion of this project is funded with U.S Department of Transportation (DOT) funds, the contractor/supplier shall also complete a Disadvantage Business Enterprise (DBE) Certification Form in accordance with 49 C.F.R. Part 26. This requirement applies only to DOT-funded projects and is not applicable to HUD, ARPA, or Treasury-funded programs.

CERTIFICATION OF COMPLIANCE WITH BUILD AMERICA, BUY AMERICA ACT (BABA) 2 C.F.R. 184

The contractor/supplier acknowledges that certain federally funded infrastructure projects are subject to the Build America, Buy America Act (Pub. L. 117-58 §§ 70901-70927) and implementing regulations at 2 C.F.R. Part 184. When applicable, the contractor/supplier certifies that all iron, steel, manufactured products, and construction materials used in the project are produced in the United States, as required by the Act.

The contractor/supplier further agrees to provide appropriate documentation, origin certifications, or approved waivers upon request by the awarding agency or pass-through entity. Where a waiver is sought, the contractor/supplier shall support the request in writing and shall not proceed with procurement or installation of foreign materials until such waiver is granted in accordance with federal guidance.

The Build America, Buy America Act applies to all federally funded infrastructure projects, except where otherwise waived or exempted by the awarding agency.

Civil Rights Compliance Assurance

The Contractor/supplier agrees to comply with all applicable federal civil rights laws and regulations, including Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq.), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794), the Americans with Disabilities Act of 1990 (42 U.S.C. § 12101 et seq.), the Age Discrimination Act of 1975 (42 U.S.C. § 6101 et seq.), and any other nondiscrimination provisions applicable to this contract. The contractor/supplier shall ensure that no person is excluded from participation in, denied the benefits of, or subjected to discrimination under this contract on the basis of race, color, national origin, sex, age, or disability.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Section 109 - Non-Discrimination (42 U.S.C. § 5309)

The contractor/supplier shall comply with Section 109 of the Housing and Community Development Act of 1974 (42 U.S.C. § 5309), which prohibits discrimination on the basis of race, color, national origin, sex, or religion under any program or activity funded in whole or in part with CDBG funds.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Section 504 – Accessibility for Federally Assisted Programs (24 C.F.R. Part 8)

The contractor/supplier agrees to comply with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794) and implementing regulations at 24 C.F.R. Part 8, which prohibit discrimination based on disability in federally assisted programs or activities.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Lead-Based Paint (24 C.F.R. Part 35)

The contractor/supplier shall comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4821-4846), the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. §§ 4851-4856), and HUD regulations at 24 C.F.R. Part 35, which prohibit the use of lead-based paint in residential construction or rehabilitation funded with CDBG assistance.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Whistleblower Protection (41 U.S.C 4712)

The contractor/supplier shall comply with the whistleblower protections established under 41 U.S.C. 4712. Employees of contractors, subcontractors, and subrecipients are protected from reprisal for disclosing evidence of gross mismanagement, waste of federal funds, abuse of authority, or violations of law related to a federal contract or grant. The contractor/supplier must inform its employees in writing of their rights and remedies under this statute. Compliance with these protections is a material condition of this contract.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Remedies for Non-Compliance - 2 C.F.R. § 200.339

The contractor/supplier acknowledges that failure to comply with the terms and conditions of this agreement or any applicable federal requirements may result in enforcement actions as provided under 2 C.F.R. § 200.339. Remedies may include, but are not limited to, temporarily withholding payments, disallowing costs, wholly or partly suspending or terminating the contract, initiating suspension or debarment proceedings, or pursuing other legally available remedies.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Termination – 2 C.F.R. § 200.340

The contractor/supplier acknowledges that this contract may be terminated in whole or in part for cause, for convenience, or by mutual agreement, in accordance with 2 C.F.R. § 200.340. The basis for termination, applicable notice, and settlement provisions shall be clearly documented in writing.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Subrecipient Monitoring – 2 C.F.R. § 200.332

The contractor/supplier acknowledges that, when acting as a pass-through entity or subrecipient of federal funds, it must comply with the requirements of 2 C.F.R. § 200.332. The contractor/supplier shall monitor the activities of any subrecipients as necessary to ensure that federal funds are used in accordance with applicable statues, regulations, and the terms and conditions of the award. This includes performing risk assessments, issuing written subaward agreements with required flow-down clauses, reviewing financial and performance reports, and taking enforcement action when necessary to address noncompliance.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

COMMUNITY DEVELOPMENT BLOCK GRANTS

Purchases made under this contract may be partially or fully funded with federal grant funds. Funding for this work may include Federal Funding sources, including Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development. When such funding is provided, Contractor/Supplier shall comply with all terms, conditions and requirements enumerated by the grant funding source, as well as requirements of the State statutes for which the contract is utilized, whichever is the more restrictive requirement. When using Federal Funding, Contractor/Supplier shall comply with all wage and latest reporting provisions of the Federal Davis-Bacon Act. HUD-4010 Labor Provisions also applies to this contract.

In addition, the Contractor/supplier shall comply with the requirements of Section 3 of the Housing and Urban Development Act of 1968 (24 C.F.R. Part 75), ensuring, to the greatest extent feasible, that employment and contracting opportunities are directed to low- and moderate-income residents and Section 3 businesses.

If the project involves acquisition, demolition, or displacement activities, the contractor/supplier shall also comply with the Uniform Relocation Assistance and Real Property Acquisition Act (49 C.F.R. Part 24), ensuring fair compensation and relocation assistance for affected persons and property owners.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Section 3 – Economic Opportunities for Low- and Very Low-Income Persons (24 C.F.R. Part 75)

The contractor/supplier shall comply with Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. § 1701u) and the implementing regulations at 24 C.F.R. Part 75, which provide employment, training, and contracting opportunities for low- and very low-income persons in connection with projects and activities funded in whole or in part by HUD financial assistance.

The contractor/supplier shall submit Section 3 compliance reports and documentation of efforts to hire or contract with Section 3 residents and businesses, as applicable.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Faith-Based Organizations (24 C.F.R. § 570.200(j))

Faith-based organizations are eligible to participate in HUD-funded programs on an equal basis with other entities. However, CDBG funds may not be used for inherently religious activities such as worship, instruction, or proselytization.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Duplication of Benefits (42 U.S.C. § 5155)

The contractor/supplier certifies that it will not receive duplicate federal financial assistance for costs incurred under this contract and shall immediately disclose any potential duplication of benefits to the City of Brownsville.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Access to Records and Closeout (2 C.F.R. § 200.337(b))

The contractor/supplier shall maintain all records pertinent to this contract for a minimum of three (3) years following the final closeout of the CDBG grant or project, or longer if required by applicable law or by the City of Brownsville.

Authorized representatives of HUD, the U.S. Department of the Treasury, the Comptroller General, the Inspector General, or other oversight agencies shall have the right of access to any pertinent records for audit, monitoring, or investigative purposes during and after the contract term.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Contractor Integrity and Ethical Conduct

The contractor/supplier shall maintain the highest standards of integrity and business ethics in connection with the performance of this contract.

The contractor/supplier shall comply with all applicable conflict-of-interest provisions, anti-fraud statutes, and procurement

regulations, and shall immediately report to the City of Brownsville any credible evidence of a violation of federal criminal law involving fraud, bribery, or gratuity violations that may affect this contract.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Executive Orders and Future Regulatory Updates

All current and future federal laws, Executive Orders, and regulations applicable to HUD- or CDBG-funded projects are hereby incorporated by reference.

The contractor/supplier acknowledges that it is responsible for compliance with any future revisions or new requirements issued by the U.S. Department of Housing and Urban Development (HUD) or the U.S. Office of Management and Budget (OMB) that affect this contract during its term.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

The City of Brownsville reserves the right to request a signed or notarized certification, affidavit, or other supporting documentation for any of the provisions or clauses contained in this document at any time during the procurement process or contract term.

By signing below, the contractor/supplier certifies that all information provided in this document is true and accurate to the best of their knowledge and understands that any false statement may be subject to penalties under the False Claims Act (31 U.S.C. §§ 3729-3733).

The contractor/supplier further agrees to comply with all applicable federal, state, and local laws, rules, regulations, and ordinances. It is acknowledged that the contractor/supplier certifies compliance with all provisions, laws, acts, and regulations specifically noted above.

Grants and Community Development

Section 3 - Acknowledgment and Intent to Comply

(HUD Regulation, 24 CFR Part 75)

The Section 3 program requires recipients of HUD funding to direct employment, training, and contracting opportunities to low-income individuals and the businesses that employ these persons within their community. Section 3 is a provision of the HUD Act of 1968 and is found at 12 U.S.C. 1701u. The regulations are found at 24 CFR Part 75.

Per this statutory language, recipients of HUD funds (i.e. grantees and contractors) ensure that "to the greatest extent feasible," when certain HUD funds are used to assist housing and community development projects, preference for construction-related training, jobs, and contracting opportunities go to low- and very-low income people and to businesses that are owned by low- and very-low income persons or businesses that hire them. These opportunities are both sex and race neutral.

If awarded a HUD funded contract, I will:

A. Insert Section 3 language *(located on the next page)* into all contracts and subcontracts associated with the federal funded projects;
B. Submit and implement a Grants and Community Development Section 3 Plan which will form part of our contractual obligations;
C. Submit all required employment and contracting documentation as requested by the Section 3 Program Office after review of our Section 3 Plan; and
D. Take affirmative actions to comply with all Section 3 notifications and requests, attain and report efforts toward achieving established HUD Section 3 benchmarks for Section 3 workers and Targeted Section 3 workers.
E. Maintain documentation for a time period required for record retention or in the absence of applicable program regulations in accordance with 2 CFR Part 200.

We are (I am) committed to comply with the HUD Section 3 regulation and Grants and Community Development Section 3 requirements. It is our (my) desire to work together to ensure compliance, *to the greatest extent feasible*, through the awarding of contracts for work and services to Section 3 business concerns and to provide employment and training to Section 3 workers and Targeted Section 3 workers.

(NOTE: This page is part of your bid or RFP package.)

Section 3 Language – 24 CFR Part 75

All HUD Section 3 covered contracts shall include the following language:

A. The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by Housing and Urban Development (HUD) assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very-low income persons.

B. The Parties to this contract agree to comply with HUD 24 CFR Part 75 regulation and City of Brownsville Grants and Community Development policy and guidelines related to the implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediments that would prevent them from complying with HUD 24 CFR Part 75 regulation or Grants and Community Development requirements.

C. The contractor agrees to include this Section 3 language in every subcontract subject to compliance with HUD 24 CFR Part 75 regulation, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 language, upon a finding that the subcontractor is in violation of HUD 24 CFR Part 75 regulation or Grants and Community Development policy and guidelines. The contractor will not subcontract with any subcontractor where the contractor has, or could be reasonably expected to have had, notice or knowledge that the subcontractor has been found in violation of HUD 24 CFR Part 75 regulation.

D. Noncompliance with HUD 24 CFR Part 75 regulation or Grants and Community Development policy and guidelines may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts at the sole discretion of the City of Brownsville Grants and Community Development.

BUILD AMERICA, BUY AMERICA (BABA)

Contractor Certification Form

City of Brownsville – Grants & Community Development

Project Information

- Project Name: Building Demolition Services on an As Needed Basis
- Project Number: 263-26-PLN-IFB
- Funding Source (CDBG / ESG): _____
- Contract Number: _____
- Contractor Name: Alamo Environmental, Inc. dba Alamo1
- Contractor Address: 2900 Nacogdoches Road, San Antonio, Texas 78217

BABA CERTIFICATION

Pursuant to the Infrastructure Investment and Jobs Act and 2 CFR Part 184, the undersigned certifies the following:

☑ OPTION 1 – FULL COMPLIANCE CERTIFICATION

The Contractor certifies that all iron, steel, manufactured products, and construction materials used in the above-referenced infrastructure project:

1. Are produced/manufactured in the United States;
2. Meet the applicable domestic content requirements under the Build America, Buy America Act;

3. Have been verified through supplier/manufacturer documentation;
4. Will be incorporated into the project in compliance with federal law.

The Contractor further certifies that these requirements have been flowed down to all subcontractors and suppliers.

☐ **OPTION 2 – WAIVER REQUEST**

The Contractor is unable to certify full compliance and hereby requests a waiver for the following item(s):

Item	Manufacturer	Country of Origin	Reason for Waiver (Public Interest / Nonavailability / Unreasonable Cost)

Supporting documentation is attached.

The Contractor understands that:

- No waiver is valid unless approved in writing by Grants and Community Development Department.
- Noncompliant materials may not be installed without City of Brownsville Grants and Community Development Department approval.
- The City may withhold payment for noncompliant materials.

Certification Statement

I certify under penalty of perjury that the information provided herein is true and correct.

Authorized Signature: _____
Name & Title: Jaocb Robles, Senior Estimator
Date: 7/28/26

REQUIRED BABA CONTRACT CLAUSES

(Insert into all applicable CDBG/ESG infrastructure solicitations and contracts)

A. Build America, Buy America Compliance Clause

This project is subject to the Build America, Buy America Act (BABA), Sections 70901–70953 of the Infrastructure Investment and Jobs Act, and 2 CFR Part 184.

The Contractor agrees that:

1. **All iron and steel used in the project shall be produced in the United States.**
2. **All manufactured products shall be manufactured in the United States and meet domestic component cost requirements.**
3. **All construction materials shall be produced in the United States.**

B. Certification Requirement

Prior to contract execution, the Contractor must submit a signed BABA Certification Form.

Failure to submit certification shall render the bid nonresponsive.

C. Flow-Down Requirement

The Contractor shall include BABA requirements in all subcontracts, purchase orders, and supplier agreements related to this project.

The Contractor is responsible for ensuring subcontractor compliance.

D. Documentation and Verification

The Contractor shall:

- **Maintain documentation verifying the domestic origin of covered materials.**
- **Provide manufacturer certifications upon request.**

- **Allow access to records for City and HUD monitoring.**

E. Waivers

No foreign-sourced materials may be incorporated into the project unless:

1. **A written waiver request is submitted; and**
2. **HUD provides written approval.**

Unauthorized substitution of noncompliant materials may result in:

- **Removal and replacement at contractor expense**
- **Withholding of payment**
- **Disallowance of costs**
- **Termination for cause**

F. Remedies for Noncompliance

Failure to comply with BABA requirements may result in:

- **Disallowed costs**
- **Repayment of federal funds**
- **Contract termination**
- **Suspension or debarment**

MASTER SERVICE AGREEMENT FOR BUILDING DEMOLITION SERVICES ON AN AS-NEEDED BASIS

Contract No. 263-26-PLN-IFB

This Agreement shall commence upon the approval of the City Commission and executed by the City of Brownsville's Mayor or designee. This agreement is between The City of Brownsville, Texas, hereinafter referred to as ("CITY") and Waste Solutions USA LLC hereinafter referred to as ("Contractor"), collectively referred to as "Parties" and individually as "Party".

1. **Documents**
   a. The following documents (collectively, "Contract Documents") are hereby incorporated into and made part of this Agreement.

      i. Scope of Services, Conditions and Additional Services (Exhibit A)
      ii. Term of Agreement (Exhibit B)
      iii. Compensation and Fees Schedule (Exhibit C)
      iv. Sample Task Order with Instructions (Exhibit D)
      v. Form 2 - Statement of Conflict of Interest (Exhibit E)
      vi. Form 3 - Texas Ethics Commission Certificate of Interested Parties (1295) (Exhibit F)
      vii. Insurance (Exhibit G)
      viii. Form 10 – Cooperative Use Authorization Form (Exhibit H)
      ix. Form 12 – CDBG Federal Clauses Certification Form (Exhibit I)
      x. Form 13 – Acknowledgment and Intent to Comply (Exhibit J)
      xi. Form 14 – BABA Contractor Certification (Exhibit K)

2. **Scope of Services**
   a. Contractor shall perform the Services under this agreement upon written request orders by CITY. Unless otherwise specified in a project request, Contractor and CITY agree that the scope of work is deemed to include preliminary considerations and prerequisites, and all tasks which are an integral and inseparable part of the work described in the Contract Documents or by separate written request.
   b. Contractor will perform such Services in a diligent and workmanlike manner consistent with industry standards.
   c. By signing this Agreement, Contractor represents that it has thoroughly reviewed the Contract Documents incorporated into this Agreement, including but not limited to "Exhibit A" Scope of services and that it accepts the description of the Work and the conditions under which the Work is to be performed and completed.

3. **Independent Contractor; Personnel**
   a. The Contractor enters into this Agreement as, and shall remain, an independent contractor. Nothing in this Agreement shall be construed to create a relationship of employer–employee, partnership, or agency between the City and the Contractor. Neither the Contractor nor its employees or subconsultants shall be entitled to any benefits accorded to City employees, including, without limitation, workers' compensation, disability insurance, vacation or sick leave. The Contractor shall be solely responsible, at its own expense, for providing all required insurance, licenses, and permits, and for paying all applicable local, state, and federal taxes.
   b. The Contractor represents and warrants that all personnel and subconsultants performing services hereunder shall be properly trained, experienced, and, where required, licensed or registered to perform such services in the State of Texas.

4. **Term of Agreement.**

   a. The initial contract period shall commence upon approval by the City Commission and when executed by the City of Brownsville's Mayor or designee and shall end or be extended upon the terms specified in Contract Documents "Exhibit B". The term or any continuation of this Agreement shall be subject to both the appropriation and the availability of funds by CITY.

5. **Compensation**

   a. The Contractor shall be compensated for services as provided in Exhibit C of this Agreement, and as further defined in each Task Order issued hereunder. The compensation described in Exhibit C represents the City's maximum obligation for each authorized scope of services, but does not obligate the City to issue any minimum amount of work. The Contractor shall only be required to perform services specifically authorized by the City through a written Task Order.
   b. The Contractor may submit invoices no more often than monthly for Work satisfactorily completed under an authorized Task Order. Each invoice shall identify the applicable Task Order, the bid item(s) performed, the actual quantities completed, the applicable unit price(s), and the total amount requested for payment. Invoices shall include all supporting documentation required by the City, including disposal tickets, manifests, photographs, or other records, as applicable. Invoices shall be submitted within fifteen (15) days after the end of each month. The final invoice shall be submitted no later than sixty (60) days after expiration or termination of this Agreement. Electronic submission of invoices shall be permitted.
   c. The City may withhold payment, in whole or in part, if (i) services are defective or materially noncompliant with the Agreement and have not been remedied, (ii) the Contractor has failed to comply with material terms of this Agreement, or (iii) withholding is otherwise authorized by law. Any withholding shall be limited to the amount reasonably necessary to protect the City. Payment terms shall otherwise be governed by the Texas Prompt Payment Act (Tex. Gov't Code Ch. 2251).

6. **Inspection and Review of Work**

   a. The City may inspect the Work at any time to verify that the Work is being performed in accordance with this Agreement, the applicable Task Order, and all applicable requirements.
   b. The Contractor shall provide the City and its authorized representatives reasonable access to the project site for purposes of inspection, observation, and verification of the Work.
   c. The Contractor shall promptly correct, at its own expense, any Work determined by the City to be defective, incomplete, or not in compliance with the Contract Documents or applicable Task Order.
   d. Inspection, observation, review, or acceptance by the City shall not relieve the Contractor of responsibility for the proper performance and completion of the Work.

7. **Documentation, Invoicing, and Acceptance of Work**

   a. The Contractor shall maintain and submit documentation required by the City for each Task Order, which may include permits, disposal tickets or manifests, photographs, inspection records, certifications, and other supporting documentation applicable to the Work.
   b. Invoices shall identify the applicable Task Order and shall include sufficient supporting documentation to verify the quantities of Work satisfactorily completed and the amount requested for payment.
   c. Payment shall be based upon Work satisfactorily completed and accepted by the City in accordance with the applicable Task Order and the unit prices established in Exhibit C.

d. The City may require correction of incomplete or nonconforming Work before final acceptance and payment. Payment or acceptance by the City shall not relieve the Contractor of its obligations under this Agreement.

8. Records and Documentation

a. The Contractor shall maintain complete and accurate records relating to Work performed under this Agreement and each Task Order, including invoices, disposal documentation, permits, photographs, certifications, and other records required by the City or applicable law.
b. The Contractor shall provide copies of such records to the City upon request and shall retain records for the period required by applicable federal, state, and local law and any funding requirements applicable to the Work.
c. All reports, photographs, manifests, certifications, and other project-specific documentation prepared or submitted to the City in connection with a Task Order shall become part of the City's project records.
d. For Task Orders funded in whole or in part with federal or state funds, the Contractor shall comply with any additional recordkeeping, retention, access, audit, or documentation requirements incorporated into the applicable Task Order.

9. Insurance

a. The Contractor shall furnish proof of insurance requirements as specified in Contract Documents "Exhibit G". The coverage is to remain in force at all times during the contract period and the minimum insurance coverage is required. The commercial general liability insurance policy shall name the City of Brownsville, Texas, as an "additional insured." This MUST be written in the description section of the insurance certificate, even if there is a check-off box on the insurance certificate. Any costs for adding the City as "additional insured" shall be at the Contractor's expense.
b. The CITY shall be given notice 10 days prior to cancellation or modification of any required insurance. The insurance provided shall be endorsed or amended to comply with this notice requirement. In the event that the insurer is unable to accommodate, it shall be the responsibility of the Contractor to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested and addressed to the Procurement Department.
c. The Contractor's insurance must be provided by an A.M. Best's "A-"rated or better insurance company authorized to issue insurance policies in the State of Texas, subject to approval by the City of Brownsville Department of Safety and Risk Management. Any exclusions or provisions in the insurance maintained by the Contractor that excludes coverage for work contemplated in this solicitation shall be deemed unacceptable, and shall be considered breach of contract.

10. Termination

a. *Termination for Cause.* The aggrieved party may terminate this Agreement for cause if the party in breach has not corrected the breach within ten (10) days after written notice from the aggrieved party identifying the breach. CITY may also terminate this Agreement upon such notice as the City of Brownsville's City Manager deems appropriate under the circumstances in the event the City Manager determines that termination is necessary to protect the public health or safety. The parties agree that if the CITY erroneously, improperly or unjustifiably terminates for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

This Agreement may be terminated for cause for reasons including, but not limited to, Contractor's repeated (whether negligent or intentional) submission for payment of false or incorrect bills or invoices, failure to perform the Work to CITY's satisfaction; or failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement.

b. *Termination for Convenience.* CITY reserves the right, in its best interest as determined by the City of Brownsville's City Manager, to cancel this contract for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Agreement is terminated for convenience, Contractor shall be paid for any services performed to CITY's satisfaction pursuant to the Agreement through the termination date specified in the written notice of termination. Contractor acknowledges and agrees that he/she/it has received good, valuable and sufficient consideration from CITY, the receipt and adequacy of which are hereby acknowledged by the Contractor, for CITY's right to terminate this Agreement for convenience.

c. *Cancellation for Non-appropriated Funds.* CITY reserves the right, in its best interest as determined by the City of Brownsville's City Manager, to cancel this contract for non-appropriated funds or unavailability of funds by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. The obligation of CITY for payment to the Contractor is limited to the availability of funds appropriated in a current fiscal period, and continuation of the contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise provided by law.

d. *Force Majeure.* CITY and Contractor will be excused from the performance of their respective obligations under this agreement when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, civil commotion, malicious damage, act or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment, or service from a public utility needed for their performance, provided that:

    i. The non performing party gives the other party prompt written notice describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;

    ii. The excuse of performance is of no greater scope and of no longer duration than is reasonably necessary when considered in light of the Force Majeure;

    iii. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure; and

    iv. The non-performing party uses its best efforts to remedy its inability to perform.

    v. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of sixty (60) days, provided that in extenuating circumstances, CITY may excuse performance for a longer term. Economic hardship of the Contractor will not constitute Force Majeure. The term of the agreement shall be extended by a period equal to that during which either party's performance is suspended under this Section.

11. Materiality and Waiver of Breach.

a. The Parties agree that each requirement, duty, and obligation set forth in this Agreement is material to its performance. The City's failure at any time to enforce any provision of this Agreement shall not be construed as a waiver of that provision, or as a waiver of the City's right thereafter to enforce each and every provision of this Agreement. A waiver of any breach by the City shall be effective only if made in writing and shall not be deemed a waiver of any subsequent breach, nor shall it constitute a modification of the terms of this Agreement.

12. **Indemnification.**

a. **TO THE FULLEST EXTENT PERMITTED BY LAW, THE CONTRACTOR SHALL INDEMNIFY AND HOLD HARMLESS THE CITY, ITS OFFICERS, OFFICIALS, EMPLOYEES, AND REPRESENTATIVES FROM AND AGAINST CLAIMS, DAMAGES, LOSSES, AND EXPENSES, INCLUDING REASONABLE ATTORNEYS' FEES, TO THE EXTENT CAUSED BY THE NEGLIGENT ACTS, ERRORS, OR OMISSIONS OF THE CONTRACTOR, ITS EMPLOYEES, OR ITS SUBCONSULTANTS IN THE PERFORMANCE OF SERVICES UNDER THIS AGREEMENT.**

b. **THIS INDEMNITY SHALL NOT APPLY TO THE EXTENT THAT A CLAIM ARISES FROM THE NEGLIGENCE OR WILLFUL MISCONDUCT OF THE CITY OR ANY OTHER PERSON OR ENTITY NOT UNDER THE CONTRACTOR'S CONTROL.**

c. **THE CONTRACTOR SHALL NOTIFY THE CITY IN WRITING WITHIN 24 HOURS OF ANY CLAIM OR DEMAND MADE AGAINST THE CITY OR THE CONTRACTOR THAT IS RELATED TO THE SERVICES PROVIDED UNDER THIS AGREEMENT. THE CONTRACTOR SHALL COOPERATE FULLY IN THE INVESTIGATION AND DEFENSE OF SUCH CLAIMS. THE CITY MAY, AT ITS OWN EXPENSE, PARTICIPATE IN THE DEFENSE WITHOUT RELIEVING THE CONTRACTOR OF ITS INDEMNIFICATION OBLIGATIONS.**

d. **THIS INDEMNIFICATION OBLIGATION SHALL SURVIVE TERMINATION OR EXPIRATION OF THIS AGREEMENT.**

13. **Miscellaneous Provisions.**

a. *Successors and Assigns.* All of the provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, if any, successors, and assigns.

b. *Choice of Law.* The laws of the state of Texas shall govern the validity of this Agreement, the construction of its terms and the interpretation of the rights and duties of the parties hereto.

c. *No Waiver of Governmental Immunity.* NOTHING IN THIS AGREEMENT SHALL BE CONSTRUED TO WAIVE CITY'S GOVERNMENTAL IMMUNITY FROM LAWSUIT, WHICH IMMUNITY IS EXPRESSLY RETAINED TO THE EXTENT IT IS NOT CLEARLY AND UNAMBIGUOUSLY WAIVED BY STATE LAW.

d. *Assignment.* Contractor shall not assign any of Contractor's rights under this Agreement or delegate the performance of any of Contractor's duties hereunder, without the prior consent of CITY.

e. *Modification or Amendment.* No amendment, change or modification of this Agreement shall be valid unless in writing signed by the parties hereto.

f. *Venue.* This Agreement and any and all matters arising directly or indirectly here from shall be governed by and construed and enforced in accordance with the Laws of the State of Texas, in the Federal and State Courts of Cameron County, Texas having jurisdiction. (b) If at any time there is a dispute between or among the Parties with respect to any matter arising directly or indirectly from this Agreement (an "Agreement Matter"), the Parties agree that, prior to seeking judicial remedy, they will

engage in face-to-face negotiations in an attempt to resolve such dispute and shall, upon failing to negotiate a mutually-satisfactory resolution, choose a mutually agreeable neutral third party to mediate such dispute. Mediation shall be non-binding and shall be confidential.

g. *Notices.* Any and all notices, demands, or other communications required or desired to be given hereunder by any party shall be in writing and shall be validly given or made to another party if personally served, or if deposited in the United States mail, certified or registered, postage prepaid, return receipt requested. If such notice or demand is served personally, notice shall be deemed constructively made at the time of such personal service. If such notice, demand or other communication is given by mail, such notice shall be conclusively deemed given five days after deposit thereof in the United States mail addressed to the party to whom such notice, demand or other communication is to be given as follows:

If to Contractor:	Waste Solutions USA LLC 2434 LCR 656, Thornton, TX 76687
If to CITY:	City of Brownsville 1001 E. Elizabeth St. Brownsville, Texas, 78521

Any party hereto may change its address for purposes of this paragraph by written notice given in the manner provided above.

h. *Entire Understanding.* This document and any exhibit attached constitute the entire understanding and agreement of the parties, and any and all prior agreements, understandings, and representations are hereby terminated and canceled in their entirety and are of no further force and effect.

i. *Unenforceability of Provisions.* If any provision of this Agreement, or any portion thereof, is held to be invalid and unenforceable, then the remainder of this Agreement shall nevertheless remain in full force and effect.

IN WITNESS WHEREOF the undersigned have executed this Agreement as of the day and year first written above.

Assistant City Attorney

"EXHIBIT A" – Scope of Services, Conditions and Additional Services

Task Orders: All services under this Agreement shall be performed on an as-needed basis through written Task Orders issued by the City. Each Task Order shall identify the specific property or location, scope of work, applicable pricing or compensation, required completion timeframe, and any project-specific requirements. The execution of this Agreement does not guarantee the Contractor any minimum quantity of work, number of Task Orders, or minimum amount of compensation. The Contractor shall perform only those services specifically authorized by the City through an approved Task Order. The requirements and procedures governing Task Orders are set forth in **Exhibit D – Sample Task Order**.

Contractor shall provide all labor, materials, equipment, supervision, transportation, disposal, permits, safety measures, and related services necessary to complete assigned demolition projects. Major deliverables shall include, but are not limited to, demolition of assigned structures, removal of applicable foundations, clearing of trash and construction debris, lawful disposal of materials, site cleanup, and final grading of the property.

Demolition work may include, but is not limited to, residential, accessory, commercial, or other structures determined by the City to be unsafe, substandard, dilapidated, or otherwise subject to demolition pursuant to an order issued by the Building & Standards Commission.

Work shall be performed in accordance with all applicable federal, state, and local laws, rules, regulations, ordinances, permit requirements, safety standards, and environmental requirements.

1. **Project Assignment Information**
   For each demolition assignment, the City will provide the project information available to the contractor, which may include, but is not limited to:
   - Property address or location;
   - Approximate building area or square footage;
   - Type of structure;
   - Number of stories;
   - Foundation type, including whether the foundation is concrete, wood, pier-and-beam, slab-on-grade, or another type;
   - Known site conditions;
   - Required timeline;
   - Presence of accessory structures, fencing, flatwork, or debris;
   - Any special instructions or limitations related to the property.

2. **Minimum Work Requirements**
   Unless otherwise directed in writing by the City, each demolition assignment shall include the following:

   A. Structure Demolition

   The contractor shall demolish and remove the structure or structures identified by the City. Demolition shall include the removal of all building components, materials, and related debris associated with the assigned structure. The contractor shall account for relevant project characteristics, including:
   - Building area;
   - Number of stories;
   - Construction type;
   - Foundation type;
   - Site access;
   - Proximity to neighboring structures, utilities, sidewalks, streets, alleys, or public rights-of-way.

The contractor shall be responsible for verifying site conditions before beginning work and shall notify the City of any discrepancy, hazard, access limitation, or condition that may affect the demolition scope, cost, or schedule.

B. Foundation Removal

The contractor shall remove the foundation as directed by the City. Foundation types may include, but are not limited to:

- Concrete slab foundations;
- Concrete pier systems;
- Wood foundations;
- Pier-and-beam foundations;
- Other foundation systems encountered on site.

Where full foundation removal is required, the contractor shall remove foundation materials, associated debris, and any exposed or resulting hazards. Any exceptions or limitations to foundation removal must be approved by the City in writing before work proceeds.

C. **Clearing of Trash, Rubbish, and Construction Debris**

The contractor shall remove and properly dispose of all demolition debris, construction debris, trash, rubbish, and related materials from the property, unless otherwise directed by the City. This may include, but is not limited to:

- Demolished building materials;
- Loose trash and rubbish within the demolition area;
- Construction debris;
- Wood, metal, concrete, roofing materials, glass, fixtures, and similar materials;
- Debris resulting from demolition activities.

All materials shall be disposed of at the City of Brownsville landfill facility in accordance with applicable laws and regulations. The Contractor shall provide disposal tickets, manifests, photographs, or other documentation as required by the City to verify proper disposal.

D. Site Clearing and Final Grading

Upon completion of demolition and debris removal, the contractor shall leave the property in a clean, safe, and orderly condition. Final site work shall include:

- Removal of demolition-related debris;
- Elimination of unsafe holes, depressions, or hazards caused by demolition;
- Rough grading or final grading of the disturbed area;
- Leveling of the site to promote positive drainage where feasible;
- Leaving the site in a condition acceptable to the City.

The contractor shall not leave the property in a condition that creates a safety hazard, drainage issue, or nuisance.

E. **Protection of Adjacent Property and Public Infrastructure**

The contractor shall take all necessary precautions to protect adjacent properties, public sidewalks, streets, curbs, alleys, utilities, drainage facilities, trees, fences, and other improvements not identified for demolition.

Any damage caused by the contractor's operations shall be repaired at the contractor's expense and to the satisfaction of the City.

F. **Utility Coordination**

Prior to demolition, the contractor shall coordinate with the City and applicable utility providers, as necessary, to confirm that utilities have been properly disconnected, removed, capped, or otherwise made safe.
The contractor shall not begin demolition until utility conditions have been addressed to the satisfaction of the City or the appropriate utility provider.

G. **Safety and Site Control**

The contractor shall be responsible for maintaining a safe work site at all times. This includes providing appropriate barricades, fencing, signage, traffic control, dust control, and other safety measures necessary to protect workers, City personnel, neighboring properties, pedestrians, and the general public.
All work shall comply with applicable OSHA requirements and other safety standards.

3. Permits, Licenses, and Compliance

The Contractor shall perform all Work in accordance with all applicable federal, state, and local laws, ordinances, regulations, and codes. The Contractor shall obtain and maintain all permits, licenses, certifications, and approvals necessary to perform the Work.

The Contractor shall maintain all required licenses, permits, and certifications throughout the term of the Agreement and shall provide updated documentation upon the City's request.

4. Response Time and Availability

The Contractor shall maintain sufficient personnel, equipment, and resources to respond to demolition assignments in a timely manner. The Contractor shall mobilize and commence Work within the timeframe established in each Task Order or Notice to Proceed. The City may consider the Contractor's availability, capacity, and ability to meet required schedules when assigning Work under this Agreement.

5. Performance Requirements

- Timely completion of demolition services in accordance with work order schedules and City-established response times.
- Comply with all applicable federal, state, and local laws, regulations, permits, and requirements, including applicable OSHA and TCEQ requirements, Community Development Block Grant (CDBG) requirements, and all federal requirements incorporated into the Agreement or applicable Task Order.
- Performance of demolition, debris removal, disposal, and site restoration activities in a safe and professional manner consistent with industry standards.
- Maintenance of proper traffic control, site security, and public safety measures throughout the duration of the work.
- Coordination with City staff, utility providers, regulatory agencies, and other contractors as necessary.
- Submission of all required documentation, including permits, disposal manifests, photographs, inspection records, and closeout documents, as required by the City.
- Restoration of the site to a clean, safe, and acceptable condition upon completion of work.

6. Federal and CDBG Compliance

The Contractor acknowledges that CDBG funds may be used for Work performed under this Agreement and shall comply with all applicable federal requirements associated with such funding. Applicable federal provisions, including labor standards, wage requirements, reporting requirements, certifications, and other funding-specific conditions, shall be incorporated into the applicable Task Order when required.

7. Payment and Performance Bonds

Payment and Performance Bonds shall **not** be required upon execution of this Master Service Agreement. For each individual Task Order that constitutes a public works construction project and meets the bonding thresholds established under **Chapter 2253 of the Texas Government Code**, the Contractor shall furnish Payment and Performance Bonds in the amount required by law prior to commencement of Work.

All bonds shall:

1. Be issued by a surety authorized to conduct business in the State of Texas;
2. Comply with the requirements of Chapter 2253, Texas Government Code, and all other applicable state and federal laws;
3. Be submitted to and approved by the City before issuance of the Notice to Proceed for the applicable Task Order.

When a Task Order is funded in whole or in part with state or federal funds, the Contractor shall also comply with any additional bonding requirements contained in the applicable Task Order.

8. Davis Bacon

For all Davis-Bacon covered activities, the most current applicable Wage Determination published by the U.S. Department of Labor and available at the time of each new Purchase Order issuance shall be incorporated and used.

"EXHIBIT B" – Contract Term

Contract Term Details: The Contract, pending City Commission approval, includes a Base Period, Optional Renewal Periods, and a Total Contract Term as follows:

- **Base Period:** This initial period will begin upon City Commission approval and end on **September 30, 2029**

- **Optional Renewal Periods:** There are two (2) optional one-year renewal periods. If exercised, these periods will extend the contract as follows:
  - **First Renewal Period:** October 1, 2029, to September 30, 2030
  - **Second Renewal Period:** October 1, 2030 to September 30, 2031

- **Total Term of the Contract:** Including the Base Period and both optional renewals, the total contract term shall not exceed five (5) years, with a final end date of **September 30, 2031**, if all renewals are exercised.

"EXHIBIT C" – Compensation Structure

The City shall compensate the Contractor for Work performed under this Agreement in accordance with the unit prices submitted in the Contractor's Bid Price Form, which is incorporated herein by reference and made a part of this Agreement.

Compensation shall be based solely on the actual quantities of Work satisfactorily completed and accepted by the City under individual Task Orders issued pursuant to this Agreement.

The unit prices shall include all labor, supervision, materials, equipment, tools, transportation, permits, traffic control, mobilization, disposal, overhead, profit, insurance, taxes, and all other incidentals necessary to complete the Work in accordance with the Contract Documents, unless otherwise specifically provided in the applicable Task Order.

The City shall have no obligation to pay for Work performed without an authorized Task Order or for Work exceeding the authorized scope of a Task Order unless approved in writing by the City.

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent vendor must describe any conflicts of interest related to the goods and/or services associated with this solicitation.

The Respondent shall complete and submit **Form CIQ (Form 2)** indicating any conflicts of interest for the service provider or key employees. If no conflicts exist, the Respondent must indicate "N/A" on the form and submit it as part of their response.

A conflict of interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s).

The Entity reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict of interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Waste Solutions USA LLC

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A - No known relationship with any City of Brownsville officer

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print, sign, and notarize the TEC Form 1295 and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed and notarized in accordance with TEC requirements**.**

Form 10 - Cooperative Use Authorization & Administrative Fee Acknowledgment

Purpose

This form allows the Respondent to indicate whether it elects to participate in optional cooperative purchasing arrangements and acknowledges the associated administrative fee requirements if cooperative use is accepted. Cooperative use is not mandatory and is offered at the Respondent's discretion. By completing this form, the Respondent clearly identifies its intent regarding cooperative participation for contracts awarded by the City of Brownsville, Texas.

Solicitation No.: 263-26-PLN-IFB

Respondent Information

Legal Entity Name: Waste Solutions USA LLC

Primary Contact Name: Fabricio Lima

Title: Owner

Telephone: (832) 405-6296 **Email:** fabricio@wastesolutionsusa.com

Optional Cooperative Use Authorization

▣ **YES** – The Respondent **agrees** to allow cooperative use

☐ **NO** – The Respondent **declines** cooperative use

If **YES** is selected, the Respondent acknowledges and agrees that:

Cooperative Use Authorization

It is the intent of the City of Brownsville, Texas ("City") that any contract resulting from this solicitation may be made available for use by other governmental entities, to the maximum extent permitted under applicable federal, state, and local laws, including but not limited to Texas Government Code Chapter 791 (Interlocal Cooperation Act) and other applicable joint purchasing statutes. The awarded contractor agrees to extend the same pricing, terms, and conditions of this contract to any eligible public agency, political subdivision, or governmental entity that elects to purchase goods or services under this contract, provided that such entity issues its own purchase order, contract, or interlocal agreement that references the City of Brownsville's contract. Each participating entity shall be solely responsible for its own contractual obligations, including but not limited to the issuance of purchase orders, receipt of goods or services, and payment of invoices. The City of Brownsville shall not be responsible for the performance, payment, or administration of any obligations incurred by participating entities under this cooperative use provision.

Administrative Fee Acknowledgment

The City of Brownsville will utilize an administrative fee, in the form of a percentage of the cost, that will apply to all contracts between the awarded contractor, the City, or participants resulting from this solicitation. The administrative fee will be remitted by the contractor to Civic Marketplace on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 3% of sales. The administrative fee shall be included in the contractor's pricing and shall not be invoiced separately to the City or participating entities.

Certification

By signing below, the undersigned certifies that they are duly authorized to bind the Respondent, that all statements made in this form are true and correct, and that the Respondent's selection regarding cooperative use accurately reflects its intent.

TO WHOM IT MAY CONCERN:

Federal and CDBG funds will be used; therefore, this form must be completed and returned.

Community Development Block Grant (CDBG)

This version of the *Federal Clauses FY2026* document includes all required federal provisions under 2 C.F.R. Part 200, along with additional clauses required to ensure full compliance with Community Development Block Grant (CDBG) or other HUD-funded contracts.

Instructions for Completing this Form
Suppliers and contractors must review each federal clause and indicate whether it applies to the specific contract. For every section below, please initial **"YES"** to confirm agreement and compliance, or **"N/A"** (Not applicable) if the clause does not apply to the scope of work or funding source.
Yes – contractor/supplier agrees to comply with the clause as written and, where applicable, will provide all required documentation or certifications.
N/A – Clause is not applicable to the contract (e.g., Davis Bacon Act for non-construction work, Buy America for non-transportation projects, etc.) Contractor/supplier must initial next to "N/A" to confirm inapplicability.
Incomplete forms or unmarked sections may disqualify contractor/supplier and/or delay contract approval.

Vendor Responsibility for Regulatory Compliance
It is the responsibility of the contractor/supplier to review, verify, and comply with the most current versions of all applicable federal provisions, clauses, and regulations referenced in this document. The contractor/supplier shall refer to official U.S. Government websites, including the Code of Federal Regulations (www.ecfr.gov), Federal Acquisition Regulation (www.acquisition.gov), and agency-specific resources (e.g., HUD, DOT, Treasury, or OMB), to ensure full and current compliance at the time of bid submission and throughout the contract term.

DEFINITIONS

Contract: A legal agreement by which a non-Federal entity purchases property or services to carry out a federally funded project.

Contractor: An entity that receives a contract as defined in Contract.

Cooperative agreement: A form of federal financial assistance used when substantial involvement is expected between the federal agency or pass-through entity and the recipient.

Federal awarding agency: The U.S. federal agency providing the funding.

Federal award: The financial assistance or cost-reimbursement contract provided directly by a federal agency or indirectly through a pass-through entity to carry out a public purpose.

Non–Federal entity (NFE): A state, local government, tribe, institution of higher education, or non-profit organization that receives and administers federal funds.

Pass-Through Entity (PTE): A Non-Federal entity that provides part of its federal award to another organization (a subrecipient) to carry out a portion of the program.

Subrecipient/Subaward: A Non-Federal entity that receives federal funds from a pass-through entity to carry out part of federal program. The legal instrument documenting this relationship is the subaward.

Recipient: A Non–Federal entity receiving funds directly from a federal agency.

Simplified acquisition threshold: The current small-purchase limit established under the FAR (presently $250,000, adjusted periodically for inflation).

Obligations: Orders placed on contracts or subawards made that require payment by the Non-Federal entity.

Termination: The ending of a federal award, in whole or in part, prior to the planned end of the period of performance. These definitions are provided for reference only. For full regulatory text, see 2 C.F.R. Part 200, Subpart A (§§ 200.0-200.1).

Certification Regarding Certain Telecommunications and Video Surveillance Services or Equipment (FAR 52.204-24 & 52.204-25)

The contractor/supplier certifies compliance with the prohibitions under Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232) and the Federal Acquisition Regulation (FAR) 52.204-24 and 52.204-25.

The contractor/supplier shall not provide or use any equipment, system, or service that includes covered telecommunications equipment or services from Huawei Technologies Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, Dahua Technology Company, or any subsidiary or affiliate of such entities.

If the contractor/supplier identifies any covered telecommunications equipment or services during performance, it shall immediately notify the contracting agency or the City of Brownsville in writing and provide all information required under FAR 52.204-25(d).

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

APPENDIX II TO 2 CFR PART 200 – Contract Provision for Non-Federal Entity Contracts Under Federal Awards

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Contractor/Supplier as detailed in the terms of the contract.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(C) **Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."**

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, contractor/supplier will be in compliance with all applicable Davis-Bacon Act provisions.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, contractor/supplier certifies that contractor/supplier will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act

during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non- Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

In the event Federal Transit Administration (FTA) or Department of Transportation (DOT) funding is used by Participating Public Agency, contractor/Supplier also agrees to include Clean Air and Clean Water requirements in each subcontract exceeding $100,000 financed in whole or in part with Federal assistance provided by FTA.

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(H) Prohibition on Fraud, Waste, and Abuse - The contractor/supplier certifies that it will take all reasonable steps to prevent, detect, and disclose any suspected fraud, waste, or abuse of federal funds associated with this contract, consistent with applicable laws and agency guidance. Any such activity will be promptly reported to the awarding agency, pass-through entity, or the Office of Inspector General, as appropriate.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(I) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220 cross-reference to Treasury/OMB Guidance Subpart C) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions

contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the contractor/supplier or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the contractor/supplier will notify the Participating Agency.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(J) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (I) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(3) The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Procurement of Recovered Materials 2 C.F.R. § 200.323 / 40 C.F.R Part 247

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

When Participating Agency expends federal funds for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with 2 C.F.R. § 200.323

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Environmental Review (24 C.F.R. Part 58)

The contractor/supplier acknowledges that no funds shall be obligated or expended until the City of Brownsville has completed an environmental review and received a release of funds from HUD, as required under 24 C.F.R. Part 58. The contractor/supplier shall cooperate fully with the City in meeting all environmental review and mitigation requirements.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with the record retention requirements detailed in 2 CFR §§ 200.334-200.337. The contractor/supplier further certifies that contractor/supplier will retain all records as required by 2 CFR § 200.334 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18). Cross-link 2 CFR § 200.323(b)

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, contractor/supplier certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency

upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

(1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7.A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.
(2) A bidder or contractor/supplier must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA- funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower-tier subcontractors.

The following certificates titled FTA and DOT Buy America Certification should be completed and returned with the response as part of FTA and DOT requirements.

FEDERAL TRANSIT ADMINISTRATION (FTA) AND DEPARTMENT OF TRANSPORTATION (DOT) - BUY AMERICA: CERTIFICATION REQUIREMENT FOR PROCUREMENT OF ROLLING STOCK

CERTIFICATE OF COMPLIANCE
(select one of the two options, NOT BOTH)
Certificate of Compliance with 49 USC §5323(j)
The proposer hereby certifies that it will comply with the requirements of 49 U.S.C. 5323(j), and the applicable regulations of 49 CFR 661.11.
Check for YES: ☐

OR

Certificate of Non-Compliance with 49 USC §5323(j)

The proposer hereby certifies that it cannot comply with the requirements of 49 U.S.C. 5323(j), but may qualify for an exception to the requirement consistent with 49 U.S.C. 5323(j)(2)(C), and the applicable regulations in 49 CFR 661.7.

If any portion of this project is funded with U.S Department of Transportation (DOT) funds, the contractor/supplier shall also complete a Disadvantage Business Enterprise (DBE) Certification Form in accordance with 49 C.F.R. Part 26. This requirement applies only to DOT-funded projects and is not applicable to HUD, ARPA, or Treasury-funded programs.

CERTIFICATION OF COMPLIANCE WITH BUILD AMERICA, BUY AMERICA ACT (BABA) 2 C.F.R. 184

The contractor/supplier acknowledges that certain federally funded infrastructure projects are subject to the Build America, Buy America Act (Pub. L. 117-58 §§ 70901-70927) and implementing regulations at 2 C.F.R. Part 184. When applicable, the contractor/supplier certifies that all iron, steel, manufactured products, and construction materials used in the project are produced in the United States, as required by the Act.

The contractor/supplier further agrees to provide appropriate documentation, origin certifications, or approved waivers upon request by the awarding agency or pass-through entity. Where a waiver is sought, the contractor/supplier shall support the request in writing and shall not proceed with procurement or installation of foreign materials until such waiver is granted in accordance with federal guidance.

The Build America, Buy America Act applies to all federally funded infrastructure projects, except where otherwise waived or exempted by the awarding agency.

N/A (Not applicable to this contract) _____

Whistleblower Protection (41 U.S.C 4712)

The contractor/supplier shall comply with the whistleblower protections established under 41 U.S.C. 4712. Employees of contractors, subcontractors, and subrecipients are protected from reprisal for disclosing evidence of gross mismanagement, waste of federal funds, abuse of authority, or violations of law related to a federal contract or grant. The contractor/supplier must inform its employees in writing of their rights and remedies under this statute. Compliance with these protections is a material condition of this contract.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Remedies for Non-Compliance - 2 C.F.R. § 200.339

The contractor/supplier acknowledges that failure to comply with the terms and conditions of this agreement or any applicable federal requirements may result in enforcement actions as provided under 2 C.F.R. § 200.339. Remedies may include, but are not limited to, temporarily withholding payments, disallowing costs, wholly or partly suspending or terminating the contract, initiating suspension or debarment proceedings, or pursuing other legally available remedies.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Termination – 2 C.F.R. § 200.340

The contractor/supplier acknowledges that this contract may be terminated in whole or in part for cause, for convenience, or by mutual agreement, in accordance with 2 C.F.R. § 200.340. The basis for termination, applicable notice, and settlement provisions shall be clearly documented in writing.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Subrecipient Monitoring – 2 C.F.R. § 200.332

The contractor/supplier acknowledges that, when acting as a pass-through entity or subrecipient of federal funds, it must comply with the requirements of 2 C.F.R. § 200.332. The contractor/supplier shall monitor the activities of any subrecipients as necessary to ensure that federal funds are used in accordance with applicable statues, regulations, and the terms and conditions of the award. This includes performing risk assessments, issuing written subaward agreements with required flow-down clauses, reviewing financial and performance reports, and taking enforcement action when necessary to address noncompliance.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

COMMUNITY DEVELOPMENT BLOCK GRANTS

Purchases made under this contract may be partially or fully funded with federal grant funds. Funding for this work may include Federal Funding sources, including Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development. When such funding is provided, Contractor/Supplier shall comply with all terms, conditions and requirements enumerated by the grant funding source, as well as requirements of the State statutes for which the contract is utilized, whichever is the more restrictive requirement. When using Federal Funding, Contractor/Supplier shall comply with all wage and latest reporting provisions of the Federal Davis-Bacon Act. HUD-4010 Labor Provisions also applies to this contract.

In addition, the Contractor/supplier shall comply with the requirements of Section 3 of the Housing and Urban Development Act of 1968 (24 C.F.R. Part 75), ensuring, to the greatest extent feasible, that employment and contracting opportunities are directed to low- and moderate-income residents and Section 3 businesses.

If the project involves acquisition, demolition, or displacement activities, the contractor/supplier shall also comply with the Uniform Relocation Assistance and Real Property Acquisition Act (49 C.F.R. Part 24), ensuring fair compensation and relocation assistance for affected persons and property owners.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Section 3 – Economic Opportunities for Low- and Very Low-Income Persons (24 C.F.R. Part 75)

The contractor/supplier shall comply with Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. § 1701u) and the implementing regulations at 24 C.F.R. Part 75, which provide employment, training, and contracting opportunities for low- and very low-income persons in connection with projects and activities funded in whole or in part by HUD financial assistance.

The contractor/supplier shall submit Section 3 compliance reports and documentation of efforts to hire or contract with Section 3 residents and businesses, as applicable.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Faith-Based Organizations (24 C.F.R. § 570.200(j))

Faith-based organizations are eligible to participate in HUD-funded programs on an equal basis with other entities. However, CDBG funds may not be used for inherently religious activities such as worship, instruction, or proselytization.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Duplication of Benefits (42 U.S.C. § 5155)

The contractor/supplier certifies that it will not receive duplicate federal financial assistance for costs incurred under this contract and shall immediately disclose any potential duplication of benefits to the City of Brownsville.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Access to Records and Closeout (2 C.F.R. § 200.337(b))

The contractor/supplier shall maintain all records pertinent to this contract for a minimum of three (3) years following the final closeout of the CDBG grant or project, or longer if required by applicable law or by the City of Brownsville.

Authorized representatives of HUD, the U.S. Department of the Treasury, the Comptroller General, the Inspector General, or other oversight agencies shall have the right of access to any pertinent records for audit, monitoring, or investigative purposes during and after the contract term.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Contractor Integrity and Ethical Conduct

The contractor/supplier shall maintain the highest standards of integrity and business ethics in connection with the performance of this contract.

The contractor/supplier shall comply with all applicable conflict-of-interest provisions, anti-fraud statutes, and procurement

regulations, and shall immediately report to the City of Brownsville any credible evidence of a violation of federal criminal law involving fraud, bribery, or gratuity violations that may affect this contract.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

Executive Orders and Future Regulatory Updates

All current and future federal laws, Executive Orders, and regulations applicable to HUD- or CDBG-funded projects are hereby incorporated by reference.

The contractor/supplier acknowledges that it is responsible for compliance with any future revisions or new requirements issued by the U.S. Department of Housing and Urban Development (HUD) or the U.S. Office of Management and Budget (OMB) that affect this contract during its term.

Does contractor/supplier agree? **YES** _FL_____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

The City of Brownsville reserves the right to request a signed or notarized certification, affidavit, or other supporting documentation for any of the provisions or clauses contained in this document at any time during the procurement process or contract term.

By signing below, the contractor/supplier certifies that all information provided in this document is true and accurate to the best of their knowledge and understands that any false statement may be subject to penalties under the False Claims Act (31 U.S.C. §§ 3729-3733).

The contractor/supplier further agrees to comply with all applicable federal, state, and local laws, rules, regulations, and ordinances. It is acknowledged that the contractor/supplier certifies compliance with all provisions, laws, acts, and regulations specifically noted above.

Grants and Community Development

Section 3 - Acknowledgment and Intent to Comply

(HUD Regulation, 24 CFR Part 75)

The Section 3 program requires recipients of HUD funding to direct employment, training, and contracting opportunities to low-income individuals and the businesses that employ these persons within their community. Section 3 is a provision of the HUD Act of 1968 and is found at 12 U.S.C. 1701u. The regulations are found at 24 CFR Part 75.

Per this statutory language, recipients of HUD funds (i.e. grantees and contractors) ensure that "to the greatest extent feasible," when certain HUD funds are used to assist housing and community development projects, preference for construction-related training, jobs, and contracting opportunities go to low- and very-low income people and to businesses that are owned by low- and very-low income persons or businesses that hire them. These opportunities are both sex and race neutral.

If awarded a HUD funded contract, I will:

A. Insert Section 3 language *(located on the next page)* into all contracts and subcontracts associated with the federal funded projects;
B. Submit and implement a Grants and Community Development Section 3 Plan which will form part of our contractual obligations;
C. Submit all required employment and contracting documentation as requested by the Section 3 Program Office after review of our Section 3 Plan; and
D. Take affirmative actions to comply with all Section 3 notifications and requests, attain and report efforts toward achieving established HUD Section 3 benchmarks for Section 3 workers and Targeted Section 3 workers.
E. Maintain documentation for a time period required for record retention or in the absence of applicable program regulations in accordance with 2 CFR Part 200.

We are (I am) committed to comply with the HUD Section 3 regulation and Grants and Community Development Section 3 requirements. It is our (my) desire to work together to ensure compliance, *to the greatest extent feasible*, through the awarding of contracts for work and services to Section 3 business concerns and to provide employment and training to Section 3 workers and Targeted Section 3 workers.

(NOTE: This page is part of your bid or RFP package.)

Section 3 Language – 24 CFR Part 75

All HUD Section 3 covered contracts shall include the following language:

A. The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by Housing and Urban Development (HUD) assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very-low income persons.

B. The Parties to this contract agree to comply with HUD 24 CFR Part 75 regulation and City of Brownsville Grants and Community Development policy and guidelines related to the implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediments that would prevent them from complying with HUD 24 CFR Part 75 regulation or Grants and Community Development requirements.

C. The contractor agrees to include this Section 3 language in every subcontract subject to compliance with HUD 24 CFR Part 75 regulation, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 language, upon a finding that the subcontractor is in violation of HUD 24 CFR Part 75 regulation or Grants and Community Development policy and guidelines. The contractor will not subcontract with any subcontractor where the contractor has, or could be reasonably expected to have had, notice or knowledge that the subcontractor has been found in violation of HUD 24 CFR Part 75 regulation.

D. Noncompliance with HUD 24 CFR Part 75 regulation or Grants and Community Development policy and guidelines may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts at the sole discretion of the City of Brownsville Grants and Community Development.

BUILD AMERICA, BUY AMERICA (BABA)

Contractor Certification Form

City of Brownsville – Grants & Community Development

Project Information

- Project Name: On-Call Building Demolition Services (As-Needed Basis)
- Project Number: 263-26-PLN-IFB
- Funding Source (CDBG / ESG): CDBG
- Contract Number: To be assigned upon contract award
- Contractor Name: Waste Solutions USA LLC
- Contractor Address: 2434 LCR 656, Thornton, TX 76687

BABA CERTIFICATION

Pursuant to the Infrastructure Investment and Jobs Act and 2 CFR Part 184, the undersigned certifies the following:

■ OPTION 1 – FULL COMPLIANCE CERTIFICATION

The Contractor certifies that all iron, steel, manufactured products, and construction materials used in the above-referenced infrastructure project:

1. Are produced/manufactured in the United States;
2. Meet the applicable domestic content requirements under the Build America, Buy America Act;

3. Have been verified through supplier/manufacturer documentation;
4. Will be incorporated into the project in compliance with federal law.

The Contractor further certifies that these requirements have been flowed down to all subcontractors and suppliers.

☐ **OPTION 2 – WAIVER REQUEST**

The Contractor is unable to certify full compliance and hereby requests a waiver for the following item(s):

Item Manufacturer	Country of Origin	Reason for Waiver (Public Interest / Nonavailability / Unreasonable Cost)

Supporting documentation is attached.

The Contractor understands that:

- No waiver is valid unless approved in writing by Grants and Community Development Department.
- Noncompliant materials may not be installed without City of Brownsville Grants and Community Development Department approval.
- The City may withhold payment for noncompliant materials.

Certification Statement

I certify under penalty of perjury that the information provided herein is true and correct.

Authorized Signature: Fabricio Lima

Name & Title: Fabricio Lima, Owner

Date: 07/28/2026

REQUIRED BABA CONTRACT CLAUSES

(Insert into all applicable CDBG/ESG infrastructure solicitations and contracts)

A. Build America, Buy America Compliance Clause

This project is subject to the Build America, Buy America Act (BABA), Sections 70901–70953 of the Infrastructure Investment and Jobs Act, and 2 CFR Part 184.

The Contractor agrees that:

1. **All iron and steel used in the project shall be produced in the United States.**
2. **All manufactured products shall be manufactured in the United States and meet domestic component cost requirements.**
3. **All construction materials shall be produced in the United States.**

B. Certification Requirement

Prior to contract execution, the Contractor must submit a signed BABA Certification Form.

Failure to submit certification shall render the bid nonresponsive.

C. Flow-Down Requirement

The Contractor shall include BABA requirements in all subcontracts, purchase orders, and supplier agreements related to this project.

The Contractor is responsible for ensuring subcontractor compliance.

D. Documentation and Verification

The Contractor shall:

- **Maintain documentation verifying the domestic origin of covered materials.**
- **Provide manufacturer certifications upon request.**

- **Allow access to records for City and HUD monitoring.**

E. Waivers

No foreign-sourced materials may be incorporated into the project unless:

1. **A written waiver request is submitted; and**
2. **HUD provides written approval.**

Unauthorized substitution of noncompliant materials may result in:

- **Removal and replacement at contractor expense**
- **Withholding of payment**
- **Disallowance of costs**
- **Termination for cause**

F. Remedies for Noncompliance

Failure to comply with BABA requirements may result in:

- **Disallowed costs**
- **Repayment of federal funds**
- **Contract termination**
- **Suspension or debarment**

Agenda #:	Consideration and **ACTION** to approve a cooperative purchase from SHI Government Solutions, Inc. for CrowdStrike Cyber Defense Software in the amount of $331,074.28, as budgeted. (Information Technology Department)

Summary:
CrowdStrike is a pioneer in cloud-delivered endpoint protection. It offers the Falcon Endpoint Protection suite, an antivirus and endpoint protection system that emphasizes threat detection, machine learning malware detection, and signature-free updating. The Falcon platform is purpose-built to stop breaches via a unified set of cloud-delivered technologies that prevent all types of attacks. It responds to sophisticated attacks that go beyond malware, such as exploits, zero days, and hard-to-detect methods like credential theft.

The benefits of CrowdStrike include:

- **Cloud-native**: It eliminates complexity and simplifies deployment, driving down operational costs.
- **AI-powered**: It harnesses the power of big data and artificial intelligence to empower your team with instant visibility.
- **Single agent**: It delivers everything you need to stop breaches, providing maximum effectiveness from day one.
- **Better protection**: It offers protection across the entire threat lifecycle by combining machine learning, artificial intelligence, behavioral analytics, and proactive threat hunting in a single solution.
- **Better performance**: A single lightweight agent works everywhere, including virtual machines and data centers, providing protection even when endpoints are offline.
- **Better value**: It eliminates on-premise infrastructure and consolidates your endpoint agents with an extensible platform that grows and adapts to our needs without adding complexity.

- **Immediate time-to-value**: The unique benefits of this unified and lightweight approach include immediate time-to-value, better perfom1ance, reduced cost and complexity, and better protection

Project Scope and Analysis:
Renew the current CrowdStrike software license.

Funding:

Source: 03-6000-776 Grant Portion (80%)
01-241-7990-10 City Match (20%)
702-241-776

Amount: $22,595.91
$5,648.98
$302,829.40

Local Contribution if Applicable:

Recommendation:
The Information Technology Department recommends approval with reseller SHI Government Solutions, Inc. as budgeted. SHI Government Solutions, Inc. is the approved cooperative vendor for Crowdstrike and authorization for the City Manager to execute the necessary contract documents, subject to final review and approval by the City Attorney's Office.

â€¢ Your Falcon Complete subscription includes the Falcon Complete Limited Warranty coverage subject to the terms and conditions set forth at https://assets.crowdstrike.com/is/content/crowdstrikeinc/falcon-complete-warrantypdf

Pricing is for a one-year term.

The products offered under this proposal are resold in accordance with the terms and conditions of the Contract referenced under that applicable line item.

PROCUREMENT ANALYSIS

Date: Wednesday, September 30, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, City Manager
CC: Mr. Damian Espinoza, Procurement Director
Mr. James McCoy, IT Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, October 6, 2026.
"Consideration and Action to Authorize a Contract with SHI/Government Solutions, Inc. for Contract No. 007-27-IT-CP, for a term of One (1) Year, in the amount not to exceed $331,074.28, and authorize the City Manager to execute final contract documents upon completion of negotiations and approval by the City Attorney's Office, for CrowdStrike cybersecurity software and threat protection services (IT)."

Executive Summary:

- Department: IT Department
- Exemption Type: Cooperative Purchase Exemption
- Contract Number: 007-27-IT-CP
- Vendor: SHI/Government Solutions, Inc.
- Contract Amount: $331,074.28
- Term: One (1) Year

Background:
The Information Technology Department identified the need to continue utilizing CrowdStrike, a cybersecurity platform used to protect the City's computers, servers, user accounts, and other technology assets from cyber threats. The platform provides threat detection, monitoring, prevention, and response capabilities to help safeguard City systems and data from unauthorized access, malware, and other cybersecurity risks.

Exemption Justification:
Authorized use of contracts competitively solicited and awarded by another governmental entity or cooperative organization in compliance with Texas Local Government Code §271.102.

Procurement has verified that this contract falls under the active DIR-CPO-5241 Cooperative.

Vendor Information:
SHI/Government Solutions, Inc
290 Davidson Ave, Somerset, New Jersey, 08873
Point of Contact: Monica Espinoza, PubSec Account Executive

Phone/Email: (210) 519-8314 | Monica_Espinoza@SHI.com

Exhibits & Supporting Documents:

- Exhibit A – Quote
- Exhibit B – DIR-CPO-5241 Cooperative Agreement

Recommendation:

The Procurement Department recommends that the City Commission authorize contract negotiations with SHI/Government Solutions, Inc. under DIR-CPO-5241, in accordance with Texas Local Government Code §271.102, for a One (1) year term in an amount not to exceed $331,074.28. Approval of this agenda item will authorize the full contract value and authorize the City Manager to execute the necessary contract documents upon completion of negotiations and final review and approval by the City Attorney's Office.

STATE OF TEXAS

DEPARTMENT OF INFORMATION RESOURCES

CONTRACT FOR PRODUCTS AND RELATED SERVICES

SHI/Government Solutions, Inc.

1 INTRODUCTION

1.1 Parties

This contract for Software, Commercial Off-the-Shelf (COTS) and Related Services (this "Contract") is entered into between the State of Texas, acting by and through the Department of Information Resources (hereinafter "DIR") with its principal place of business at 300 West 15th Street, Suite 1300, Austin, Texas 78701, and SHI/Government Solutions, Inc., a Domestic For-Profit Corporation (hereinafter "Successful Respondent"), with its principal place of business at 3828 Pecana Trail Austin, Texas 78749.

1.2 Compliance with Procurement Laws

This Contract is the result of compliance with applicable procurement laws of the State of Texas. DIR issued a solicitation on the Comptroller of Public Accounts' Electronic State Business Daily, Request for Offer (RFO) DIR-CPO-TMP-570, on February 2, 2023, for Software, Commercial Off-the-Shelf (COTS) and Related Services (the "RFO"). Upon execution of all Contracts, a notice of award for DIR-CPO-TMP-570, shall be posted by DIR on the Electronic State Business Daily.

1.3 Order of Precedence

A. For transactions under this Contract, the order of precedence shall be as follows:
   1. this Contract;
   2. Appendix A, Standard Terms and Conditions;
   3. Appendix B, Successful Respondent's Historically Underutilized Businesses Subcontracting Plan;
   4. Appendix C, Pricing Index;
   5. Exhibit 1, RFO DIR-CPO-TMP-570, including all Addenda; and
   6. Exhibit 2, Successful Respondent's Response to RFO DIR-CPO-TMP-570, including all Addenda.

B. Each of the foregoing documents is hereby incorporated by reference and together constitute the entire agreement between DIR and Successful Respondent.

1.4 Definitions

Capitalized terms used but not defined herein have the meanings given to them in **Appendix A, Standard Terms and Conditions**.

2 TERM OF CONTRACT

The initial term of this Contract shall be up to two (2) years commencing on the date of the last signature hereto (the "Initial Term"), with one (1) optional two-year renewal and one (2) optional one-year renewal (each, a "Renewal Term"). Prior to expiration of the Initial Term and each Renewal Term, this Contract will renew automatically under the same terms and conditions unless either party provides written notice to the other party at least sixty (60) days in advance of the renewal date stating that the party wishes to discuss amendment or non-renewal.

3 OPTION TO EXTEND

Successful Respondent agrees that DIR may require continued performance under this Contract at the rates specified in this Contact following the expiration of the Initial Term or any Renewal Term. This option may be exercised more than once, but the total extension of performance hereunder shall not exceed ninety (90) calendar days. Such extension of services shall be subject to the requirements of the Contract, with the sole and limited exception that the original date of termination shall be extended pursuant to this provision. DIR may exercise this option upon thirty (30) calendar days written notice to the Successful Respondent.

4 PRODUCT AND SERVICE OFFERINGS

Products and services available under this Contract are limited to the technology categories defined in Request for Offer DIR-CPO-TMP-570 for Software, Commercial Off-the-Shelf (COTS) and Related Services. At DIR's sole discretion, Successful Respondent may incorporate changes or make additions to its product and service offerings, provided that any changes or additions must be within the scope of the RFO.

5 PRICING

5.1 Pricing Index

Pricing to Customers shall be as set forth in **Appendix C, Pricing Index**, and shall include the DIR Administrative Fee (as defined below).

5.2 Customer Discount

A. The minimum Customer discount for all products and services will be the percentage off List Price (as defined below) or MSRP (as defined below), as applicable, as specified in **Appendix C, Pricing Index**. Successful Respondent shall not establish a List Price or MSRP for a particular solicitation. For purposes of this Section, "List Price" is the price for a product or service published in Successful Respondent's price catalog (or similar document) before any discounts or price allowances are applied. For purposes of this Section, "MSRP," or manufacturer's suggested retail price, is the price list published by the manufacturer or publisher of a product and available to and recognized by the trade.

B. Customers purchasing products or services under this Contract may negotiate additional discounts with Successful Respondent. Successful Respondent and Customer shall provide the details of such additional discounts to DIR upon request.

C. If products or services available under this Contract are provided at a lower price to: (i) an eligible Customer who is not purchasing those products or services under this Contract, or (ii) to any other customer under the same terms and conditions provided for the State for the same products and services under this contract, then the price of such products and services under this Contract shall be adjusted to that lower price. This requirement applies to products or services quoted by Successful Respondent for a quantity of one (1), but does not apply to volume or special pricing purchases. Successful Respondent shall notify DIR within ten (10) days of providing a lower price as described in this Section, and this Contract shall be amended within ten (10) days to reflect such lower price.

5.3 Changes to Prices

A. Subject to the requirements of this section, Successful Respondent may change the price of any product or service upon changes to the List Price or MSRP, as

applicable. Discount levels shall not be subject to such changes, and will remain consistent with the discount levels specified in this Contract.

B. Successful Respondent may revise its pricing by publishing a revised pricing list, subject to review and approval by DIR. If DIR, in its sole discretion, finds that the price of a product or service has been increased unreasonably, DIR may request that Successful Respondent reduce the pricing for the product or service to the level published before such revision. Upon such request, Successful Respondent shall either reduce the pricing as requested, or shall remove the product or service from the pricing list for this Contract. Failure to do so will constitute an act of default by Successful Respondent.

5.4 Shipping and Handling

Prices to Customers shall include all shipping and handling fees. Shipments will be Free On Board Customer's Destination. No additional fees may be charged to Customers for standard shipping and handling. If a Customer requests expedited or special delivery, Customer will be responsible for any additional charges for expedited or special delivery.

5.5 Travel Expenses

Pricing for services provided under this Contract are exclusive of any travel expenses that may be incurred in the performance of such services. Travel expense reimbursement may include personal vehicle mileage or commercial coach transportation, hotel accommodations, parking, and meals; provided, however, the amount of reimbursement by Customers shall not exceed the amounts authorized for state employees as adopted by each Customer; and provided, further, that all reimbursement rates shall not exceed the maximum rates established for state employees under the current State Travel Management Program. Travel time may not be included as part of the amounts payable by Customer for any services provided under this Contract. The DIR Administrative Fee is not applicable to travel expense reimbursement. Anticipated travel expenses must be pre-approved in writing by the Customer. The Customer reserves the right not to pay travel expenses which are not pre-approved in writing by the Customer.

6 DIR ADMINISTRATIVE FEE

A. Successful Respondent shall pay an administrative fee to DIR based on the dollar value of all sales to Customers pursuant to this Contract (the "DIR Administrative Fee"). The amount of the DIR Administrative Fee shall be seventy-five hundredths of a percent (0.75%) of all sales, net of returns and credits. For example, the administrative fee for sales totaling $100,000 shall be $750.

B. All prices quoted to Customers shall include the DIR Administrative Fee. DIR reserves the right to increase or decrease the DIR Administrative Fee during the term of this Contract, upon written notice to Successful Respondent without amending this Contract. Any increase or decrease in the DIR Administrative Fee shall be incorporated in the price to Customers.

7 INTERNET ACCESS TO CONTRACT AND PRICING INFORMATION

In addition to the requirements listed in **Appendix A, Section 7.2, Internet Access to Contract and Pricing Information**, Successful Respondent shall include the following with its webpage:

A. A current price list or mechanism to obtain specific contract pricing;
B. MSRP/list price or DIR Customer price;
C. Discount percentage (%) off MSRP or List Price;
D. Warranty policies; and
E. Return policies.
F. A link to DIR's list of TX-RAMP certified Cloud Products; and
G. A link to Service Level Agreements for each SaaS product awarded, which, at a minimum, shall include metrics and method for calculating and reporting results for:
    i. service availability.
    ii. recovery time objectives; and
    iii. data loss tolerance levels (also known as recovery point objectives).

8 USE OF ORDER FULFILLERS

8.1 Authorization to Use Order Fulfillers

Subject to the conditions in this Section 8, DIR agrees to permit Successful Respondent to utilize designated order fulfillers to provide products, services, and support resources to Customers under this Contract ("Order Fulfillers").

8.2 Designation of Order Fulfillers

A. Successful Respondent may designate Order Fulfillers to act as the distributors for products and services available under this Contract. In designating Order Fulfillers, Successful Respondent must be in compliance with the State's Policy on Utilization of Historically Underutilized Businesses. DIR and Successful Respondent will agree on the number of Order Fulfillers that are Historically Underutilized Businesses as defined by the CPA.

B. In addition to the required Subcontracting Plan, Successful Respondent shall provide DIR with the following Order Fulfiller information: Order Fulfiller name, Order Fulfiller business address, Order Fulfiller CPA Identification Number, Order Fulfiller contact person email address and phone number.

C. DIR reserves the right to require Successful Respondent to rescind any Order Fulfiller participation or request that Successful Respondent name additional Order Fulfillers should DIR determine it is in the best interest of the State.

D. Successful Respondent shall be fully liable for its Order Fulfillers' performance under and compliance with the terms and conditions of this Contract. Successful Respondent shall enter into contracts with Order Fulfillers and use terms and conditions that are consistent with the terms and conditions of this Contract.

E. Successful Respondent may qualify Order Fulfillers and their participation under the Contract provided that: i) any criteria is uniformly applied to all potential Order Fulfillers based upon Successful Respondent's established, neutrally applied criteria, ii) the criteria is not based on a particular procurement, and iii) all Customers are supported under the criteria.

F. Successful Respondent shall not prohibit any Order Fulfiller from participating in other procurement opportunities offered through DIR.

8.3 Changes in Order Fulfiller

Successful Respondent may add or remove Order Fulfillers throughout the term of this Contract upon written authorization by DIR. Prior to adding or removing Order Fulfillers, Successful Respondent must make a good faith effort to revise its Subcontracting Plan in accordance with the State's Policy on Utilization of Historically Underutilized Businesses. Successful Respondent shall provide DIR with its updated Subcontracting Plan and the Order Fulfillers information listed above.

8.4 Order Fulfiller Pricing to Customer

Order Fulfiller pricing to the Customer shall be in accordance with Section 5.

9 NOTIFICATION

All notices under this Contract shall be sent to a party at the respective address indicated below.

If sent to the State:

Lisa Massock or Successor in Office
Chief Procurement Officer

300 W. 15th St., Suite 1300
Austin, Texas 78701
Phone: (512) 475-4700
Email: lisa.massock@dir.texas.gov

If sent to Successful Respondent:

Kristina Mann
Senior Manager / Contracts
SHI/Government Solutions, Inc.
3828 Pecana Trail
Austin, Texas 78749
Phone: (908) 547-9471
Email: Kristina_mann@shi.com

10 SOFTWARE LICENSE

10.1 Software License Agreement

A. Customers acquiring software licenses under this Contract shall hold, use, and operate such software subject to compliance with the Software License Agreement. Customer and Successful Respondent may agree to additional terms and conditions that do not diminish a term or condition in the Software License Agreement, or in any manner lessen the rights or protections of Customer or the responsibilities or liabilities of Successful Respondent. Successful Respondent shall make the Software License Agreement terms and conditions available to all Customers at all times.

B. Compliance with the Software License Agreement is the responsibility of the Customer. DIR shall not be responsible for any Customer's compliance with the Software License Agreement.

11 CONFLICTING OR ADDITIONAL TERMS

A. The terms and conditions of this Contract shall supersede any additional conflicting or additional terms in any additional service agreements, statement of work, and any other provisions, terms, conditions, and license agreements, including those which may be affixed to or accompany software upon delivery (sometimes called shrink-wrap or click-wrap agreements), and any linked or supplemental documents, which may be proposed, issued, or accepted by Successful Respondent and Customer in addition to this Contract (such additional agreements, "Additional Agreements"), regardless of when such Additional Agreements are proposed, issued, or accepted by Customer. Notwithstanding the foregoing, it is Customer's responsibility to review any Additional Agreements to determine if Customer accepts such Additional Agreement. If Customer does not accept such Additional Agreement, Customer shall be responsible for negotiating any changes thereto.

B. Any update or amendment to an Additional Agreement shall only apply to Purchase Orders for the associated product or service offering after the effective date of such update or amendment; provided that, if Successful Respondent has responded to a Customer's solicitation or request for pricing, any subsequent

update or amendment to an Additional Agreement may only apply to a resulting Purchase Order if Successful Respondent directly informs such Customer of such update or amendment before the Purchase Order is executed.

C. Successful Respondent shall not require any Additional Agreement that: i) diminishes the rights, benefits, or protections of Customer, or that alters the definitions, measurements, or method for determining any authorized rights, benefits, or protections of Customer; or ii) imposes additional costs, burdens, or obligations upon Customer, or that alters the definitions, measurements, or method for determining any authorized costs, burdens, or obligations upon Customer.

D. If Successful Respondent attempts to do any of the foregoing, the prohibited documents will be void and inapplicable to this Contract or the Purchase Order between Successful Respondent and Customer, and Successful Respondent will nonetheless be obligated to perform such Purchase Order without regard to the prohibited documents, unless Customer elects instead to terminate such Purchase Order, which in such case may be identified as a termination for cause against Successful Respondent.

12 AUTHORIZED EXCEPTIONS TO APPENDIX A, STANDARD TERMS AND CONDITIONS

No exceptions have been agreed to by DIR and Successful Respondent.

(Remainder of this page intentionally left blank.)

This Contract is executed to be effective as of the date of last signature.

Agenda #:	Consideration and **ACTION** to Authorize a Contract with ETA Phi Systems, Inc. in the amount of $475,773 for Contract No. 358-26-BMT-CP, for a term of Five (5) Years, for the purchase and implementation of a Computer-Aided Dispatch/Automatic Vehicle Location (CAD/AVL) System for Brownsville Metro fixed-route buses (Brownsville Metro)

Summary:
The new Computer Aide Dispatch and Automatic Vehicle Location (CAD/AVL) systems will allow Brownsville Metro to better track its fleet, improve on-time performance and service reliability, and provide additional amenities to passengers for a better riding experience. ETA will provide and install Automatic Passenger Counters on all fixed route vehicles and provide improved real-time vehicle location.

Project Scope and Analysis:
Brownsville Metro will purchase a new Computer-Aided Dispatch/Automatic Vehicle Location (CAD/AVL). It will allow Brownsville Metro to track its fleet, improve On-Time Performance, enhance reports with reportable data to the National Transit Database (NTD) & Federal Transit Administration reports. It will provide additional amenities for passengers for a better riding experience and allow real-time vehicle location and automated passenger counters on all fixed route vehicles. The total cost of the project will be a for a (5) year contract not to exceed $475,773.

COOPERATIVE PURCHASE AGREEMENT
358-26-BMT-CP

This Cooperative Purchase Agreement ("Agreement") is entered into by and between ETA Phi Systems, Inc. ("Vendor") and the City of Brownsville ("City"), a Texas home rule municipality.

The Cooperative Purchase Agreement includes the following documents, which shall be construed in the order of precedence in which they are listed:

1. This Cooperative Purchase Agreement.
2. Exhibit A – Quote #20260812
3. Exhibit B – 791 Cooperative Contract No. 791202603004
4. Exhibit C – ETA Supplemental Agreement
4. Exhibit D – Form 2 - Statement of Conflict of Interest
5. Exhibit E – Certificate of Insurance
6. Exhibit F – Form 10 FTA City of Brownsville Federal Clauses Certification Form
7. Exhibit G – Form 3 – Texas Ethics Commission Certificate of Interested Parties (1295)

Exhibits A, B, C, D, E, F, G, which are attached hereto and incorporated herein, are made a part of this Agreement for all purposes. Vendor agrees to provide City with the services and goods included in Exhibit A pursuant to the terms and conditions of this Cooperative Purchase Agreement, including all exhibits thereto.

City shall pay Vendor in accordance with the fee schedule in Exhibit A and in accordance with the provisions of this Agreement. Total payments made by City under this Agreement, including hardware, implementation, installation, and annual recurring software and services, shall not exceed Four Hundred Seventy-Five Thousand Seven Hundred Seventy-Three Dollars and Zero Cents ($475,773.00).
Total Contract Amount is allocated as follows:

- Upfront Hardware, Implementation, and Installation: $243,599.00
- Annual Recurring Services – Year 1: $43,296.00
- Annual Recurring Services – Year 2: $44,811.00
- Annual Recurring Services – Year 3: $46,380.00
- Annual Recurring Services – Year 4: $48,003.00
- Annual Recurring Services – Year 5: $49,683.00

Total Not-to-Exceed Amount: $475,773.00

Vendor shall not provide any additional items or services or bill for expenses incurred for City not specified by this Agreement unless City requests and approves in writing the additional costs for such services. City shall not be liable for any additional expenses of Vendor not specified by this Agreement unless City first approves such expenses in writing.

The term of this Agreement shall commence on approval by the City Commission or designee and shall continue for a period of five (5) years. Notwithstanding the foregoing, the parties understand and acknowledge that the 791 Purchasing Cooperative Contract upon which the City is relying for this cooperative purchase is currently effective through May 31, 2031, with three (3) automatic one-year renewal options through May 31, 2034. In no event shall the City's agreement with Vendor extend beyond the term of the applicable 791 Purchasing Cooperative Contract.

Vendor agrees that City shall, until the expiration of final payment under this Agreement, or the final conclusion of any audit commenced during the said three years, have access to and the right to examine at reasonable times any directly pertinent books, documents, papers and records, including, but not limited to, all electronic records, of Vendor involving transactions relating to this Agreement at no additional cost to City. Vendor agrees that City shall have access during normal working hours to all necessary Vendor facilities and shall be provided adequate and appropriate workspace in order to conduct audits in compliance with the provisions of this section. City shall give Vendor reasonable advance notice of intended audits.

VENDOR ACKNOWLEDGES THAT CITY IS A GOVERNMENT ENTITY AND AS SUCH CANNOT INDEMNIFY OR HOLD HARMLESS A PARTY WITHOUT FIRST CREATING A SINKING FUND OR LEVYING A TAX. VENDOR FURTHER ACKNOWLEDGES THAT THE CITY HAS NO INTENTION OF CREATING SUCH A SINKING FUND OR LEVYING A TAX. THE PARTIES AGREE THAT ANY PROVISION CONTAINED WITHIN THE CONTRACT DOCUMENTS REQUIRING THE CITY TO INDEMNIFY OR HOLD HARMLESS THE VENDOR IS HEREBY STRICKEN.

Notices required pursuant to the provisions of this Agreement shall be conclusively determined to have been delivered when (1) hand-delivered to the other party, its agents, employees, servants or representatives, (2) delivered by facsimile with electronic confirmation of the transmission, or (3) received by the other party by United States Mail, registered, return receipt requested, addressed as follows:

To CITY:
City of Brownsville
Attn: City Manager
1001 East Elizabeth Street
Brownsville, Texas 78520

With copy to Brownsville City
Attorney's Office at same address.

To VENDOR:
ETA PHI Systems, Inc

6420 Congress AVE STE 1850

791 PURCHASING COOPERATIVE AND VENDOR AGREEMENT

Between ETA Phi Systems, Inc
(Company Name)

with the principal place of business at

6420 Congress AVE STE 1850 Boca Raton FL 33487

and

791 Purchasing Cooperative
For
RFP # 791202603004
Transit Services and Technology Solutions.

General Information

The Vendor Agreement ("Agreement") made and entered into by and between 791 PURCHASING COOPERATIVE (hereinafter referred to as "791COOP") a government cooperative purchasing program authorized by the Central Texas Council of Governments, having its principal place of business 2180 North Main Street, Belton, TX 76513 and ***Company listed at the top of page one*** (hereinafter referred to as "Vendor") a provider having its principal place of business as listed at the top of page one. This Agreement consists of the provisions set forth below, including provisions of all Attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any Attachment, the provisions set forth shall control.

The vendor Agreement shall include and incorporate by reference this Agreement, the terms and conditions, special terms and conditions, any agreed upon amendments, as well as all of the sections of the Solicitation (RFP, RCSP, RFQ) as posted, including any addenda and the awarded vendor's proposal.

The following pages will constitute the Agreement between the successful vendors(s) and 791 PURCHASING COOPERATIVE.

Terms and Conditions

1. Assignment of Vendor Agreement

No assignment of the Vendor Agreement may be made without the prior written approval of 791 PURCHASING COOPERATIVE. A simple change of name agreement will not change the Agreement obligations of the awarded vendor.

2. 791 PURCHASING COOPERATIVE Contract

The 791 PURCHASING COOPERATIVE Contract is the final negotiated version of the Vendor's contract that was submitted as part of the **#791202603004 Transit Services and Technology Solutions**, as submitted by Vendor and negotiated with 791 PURCHASING COOPERATIVE. The 791 PURCHASING COOPERATIVE Contract will govern all aspects of a sale for Products and/or Services between the Vendor and a 791 PURCHASING COOPERATIVE Participant. 791 PURCHASING COOPERATIVE recognizes that a 791 PURCHASING COOPERATIVE Participant may, in agreement with Vendor, make modifications to the 791 PURCHASING COOPERATIVE Contract to reflect the specific needs of the 791 PURCHASING COOPERATIVE Participant. This modified form will still be referred to as the 791 PURCHASING COOPERATIVE Contract.

Vendor may only use the 791 PURCHASING COOPERATIVE Contract with 791 PURCHASING COOPERATIVE Participants who have agreed to purchase products and services from Vendor through the 791 PURCHASING COOPERATIVE preferred supplier program. If a 791 PURCHASING COOPERATIVE Participant solicits proposals for Products and/or Services under this agreement from Vendor directly and has specifically provided notice that they will not be using 791 PURCHASING COOPERATIVE as their contract vehicle through the 791 PURCHASING COOPERATIVE preferred supplier program, Vendor cannot use the 791 PURCHASING COOPERATIVE Contract to serve the 791 PURCHASING COOPERATIVE Participant. For the avoidance of doubt, if a vendor and a 791 PURCHASING COOPERATIVE Participant, execute a 791 PURCHASING COOPERATIVE Purchase or Products and/or Services under this agreement, the vendor will be obligated to pay 791 PURCHASING COOPERATIVE the participation fee.

To further clarify, the vendor may sell to a 791 PURCHASING COOPERATIVE participant or potential 791 PURCHASING COOPERATIVE participants, which is any governmental or other public entity in Texas through the 791 PURCHASING COOPERATIVE preferred supplier program. If a potential customer is not currently a 791 PURCHASING COOPERATIVE participant, they may join 791 PURCHASING COOPERATIVE by contacting 791 PURCHASING COOPERATIVE at **admin@791COOP.org**. Awarded vendors are not restricted from responding to any Texas entity that issued a Request for Proposals and has chosen not to use the 791 PURCHASING COOPERATIVE interlocal cooperative method of procurement.

If you identify a Texas public or governmental entity that wants to make a purchase and use a cooperative or interlocal contract and is not a current 791 PURCHASING COOPERATIVE Participant, please have them call the number provided above or email the address above so 791 PURCHASING COOPERATIVE may contact the entity to provide all applicable information.

791 PURCHASING COOPERATIVE will provide awarded vendor's participants packets for this purpose upon request.

ANY AGREEMENT BETWEEN A 791 PURCHASING COOPERATIVE PARTICIPANT AND VENDOR THAT REQUIRES THE 791 PURCHASING COOPERATIVE PARTICIPANT TO INDEMNIFY ANY OTHER PARTY,

EXCEPT TO THE EXTENT PERMITTED BY THE APPLICABLE CONSTITUTION, LAWS, OR REGULATIONS OF THE JURISDICTION OF THE LOCATION OF THE 791 PURCHASING COOPERATIVE PARTICIPANT OR THE LOCATION OF THE PERFORMANCE OF THE CONTRACT UNDER THIS AGREEMENT, IS NOT PERMITTED UNDER THIS AGREEMENT AND RENDERS THE INDEMNITY REQUIREMENT NULL AND VOID AS IT APPLIES TO THE 791 PURCHASING COOPERATIVE PARTICIPANT'S RESPONSIBILITY TO INDEMNIFY ANY PARTY.

3. Disclosures

a) Vendor affirms that it has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with this Agreement.

b) Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with 791 PURCHASING COOPERATIVE under a 791 PURCHASING COOPERATIVE Agreement if Vendor feels that such possible conflicts of interest exist. If you believe there is a conflict of interest as described in the form CIQ instruction sheet contained in this RFP, please complete and submit the form CIQ provided as instructed.

c) The vendor affirms that, to the best of its knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

4. Renewal of Agreements

The Agreement with 791 PURCHASING COOPERATIVE is for a five (5) year term with three (3) one (1) year options. Any extension of the initial term will be agreed to in writing between 791 PURCHASING COOPERATIVE and Vendor. Nothing herein shall require either party to agree to an extension of the initial term.

Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with 791 PURCHASING COOPERATIVE Participants Resulting from the Solicitation and with the Vendor Named in this Agreement.

NO AGREEMENT FOR GOODS OR SERVICES WITH A 791 PURCHASING COOPERATIVE PARTICIPANT BY THE AWARDED VENDOR NAMED IN THIS AGREEMENT THAT RESULTS FROM THE SOLICITATION AWARD NAMED IN THIS AGREEMENT MAY INCORPORATE AN AUTOMATIC RENEWAL CLAUSE WITH WHICH THE 791 PURCHASING COOPERATIVE PARTICIPANT MUST COMPLY. ALL RENEWAL TERMS INCORPORATED IN AN AGREEMENT BY THE VENDOR WITH THE 791 PURCHASING COOPERATIVE PARTICIPANT SHALL ONLY BE VALID AND ENFORCEABLE WHEN THE VENDOR RECEIVES WRITTEN CONFIRMATION BY PURCHASE ORDER OR EXECUTED AGREEMENT ISSUED BY THE 791 PURCHASING COOPERATIVE PARTICIPANT FOR ANY RENEWAL PERIOD. THE PURPOSE OF THIS CLAUSE IS TO AVOID A 791 PURCHASING COOPERATIVE PARTICIPANT INADVERTENTLY RENEWING AN AGREEMENT DURING A PERIOD IN WHICH THE GOVERNING BODY OF THE 791 PURCHASING COOPERATIVE PARTICIPANT HAS NOT PROPERLY APPROPRIATED AND BUDGETED THE FUNDS TO SATISFY THE AGREEMENT RENEWAL. THIS TERM IS NOT NEGOTIABLE AND ANY AGREEMENT BETWEEN A 791 PURCHASING COOPERATIVE PARTICIPANT AND A 791 PURCHASING COOPERATIVE AWARDED VENDOR WITH AN AUTOMATIC RENEWAL CLAUSE THAT CONFLICTS WITH THESE TERMS IS RENDERED VOID AND UNENFORCEABLE AS TO THE AUTOMATIC RENEWAL CLAUSE.

5. Invoices

Vendor is responsible for the invoicing and collection of all funds due from a 791 PURCHASING COOPERATIVE Participant to the Vendor.

6. Payments

791 PURCHASING COOPERATIVE member will make payments directly to the Vendor for all funds owed as provided for in the 791 PURCHASING COOPERATIVE Contract.

7. Pricing

The price Vendor will charge a 791 PURCHASING COOPERATIVE Participant will be defined in the 791 PURCHASING COOPERATIVE Contract and determined at the time Vendor and a 791 PURCHASING COOPERATIVE Participant makes purchases through this 791 PURCHASING COOPERATIVE Contract. The price Vendor charges a 791 PURCHASING COOPERATIVE Participant will include the 791 PURCHASING COOPERATIVE annual participation fee.

At no time during the initial term or extended term of this Agreement shall the price charged to a 791 PURCHASING COOPERATIVE Participant exceed the contracted price for **#791202603004 Transit Services and Technology Solutions**.

Language like the following will be added to the Representations Section of the Vendor's 791 PURCHASING **#791202603004 Transit Services and Technology Solutions:**

> "Seller represents that this Agreement, pursuant to the award to (insert vendor's name) as a result of the 791 PURCHASING COOPERATIVE **#791202603004 Transit Services and Technology Solutions**, complies with the terms and conditions contained in a separate Purchasing agreement between Seller and 791 PURCHASING COOPERATIVE Participants."

8. Participation Fees

Vendor agrees to pay 791 PURCHASING COOPERATIVE the participation fee, **1.00%** Sales Participation Fee. 791COOP establishes a fee for each solicitation for proposals that is in the best interest of 791COOP and its participants.

a) The first fee is a **1.00%** percent participation fee for all Agreement sales to 791 PURCHASING COOPERATIVE Participants utilizing a 791 PURCHASING COOPERATIVE awarded the contract. The participation fee will be the total dollars derived from **1.00** % of total contract volume through this program to 791 PURCHASING COOPERATIVE participants. The participation fee will be included in quotes and invoices between the awarded vendor and 791 PURCHASING COOPERATIVE Participants.

b) <u>The 791 PURCHASING COOPERATIVE participation fee will not be a provided as a separate line item to the 791 PURCHASING COOPERATIVE Participant.</u> Vendor will remit the participation fee to 791 PURCHASING COOPERATIVE within thirty (30) business days of receipt of the payment for Purchases made under this agreement, which includes the annual participation fee, from the 791 PURCHASING COOPERATIVE Participant. Failure to pay the participation fee will result in termination of Agreement and 791 PURCHASING COOPERATIVE reserves the right to take any action under the law or equity for any breach of contract.

c) Prior to delivering a quote to a 791 PURCHASING COOPERATIVE Participant, the awarded vendor(s) will calculate the participation fee for 791 PURCHASING COOPERATIVE to be included in the quote.

9. Sales Reporting Procedures for Vendor

Vendor will report any sale under this contract that is made to a 791 PURCHASING COOPERATIVE Participant with the Vendor on a monthly basis. Thus, any order entered in a particular month shall report within thirty (30) business days of the 791 PURCHASING COOPERATIVE Participant issuing a Purchase Order or otherwise purchasing from the vendor under this contract.

10. Adoption of Agreement by State or Federal Agencies

Awarded Vendors may present this agreement to State agencies for adoption by the State and all 50 states. Vendor may agree to pay an additional fee to the State Agency. The Awarded Vendor shall continue to pay the Participation fee to 791 Purchasing Cooperative and report these sales to 791 Purchasing Cooperative. Failure for the Awarded Vendor to comply with this section of the agreement will result the in Awarded Vendor being in breach of the agreement and having their agreement with 791 Purchasing Cooperative terminated for cause.

Furthermore, Awarded Vendor may present this agreement to Federal Government Agencies and subrecipients who may adopt this agreement. Participation fees shall continue to be paid and sales reported to 791 Purchasing Cooperative, even if a fee is paid to the approving Federal Agency. Failure for the Awarded Vendor to comply with this section of the agreement will result in the Awarded Vendor being in breach of this agreement and having their agreement with 791 Purchasing Cooperative terminated for cause.

12. Indemnity

Vendor agrees to indemnify and hold harmless and defend 791 PURCHASING COOPERATIVE, 791 PURCHASING COOPERATIVE officers and employees, from and against all claims and suits for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and reasonable attorney's fees, arising out of, or resulting from, Vendor's performance of this Agreement or sales made to 791 PURCHASING COOPERATIVE Participants under this agreement, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, invitees, unless such claims are based in whole upon the negligent acts or omissions of the 791 PURCHASING COOPERATIVE, 791 PURCHASING COOPERATIVE officers, employees, or agents. If based in part upon the negligent acts or omissions of the 791 PURCHASING COOPERATIVE, 791 PURCHASING COOPERATIVE officers, employees, or agents, Vendor shall be responsible for their proportional share of the claim.

13. State of Texas Franchise Tax

By signature hereon, the Vendor hereby certifies that it is not currently delinquent in the payment of any franchise taxes owed to the State of Texas under Chapter 171, Tax Code.

14. Miscellaneous:

Nothing in the Agreement or in any other communication between 791 PURCHASING COOPERATIVE and the Vendor may be construed as a guarantee that 791 PURCHASING COOPERATIVE Participants will purchase items and services under this contract from the Vendor at any time.

15. Termination:

Contract shall terminate at the end of the agreement or at the end of any contract extensions. Either party may terminate for breach of contract which would include bankruptcy, or due to continued failure to perform the terms in this agreement. Prior to exercising termination for breach, the non-breaching party must provide notice by certified mail to provide the other party 30 days to solve the

stated problems. However, if this agreement is terminated prior to the end date of the initial term or the end date of an agreed to extension term, any 791 PURCHASING COOPERATIVE Purchase Contract entered into between Vendor and a 791 PURCHASING COOPERATIVE Participant shall survive and will not be terminated. Upon termination of this agreement between 791 PURCHASING COOPERATIVE and the Vendor, this agreement shall survive only insofar as to govern all surviving 791 PURCHASING COOPERATIVE Contracts between the Vendor and 791 PURCHASING COOPERATIVE Participants. Termination for convenience is required under 2 CFR part 200.

16. Marketing

Awarded vendor agrees to allow 791 PURCHASING COOPERATIVE to use their name and logo within the 791 PURCHASING COOPERATIVE website, marketing materials and advertising. Vendor may use the 791 PURCHASING COOPERATIVE name and logo in marketing the 791 PURCHASING COOPERATIVE Contract to 791 PURCHASING COOPERATIVE Participants or other Texas government or public entities.

17. Legal obligations

It is the responding vendor's responsibility to be aware of and comply with all local, state and federal laws governing the sale of products/services identified in this RFP and any awarded Agreement thereof. Applicable laws and regulations must be followed even if not specifically identified herein.

18. Audit rights

Awarded Vendor shall, at their sole expense, maintain appropriate due diligence of all purchases made by any 791 PURCHASING COOPERATIVE Participant that utilizes this Agreement. 791 PURCHASING COOPERATIVE reserves the right to audit the accounting for a period of four (4) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of four (4) years from the effective date of termination. 791 PURCHASING COOPERATIVE shall have the ability to conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by 791 PURCHASING COOPERATIVE. 791 PURCHASING COOPERATIVE shall bear the cost of such audit requested by 791 PURCHASING COOPERATIVE, but all documents maintained by the vendor shall be produced and made available to 791 PURCHASING COOPERATIVE or its agents at no cost.

19. Force Majeure

If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and cause of Force Majeure in writing to the other party within a reasonable time after the occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch. **This Clause includes COVID-19 which is a Declared Pandemic and any future Declared Pandemics.**

20. Remedies

The parties shall be entitled to exercise any right or remedy available to it either at law or in equity, subject to the choice of law, venue and service of process clauses limitations agreed herein. Nothing in this agreement shall commit the 791 PURCHASING COOPERATIVE to a binding arbitration resolution of any disagreement under any circumstances. Any Claim arising out of or related to the Contract, except for those specifically waived under the terms of the Contract, may, be subject to mediation at

the request of either party. Non-binding mediation shall be conducted by a mutually agreed upon mediator as a prerequisite to the filing of any lawsuit over such issue(s). The parties shall share the mediator's fee and any associated filing fee equally. Mediation shall be held in Bexar County, Texas. Agreements reached in mediation shall be reduced to writing, and signed shall thereafter be enforceable as provided by the laws of the State of Texas.

21. Choice of Law

This agreement and any addenda or other additions and all contracts or awards resulting from this procurement process, however described, shall be governed by, construed and enforced in accordance with the laws of the State of Texas, regardless of any conflict of laws principles.

22. Jurisdiction (Venue) and Service of Process

Any Proceeding arising out of or relating to this procurement process or any contract resulting from or any contemplated transaction shall be brought to a court of competent jurisdiction in Bexar County, Texas and each of the parties irrevocably submits to the exclusive jurisdiction of said court in any such proceeding, waives any objection it may now or hereafter have to venue or to convenience of forum, agrees that all claims in respect of the Proceeding shall be heard and determined only in any such court, and agrees not to bring any proceeding arising out of or relating to this procurement process or any contract resulting from or any contemplated transaction in any other court. The parties agree that either or both of them may file a copy of this paragraph with any court as written evidence of the knowing, voluntary, and freely bargained agreement between the parties irrevocably to waive any objections to venue or to convenience of forum. Process in any proceeding referred to in the first sentence of this Section may be served on any party anywhere in the world.

23. Alternative Dispute Resolution

Prior to the filing of litigation, the parties may select non-binding mediation as a method of conflict resolution for issues arising out of or relating to this procurement process or any contract resulting from or any contemplated transaction. The parties agree that if non-binding mediation is chosen as a resolution process, the parties must agree to the chosen mediator(s) and that all mediation venues shall be at a location in Bexar County, Texas, or agreed by the parties. The parties agree to share equally the cost of the mediation process and venue cost.

24. Acts or Omissions

The successful vendor will be expected to indemnify and hold harmless 791 PURCHASING COOPERATIVE, its officers, employees, agents, representatives, contractors, assignees and designees from and against any and all liability, actions, claims, demands or suits, and all related costs, attorney's fees and expenses arising out of, or resulting from any acts or omissions of the vendor or its agents, employees, subcontractors, or suppliers in the execution or performance of any agreements ultimately made by 791 PURCHASING COOPERATIVE and the vendor.

25. Contract Governance

Any contract made or entered into by 791 PURCHASING COOPERATIVE is subject to and is to be governed by Section 271.151 et seq, Tex Loc Gov't Code. Otherwise, **The Central Texas Council of Governments, as the Lead Agency for** 791 PURCHASING COOPERATIVE, does not waive its governmental immunities from suit or liability except to the extent expressly waived by other applicable laws in clear and unambiguous language.

26. Supplemental Agreements

The 791 PURCHASING COOPERATIVE Participant entity participating in the 791 PURCHASING COOPERATIVE Agreement and awarded vendor may enter into a separate supplemental agreement or contract to further define the level of service requirements over and above the minimum defined in this Agreement i.e. invoice requirements, ordering requirements, specialized delivery, etc. Any supplemental agreement or contract developed as a result of this Agreement is exclusively between the participating entity and awarded vendor. 791 PURCHASING COOPERATIVE, its agents, 791 PURCHASING COOPERATIVE Participants, and employees shall not be made party to any claim for breach of such agreement unless named and agreed by the Party in question in writing in the agreement. If a vendor submitting a Proposal requires 791 PURCHASING COOPERATIVE and/or 791 PURCHASING COOPERATIVE Participant to sign an additional agreement, those agreements shall comply with the award made by 791 PURCHASING COOPERATIVE to the Vendor. Supplemental Vendor's Agreement documents may not become part of 791 PURCHASING COOPERATIVE's Agreement with the vendor unless and until an authorized representative of 791 PURCHASING COOPERATIVE reviews and approves it. 791 PURCHASING COOPERATIVE permits 791 PURCHASING COOPERATIVE Participants to negotiate additional terms and conditions with the Vendor for the provision of goods or services under the Vendor's 791 PURCHASING COOPERATIVE Agreement.

27. Survival Clause

All applicable agreements, contracts, software license agreements, warranties or service agreements that were entered into between Vendor and 791 PURCHASING COOPERATIVE or the 791 PURCHASING COOPERATIVE Participant Customer under the terms and conditions of this Agreement shall survive the expiration or termination of this Agreement. All Orders, Purchase Orders issued or contracts executed by 791 PURCHASING COOPERATIVE or a 791 PURCHASING COOPERATIVE Participant and accepted by the Vendor prior to the expiration or termination of this agreement, shall survive expiration or termination of the Agreement, subject to previously agreed terms and conditions agreed by the parties or as otherwise specified herein relating to termination of this agreement.

28. Smoking

Persons working under Agreement shall adhere to the 791 PURCHASING COOPERATIVE Participant's or local smoking statutes, codes or policies.

29. Novation

If awarded vendor sells or transfers all assets or the entire portion of the assets used to perform this Agreement, a successor in interest must guarantee to perform all obligations under this Agreement. A simple change of name agreement will not change the Agreement obligations of awarded vendor.

30. Licenses

Awarded vendor shall maintain in current status all federal, state and local licenses, bonds and permits required for the operation of the business conducted by awarded vendor. Awarded vendor shall remain fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of goods or services under the Agreement. 791 PURCHASING COOPERATIVE and its Participants reserves the right to stop work and/or cancel Agreement of any awarded vendor whose license(s) expire, lapse, are suspended or terminated subject to a 30-day cure period unless prohibited by applicable statute or regulation.

31. 791 PURCHASING COOPERATIVE Participant Purchasing Procedures

Purchase orders or their equal are issued by participating 791 PURCHASING COOPERATIVE Participant to the awarded vendor and should indicate on the order that the purchase is per the applicable 791

PURCHASING COOPERATIVE Agreement number. Orders are typically emailed to 791 PURCHASING COOPERATIVE at admin@791COOP.org

a) Awarded vendor delivers goods/services directly to the participating 791 PURCHASING COOPERATIVE Participant.

b) Awarded vendor invoices the participating 791 PURCHASING COOPERATIVE Participant directly.

c) Awarded vendor receives payment directly from the participating 791 PURCHASING COOPERATIVE Participant.

d) Awarded vendor reports sales monthly to 791 PURCHASING COOPERATIVE (unless prior arrangements have been made with 791 PURCHASING COOPERATIVE for an alternative submission schedule).

32. Incorporation of Solicitation

The 791 Purchasing Cooperative Solicitation, whether a Request for Proposals, the Request for Competitive Sealed Proposals or Request for Qualifications solicitation, or other, the Vendor's response to same and all associated documents and forms made part of the solicitation process, including any addenda, that resulted in the execution of this agreement are hereby incorporated by reference into this agreement as if copied verbatim.

33. Registered Felony Convictions and sex offender restrictions

For work to be performed at schools, awarded vendor agrees that no employee of a sub-contractor who has been adjudicated to be a registered sex offender will perform work at any time when students are, or reasonably expected to be, present unless otherwise agreed by the 791Purchasing Cooperative Participant. Awarded vendor agrees that a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at the 791 Purchasing Cooperative Participant's discretion. Awarded vendor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.

34. Safety measures

Awarded vendor shall take all reasonable precautions for the safety of employees on the worksite, and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Awarded vendor shall post warning signs against all hazards created by the operation and work in progress. Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.

35. Insurance Requirements

a) **Contractor's Commercial General Liability Insurance**—Contractor shall purchase and maintain such insurance as will protect Contractor from claims for damages because of bodily injury, sickness, or disease, or death of any person including claims insured by standard personal injury liability, and from claims for injury to or destruction of tangible property, including loss of use resulting therefrom, any or all of which may arise out of or result from Contractor's operations under the Contract Documents, whether such operations be by Contractor or anyone directly or indirectly employed by Contractor or for whose acts they may be legally liable. This insurance shall include the types and specific coverages herein described and be written for not less than any limits of liability specified in these Documents or required by law, whichever is greater.

Insurance must include coverage for independent contractors, products/completed operations, contractual liability, broad form property damage, and personal injury.

b) **Contractor's Automobile Liability Insurance**—Contractor shall purchase and maintain such insurance as will protect Contractor from claims for damages because of bodily injury, sickness, disease or death of any person, including claims insured by standard personal injury coverage; and from claims for injury to or destruction of tangible property, including loss of use resulting therefrom, any or all of which may arise out of or result from the use of all owned, non-owned, or hired, automobile, vehicles, and other equipment both on and off work, arising from or in any way related to or as the result of Contractor's operations under the Agreement, whether such operations be by the Contractor or anyone directly or indirectly employed by Contractor or for whose acts any of them may be legally liable.

c) **Contractor's Workers' Compensation and Employer's Liability Coverage**—The Contractor shall comply with the provisions of the Workers' Compensation Act, the subsequent Injury Act, and Contractor shall procure and maintain during the life of this Contract Workers' Compensation and Employer's Liability Insurance in accordance with Texas laws and regulations. Such insurance shall include coverage permitted for safety devices. If the Contractor elects to be self-insured, the Contractor shall comply with the applicable requirements and laws of Texas. CTCOG, its officers, or employees will not be responsible for any claims or actions occasioned by the failure of the Contractor to comply with the provisions of this paragraph.

If any class of employee is not protected under the Workers' Compensation Statute, the Contractor shall provide adequate employer's liability coverage as will protect Contractor and 791 PURCHASING COOPERATIVE against any claims resulting from injuries to and death of workers engaged in work under this contract.

d) **Coverage limits**—Insurance coverage limits required to be carried by the Contractor under this Section shall be as follows:

1. Commercial General Liability Insurance and Commercial Automobile Liability Insurance limits of coverage shall be the limits established by Texas Claims Act or a Combined Single Limit coverage of $1,000,000.
2. Contractor's Workers' Compensation - coverage shall be those established by applicable statutes. Employer's liability coverages shall be the limits established by the State of Texas or $1,000,000.
3. Umbrella Liability Insurance: Liability on a following form basis with a limit $1,000,000 per occurrence in excess of all primary limits.

e) **All proposals shall include a valid Certificate of Liability Insurance showing CTCOG, 791 Purchasing Cooperative and individual 791 Purchasing Cooperative participants (if requested) as a certificate holder.**

f) To protect the 791 Purchasing Cooperative, 791 Purchasing Cooperative Participants and their employees against liability, loss, or expense in the event of damage to property, injury, or death to any person or persons arising in any way out of or in connection with or resulting from the work provided hereunder, Vendor shall procure and maintain, at its sole expense and until acceptance of the work, insurance as hereinafter enumerated in policies which shall be subject

to the 791 Purchasing Cooperative's approval as to form, amount and issuing company. Amounts listed are a minimum.

Supplemental Agreement

Supplemental Agreement

Supplemental Agreement ("Supplemental Agreement") is entered into between ETA Phi Systems, Inc. dba ETA Transit Systems, a Florida corporation ("ETA"), and City of Brownsville ("Customer") in connection with Customer's purchase of products and/or services through 791 Purchasing Cooperative Contract #791202603004, Transit Services and Technology Solutions (the "791 Contract").

Purpose and Incorporation

The purpose of this Supplemental Agreement is to define ETA-specific software subscription, system support, warranty, implementation, and service requirements that supplement the 791 Contract.

The 791 Contract, the applicable ETA quotation or statement of work, this Supplemental Agreement, the System Subscription Agreement attached as Exhibit A, and the System Support & Warranty Agreement attached as Exhibit B are incorporated into the parties' transaction.

Order of Precedence

The 791 Contract controls all procurement and purchasing terms and will govern in the event of any conflict with this Supplemental Agreement or its exhibits.

The applicable Customer purchase order and ETA quotation will identify the products, quantities, services, pricing, milestones, and project-specific requirements.

Exhibit A governs software subscription and license rights, and Exhibit B governs system support, maintenance, and warranty obligations.

No provision of this Supplemental Agreement is intended to modify or supersede the mandatory term of the 791 Contract.

In the event of a conflict between this Supplemental Agreement and Exhibit A or Exhibit B, this Supplemental Agreement shall control.

Definitions

The following definitions apply to this Agreement:

"Confidential Information" means any and all of the following, disclosed by one party to the other party orally, in writing or in any form which is either: (i) marked or identified as "confidential" at the time of disclosure, or (ii) of a nature that a reasonable business person would understand, under the circumstances, to be confidential or proprietary; and (iii) all software, research and development information, know-how, methodologies, materials, formulae, templates, brochures, configurations, books, compositions, manufacturing and production processes and techniques, technical data, training curricula, improvements, designs, drawings, specifications, customer and supplier lists and information (including, but not limit to, all account information, files, programs, plans, data and related information), sales data and plans, pricing and cost information, strategic plans, business and marketing plans and proposals, assembly, test, installation, service and inspection instructions and procedures, technical, operating an service and maintenance manuals and data, hardware reference manuals and engineering, programming, service and maintenance notes and logs and related documentation or other information disclosed in connection with the performance of this Agreement or any quotation or product order. The following information shall be deemed Confidential Information whether or not marked or identified as such: (a) Hardware Products and Software Products, including any related software code or documentation; (b) the terms of this Agreement including all quotations and purchase orders and pricing thereto; and (c) ETA's roadmaps, product pans, product designs, architecture, technology and technical information, security audit reviews, business and marketing plans, and business processes, however disclosed.

"Customer Identifiable Data" means personal information of Customer's customer(s) that is collected, downloaded, or otherwise received, directly or indirectly, from Customer or an

authorized user by or through the ETA Services.

"ETA Services" means the items labeled as "NRE", "Maintenance", "Support", "Project Management", "Training", "Education", "Travel", "Handling" of "Installation" on the Quotation or Purchase Order attached as Exhibit 1.
Certain rights and obligations applicable specifically to some ETA Services are included in the attached System support agreement between the parties.

"Hardware Products" means the items labeled as "Products", "Hardware" or "Devices" on the Quotation or Purchase Order attached as Exhibit 1.

"Intellectual Property" means all (i) ETA trademarks, service marks, brand names, certification marks, collective marks, d/b/a's, Internet domain names, logos, symbols, trade dress, assumed names, fictitious names, trade names, and other indicia of origin, all applications and registrations for the foregoing, and all goodwill associated therewith and symbolized thereby, including all renewals of the same; (ii) ETA inventions and discoveries, whether patentable or not, and all patents, registrations, invention disclosures and applications therefore, including divisions, continuations, continuations-in-part and renewal applications, and including renewals, extensions and reissues; (iii) ETA Confidential Information, trade secrets and know-how, including processes, schematics, business methods, formulae, drawings, prototypes, models, designs, customer lists and supplier lists; (iv) ETA published and unpublished works of authorship, whether copyrightable or not (including databases and other compilations of information) copyrights and database rights therein and thereto; and registrations and applications therefor, and all renewals, extensions, restorations and reversions thereof; (v) any right, title, and interest to the Hardware Products or Software Products, and (vi) moral rights, design rights ,mask works, rights of privacy and publicity, and all other ETA intellectual property rights.

"Software Products" means the items labeled as "Software", "Software Licenses", "Software Modules" or "SPOT" on the Quotation or Purchase Order attached as Exhibit 1. Certain rights and obligations applicable specifically to Software Products are included in the attached System subscription agreement (when applicable).

Term, termination, and renewal

Term

The term applicable to the Customer purchase will be stated in the applicable quotation, purchase order, or executed agreement.

No subscription, warranty, maintenance, support, or other service will automatically renew.

Any renewal period will be effective only upon written confirmation by the Customer through an authorized purchase order or executed agreement, consistent with the 791 Contract.

Termination

Subject to any mandatory termination requirements of the 791 Contract and applicable law, this Supplemental Agreement may terminate as follows:at the option of either party if the other party materially defaults in the reasonable performance or observance of any of its obligations hereunder and fails to remedy the default within 60 days after receiving written demand therefor; or

a) at the option of either party if the other party becomes insolvent or bankrupt or makes an assignment for the benefit of creditors; or
b) at the option of ETA if Customer breaches any of its obligations under sections " P rice and Payment" or "Intellectual Property" of this Agreement; or
c) at the option of ETA if Customer infringes, misappropriates or otherwise violates ETA's intellectual property, the licenses granted by ETA to Customer hereunder, or any unauthorized disclosure of ETA's Confidential Information.
d) at the option of Customer for convenience, upon 90 days' written notice to ETA.

Suspension of obligations

If either party should materially default in the reasonable performance or observance of any of its obligations hereunder, then, in addition to all other rights and remedies available to the non-defaulting party, the non-defaulting party may suspend performance and observance of any or all

its obligations under this Agreement, without liability, until the other party's default is remedied in accordance with the applicable cure provisions herein, but this Section shall not permit the Customer to suspend its obligation to make payments that are due and owing.

Discontinuation of Software

Upon expiration or termination of Customer's right to use ETA software, Customer will discontinue use of the software and, to the extent applicable to software or materials in Customer's possession or control, uninstall, delete, or return the applicable ETA software and proprietary documentation. Customer will provide reasonable written confirmation of completion upon ETA's request, subject to applicable records retention requirements.

Price and payment

The Hardware Products, Software Products, ETA Services, quantities, pricing, implementation milestones, subscription fees, and other project-specific charges will be stated in the applicable ETA quotation and Customer purchase order.

ETA will invoice Customer directly and Customer will remit payment directly to ETA in accordance with the 791 Contract and the applicable quotation or purchase order.

By executing this Agreement, Customer agrees that payment shall be made by Customer based on the Milestone Payment Schedule included in the Quotation and such payments shall be due within thirty (30) days of the date of the invoice for each such Milestone, in the amounts stated thereon.

Products and services

The Hardware Products, Software Products and ETA Services covered by this agreement shall be as set forth on the Quotation.

All warranties and maintenance and support rights and obligations related to Hardware Products, Software Products and ETA Services shall be as agreed and set forth in the attached System support agreement herein.

In all instances in which Software Products are included on the Quotation, certain rights, and obligations specific to those products shall be as set forth in the attached System subscription agreement herein.

ETA responsibilities

Duty to inform

If, at any time during the performance of this Agreement ETA becomes aware of actual problems, faults, or defects in the Hardware Products, Software Products or ETA Services, or of any nonconformance with federal, state, or local laws, rules, or regulations, ETA shall give prompt written notice thereof to the Customer, and ETA shall take the appropriate measures to ensure correct such problems, faults, or defects and ensure conformance with federal, state or local laws, rules or regulations in all material respects in a commercially reasonable manner.

Information release

No information, news or press releases related to the subject of this Agreement shall be made without the mutual written consent of the parties.

Except for Confidential Information designated in writing as "not to be shared" by the Customer, ETA may share Customer information with, and fully cooperate with those corporations, firms, contractors, public utilities, government entities and persons required for completion of the ETA Services provided to Customer.

Customer Cooperation and Dependencies

Cooperation and Compliance

Customer will provide the cooperation, information, approvals, access to facilities and vehicles, personnel, connectivity, and other items reasonably necessary for ETA to perform the contracted services.

To the extent ETA's performance is delayed by Customer's failure to timely provide a required dependency, ETA's affected performance dates will be extended for the period reasonably attributable to that delay, and ETA will not be responsible for delays caused by Customer.

Corrective Action and Duty to inform

If, at any time during the performance of this Agreement Customer becomes aware of actual or threatened problems, faults, or defects in the Hardware Products, Software Products or ETA Services, or of any nonconformance with federal, state, or local laws, rules, or regulations; or if Customer has any objection to any decision or order made by ETA with respect to such laws, rules, or regulations, Customer shall give prompt written notice thereof to ETA, and shall cause Customer its users to, immediately: (a) take all reasonable and lawful measures within their respective control that are necessary to stop the activity or threatened activity and to mitigate its effects (including, where applicable,, by discontinuing and preventing any unauthorized access to the Hardware Products, Software Products or ETA Services and permanently erasing from their systems and destroying any data to which any of them have gained unauthorized access).

Information release

No information, news or press releases related to the subject of this Agreement shall be made by either party without the mutual written consent of the parties.

Responsibilities in attached agreements

Customer acknowledges that certain responsibilities related to Hardware Products, Software Products and ETA Services applicable to this Agreement are contained in the attached System support agreement and the attached System subscription agreement.

Responsibility for Acts and Omissions; Insurance

Responsibility for Acts and Omissions

Each Party shall be responsible for its own acts and omissions and those of its officers, employees, agents, and subcontractors to the extent provided by applicable law.

ETA shall not be responsible for claims, damages, losses, or liabilities to the extent caused by the negligence, willful misconduct, unauthorized use of the System, or other wrongful acts or omissions of Customer or its officers, employees, agents, contractors, or authorized users.

Nothing in this Agreement shall require Customer to indemnify, defend, or hold harmless ETA or any other person or entity, nor shall anything herein constitute a waiver of Customer's governmental immunity, sovereign immunity, defenses, or limitations of liability available under applicable law.

Nothing in this Section shall limit any responsibility or obligation of ETA expressly imposed under the 791 Contract.

Insurance

In addition to the insurance required by the 791 Contract, ETA maintains the following coverage. ETA shall maintain insurances of the following types and minimum limits, as follows, for the term of this Agreement:

General Commercial Liability Insurance – covering bodily injury and property damage at the minimum amounts of $1,000,000 per occurrence and $2,000,000 aggregate.

Professional Errors and Omissions Insurance – covering damages resulting from errors, omissions and negligent acts at the minimum amount of $1,000,000 per claim.

Business Automobile Liability Insurance – automobile liability for owned, hired, and non-owned vehicles with a combined single limit of $1,000,000 per occurrence.

Limitation of Liability; Disclaimer of Warranty

Limitation of Liability

TO THE EXTENT PERMITTED BY APPLICABLE LAW, EXCEPT WITH RESPECT TO ETA'S GROSS NEGLIGENCE, WILLFUL MISCONDUCT, OR OBLIGATIONS THAT CANNOT LAWFULLY BE LIMITED, ETA WILL NOT BE LIABLE TO CUSTOMER FOR INCIDENTAL, CONSEQUENTIAL, SPECIAL, EXEMPLARY, OR PUNITIVE DAMAGES, OR FOR LOSS OF USE, DATA, PROFITS, REVENUE, OR GOODWILL, REGARDLESS OF THE THEORY OF LIABILITY. TO THE EXTENT PERMITTED BY APPLICABLE LAW, ETA'S AGGREGATE AND CUMULATIVE LIABILITY ARISING OUT OF OR RELATING TO A CUSTOMER PURCHASE WILL NOT EXCEED THE FEES PAID BY CUSTOMER TO

ETA UNDER THE APPLICABLE PURCHASE DURING THE TWELVE (12) MONTHS PRECEDING THE DATE THE CLAIM IS DELIVERED TO ETA IN WRITING.

Disclaimer of Warranties

EXCEPT FOR EXPRESS WARRANTIES SET FORTH IN THIS AGREEMENT, ETA MAKES NO ADDITIONAL REPRESENTATION OR WARRANTY OF ANY KIND, WHETHER EXPRESS OR IMPLIED IN FACT OR BY OPERATION OF LAW, OR STAUTORY, AS TO ANY MATTER WHATSOEVER, ETA EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. ETA DOES NOT WARRANT THAT ETA PRODUCTS WILL BE UNINTERRUPTED, VIRUS-FREE, OR ERROR-FREE, WILL MEET CUSTOMER'S REQUIREMENTS, WILL BE TIMELY OR SECURE, OR ANY OF ITS SERVICE PROVIDERS BE LIABLE FOR UNAUTHORIZED ALTERATION, THEFT OR DESTRUCTION OF CUSTOMER'S OR ANY AUTHORIZED USER'S DATA, FILES, OR PROGRAMS. CUSTOMER WILL NOT HAVE THE RIGHT TO MAKE OR PASS ON ANY REPRESENTATIONS OR WARRANTY ON BEHALF OF ETA TO ANY THIRD PARTY. TO THE MAXIMUM EXTENT PERMITTED BY LAW, ETA PRODUCTS AND SERVICES ARE PROVIDED "AS IS".

Intellectual property

As between ETA and Customer, all rights, title and interest to ETA's Intellectual Property (including, but not limited to the Hardware Products and Software Products) and technology, and any updates, upgrades, and any other modification to ETA's Intellectual Property and associated documentation shall be and remain the sole and exclusive property of ETA. The Customer has no proprietary or intellectual property rights title or interest in ETA's Intellectual Property or any updates, upgrades, or any modification to ETA's Intellectual Property or associated documentation. Unless ordered by a court of competent jurisdiction, Customer shall not at any time disclose, furnish or make available to anyone the source and executable code of the Software Products or related documentation or other Confidential Information of ETA. Customer's use of the Intellectual Property and any updates, upgrades, and any other modification to ETA's Intellectual Property and associated documentation shall be subject to the terms and conditions of the System subscription Agreement. Except for the rights expressly granted herein, ETA does not license or transfer to Customer or any authorized user of Customer, or other third-party, any rights to any of ETA's Intellectual Property or technology.

Confidential Information

The Parties shall keep confidential the Confidential Information in perpetuity. The receiving party (the "Receiving Party") will protect the other Party's Confidential Information from unauthorized use, access, or disclosure in the same manner as the Receiving Party protects its own Confidential Information of a similar nature, and with no less than reasonable care. The Receiving Party may not use such information for purposes other than the performance of its obligations under this Agreement, and, unless expressly authorized herein, the Receiving Party shall not use or disclose the Confidential Information of the other Party to any person or entity except to its own employees, agents, or representatives having a "need to know" such information, and after appropriate non-disclosure agreements have been executed. The Receiving Party shall be liable for any breach of hits provision by its employees, agents, or representatives. However, the Receiving Party shall have no obligation to maintain Confidential Information that: (a) is or becomes publicly know or readily ascertainable by the public, and through no wrongful act of the Receiving Party, (b) is received by the Receiving Party from a third party without breaching an obligation owed to any other person, if the Receiving Party is not restricted by the third party from disclosing such information, (c) is independently developed by the Receiving Party, or (d) is required to be disclosed by Applicable Law. At the termination or expiration of this Agreement, the Receiving Party shall return to the other Party or certify the destruction of all Confidential Information received by the Receiving Party from the other Party.

Customer's confidentiality obligations are subject to applicable public records and disclosure laws; provided that, to the extent legally permitted, Customer shall provide ETA reasonable notice of a request seeking ETA-designated confidential, proprietary, or trade secret information so that ETA may seek available protection.

Independent contractor

The relationship between the parties is that of independent contractors. Nothing contained in this Agreement shall be construed as creating any agency, partnership, joint venture, or other form of joint enterprise, employment, or fiduciary relationship between the parties, and neither party shall have authority to contract for or bind the other party in any manner. ETA will be solely responsible for determining the manner and means of accomplishing its obligations hereunder. The

Customer does not have the right to control or interfere with the manner or method of accomplishing ETA's obligations.

General provisions

Notices and points of contact

Any notices regarding the Agreement must be in writing and will be deemed to have been delivered if sent by (i) electronic mail attachment, with confirmation of transmission; (ii) sent by the United States certified mail, return receipt requested, postage prepaid; or (iii) sent via a nationally recognized overnight courier service, in each case properly addressed to the party to receive the same as follows:

If to Agency: CUSTOMER NAME
Address:_____
Attn: _____
Email:_____

With a copy to: Customer Name
Address:_____
Attn: _____
Email:_____

If to ETA: Address:_6420 Congress AVE STE 1850 Boca Raton FL 34487
Attn: _Nicole Castonguay_____
Email:__Ncastonguay@etatransit.com

Either Party may change its addressee or other information by providing written notice thereof to the other Party in the manner provided herein. Notices shall be effective upon receipt.

No assignment

Subject to the assignment and novation provisions of the 791 Contract, neither ETA nor Customer may assign the Agreement, nor the performance of any obligations hereunder, unless agreed to in advance in writing by the other party; provided, however, ETA may assign this Agreement as a result of a Change of Control. A "Change of Control" shall mean a transaction or series of transactions (i) pursuant to which control of ETA is acquired by persons or entities other than those who control ETA as of the Effective Date of this Agreement, or (ii) resulting in the sale of all or substantially of ETA's assets.

Acceptance of Exhibits

Exhibit A (System Subscription Agreement) and Exhibit B (System Support & Warranty Agreement) are incorporated into this Supplemental Agreement.

The signatures below constitute acceptance of this Supplemental Agreement and both exhibits; separate signatures on the exhibits are not required unless the parties expressly agree otherwise in writing.

Exhibit A - System Subscription Agreement

The System Subscription Agreement is incorporated into this Supplemental Agreement and governs ETA's software subscription, license rights, customer obligations, data storage, wireless-data provisions, ownership, intellectual property, and remedies.

For 791 transactions, subscription fees are payable pursuant to the applicable ETA Quotation, Customer purchase order, and 791 Contract. No subscription or service automatically renews.

Exhibit B – System Support & Warranty Agreement

The System Support & Warranty Agreement is incorporated into this Supplemental Agreement and governs the hardware and software identified in the applicable ETA Quotation, including hardware warranty, warranty repair, non-warranty repair, maintenance obligations, software support, remote access, security, disaster recovery, system support, response times, service-level commitments, and related customer responsibilities.

Exhibit C - ETA Quotation / Scope of Work

The applicable ETA Quotation, Scope of Work, and/or Customer Purchase Order will be attached for each Customer purchase and will identify the products, services, quantities, pricing, milestones, subscription fees, implementation requirements, and other transaction-specific terms.

Exhibit A: Subscription Agreement

Subscription agreement

Subscription

ETA grants Customer a limited revocable, non-exclusive, non-sublicensable, non-transferable license right to access and use its SPOT ® Intelligent Transit Systems (ITS) application and related software as detailed in the referenced ETA Quotation during the Term and at the Location set forth above exclusively for the Hardware and Software Products and associated services listed on the referenced ETA Quotation. All rights not expressly granted to Customer are reserved to ETA.

Definitions

Customer Materials - means the materials designated as such and provided by ETA to Customer regarding use of the system.

Data - means all data stored in the database for Customer.

Subscription Fee - means the annual service fee for the right to access and use the System set forth in the Quotation.

System – means the software systems and programs, databases, communication and network facilities, and hardware and equipment used by ETA, its suppliers or its agents to provide the Hardware Products and Software Products.

Fees

All fees and charges (including the Subscription Fee) are not subject to set off or reduction by the Customer. Subscription Fees and all other fees shall be due and payable in accordance with the applicable ETA Quotation, Customer Purchase Order, and Supplemental Agreement.

Services

ETA will provide Customer with activation of, and 24/7 access to ETA's SPOT Intelligent Transit Systems (ITS) application, provided Customer is not in breach of any material obligation under this System subscription agreement. Ongoing support services shall be provided in accordance with the System support agreement.

Customer obligations

Customer is responsible for maintaining Internet access to ETA's SPOT Server via an internet service provider (ISP); hardware and software to enable such connection; and any permission or authorizations required for such a connection.

Customer is responsible for ensuring that only authorized persons have access to the System and for the security of Customer's computer system and the connection to the SPOT Server, without limitation.

Customer is responsible for ensuring that Customer's password and all other means and methods of access to the System are kept absolutely confidential and that all users and drivers comply with the terms of the Agreements; ensuring that any telephone numbers or any information relating to the System, the security of the System, the encryption methods used and all or any other security features are kept absolutely confidential; ensuring that the use of the System by Customer is under the control and authority of a proper and adequately trained employee.

Customer will use, maintain, and remove the Hardware according to ETA's specifications, will safeguard the Hardware from loss or damage of any kind, and will not permit anyone other than an authorized representative of ETA to perform any work or repair on the hardware. Customer agrees and understands that tampering with Hardware shall void all warranties. Except for ordinary wear and tear covered by the limited warranty, Customer is responsible for all Hardware damaged, destroyed, lost, or stolen while in Customer's possession and shall be liable for the cost of repair or replacement of the Hardware and remain responsible for the Subscription Fee during any such repair or replacement period.

If Customer is not the owner of the property upon which Hardware and Software are to be installed, Customer shall obtain the written consent of the owner of the premises and/or property for ETA personnel and/or its agents to enter the premises for the purposes of installing, maintaining, and retrieving the same.

Data storage

a) Customer understands that unless Customer purchases data retention services, ETA will have the right to purge detailed packet data submitted by Customer on a 90-day rolling schedule. ETA will retain summary data for the life of the Contract.

b) Unless Customer has made other arrangements in writing with ETA, all data submitted using the System may be purged as provided above. The Customer must reaffirm this request annually during the renewal process.

c) Customer shall be solely responsible for printing data and inspection reports for vehicles involved in an accident. Customer understands and agrees that ETA is not required to retain records except as provided in a separate agreement.

Wireless data policies

a) Customer understands and agrees that Customer has no contractual relationship with a wireless carrier and Customer is not a third-party beneficiary of any agreement between ETA or an ETA agent and a wireless carrier.

b) Customer understands and agrees that the underlying wireless carrier shall have no legal, equitable or other liability of any kind to Customer.

c) Subject to FCC Number portability rules, Customer has no property or other rights in any Number assigned to it and Customer understands that any such Number can be changed from time to time.

d) Customer agrees that ETA and/or wireless carrier shall not be responsible for interruption of service for any reason or the inability to use the service caused by force majeure.

e) Customer understands and agrees that the liability and obligation of ETA to Customer for services may be controlled and limited by a wireless carrier's tariff, if any, and the laws, rules and regulations of the Federal Communications Commission and other United States or foreign governmental authorities which from time to time have jurisdiction.

f) In no event shall ETA and/or wireless carrier be liable for the failure or incompatibility of any equipment utilized by Customer in connection with Service.

Ownership

a) Customer grants ETA the right to use all data submitted to the System to provide ETA Services as

described in the Sales agreement, System support agreement, and System subscription agreement, including to purge such data as provided in the Section titled "Data Storage." ETA will provide Customer with summary data and any compilations of the data at the termination of the Sales agreement, System support agreement, and System subscription agreement prior to such data's secure deletion.

b) The System and the components provided by ETA for the Customer's use are protected by patent, copyright, trade secret, trademark, international treaties, and other laws, as applicable. Customer agrees that ETA owns all proprietary rights in the System and any corrections, enhancements, updates, or other modifications, including custom modifications, thereto, whether made by ETA or any third party.

c) At all times during and after the termination or expiration of this System subscription agreement, Customer and its affiliates, officers, directors, employees, contractors and agents shall maintain the confidentially of trade secret information. Customer shall not disclose any such proprietary information concerning the System, including any flow charts, logic diagrams, user manuals, and screens, to persons not an employee of Customer without the prior written consent of ETA.

Intellectual property

Customer's purchase of Hardware Products transfers ownership of the physical hardware to Customer, where applicable, but does not transfer ownership of any ETA software, firmware, designs, documentation, trade secrets, technology or other Intellectual Property incorporated into or associated with the Hardware Products. The Hardware and Software Products contain trade secrets, know-how and other intellectual property belonging to ETA Transit Systems. Under no circumstances shall Customer sell or transfer any purchased Hardware or Software Products, reconstruct or repair such Hardware or Software Products, or reverse engineer or otherwise attempt to learn the trade secrets, know how or other intellectual property embodied therein.

Remedies

Customer agrees that its remedies as a Customer are limited to those provided for under the System support Agreement between the parties. ETA shall not be liable to Customer or any third party for any general, special, punitive, incidental, indirect, or consequential damages, or any lost profits or business, arising out of this System subscription agreement.

If Customer fails to make any payment due or otherwise violates any material term or condition of this System subscription agreement, Customer may be declared in default upon notice and failure to cure for 60 days. Upon uncured default, all amounts then due and owing shall become immediately payable, and ETA may exercise any additional remedies available under the applicable Quotation, Supplemental Agreement, 791 Contract, and applicable law. ETA shall have the right to terminate this System subscription agreement and recover any other remedy permitted by law. Customer shall be responsible, to the extent permitted by applicable law, for damages, losses, costs, and expenses resulting from Customer's unauthorized or improper use of the System or the unauthorized or improper use of the System by persons under Customer's control. Nothing in this provision shall require Customer to indemnify or defend ETA where such obligation is prohibited by applicable law or the 791 Contract.

Read and agreed by

The parties to this System subscription agreement warrant and represent that they have the power and authority to enter into this System subscription agreement in the names and capacities stated herein.

ETA and Customer hereby agree to the provisions of this Agreement:

Exhibit B: System support agreement

Overview

WHEREAS Customer and ETA entered into an agreement for the purchase of hardware, software and related services on the execution date; and

WHEREAS Customer desires to obtain support services for said hardware and software (collectively "System"); and

WHEREAS ETA desires to provide such support services.

Now therefore, the parties, for good and valuable consideration, agree to the following:

Hardware warranty and support

The hardware products covered by this System support agreement shall be as set forth on the included in the Quotation. If the quantity of products changes during the term of this System support agreement, a corresponding adjustment to fees hereunder will apply for the remaining term of the System support agreement.

Consumable Items such as batteries, cables, wiring harnesses, GPS, WLAN and RF antennas, etc. are not covered under this System support agreement. Replacements for such items may be ordered from ETA and will be subject to the applicable supplier's warranty policy.

Hardware warranty

ETA affirms that each hardware product is free of defects in material and workmanship. ETA further affirms that hardware products will perform for the intended purpose for a period of two (2) years from delivery of equipment. Thereafter, the provisions under Non-Warranty Repairs shall apply. For Contracts that are shorter than two (2) years in length, the hardware warranty shall not exceed the term of the Contract. Extended warranties can be quoted

upon request for up to a total of five (5) years of warranty.

Warranty Repair Policy

If a hardware product fails to operate as specified, and no exclusions from warranty policy apply, ETA or its authorized service agents will have the option to repair or replace the defective product at no cost to the Customer.

Exclusions from Warranty Policy

Instances to which the warranty repair policy shall not apply include, but are not limited to; a) warranty returns classified as No Problem Detected (determined to be fully functional with no need for repair), b) product failures resulting from improper use, c) damage resulting from accident, abuse or improper maintenance, d) damage caused by operation outside ETA specifications, e) damage resulting from vandalism, fire, or other uncovered peril, e) product modified without ETA's consultation, and f) Consumable Items.

In such instances, the provisions under Non-Warranty Repairs, including applicable fees, shall apply.

Warranty service

Spare parts inventory – The Customer shall maintain an inventory of ETA Hardware Products at the recommended level for use during completion of repairs. The Customer is responsible to; remove defective products, replace them with spare products, request Return Material Authorization ("RMA") number, and to send defective products to ETA for failure analysis.

Return materials authorization – No product received for repair by ETA will be accepted without an ETA- assigned RMA number. RMA numbers may be obtained by:

Phone: 561-288-1932

Email: support@etatransit.com

RMA requests shall include product description, ETA part number, serial number (if applicable), quantity, reason for return, and vehicle number (if applicable). The Customer is responsible to ensure secure packaging of products for shipping. Shipping material is available for purchase, at cost, from ETA. ETA is not responsible for damage to, or loss of, products in transit. Shipping costs for the return to ETA of products to which the Warranty Repair Policy applies will be borne by ETA. Shipping costs for the return to ETA of products deemed Exclusions of Warranty Policy will be borne by the Customer. Customer agrees to ship RMAs using an ETA-supplied shipping label. RMA shipments are to be labeled as follows:

ETA Transit Systems, Inc.
Attn: Customer Service, RMA #_____ 6420 Congress AVE STE 1850
Boca Raton, FL 33487

Failure analysis and repair/replace – Upon receipt of a returned product, an ETA technician will complete a failure analysis to decide of whether the product is subject to the Warranty Policy or the Exclusions of Warranty Policy, and whether to product is repairable. If the product is subject to the Warranty Policy ETA will either repair or replace the product at ETA's discretion. If the product is subject to the Exclusions of Warranty Policy ETA will provide the Customer a quotation and subsequent invoice for the repair or replacement of the product.

Return – ETA will make its best effort to return the repaired or replaced product to the Customer within thirty
(30) days. Shipping costs for the return to Customer of repaired or replaced products to which the Warranty Repair Policy applies will be borne by ETA. Shipping costs for the return to Customer of repaired or replaced products deemed Exclusions of Warranty Policy will be borne by the Customer.

Non-warranty repairs

Repairs of products performed by ETA which are Exclusions of Warranty Policy, or otherwise

not covered by the Warranty Repair Policy, will be invoiced to the Customer at the applicable Bench Rate, for repairs performed at ETA facilities, and/or Field Service Rate below, along with other time and material costs incurred by ETA. The Warranty Repair Policy will apply to non-warranty repairs for a period of ninety (90) days from shipment to Customer.

Hardware support rates

ETA quotations and/or invoices for Non-Warranty Repairs shall include any combination of the following that may apply:

Bench rate: Hourly rates will be billed in accordance with an approved quotation

Field service rate: Hourly rates will be billed in accordance with an approved quotation Travel & miscellaneous: Hourly rates will be billed in accordance with an approved quotation Mileage: Current IRS allowance rate/mile Meals: Current federal government regional per-diem rate

Customer hardware maintenance obligations

In addition to the responsibilities identified in this Section, the Customer shall;

- Provide access to vehicles and maintenance staff at time of installation
- Review and accept agency-specific design documentation and acceptance test procedures
- Participate in scheduled project status and customer satisfaction calls
- Pay all invoices according to the applicable payment terms
- Provide reasonable access to the Customer's facilities, vehicles and systems required for ETA to perform required tasks (subject to Customer's security requirements)
- Provide technical and administrative support to ETA's on-site personnel (office supplies, photocopying, network access, etc.)

- Faithfully execute required maintenance and troubleshooting procedures as prescribed by ETA.

Software Maintenance and Support

Software products

The Software Products covered by this System support agreement shall be as set forth in included in the Quotation. If the quantity of products changes during the term of this System support agreement, a corresponding adjustment to fees hereunder will apply for the remaining term of the System support agreement. Provisions hereunder are subject to the System subscription agreement between the parties, and no provision hereunder will apply to software not licensed by the Customer under a System subscription agreement with ETA.

Software maintenance and support services

During the term ETA agrees to provide certain services in support of the Customer's use of the licensed Software Products. Services shall consist of:

- Provide technical support help desk – see System Warranty and Support
- Provide software updates – Modifications or additions to software product that bring the product into conformity with stated specifications, including correction of errors or bugs.
- Provide software maintenance – Activities performed to ensure Software Products perform in conformity with stated specifications.
- Provide software upgrades – Improvements, feature additions or other enhancements which are in addition to stated specifications.

Additional software services

Services performed by ETA in response to the following, are excluded from Software Maintenance and Support Services and will be quoted and invoiced to the Customer at the applicable Software developer rate, for activities performed at ETA facilities, and/or Field service rate below, along with other time and material costs incurred by ETA:

- Customer request for update or upgrade installation labor

- Customer request for enhancements
- Customer request for integration with third party software or hardware that are not included in the Quotation or Purchase Order
- Problems resulting from the hardware on which the Software Product is installed, or problems resulting from hardware devices connected to the hardware on which the Software Product is installed
- Problems resulting from the misuse, alteration, or damage of the Software Product
- Problems resulting from Customer use of versions of the Software Product other than the most recent update delivered by ETA

Software service rates

ETA quotations and/or invoices for additional software services shall include any combination of the following that may apply:

Software developer rate: Hourly rates will be billed in accordance with an approved quotation Senior software developer rate: Hourly rates will be billed in accordance with an approved quotation Systems architect rate: Hourly rates will be billed in accordance with an approved quotation
Field service rate: Hourly rates will be billed in accordance with an approved quotation Travel & miscellaneous: Hourly rates will be billed in accordance with an approved quotation Mileage: Current IRS allowance rate/mile
Meals: Current federal government regional per-diem rate

Remote software access

As the software products, as well as relevant Customer data, are hosted by ETA in an internet-accessible environment, both Customer and ETA access is critical to the performance of Software Maintenance and Support services and additional software services hereunder. Both parties agree to:

- Take all reasonable steps to facilitate timely and secure access to required software instances and data by the other party
- Take all reasonable steps to avoid disruption of other operations of the other party
- Abide by the other party's IT security policies
- Refrain from accessing any internal or internet-based networks of the other party for purposes other than performance hereunder.

System warranty and support

System warranties (other than hardware and software product warranties)

Installation

ETA guarantees the installation of its Hardware Products and Software Products for a period of 60 days commencing at the Installation Milestone as set forth in the Quotation. Should any defects be discovered, ETA will assume the cost to remedy the installation issue. This guarantee excludes any alterations or modifications to the initial installation made by the Customer.

Security

ETA hosted systems are protected by firewall Access Control Lists. Open ports shall be limited to those required for Customer operation, and a quarterly rotation of login credentials deployed for secure operations. Please refer to the ETA Transit Systems Information Technology Security Policy for further details.

Privacy

Customer data and other Confidential Information of Customer shall be maintained by Customer in a commercially reasonable manner as to prevent access by any party other than ETA and authorized users of Customer.

Disaster recovery

ETA shall perform daily backups of Customer data to regional cloud-based servers.

Restorations of backups will be performed at no incremental cost to Customer and will be completed within 8 hours of request.

Annual maintenance

At ETA's discretion, and with at least 30 days' notice given to Customer, ETA may execute an annual onsite visit to Customer premises to perform visual inspections. Repairs deemed critical to the operation of the system may be performed at ETA's discretion. Recommendations and associated quotations for replacements, upgrades or improvements will be provided within 30 days after such annual maintenance onsite visit.

Ongoing system support

ETA provides System Support 7 days per week, 365 days per year (24x7x365), via; online helpdesk/ticket monitoring system (Zoho), and dedicated email addresses. Live chat is available between the hours of 8AM and 5 PM Monday through Friday, Eastern Standard Time. Telephone support outside of ETA's normal business hours, 8AM and 5 PM Monday through Friday, Eastern Standard Time is reserved for emergencies.

ETA shall maintain technical personnel qualified to perform the tasks of; logging support tickets, responding to Customer RMA requests, severity determination, issue resolution, onsite issue resolution. ETA has sole discretion over the deployment of resources required to perform these tasks, whether a task is required, and whether a task is covered by warranty.

System Support Process

The parties acknowledge their respective obligations associated with the following steps associated with submitting, acknowledging, researching and resolving problems and requests. The timelines for these steps are dictated by the Problem Severity and Resolution framework as provided for herein.

- Stage 1 – Customer notifies ETA of an issue via one of the three accepted methods, ETA logs support ticket and acknowledges receipt to Customer
- Stage 2 – ETA reviews issues, Customer provides timely response to any requested clarifications, ETA determines severity, ETA informs Customer of severity level
- Stage 3 – ETA researches the issue resolution and estimates resolution time estimate, ETA consults with customer on resolution and time estimate, Customer responds in a timely manner, ETA implements resolution and informs Customer of issue-closure

Problem severity, response, and resolution

Pursuant to ETA's System Support Process, ETA personnel shall decide, in ETA's sole discretion, of the severity of all issues received by Customer. While response times are committed for each severity, the issue resolution time shall be on a case- specific basis, independent of severity level. Once resolution times are estimated, the penalty to ETA of exceeding the estimated resolution time shall vary based on severity. Severity definitions, response times and penalties for exceeding resolution times are as follows:

Severity level	Description (including examples)
Fatal	Complete system failure
Severe	A majority of system functionality is impacted
Medium	A minority of system functionality is impacted

Severity level	Response time	Resolution time	Penalty per hour
Fatal	30 minutes	Case-specific	3% total monthly fee
Severe	4 hours	Case-specific	2% total monthly fee
Medium	8 hours	Case-specific	1% total monthly fee

Service level commitment and penalties

The parties acknowledge that the System is a complex technical solution, the effective operational uptime of which is dependent on the interaction between hardware, software, vehicles, and various user and support personnel of both ETA and the Customer. The parties agree to make all reasonable efforts to minimize downtime of the overall System, the functionality of the System and any vehicles on which the System is installed. Accordingly, ETA shall incur penalties for operational downtime, according to the severity of the issues defined under this Section. This instance may trigger penalties; Cumulative downtime for a severity level for a month exceeds the allowable levels below.

Severity level	Allowable downtime/month	Penaltyperhour
Fatal	2 hours	3% total monthly fee
Severe	8 hours	2% total monthly fee
Medium	20 hours	1% total monthly fee

Penalties shall take the form of credits which the Customer may apply against existing and future ETA invoices. A cumulative maximum of 25% of total monthly fees shall apply.

Customer system maintenance obligations

In addition to the responsibilities identified in this Section, the Customer shall:

- Answer questions regarding customization, such as route configuration, schedules, and standard operating procedures
- Provide a meeting facility to train staff
- Provide custom graphics for traveler information systems (i.e. corporate colors, logos, etc.)
- Review and accept agency-specific design documentation and acceptance test procedures
- Participate in scheduled project status and customer satisfaction calls

- Pay all invoices according to the applicable payment terms

- Provide 24-hour access to the Customer's facilities, vehicles and systems required for ETA to perform required tasks (subject to Customer's security requirements)
- Provide technical and administrative support to ETA's on-site personnel (office supplies, photocopying, network access, etc.)

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent must disclose any conflicts of interest related to the goods and/or services associated with this solicitation. A conflict-of-interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s). The City reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

If a conflict of interest exists, the Respondent must:

- Complete Form CIQ
- File the form with the City Secretary
- Include a copy of the completed Form CIQ with the proposal

If no conflict of interest exists, Form CIQ is not required. Regardless of whether a conflict exists, this Form 2 must be completed and signed.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict-of-interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

City Secretary Contact Information

City of Brownsville – Office of the City Secretary
1034 E Levee Street, City Plaza, 1st Floor, Brownsville, TX 78520
Email: City.Secretary@brownsvilletx.gov
Phone: (956) 548-6042

Certification

By signing below, the Respondent certifies that they have reviewed and understand the requirements of Chapter 176, Texas Local Government Code and have determined whether a conflict of interest exists. The Respondent further certifies that, if a conflict of interest exists, a completed Conflict of Interest Questionnaire (Form CIQ) has been or will be filed with the City Secretary in accordance with state law and that a copy of the completed Form CIQ is included with this submission, if applicable. The Respondent affirms that all information provided is true and correct and that they are authorized to bind the entity.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

NA

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

_____

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

EXHIBIT "E"

INSURANCE

Contractor shall obtain and maintain insurance coverage as agreed in paragraph 7 of the City of Brownsville Contract Agreement and ensure that coverage with the parameters contained herein remains in full force at all times during the contract period as follows:

1. **Workers' Compensation and Employers' Liability Insurance**

   Minimum Limits Consistent with Texas Worker's Compensation Act (Section 401):

   1. $100,000 bodily injury each accident
   2. $500,000 bodily injury by disease policy limit
   3. $100,000 Bodily injury by disease each employee

   Any firm performing work for or on behalf of the City of Brownsville must provide Workers' Compensation insurance.

2. **Commercial General Liability Insurance**

   Covering premises-operations, products-completed operations, independent Contractors and contractual liability, with a combined single limit bodily injury/property damage of $1,000,000. This coverage must include, but not be limited to:

   1. Coverage for the liability assumed by the Contractor under the indemnity provision of the contract.
   2. Coverage for Premises/Operations
   3. Products/Completed Operations
   4. Broad Form Contractual Liability
   5. Independent Contractors

3. **Automobile Liability Insurance**

   Covering all owned, hired and non-owned automobile equipment with the following Limits:

   1. Bodily injury

      $250,000 each person,

      $500,000 each occurrence
   2. Property damage

      $100,000 each occurrence

FORM 10 FTA
City of Brownsville Federal Clauses Certification Form

FEDERAL CERTIFICATIONS & FTA PROVISIONS
AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Federal and FTA funds will be used; therefore, this form must be completed and returned.

Federal Transit Administration (FTA)

This version of the *Federal Clauses FY2026* document includes all required federal provisions under 2 C.F.R. Part 200, along with additional clauses required for full compliance with Federal Transit Administration (FTA) Master Agreement (MA31, Oct. 2024), FTA Circular 4220.1F, and 49 C.F.R. Parts 18,26, 661, and 663.

Instructions for Completing this Form
Suppliers and contractors must review each federal clause and indicate whether it applies to the specific contract. For every section below, please initial **"YES"** to confirm agreement and compliance, or **"N/A"** (Not applicable) if the clause does not apply to the scope of work or funding source.
Yes – contractor/supplier agrees to comply with the clause as written and, where applicable, will provide all required documentation or certifications.
N/A – Clause is not applicable to the contract (e.g., Davis Bacon Act for non-construction work, Buy America for non-transportation projects, etc.) Contractor/supplier must initial next to "N/A" to confirm inapplicability.
Incomplete forms or unmarked sections may disqualify contractor/supplier and/or delay contract approval.

Vendor Responsibility for Regulatory Compliance
It is the responsibility of the contractor/supplier to review, verify, and comply with the most current versions of all applicable federal provisions, clauses, and regulations referenced in this document. The contractor/supplier shall refer to official U.S. Government websites, including the Code of Federal Regulations (www.ecfr.gov), Federal Acquisition Regulation (www.acquisition.gov), and agency-specific resources (e.g., HUD, DOT, Treasury, or OMB), to ensure full and current compliance at the time of bid submission and throughout the contract term.

DEFINITIONS

Contract: A legal agreement by which a non-Federal entity purchases property or services to carry out a federally funded project.

Contractor: An entity that receives a contract as defined in Contract.

Cooperative agreement: A form of federal financial assistance used when substantial involvement is expected between the federal agency or pass-through entity and the recipient.

Federal awarding agency: The U.S. federal agency providing the funding.

Federal award: The financial assistance or cost-reimbursement contract provided directly by a federal agency or indirectly through a pass-through entity to carry out a public purpose.

Non–Federal entity (NFE): A state, local government, tribe, institution of higher education, or non-profit organization that receives and administers federal funds.

Pass-Through Entity (PTE): A Non-Federal entity that provides part of its federal award to another organization (a subrecipient) to carry out a portion of the program.

Subrecipient/Subaward: A Non-Federal entity that receives federal funds from a pass-through entity to carry out part of federal program. The legal instrument documenting this relationship is the subaward.

Recipient: A Non–Federal entity receiving funds directly from a federal agency.

Simplified acquisition threshold: The current small-purchase limit established under the FAR (presently $250,000, adjusted periodically for inflation).

Obligations: Orders placed on contracts or subawards made that require payment by the Non-Federal entity.

Termination: The ending of a federal award, in whole or in part, prior to the planned end of the period of performance. These definitions are provided for reference only. For full regulatory text, see 2 C.F.R. Part 200, Subpart A (§§ 200.0-200.1).

Certification Regarding Certain Telecommunications and Video Surveillance Services or Equipment (FAR 52.204-24 & 52.204-25)

The contractor/supplier certifies compliance with the prohibitions under Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232) and the Federal Acquisition Regulation (FAR) 52.204-24 and 52.204-25.

The contractor/supplier shall not provide or use any equipment, system, or service that includes covered telecommunications equipment or services from Huawei Technologies Company, ZTE Corporation, Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, Dahua Technology Company, or any subsidiary or affiliate of such entities.

If the contractor/supplier identifies any covered telecommunications equipment or services during performance, it shall immediately notify the contracting agency or the City of Brownsville in writing and provide all information required under FAR 52.204-25(d).

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

APPENDIX II TO 2 CFR PART 200 – Contract Provision for Non-Federal Entity Contracts Under Federal Awards

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Contractor/Supplier as detailed in the terms of the contract.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(C) **Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."**

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier
N/A (Not applicable to this contract) _____

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, contractor/supplier will be in compliance with all applicable Davis-Bacon Act provisions.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, contractor/supplier certifies that contractor/supplier will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act

during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non- Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

In the event Federal Transit Administration (FTA) or Department of Transportation (DOT) funding is used by Participating Public Agency, contractor/Supplier also agrees to include Clean Air and Clean Water requirements in each subcontract exceeding $100,000 financed in whole or in part with Federal assistance provided by FTA.

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the contractor/supplier agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(H) Prohibition on Fraud, Waste, and Abuse - The contractor/supplier certifies that it will take all reasonable steps to prevent, detect, and disclose any suspected fraud, waste, or abuse of federal funds associated with this contract, consistent with applicable laws and agency guidance. Any such activity will be promptly reported to the awarding agency, pass-through entity, or the Office of Inspector General, as appropriate.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(I) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220 cross-reference to Treasury/OMB Guidance Subpart C) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions

contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the contractor/supplier or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the contractor/supplier will notify the Participating Agency.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.
N/A (Not applicable to this contract) _____

(J) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (I) above, when federal funds are expended by Participating Agency, the contractor/supplier certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the contractor/supplier certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(3) The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

Procurement of Recovered Materials 2 C.F.R. § 200.323 / 40 C.F.R Part 247

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

When Participating Agency expends federal funds for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with 2 C.F.R. § 200.323

"This requirement also implements Section 6002 of the Resource Conservation and recovery Act (42 U.S.C. § 6962"

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier
N/A (Not applicable to this contract) _____

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with the record retention requirements detailed in 2 CFR §§ 200.334-200.337. The contractor/supplier further certifies that contractor/supplier will retain all records as required by 2 CFR § 200.334 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier
N/A (Not applicable to this contract) _____

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, contractor/supplier certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18). Cross-link 2 CFR § 200.323(b)

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, contractor/supplier certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

(1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General

waivers are listed in 49 CFR 661.7.A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.

(2) A bidder or contractor/supplier must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA- funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower-tier subcontractors.

The following certificates titled FTA and DOT Buy America Certification should be completed and returned with the response as part of FTA and DOT requirements.

FEDERAL TRANSIT ADMINISTRATION (FTA) AND DEPARTMENT OF TRANSPORTATION (DOT) - BUY AMERICA: CERTIFICATION REQUIREMENT FOR PROCUREMENT OF ROLLING STOCK

COMMUNITY DEVELOPMENT BLOCK GRANTS

Purchases made under this contract may be partially or fully funded with federal grant funds. Funding for this work may include Federal Funding sources, including Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development. When such funding is provided, Contractor/Supplier shall comply with all terms, conditions and requirements enumerated by the grant funding source, as well as requirements of the State statutes for which the contract is utilized, whichever is the more restrictive requirement. When using Federal Funding, Contractor/Supplier shall comply with all wage and latest reporting provisions of the Federal Davis-Bacon Act. HUD-4010 Labor Provisions also applies to this contract.

In addition, the Contractor/supplier shall comply with the requirements of Section 3 of the Housing and Urban Development Act of 1968 (24 C.F.R. Part 75), ensuring, to the greatest extent feasible, that employment and contracting opportunities are directed to low- and moderate-income residents and Section 3 businesses.

If the project involves acquisition, demolition, or displacement activities, the contractor/supplier shall also comply with the Uniform Relocation Assistance and Real Property Acquisition Act (49 C.F.R. Part 24), ensuring fair compensation and relocation assistance for affected persons and property owners.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier
N/A (Not applicable to this contract) _____

Federal Changes Clause (49 C.F.R. Part 18)

The contractor/supplier shall comply with all applicable FTA regulations, policies, procedures, and directives, including but not limited to those listed in the FTA Master Agreement (as amended). The contractor/supplier agrees to comply with all applicable future amendments to such laws and regulations and with any future changes that may be imposed by FTA, whether such changes are implemented prior to or during the performance of this contract.

Failure to comply with FTA requirements shall constitute a material breach of this contract.

Does contractor/supplier agree? **YES** _____Initials of Authorized Representative of contractor/supplier.

Exhibit G

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed in accordance with TEC requirements**.**

PROCUREMENT ANALYSIS

Date: Tuesday, September 15, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, City Manager
CC: Mr. Damian Espinoza, Procurement Director
Ms. Gennie Garcia, Brownsville Metro Multimodal Transit Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, October 6, 2026.
"Consideration and Action to Authorize a Contract with ETA Phi Systems, Inc. in the amount of $475,773.00 for Contract No. 358-26-BMT-CP, for a term of Five (5) Years, for the purchase and implementation of a Computer-Aided Dispatch/Automatic Vehicle Location (CAD/AVL) System for Brownsville Metro fixed-route buses (Brownsville Metro Multimodal Transit)."

Executive Summary:

- Department: Multimodal Transportation Department
- Exemption Type: Cooperative Purchase Exemption
- Contract Number: 358-26-BMT-CP
- Vendor: ETA Phi Systems, Inc.
- Contract Amount: $475,773.00
- Term: Five (5) Years

Background:
Brownsville Metro needs to purchase a new CAD/AVL system for its Brownsville Metro fixed route buses. The CAD/AVL systems will allow Brownsville Metro to better track its fleet, improve on-time performance, and provide additional amenities to passengers for a better riding experience. This project is funded 100% by a Federal Transit Administration grant.

Exemption Justification:
Authorized use of contracts competitively solicited and awarded by another governmental entity or cooperative organization in compliance with Texas Local Government Code §271.102.

Procurement verified that this contract falls under an active 791 Cooperative Contract No. 791202603004.

Vendor Information:
ETA Phi Systems, Inc.
5805 North Lamar Blvd, Austin, TX 78752
Point of Contact: Nicole Castonguay, President of ETA Phi Systems, Inc.
Phone/Email: (719) 453-0251 | ncastonguay@etatransit.com

Exhibits & Supporting Documents:

- Exhibit A – Quote
- Exhibit B – Acknowledged 1295 Form
- Exhibit C – 791 Cooperative Contract No. 791202603004

Recommendation:

The Procurement Department recommends that the City Commission authorize a contract with ETA Phi Systems, Inc. for a term of Five (5) Years, in an amount not to exceed $475,773.00, under a Cooperative Agreement in compliance with Texas Local Gov't Code §271.102.

Approval of this agenda item will authorize the full contract amount, not to exceed $475,773.00.

791 Purchasing Cooperative Contract Award

June 10, 2026

ETA Phi Systems, Inc
Jariel Adler
6420 Congress Ave
Suite 1850
Boca Raton, FL 33487
791 Awarded Contract – RFP #791-2026-03-004 Transit Services and Technology Solutions.
791 Contract Number – 202603004

CONTRACT AWARD

Congratulations! This award is for an intergovernmental cooperative purchasing agreement . The 791 Purchasing Cooperative (791 Coop) on behalf of the Central Texas Council of Governments (CTCOG) with delegated authority to the Executive Director by the Board of Directors has awarded ETA Phi Systems, Inc. This Agreement will be in effect from 06/10/2026 through 05/31/2031. There are three (3) automatic contract renewal one (1) year term options from 05/31/2031 to 05/31/2032, 05/31/2032 to 05/31/2033, and 05/31/2033 to 05/31/2034.

ADMINISTRATIVE CONSIDERATIONS

Award of annual contract in compliance with the bid laws of the State of Texas are recommended.

RECOMMENDATIONS

791 Coop recommends the following contract be awarded based on the Request for Proposal (RFP) process: 791 Awarded Contract – RFP #791-2026-03-004 Transit Services and Technology Solutions to ETA Phi Systems, Inc.

791 PURCHASING COOPERATIVE AND VENDOR AGREEMENT

Between ETA Phi Systems, Inc

(Company Name)

with the principal place of business at

6420 Congress AVE STE 1850 Boca Raton FL 33487

and

791 Purchasing Cooperative
For
RFP # 791202603004
Transit Services and Technology Solutions.

General Information

The Vendor Agreement ("Agreement") made and entered into by and between 791 PURCHASING COOPERATIVE (hereinafter referred to as "791COOP") a government cooperative purchasing program authorized by the Central Texas Council of Governments, having its principal place of business 2180 North Main Street, Belton, TX 76513 and ***Company listed at the top of page one*** (hereinafter referred to as "Vendor") a provider having its principal place of business as listed at the top of page one. This Agreement consists of the provisions set forth below, including provisions of all Attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any Attachment, the provisions set forth shall control.

The vendor Agreement shall include and incorporate by reference this Agreement, the terms and conditions, special terms and conditions, any agreed upon amendments, as well as all of the sections of the Solicitation (RFP, RCSP, RFQ) as posted, including any addenda and the awarded vendor's proposal.

The following pages will constitute the Agreement between the successful vendors(s) and 791 PURCHASING COOPERATIVE.

Terms and Conditions

1. Assignment of Vendor Agreement

No assignment of the Vendor Agreement may be made without the prior written approval of 791 PURCHASING COOPERATIVE. A simple change of name agreement will not change the Agreement obligations of the awarded vendor.

2. 791 PURCHASING COOPERATIVE Contract

The 791 PURCHASING COOPERATIVE Contract is the final negotiated version of the Vendor's contract that was submitted as part of the **#791202603004 Transit Services and Technology Solutions**, as submitted by Vendor and negotiated with 791 PURCHASING COOPERATIVE. The 791 PURCHASING COOPERATIVE Contract will govern all aspects of a sale for Products and/or Services between the Vendor and a 791 PURCHASING COOPERATIVE Participant. 791 PURCHASING COOPERATIVE recognizes that a 791 PURCHASING COOPERATIVE Participant may, in agreement with Vendor, make modifications to the 791 PURCHASING COOPERATIVE Contract to reflect the specific needs of the 791 PURCHASING COOPERATIVE Participant. This modified form will still be referred to as the 791 PURCHASING COOPERATIVE Contract.

Vendor may only use the 791 PURCHASING COOPERATIVE Contract with 791 PURCHASING COOPERATIVE Participants who have agreed to purchase products and services from Vendor through the 791 PURCHASING COOPERATIVE preferred supplier program. If a 791 PURCHASING COOPERATIVE Participant solicits proposals for Products and/or Services under this agreement from Vendor directly and has specifically provided notice that they will not be using 791 PURCHASING COOPERATIVE as their contract vehicle through the 791 PURCHASING COOPERATIVE preferred supplier program, Vendor cannot use the 791 PURCHASING COOPERATIVE Contract to serve the 791 PURCHASING COOPERATIVE Participant. For the avoidance of doubt, if a vendor and a 791 PURCHASING COOPERATIVE Participant, execute a 791 PURCHASING COOPERATIVE Purchase or Products and/or Services under this agreement, the vendor will be obligated to pay 791 PURCHASING COOPERATIVE the participation fee.

To further clarify, the vendor may sell to a 791 PURCHASING COOPERATIVE participant or potential 791 PURCHASING COOPERATIVE participants, which is any governmental or other public entity in Texas through the 791 PURCHASING COOPERATIVE preferred supplier program. If a potential customer is not currently a 791 PURCHASING COOPERATIVE participant, they may join 791 PURCHASING COOPERATIVE by contacting 791 PURCHASING COOPERATIVE at **admin@791COOP.org**. Awarded vendors are not restricted from responding to any Texas entity that issued a Request for Proposals and has chosen not to use the 791 PURCHASING COOPERATIVE interlocal cooperative method of procurement.

If you identify a Texas public or governmental entity that wants to make a purchase and use a cooperative or interlocal contract and is not a current 791 PURCHASING COOPERATIVE Participant, please have them call the number provided above or email the address above so 791 PURCHASING COOPERATIVE may contact the entity to provide all applicable information.

791 PURCHASING COOPERATIVE will provide awarded vendor's participants packets for this purpose upon request.

ANY AGREEMENT BETWEEN A 791 PURCHASING COOPERATIVE PARTICIPANT AND VENDOR THAT REQUIRES THE 791 PURCHASING COOPERATIVE PARTICIPANT TO INDEMNIFY ANY OTHER PARTY,

EXCEPT TO THE EXTENT PERMITTED BY THE APPLICABLE CONSTITUTION, LAWS, OR REGULATIONS OF THE JURISDICTION OF THE LOCATION OF THE 791 PURCHASING COOPERATIVE PARTICIPANT OR THE LOCATION OF THE PERFORMANCE OF THE CONTRACT UNDER THIS AGREEMENT, IS NOT PERMITTED UNDER THIS AGREEMENT AND RENDERS THE INDEMNITY REQUIREMENT NULL AND VOID AS IT APPLIES TO THE 791 PURCHASING COOPERATIVE PARTICIPANT'S RESPONSIBILITY TO INDEMNIFY ANY PARTY.

3. Disclosures

a) Vendor affirms that it has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with this Agreement.

b) Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with 791 PURCHASING COOPERATIVE under a 791 PURCHASING COOPERATIVE Agreement if Vendor feels that such possible conflicts of interest exist. If you believe there is a conflict of interest as described in the form CIQ instruction sheet contained in this RFP, please complete and submit the form CIQ provided as instructed.

c) The vendor affirms that, to the best of its knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

4. Renewal of Agreements

The Agreement with 791 PURCHASING COOPERATIVE is for a five (5) year term with three (3) one (1) year options. Any extension of the initial term will be agreed to in writing between 791 PURCHASING COOPERATIVE and Vendor. Nothing herein shall require either party to agree to an extension of the initial term.

Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with 791 PURCHASING COOPERATIVE Participants Resulting from the Solicitation and with the Vendor Named in this Agreement.

NO AGREEMENT FOR GOODS OR SERVICES WITH A 791 PURCHASING COOPERATIVE PARTICIPANT BY THE AWARDED VENDOR NAMED IN THIS AGREEMENT THAT RESULTS FROM THE SOLICITATION AWARD NAMED IN THIS AGREEMENT MAY INCORPORATE AN AUTOMATIC RENEWAL CLAUSE WITH WHICH THE 791 PURCHASING COOPERATIVE PARTICIPANT MUST COMPLY. ALL RENEWAL TERMS INCORPORATED IN AN AGREEMENT BY THE VENDOR WITH THE 791 PURCHASING COOPERATIVE PARTICIPANT SHALL ONLY BE VALID AND ENFORCEABLE WHEN THE VENDOR RECEIVES WRITTEN CONFIRMATION BY PURCHASE ORDER OR EXECUTED AGREEMENT ISSUED BY THE 791 PURCHASING COOPERATIVE PARTICIPANT FOR ANY RENEWAL PERIOD. THE PURPOSE OF THIS CLAUSE IS TO AVOID A 791 PURCHASING COOPERATIVE PARTICIPANT INADVERTENTLY RENEWING AN AGREEMENT DURING A PERIOD IN WHICH THE GOVERNING BODY OF THE 791 PURCHASING COOPERATIVE PARTICIPANT HAS NOT PROPERLY APPROPRIATED AND BUDGETED THE FUNDS TO SATISFY THE AGREEMENT RENEWAL. THIS TERM IS NOT NEGOTIABLE AND ANY AGREEMENT BETWEEN A 791 PURCHASING COOPERATIVE PARTICIPANT AND A 791 PURCHASING COOPERATIVE AWARDED VENDOR WITH AN AUTOMATIC RENEWAL CLAUSE THAT CONFLICTS WITH THESE TERMS IS RENDERED VOID AND UNENFORCEABLE AS TO THE AUTOMATIC RENEWAL CLAUSE.

5. Invoices

Vendor is responsible for the invoicing and collection of all funds due from a 791 PURCHASING COOPERATIVE Participant to the Vendor.

6. Payments

791 PURCHASING COOPERATIVE member will make payments directly to the Vendor for all funds owed as provided for in the 791 PURCHASING COOPERATIVE Contract.

7. Pricing

The price Vendor will charge a 791 PURCHASING COOPERATIVE Participant will be defined in the 791 PURCHASING COOPERATIVE Contract and determined at the time Vendor and a 791 PURCHASING COOPERATIVE Participant makes purchases through this 791 PURCHASING COOPERATIVE Contract. The price Vendor charges a 791 PURCHASING COOPERATIVE Participant will include the 791 PURCHASING COOPERATIVE annual participation fee.

At no time during the initial term or extended term of this Agreement shall the price charged to a 791 PURCHASING COOPERATIVE Participant exceed the contracted price for **#791202603004 Transit Services and Technology Solutions**.

Language like the following will be added to the Representations Section of the Vendor's 791 PURCHASING **#791202603004 Transit Services and Technology Solutions:**

> "Seller represents that this Agreement, pursuant to the award to (insert vendor's name) as a result of the 791 PURCHASING COOPERATIVE **#791202603004 Transit Services and Technology Solutions**, complies with the terms and conditions contained in a separate Purchasing agreement between Seller and 791 PURCHASING COOPERATIVE Participants."

8. Participation Fees

Vendor agrees to pay 791 PURCHASING COOPERATIVE the participation fee, **1.00%** Sales Participation Fee. 791COOP establishes a fee for each solicitation for proposals that is in the best interest of 791COOP and its participants.

a) The first fee is a **1.00%** percent participation fee for all Agreement sales to 791 PURCHASING COOPERATIVE Participants utilizing a 791 PURCHASING COOPERATIVE awarded the contract. The participation fee will be the total dollars derived from **1.00** % of total contract volume through this program to 791 PURCHASING COOPERATIVE participants. The participation fee will be included in quotes and invoices between the awarded vendor and 791 PURCHASING COOPERATIVE Participants.

b) The 791 PURCHASING COOPERATIVE participation fee will not be a provided as a separate line item to the 791 PURCHASING COOPERATIVE Participant. Vendor will remit the participation fee to 791 PURCHASING COOPERATIVE within thirty (30) business days of receipt of the payment for Purchases made under this agreement, which includes the annual participation fee, from the 791 PURCHASING COOPERATIVE Participant. Failure to pay the participation fee will result in termination of Agreement and 791 PURCHASING COOPERATIVE reserves the right to take any action under the law or equity for any breach of contract.

c) Prior to delivering a quote to a 791 PURCHASING COOPERATIVE Participant, the awarded vendor(s) will calculate the participation fee for 791 PURCHASING COOPERATIVE to be included in the quote.

9. Sales Reporting Procedures for Vendor

Vendor will report any sale under this contract that is made to a 791 PURCHASING COOPERATIVE Participant with the Vendor on a monthly basis. Thus, any order entered in a particular month shall report within thirty (30) business days of the 791 PURCHASING COOPERATIVE Participant issuing a Purchase Order or otherwise purchasing from the vendor under this contract.

10. Adoption of Agreement by State or Federal Agencies

Awarded Vendors may present this agreement to State agencies for adoption by the State and all 50 states. Vendor may agree to pay an additional fee to the State Agency. The Awarded Vendor shall continue to pay the Participation fee to 791 Purchasing Cooperative and report these sales to 791 Purchasing Cooperative. Failure for the Awarded Vendor to comply with this section of the agreement will result the in Awarded Vendor being in breach of the agreement and having their agreement with 791 Purchasing Cooperative terminated for cause.

Furthermore, Awarded Vendor may present this agreement to Federal Government Agencies and subrecipients who may adopt this agreement. Participation fees shall continue to be paid and sales reported to 791 Purchasing Cooperative, even if a fee is paid to the approving Federal Agency. Failure for the Awarded Vendor to comply with this section of the agreement will result in the Awarded Vendor being in breach of this agreement and having their agreement with 791 Purchasing Cooperative terminated for cause.

12. Indemnity

Vendor agrees to indemnify and hold harmless and defend 791 PURCHASING COOPERATIVE, 791 PURCHASING COOPERATIVE officers and employees, from and against all claims and suits for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and reasonable attorney's fees, arising out of, or resulting from, Vendor's performance of this Agreement or sales made to 791 PURCHASING COOPERATIVE Participants under this agreement, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, invitees, unless such claims are based in whole upon the negligent acts or omissions of the 791 PURCHASING COOPERATIVE, 791 PURCHASING COOPERATIVE officers, employees, or agents. If based in part upon the negligent acts or omissions of the 791 PURCHASING COOPERATIVE, 791 PURCHASING COOPERATIVE officers, employees, or agents, Vendor shall be responsible for their proportional share of the claim.

13. State of Texas Franchise Tax

By signature hereon, the Vendor hereby certifies that it is not currently delinquent in the payment of any franchise taxes owed to the State of Texas under Chapter 171, Tax Code.

14. Miscellaneous:

Nothing in the Agreement or in any other communication between 791 PURCHASING COOPERATIVE and the Vendor may be construed as a guarantee that 791 PURCHASING COOPERATIVE Participants will purchase items and services under this contract from the Vendor at any time.

15. Termination:

Contract shall terminate at the end of the agreement or at the end of any contract extensions. Either party may terminate for breach of contract which would include bankruptcy, or due to continued failure to perform the terms in this agreement. Prior to exercising termination for breach, the non-breaching party must provide notice by certified mail to provide the other party 30 days to solve the

stated problems. However, if this agreement is terminated prior to the end date of the initial term or the end date of an agreed to extension term, any 791 PURCHASING COOPERATIVE Purchase Contract entered into between Vendor and a 791 PURCHASING COOPERATIVE Participant shall survive and will not be terminated. Upon termination of this agreement between 791 PURCHASING COOPERATIVE and the Vendor, this agreement shall survive only insofar as to govern all surviving 791 PURCHASING COOPERATIVE Contracts between the Vendor and 791 PURCHASING COOPERATIVE Participants. Termination for convenience is required under 2 CFR part 200.

16. Marketing

Awarded vendor agrees to allow 791 PURCHASING COOPERATIVE to use their name and logo within the 791 PURCHASING COOPERATIVE website, marketing materials and advertising. Vendor may use the 791 PURCHASING COOPERATIVE name and logo in marketing the 791 PURCHASING COOPERATIVE Contract to 791 PURCHASING COOPERATIVE Participants or other Texas government or public entities.

17. Legal obligations

It is the responding vendor's responsibility to be aware of and comply with all local, state and federal laws governing the sale of products/services identified in this RFP and any awarded Agreement thereof. Applicable laws and regulations must be followed even if not specifically identified herein.

18. Audit rights

Awarded Vendor shall, at their sole expense, maintain appropriate due diligence of all purchases made by any 791 PURCHASING COOPERATIVE Participant that utilizes this Agreement. 791 PURCHASING COOPERATIVE reserves the right to audit the accounting for a period of four (4) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of four (4) years from the effective date of termination. 791 PURCHASING COOPERATIVE shall have the ability to conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by 791 PURCHASING COOPERATIVE. 791 PURCHASING COOPERATIVE shall bear the cost of such audit requested by 791 PURCHASING COOPERATIVE, but all documents maintained by the vendor shall be produced and made available to 791 PURCHASING COOPERATIVE or its agents at no cost.

19. Force Majeure

If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and cause of Force Majeure in writing to the other party within a reasonable time after the occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch. **This Clause includes COVID-19 which is a Declared Pandemic and any future Declared Pandemics.**

20. Remedies

The parties shall be entitled to exercise any right or remedy available to it either at law or in equity, subject to the choice of law, venue and service of process clauses limitations agreed herein. Nothing in this agreement shall commit the 791 PURCHASING COOPERATIVE to a binding arbitration resolution of any disagreement under any circumstances. Any Claim arising out of or related to the Contract, except for those specifically waived under the terms of the Contract, may, be subject to mediation at

the request of either party. Non-binding mediation shall be conducted by a mutually agreed upon mediator as a prerequisite to the filing of any lawsuit over such issue(s). The parties shall share the mediator's fee and any associated filing fee equally. Mediation shall be held in Bexar County, Texas. Agreements reached in mediation shall be reduced to writing, and signed shall thereafter be enforceable as provided by the laws of the State of Texas.

21. Choice of Law

This agreement and any addenda or other additions and all contracts or awards resulting from this procurement process, however described, shall be governed by, construed and enforced in accordance with the laws of the State of Texas, regardless of any conflict of laws principles.

22. Jurisdiction (Venue) and Service of Process

Any Proceeding arising out of or relating to this procurement process or any contract resulting from or any contemplated transaction shall be brought to a court of competent jurisdiction in Bexar County, Texas and each of the parties irrevocably submits to the exclusive jurisdiction of said court in any such proceeding, waives any objection it may now or hereafter have to venue or to convenience of forum, agrees that all claims in respect of the Proceeding shall be heard and determined only in any such court, and agrees not to bring any proceeding arising out of or relating to this procurement process or any contract resulting from or any contemplated transaction in any other court. The parties agree that either or both of them may file a copy of this paragraph with any court as written evidence of the knowing, voluntary, and freely bargained agreement between the parties irrevocably to waive any objections to venue or to convenience of forum. Process in any proceeding referred to in the first sentence of this Section may be served on any party anywhere in the world.

23. Alternative Dispute Resolution

Prior to the filing of litigation, the parties may select non-binding mediation as a method of conflict resolution for issues arising out of or relating to this procurement process or any contract resulting from or any contemplated transaction. The parties agree that if non-binding mediation is chosen as a resolution process, the parties must agree to the chosen mediator(s) and that all mediation venues shall be at a location in Bexar County, Texas, or agreed by the parties. The parties agree to share equally the cost of the mediation process and venue cost.

24. Acts or Omissions

The successful vendor will be expected to indemnify and hold harmless 791 PURCHASING COOPERATIVE, its officers, employees, agents, representatives, contractors, assignees and designees from and against any and all liability, actions, claims, demands or suits, and all related costs, attorney's fees and expenses arising out of, or resulting from any acts or omissions of the vendor or its agents, employees, subcontractors, or suppliers in the execution or performance of any agreements ultimately made by 791 PURCHASING COOPERATIVE and the vendor.

25. Contract Governance

Any contract made or entered into by 791 PURCHASING COOPERATIVE is subject to and is to be governed by Section 271.151 et seq, Tex Loc Gov't Code. Otherwise, **The Central Texas Council of Governments, as the Lead Agency for** 791 PURCHASING COOPERATIVE, does not waive its governmental immunities from suit or liability except to the extent expressly waived by other applicable laws in clear and unambiguous language.

26. Supplemental Agreements

The 791 PURCHASING COOPERATIVE Participant entity participating in the 791 PURCHASING COOPERATIVE Agreement and awarded vendor may enter into a separate supplemental agreement or contract to further define the level of service requirements over and above the minimum defined in this Agreement i.e. invoice requirements, ordering requirements, specialized delivery, etc. Any supplemental agreement or contract developed as a result of this Agreement is exclusively between the participating entity and awarded vendor. 791 PURCHASING COOPERATIVE, its agents, 791 PURCHASING COOPERATIVE Participants, and employees shall not be made party to any claim for breach of such agreement unless named and agreed by the Party in question in writing in the agreement. If a vendor submitting a Proposal requires 791 PURCHASING COOPERATIVE and/or 791 PURCHASING COOPERATIVE Participant to sign an additional agreement, those agreements shall comply with the award made by 791 PURCHASING COOPERATIVE to the Vendor. Supplemental Vendor's Agreement documents may not become part of 791 PURCHASING COOPERATIVE's Agreement with the vendor unless and until an authorized representative of 791 PURCHASING COOPERATIVE reviews and approves it. 791 PURCHASING COOPERATIVE permits 791 PURCHASING COOPERATIVE Participants to negotiate additional terms and conditions with the Vendor for the provision of goods or services under the Vendor's 791 PURCHASING COOPERATIVE Agreement.

27. Survival Clause

All applicable agreements, contracts, software license agreements, warranties or service agreements that were entered into between Vendor and 791 PURCHASING COOPERATIVE or the 791 PURCHASING COOPERATIVE Participant Customer under the terms and conditions of this Agreement shall survive the expiration or termination of this Agreement. All Orders, Purchase Orders issued or contracts executed by 791 PURCHASING COOPERATIVE or a 791 PURCHASING COOPERATIVE Participant and accepted by the Vendor prior to the expiration or termination of this agreement, shall survive expiration or termination of the Agreement, subject to previously agreed terms and conditions agreed by the parties or as otherwise specified herein relating to termination of this agreement.

28. Smoking

Persons working under Agreement shall adhere to the 791 PURCHASING COOPERATIVE Participant's or local smoking statutes, codes or policies.

29. Novation

If awarded vendor sells or transfers all assets or the entire portion of the assets used to perform this Agreement, a successor in interest must guarantee to perform all obligations under this Agreement. A simple change of name agreement will not change the Agreement obligations of awarded vendor.

30. Licenses

Awarded vendor shall maintain in current status all federal, state and local licenses, bonds and permits required for the operation of the business conducted by awarded vendor. Awarded vendor shall remain fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of goods or services under the Agreement. 791 PURCHASING COOPERATIVE and its Participants reserves the right to stop work and/or cancel Agreement of any awarded vendor whose license(s) expire, lapse, are suspended or terminated subject to a 30-day cure period unless prohibited by applicable statute or regulation.

31. 791 PURCHASING COOPERATIVE Participant Purchasing Procedures

Purchase orders or their equal are issued by participating 791 PURCHASING COOPERATIVE Participant to the awarded vendor and should indicate on the order that the purchase is per the applicable 791

PURCHASING COOPERATIVE Agreement number. Orders are typically emailed to 791 PURCHASING COOPERATIVE at admin@791COOP.org

a) Awarded vendor delivers goods/services directly to the participating 791 PURCHASING COOPERATIVE Participant.

b) Awarded vendor invoices the participating 791 PURCHASING COOPERATIVE Participant directly.

c) Awarded vendor receives payment directly from the participating 791 PURCHASING COOPERATIVE Participant.

d) Awarded vendor reports sales monthly to 791 PURCHASING COOPERATIVE (unless prior arrangements have been made with 791 PURCHASING COOPERATIVE for an alternative submission schedule).

32. Incorporation of Solicitation

The 791 Purchasing Cooperative Solicitation, whether a Request for Proposals, the Request for Competitive Sealed Proposals or Request for Qualifications solicitation, or other, the Vendor's response to same and all associated documents and forms made part of the solicitation process, including any addenda, that resulted in the execution of this agreement are hereby incorporated by reference into this agreement as if copied verbatim.

33. Registered Felony Convictions and sex offender restrictions

For work to be performed at schools, awarded vendor agrees that no employee of a sub-contractor who has been adjudicated to be a registered sex offender will perform work at any time when students are, or reasonably expected to be, present unless otherwise agreed by the 791Purchasing Cooperative Participant. Awarded vendor agrees that a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at the 791 Purchasing Cooperative Participant's discretion. Awarded vendor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.

34. Safety measures

Awarded vendor shall take all reasonable precautions for the safety of employees on the worksite, and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Awarded vendor shall post warning signs against all hazards created by the operation and work in progress. Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.

35. Insurance Requirements

a) **Contractor's Commercial General Liability Insurance**—Contractor shall purchase and maintain such insurance as will protect Contractor from claims for damages because of bodily injury, sickness, or disease, or death of any person including claims insured by standard personal injury liability, and from claims for injury to or destruction of tangible property, including loss of use resulting therefrom, any or all of which may arise out of or result from Contractor's operations under the Contract Documents, whether such operations be by Contractor or anyone directly or indirectly employed by Contractor or for whose acts they may be legally liable. This insurance shall include the types and specific coverages herein described and be written for not less than any limits of liability specified in these Documents or required by law, whichever is greater.

Insurance must include coverage for independent contractors, products/completed operations, contractual liability, broad form property damage, and personal injury.

b) **Contractor's Automobile Liability Insurance**—Contractor shall purchase and maintain such insurance as will protect Contractor from claims for damages because of bodily injury, sickness, disease or death of any person, including claims insured by standard personal injury coverage; and from claims for injury to or destruction of tangible property, including loss of use resulting therefrom, any or all of which may arise out of or result from the use of all owned, non-owned, or hired, automobile, vehicles, and other equipment both on and off work, arising from or in any way related to or as the result of Contractor's operations under the Agreement, whether such operations be by the Contractor or anyone directly or indirectly employed by Contractor or for whose acts any of them may be legally liable.

c) **Contractor's Workers' Compensation and Employer's Liability Coverage**—The Contractor shall comply with the provisions of the Workers' Compensation Act, the subsequent Injury Act, and Contractor shall procure and maintain during the life of this Contract Workers' Compensation and Employer's Liability Insurance in accordance with Texas laws and regulations. Such insurance shall include coverage permitted for safety devices. If the Contractor elects to be self-insured, the Contractor shall comply with the applicable requirements and laws of Texas. CTCOG, its officers, or employees will not be responsible for any claims or actions occasioned by the failure of the Contractor to comply with the provisions of this paragraph.

If any class of employee is not protected under the Workers' Compensation Statute, the Contractor shall provide adequate employer's liability coverage as will protect Contractor and 791 PURCHASING COOPERATIVE against any claims resulting from injuries to and death of workers engaged in work under this contract.

d) **Coverage limits**—Insurance coverage limits required to be carried by the Contractor under this Section shall be as follows:

1. Commercial General Liability Insurance and Commercial Automobile Liability Insurance limits of coverage shall be the limits established by Texas Claims Act or a Combined Single Limit coverage of $1,000,000.
2. Contractor's Workers' Compensation - coverage shall be those established by applicable statutes. Employer's liability coverages shall be the limits established by the State of Texas or $1,000,000.
3. Umbrella Liability Insurance: Liability on a following form basis with a limit $1,000,000 per occurrence in excess of all primary limits.

e) **All proposals shall include a valid Certificate of Liability Insurance showing CTCOG, 791 Purchasing Cooperative and individual 791 Purchasing Cooperative participants (if requested) as a certificate holder.**

f) To protect the 791 Purchasing Cooperative, 791 Purchasing Cooperative Participants and their employees against liability, loss, or expense in the event of damage to property, injury, or death to any person or persons arising in any way out of or in connection with or resulting from the work provided hereunder, Vendor shall procure and maintain, at its sole expense and until acceptance of the work, insurance as hereinafter enumerated in policies which shall be subject

to the 791 Purchasing Cooperative's approval as to form, amount and issuing company. Amounts listed are a minimum.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Arturo Rodriguez, Public Health Director
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to approve an amendment to the Services Agreement between the City of Brownsville and The University of Texas Health Science Center at Houston on behalf of the School of Public Health in Brownsville to renew the Tu Salud ¡Si Cuenta! Program. (Department of Health, Wellness & Animal Services)

Summary:
The amendment seeks to extend the contractual term, as specified in Section 2, from September 30, 2026, to September 30, 2027. In addition, pertaining to compensation, to revise the total authorized value from "not to exceed $30,000.00" to "not to exceed $60,000.00."

The proposed extension and adjustment in compensation are critical to ensuring the sustained delivery of high-impact community health initiatives under the Tu Salud Sí Cuenta program. Extending the operational timeline will allow for continued outreach, education, and preventative health services that directly support community well-being. The increased compensation reflects the expanded programmatic needs and resources required to maintain the quality and accessibility of services offered. These actions collectively reinforce our commitment to addressing community health priorities and enhancing service capacity for the benefit of residents.

Project Scope and Analysis:
Tu Salud ¡Si Cuenta! is an evidence-based, multi-component community-wide campaign that is jointly implemented by City of Brownsville and UTHealth. Broader components include environmental infrastructure change and policy, social support, risk factor screening, and education outreach that is essential to the overall success of this campaign to improve health.

Funding:

AMENDMENT NO. 1

TO

THE AGREEMENT BETWEEN

THE UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER AT HOUSTON

AND

CITY OF BROWNSVILLE

This Amendment entered into and effective on this 9th day of September, 2026, modifies the Agreement between The University of Texas Health Science Center at Houston and City of Brownsville as follows:

Definitions: All definitions set forth in the Agreement shall have the same meaning unless stated otherwise in this Amendment.

1. Section 2, Duration of Agreement, is amended to replace the termination date "9/30/2026" with "9/30/2027."
2. Section 3, Compensation, is amended to replace the sentence "The University will pay a total value not to exceed $30,000.00." with "The University will pay a total value not to exceed $60,000.00."

In witness whereof, the parties hereto have executed this Amendment under their respective hands as of the day and year first mentioned above in duplicate copies, each of which shall be deemed an original.

SERVICES AGREEMENT

This Services Agreement ("Agreement") is entered into on this 1st day of October 2024, by and between The University of Texas Health Science Center at Houston on behalf of its School of Public Health in Brownsville ("University"), an agency of the State of Texas and governed by the Board of Regents of The University of Texas System ("System"), and the City of Brownsville ("Contractor").

RECITALS

WHEREAS, University desires to engage the services of Contractor; and,

WHEREAS, Contractor is competent to provide such services and desires to work with University;

NOW, THEREFORE, University and Contractor agree that the following terms, conditions and limitations shall govern this Agreement:

1. **Scope of Work:** Contractor will perform the scope of the work to the satisfaction of University as described below:

   A. **Staff, Equipment, and Training**
      i. Contractor will employ a lay outreach promoter (CHW) to carry out the Tu Salud ¡Si Cuenta! (TSSC) program activities in their municipality, which include the promotion of SNAP - Ed (Supplemental Nutrition Education Program- Education). Contractor will oversee the CHW duties. If the CHW leaves this position, a new CHW must be hired within 60 days. The contractor will ensure that the new CHW, if not already a certified community health worker by the Texas Department of State Health Services, receives the 160-hour course and becomes certified. This should be completed within 4 months of being hired. During that time, the CHW-in-training may conduct CHW duties, but only under the direct supervision of a TSSC certified CHW to protect the contractor and participant.
      ii. Contractor is responsible for purchasing and maintaining the following equipment required by the program: a laptop computer, projector, a scale, stadiometer, and access to phone for contacting participants. Specifications for these equipment items will be provided by University.
      iii. Contractor will ensure that the CHW has a workspace, including venues to host exercise classes, diabetes prevention program (DPP) classes, and The Happy Kitchen/La Cocina Alegre™ (LCA) classes, in order to implement TSSC program services. All programs must be offered in safe locations and at times convenient to participants. Contractor is expected to comply with University policies and regulations for COVID-19 safety procedures.

   B. **Participation in Program Meetings**
      i. Contractor municipal leadership representatives will participate in a minimum of 2 semiannual meetings or seminars organized by University between October 1, 2024 and September 30, 2025.
      ii. Contractor will ensure CHW participates in monthly meetings and seminars organized by

university. A maximum of 2 excused absences will be allowed during the agreement period. If two excused absences have been used and CHW cannot attend a monthly meeting, a representative must attend in place of the CHW.

iii. Contractor and University will meet as needed to discuss progress in meeting the services listed in this agreement.

C. **Community Coalition**

i. Contractor will ensure participation in an established local community coalition; if one does not exist, the Contractor will create a local community coalition. The purpose of this coalition is to help give contractor insight into additional strategies for creating a healthy community by involving community members and organizations to provide feedback and concerns. Contractor and community actions or improvements related to items discussed during the meetings should be documented.

- Contractor municipal leadership representative must attend or host a minimum of 2 coalition meetings by September 30, 2025. Contractor municipal leadership representative will be expected to contribute towards resolving issues identified in the coalition meetings. CHW can provide support with all coalition efforts.
- Contractor must submit agendas, sign-in sheets, and minutes to document contractor's attendance and participation in coalition meetings. Documentation must be submitted to University within 15 business days after the coalition meeting was held.

D. **Program Implementation**

Contractor will implement all TSSC components during the contract period, which are comprised of: risk factor screening, media, social support, education, and environmental infrastructure change and policies supporting health outcomes. The following program services pertaining to the TSSC components should be implemented during the agreement period:

i. ***Risk Factor Screening and Follow-up*** (TSSC CHW Case Management)

Contractor will ensure participant enrollment and follow-up in TSSC CHW Case Management between October 1, 2024 and September 30, 2025 for a minimum of **55 unique individuals** as outlined below. Contractor will offer TSSC interventions to enrolled participants and document participant changes as prescribed by University.

- Of the 55, at least **25 unique individuals with risk factors for chronic disease** reached must successfully complete at least 6 of 7 possible individualized visits per person (first encounter plus completion of 5 educational modules through follow-up visits).
  - Interventions these participants receive include information on clinical risk factors, educational modules, text messages, newsletters (electronic/paper), and exercise and nutrition education.
  - These 25 individuals may include follow up visits for participants first encountered in March 2024 and after.
  - A participant who receives a first encounter plus 6 educational modules through follow-up visits (total of 7 visits) is considered a graduate of TSSC CHW Care (i.e. discharged from CHW care).

- The University set up a referral process to support individuals who are at risk of or are living with chronic disease in the respective municipality to more quickly access lifestyle change support from the trained CHW. Contractor will work with the University to accept these referrals and deploy their CHW to support health improvements.

- Of the 55 total individuals, an additional minimum of **30 unique individuals** must successfully complete three encounters with a CHW according to the following minimum requirements:
  - Minimum of 2 CHW visits (completed first encounter visit with TSSC Enrollment Form and at least one follow-up visit with Follow-Up Form and an educational module)
  - PLUS health communication intervention (documented receipt of interventions such as text message, newsletter, and/or online resources such as social media and website in data management system.)
  - PLUS group-based community intervention (confirmed participation in group-based community programming intervention such as LCA, DPP, The Challenge-RGV, and/or exercise classes)
    - AND/OR 3rd CHW visit (completed second follow-up visit with Follow-Up Form and educational module)

- Outcomes
  - Contractor will work closely with University representatives to reach the overall program goal of 45% of TSSC participants meeting **physical activity recommendations**.
  - Contractor will also work closely with University representatives to reach the overall program goal of 35% of TSSC participants meeting **fruit and vegetable consumption recommendations**.

ii. ***Media***
Contractor and CHW will identify TSSC participants for University to highlight as role models in media efforts (newsletter, weekly television segment, social media, TSSC website, etc.).

iii. ***Social Support / Education*** (Group-Based Community Intervention)

- Exercise Classes
  - Contractor will secure a minimum of 3 venues for group exercise offerings starting October 1, 2024 and maintain group exercise offerings at 3 venues until September 30, 2025.
  - Contractor will ensure that at least 12 free exercise classes per week are implemented by October 1, 2024. Contractor will maintain the availability of 12 classes per week until September 30, 2025. The free exercise classes must be taught by or coordinated by the CHW.
    - All exercise classes should provide nutritional information according to directions outlined by University and in accordance with SNAP-Ed funding.
    - The class types and locations will be coordinated with University to ensure that maximum geographical coverage is achieved across all cities partnering on this project and maximum opportunity for promotion of the classes.

- Contractor will ensure CHW submits an accurate exercise class schedule to University on a monthly basis (by the 15th day of the month preceding) to be posted on various University-run platforms. Any changes to the exercise and nutrition class schedule, including additions and cancellations, must be approved by University. Notice of known cancellations must be sent to University with adequate time to alert the public. Additions to the schedule must be sent to University by the 15th of each month in anticipation of the coming month.
- Contractor is expected to abide by University recommendations for adjusting method of class delivery in response to changing population health needs. This includes moving to virtual platforms or returning to in-person indoor or outdoor venues.

- The Challenge-RGV 2025
  - Contractor will actively promote and participate in The Challenge-RGV 2025 activities including the initial weigh-in events (January), midpoint weigh-in events (March), and weigh-out events (April). Participation includes ensuring that the CHW hosts a weigh-in within their community; attends at least one event hosted by the University during kick-off, mid-point, and finale; recruits wellness partners within their communities; and provides measurement tools and data entry supplies for University to utilize at these events. If The Challenge-RGV 2025 is moved to a virtual event only, participation will be expected virtually.

- The Happy Kitchen/La Cocina Alegre™
  - Contractor will implement one The Happy Kitchen/La Cocina Alegre™ session (6 classes) in collaboration with University and Brownsville Wellness Coalition. CHW will be responsible for assisting with recruitment, preparation, and facilitation of classes.

- Diabetes Prevention Program (DPP)
  - Contractor will participate in planning for region-wide options for implementation of Diabetes Prevention Program (DPP) Classes using an approved CDC curriculum, typically the Group Lifestyle Balance™ (GLB) curriculum.
    - Contractor will ensure CHW is certified in the approved DPP curriculum, to be determined by University.
    - Contractor should initiate or assist with one DPP offering with a certified DPP coach by September 30, 2025.
    - The certified DPP coach must shadow at least 3 DPP class sessions before launching their own or assisting with a DPP program.
    - Metrics must adhere to external DPP grant, as stipulated by the evaluation staff.
    - Contractor will track specific metrics such as physical activity, fruit and vegetable consumption, weight, and waist circumference using standardized forms and procedures delineated by University.
    - The contractor must agree to and the CHW must participate in observations of the delivery of course content for monitoring purposes.

- Data gathered through the program must be de-identified and shared with University for monitoring and reporting purposes at least quarterly.
- Contractor will invoice a specified amount, to be determined, upon initiation of DPP class by CHW to a pre-assigned PO number specific to DPP class dictated by University. The specified amount will be deducted from the total value of this agreement. If DPP class is not initiated, or contractor does not assist with class indicated by DDP team, the total value of the contract will be less the specified amount of DPP classes.
- Contractor will be held responsible for the completion of a minimum of 22 class sessions in 12-month curriculum, regardless of change in personnel.

iv. ***Environmental Infrastructure Change & Policy***

- Contractor will work with University and other community organizations to consider environmental infrastructure changes (such as Caracara Trails, sidewalk, on-road bike designations, community gardens, etc.) and policies to promote health (such as tobacco free ordinances, increased fruit and vegetable intake in schools, etc.) to promote health to the residents of their community.

E. **Tracking Participant Data, Reporting and Invoicing**

i. Contractor will work with University to ensure the CHW is trained to use the My Own Med (also known as RespondHealth) database system.

ii. Contractor will ensure that the CHW enters all required data into the My Own Med data system on a weekly basis, including:

- Information about participants enrolled in the TSSC program.
- Information about participant's insurance status and financial income.
- Information on the participants who received the follow-up visit (including, but not limited to, physical activity levels, level of consumption of fruits and vegetables, other referrals, and personal goals).

iii. Contractor will ensure the My Own Med data system containing their municipality's participant data is accurate. Any information that is found to be inaccurate will not count toward the aforementioned TSSC CHW Case Management goals.

- Information collected as part of this project should be maintained in accordance with The HIPAA Privacy Rule. This rule mandates that federal protections are in place for personal health information held by covered entities and gives patients an array of rights with respect to that information. As such, any personal health information collected as part of the TSSC program should not be stored on personal computers or devices and should not be shared via email or cloud services. Any paper files containing personal health information need to be stored in a locked cabinet or drawer.
- Other information may be required in order to track implementation and improvement of the project. The contractor will receive written notice of any new and additional information required for data entry.

iv. Contractor will ensure CHW submits all exercise class attendance sheets every Monday before 3pm to the assigned University staff member. Attendance sheets must be clear and organized according to University standards.

v. Contractor will ensure CHW submits all changes to the exercise class schedule by the 15th day of every month to the assigned University staff member.
vi. Contractor (Site Supervisor) will submit the Project Status Form to University monthly to document progress towards metrics.
vii. Contractor will participate in UTHealth's evaluation of municipal activities related to the TSSC program. Evaluation activities include but are not limited to: module delivery by individual, implementation audits and key informant interviews, evaluation of exercise classes, monitoring and observation of classes and screening, follow-up visit outcomes, and other evaluation surveys required by funders.
viii. Contractor will submit documentation of all other TSSC-related items including partnerships with local businesses and organizations, press coverage, etc.

Any expenses not listed in the Scope of Work above, but relating to the TSSC program, must be submitted in writing to the TSSC Program Manager for prior approval.

Time is of the essence in connection with this Agreement. University will have no obligation to accept late performance or waive timely performance by Contractor.

2. Duration of Agreement: This Agreement shall be effective 10/1/2024 and shall terminate on 09/30/2026 ("Initial Term"). University will have the option to renew this agreement for three (3) additional one (1) year terms (each a "Renewal term".)

3. Compensation: University shall compensate Contractor as tasks are completed to the satisfaction of University's authorized representative Dr. Belinda Reininger.

All invoices are paid 'Net 30 Days' from receipt of invoice.

Reimbursement will occur based on the following tiered structures. 50% of the total payment is based on TSSC CHW Case Management, and 50% of the total payment is based on classes delivered.

Table 1. TSSC CHW Case Management

TSSC CHW Case Management Goal*	Reimbursement
25 unique individuals with a minimum of 6 visits	$15,000.00
30 unique individuals with a minimum of 3 encounters	$15,000.00

*Refer to Program Implementation requirements (Section 1.D.i.)

Table 2. Exercise Classes

Tiers	Goal Achievement*	Weekly Classes (avg/month)	Reimbursement
100%	83.3-100% +	10-12	$30,000.00

75%	75%	9	$22,500.00
50%	50%	6	$15,000.00
25%	25%	3	$7,500.00
0%	0%	0	$0.00

*Refer to Program Implementation requirements (Section 1.D.iii.)

Goal is to maintain a minimum of 12 weekly exercise classes in a minimum of 3 venues.

Contractor must demonstrate fulfillment of these services to receive payment. If contractor does not invoice for a minimum of $30,000 by April 15, 2025, University may choose to terminate this Agreement.

The total value of this Agreement shall not exceed $120,000.00.

4. Independent Contractor: It is understood and expressly agreed upon by the parties that Contractor is acting as an independent contractor in performing the services hereunder. Neither Contractor nor its employees shall hold themselves out as employees or agents of University. Neither Contractor nor its employees shall make any statements, representations, or commitments of any kind, or to take any action which shall be binding upon the University, except as may be expressly provided for herein or authorized in writing. University shall not pay any contributions to Social Security, unemployment insurance, federal or state withholding taxes, nor provide any other contributions or benefits that might be expected in an employer-employee relationship.

5. Assignment: This Agreement is entered into in reliance upon and in consideration of the singular skill and qualifications of Contractor. Contractor shall therefore not voluntarily or by operation of law assign or otherwise transfer its rights or obligations pursuant to the terms of this Agreement to any party without the prior written consent of University. Any attempted assignment or transfer by Contractor of its rights or obligations without such consent shall be void. Furthermore, Contractor shall not subcontract any of the services to be provided hereunder to another entity without the prior written consent of University.

6. Amendment: This Agreement may not be changed or modified in any respect except by means of a written document executed by both parties.

7. Ownership and Use of Work Material.

7.1 All drawings, specifications, plans, computations, sketches, data, photographs, tapes, renderings, models, publications, statements, accounts, reports, studies, and other materials prepared by Contractor or any subcontractors in connection with the Work (collectively, "**Work Material**"), whether or not accepted or rejected by University, are the sole property of University and for its exclusive use and re-use at any time without further compensation and without any restrictions.

7.2 Contractor grants and assigns to University all rights and claims of whatever nature and whether now or hereafter arising in and to the Work Material and will cooperate fully with University in any steps University may take to obtain or enforce patent, copyright, trademark or like protections with respect to the Work Material.

7.3 Contractor will deliver all Work Material to University upon expiration or termination of this Agreement. University will have the right to use the Work Material for the completion of the Work or otherwise. University may, at all times, retain the originals of the Work Material. The Work Material will not to be used by any person other than University on other projects unless expressly authorized by University in writing.

7.4 The Work Material will not be used or published by Contractor or any other party unless expressly authorized by University in writing. Contractor will treat all Work Material as confidential.

7.5 All title and interest in the Work Material will vest in University and will be deemed to be a work made for hire and made in the course of the Work rendered under this Agreement. To the extent that title to any Work Material may not, by operation of law, vest in University or Work Material may not be considered works made for hire, Contractor hereby irrevocably assigns, conveys and transfers to University and its successors, licensees and assigns, all rights, title and interest worldwide in and to the Work Material and all proprietary rights therein, including all copyrights, trademarks, service marks, patents, trade secrets, moral rights, all contract and licensing rights and all claims and causes of action with respect to any of the foregoing, whether now known or hereafter to become known. In the event Contractor has any rights in the Work Material which cannot be assigned, Contractor agrees to waive enforcement worldwide of the rights against University, its successors, licensees, assigns, distributors and customers or, if necessary, to exclusively license the rights, worldwide to University with the right to sublicense. These rights are assignable by University.

8. Provisions of Law: This Agreement is subject to and shall be governed by the laws of the State of Texas, without regard to its choice of law provisions. Venue for any dispute arising out of this Agreement shall lie exclusively in Harris County, Texas. Any earnings derived from services rendered by Contractor are subject to income taxes; such earnings shall be reported to the government at the end of each calendar year by the University's accounting department. It is understood that Contractor is responsible for paying all applicable federal or state taxes on the compensation paid to Contractor by University.

9. Notices: Notices, correspondence, billings, payments, and all other communications shall be addressed as follows:

To University:	To Contractor:
The University of Texas	City of Brownsville

Health Science Center at Houston
P.O. Box 20036
Houston, Texas 77225

Finance Department
1001 E. Elizabeth St.
Brownsville, Texas 78520

10. Indemnification: Not Applicable.

11. Responsibility for Individuals Performing Work; Criminal Background Checks: Each individual who is assigned to perform the Work under this Agreement will be an employee of Contractor or an employee of a subcontractor engaged by Contractor. Contractor is responsible for the performance of all individuals performing the Work under this Agreement. Prior to commencing the Work, Contractor will have an appropriate criminal background screening performed on all the individuals. Contractor will determine on a case-by-case basis whether each individual assigned to perform the Work is qualified to provide the services. Contractor will not knowingly assign any individual to provide services on University's campus who has a history of criminal conduct unacceptable for a university campus or healthcare center, including violent or sexual offenses.

By signing this Agreement, Contractor certifies compliance with this Section. Contractor shall notify University when there is a change in the individuals assigned to perform the work due to unsatisfactory background check results.

12. Compliance: Contractor certifies:

- that it and its employees comply with all federal and state laws and regulations, including without limitation, Medicare and Medicaid regulations and the Immigration Reform and Control Act of 1986; and
- That neither it nor its employee have been or are presently excluded from participating in, or have been sanctioned by, any federal or state healthcare program; and
- That it has conducted criminal background checks for prior convictions on its employees performing services hereunder.

Contractor agrees to immediately report to University if it becomes aware of the following: (1) A violation of any federal or state healthcare law, regulation or policy by Contractor, its employees or agents; (2) an inquiry or investigation by the government of Contractor, its employees or agents; or (3) if Contractor or its employees or agents are excluded from, or otherwise sanctioned by, any federal or state healthcare plan.

13. Nondiscrimination: In the conduct of activities under this agreement, each party shall not unlawfully discriminate against any person on a basis prohibited by applicable law, including but not limited to race, color, national origin, religion, sex, age, veteran status, or disability.

14. Dispute Resolution: To the extent that Chapter 2260 of the *Texas Government Code*, as it may be amended from time to time ("Chapter 2260"), is applicable to this Agreement and is not preempted by other applicable law, the dispute resolution process provided for in Chapter 2260

shall be used, as further described herein, by University and Contractor to attempt to resolve any claim for breach of contract made by Contractor:

(A) Contractor's claims for breach of this Agreement that the parties cannot resolve pursuant to other provisions of this Agreement or in the ordinary course of business shall be submitted to the negotiation process provided in subchapter B of Chapter 2260. To initiate the process, Contractor shall submit written notice, as required by subchapter B of Chapter 2260, to University in accordance with the notice provisions in this Agreement. Contractor's notice shall specifically state that the provisions of subchapter B of Chapter 2260 are being invoked, the date and nature of the event giving rise to the claim, the specific Agreement provision that University allegedly breached, the amount of damages Contractor seeks, and the method used to calculate the damages. Compliance by Contractor with subchapter B of Chapter 2260 is a required prerequisite to Contractor's filing of a contested case proceeding under subchapter C of Chapter 2260. The Executive Vice President for Administration and Business Affairs of University, or such other officer of University as may be designated from time to time by University by written notice thereof to Contractor in accordance with the notice provisions in this Agreement, shall examine Contractor's claim and any counterclaim and negotiate with Contractor in an effort to resolve such claims.

(B) If the parties are unable to resolve their disputes under subparagraph (A) of this section, the contested case process provided in subchapter C of Chapter 2260 is Contractor's sole and exclusive process for seeking a remedy for any and all of Contractor's claims for breach of this Agreement by University.

(C) Compliance with the contested case process provided in subchapter C of Chapter 2260 is required prerequisite to seeking consent to sue from the Legislature under Chapter 107 of the Texas Civil Practices and Remedies Code. The parties hereto specifically agree that (i) neither the execution of this Agreement by University nor any other conduct, action or inaction of any representative of University relating to this Agreement constitutes or is intended to constitute a waiver of University's or the state's sovereign immunity to suit and (ii) University has not waived its right to seek redress in the courts.

(1) The submission, processing and resolution of Contractor's claim is governed by the published rules adopted by the Texas Attorney General pursuant to Chapter 2260, as currently effective, hereafter enacted or subsequently amended.

(2) Neither the occurrence of an event giving rise to a breach of contract claim nor the pendency of a claim constitute grounds for the suspension of performance by Contractor, in whole or in part. University and Contractor agree that any periods set forth in this Agreement for notice and cure of defaults are not waived, delayed, or suspended by Chapter 2260 or this section.

15. Termination: University may, without cause, terminate this Agreement at any time upon giving seven (7) days' advance written notice to Contractor. Upon termination pursuant to this Section,

Contractor will be entitled to payment of an amount that will compensate Contractor for the Work satisfactorily performed from the time of the last payment date to the termination date in accordance with this Agreement; provided, that, Contractor has delivered all Work Material to University. Notwithstanding any provision in this Agreement to the contrary, University will not be required to pay or reimburse Contractor for any services performed or for expenses incurred by Contractor after the date of the termination notice that could have been avoided or mitigated by Contractor.

16. Loss of Funding: University performance of its duties and obligations under this Agreement may be dependent upon the appropriation and allotment of funds by the Texas State Legislature (the "Legislature") and/or allocation of funds by the Board of Regents of The University of Texas System (the "Board") and/or other non-state Granting Authority ("Authority"). If the Legislature fails to appropriate or allot the necessary funds, or the Board or the Authority fails to allocate the necessary funds, then University will issue written notice to Contractor and University may terminate this Agreement without further duty or obligation hereunder. Contractor acknowledges that appropriation, allotment, and allocation of funds are beyond the control of University.

17. Force Majeure: Neither party hereto will be liable or responsible to the other for any loss or damage or for any delays or failure to perform due to causes beyond its reasonable control including, but not limited to, acts of God, strikes, epidemics, war, riots, flood, fire, sabotage, or any other circumstances of like character ("Force Majeure Occurrence"). Provided, however, in the event of a Force Majeure Occurrence, Contractor agrees to use its best efforts to mitigate the impact of the occurrence so that University may continue to provide services during the occurrence.

18. Confidentiality: All information owned, possessed or used by University that is communicated to, learned, developed or otherwise acquired by Contractor in the performance of services for University, that is not generally known to the public, will be confidential and Contractor will not, beginning on the date of first association or communication between University and Contractor and continuing through the term of this Agreement and any time thereafter, disclose, communicate or divulge, or permit disclosure, communication or divulgence, to another or use for Contractor's own benefit or the benefit of another, any confidential information, unless required by law. Contractor will not make any press releases, public statements, or advertisement regarding this Agreement or to the services to be provided hereunder without the prior written approval of University. To the extent Contractor is permitted to subcontract services it shall ensure that the subcontractor complies with the provisions of this Agreement. Contractor shall employ encryption to mitigate the risk of disclosure of University information in-storage and in-transit. Encryption implementation and strength should be sufficient to protect University information from disclosure until such time as disclosure poses no material risk.

19. Limitation of Liability: Except for University's obligation (if any) to pay Contractor certain fees and expenses University will have no liability to Contractor or to anyone claiming through or

under Contractor by reason of the execution or performance of this Agreement. Notwithstanding any duty or obligation of University to Contractor or to anyone claiming through or under Contractor, no present or future affiliated enterprise, subcontractor, agent, officer, director, employee, representative, attorney or regent of University, or System, or anyone claiming under University has or will have any personal liability to Contractor or to anyone claiming through or under Contractor by reason of the execution or performance of this Agreement.

20. Representations and Warranties by Contractor: If Contractor is a corporation or a limited liability company, Contractor warrants, represents, covenants, and agrees that it is duly organized, validly existing and in good standing under the laws of the state of its incorporation or organization and is duly authorized and in good standing to conduct business in the State of Texas, that it has all necessary power and has received all necessary approvals to execute and deliver this Agreement, and the individual executing this Agreement on behalf of Contractor has been duly authorized to act for and bind Contractor.

21. Franchise Tax Certification: If Contractor is a corporate or limited liability company Contractor certifies that it is not currently delinquent in the payment of any Franchise Taxes due under Chapter 171 of the Texas Tax Code, or that it is exempt from the payment of such taxes, or that it is an out-of-state corporation or limited liability company that is not subject to the Texas Franchise Tax, whichever is applicable.

22. Eligibility Certification: Pursuant to Section 2155.004, Texas Government Code, Contractor certifies that the individual or business entity named in this Agreement is not ineligible to receive the award of or payments under this Agreement and acknowledges that this Agreement may be terminated and payment withheld if this certification is inaccurate.

23. Payment of Debt or Delinquency to the State: Pursuant to Sections 2107.008 and 2252.903, Texas Government Code, Contractor agrees that any payments owing to Contractor under this Agreement may be applied directly toward any debt or delinquency that Contractor owes the State of Texas or any agency of the State of Texas regardless of when it arises, until such debt or delinquency is paid in full.

24. Texas Family Code Child Support Certification: Pursuant to Section 231.006, Texas Family Code, Contractor certifies that it is not ineligible to receive the award of or payments under this Agreement and acknowledges that this Agreement may be terminated and payment may be withheld if this certification is inaccurate.

25. **Access by Individuals with Disabilities.** Contractor represents and warrants (the "EIR Accessibility Warranty") that the electronic and information resources and all associated information, documentation, and support that it provides to University under the Agreement (collectively, the "EIRs") comply with the applicable requirements set forth in Title 1, Chapter 213 of the *Texas Administrative Code* and Title 1, Chapter 206, Rule §206.70 of the *Texas Administrative Code* (as authorized by Chapter 2054, Subchapter M of the *Texas Government*

Code.) To the extent Contractor becomes aware that the EIRs, or any portion thereof, do not comply with the EIR Accessibility Warranty, then Contractor represents and warrants that it will, at no cost to University, either (1) perform all necessary remediation to make the EIRs satisfy the EIR Accessibility Warranty or (2) replace the EIRs with new EIRs that satisfy the EIR Accessibility Warranty. In the event that Contractor fails or is unable to do so, then University may terminate the Agreement and Contractor will refund to University all amounts University has paid under the Agreement within thirty (30) days after the termination date.

26. Work Laws: Contractor shall comply with all labor and employment laws and regulations applicable to Contractor and its employees who will be performing services under this Agreement, including all laws and regulations pertaining to immigration, work status and eligibility (collectively, "Work Laws"). Contractor certifies that Contractor and Contractor's employees who will be performing services under this Agreement are, as of the effective date hereof, lawfully eligible to do so under applicable Work Laws.

27. Export Controls: Contractor shall comply with all applicable laws and regulations pertaining to export controls and the export of controlled technology or data in connection with its activities pursuant to this Agreement, including the Export Control Administration Regulations ("EAR") and the International Traffic in Arms Regulations ("ITAR"). For purposes of this Agreement, "controlled technology or data" means items, commodities, technology, software or information requiring federal agency approval under U.S. government laws and regulations before being exported to restricted foreign countries, persons and/or entities. The EAR and ITAR require U.S. Government approval before University releases controlled technology or data to foreign persons in the United States. In accordance with the foregoing, the following shall apply:

(A) Contractor shall promptly notify University in the event that Contractor or any of Contractor's employees who will be performing services under this Agreement or have access to University technology or data is a foreign national or is otherwise restricted under U.S. export controls laws from receiving controlled technology or data.

(B) If a license is required from any U.S. government agency to release any technology or data to the Contractor or any Contractor employee in connection with the Agreement, University may, at its discretion: (1) restrict Contractor's access to such technology and/or data until a license or other authorization is obtained, (2) narrow the scope of the services to be provided by Contractor under this Agreement, or (3) terminate this Agreement upon notice to Contractor.

(C) In the event that University exercises option (1) or (2) above, the term of the Agreement and scope of work may be adjusted as necessary.

(D) In the event that University exercises option (1) above, Contractor shall, promptly upon receipt of an invoice from University therefor, reimburse University's costs for obtaining a license or other authorization.

(E) In no event shall University be liable to Contractor or any of Contractor's employees for exercising any of its rights set forth in this section 23, except for any lawfully permissible payment for services rendered by Contractor in accordance with the terms of this Agreement.

28. Health Insurance Portability and Accountability Act: Notwithstanding anything to the contrary in this Agreement, if applicable to the Scope of Work to be provided by Contractor hereunder, Contractor agrees to treat all individually identifiable health information in accordance with all applicable laws governing the confidentiality and privacy of individually identifiable health information, including without limitation, the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and any regulation and official guidelines promulgated thereunder.

29. Integration: This Agreement supersedes any and all other discussions, negotiations, and representations of any kind and represents the entire agreement of the parties hereinabove mentioned.

THIS AGREEMENT WILL BE IN EFFECT UPON FULL EXECUTION BY BOTH PARTIES. UNIVERSITY WILL NOT BE RESPONSIBLE FOR ANY PAYMENTS FOR SERVICES PERFORMED OR PRODUCTS DELIVERED BY CONTRACTOR PRIOR TO THE EFFECTIVE DATE OF THIS AGREEMENT.

In Witness Whereof, the parties have caused this Agreement to be executed as of the date first set forth above.

Executive Session *(City Attorney Only)*	Select	**Agenda**	**Ordinance**
Time Needed: Action Item:	Time Needed:	☐ Public Hearing ☐ Contract ☐ Grant ☐ Action ☐ Consent	☐ First Reading ☐ Second Reading

Information: Please include additional information/request.

The Department of Health, Wellness and Animal Services is requesting to approve an amendment to the Services Agreement previously executed on October 27, 2025, with The University of Texas Health Science Center at Houston-Tu Salud Si Cuenta Service Agreement Amendment.

The amendment seeks to extend the contractual term, as specified in Section 2, from September 30, 2026, to September 30, 2027. In addition, pertaining to compensation, to revise the total authorized value from "not to exceed $30,000.00" to "not to exceed $60,000.00."

Local Match Grant. Source of Funds: The department is requesting a mid-year budget amendment for FY 27 in the amount of $30,000.00.

The proposed extension and adjustment in compensation are critical to ensuring the sustained delivery of high-impact community health initiatives under the Tu Salud Sí Cuenta program. Extending the operational timeline will allow for continued outreach, education, and preventative health services that directly support community well-being. The increased compensation reflects the expanded programmatic needs and resources required to maintain the quality and accessibility of services offered. These actions collectively reinforce our commitment to addressing community health priorities and enhancing service capacity for the benefit of residents.
Should you have any questions, please do not hesitate to contact our office at (956) 542-3437. Thank you.

Agenda #:	Consideration and **ACTION** to approve the Second Amendment to the American Rescue Plan Act (ARPA) Interlocal Agreement between the City of Brownsville (City) and the Brownsville Public Utilites Board (BPUB) to the existing agreement for the Downtown Water and Wastewater Project, ARPA-2021-1112. (Engineering and Public Works Department)

Summary:
The Second Amendment to the ARPA Interlocal Agreement between the City of Brownsville and the Brownsville Public Utilities Board (BPUB) modifies the existing agreement for the Downtown Water and Wastewater Project (ARPA-2021-1112).
The original agreement, approved by the City Commission on July 8, 2022, provides for the use of City American Rescue Plan Act (ARPA) funds to rehabilitate and upgrade water and wastewater infrastructure within a portion of downtown Brownsville.
BPUB has requested an extension of the project's program compliance and period of performance to allow sufficient time to complete the project. The City and BPUB have agreed to amend the agreement as follows:

- Extension of Project Period of Performance**:** The current expiration date of December 31, 2025, is extended to December 15, 2026.
- Other Agreement Terms: All other terms, conditions, and obligations of the existing agreement remain unchanged and in full force and effect.
- Conflict Provision: If there is a conflict between the Second Amendment and the original agreement, the terms of the Second Amendment will control.

In summary: The Second Amendment primarily provides additional time for BPUB to complete the Downtown Water and Wastewater Project and satisfy applicable ARPA program requirements. No other changes to the agreement are identified.

Project Scope and Analysis:
The Downtown Water and Wastewater Project consists of the rehabilitation and upgrade of water and wastewater infrastructure within a designated portion of Downtown Brownsville. The

project is intended to improve the reliability, capacity, and condition of existing utility infrastructure and support continued development and service needs within the downtown area. The project is funded through 2021 American Rescue Plan Act (ARPA) funds and other funding sources.

The Second Amendment does not modify the project scope; it provides additional time, through December 15, 2026, for BPUB to complete the project and meet applicable program requirements.

SECOND AMENDMENT TO THE

ARPA INTERLOCAL AGREEMENT BETWEEN THE CITY OF BROWNSVILLE and BROWNSVILLE PUBLIC UTILITIES BOARD

for the DOWNTOWN WATER and WASTEWATER PROJECT with 2021 AMERICAN RECOVERY PROGRAM ACT (ARPA) AND OTHER FUNDING SOURCES ARPA-2021-1112

This second amendment ("Second Amendment") is entered into as of _____, 2026 by and between THE CITY OF BROWNSVILLE, hereinafter referred to as the "CITY" and the BROWNSVILLE PUBLIC UTILITY BOARD, hereinafter referred to as the "Subrecipient." Effective the ____of _____2026.

WHEREAS, the City and Subrecipient executed an agreement ("Agreement"), which was approved by City Commission on 7/8/2022 for the purpose of utilizing the City's American Rescue Plan Act (ARPA) Funds for the rehabilitation and upgrade of water and wastewater infrastructure within a section of the **CITY's** downtown;

WHEREAS, the Subrecipient has timely requested an extension of the program compliance and period of performance in order to complete the project contemplated under the Agreement; and

WHEREAS, the parties desire to execute this Second Amendment to express their mutual desire to reaffirm all terms, conditions, and covenants stated in the original Agreement and to extend the program compliance and period of performance end date of the Agreement.

NOW THEREFORE, in exchange for good and valuable consideration, the parties hereto agree as follows:

1. The parties' Agreement be and hereby is amended, to extend the period of performance of December 31,2025, to December 15, 2026.

2. All other terms and conditions of the Agreement shall remain in full force and effect.

3. Any conflict between the terms of this Second Amendment and the Agreement shall be governed by this Second Amendment.

(signatures on next page) I

IN WITNESS, WHEREOF, the City and the Other Party have executed this agreement as of the date first above written.

City Attorney

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Carlos Lastra, City Engineer
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to reject all bids received for Solicitation No. 145-26-EPW-IFB for the 12th Street Traffic Signal Improvements Project. (Engineering and Public Works Department).

Summary:
The Engineering and Public Works Department recommends consideration and action to reject all bids received under Contract No. 145-26-EPW-IFB for the 12th Street Traffic Signal Improvements Project, CSJ 0921-06-398, and authorize staff to proceed with the re-advertisement of the project for competitive bidding.

Project Scope and Analysis:
The 12th Street Traffic Signal Improvements Project consists of the comprehensive modernization and replacement of aging and obsolete traffic signal infrastructure at eleven (11) signalized intersections along 12th Street, with associated improvements extending to E. Saint Charles Street and E. Ringgold Street, as applicable.

The existing traffic signal infrastructure was last substantially upgraded in 1994 and has exceeded its anticipated service life. The project will modernize traffic signal equipment and supporting infrastructure to improve traffic operations, safety, accessibility, system reliability, and long-term maintainability.

Improvements are proposed at the following intersections along 12th Street:

1. E. Ringgold St.

2. E. Harrison St.

3. E. Jackson St.

4. E. Monroe St.

5. E. Madison St.

6. E. Jefferson St.

7. E. Adams St.

8. E. Washington St.

9. E. Elizabeth St.

10. E. Levee St.

11. E. Saint Charles St.

All construction activities will comply with applicable Texas Department of Transportation (TxDOT) Standard Specifications for Construction and Maintenance of Highways, Streets, and Bridges, approved project plans and specifications, and applicable federal, state, and City requirements.

(Analysis)

A total of three (3) bids were received. Traf-Tex Inc., the apparent low bidder, was determined to be non-responsive because required items within the official bid documents were left blank. The Levy Company, LLC was subsequently identified as the lowest responsive bidder with a bid of $6,310,599.00, approximately 46% above the Engineer's Estimate of $4,311,413.81. Austin Traffic Signal Construction Co., LLC submitted a bid of $6,342,909.90, approximately 47% above the Engineer's Estimate.

Based on the bid analysis and recommendation provided by the City's engineering consultant, Halff Associates, Inc., the City determined that awarding the contract under the current solicitation would not be in the City's best interest. Staff therefore recommends rejection of all bids received and re-advertisement of the project for competitive bidding. Halff specifically recommends against awarding the $6,310,599.00 contract and recommends rebidding the project.

Re: Request for Concurrence to Reject
Project Name: 12th Street Traffic Signal Improvements
Solicitation No.: 145-26-EPW-IFB

Dear Mr. Torres:

Halff Associates, Inc. (Halff) is in receipt of the bid tabulation in accordance with Article 2.11 "Tabulation for Bids" of TxDOT's Standard Specifications for the above-mentioned project and offers the following Bid Analysis. A total of three (3) bids were received.

Halff developed the Bid Analysis spreadsheet for the project and populated it with each item description, unit, estimated quantity, unit price and total cost. The total cost for each item was obtained by multiplying the estimated quantity by the unit price. The total cost for the project was obtained by adding up each total cost for all the items.

The official bid amounts, which are summarized below ranged from 46% to 47% above the engineer's estimate of February 2026 as shown in **Table 1**.

The 12th Street Traffic Signal Improvements Project Engineer's Estimate is $4,311,413.81 (February 2026)

TABLE 1: BID ANALYSIS SUMMARY

Bidder No.	Bidder Name	Submitted Bid	% Below/Above
Bidder #1	Traf-Tex Inc.	Non-Responsive	N/A
Bidder #2	The Levy Company, LLC	$6,310,599.00	46%
Bidder #3	Austin Traffic Signal Construction CO.LLC.	$6,342,909.90	47%

Bidder #1 – Traf-Tex Inc.

Based on the bid analysis spreadsheet, Bidder #1 was unresponsive. Halff confirmed Traf-Tex Inc.'s bid was non-responsive. Traf-Tex Inc.'s bid was determined to be non-responsive due to the subsidiary items did not have amount within the official bid documents and were left blank.

Bidder #2 – The Levy Company, LLC.

Based on the bid analysis spreadsheet, Bidder #2 was the second lowest bidder. Halff confirmed The Levy Company, LLC's total summation is **$6,310,599.00**.

In accordance with TxDOT guidelines, an item is considered significantly unbalanced if the low bidder's unit price differs from the engineer's estimate by more than +50% or less than -75%. The following 31 items were identified as significantly unbalanced within The Levy Company, LLC. bid as shown in **Table 2**.

TABLE 2: UNBALANCED ITEMS FOR THE LEVY COMPANY, LLC. USING ENGINEERS ESTIMATE OF FEBRUARY 2026

Since this project has portions within State ROW and federal funds are being utilized, it must follow the TxDOT requirements for TxDOT Prequalification. This project requires a TxDOT Confidential Questionnaire Prequalification since the project cost is above $300,000 and as outlined on TxDOT's website (https://www.txdot.gov/business/road-bridge-

maintenance/contract-letting/contractor-prequalification.html).

Bidder #2 was determined to be TxDOT Prequalified under the Confidential Questionnaire.

Bidder #3 – Austin Traffic Signal Construction CO.LLC.

Based on the bid analysis spreadsheet, Bidder #3 was the highest bidder. Halff confirmed Austin Traffic Signal Construction CO.LLC's total summation is **$6,342,909.90**.

In accordance with TxDOT guidelines, an item is considered significantly unbalanced if the low bidder's unit price differs from the engineer's estimate by more than +50% or less than -75%. The following 30 items were identified as significantly unbalanced within the Austin Traffic Signal Construction CO.LLC. bid as shown in **Table 3**.

TABLE 3: UNBALANCED ITEMS FOR AUSTIN TRAFFIC SIGNAL CONSTRUCTION CO.LLC. USING ENGINEERS ESTIMATE OF FEBRUARY 2026

This project requires a TxDOT Confidential Questionnaire Prequalification since the project cost is above $300,000 and as outlined on TxDOT's website (https://www.txdot.gov/business/road-bridge-maintenance/contract-letting/contractor-prequalification.html).

Bidder #3 was determined to be TxDOT Prequalified under the Confidential Questionnaire.

RECOMMENDATION

We have determined that The Levy Company, LLC is the lowest bidder. Although the contractor met all the requirements, Halff Associates, Inc. does not recommend awarding the contract to The Levy Company, LLC in the amount of $6,310,599.00 due to the extreme difference over the engineering estimate.

We respectfully request your concurrence in this recommendation so that we may proceed with rebidding the project and eliminating the subsidiary items from the Bid Sheet.

1001 E. Elizabeth Street
Brownsville, TX 78520

RE: City of Brownsville 12th Street Traffic Signal Improvements

CSJ: 0921-06-398
Release to Re-Advertise

Dear Mayor John Cowen, Jr.,

The contract plans and your contract letting and award procedures for the subject referenced project have been approved. In addition, the project has been environmentally cleared and has received all the necessary State and Federal approvals to move forward with construction. Per our Advanced Funding Agreement, you may now re-advertise to receive bids for construction in accordance with the procedures that were approved. Once bids are received, please provide us with documentation on the procedures followed, copies of bid tabulations, a bid analysis, and a contract award recommendation. We will need to review and concur prior to the City awarding the contract.

Please continue to work directly with our project manager, Mr. Omar Guerrero, P.E., to ensure all requirements are met. As a reminder, the procedures you will need to follow can be found at http://www.txdot.gov/government/programs/local-government-projects.html.

If you have any questions, feel free to call me or our project manager, Mr. Omar Guerrero, P.E., at (956) 702-6100.

Sincerely,

DocuSigned by:
Pedro R. Alvarez

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Maribel Guerrero, Director Engineer and Public Works
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to Authorize a Contract with Rio Grande Hauling for Excavation, Loading and Hauling Services on an as needed basis for Contract No.288-26-EPW-IFB, for a term not to exceed 5 Years. (Engineering and Public Works Department).

Summary:
The Engineering and Public Works Department requested bids from qualified suppliers for the provision of soil materials and associated hauling services to support landfill operations and related City projects. This non-construction contract covers the supply, delivery, pickup, hauling, and testing of soils in accordance with TCEQ -approved standards.

Project Scope and Analysis:
This agreement allows the City to request services from the Contractor as needed. Each service request will be sent in writing. The Contractor will perform work only after receiving a written request from the City. Unless the City specifies otherwise, each request automatically includes all necessary prep work, related tasks, and any steps required to complete the job correctly. All services must be completed professionally, on time, and in line with industry standards.

PROCUREMENT ANALYSIS

Date: Tuesday, August 18, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, Interim City Manager
CC: Mr. Damian Espinoza, Procurement Director
Ms. Maribel Guerrero, Engineering and Public Works Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, September 15, 2026.
"Consideration and Action to Authorize a Contract with Rio Grande Hauling for Excavation, Loading and Hauling Services on an as needed basis for Contract No.288-26-EPW-IFB, for a term not to exceed 5 Years. [Engineering and Public Works Department].

Executive Summary:

- Department: Engineering and Public Works Department
- Procurement Method: IFB
- Submittals Received: 1
- Contract Number: 288-26-EPW-IFB
- Vendor: Rio Grande Hauling
- Contract Amount: On an As-Needed Basis
- Term: Not to Exceed Five Years (Base (3) year term with (2) optional one (1) year renewal periods

Background: The Engineering and Public Works Department requested bids from qualified suppliers for the provision of soil materials and associated hauling services to support landfill operations and related City projects. This non-construction contract covers the supply, delivery, pickup, hauling, and testing of soils in accordance with TCEQ-approved standards.

Procurement Process:
The Procurement Department issued an IFB in compliance with the Texas Local Government Code. The solicitation was advertised in the local newspaper and posted on the City's electronic bidding platform. 1 bid was received.

This procurement is governed by the following statute:

- **IFB (Competitive Sealed Bidding): Texas Local Government Code Chapter 252, Subchapter C – Competitive Sealed Bidding (§252.041).**

Results:
A total of 1 bids was received. After review, Rio Grande Hauling submitted the lowest responsive and responsible bid. The bid tabulation is provided as Exhibit A.

Vendor Information:
Vendor Name: Rio Grande Hauling
Vendor Address: 6300 FM 1732 Brownsville, TX 78520
Point of Contact: Fabian De La Garza, Managing Partner
Phone/Email: (956)793-5883 | fabian@rghauling.com

Exhibits & Supporting Documents:

- Bid Tab (lowest responsive/responsible bidder)- Exhibit A
- Texas Ethics Commission Certificate of Interested Parties (1295 Form) – Exhibit B
- Cooperative Use Authorization & Administrative Fee Acknowledgment- Exhibit C

Recommendation:
The Procurement Department recommends that the City Commission authorize a contract with Rio Grande Hauling under IFB, on an as needed basis for a base term of three (3) years with two (2) optional one (1) year renewal periods.

Approval of this agenda item will authorize the full contract value, including the renewal option. The City Manager will be authorized to execute renewal(s) if exercised.

Form 10 - Cooperative Use Authorization & Administrative Fee Acknowledgment

Purpose

This form allows the Respondent to indicate whether it elects to participate in optional cooperative purchasing arrangements and acknowledges the associated administrative fee requirements if cooperative use is accepted. Cooperative use is not mandatory and is offered at the Respondent's discretion. By completing this form, the Respondent clearly identifies its intent regarding cooperative participation for contracts awarded by the City of Brownsville, Texas.

Solicitation No.: _288-26-EPW-IFB_____

Respondent Information

Legal Entity Name: __Rio Grande Hauling_____

Primary Contact Name: __Fabian de la Garza_____

Title: ___Managing Partner_____

Telephone: _956-793-5883_____ **Email:** __Fabian@rghauling.com____

Optional Cooperative Use Authorization

☒ **YES** – The Respondent **agrees** to allow cooperative use

☐ **NO** – The Respondent **declines** cooperative use

If **YES** is selected, the Respondent acknowledges and agrees that:

Cooperative Use Authorization

It is the intent of the City of Brownsville, Texas ("City") that any contract resulting from this solicitation may be made available for use by other governmental entities, to the maximum extent permitted under applicable federal, state, and local laws, including but not limited to Texas Government Code Chapter 791 (Interlocal Cooperation Act) and other applicable joint purchasing statutes. The awarded contractor agrees to extend the same pricing, terms, and conditions of this contract to any eligible public agency, political subdivision, or governmental entity that elects to purchase goods or services under this contract, provided that such entity issues its own purchase order, contract, or interlocal agreement that references the City of Brownsville's contract. Each participating entity shall be solely responsible for its own contractual obligations, including but not limited to the issuance of purchase orders, receipt of goods or services, and payment of invoices. The City of Brownsville shall not be responsible for the performance, payment, or administration of any obligations incurred by participating entities under this cooperative use provision.

Administrative Fee Acknowledgment

The City of Brownsville will utilize an administrative fee, in the form of a percentage of the cost, that will apply to all contracts between the awarded contractor, the City, or participants resulting from this solicitation. The administrative fee will be remitted by the contractor to Civic Marketplace on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 3% of sales. The administrative fee shall be included in the contractor's pricing and shall not be invoiced separately to the City or participating entities.

Certification

By signing below, the undersigned certifies that they are duly authorized to bind the Respondent, that all statements made in this form are true and correct, and that the Respondent's selection regarding cooperative use accurately reflects its intent.

CITY OF BROWNSVILLE CONTRACT AGREEMENT FOR EXCAVATION, LOADING, AND HAULING SERVICES
288-26-EPW-IFB

This Agreement shall commence upon the approval of the City Commission and executed by the City of Brownsville's Mayor or designee. This agreement is between The City of Brownsville, Texas, hereinafter referred to as ("CITY") and Rio Grande Hauling hereinafter referred to as ("CONTRACTOR"), collectively referred to as "Parties" and individually as "Party".

1. **Documents**
   a. The following documents (collectively, "Contract Documents") are hereby incorporated into and made part of this Agreement.

      i. Scope of Services, Conditions and Additional Services (Exhibit A)
      ii. Term of Agreement (Exhibit B)
      iii. Compensation and Fees (Exhibit C)
      iv. Insurance (Exhibit D)
      v. Conflict of Interest Questionnaire (Exhibit E)
      vi. Texas Ethics Commission Certificate of Interested Parties (Exhibit F)
      vii. Cooperative Use Authorization & Administrative Fee Acknowledgment (Exhibit G)

2. **Scope of Services**
   a. Contractor shall perform the Services under this agreement upon written request orders by CITY. Unless otherwise specified in a project request, Contractor and CITY agree that the scope of work is deemed to include preliminary considerations and prerequisites, and all tasks which are an integral and inseparable part of the work described in the Contract Documents or by separate written request.
   b. Contractor will perform such Services in a diligent and workmanlike manner consistent with industry standards.
   c. By signing this Agreement, Contractor represents that it has thoroughly reviewed the Contract Documents incorporated into this Agreement, including but not limited to "Exhibit A" Scope of services and that it accepts the description of the Work and the conditions under which the Work is to be performed and completed.

3. **Independent Contractor; Personnel**
   a. Contractor enters into this Agreement as, and shall continue to be, an independent Contractor. All Services shall be performed only by Contractor and Contractor's employees. Under no circumstances shall Contractor, or any of Contractor's employees, look to CITY as his/her employer, or as a partner, agent or principal. Neither Contractor, nor any of Contractor's employees, shall be entitled to any benefits accorded to CITY's employees, including without limitation worker's compensation, disability insurance, vacation or sick pay. Contractor shall be responsible for providing, at Contractor's expense, and in Contractor's name, unemployment, disability, worker's compensation and other insurance, as well as any and all licenses and permits usual or necessary for conducting the Services. Contractor shall be responsible for paying all applicable local, state and federal taxes.
   b. Contractor represents and warrants to CITY that its employees performing Work hereunder will have sufficient expertise, training, licensure (if applicable) and experience to accomplish the Services.

4. **Term of Agreement.**
   a. The initial contract period shall commence upon approval by the City Commission and when executed by the City of Brownsville's Mayor or designee and shall end or be extended upon the terms specified

in Contract Documents "Exhibit B". The term or any continuation of this Agreement shall be subject to both the appropriation and the availability of funds by CITY.

5. Compensation

a. Contractor agrees that compensation for services shall be as specified in the Contract Documents "Exhibit C". It is acknowledged and agreed by Contractor that compensation, as enumerated in Exhibit C constitutes a limitation upon CITY's obligation to compensate Contractor for Contractor's services pursuant and related to this Agreement but it does not constitute a limitation of any sort upon Contractor's obligation to perform all items of work required by or which can be reasonably inferred from the Scope of Services.

b. Contractor may submit invoices for compensation no more often than monthly, but only after the services for which the invoices are submitted have been completed. An original invoice plus one copy are due within fifteen (15) days of the end of the month except the final invoice which must be received no later than sixty (60) days after this Agreement expires. Invoices shall designate the nature of the services performed and/or the goods provided. Notwithstanding any provision of this Agreement to the contrary, CITY may withhold, in whole or in part, payment to the extent necessary to protect itself from loss on account of inadequate or defective work that has not been remedied or resolved in a manner satisfactory to the CITY's Contract Administrator or failure to comply with this Agreement. The amount withheld shall not be subject to payment of interest by CITY.

6. Observation and Review of the Project.

a. The Contractor shall exercise reasonable care and due diligence in discovering and promptly reporting to the City defects or deficiencies in the work of the Contractor or any subContractors or sub-Contractors reasonably observed during regular site visits.

7. Ownership of Documents.

a. All documents prepared or furnished by the Contractor (and Contractor's subContractors or sub-Contractors) pursuant to this Agreement are instruments of service and shall become property of the City upon the termination of this Agreement. The Contractor is entitled to retain copies of all such documents.

8. Insurance

a. The Contractor shall furnish proof of insurance requirements as specified in Contract Documents "Exhibit D". The coverage is to remain in force at all times during the contract period and the minimum insurance coverage is required. The commercial general liability insurance policy shall name the City of Brownsville, Texas, as an "additional insured." This MUST be written in the description section of the insurance certificate, even if there is a check-off box on the insurance certificate. Any costs for adding the City as "additional insured" shall be at the Contractor's expense.

b. The CITY shall be given notice 10 days prior to cancellation or modification of any required insurance. The insurance provided shall be endorsed or amended to comply with this notice requirement. In the event that the insurer is unable to accommodate, it shall be the responsibility of the Contractor to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested and addressed to the Procurement Services Division.

c. The Contractor's insurance must be provided by an A.M. Best's "A-"rated or better insurance company authorized to issue insurance policies in the State of Texas, subject to approval by the City of Brownsville Department of Safety and Risk Management. Any exclusions or provisions in the insurance maintained

by the Contractor that excludes coverage for work contemplated in this solicitation shall be deemed unacceptable, and shall be considered breach of contract.

9. Termination

a. *Termination for Cause.* The aggrieved party may terminate this Agreement for cause if the party in breach has not corrected the breach within ten (10) days after written notice from the aggrieved party identifying the breach. CITY may also terminate this Agreement upon such notice as the City of Brownsville's City Manager deems appropriate under the circumstances in the event the City Manager determines that termination is necessary to protect the public health or safety. The parties agree that if the CITY erroneously, improperly or unjustifiably terminates for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

This Agreement may be terminated for cause for reasons including, but not limited to, Contractor's repeated (whether negligent or intentional) submission for payment of false or incorrect bills or invoices, failure to perform the Work to CITY's satisfaction; or failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement.

b. *Termination for Convenience.* CITY reserves the right, in its best interest as determined by the City of Brownsville's City Manager, to cancel this contract for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Agreement is terminated for convenience, Contractor shall be paid for any services performed to CITY's satisfaction pursuant to the Agreement through the termination date specified in the written notice of termination. Contractor acknowledges and agrees that he/she/it has received good, valuable and sufficient consideration from CITY, the receipt and adequacy of which are hereby acknowledged by Contractor, for CITY's right to terminate this Agreement for convenience.

c. *Cancellation for Non-appropriated Funds.* CITY reserves the right, in its best interest as determined by the City of Brownsville's City Manager, to cancel this contract for non-appropriated funds or unavailability of funds by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. The obligation of CITY for payment to a Contractor is limited to the availability of funds appropriated in a current fiscal period, and continuation of the contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise provided by law.

d. *Force Majeure.* CITY and Contractor will be excused from the performance of their respective obligations under this agreement when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, civil commotion, malicious damage, act or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment, or service from a public utility needed for their performance, provided that:

   i. The non performing party gives the other party prompt written notice describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;
   ii. The excuse of performance is of no greater scope and of no longer duration than is reasonably necessary when considered in light of the Force Majeure;
   iii. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure; and
   iv. The non-performing party uses its best efforts to remedy its inability to perform.

v. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of sixty (60) days, provided that in extenuating circumstances, CITY may excuse performance for a longer term. Economic hardship of the Contractor will not constitute Force Majeure. The term of the agreement shall be extended by a period equal to that during which either party's performance is suspended under this Section.

10. Materiality and Waiver of Breach.

a. CITY and Contractor agree that each requirement, duty, and obligation set forth herein is substantial and important to the formation of this Agreement and that each is, therefore, a material term hereof. CITY's failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement. A waiver of any breach of a provision of this Agreement shall not be deemed a waiver of any subsequent breach and shall not be construed to be a modification of the terms of this Agreement

11. Indemnification.

a. CONTRACTOR COVENANTS AND AGREES TO FULLY INDEMNIFY, DEFEND AND HOLD HARMLESS, THE CITY AND THE ELECTED OFFICIALS, EMPLOYEES, OFFICERS, DIRECTORS, VOLUNTEERS AND REPRESENTATIVES OF THE CITY, INDIVIDUALLY AND COLLECTIVELY, FROM AND AGAINST ANY AND ALL COSTS, CLAIMS, LIENS, DAMAGES, LOSSES, EXPENSES, FEES, FINES, PENALTIES, PROCEEDINGS, ACTIONS, DEMANDS, CAUSES OF ACTION, LIABILITY AND SUITS OF ANY KIND AND NATURE, INCLUDING BUT NOT LIMITED TO, PERSONAL OR BODILY INJURY, DEATH AND PROPERTY DAMAGE, MADE UPON THE CITY DIRECTLY OR INDIRECTLY ARISING OUT OF, RESULTING FROM OR RELATED TO CONTRACTOR'S ACTIVITIES UNDER THIS AGREEMENT, INCLUDING ANY ACTS OR OMISSIONS OF CONTRACTOR, ANY AGENT, OFFICER, DIRECTOR, REPRESENTATIVE, EMPLOYEE, CONTRACTOR OR SUBCONTRACTOR OF CONTRACTOR, AND THEIR RESPECTIVE OFFICERS, AGENTS EMPLOYEES, DIRECTORS AND REPRESENTATIVES WHILE IN THE EXERCISE OF THE RIGHTS OR PERFORMANCE OF THE DUTIES UNDER THIS AGREEMENT. THIS INDEMNIFICATION PROVISION IS SPECIFICALLY INTENDED TO OPERATE AND BE EFFECTIVE EVEN IF IT IS ALLEGED OR PROVEN THAT ALL OR SOME OF THE DAMAGES BEING SOUGHT WERE CAUSED, IN WHOLE OR IN PART, BY ANY ACT, OMISSION OR NEGLIGENCE OF THE CITY. THIS INDEMNITY PROVISION IS INTENDED TO INCLUDE, WITHOUT LIMITATION, INDEMNITY FOR COSTS, EXPENSES AND LEGAL FEES INCURRED BY THE CITY IN DEFENDING AGAINST SUCH CLAIMS AND CAUSES OF ACTIONS. IN THE EVENT CONTRACTOR AND CITY ARE FOUND JOINTLY LIABLE BY A COURT OF COMPETENT JURISDICTION, LIABILITY SHALL BE APPORTIONED COMPARATIVELY IN ACCORDANCE WITH THE LAWS FOR THE STATE OF TEXAS, WITHOUT, HOWEVER, WAIVING ANY

GOVERNMENTAL IMMUNITY AVAILABLE TO THE CITY UNDER TEXAS LAW AND WITHOUT WAIVING ANY DEFENSES OF THE PARTIES UNDER TEXAS LAW.

b. **THE PROVISIONS OF THIS INDEMNITY ARE SOLELY FOR THE BENEFIT OF THE PARTIES HERETO AND NOT INTENDED TO CREATE OR GRANT ANY RIGHTS, CONTRACTUAL OR OTHERWISE, TO ANY OTHER PERSON OR ENTITY. CONTRACTOR SHALL ADVISE THE CITY IN WRITING WITHIN 24 HOURS OF ANY CLAIM OR DEMAND AGAINST THE CITY OR CONTRACTOR KNOWN TO CONTRACTOR RELATED TO OR ARISING OUT OF CONTRACTOR'S ACTIVITIES UNDER THIS AGREEMENT, AND SHALL SEE TO THE INVESTIGATION AND DEFENSE OF SUCH CLAIM OR DEMAND AT CONTRACTOR'S COST. THE CITY SHALL HAVE THE RIGHT, AT ITS OPTION AND AT ITS OWN EXPENSE, TO PARTICIPATE IN SUCH DEFENSE WITHOUT RELIEVING CONTRACTOR OF ANY OF ITS OBLIGATIONS UNDER THIS PARAGRAPH.**

c. **This Indemnification provision shall survive termination or expiration of the Agreement.**

12. Miscellaneous Provisions.

a. *Successors and Assigns.* All of the provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, if any, successors, and assigns.

b. *Choice of Law.* The laws of the state of Texas shall govern the validity of this Agreement, the construction of its terms and the interpretation of the rights and duties of the parties hereto.

c. *No Waiver of Governmental Immunity.* NOTHING IN THIS AGREEMENT SHALL BE CONSTRUED TO WAIVE CITY'S GOVERNMENTAL IMMUNITY FROM LAWSUIT, WHICH IMMUNITY IS EXPRESSLY RETAINED TO THE EXTENT IT IS NOT CLEARLY AND UNAMBIGUOUSLY WAIVED BY STATE LAW.

d. *Assignment.* Contractor shall not assign any of Contractor's rights under this Agreement or delegate the performance of any of Contractor's duties hereunder, without the prior consent of CITY.

e. *Modification or Amendment.* No amendment, change or modification of this Agreement shall be valid unless in writing signed by the parties hereto.

f. *Venue.* This Agreement and any and all matters arising directly or indirectly here from shall be governed by and construed and enforced in accordance with the Laws of the State of Texas, in the Federal and State Courts of Cameron County, Texas having jurisdiction. (b) If at any time there is a dispute between or among the Parties with respect to any matter arising directly or indirectly from this Agreement (an "Agreement Matter"), the Parties agree that, prior to seeking judicial remedy, they will engage in face-to-face negotiations in an attempt to resolve such dispute and shall, upon failing to negotiate a mutually-satisfactory resolution, choose a mutually agreeable neutral third party to mediate such dispute. Mediation shall be non-binding and shall be confidential.

g. *Notices.* Any and all notices, demands, or other communications required or desired to be given hereunder by any party shall be in writing and shall be validly given or made to another party if personally served, or if deposited in the United States mail, certified or registered, postage prepaid, return receipt requested. If such notice or demand is served personally, notice shall be deemed constructively made at the time of such personal service. If such notice, demand or other communication is given by mail, such notice shall be conclusively deemed given five days after deposit thereof in the United States

mail addressed to the party to whom such notice, demand or other communication is to be given as follows:

If to Contractor:	Rio Grande Hauling 6300 FM 1732 Brownsville, TX 78520
If to CITY:	City of Brownsville 1001 E. Elizabeth St. Brownsville, Texas, 78521

Any party hereto may change its address for purposes of this paragraph by written notice given in the manner provided above.

h. *Entire Understanding.* This document and any exhibit attached constitute the entire understanding and agreement of the parties, and any and all prior agreements, understandings, and representations are hereby terminated and canceled in their entirety and are of no further force and effect.

i. *Unenforceability of Provisions.* If any provision of this Agreement, or any portion thereof, is held to be invalid and unenforceable, then the remainder of this Agreement shall nevertheless remain in full force and effect.

IN WITNESS WHEREOF the undersigned have executed this Agreement as of the day and year first written above.

CITY OF BROWNSVILLE	CONTRACTOR

APPROVED AS TO FORM

Alyssa J. Castillon
Assistant City Attorney

"EXHIBIT A" - Statement of Work (SOW)

Technical Specifications and Scope of Work

If at any time the materials or services provided by this contractor fail to meet the specifications as included herein, which could be determined by a Testing Laboratory of the City of Brownsville, Public Works Department, either through its own facilities or testing services procured by it, successful bidder shall be in breach of contract.

Failure to timely deliver required items under this contract shall not be excusable by reason of deficiencies in the Contractor's fleet. Should the Contractor fail to meet such schedule of delivery, the City shall have the option to cancel this contract or procure the items elsewhere.

The City of Brownsville by receipt of bid proposals and/or execution of a contract with the successful bidder does not guarantee any minimum purchase of the items bid upon even with a Purchase Order for a given volume or set of services. **The City will only be invoiced and accountable for the amount of materials or services used.** However, the past consumption of soil materials would expect that the contractor would have a minimum of 80,000 cubic yards of cover materials available annually and a minimum of 90,000 cubic yards of construction soils available annually.

The quantity of soil to be used for construction purposes will be surveyed by the City's contracted professional registered land surveyor. Quantities may also be calculated by the City's Quality Assurance contractors (State registered engineers who are provided with the final surveys from a registered surveyor). The survey will be based on whatever specification is necessary to satisfy TCEQ permitting requirements for the project. For example, it may be necessary to use grid points or stations every 10,000 square feet. **These volumes are calculated after the construction project is complete.** Surveyed quantities are the preferred method of calculating payment. Counting loads is only to be used if it is not practical for the City to use surveys. If load counts are to be used by the contractor each full load (of a known volume) will be documented by the contractor with a trip ticket which will be numbered, dated and signed by a City representative.

Delivery/Pick Up/Trucking- Delivery of soil or services shall be the morning of the next day after receipt of order (A.R.O.).

- **Delivery Option l:** All soils will be F.O.B. the final destination including any and all delivery charges.
- **City Pick Up Option 2:** City pick up with City equipment only (including excavation equipment) at the supplier's yard or barrow, which must have an accessible and permissible haul road route from the Landfill to the stockyard or barrow for heavy off-road equipment. This must be within 1.5 miles of the Landfill.
- **City Pick Up Option 3:** City pick up at the supplier's yard or barrow, and the supplier must load City trucks or equipment. There must be an accessible and permissible haul road route from the Landfill to the yard or barrow for heavy off-road equipment. This must be within 1.5 miles of the landfill.
- **Hauling Option 4:** During construction events the City may use soils and require trucking/hauling from sources (a) within the Landfill boundaries, which is a one way haul of less than 1 mile or (b) from neighboring land, which is a one way haul of less than 1.5 miles **"offsite"** (Property located outside the permitted permanent boundary line of the landfill) of the landfill. This soil will need to be transported and placed or stored within the boundaries of the Landfill. The City or their authorized representative may excavate and load the soils or the contractor may be required to excavate and load the soils to be transported. The successful contractor should be able to move as much as 2,500 cubic yards daily during construction events.
- **Hauling Option 5:** During construction events the City may use soils and require trucking/hauling from sources located throughout the community. This soil will need to be transported and placed or stored within the boundaries of the Landfill. The City or their authorized representative may excavate and load the soils or the contractor may be required to excavate and load the soils to be transported. The successful contractor should be able to move as much as 2,500 cubic yards daily during construction events.
- **Hauling Option 6:** Prices may be used for other projects throughout the city for hauling, loading and excavation if the conditions of said projects are equal to or better than the conditions at the landfill. To perform work at locations other than the landfill must be equally agreed to by the contractor and the City on a case-by-case basis. Either the City or the contractor may decline or agree to use this contract for non-landfill projects at any time. The City will have the right to seek the services of alternate vendors under the conditions that the contractor is not able to perform non-landfill projects. Contractor shall have more than one yard or barrow which must have an accessible and permissible haul road route to designated job site(s).

The Brownsville Landfill is located at 9000 FM 802, Brownsville, Texas.

TECHNICAL AND PERFORMANCE SPECIFICATIONS

- Construction clay and sand must meet the specifications provided in the MSW Permit # 01273-A SLQCP. This is approved by TCEQ.
- Clay to be used for cell construction purposes will have a coefficient of permeability of 1x10(exp-7) cm/sec or less with a Liquid Limit of not less than 30 and a Plasticity index (PI) of not less than 15. The percent soil fines passing the No. 200 mesh sieve will be at least 30%.
- Sand to be used for construction purposes will have a minimum hydraulic conductivity of 1.7x10(exp-3) cm/sec.
- Daily cover material must be clean earthen material. It may not have any vegetative or other contamination. It may not contain rocks and may not be recycled from another use. It must have some clay type properties which will not allow the material to blow away in the wind.
- Test Requirements - the Contractor shall submit, with his bid, test reports from a City approved testing laboratory, providing the proposed materials compliance and adequacy.
- **Test reports shall be performed prior to bid opening.**
- *It shall be the Contractor's responsibility to provide and pay for the testing as stated herein.*
- The contractor must have a stockpile of materials and will submit his estimated quantities.

Measurement for pay purposes will be:

- Materials used for construction purposes (clay and sand).

  Materials used for cell construction will be paid by surveying and calculating the placed quantities. This will be performed by a registered land surveyor at the City Landfill. The City will pay for the survey.

- Materials used for non-construction purposes. For City pick up or delivery.

  Materials used for daily cover or non-construction purposes will be calculated for payment quarterly by a registered land surveyor at the contractor's barrow area. However, in areas where this is not practical, load counts will be accepted. The City will keep track of load counts hauled with City equipment with known capacities. The

contractor will submit trip tickets for loads hauled by the contractor; each trip ticket must be dated, numbered and signed by a City representative.

This soils component of this contract will be awarded on the basis of the lowest price per cubic yard for City pick-up. If a contract cannot be awarded based on the City pick- up option, then the contract may be awarded based on price per cubic yard delivered.

The hauling/trucking portion of this contract listed may be awarded separately to the lowest responsible bidder. If for any reason the lowest bidder cannot perform to the needs of the City, then the next lowest responsible bidder may be used.

CALL LIST CONTRACT AWARD

It is the intent of this solicitation to procure a term contract that shall be awarded to a maximum of three (3) general suppliers. The call list shall operate at the discretion of The City of Brownsville. Depending on the type of work and schedule, the call list shall be used to find the necessary materials in a specified time and quantity. If one vendor does not meet the needs of the city, the next vendor shall be called on the list.

In the event that all 3 contractors renege on the City issued Purchase Order, then the contract shall be rescinded, and the City will re-bid a new term contract. The 3 contractors under the rescinded contract shall be ineligible to bid on the subsequent solicitation.

Term of Contract

This Solicitation is for a three (3) year contract agreement with the option to renew the term of this contract annually for two (2) one-year terms each, subject to vendor acceptance, satisfactory performance and determination that renewal will be in the best interest of the City. All costs, terms and conditions shall remain firm for the initial period of the contract and for any renewal period. Under this contract, any other City of Brownsville department shall have the right and option to **"Piggy-Back"** on contract to purchase limestone materials.

"EXHIBIT B" – Contract Term

Contract Term Details: The Contract, pending City Commission approval, includes a Base Period, Optional Renewal Periods, and a Total Contract Term as follows:

- **Base Period:** This initial period will begin upon City Commission approval and end on **September 30, 2029**

- **Optional Renewal Periods:** There are two (2) optional one-year renewal periods. If exercised, these periods will extend the contract as follows:
  - **First Renewal Period:** October 1, 2029, to September 30, 2030
  - **Second Renewal Period:** October 1, 2030, to September 30, 2031

- **Total Term of the Contract:** Including the Base Period and both optional renewals, the total contract term shall not exceed five (5) years, with a final end date of **September 30, 2031**, if all renewals are exercised.

Bid Price Form

Clay, Sand or cover soils F.O.B. delivered as per **Item 3.0.1** for the unit price of:	
A. Per cubic yard for Clay	$ 22.50
B. Per cubic yard for Sand	$ 22.50
C. Per cubic yard for Cover Soils	$ 22.50
River rock, Limestone, Sludge, & Debris F.O.B. delivered as per **Item 3.0.1** for the unit price of:	
A. Per cubic yard for River rock	$ 56.75
B. Per cubic yard for Limestone	$ 61.50
C. Per cubic yard for Sludge	$ 19.50 Hauling only
D. Per cubic yard for Debris	$ 19.50 Hauling only
Clay, F.O.B. City Stockyard as per revised **Item 3.0.2** for the unit price of price of:	

A. Per cubic yard of Clay, Contractor excavates "loads and hauls" with contractor equipment from City's yard or borrow to Landfill. Approximately 3 miles roundtrip (within landfill – city property)	$ 14.25
Trucking or Hauling soils as per **Item 3.0.4** for the unit price of:	
A. Per cubic yard, City excavates *"and loads"* on Contractor's trucks at Landfill site < 1 mile haul one-way.	$ 6.25
B. Per cubic yard, Contractor excavates *"and loads"* with contractor equipment on Contractor's trucks at Landfill site < 1 mile haul one-way.	$ 14.75
C. Per cubic yard, City excavates *"and loads"* on Contractor's trucks at neighboring land, < 1.5 mile haul one-way.	$ 6.25
D. Per cubic yard, Contractor excavates *"and loads"* with contractor equipment on Contractor's trucks at neighboring land < 1.5 mile haul one way.	$ 14.75

Trucking or Hauling soils as per **Item 3.0.5** for the unit price of:	
A. Per cubic yard, City excavates and loads on "*Contractor's*" trucks 0-2.5 miles radius of job site to designated storage/disposal site.	$ 7.35
B. Per cubic yard Contractor excavates and loads with contractor equipment on *"Contractor's"* trucks 0-2.5 miles radius of job site to designated storage/disposal site.	$ 15.70
C. Per cubic yard City excavates and loads on Contractor's trucks > 2.5 up to 5 miles radius of job site to designated storage/disposal site.	$ 9.45
D. Per cubic yard Contractor excavates and loads with contractor equipment on *"Contractor's"* trucks > 2.5 up to 5 miles radius of job site to designated storage/disposal site.	$ 17.80
E. Per cubic yard City excavates and loads on Contractor's trucks > 5 up to 10 miles radius of job site	$ 10.50

to designated storage/disposal site.	
F. Per cubic yard Contractor excavates and loads with contractor equipment on *"Contractor's"* trucks > 5 up to 10 miles radius of job site to designated storage/disposal site.	$ 18.90
G. Per cubic yard City excavates and loads on Contractor's trucks > 10 up to 15 miles radius of job site to designated storage/disposal site.	$ 14.15
H. Per cubic yard Contractor excavates and loads with contractor equipment on *"Contractor's"* trucks > 10 up to 15 miles radius of job site to designated storage/disposal site.	$ 22.50
I. Per cubic yard City excavates and loads on Contractors trucks >15 up to 20 miles radius of job site to designated storage/disposal site.	$ 15.70
J. Per cubic yard Contractor excavates and loads with contractor equipment on City trucks >15 up to 20 miles radius of	$ 25.10

job site to designated storage/disposal site.	
K. Per cubic yard Contractor excavates and loads with contractor equipment on Contractors trucks >15 up to 20 miles radius of job site to designated storage/disposal site.	$ 25.10
City will provide trucks; Contractor will excavate and load on City trucks at Contractors yard/barrow.	
Clay (Cover) • Estimated usage: 200-500 Cu. Yds/ Annually per cubic yard (to include excavation and loading of material)	$ 12.55
River Sand • Estimated usage: 200 Cu. Yds/Annually • 3,000 Cu. Yds/emergency disaster/hurricane per cubic yard (to include excavation and loading of material)	$ 16.00

"EXHIBIT D"- Insurance

Contractor shall obtain and maintain insurance coverage as agreed in paragraph 7 of the City of Brownsville Contract Agreement and ensure that coverage with the parameters contained herein remains in full force at all times during the contract period as follows:

1. **Workers' Compensation and Employers' Liability Insurance**

   Minimum Limits Consistent with Texas Worker's Compensation Act (Section 401):

   1. $100,000 bodily injury each accident
   2. $500,000 bodily injury by disease policy limit
   3. $100,000 Bodily injury by disease each employee

   Any firm performing work for or on behalf of the City of Brownsville must provide Workers' Compensation insurance.

2. **Commercial General Liability Insurance**

   Covering premises-operations, products-completed operations, independent Contractors and contractual liability, with a combined single limit bodily injury/property damage of $1,000,000. This coverage must include, but not be limited to:

   1. Coverage for the liability assumed by the Contractor under the indemnity provision of the contract.
   2. Coverage for Premises/Operations
   3. Products/Completed Operations
   4. Broad Form Contractual Liability
   5. Independent Contractors

3. **Automobile Liability Insurance**

   Covering all owned, hired and non-owned automobile equipment with the following Limits:

   1. Bodily injury

      $250,000 each person,

      $500,000 each occurrence
   2. Property damage

      $100,000 each occurrence

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent must disclose any conflicts of interest related to the goods and/or services associated with this solicitation. A conflict-of-interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s). The City reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

If a conflict of interest exists, the Respondent must:

- Complete Form CIQ
- File the form with the City Secretary
- Include a copy of the completed Form CIQ with the proposal

If no conflict of interest exists, Form CIQ is not required. Regardless of whether a conflict exists, this Form 2 must be completed and signed.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict-of-interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

City Secretary Contact Information

City of Brownsville – Office of the City Secretary
1034 E Levee Street, City Plaza, 1st Floor, Brownsville, TX 78520
Email: City.Secretary@brownsvilletx.gov
Phone: (956) 548-6042

Certification

By signing below, the Respondent certifies that they have reviewed and understand the requirements of Chapter 176, Texas Local Government Code and have determined whether a conflict of interest exists. The Respondent further certifies that, if a conflict of interest exists, a completed Conflict of Interest Questionnaire (Form CIQ) has been or will be filed with the City Secretary in accordance with state law and that a copy of the completed Form CIQ is included with this submission, if applicable. The Respondent affirms that all information provided is true and correct and that they are authorized to bind the entity.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY
Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

_____
Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed in accordance with TEC requirements.

Form 10 - Cooperative Use Authorization & Administrative Fee Acknowledgment

Purpose

This form allows the Respondent to indicate whether it elects to participate in optional cooperative purchasing arrangements and acknowledges the associated administrative fee requirements if cooperative use is accepted. Cooperative use is not mandatory and is offered at the Respondent's discretion. By completing this form, the Respondent clearly identifies its intent regarding cooperative participation for contracts awarded by the City of Brownsville, Texas.

Solicitation No.: _288-26-EPW-IFB_____

Respondent Information

Legal Entity Name: __Rio Grande Hauling_____

Primary Contact Name: __Fabian de la Garza_____

Title: ___Managing Partner_____

Telephone: _956-793-5883_____ **Email:** __Fabian@rghauling.com____

Optional Cooperative Use Authorization

☒ **YES** – The Respondent **agrees** to allow cooperative use

☐ **NO** – The Respondent **declines** cooperative use

If **YES** is selected, the Respondent acknowledges and agrees that:

Cooperative Use Authorization

It is the intent of the City of Brownsville, Texas ("City") that any contract resulting from this solicitation may be made available for use by other governmental entities, to the maximum extent permitted under applicable federal, state, and local laws, including but not limited to Texas Government Code Chapter 791 (Interlocal Cooperation Act) and other applicable joint purchasing statutes. The awarded contractor agrees to extend the same pricing, terms, and conditions of this contract to any eligible public agency, political subdivision, or governmental entity that elects to purchase goods or services under this contract, provided that such entity issues its own purchase order, contract, or interlocal agreement that references the City of Brownsville's contract. Each participating entity shall be solely responsible for its own contractual obligations, including but not limited to the issuance of purchase orders, receipt of goods or services, and payment of invoices. The City of Brownsville shall not be responsible for the performance, payment, or administration of any obligations incurred by participating entities under this cooperative use provision.

Administrative Fee Acknowledgment

The City of Brownsville will utilize an administrative fee, in the form of a percentage of the cost, that will apply to all contracts between the awarded contractor, the City, or participants resulting from this solicitation. The administrative fee will be remitted by the contractor to Civic Marketplace on a quarterly basis, along with required quarterly reporting. The remuneration fee for this program will be 3% of sales. The administrative fee shall be included in the contractor's pricing and shall not be invoiced separately to the City or participating entities.

Certification

By signing below, the undersigned certifies that they are duly authorized to bind the Respondent, that all statements made in this form are true and correct, and that the Respondent's selection regarding cooperative use accurately reflects its intent.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Carlos Lastra, City Engineer
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to award the second and final renewal to contract #GTS-67-0622 for Geotechnical and Construction Material Testing Services, by and between the City of Brownsville, a Texas municipal corporation, and the following firms: B2Z Engineering LLC., Millennium Engineers Group, Raba Kistner, Inc., and Terracon Consultants, Inc., for the Street and Drainage Capital Improvements Projects and Miscellaneous Projects for the City of Brownsville. (Engineering and Public Works Department)

Summary:
The Engineering and Public Works Department request to exercise our option for this second and final renewal of the contract #GTS-67-0622 for Geotechnical and Construction Material Testing Services for the Street and Drainage Capital Improvement Projects and Miscellaneous Projects for the City of Brownsville to B2Z Engineering, LLC., Millennium Engineers Group, Raba Kistner, Inc., and Terracon Consultants, Inc.

Initial contract terms and renewals:

- The initial contract period was from September 20, 2022, through September 20, 2025.
- The first renewal of this contract will be from September 21, 2025, through September 20, 2026.
- This second and final renewal of the contract will be from September 20, 2026, through September 20, 2027.

This contract has the option for two (2) additional one (1) year extensions for a total of five (5) years ending on September 20, 2027.

Project Scope and Analysis:

Funding:

Source: TBD

Amount: To be determined based on projects

Local Contribution if Applicable:

Recommendation:
The City of Brownsville Engineering and Public Works Department recommends the approval to award this second and final renewal of contract #GTS-67-0622 for the Geotechnical and Construction Material Testing Services for the Street and Drainage Capital Improvement Projects and Miscellaneous Projects for the City of Brownsville. Form of renewal to be approved by the Office of the City Attorney.

Agenda #:	Consideration and **ACTION** to Authorize Task Order No. 8 with Jviation, a Woolpert Company, LLC, under Master Agreement RFQ PES-63-0523, in the amount of $321,646.00, for Airfield Signage Upgrade Design, Bidding, Construction Administration, and Construction Coordination Services at the Brownsville South Padre Island International Airport. (Airport Department)

Summary:
The Brownsville South Padre Island International Airport is seeking professional engineering services for the design, bidding, construction administration, and construction coordination of the Airfield Signage Upgrade Project. The project will replace aging airfield guidance signs, associated foundations, and lighting components, and convert the system to LED technology. These improvements will enhance airfield safety, improve sign visibility, and reduce ongoing maintenance costs. The project is funded through an FAA grant with 95% federal participation and a 5% local match.

Project Scope and Analysis:
The Brownsville South Padre Island International Airport is seeking professional engineering services for the design, bidding, construction administration, and construction coordination of the Airfield Signage Upgrade Project. The project will replace aging airfield guidance signs, associated foundations, and lighting components, and convert the system to LED technology. These improvements will enhance airfield safety, improve sign visibility, and reduce ongoing maintenance costs.

This item authorizes Task Order No. 8 under Master Agreement RFQ PES-63-0523 for Professional Architectural and Engineering Services. The master agreement was previously approved by the City Commission, and this task order provides project-specific engineering services for the Airfield Signage Upgrade Project at the Brownsville South Padre Island International Airport. The project is funded through an FAA grant with 95% federal participation and a 5% local match.

TOTAL: $321,646

FAA Match (95%): $305,563.7
City Match (5%): $16,083

PROCUREMENT ANALYSIS

Date: Wednesday, September 16, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, Interim City Manager
CC: Mr. Damian Espinoza, Procurement Director
Mr. Faisal Khalifa, Airport Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, October 6, 2026.
"Consideration and Action to Authorize Task Order No. 8 with Jviation, a Woolpert Company, LLC, under Master Agreement RFQ PES-63-0523, in the amount of $321,646.00, for Airfield Signage Upgrade Design, Bidding, Construction Administration, and Construction Coordination Services at the Brownsville South Padre Island International Airport.

Executive Summary:

- Department: Airport Department
- Exemption Type: Task Order Under Existing Master Agreement RFQ PES-63-0523
- Contract Number: Task Order No. 8
- Vendor: Jviation, a Woolpert Company, LLC
- Contract Amount: $321,646.00
- Term: Through completion of the Task Order services

Background:
The Brownsville South Padre Island International Airport is seeking professional engineering services for the design, bidding, construction administration, and construction coordination of the Airfield Signage Upgrade Project. The project will replace aging airfield guidance signs, associated foundations, and lighting components, and convert the system to LED technology. These improvements will enhance airfield safety, improve sign visibility, and reduce ongoing maintenance costs.

Exemption Justification:
Professional Services Procurement (Gov't Code §2254) – Selection of professional services based on qualifications, not price.

This item authorizes Task Order No. 8 under Master Agreement RFQ PES-63-0523 for Professional Architectural and Engineering Services. The master agreement was previously approved by the City Commission, and this task order provides project-specific engineering services for the Airfield Signage Upgrade Project at the Brownsville South Padre Island International Airport.

Brownsville South Padre Island International Airport
Master Agreement for Architectural and Engineering Services

TASK ORDER FORM

Brownsville South Padre International AIRPORT PROJECT NO. 3-48-0031-065-2026

TASK ORDER AUTHORIZATION NUMBER EIGHT
TO AGREEMENT #RFQ PES-63-0523
FOR PROFESSIONAL ARCHITECTURAL & ENGINEERING SERVICES
DATED SEPTEMBER 05, 2023
BETWEEN ARCHITECTURAL AND ENGINEERING FIRM AND
CITY OF BROWNSVILLE, BROWNSVILLE SOUTH PADRE ISLAND INTERNATIONAL AIRPORT, BROWNSVILLE, TX,

City and Architectural & Engineering Firm agree to amend their Master Contract Agreement for improvements to the Brownsville South Padre Island International Airport, Brownsville Texas to include fees for architectural and engineering services. The improvement item is included in the Scope of Services of the original contract. The items covered by this Task Order and/or Amendment are described as follows:

Airfield Signage Upgrade (Design, Bidding, & Construction Services)

City agrees to pay Architectural & Engineering Firm for the services listed under Section 1 of the original Contract Agreement in the following manner:

PART A - BASIC SERVICES DESIGN

Preliminary Design .....Lump Sum of $15,630.00
Design .....Lump Sum of $115,994.00
Bidding .....Lump Sum of $10,660.00

Total PART A.....Lump Sum of $142,284.00

Method of payment shall be as follows:

If work is abandoned, or terminated, after obtaining approval by the Sponsor and the FAA of the final construction plans and specifications, the Sponsor shall reimburse up to 100 percent of the total lump sum as listed under PART A, and 100 percent of the invoiced costs for soils and pavement investigations, topographic surveys, and hydrological studies, or other studies as listed under PART B.

PART B - SPECIAL SERVICES

Construction Administration..... Lump sum of $30,046.00
Post Construction..... Lump sum of $21,744.00
On-Site Construction Coordination..... Lump sum of $117,572.00
QA – Rodriguez Engineering Laboratories..... Lump sum of $10,000.00

TOTAL Part B.....Lump Sum of $179,362.00

TOTAL.....Lump Sum of $321,646.00

Method of payment shall be as follows:

For services rendered under PART B - SPECIAL SERVICES, the Sponsor agrees to make monthly payments based upon the work performed by Jviation, up to 90 percent of the total contract. The final ten percent of the

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

fee shall be due and payable when the project final inspection and the construction report have been completed, and when reproducible Record Drawings have been submitted to the Sponsor and when the revised Airport Layout Plan has been approved by the FAA or when the construction work has terminated. The Record Drawings and Construction Report shall be submitted within a period of 90 days from end of construction period.

The actual amounts to be invoiced for mileage, per diem, and lodging will be in accordance with the applicable, published IRS and GSA rates at the time of service and may vary from the rates used in the fee estimate.

All other terms and conditions of the original Agreement shall remain in effect.

IN WITNESS WHEREOF, the patties hereto have set their hands and seals on the day and year herein stated.

CITY OF BROWNSVILLE SOUTH PADRE ISLAND INTERNATIONAL AIRPORT BY AND THROUGH THE CITY COMMISSION

IN WITNESS WHEREOF the undersigned have executed this Agreement as of the day and year first written above.

NO OFFICIAL, EMPLOYEE, AGENT, OR REPRESENTATIVE OF THE OWNER HAS ANY AUTHORITY, EITHER EXPRESSED OR IMPLIED, TO AMEND THIS CONTRACT, EXCEPT SUCH EXPRESS AUTHORITY AS MAY BE GRANTED BY THE CITY COMMISION OF THE CITY OF BROWNSVILLE.

EXECUTED THIS _____ DAY OF _____, 2026.

SCOPE OF WORK
FOR
Brownsville South Padre Island International Airport
Brownsville, Texas
AIP Project No. 3-48-0031-065-2026
Airfield Signage Upgrade (Design, Bidding, & Construction Services)

This is an Appendix attached to, made a part of and incorporated by reference with the Professional Services Agreement dated August 9, 2023, between City of Brownsville and Jviation, a Woolpert Company, for providing professional services. For the remainder of this scope the Brownsville South Padre Island International Airport is indicated as "Sponsor" and Jviation, a Woolpert Company, is indicated as "Engineer." The construction budget for this project is approximately $1,600,000.00. This construction budget does not include administrative, legal, or professional fees.

This project shall consist of preparing Construction Plans, Contract Documents, Technical Specifications, and Engineer's Design Report, along with Bidding, Construction Administration, Post-Construction Coordination, and On-Site Construction Coordination for the Airfield Signage Upgrade Project. This scope of work is for the consulting services provided by the Engineer for the Sponsor. See Exhibit No. 1 below for the project location.

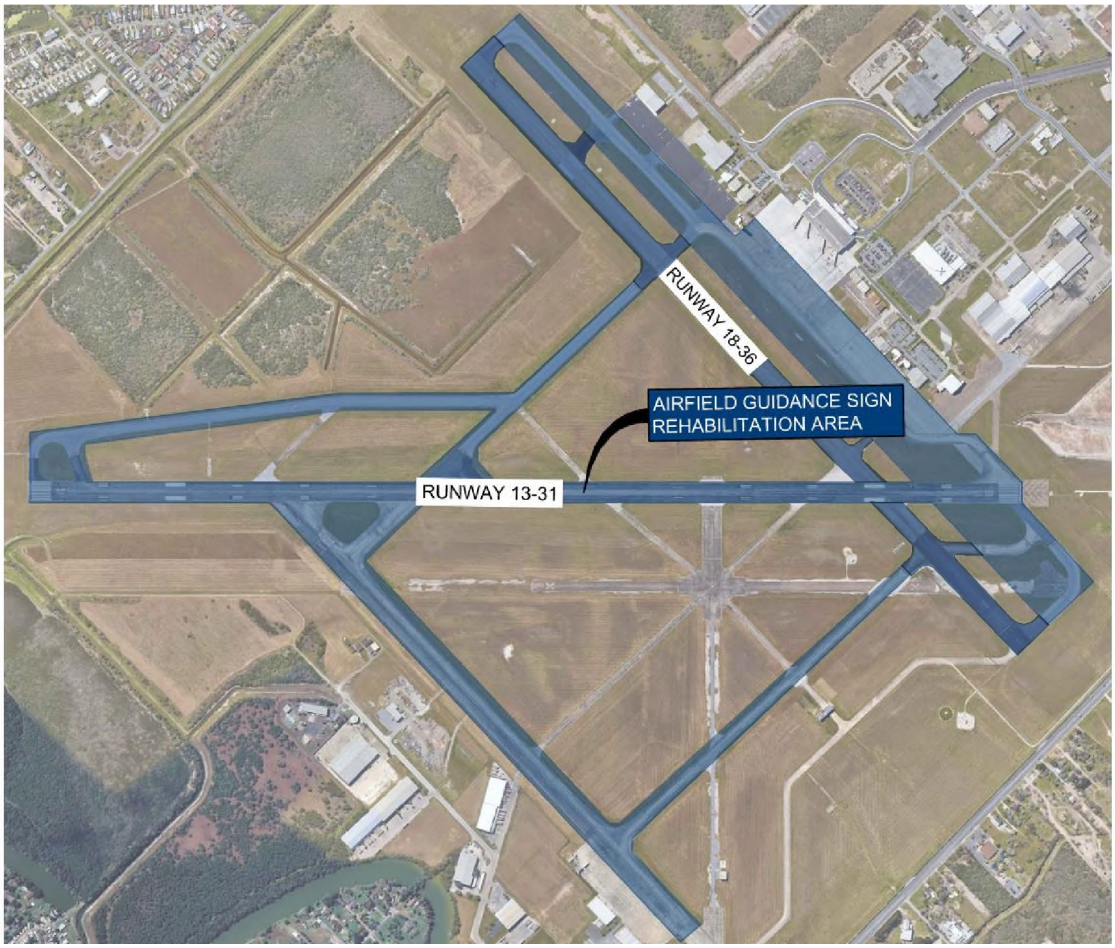

EXHIBIT NO. 1

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

DESCRIPTION

The proposed project includes the design and construction of airfield signage upgrades. Many existing signs are nearing the end of their useful life and have begun to deteriorate, requiring replacement. The project will replace all existing airfield signs, including foundation pads and light cans, and convert the system to LED lighting. These improvements will provide a consistent type and style of signage, reduce electrical maintenance costs, and enhance aircraft operational safety through improved visibility of airfield guidance signs.

Additionally, the existing taxiway designations at the airport will be updated per the recommendations of FAA Advisory Circular 150/5340-18H - Standards for Airport Sign Systems. Coordination between Woolpert, the Sponsor and the FAA will take place to finalize the future taxiway designations. Once finalized, a new sign table will be created to reflect the new taxiway designations. Locations where existing concrete sign foundations were to be utilized will be evaluated to determine if the existing foundation will be extended or fully removed and installed as new to accommodate the new extended sign lengths due to the new alpha numeric designation convention from the AC. Originally, the concrete sign foundations were going to be reused without modifications inside the runway safety areas, but with sign foundation extensions or full removals and reinstallations, construction phasing will be more complex. Construction phasing plans will be reworked to account for the additional construction activities inside the runway safety areas. The CSPP will be updated to reflect the new construction phasing. Project quantities and associated costs will be updated to reflect the change in construction items.

The engineering fees for this project will be broken into two parts. **Part A-Basic Services** includes the 1) Preliminary Design Phase, 2) Design Phase, 3) Bidding Phase, and Reimbursable Costs During Design and Bidding, and **Part B-Special Services,** which includes the 4) Construction Administration Phase, 5) Post-Construction Coordination Phase, and 6) On-Site Construction Coordination Phase, and Reimbursable Costs During Survey and Construction. Additional services that will be completed by subconsultants to the Engineer, quality assurance testing during construction will also be included under **Part B-Special Services.** Parts A and B and the six phases are described in more detail below.

PART A - BASIC SERVICES consists of the Preliminary Design Phase, Design Phase, and Bidding Phase, all invoiced on a lump sum basis.

1.0 Preliminary Design Phase

1.01 Coordinate and Attend Meetings with the Sponsor and FAA. Meetings with the Sponsor and the FAA will take place to determine critical project dates, establish the proposed design schedule and AIP development schedule, review environmental component(s), determine the feasibility of the proposed project to establish the need for topographical surveying. Various meetings during the design phase will also be conducted to review the progress of the design, discuss construction details and proposed time frame of construction and identify any special requirements for the project.

1.02 Prepare Project Scope of Work and Contract. This task includes establishing the scope of work through meetings outlined above. Fees will be negotiated with the Sponsor and may be subject to an independent fee estimate conducted by a third party hired by the Sponsor. This task also includes drafting the contract for the work to be completed by the Engineer for the Sponsor once negotiations are complete.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

1.03 Prepare Preliminary Construction Cost Estimating. This task includes creating a preliminary construction rough order of magnitude (ROM) cost estimate, a preliminary working days estimate, a preliminary overall project schedule, and a preliminary overall project budget. The preliminary construction ROM cost estimate will be based upon the most current information available at the time of preparation. Work to refine these estimates is included under Task 1.09.

1.04 Provide Project Coordination. The Engineer shall provide project management and coordination services to ensure the completion of the design. These duties include:

- Time the Engineer spends planning, organizing, securing and scheduling resources, and providing instruction to staff to meet project objectives as defined in the approved scope of work.
- The Engineer will analyze the budget semi-monthly to ensure budget and staffing needs are on track to meet design schedules within budget.
- Additional items to be accomplished include compiling and sending additional information requested from the office to related parties, maintaining project files as necessary and other items necessary in day-to-day project coordination.
- The Engineer will prepare and submit monthly invoicing.

The Engineer will complete the following tasks:

- Provide the Sponsor with a monthly Project Status Report (PSR), in writing, reporting on Engineer's progress and any problems that may arise while performing the work. The PSR must include an update of the project schedule, as described in this section, when schedule changes are expected.
- Submit for acceptance and maintain, a design schedule detailing the scheduled performance of the work.
- Create and maintain a Quality Control Checklist (QCC) for the project. The QCC shall include personnel, project milestone checking and peer review procedures at each phase of the project.

1.05 Review Existing Documents. The Engineer will gather and review existing available documentation that may be relevant to the project, including, but not limited to, record drawings (as-builts), design reports, final reports, utility reports/maps and previous surveys. The Engineer may use relevant information from this review to coordinate the design and topographical survey for the project.

1.06 Prepare Federal Grant Application. This task consists of preparing the federal grant application. The application will be submitted during the initial portion of the project. Preparation of the application includes the following:

- Prepare Federal 424 form.
- Prepare Federal Form 5100 – II thru IV.
- Prepare project funding summary.
- Prepare program narrative, discussing the purpose and need of the work and the method of accomplishment.
- Project sketch (8.5" x 11").
- Include preliminary cost estimate.
- Include the Sponsor's certifications.
- Attach the current grant assurances.
- Include DOT Title VI assurances.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

- ✈ Include certification for contract, grants and cooperative agreements.
- ✈ Include Title VI pre-award checklist.
- ✈ Include current FAA advisory circulars required for use in AIP funded projects.

The Engineer shall submit the grant application to the Sponsor for approval and signatures. After obtaining the necessary signatures, the Sponsor or Engineer shall forward a copy of the signed application to the FAA for further processing.

1.07 Prepare Environmental Documentation. The FAA has determined that a Categorical Exclusion (CATEX) applies to the project according to FAA order 1050.1G. The Engineer shall complete a documented CATEX following current FAA guidance and address potential environmental effects resulting from the proposed project. An overall environmental exhibit will be created as part of this scope of work, approved by the FAA, and referenced throughout the project.

Electrical Project Manager	1	N/A	1	N/A	N/A	N/A
Task 1 Total Reimbursable Expenses				**N/A**	**N/A**	**N/A**

2.0 Design Phase

2.01 Prepare Existing Utility Inventory. This task includes reviewing record drawings and consulting with the Sponsor and local utility companies to identify all utilities within the project site. The Construction Plans will include, to the maximum extent possible, the surveyed locations of observable utility features and the locations identified by utility locates.

2.02 Prepare Contract Documents. This task includes preparing the Contract Documents, including Contract Proposal, Bid Bond, Contractor Information Sheet, Subcontractor/Material Supplier List, Buy America Certification, Buy America Waiver Request, Buy America Conformance Listing, Bid Proposal, Contract, Payment Bond, Performance Bond, Notice of Award, Notice to Proceed, Notice of Contractor's Settlement, General Provisions, FAA AC 150/5370-2 (Current Edition), *Operational Safety on Airports During Construction,* and Wage Rates. The wage rates will be updated at the time of advertisement to

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

reflect the most current wage rates available. Preparation will include establishing the location for the bid opening, dates for advertisement and description of the work schedule. Also included in the Contract Documents, and covered under separate tasks below, are the Construction Safety and Phasing Plan, Technical Specifications, and Special Provisions. Preliminary Contract Documents will be prepared as early as possible during the design phase and submitted to the Sponsor for review.

2.03 Prepare Construction Safety and Phasing Plan (CSPP). This task includes meeting with the Sponsor to discuss the current operations of the airport to assist in determining how the proposed construction phasing of the project will affect these operations. From these meetings, a complete Construction Safety and Phasing Plan (CSPP) will be developed to ensure safety compliance when coordinating construction activities and airport operations. The CSPP will be developed in accordance with the requirements of FAA AC 150/5370-2 (Current Edition), *Operational Safety on Airports During Construction.* A construction phasing plan that meets the requirements of the AC and operational needs of the airport will be developed and included in the Contract Documents. This plan will also identify any nighttime work, continuous working times, or other unusual conditions that could affect the Contractor's normal progress on the project. The draft CSPP will be submitted at 90% complete and at 100% complete for ADO review. Upon preliminary approval from the ADO, the CSPP will be submitted to FAA for OE/AAA coordination.

2.04 Prepare Construction Plans. This task includes preparing the following list of construction plans for the project. Additional plans may be added during the design phase as needed:

Plan Name/Description	Number of Sheets
Cover Sheet	1
Index of Drawings, Summary of Approximate Quantities, and General Notes	1
Survey Control Plan	1
Safety Plan	1
Construction Layout Plan	1
Construction Phasing Plan	4
Environmental Requirements and Details	1
Electrical Notes and Legend	1
Electrical Demolition Plan	8
Electrical Layout Plan	8
Electrical Details	2
Total Sheet Count	**29**

2.05 Prepare Technical Specifications. This task includes assembling the technical specifications necessary for the project. Standard FAA specifications will be utilized where possible, with the guidance from FAA AC 150/5370-10 (Current Edition), *Standard Specifications for Construction of Airports*. Additional specifications will be prepared to address work items for materials that are not covered by the standard FAA specifications. The standard specifications to be utilized shall include, but are not limited to, the following:

- Item C-100 Contractor Quality Control Program (CQCP)
- Item C-102 Temporary Air and Water Pollution, Soil Erosion and Siltation Control
- Item C-105 Mobilization
- Item P-610 Concrete for Miscellaneous Structures
- Item T-901 Seeding
- Item T-905 Topsoil
- Item L-108 Underground Power Cable for Airports
- Item L-109 Airport Transformer Vault and Vault Equipment

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

- Item L-110 Airport Underground Electrical Duct Banks and Conduits
- Item L-115 Electrical Manholes and Junction Structures
- Item L-125 Installation of Airport Lighting Systems

2.06 Prepare Special Provisions. This task includes preparing the Special Provisions to address, or expound on, site conditions that require additional clarification. These include, but are not limited to: Haul Roads, Airport Security, Radio Communications, Work Schedule, Contractor's Quality Control Program, Sequencing of the Work, Closure of Air Operations Areas, Accident Prevention, Underground Cables/Utilities, Insurance, Indemnification, Sales and Use Taxes, Permits and Compliance with Laws, Executed Contracts, Subletting or Assigning of Contracts, Liquidated Damages, and Acceptance Testing.

2.07 Compile/Submit FAA Form 7460. This task includes preparing and submitting the required FAA Form 7460-1, "Notice of Proposed Construction or Alteration," via the FAA's online Obstruction Evaluation/Airport Airspace Analysis (OE/AAA) system on the Sponsor's behalf. The Engineer will reference FAA Advisory Circular (AC) 150/5300-20 (Current Edition), *Submission of On-Airport Proposals for Aeronautical* Study, and coordinate with the FAA Project Manager and/or Airspace Specialist to determine the locations of required airspace case studies to be submitted. Generally, such cases are required for any restrictive/critical points where construction operations or proposed alterations may affect navigable airspace. Typically, these locations include (but are not limited to): limits of construction, construction phasing limits, haul routes for construction traffic, asphalt and/or concrete batch plants, and key points of any permanent, above-ground alterations. The Engineer will prepare an exhibit depicting the locations and other information pertinent to the cases' impact on the airspace to include with the submission. The Engineer will submit FAA Form 7460-1 and the associated documentation to the FAA via the OE/AAA system for approval a minimum of 45 days prior to the start of construction.

2.08 Calculate Estimated Quantities. This task includes calculating all necessary quantities for the various work items. Quantities must be consistent with the specifications and acceptable quantity calculation practices.

2.09 Prepare Estimate of Probable Construction Cost. Using the final quantities calculated following the completion of the construction plans and specifications, the Engineer will prepare the construction cost estimate. The estimate will be based on information obtained from previous projects, contractors, material suppliers and other available databases.

2.10 Prepare Engineer's Design Report. This task includes preparation of the Engineer's Design Report in accordance with current FAA Southwest Region Engineer's Design Report guidelines. The Engineer's Design Report will include a detailed summary of the project, photographs and descriptions of existing site conditions, estimate of project costs, and a schedule for the completion of the design, bidding, and construction.

2.11 Review Plans at 90% and 100% Complete. During various stages of completion of the design, the Engineer will submit a set of Construction Plans, Specifications, and Contract Documents to the Sponsor for their review. Meetings will be scheduled for periodic reviews, including a 90% plans-in-hand (Virtual/Teams Meeting) review and a 100% (In Person) review. The project will be reviewed with the FAA to obtain their concurrence with the design.

2.12 Provide In-House Quality Control. The Engineer has an established quality control program that will provide both experienced and thorough reviews of all project submittals and will also provide engineering guidance to the design team throughout design development from an experienced, senior-level Professional Engineer.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

Prior to each review set of Construction Plans, Specifications, Contract Documents, and Engineer's Design Report being submitted to the Sponsor and FAA, a thorough, in-house quality control review of the documents will be conducted. This process will include an independent review of the Construction Plans, Specifications, Contract Documents, and Engineer's Design Report being submitted by a licensed Professional Engineer other than the Engineer who performed the design of the project. Comments will be offered by the Engineer that performed the review, and revisions to the Construction Plans, Specifications, Contract Documents, and Engineer's Design Report will be made accordingly.

In addition to the 90% and 100% reviews, the Engineer's in-house quality control program also provides engineering guidance to the design team throughout the project design in an attempt to steer the project in a manner that provides the best engineering judgment.

At the 90% design review, the independent review will re-evaluate the CATEX boundary.

2.13 Prepare and Submit Construction Plans, Specifications, Contract Documents, and Engineer's Design Report. A final set of Construction Plans (11" x 17"), Specifications, Contract Documents, and the Engineer's Design Report will be prepared and submitted to the Sponsor and the FAA. These documents will incorporate all revisions, modifications, and corrections identified during the final review. Paper and electronic copies will be provided.

2.14 Prepare Airfield Signing Plan. This task includes providing or updating the overall airfield signing and marking plan.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

3.0 Bidding Phase

3.01 Provide Bid Assistance. The Engineer will assist the Sponsor, as needed, with the preparation of any required bidding documents. Additionally, the Engineer will advertise the project Invitation for Bids on their website and directly notify potential contractors and plan rooms in order to maximize project exposure and generate interest in the project.

3.02 Prepare/Conduct Pre-Bid Meeting. The Engineer will conduct the pre-bid meeting and pre-bid site visit in sequence with the Sponsor and contract document requirements. As a part of this meeting, the Engineer will also discuss the environmental plan sheet, surveyed areas, and environmental commitments.

3.03 Prepare Addenda. Any necessary addenda will be issued to clarify and modify the project, as required, and based on questions or comments that may arise from potential contractors during the bidding process. Any necessary addenda will be reviewed with the Sponsor and FAA prior to being issued. The addenda will meet all design and construction standards, as required.

3.04 Consult with Prospective Bidders. During the bidding process, the Engineer shall be available to clarify bidding issues with contractors and suppliers and for consultation with the various entities associated with the project.

3.05 Attend Bid Opening. The Engineer shall attend the bid opening for the project, which will be conducted by the Sponsor.

3.06 Review Bid Proposals. Upon the opening of submitted bid proposals by the Sponsor, the Engineer shall review all the bid proposals submitted. A cost analysis of the bid prices will be completed and tabulated; the contractor's qualifications to perform the work will be included, including review of suspension and debarment rules on the www.Sam.gov website, Buy American compliance analysis/review, and project funding review. Inclusion of bid guarantee, acknowledgement of addenda, and in-state licensure verification shall be completed.

3.07 Prepare Recommendation of Award. The Engineer shall prepare a Recommendation of Award for the Sponsor to accept or reject the bids received with a summary of the items listed in Task 2.06. If rejection is recommended, the Engineer will supply an explanation for their recommendation and possible alternative actions the Sponsor can pursue to complete the project.

Task 3.05: Attend Bid Opening (Virtual)						
Project Manager	1	N/A	1	N/A	N/A	N/A
Task 3 Total Reimbursable Expenses				N/A	N/A	N/A

EX Reimbursable Costs During Design and Bidding. This section includes reimbursable items such as auto rental, lodging, per diem, and other miscellaneous expenses incurred in order to complete **Part A – Basic Services**.

PART B - SPECIAL SERVICES consists of the Design Survey Phase, Construction Administration Phase, Post-Construction Coordination Phase, and the On-Site Construction Coordination Phase, which are invoiced on a lump sum basis. Also included are direct subcontract costs for the quality assurance testing during construction.

4.0 Construction Administration Phase

4.01 Prepare Construction Contract and Documents. In agreement with the FAA, the Engineer shall prepare the Notice of Award, Notice to Proceed, and Contract Agreements, including bonds and insurance documents, which will be updated to include all addenda items issued during bidding, for the Sponsor's approval and signatures. Approximately five copies will be submitted to the successful Contractor for their signatures.

The Engineer will ensure the construction contracts are in order, the bonds have been completed, and the Contractor has been provided with adequate copies of the Construction Plans, Specifications, and Contract Documents, which will be updated to include all addenda items issued during bidding.

4.02 Provide Project Coordination. The Engineer shall provide project management and coordination services to ensure the completion of all construction management tasks required of the Engineer. These duties include:

- Time the Engineer spends planning, organizing, securing and scheduling resources, and providing instruction to staff to meet project objectives as defined in the approved scope of work.
- Additional items to be accomplished include compiling and sending additional information requested from the office to related parties, maintaining project files as necessary and other items necessary in day-to-day project coordination.
- The Project Manager will review progress reports weekly and monthly.
- Assist with change orders and supplemental agreements as necessary. All change orders and supplemental agreements will be coordinated with the Sponsor and FAA staff prior to execution. All change orders and supplemental agreements will be prepared in accordance with the FAA Standard Operating Procedure (SOP) 7.0, *Airport Improvement Program Construction Project Change Orders*.
- Senior construction management staff will consult with and provide guidance to the on-site Construction Manager regarding unique project elements; material quality, production, and/or placement issues; and any other difficulties encountered during construction.
- Clerical staff shall prepare the quantity sheets, testing sheets, construction report format, etc.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

- Office engineering staff, CAD personnel and clerical staff shall be required to assist the Field Personnel as necessary during construction. Specific tasks to be accomplished include providing secondary engineering opinions on issues arising during construction, maintaining project files as necessary and various other tasks necessary in the day-to-day operations.
- The Engineer will prepare and submit monthly invoicing.

The Engineer will complete the following tasks:

- Provide the Sponsor with a monthly Project Status Report (PSR), in writing, reporting on Engineer's progress and any problems that may arise while performing the work. The PSR must include an update of the project schedule, as described in this section, when schedule changes are expected.
- Prepare quarterly performance reports.

4.03 Review Environmental Documentation. This task includes the review of the overall environmental exhibit in relation to final construction documents as well as coordination throughout construction to ensure environmental commitments are maintained and environmental resources are protected.

4.04 Coordinate Quality Assurance Testing. This task includes preparing the requirements for quality assurance testing. Negotiating with the quality assurance firm for a cost to perform the work is also included in this task.

4.05 Prepare/Conduct Pre-Construction Meeting. The Engineer will conduct a pre-construction meeting to review FAA requirements as required per FAA AC 150/5370-12 (Current Edition), *Quality Management for Federally Funded Airport Construction Projects*, prior to the commencement of construction. It is anticipated that representatives of the Engineer will include the Project Manager and a Construction Manager. As a part of this meeting, the Engineer will also discuss the environmental plan sheet, surveyed areas, and environmental commitments. The meeting will be held at the airport and will include the Sponsor, FAA (if possible), Contractor, subcontractors, and airport tenants affected by the project.

4.06 Prepare/Submit Construction Management Plan. This task includes preparing and submitting the Construction Management Plan, which includes resumes of project personnel representing the stakeholders, detailed inspection procedures, required submittal processes, quality control testing methods, quality assurance testing methods, final test result summary forms, and the Contractor's Quality Control Program (CQCP). The Construction Management Plan shall be prepared to follow the requirements of FAA AC 150/5370-12 (Current Edition), *Quality Management for Federally Funded Projects*.

4.07 Review Contractor's Safety Plan Compliance Document. This task includes reviewing and providing comments on the Contractor's Safety Plan Compliance Document (SPCD) as required per FAA AC 150/5370-2 (Current Edition), *Operational Safety on Airports During Construction.* The Engineer shall review to ensure that all applicable construction safety items are addressed and meet the requirements of AC 150/5370-2 (Current Edition) and the Contract's Construction Safety and Phasing Plan (CSPP). The intent of the SPCD is to detail how the Contractor will comply with the CSPP. Following award of the project to the successful Contractor, and prior to the issuance of the Notice to Proceed, the Engineer will review the SPCD, provide comments, and, ultimately, approval of the document. It is anticipated that the document will require at least one re-submittal by the Contractor to address any missing information. An approved copy of the SPCD shall be provided to the FAA.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

4.08 Review Contractor's Quality Control Program. This task includes reviewing and providing comments on the Contractor's Quality Control Program (CQCP) as required per Item C-100 of FAA AC 150/5370-10 (Current Edition), *Standard Specifications for Construction of Airports*. The Engineer shall review the CQCP to ensure that all applicable quality control items are addressed and meet the requirements of Item C-100 and the project's technical specifications. The intent of the CQCP is to detail the methods and procedures that will be utilized to ensure that all materials and construction items are provided and completed in conformance with the project's plans, technical specifications, and/or other applicable requirements. Furthermore, the CQCP shall establish and describe corrective action plans to be implemented should any materials or production processes vary beyond pre-established quality control limits. Following the award of the project to the successful Contractor, and prior to the issuance of the Notice to Proceed, the Engineer will review the CQCP, provide comments, and, ultimately, approval of the document. It is anticipated that the document will require at least one re-submittal by the Contractor to address any missing information. The approved CQCP will be incorporated into the Engineer's Construction Management Plan and submitted to the FAA.

4.09 Review Construction Submittals. This task includes the review of construction submittals, including shop drawings and materials proposed for use on the project, submitted by the Contractor, for general conformance with the Construction Plans, Specifications, and Contract Documents. The Engineer will prepare and maintain a submittal register to log the submittals received. The submittal register will include information on the submitted items including date received, date returned, and action taken, and will be made available to the Sponsor and Contractor upon request. The submittals anticipated to be required and the estimated time it will take to review each submittal are detailed below.

Submittal Description		Estimated Time to Review (Hours)
Item P-152	Excavation, Subgrade, & Embankment	1
Item P-610	Structural Concrete Mix Design	3
Item T-901	Seed/Fertilizer/Tackifier/Hydromulch	1
Item T-905	Topsoil	1
Item L-109	Electrical Vault	4
Item L-109	Constant Current Regulator	1
Item L-108	Wire/Cable	1
Item L-108	Miscellaneous (ID Tags, Tape, Detectable Warning Tape, etc.)	1
Item L-110	Conduit	1
Item L-115	Manhole/Junction Box Shop Drawings	2
Item L-125	Runway and Taxiway Lights	2
Item L-125	Runway and Taxiway Signs	2
Item L-125	Circuit Selector Cabinet	1
Item L-125	Light Base and Transformer Housings	2
Item L-125	Isolation Transformers	1
Division 26	Electrical Components	4
Total Review Time		**28**

Additionally, it is anticipated that there will be a number of resubmittals for the various items to address comments from the Engineer's initial review. It is estimated that reviews of these resubmittals will add approximately 25%, or 7 hours, to the estimated submittal review time from the table above, resulting in an overall estimated submittal review time of 35 hours.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

4.10 Perform Site Visits During Construction. The Project Manager shall make on-site visits, as required, throughout the duration of the project. At this time, it is estimated that the Project Manager will make up to two site visits to the project.

5.0 *Post-Construction Coordination Phase*

5.01 Prepare Final Testing Report. The Engineer will submit the quality assurance testing summary report, which will include a narrative of tests taken, verification for minimum number of tests, discussion of problems and tests necessary, and a table (from Construction Management Plan) including the actual number of tests taken for each specification item to the FAA for review and approval.

5.02 Prepare Clean-up Item List. The Engineer will ensure the Contractor has removed all construction equipment and construction debris from the airport, that all access points have been re-secured (fences repaired, gates closed and locked, keys returned, etc.), and the site is clean.

5.03 Conduct Final Inspection. The Engineer, along with the Sponsor and FAA (if available), shall conduct the final inspection. The quality assurance testing summary report must be accepted by the FAA prior to final inspection.

5.04 Prepare Engineering Record Drawings. The Engineer will prepare the record drawings indicating modifications made during construction. The record drawings will be provided to the FAA electronically.

5.05 Prepare Final Construction Report. The Engineer will prepare the final construction report to meet the applicable FAA closeout checklist requirements.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

5.06 Summarize Project Costs. The Engineer will be required to obtain all administrative expenses, engineering fees and costs, testing costs, and construction costs associated with the project and assemble a total project summary. The summary will be analyzed with the associated project funding.

Project Manager	N/A	8	4	1	1	1
Task 5 Total Reimbursable Expenses				**1**	**1**	**1**

6.0 On-Site Construction Coordination Phase

This phase will consist of providing one lead Resident Project Representative (RPR). It shall be the responsibility of the RPR to facilitate sufficient on-site construction coordination to ensure that the project is completed according to good construction practice and the Project Manager's direction. It is estimated that it will take **46 calendar days** to complete construction of the project. Incidental travel costs, including vehicle usage, lodging, per diem, etc., are in addition to the engineering hours expended.

6.01 Provide Resident Engineering. It is estimated that the lead Resident Project Representative (RPR) will work approximately **10 hours per day**. It is assumed that the RPR(s) will be able to complete all daily project documentation during the course of their shift. The total time allotted for the completion of construction is anticipated to be **46 calendar days**. It is assumed that the Contractor will work **six (6) days** per week during the construction period **resulting in 40 working days**. Should the contractor be required to work seven (7) days per week or longer than anticipated hours to maintain the project schedule, the RPR's efforts may increase from those estimated here.

Prior to the commencement of construction, there will be a Pre-Construction Mobilization Phase during which time the RPR(s) will be on-site to coordinate the Contractor's pre-construction survey and required utility locates, identify phase limits and traffic control/barricade locations, verify the adequacy of traffic control and airfield safety devices, and coordinate the setup of any required temporary facilities. The Pre-Construction Mobilization Phase is scheduled for **five (5) working days** prior to the beginning of the project calendar day count, and, thus, are in addition to the number of working days outlined above.

The following tasks will be performed during the course of a typical day's shift during construction:

a. Review survey data and other construction tasks for general compliance with the construction documents.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

b. Coordinate, review, and provide a response to construction and general project Requests for Information (RFIs).
c. Prepare and process field directives and change orders.
d. Conduct labor standards interviews of the Contractor's and subcontractor's employees, and review weekly payroll records as required by the FAA. As part of this effort, all payrolls must be reviewed and logged when received. A log identifying current status of reviews, and any action taken to correct noted discrepancies, will be provided for Sponsor review at time of Request for Reimbursement processing, as appropriate.
e. Review quality control and quality assurance testing results for conformance with the project specifications.
f. Maintain record of the progress of construction, record as-built conditions, and review the quantity records with the Contractor on a periodic basis.
g. Prepare the periodic construction cost estimates and review the quantities with the Contractor. The RPR, Sponsor, and Contractor will resolve discrepancies or disagreements with the Contractor's records. After compiling all costs, the RPR will submit the periodic construction cost estimate to the Sponsor for payment.
h. Maintain daily logs of construction activities for the duration of time on site, including the Construction Project Daily Safety Inspection Checklist as required by the CSPP and SPCD.
i. Verify that construction activities associated with restricted areas, roads, staging areas, stockpiles, borrow/waste areas, etc. are all remaining within the areas cleared under environmental documentation.
j. Prepare a weekly status report using FAA Form 5370-1, *Construction Progress and Inspection Report*. The report will be submitted to the Sponsor, the FAA, and the office following the week of actual construction activities performed.
k. Review payments to subcontractors and ensure timely payment of retainage to subcontractors when payment to the Contractor is made.
l. Coordinate and attend weekly construction progress meetings with the Contractor, Sponsor, and other relevant parties.

6.02 Provide Resident Engineering for Punchlist Work. It is anticipated that, following the substantial completion of the project within the allotted calendar day contract period, it will be necessary for the Contractor to return to the project site to address or correct any outstanding incomplete or unacceptable work items. It is estimated that up to **two (2) 10-hour workdays**, along with **two (2) eight (8)-hour travel days** will be required of **one (1)** Resident Project Representative (RPR) for this task.

EX Reimbursable Costs During Survey and Construction. This section includes reimbursable items such as auto rental, lodging, per diem, travel and other miscellaneous costs incurred in order to complete **Part B – Special Services**. Section 3, 4, and 5 Reimbursables are invoiced on a lump sum basis, and Section 6 Reimbursables are invoiced on a cost plus fixed fee basis.

Special Considerations

The following special considerations are required for this project but will be completed by subconsultants to the Engineer. The cost for this work will be included in the engineering contract agreement with the Sponsor and the costs are in addition to the engineering fees outlined above.

Quality Assurance Testing. Quality assurance testing will be performed by an independent testing firm under the direct supervision of the Engineer. All quality assurance test summaries must be accepted by the FAA prior to final inspection. Certified materials technicians will perform the necessary material quality assurance testing for the following items, as detailed in the project specifications:

- ✈ Item P-610 Structural Portland Cement Concrete
- ✈ Item P-152 Excavation, Subgrade & Embankment

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

Assumptions

The scope of services described previously, and the associated fees, are based on the following rates and assumed responsibilities of the Engineer and Sponsor.

1. For the purposes of estimating the amount of reimbursable expenses which will be incurred by the Engineer, the cost of per diem and lodging are calculated in accordance with current GSA rates. The actual amount to be invoiced for per diem will be in accordance with the published GSA rate at the time of service and may vary from the rate used in the fee estimate. Lodging will be invoiced as an actual expense incurred.

2. During periods of On-Site Construction Coordination covered under Task 7, a $5/day surcharge will be added to the daily vehicle charge which will be reflected in the Engineering Fee as a daily "Field Vehicle and Equipment" expense. This surcharge is intended to cover consumables (such as marking paint, lath, etc.) and the replacement of tools (such as measuring wheels, airfield radios, infrared thermometers, etc.) necessary to monitor and identify the various aspects of the work.

3. It is anticipated there will be a minimum number of trips and site visits to the airport to facilitate the completion of the various phases listed in this scope. The number of trips, as well as the anticipated lengths and details of the trips, are included at the end of each phase above.

4. The Sponsor will provide existing mapping data including as-builts available for the project areas, aerial orthoimagery, subsurface conditions information such as prior geotechnical investigations in the project area and other available information in the possession of the Sponsor.

5. The Sponsor will provide an electronic copy of the current ALP to allow for updating of the plan upon completion of the project.

6. The Sponsor will furnish escorts as needed for the Engineer to conduct field work.

7. The Sponsor will coordinate with tenants as required to facilitate field evaluations and construction.

8. All engineering work will be performed using accepted engineering principles and practices and provide quality products that meet or exceed industry standards. Dimensional criteria will be in accordance with FAA AC 150/5300-13 (Current Edition), *Airport Design,* and related circulars. Construction specifications will be in accordance with FAA AC 150/5370-10 (Current Edition), *Standard Specifications for Construction of Airports,* and the Southwest ADO Regional Updates for Specifying Construction of Airports and related circulars. Project planning, design, and construction will further conform to all applicable standards, including all applicable current FAA Advisory Circulars and Orders required for use in AIP-funded projects and other national, state, or local regulations and standards, as identified and relevant to an airfield design and construction project.

9. The Engineer will utilize the following plan standards for the project:

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

- Plans will be prepared using the Engineer's standards, unless the Sponsor provides its own standards upon Notice to Proceed.
- Plan elevations will be vertical datum NAVD 88 derived from the existing control network.
- Plan coordinates will be based on horizontal datum NAD 83/2011 State Plane Coordinates derived from the existing control network.
- All plans will be stamped and signed by a state-licensed Professional Engineer, or Professional Land Surveyor, as required.
- Plans prepared by subconsultants will be prepared using the same base maps, the same coordinate systems and the same plan layout and format as plans prepared by the Engineer.
- The guidance included in FAA Memorandum, *FAA Review of Construction Plans and Specifications for AIP Funded Projects*, will be reviewed, incorporated and will supplement the Engineer's standards.

10. The Engineer will utilize the following assumptions when preparing the project manual for bidding and construction of the project:

    - The project manual Contract Documents will be developed jointly by the Sponsor and the Engineer.
    - The Engineer is responsible for developing the contents of the document and including the Front-End documents which will be supplied by the Sponsor.
    - FAA General Provisions and required contract language will be used.

11. The Engineer must maintain records of design analyses and calculations consistent with typical industry standards, as required by the FAA, for a period of three years after the project is closed by the FAA.

12. Because the Engineer has no control over the cost of construction-related labor, materials, or equipment, the Engineer's opinions of probable construction costs will be made on the basis of experience and qualifications as a practitioner of his/her profession. The Engineer does not guarantee that proposals for construction, construction bids, or actual project construction costs will not vary from Engineer's estimates of construction cost.

13. An AC 150/5300-18B (or Current Edition) compliant survey is not required as a part of this project. No data will be submitted to Airports GIS (AGIS) through the Airport Data and Information Portal (ADIP).

Additional Services

The following items are not included under this agreement but will be considered as extra work:

- Due to the recent changes to the Federal DBE program, no services for setting DBE Program or Project Goals can be provided at this time, and are not included in this scope of work. If these services are requested after the new certification process has been completed, and notice of completion is provided by the Civil Rights Office, Certifying Agencies, or FAA, they will be under a separate scope of work, or an amendment to this scope of work.
- Redesign for the Sponsor's convenience or due to changed conditions after previous alternate direction and/or approval.
- Submittals or deliverables in addition to those listed herein.

Docusign Envelope ID: 61C8E2D6-F660-8A44-8246-4513AA443CCA

- If a project audit occurs, the Engineer is prepared to assist the Sponsor in gathering and preparing the required materials for the audit.
- Serving as an expert witness for the Owner in any litigation, surety claim, contractor bond activation, or other proceeding involving the project.
- Additional or extended services during construction made necessary by extension of contract time, non-concurrent work, or changes in the work.
- Legal, surety, or insurance support, coordination, and representation.

Extra Work will be as directed by the Sponsor in writing for an additional fee as agreed upon by the Sponsor and the Engineer.

*For the purposes of estimating the cost of mileage, per diem, and lodging are calculated in accordance with applicable IRS and GSA guidelines. At the time of invoicing mileage will be invoiced in accordance with published IRS rates at the time of service and per diem will be invoiced in accordance with published GSA rates at the time of service. Lodging will be invoiced as actual expense incurred except in the cases where specific client requirements exist that limit lodging to GSA standards.

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent must disclose any conflicts of interest related to the goods and/or services associated with this solicitation. A conflict-of-interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s). The City reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

If a conflict of interest exists, the Respondent must:

- Complete Form CIQ
- File the form with the City Secretary
- Include a copy of the completed Form CIQ with the proposal

If no conflict of interest exists, Form CIQ is not required. Regardless of whether a conflict exists, this Form 2 must be completed and signed.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict-of-interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

City Secretary Contact Information

City of Brownsville – Office of the City Secretary
1001 East Elizabeth Street, Brownsville, Texas 78520
Email: citysecretary@brownsvilletx.gov
Phone: (956) 548-6000

Docusign Envelope ID: 74922672-8103-89B3-81C4-66C685470D17

Certification

By signing below, the Respondent certifies that they have reviewed and understand the requirements of Chapter 176, Texas Local Government Code and have determined whether a conflict of interest exists. The Respondent further certifies that, if a conflict of interest exists, a completed Conflict of Interest Questionnaire (Form CIQ) has been or will be filed with the City Secretary in accordance with state law and that a copy of the completed Form CIQ is included with this submission, if applicable. The Respondent affirms that all information provided is true and correct and that they are authorized to bind the entity.

CONFLICT OF INTEREST QUESTIONNAIRE

For vendor doing business with local governmental entity

FORM CIQ

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY
Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

_____
Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

7

_____ _____
Signature of vendor doing business with the governmental entity Date

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Docusign Envelope ID: 74922672-8103-89B3-81C4-66C685470D17

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed in accordance with TEC requirements.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Stephen Muse, Accountant III
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to Authorize a Contract with ClearGov, Inc in the amount of $171,966 for Contract No. 371-26-FIN-CP, for a term of Three (3) Years, approximately $57,322 per year, for budgeting and financial management software services. (Financial Services Department)

Summary:
The Finance Department and Enterprise Project Management Office currently utilize ClearGov for various budgeting and financial management functions. This agreement will consolidate the City's existing ClearGov services under a single agreement to support operational, personnel, and capital budgeting, financial reporting, budget tracking, and financial transparency.

The Procurement Department recommends that the City Commission authorize a contract with ClearGov, Inc. under a Buyboard Cooperative Agreement No.792-26 in accordance with Texas Local Gov't Code §271.102, for a three (3) year term in an amount not to exceed $171,965.09. Approval of this agenda item will authorize the full contract value.

Project Scope and Analysis:
Contract Amount: $171,965.09
October 1, 2026 (Year 1): $54,548.80
October 1, 2027 (Year 2): $57,276.24
October 1, 2028 (Year 3): $60,140.05

COOPERATIVE PURCHASE AGREEMENT
371-26-FIN-CP

This Cooperative Purchase Agreement ("Agreement") is entered into by and between ClearGov, Inc. ("Vendor") and the City of Brownsville, ("City"), a Texas home rule municipality.

The Cooperative Purchase Agreement includes the following documents which shall be construed in the order of precedence in which they are listed:

1. This Cooperative Purchase Agreement.
2. Exhibit A – Proposal
3. Exhibit B – Buyboard Contract No. 792-26
4. Exhibit C – Form 2 – Statement of Conflict of Interest
5. Exhibit D – Form 3 – Texas Ethics Commission Certificate of Interested Parties (1295)

Exhibits A, B, C, and D which are attached hereto and incorporated herein, are made a part of this Agreement for all purposes. Vendor agrees to provide City with the services and goods included in Exhibit A pursuant to the terms and conditions of this Cooperative Purchase Agreement, including all exhibits thereto.

City shall pay Vendor in accordance with the fee schedule in Exhibit A and in accordance with the provisions of this Agreement. Total payment made under this Agreement by City shall not exceed One Hundred Seventy-One Thousand Nine Hundred Sixty-Five Dollars and Nine Cents ($171,965.09). Vendor shall not provide any additional items or services or bill for expenses incurred for City not specified by this Agreement unless City requests and approves in writing the additional costs for such services. City shall not be liable for any additional expenses of Vendor not specified by this Agreement unless City first approves such expenses in writing.

The term of this Agreement shall commence on approval by the City Commission or designee and end on September 30, 2029. **Survival of Agreement.** Notwithstanding the expiration of BuyBoard Contract No. 792-26 on March 31, 2029, this Agreement, having been entered into during the effective term of the cooperative contract, shall remain in full force and effect through September 30, 2029, unless earlier terminated in accordance with its terms

Vendor agrees that City shall, until the expiration of final payment under this Agreement, or the final conclusion of any audit commenced during the said three years, have access to and the right to examine at reasonable times any directly pertinent books, documents, papers and records, including, but not limited to, all electronic records, of Vendor involving transactions relating to this Agreement at no additional cost to City. Vendor agrees that City shall have access during normal working hours to all necessary Vendor facilities and shall be provided adequate and appropriate workspace in order to conduct audits in compliance with the provisions of this section. City shall give Vendor reasonable advance notice of intended audits.

VENDOR ACKNOWLEDGES THAT CITY IS A GOVERNMENT ENTITY AND AS SUCH CANNOT INDEMNIFY OR HOLD HARMLESS A PARTY WITHOUT FIRST CREATING A SINKING FUND OR LEVYING A TAX. VENDOR FURTHER ACKNOWLEDGES THAT THE CITY HAS NO INTENTION OF CREATING SUCH A SINKING FUND OR LEVYING A TAX. THE PARTIES AGREE THAT ANY PROVISION CONTAINED WITHIN THE CONTRACT DOCUMENTS REQUIRING THE CITY TO INDEMNIFY OR HOLD HARMLESS THE VENDOR IS HEREBY STRICKEN.

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

Notices required pursuant to the provisions of this Agreement shall be conclusively determined to have been delivered when (1) hand-delivered to the other party, its agents, employees, servants or representatives, (2) delivered by facsimile with electronic confirmation of the transmission, or (3) received by the other party by United States Mail, registered, return receipt requested, addressed as follows:

General Terms & Conditions	
Taxes	The Service Fees and Billing amounts set forth above in this ClearGov Service Order **DO NOT** include applicable taxes. In accordance with the laws of the applicable state, in the event that sales, use or other taxes apply to this transaction, ClearGov shall include such taxes on applicable invoices and Customer is solely responsible for such taxes, unless documentation is provided to ClearGov demonstrating Customer's exemption from such taxes.
Term & Termination	Subject to the termination rights and obligations set forth in the ClearGov BCM Service Agreement, this ClearGov Service Order commences upon the Order Date set forth herein and shall continue until the completion of the Service Period(s) for the Service (s) set forth herein. Each Service shall commence upon the Start Date set forth herein and shall continue until the completion of the applicable Service Period.
Auto-Renewal	After the Initial Period, the Service Period for any ClearGov Annual Subscription Services shall automatically renew for successive annual periods (each an ***"Annual Term"***), unless either Party provides written notice of its desire not to renew at least sixty (60) days prior to the end of the then current Annual Term.
Original Service Orders	As of 10/1/26, this ClearGov Service Order supersedes the ClearGov Service Orders with an Order Date of 12/20/2023, 10/2/2024, 06/24/2025 (the "Original Service Orders"). The Original Service Orders shall be null and void as of 10/1/26.
Appropriations	Customer shall have the option to terminate this ClearGov Service Order in advance of any annual renewal in the event that the applicable appropriating body does not appropriate funds for such upcoming renewal period.
Agreement	The signature herein affirms your commitment to pay for the Service(s) ordered in accordance with the terms set forth in this ClearGov Service Order and also acknowledges that you have read and agree to the terms and conditions set forth in the ClearGov BCM Service Agreement found at the following URL: http://www.ClearGov.com/terms-and-conditions. This Service Order incorporates by reference the terms of such ClearGov BCM Service Agreement.

Statement of Work

This Statement of Work outlines the roles and responsibilities by both ClearGov and Customer required for the activation and onboarding of the ClearGov Service. ClearGov will begin this onboarding process upon execution of this Service Order. All onboarding services and communications will be provided through remote methods - email, phone, and web conferencing.

ClearGov Responsibilities

- ClearGov will activate ClearGov Service subscription(s) as of the applicable Start Date(s). ClearGov will create the initial Admin User account, and the Customer Admin User will be responsible for creating additional User accounts.

- ClearGov will assign an Implementation Manager (IM) responsible for managing the activation and onboarding process. ClearGov IM will coordinate with other ClearGov resources, as necessary.

- ClearGov IM will provide a Kickoff Call scheduling link to the Customer's Primary Contact. Customer should schedule Kickoff Call within two weeks after the Service Order has been executed.

- If Customer is subscribing to any products that require data onboarding:
  - ClearGov IM will provide a Data Discovery Call scheduling link to the Customer's Primary Contact. Customer should schedule Data Discovery Call based on the availability of Customer's staff.
  - ClearGov will provide Customer with financial data requirements and instructions, based on the ClearGov Service subscription(s).
  - ClearGov will review financial data files and confirm that data is complete, or request additional information, if necessary. Once complete financial data files have been received, ClearGov will format the data, upload it to the ClearGov platform and complete an initial mapping of the data.
  - After initial mapping, ClearGov will schedule a Data Review call with a ClearGov Data Onboarding Consultant (DOC), who will present how the data was mapped, ask for feedback, and address open questions. Depending upon Customer feedback and the complexity of data mapping requests, there may be additional follow-up calls or emails required to complete the data onboarding process.

- ClearGov will inform Customer of all training, learning, and support options. ClearGov recommends all Users attend ClearGov Academy training sessions and/or read Support Center articles before using the ClearGov Service to ensure a quick ramp and success. As needed, ClearGov will design and deliver customized remote training and configuration workshops for Admins and one for End Users - via video conference - and these sessions will be recorded for future reference.

- ClearGov will make commercially reasonable efforts to complete the onboarding/activation process in a timely fashion, provided Customer submits financial data files and responds to review and approval requests by ClearGov in a similarly timely fashion. Any delay by Customer in meeting these deliverable requirements may result in a delayed data onboarding process. Any such delay shall not affect or change the Service Period(s) as set forth in the applicable Service Order.

Customer Responsibilities

- Customer's Primary Contact will coordinate the necessary personnel to attend the Kickoff and Data Discovery Calls within two weeks after the Service Order has been executed. If Customer needs to change the date/time of either of these calls, the Primary Contact will notify the ClearGov IM at least one business day in advance.

- If Customer is subscribing to any products that require data onboarding:
  - Customer will provide a complete set of requested financial data files (revenue, expense, chart of accounts, etc.) to ClearGov in accordance with the requirements provided by ClearGov.
  - Customer's Primary Contact will coordinate the necessary personnel to attend the Data Discovery and Data Review calls. It is recommended that all stakeholders with input on how data should be mapped should attend. Based on these calls and any subsequent internal review, Customer shall provide a detailed list of data mapping requirements and requested changes to data mapping drafts in a timely manner, and Customer will approve the final data mapping, once completed to Customer's satisfaction.

- Customer will complete recommended on-demand training modules in advance of customized training & configuration workshops.

- Customer shall be solely responsible for importing and/or inputting applicable text narrative, custom graphics, performance metrics, capital requests, personnel data, and other such information for capital budget, personnel budget, budget books, projects, dashboards, etc.

Re: ***Notice of The Local Government Purchasing Cooperative Contract Award;*** Proposal Invitation No. 792-26, Software as a Service (SaaS), Cybersecurity Assessments, and Related Products and Services

Congratulations, The Local Government Purchasing Cooperative (Cooperative) has awarded your company a BuyBoard® contract based on the above-referenced Proposal Invitation. The contract is effective for an initial one-year term of April 1, 2026, through March 31, 2027, and may be subject to two possible one-year renewals. Please refer to the Proposal Invitation for the contract documents, including the General Terms and Conditions of the Contract.

To review the items your company has been awarded, please review Proposal Tabulation No. 792-26 at: www.buyboard.com/vendor. Only items marked as awarded to your company are included in this contract award, and only those awarded items may be sold through the BuyBoard contract. All sales must comply with the contract terms and must be at or below the awarded pricing as set forth in the General Terms and Conditions.

A list of Cooperative members is available on the buyboard.com website. In addition, the BuyBoard Administrator's vendor relations staff is available to assist you in locating available BuyBoard informational resources and answering questions you may have as an awarded BuyBoard vendor.

On behalf of the Cooperative, we appreciate your interest in the Cooperative and we are looking forward to your participation in the program. If you have any questions, feel free to contact me at bids@buyboard.com.

Sincerely,

Ava Benford, Department Director, Cooperative Procurement
Texas Association of School Boards, Inc.,
Administrator for The Local Government Purchasing Cooperative

PROPOSAL FORMS PART 1: COMPLIANCE FORMS

INSTRUCTIONS:

Proposer must review and complete all forms in this Proposal Forms Part 1:

- Proposal Acknowledgements
- Felony Conviction Disclosure
- Resident/Nonresident Certification
- Debarment Certification
- Vendor Employment Certification
- No Boycott Verification
- No Excluded Nation or Foreign Terrorist Organization Certification
- Historically Underutilized Business Certification
- Acknowledgement of BuyBoard Technical Requirements
- Construction-Related Goods and Services Affirmation
- Deviation and Compliance
- Vendor Consent for Name Brand Use
- Confidential/Proprietary Information
- EDGAR Vendor Certification
- Compliance Forms Signature Page

An authorized representative of Proposer *must initial in the bottom right corner of each page* **where indicated and complete and sign the Compliance Forms Signature Page. Proposer's failure to fully complete, initial, and sign forms as required may result in your Proposal being rejected as non-responsive.**

PROPOSAL ACKNOWLEDGEMENTS

The proposing company ("you" or "your") hereby acknowledges and agrees as follows:

1. You have carefully examined and understand all information and documentation associated with this Proposal Invitation, including the Instructions to Proposers, General Information, General Terms and Conditions, attachments/forms, appendices, item specifications, and line items (collectively "Requirements");
2. By your response ("Proposal") to this Proposal Invitation, you propose to supply the products or services submitted at the pricing quoted in your Proposal and in strict compliance with the Requirements, unless specific deviations or exceptions are noted in the Proposal;
3. By your Proposal, you acknowledge and certify all items set forth in the General Terms and Conditions, Section B.12 (Certifications), including all non-collusion certifications and certifications regarding legal, ethical, and other matters set forth therein.
4. Any and all deviations and exceptions to the Requirements have been noted in your Proposal on the required form and no others will be claimed;

Initial: BB

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

5. If the Cooperative accepts any part of your Proposal and awards you a Contract, you will furnish all awarded products or services at the pricing quoted and in strict compliance with the Requirements (unless specific deviations or exceptions are noted on the required form and accepted by the Cooperative), including without limitation the Requirements related to:
   a. conducting business with Cooperative members, including offering pricing to members that is the best you offer compared to similarly situated customers in similar circumstances;
   b. payment of a service fee in the amount specified and as provided for in this Proposal Invitation;
   c. the **possible** award of a piggy-back contract by the National Purchasing Cooperative or nonprofit entity, in which event you will offer the awarded products and services in accordance with the Requirements; and
   d. submitting price sheets or catalogs in the proper format as required by the Cooperative as a prerequisite to activation of your Contract;
6. You have clearly identified on the included form any information in your Proposal that you believe to be confidential or proprietary or that you do not consider to be public information subject to public disclosure under the Texas Public Information Act or similar public information law;
7. The individual submitting this Proposal is duly authorized to enter into the contractual relationship represented by this Proposal Invitation on your behalf and bind you to the Requirements, and such individual (and any individual signing a form or Proposal document) is authorized and has the requisite knowledge to provide the information and make the representations and certifications required in the Requirements;
8. You have carefully reviewed your Proposal, and certify that all information provided is true, complete, and accurate to the best of your knowledge, and you authorize the Cooperative to take such action as it deems appropriate to verify such information; and
9. Any misstatement, falsification, or omission in your Proposal, whenever or however discovered, will be grounds for disqualifying you from consideration for a contract award under this Proposal Invitation, termination of a contract award, or any other remedy or action provided for in the General Terms and Conditions or by law.

FELONY CONVICTION DISCLOSURE

Subsection (a) of Section 44.034 of the Texas Education Code (Notification of Criminal History of Contractor) states: "A person or business entity that enters into a contract with a school district must give advance notice to the district if the person or an owner or operator has been convicted of a felony. The notice must include a general description of the conduct resulting in the conviction of a felony."

Section 44.034 further states in Subsection (b): "A school district may terminate a contract with a person or business entity if the district determines that the person or business entity failed to give notice as required by Subsection (a) or misrepresented the conduct resulting in the conviction. The district must compensate the person or business entity for services performed before the termination of the contract."

Please check (√) one of the following:

☐ My company is a publicly-held corporation. (Advance notice requirement does not apply to publicly-held corporation.)
☒ My company is not owned or operated by anyone who has been convicted of a felony.
☐ My company is owned/operated by the following individual(s) who has/have been convicted of a felony:

Name of Felon(s): _____

Details of Conviction(s): _____

_____

Initial: BB

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

RESIDENT/NONRESIDENT CERTIFICATION

Chapter 2252, Subchapter A, of the Texas Government Code establishes certain requirements applicable to proposers who are not Texas residents. Under the statute, a "resident" proposer is a person whose principal place of business is in Texas, including a contractor whose ultimate parent company or majority owner has its principal place of business in Texas. A "nonresident" proposer is a person who is not a Texas resident. Please indicate the status of your company as a "resident" proposer or a "nonresident" proposer under these definitions.

Please check (√) one of the following:

☐ I certify that my company is a **Resident Proposer.**
☒ I certify that my company is a **Nonresident Proposer.**

If your company is a Nonresident Proposer, you must provide the following information for your resident state (the state in which your company's principal place of business is located):

ClearGov, Inc.	2 Mill and Main Place, Suite 630	
Company Name	Address	
Maynard	MA	01754
City	State	Zip Code

A. Does your resident state require a proposer whose principal place of business is in Texas to under-price proposers whose resident state is the same as yours by a prescribed amount or percentage to receive a comparable contract?

☐ Yes ☒ No

B. What is the prescribed amount or percentage? $_____ or _____%

DEBARMENT CERTIFICATION

By signature on the Compliance Forms Signature Page, I certify that neither my company nor an owner or principal of my company has been debarred, suspended or otherwise made ineligible for participation in Federal Assistance programs under Executive Order 12549, "Debarment and Suspension," as described in the Federal Register and Rules and Regulations. Neither my company nor an owner or principal of my company is currently listed on the government-wide exclusions in SAM, debarred, suspended, or otherwise excluded by agencies or declared ineligible under any statutory or regulatory authority. My company agrees to immediately notify the Cooperative and all Cooperative members with pending purchases or seeking to purchase from my company if my company or an owner or principal is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under any statutory or regulatory authority.

VENDOR EMPLOYMENT CERTIFICATION

Section 44.031(b) of the Texas Education Code establishes certain criteria that a school district must consider when determining to whom to award a contract. Among the criteria for certain contracts is whether the vendor or the vendor's ultimate parent or majority owner (i) has its principal place of business in Texas; or (ii) employs at least 500 people in Texas. If neither your company nor the ultimate parent company or majority owner has its principal place of business in Texas, does your company, ultimate parent company, or majority owner employ at least 500 people in Texas?

Please check (√) one of the following:

☐ Yes ☒ No

NO BOYCOTT VERIFICATION

A Texas governmental entity may not enter into a contract with a value of $100,000 or more that is to be paid wholly or partly from public funds with a company (excluding a sole proprietorship) that has 10 or more full-time employees for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel and will not boycott Israel during the term of the contract (TEX. GOV'T CODE Ch. 2271), (2) does not boycott energy companies and will not boycott energy companies during the term of the contract (TEX. GOV'T CODE Ch. 2276), and (3) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association and will not discriminate during the term of the contract against a firearm entity or firearm trade association (TEX. GOV'T CODE Ch. 2274). Accordingly, this certification form is included to the extent required by law.

"Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes. TEX. GOV'T CODE §808.001(1).

"Boycott energy company" means, without an ordinary business purpose, refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company: (A) engages in the exploration, production, utilization, transportation, sale, or manufacturing of fossil fuel-based energy and does not commit or pledge to meet environmental standards beyond applicable federal and state law; or (B) does business with a company described by Paragraph (A). TEX. GOV'T CODE §809.001(1).

"Discriminate against a firearm entity or firearm trade association" means, (A) with respect to the entity or association, to: (i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association; (ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or (iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and (B) does not include: (i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and (ii) a company's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship: (aa) to comply with federal, state, or local law, policy, or regulations or a directive by a regulatory agency; or (bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity's or association's status as a firearm entity or firearm trade association. TEX. GOV'T CODE §2274.001(3).

By signature on the Compliance Forms Signature Page, to the extent applicable, I certify and verify that Vendor does not boycott Israel, boycott energy companies, or discriminate against a firearm entity or firearm trade association and will not do so during the term of any contract awarded under this Proposal Invitation, that this certification is true, complete and accurate, and that I am authorized by my company to make this certification.

NO EXCLUDED NATION OR FOREIGN TERRORIST ORGANIZATION CERTIFICATION

Chapter 2252 of the Texas Government Code provides that a Texas governmental entity may not enter into a contract with a company engaged in active business operations with Sudan, Iran, or a foreign terrorist organization – specifically, any company identified on a list prepared and maintained by the Texas Comptroller under Texas Government Code §§806.051, 807.051, or 2252.153. (A company that the U.S. Government affirmatively declares to be excluded from its federal sanctions regime relating to Sudan, Iran, or any federal sanctions regime relating to a foreign terrorist organization is not subject to the contract prohibition.)

By signature on the Compliance Forms Signature Page, I certify and verify that Vendor is not on the Texas Comptroller's list identified above; that this certification is true, complete and accurate; and that I am authorized by my company to make this certification.

HISTORICALLY UNDERUTILIZED BUSINESS CERTIFICATION

A Proposer that has been certified as a Historically Underutilized Business (also known as a Minority/Women Business Enterprise or "MWBE" and all referred to in this form as a "HUB") is encouraged to indicate its HUB certification status when responding to this Proposal Invitation. The BuyBoard website will indicate HUB certifications for awarded Vendors that properly indicate and document their HUB certification on this form. *(Please check (√) all that apply)*

☐ I certify that my company has been certified as a HUB in the following categories:

☐ **Minority Owned Business** ☐ **Women Owned Business**
☐ **Service-Disabled Veteran Owned Business (veteran defined by 38 U.S.C. §101(2), who has a service-connected disability as defined by 38 U.S.C. § 101(16), and who has a disability rating of 20% or more as determined by the U. S. Department of Veterans Affairs or Department of Defense)**

Certification Number: _____

Name of Certifying Agency: _____

☒ My company has **NOT** been certified as a HUB.

ACKNOWLEDGEMENT OF BUYBOARD TECHNICAL REQUIREMENTS

Vendor shall review the BuyBoard Technical Requirements included in this Proposal Invitation. By signature on the Compliance Forms Signature Page, the undersigned affirms that Proposer has obtained a copy of the BuyBoard Technical Requirements, has read and understands the requirements, and certifies that Vendor is able to meet and will comply with those requirements except as follows: *[List and explain BuyBoard Technical Requirements, if any, to which your company cannot or will not comply.]*

Note: In accordance with the General Terms and Conditions of the Contract, to the extent Vendor is awarded a Contract under this Proposal Invitation but is unable or unwilling to meet the applicable BuyBoard Technical Requirements, the information available on the BuyBoard for Vendor's awarded products or services may be limited, potentially placing Vendor at a disadvantage and impacting the ability of Cooperative members to search, find, review, and purchase Vendor's awarded products and services on the BuyBoard website. Further, to the extent Vendor has acknowledged ability to meet and comply with the BuyBoard Technical Requirements, any subsequent failure or refusal by Vendor to promptly provide information upon request to the Cooperative administrator in accordance with those technical requirements may be deemed an event of default under the Contract. **Initial:** BB

CONSTRUCTION-RELATED GOODS AND SERVICES AFFIRMATION

The Cooperative issued the BuyBoard Procurement and Construction-Related Goods and Services Advisory for Texas Members ("Advisory"), which provides information specifically relevant to the procurement of construction-related goods and services by Texas Cooperative members. The Advisory, available at buyboard.com/Vendor/Resources.aspx, provides an overview of certain legal requirements that are potentially relevant to a Cooperative member's procurement of construction or construction-related goods and services, including those for projects that may involve or require architecture, engineering or independent testing services. A copy of the Advisory can also be provided upon request. Because many BuyBoard contracts include goods or installation services that might be considered construction-related, Proposer must make this Construction Related-Goods and Services Affirmation regardless of type of goods or services associated with this Proposal Invitation.

A contract awarded under this Proposal Invitation covers only the specific goods and/or services awarded by the Cooperative. As explained in the Advisory ("Advisory"), **Texas law prohibits the procurement of architecture or engineering services through a purchasing cooperative. This Proposal Invitation and any Contract awarded thereunder does not include such services. Architecture or engineering services must be procured by a Cooperative member separately, in accordance with the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code) and other applicable law and local policy.**

By signature on the Compliance Forms Signature Page, Proposer affirms that Proposer has obtained a copy of the Advisory, has read and understands the Advisory, and is authorized by Proposer to make this affirmation. If Proposer sells construction-related goods or services to a Cooperative member under a Contract awarded under this Proposal Invitation, Proposer will comply with the Advisory and applicable legal requirements, make a good faith effort to make its Cooperative member customers or potential Cooperative member customers aware of such requirements, and provide a Cooperative member with a copy of the Advisory before accepting the member's Purchase Order or other agreement for construction-related goods or services.

DEVIATION AND COMPLIANCE

If your company intends to deviate from the General Terms and Conditions, Proposal Specifications or other requirements associated with this Proposal Invitation, you MUST list all such deviations on this form, and provide complete and detailed information regarding the deviations on this form or an attachment to this form. **Prior to completing this form, Vendor shall review the General Terms and Conditions section B.4 (Deviations from Item Specifications and General Terms and Conditions). Please note that, as provided in section B.4, certain provisions of the General Terms and Conditions are NOT subject to deviation, and certain deviations will be deemed rejected without further action by the Cooperative. Any attempted deviation, whether directly or indirectly, to provisions identified in this Proposal Invitation as not subject to deviation shall be deemed rejected by the Cooperative and, unless otherwise withdrawn by Vendor, may result in Vendor's Proposal being rejected in its entirety.**

The Cooperative will consider any deviations in its contract award decision and reserves the right to accept or reject a proposal based upon any submitted deviation.

In the absence of any deviation identified and described in accordance with the above, your company must fully comply with the General Terms and Conditions, Proposal Specifications and all other requirements associated with this Proposal Invitation if awarded a Contract under this Proposal Invitation. A deviation will not be effective unless accepted by the Cooperative. The Cooperative, by and through the Cooperative administrator, may, in its sole discretion, seek clarification from and/or communicate with Proposer(s) regarding any submitted deviation, consistent with general procurement principles of fair competition. The Cooperative reserves the right to accept or reject a Proposal based upon any submitted deviation.

Please check (√) one of the following:

☒ **No**; Deviations
☐ **Yes**; Deviations

List and fully explain any deviations you are submitting:

VENDOR CONSENT FOR NAME BRAND USE

BuyBoard members seeking to make purchases using a Contract awarded under this Proposal Invitation may view information regarding awarded Vendors, including but not limited to product catalogs, pricelists, pricing, and Proposals, through the BuyBoard website. To improve and enhance the experience of BuyBoard members seeking to procure goods and services under the Contract utilizing the BuyBoard website, any Vendor logo, product images, and similar brand and trademark information provided by Vendor for purposes of the Contract ("Vendor Information") may be posted on the BuyBoard website.

You acknowledge that, by submitting your Proposal, unless you specifically opt out below, you consent to use of your company's Vendor Information on the BuyBoard website if awarded a Contract. You further acknowledge that whether, where, and when to include the Vendor Information on the BuyBoard website shall be at the sole discretion of the BuyBoard Administrator. Vendor retains, however, the right of general quality control over the BuyBoard Administrator's authorized display of proprietary Vendor Information. Neither the BuyBoard nor its administrator will be responsible for the use or distribution of Vendor Information by BuyBoard members or any other third party using the BuyBoard website. This Vendor Consent shall be effective for the full term of the Contract, including renewals, unless Vendor provides a signed, written notice revoking consent to contractadmin@buyboard.com. BuyBoard shall have up to thirty days from the date of receipt of a termination or revocation of a Vendor Consent to remove Vendor information from the BuyBoard website.

This Vendor Consent is subject to the Terms and Conditions of the Contract, including, but not limited to, those terms pertaining to Disclaimer of Warranty and Limitation of Liability, Indemnification, and Intellectual Property Infringement.

Vendor logo files must be submitted in one of the formats set forth in the BuyBoard Technical Requirements. Proposers are requested to submit this information with Vendor's Proposal. (This consent shall not authorize use of your company's Vendor Information by BuyBoard if your company is not awarded a Contract.)

OPT OUT:

If your company wishes to opt out of the Vendor Consent for Name Brand Use, you must check the opt out box below.
DO NOT select this box unless your company is opting out of this Vendor Consent for Name Brand Use.

☐ By checking this box, Vendor hereby declines to provide consent for use of Vendor Information (as defined herein) on the BuyBoard website. **By opting out, Vendor acknowledges and agrees that, if Vendor is awarded a Contract under this Proposal Invitation, information available on the BuyBoard for Vendor's awarded products or services may be limited, potentially placing Vendor at a disadvantage and impacting the ability of Cooperative members to search, find, review, and purchase Vendor's awarded products and services on the BuyBoard website.**

CONFIDENTIAL/PROPRIETARY INFORMATION

A. Public Disclosure Laws

All Proposals, forms, documentation, catalogs, pricelists, or other materials submitted by Vendor to the Cooperative in response to this Proposal Invitation, may be subject to the disclosure requirements of the Texas Public Information Act (Texas Government Code chapter 552.001, *et. seq.*) or similar disclosure law. Proposer must clearly identify on this form any information in its Proposal (including forms, documentation, or other materials submitted with the Proposal) that Proposer considers proprietary or confidential. If Proposer fails to properly identify the information, the Cooperative shall have no obligation to notify Vendor or seek protection of such information from public disclosure should a member of the public or other third party request access to the information under the Texas Public Information Act or similar disclosure law. When required by the Texas Public Information Act or other disclosure law, Proposer may be notified of any third-party request for information in a Proposal that Proposer has identified in this form as proprietary or confidential.

Does your Proposal (including forms, documentation, catalogs, pricelists, or other materials submitted with the Proposal) contain information which Vendor considers proprietary or confidential?

Please check (√) one of the following:

☒ **NO,** I certify that none of the information included with this Proposal is considered confidential or proprietary.

☐ **YES,** I certify that this Proposal contains information considered confidential or proprietary and all such information is specifically identified on this form.

If you responded "YES", you must clearly identify below the specific information you consider confidential or proprietary. List each page number, form number, or other information sufficient to make the information readily identifiable. The Cooperative and Cooperative administrator shall not be responsible for a Proposer's failure to clearly identify information considered confidential or proprietary. Further, by submitting a Proposal, Proposer acknowledges that the Cooperative and Cooperative administrator will disclose information when required by law, even if such information has been identified herein as information Vendor considers confidential or proprietary.

C. Consent to Release Confidential/Proprietary/Copyright Information to BuyBoard Members

BuyBoard members (Cooperative and nonprofit members) seeking to make purchases through the BuyBoard may wish to view information included in the Proposals of awarded Vendors. If you identified information on this form as confidential, proprietary, or subject to copyright, and you are awarded a BuyBoard contract, your acceptance of the BuyBoard contract award constitutes your consent to the disclosure of such information to BuyBoard members, including posting of such information on the secure BuyBoard website for members. Note: Neither the Cooperative nor Cooperative administrator will be responsible for the use or distribution of information by BuyBoard members or any other party.

D. Consent to Release Proposal Tabulation

Notwithstanding anything in this Confidential/Proprietary Information form to the contrary, by submitting a Proposal, Vendor consents and agrees that, upon Contract award, the Cooperative may publicly release, including posting on the public BuyBoard website, a copy of the proposal tabulation and award information for the Contract including Vendor name; proposed catalog/pricelist name(s); proposed percentage discount(s), hourly labor rate(s), or other specified pricing; and Vendor award or non-award information.

EDGAR VENDOR CERTIFICATION
(2 CFR Part 200 and Appendix II)

When a Cooperative member seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200 (sometimes referred to as the "Uniform Guidance" or new "EDGAR"). All Vendors submitting a Proposal must complete this EDGAR Certification Form regarding Vendor's willingness and ability to comply with certain requirements which *may* be applicable to specific Cooperative member purchases using federal grant funds. Completed forms will be made available to Cooperative members for their use while considering their purchasing options when using federal grant funds. Cooperative members may also require Vendors to enter into ancillary agreements, in addition to the terms and conditions of the BuyBoard contract, to address the member's specific contractual needs, including contract requirements for a procurement using federal grants or contracts.

For each of the items below, Vendor should certify Vendor's agreement and ability to comply, where applicable, by having Vendor's authorized representative check the applicable boxes, initial each page, and sign the Compliance Forms Signature Page. If you fail to complete any item in this form, the Cooperative will consider and may list the Vendor's response on the BuyBoard as "NO," the Vendor is unable or unwilling to comply. A "NO" response to any of the items may, if applicable, impact the ability of a Cooperative member to purchase from the Vendor using federal funds.

1. Vendor Violation or Breach of Contract Terms:

Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 USC 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Provisions regarding Vendor default are included in the BuyBoard General Terms and Conditions, including Section E.18, Remedies for Default and Termination of Contract. Any Contract award will be subject to such BuyBoard General Terms and Conditions, as well as any additional terms and conditions in any Purchase Order or Cooperative member ancillary contract agreed upon by Vendor and the Cooperative member which must be consistent with and protect the Cooperative member at least to the same extent as the BuyBoard Terms and Conditions. The remedies under the Contract are in addition to any other remedies that may be available under law or in equity. By submitting a Proposal, you agree to these Vendor violation and breach of contract terms.

■ **YES**, I agree. ☐ **NO**, I do not agree.

2. Termination for Cause or Convenience:

For any Cooperative member purchase or contract in excess of $10,000 made using federal funds, you agree that the following term and condition shall apply:

The Cooperative member may terminate or cancel any Purchase Order under this Contract at any time, with or without cause, by providing seven (7) business days advance written notice to the Vendor. If this Agreement is terminated in accordance with this Paragraph, the Cooperative member shall only be required to pay Vendor for goods or services delivered to the Cooperative member prior to the termination and not otherwise returned in accordance with Vendor's return policy. If the Cooperative member has paid Vendor for goods or services not yet provided as of the date of termination, Vendor shall immediately refund such payment(s).

If an alternate provision for termination of a Cooperative member purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is included in the Cooperative member's Purchase Order or ancillary agreement agreed to by the Vendor, the Cooperative member's provision shall control.

■ **YES**, I agree. ☐ **NO**, I do not agree. **Initial:** BB

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

3. Equal Employment Opportunity:

Except as otherwise provided under 41 CFR Part 60, all Cooperative member purchases or contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 shall be deemed to include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

The equal opportunity clause provided under 41 CFR 60-1.4(b) is hereby incorporated by reference. Vendor agrees that such provision applies to any Cooperative member purchase or contract that meets the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 and Vendor agrees that it shall comply with such provision.

■ **YES**, I agree. ☐ **NO**, I do not agree.

4. Davis-Bacon Act:

When required by Federal program legislation, Vendor agrees that, for all Cooperative member prime construction contracts/purchases in excess of $2,000, Vendor shall comply with the Davis-Bacon Act (40 USC 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, Vendor is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determinate made by the Secretary of Labor. In addition, Vendor shall pay wages not less than once a week.

Current prevailing wage determinations issued by the Department of Labor are available at www.sam.gov. Vendor agrees that, for any purchase to which this requirement applies, the award of the purchase to the Vendor is conditioned upon Vendor's acceptance of the wage determination.

Vendor further agrees that it shall also comply with the Copeland "Anti-Kickback" Act (40 USC 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled.

■ **YES**, I agree. ☐ **NO**, I do not agree.

5. Contract Work Hours and Safety Standards Act:

Where applicable, for all Cooperative member contracts or purchases in excess of $100,000 that involve the employment of mechanics or laborers, Vendor agrees to comply with 40 USC 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 USC 3702 of the Act, Vendor is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week.

The requirements of 40 USC 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

■ **YES**, I agree. ☐ **NO**, I do not agree.

Initial: BB

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

6. Right to Inventions Made Under a Contract or Agreement:

If the Cooperative member's Federal award meets the definition of "funding agreement" under 37 CFR 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance or experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Vendor agrees to comply with the above requirements when applicable.

■ **YES**, I agree. ☐ **NO**, I do not agree.

7. Clean Air Act and Federal Water Pollution Control Act:

Clean Air Act (42 USC 7401-7671q.) and the Federal Water Pollution Control Act (33 USC 1251-1387), as amended – Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 USC 7401-7671q.) and the Federal Water Pollution Control Act, as amended (33 USC 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

When required, Vendor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act and the Federal Water Pollution Control Act.

■ **YES**, I agree. ☐ **NO**, I do not agree.

8. Debarment and Suspension:

Debarment and Suspension (Executive Orders 12549 and 12689) – A contract award (see 2 CFR 180.220) must not be made to parties listed on the government-wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1966 Comp. p. 189) and 12689 (3 CFR Part 1989 Comp. p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Vendor certifies that Vendor is not currently listed on the government-wide exclusions in SAM, is not debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549. Vendor further agrees to immediately notify the Cooperative and all Cooperative members with pending purchases or seeking to purchase from Vendor if Vendor is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549.

■ **YES**, I agree. ☐ **NO**, I do not agree.

9. Byrd Anti-Lobbying Amendment:

Byrd Anti-Lobbying Amendment (31 USC 1352) - Vendors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 USC 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. As applicable, Vendor agrees to file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 USC 1352).

■ **YES**, I agree. ☐ **NO**, I do not agree.

Initial: BB

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

10. Procurement of Recovered Materials:

For Cooperative member purchases utilizing Federal funds, Vendor agrees to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act where applicable and provide such information and certifications as a Cooperative member may require to confirm estimates and otherwise comply. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery, and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

■ **YES**, I agree. ☐ **NO**, I do not agree.

11. Domestic Preferences for Procurements:

Where appropriate and consistent with law, 2 CFR §200.322 contains certain considerations for domestic preferences for procurements which may be applicable to Cooperative members using federal funds. When required by a Cooperative member, Vendor agrees to provide such information or certification as may reasonably be requested by the Cooperative member regarding Vendor's products, including whether goods, products, or materials are produced in the United States.

■ **YES**, I agree. ☐ **NO**, I do not agree.

12. Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

2 CFR §200.216 prohibits expending federal loan or grant funds to procure or obtain covered telecommunications equipment or services. To the extent applicable and when required by a Cooperative member, Vendor agrees to provide such information or certification as may reasonably be requested by the Cooperative member to confirm whether any telecommunications equipment or services provided by Vendor is covered telecommunications equipment or services under 2 CFR §200.216.

■ **YES**, I agree. ☐ **NO**, I do not agree.

13. General Compliance and Cooperation with Cooperative Members:

In addition to the foregoing specific requirements, Vendor agrees, in accepting any Purchase Order from a Cooperative member, it shall make a good faith effort to work with Cooperative members to provide such information and to satisfy such requirements as may apply to a particular Cooperative member purchase or purchases including, but not limited to, applicable recordkeeping and record retention requirements.

■ **YES**, I agree. ☐ **NO**, I do not agree.

PROPOSAL FORMS PART 2: VENDOR INFORMATION FORMS

INSTRUCTIONS:

Proposer must completely and accurately provide all information requested in the following Vendor Information Forms or your Proposal may be rejected as non-responsive:

- Vendor Business Name
- Vendor Contact Information
- Federal and State/Purchasing Cooperative Experience
- Governmental References
- Company Profile
- Texas Regional Service Designation
- State Service Designation
- National Purchasing Cooperative Vendor Award Agreement *(Vendors serving outside Texas only)*
- Local/Authorized Seller Listings
- Manufacturer Dealer Designation
- Proposal Invitation Questionnaire

To the extent any information requested is not applicable to your company, you must so indicate on the form.

VENDOR BUSINESS NAME

By submitting a Proposal, Vendor is seeking to enter into a legal contract with the Cooperative. As such, Vendor must be an individual or legal business entity capable of entering into a binding contract.

Name of Proposing Company:

ClearGov, Inc.

(List the legal name of the company seeking to contract with the Cooperative. Do NOT list an assumed name, dba, aka, etc. here. Such information may be provided below. If you are submitting a joint proposal with another entity to provide the same proposed goods or services, each submitting entity should complete a separate vendor information form. Separately operating legal business entities, even if affiliated entities, which propose to provide goods or services separately must submit their own Proposals.)

Please check (√) one of the following:

Type of Business: ☐ Individual/Sole Proprietor ■ Corporation ☐ Limited Liability Company ☐ Partnership

☐ Other (Specify: _____)

State of Incorporation (if applicable): Delaware

Federal Employer Identification Number: 47-5205793
(Vendor must include a completed IRS W-9 form with their Proposal)

Name by which Vendor, if awarded, wishes to be identified on the BuyBoard: *(Note: If different than the Name of Proposing Company listed above, only valid trade names (dba, aka, etc.) of the Proposing Company may be used and a copy of your Assumed Name Certificate(s), if applicable, must be attached.)* _____

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

ClearGov Inc.

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☑ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . .

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions)

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any)

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any)

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

5 Address (number, street, and apt. or suite no.). See instructions.

2 Mill and Main Pl, Ste 630

Requester's name and address (optional)

6 City, state, and ZIP code

Maynard, MA 01754

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

4	7	–	5	2	0	5	7	9	3

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here | **Signature of U.S. person** Bruce Lueddeke **Date** 5/5/2025

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

VENDOR CONTACT INFORMATION

Vendor shall provide the requested Vendor Contact Information in the electronic proposal submission system including contract, purchase order, RFQ, and invoice contacts (or, if submitting a hard copy Proposal, timely request and complete the Vendor Contact Information form in accordance with the Instructions to Proposers).

FEDERAL AND STATE/PURCHASING COOPERATIVE EXPERIENCE

The Cooperative strives to provide Cooperative members with the best services and products at the best prices available from Vendors with the technical resources and ability to serve Cooperative members. Please respond to the following questions.

1. Provide the dollar value of sales to or through purchasing cooperatives at or based on an established catalog or market price during the previous 12-month period or the last fiscal year: $ 4,800,000. (The period of the 12-month period is 01/01/2024 / 12/31/2024). In the event that a dollar value is not an appropriate measure of the sales, provide and describe your own measure of the sales of the item(s).
2. By submitting a proposal, you agree that, based on your written discounting policies, the discounts you offer the Cooperative are equal to or better than the best price you offer other purchasing cooperatives for the same items under equivalent circumstances.
3. Provide the information requested below for other purchasing cooperatives for which Proposer currently serves, or in the past has served, as an awarded vendor. Rows should be added to accommodate as many purchasing cooperatives as required.

GOVERNMENTAL REFERENCES

For your Proposal to be considered, you must supply a minimum of five (5) individual governmental entity references. The Cooperative may contact any and all references provided as part of the Proposal evaluation. Provide the information requested below, including the existing pricing/discounts you offer each customer. The Cooperative may determine whether pricing/discounts are fair and reasonable by comparing pricing/discounts stated in your Proposal with the pricing/discounts you offer other governmental customers. Attach additional pages if necessary.

	Entity Name	Contact	Phone#	Email Address	Discount	Quantity/ Volume
1.	Grand Island, NE	Patrick Brown	308-385-5444	patrickb@grand-island.com	0%	1
2.	Hilton Head, SC	John Troyer	843-341-4650	johntr@hiltonheadislandsc.gov	0%	1
3.	Naperville, IL	Sherrian Kelly	630-420-6059	kellys@naperville.il.us	0%	1

STATE SERVICE DESIGNATION

This form must be completed in the electronic proposal submission system (or, if submitting a hard copy Proposal, timely request and complete the in accordance with the Instructions to Proposers).

As set forth in the Proposal Invitation, it is the Cooperative's intent that other governmental entities in the United States have the opportunity to purchase goods or services awarded under the Contract, subject to applicable state law, through a piggy-back award or similar agreement through the National Purchasing Cooperative BuyBoard. If you plan to service the entire United States or only specific states, *you must complete the State Service Designation information in the electronic proposal submission system. (Note: If you plan to service Texas Cooperative members, be sure that you complete the Texas Regional Service Designation form.) In addition to this form, to be considered for a piggy-back award by the National Purchasing Cooperative, you must have an authorized representative sign the National Purchasing Cooperative Vendor Award Agreement that follows this page.*

If you serve different states for different products or services included in your Proposal, you must complete and submit a separate State Service Designation form for each group of products and clearly indicate the products or services to which the designation applies. **(Additional forms can be obtained by contacting bids@buyboard.com** *at least five (5) business days prior to the Proposal Due Date.) By designating a state or states, you are certifying that you are authorized and willing to provide the proposed products and services in those states. Designating states in which you are either unable or unwilling to provide the specified products and services shall be grounds for either rejection of your Proposal or, if awarded, termination of your Contract.*

NATIONAL PURCHASING COOPERATIVE VENDOR AWARD AGREEMENT

In accordance with the Terms and Conditions associated with this Proposal Invitation, a contract awarded under this Proposal Invitation may be "piggy-backed" by another governmental entity. The National Purchasing Cooperative is an intergovernmental purchasing cooperative formed by certain school districts outside of Texas to serve its members throughout the United States. If you agree to be considered for a piggy-back award by the National Purchasing Cooperative, you agree to the following terms and agree to serve National Purchasing Cooperative members in the states you have indicated on the State Service Designation form, in your Proposal.

By signing this form, Proposer (referred to in this Agreement as "Vendor") agrees as follows:

1. Vendor acknowledges that if The Local Government Purchasing Cooperative ("Texas Cooperative") awards Vendor a contract under this Proposal Invitation ("Underlying Award"), the National Purchasing Cooperative ("National Cooperative") may - but is not required to - "piggy-back" on or re-award all or a portion of that Underlying Award ("Piggy-Back Award"). By signing this National Cooperative Vendor Award Agreement ("Agreement"), Vendor accepts and agrees to be bound by any such Piggy-Back Award as provided for herein.

2. In the event National Cooperative awards Vendor a Piggy-Back Award, the National Cooperative Administrator ("BuyBoard Administrator") will notify Vendor in writing of such Piggy-Back Award, which award shall commence on the effective date stated in the Notice and end on the expiration date of the Underlying Award, subject to annual renewals as authorized in writing by the BuyBoard Administrator. Vendor agrees that no further signature or other action is required of Vendor in order for the Piggy-Back Award and this Agreement to be binding upon Vendor. Vendor further agrees that no interlineations or changes to this Agreement by Vendor will be binding on National Cooperative, unless such changes are agreed to by its BuyBoard Administrator in writing.

3. Vendor agrees that it shall offer its goods and services to National Cooperative members at the same pricing and same general terms and conditions, subject to applicable state laws in the state of purchase, as required by the Underlying Award. However, nothing in this Agreement prevents Vendor from offering National Cooperative members better (i.e., lower) competitive pricing and more favorable terms and conditions than those in the Underlying Award.

4. Vendor hereby agrees and confirms that it will serve those states it has designated on the State Service Designation Form of this Proposal Invitation. Any changes to the states designated on the State Service Designation Form must be approved in writing by the BuyBoard Administrator.

5. Vendor agrees to pay National Cooperative the service fee provided for in the Underlying Award based on the amount of purchases generated from National Cooperative members through the Piggy-Back Award. Vendor shall remit payment to National Cooperative on such schedule as it specifies (which shall not be more often than monthly). Further, upon request, Vendor shall provide National Cooperative with copies of all purchase orders generated from National Cooperative members, vendor invoices, and/or such other documentation regarding those purchase orders as the Cooperative's administrators may require in their reasonable discretion for purposes of reviewing and verifying purchase activity. Vendor further agrees that National Cooperative shall have the right, upon reasonable written notice, to review Vendor's records pertaining to purchases made by National Cooperative members in order to verify the accuracy of service fees.

6. Vendor agrees that the Underlying Award, including its General Terms and Conditions, are adopted by reference to the fullest extent such provisions can reasonably apply to the post-proposal/contract award phase. The rights and responsibilities that would ordinarily inure to the Texas Cooperative pursuant to the Underlying Award shall inure to National Cooperative; and, conversely, the rights and responsibilities that would ordinarily inure to Vendor in the Underlying Award shall inure to Vendor in this Agreement. Vendor recognizes and agrees that Vendor and National Cooperative are the only parties to this Agreement, and that nothing in this Agreement has application to other third parties, including the Texas Cooperative. In the event of conflict between this Agreement and the terms of the Underlying Award, the terms of this Agreement shall control, and then only to the extent necessary to reconcile the conflict.

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

7. This Agreement shall be governed and construed in accordance with the laws of the State of Texas and venue for any dispute shall lie in the federal district court of Travis County, Texas.

8. Vendor acknowledges and agrees that the award of a Piggy-Back Award is within the sole discretion of National Cooperative, and that this Agreement does not take effect unless and until National Cooperative awards Vendor a Piggy-Back Award and the BuyBoard Administrator notifies Vendor in writing of such Piggy-Back Award as provided for herein.

WHEREFORE, by signing below Vendor agrees to the foregoing and warrants that it has the authority to enter into this Agreement.

LOCATION/AUTHORIZED SELLER LISTINGS

If you have more than one location/authorized seller that will service a Contract awarded under this Proposal Invitation, please list each location/authorized seller below. If additional sheets are required, please duplicate this form as necessary. NOTE: Awarded Vendors shall remain responsible for all aspects of the Contract, including processing of Purchase Orders, and shall be responsible for the performance of all locations and authorized sellers under and in accordance with the Contract. ***If you are a product manufacturer and wish to designate Designated Dealers as defined in the General Terms and Conditions to receive Cooperative member Purchase Orders on your behalf, you must complete the Manufacturer Designated Dealer form.***

MANUFACTURER DEALER DESIGNATION

If Vendor is a manufacturer that sells products through a dealer network and wishes to designate a dealer or multiple dealers ("Designated Dealers") to receive Cooperative member Purchase Orders on Vendor's behalf, you must complete this form for each dealer you wish to designate.

Regardless of any Designated Dealers submitted by Vendor, Vendor specifically agrees and acknowledges that any such designations are for Vendor's convenience only and shall not, if Vendor is awarded a Contract, relieve Vendor of any obligations under the Contract, including payment of Cooperative service fees on all Purchase Orders submitted to Vendor or any Designated Dealer. In accordance with the General Terms and Conditions, an awarded Vendor shall remain responsible and liable for all of its obligations under the Contract and the performance of both Vendor and any of Vendor's Designated Dealers under and in accordance with the Contract and remain subject to all remedies for default thereunder, including, but not limited to suspension and termination of Vendor's Contract for nonpayment of service fees.

If awarded, Vendor authorizes the Cooperative, in its sole discretion, to list any Vendor Designated Dealers in the BuyBoard system and to receive Purchase Orders directly from Cooperative members on behalf of Vendor. To the extent a Vendor with Designated Dealers receives a Purchase Order directly, it shall be the responsibility of Vendor to appropriately process such Purchase Order in accordance with the Contract, including but not limited to timely forwarding such Purchase Order to a Designated Dealer for processing.

The Cooperative reserves the right, in its sole discretion, to refuse addition of, or request removal of, any Designated Dealer, and Vendor agrees to immediately require such Designated Dealer to cease accepting Purchase Orders or otherwise acting on Vendor's behalf under the Contract. Further, the Cooperative administrator shall be authorized to remove or suspend any or all Designated Dealers from the BuyBoard at any time in its sole discretion.

If you wish to designate a dealer to service a contract awarded under this Proposal Invitation, please list the Designated Dealer below. If you wish to designate multiple dealers, please duplicate this form as necessary.

PROPOSAL INVITATION QUESTIONNAIRE

The Cooperative will use your responses to the questions below in evaluating your Proposal and technical and financial resources to provide the goods and perform the services ("Work") under the BuyBoard contract contemplated by this Proposal Invitation ("Contract"). Proposers must fully answer each question, numbering your responses to correspond to the questions/numbers below. Proposers must complete below or attach your responses to this questionnaire and submit in one document with your Proposal. **You must submit the questionnaire and responses with your Proposal or the Proposal will not be considered.**

1. List the number of years Proposer has been in business and former business names (if applicable). Note whether your company is currently for sale or involved in any transaction that would significantly alter its business or result in acquisition by another entity.

ClearGov, Inc. was incorporated in 2015 and has been in business for close to 10 years. ClearGov is not currently for sale or involved in any transaction that would significantly alter its business or result in acquisition by another entity.

2. Describe the resources Proposer has to manage staff and successfully perform the Work contemplated under this Contract. State the number and summarize the experience of company personnel who may be utilized for the Work, including those who will be available to Cooperative members for assistance with project development, technical issues, and product selection for Work associated with this Contract.

ClearGov currently provides software solutions to over 1,400 local government, school district and special district customers across all 50 states. ClearGov has a dedicated staff of Client Success managers who support our customers.

3. **Marketing Strategy:** For your Proposal to be considered, you must submit the Marketing Strategy you will use if the Cooperative accepts all or part of your Proposal. *(Example: Explain how your company will initially inform Cooperative members of your BuyBoard Contract, and how you will continue to support the BuyBoard for the duration of the Contract term.)* Attach additional pages if necessary.

The bulk of ClearGov's prospect/client interactions are directly between customers and our sales executives. We have instructed our sales team to present BuyBoard as the first and preferred option if a customer wishes to contract through a procurement cooperative/aggregator. We also encourage customers to become BuyBoard members if they are not already part of the BuyBoard community. Finally, ClearGov will continue to include BuyBoard on the Partners page of our ClearGov website.

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

4. Describe Proposer's financial capability to perform the Contract. State or describe the firm's financial strength and rating, bonding capacity, and insurance coverage limits. State whether the firm, or any of the firm's past or present owners, principal shareholders or stockholders, or officers, have been a debtor party to a bankruptcy, receivership, or insolvency proceeding in the last 7 years, and identify any such debtor party by name and relationship to or position with your firm.

ClearGov is financially solvent and rapidly growing; None of the firm's past or present owners, principal shareholders, or officers have filed for bankruptcy, receivership or insolvency.

5. Does your company have any outstanding financial judgments and/or is it currently in default on any loan or financing agreement? If so, provide detailed information on the nature of such items and prospects for resolution.

None.

6. List all contracts, if any, in the last 10 years on which Proposer has defaulted, failed to complete or deliver the work, or that have been terminated for any reason. For each such contract, provide the project name, scope, value and date and the name of the procuring entity. Fully explain the circumstances of the default, failure to complete or deliver the work, or termination.

None.

7. List all litigation or other legal proceedings (including arbitration proceedings), if any, in the last 10 years brought against your firm, or any of the firm's past or present owners, principal shareholders or stockholders, officers, agents or employees, that relate to or arise from a contract similar to this Contract or the Work contemplated under this Contract. Provide the style of the lawsuit or proceeding (name of parties and court or tribunal in which filed), nature of the claim, and resolution or current status.

None.

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

8. For software-related products, does your company permit escrow of source code and other items needed to provide the customer with continued use of the software in the event of Vendor bankruptcy or other issues which cause the functionality of the software to cease? Explain.

No. ClearGov's product is a turnkey, SaaS solution. We do not do custom software development work.

8 No Boycott Verification/No Excluded Nation or Foreign Terrorist Organization Certification/Historically Underutilized Business Certification

No Boycott Verification/No Excluded Nation or Foreign Terrorist Organization Certification/Historically Underutilized Business Certification

9 **No Boycott Certification**

A Texas governmental entity may not enter into a contract with a value of $100,000 or more that is to be paid wholly or partly from public funds with a company (excluding a sole proprietorship) that has 10 or more full-time employees for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel and will not boycott Israel during the term of the contract (TEX. GOV'T CODE Ch. 2271), (2) does not boycott energy companies and will not boycott energy companies during the term of the contract (TEX. GOV'T CODE Ch. 2276), and (3) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association and will not discriminate during the term of the contract against a firearm entity or firearm trade association (TEX. GOV'T CODE Ch. 2274). Accordingly, this certification form is included to the extent required by law.
"Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes. TEX. GOV'T CODE §808.001(1).

"Boycott energy company" means, without an ordinary business purpose, refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company: (A) engages in the exploration, production, utilization, transportation, sale, or manufacturing of fossil fuel-based energy and does not commit or pledge to meet environmental standards beyond applicable federal and state law; or (B) does business with a company described by Paragraph (A). TEX. GOV'T CODE §809.001(1).

"Discriminate against a firearm entity or firearm trade association" means, (A) with respect to the entity or association, to: (i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association; (ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or (iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and (B) does not include: (i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and (ii) a company's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship: (aa) to comply with federal, state, or local law, policy, or regulations or a directive by a regulatory agency; or (bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity's or association's status as a firearm entity or firearm trade association. TEX. GOV'T CODE §2274.001(3).

By signature on the Compliance Forms Signature Page, to the extent applicable, I certify and verify that Vendor does not boycott Israel, boycott energy companies, or discriminate against a firearm entity or firearm trade association and will not do so during the term of any contract awarded under this Proposal Invitation, that this certification is true, complete and accurate, and that I am authorized by my company to make this certification.

Yes

10 **No Excluded Nation or Foreign Terrorist Organization Certification**

Chapter 2252 of the Texas Government Code provides that a Texas governmental entity may not enter into a contract with a company engaged in active business operations with Sudan, Iran, or a foreign terrorist organization – specifically, any company identified on a list prepared and maintained by the Texas Comptroller under Texas Government Code §§806.051, 807.051, or 2252.153. (A company that the U.S. Government affirmatively declares to be excluded from its federal sanctions regime relating to Sudan, Iran, or any federal sanctions regime relating to a foreign terrorist organization is not subject to the contract prohibition.)

By signature on the Compliance Forms Signature Page, I certify and verify that Vendor is not on the Texas Comptroller's list identified above; that this certification is true, complete and accurate; and that I am authorized by my company to make this certification.

Yes

11 **Historically Underutilized Business Certification**

A Proposer that has been certified as a Historically Underutilized Business (also known as a Minority/Women Business Enterprise or "MWBE" and all referred to in this form as a "HUB") is encouraged to indicate its HUB certification status when responding to this Proposal Invitation. The BuyBoard website will indicate HUB certifications for awarded Vendors that properly indicate and document their HUB certification on this form.

I certify that my company has been certified as a MWBE/HUB in the following categories: *(Please check all that apply)*

86 **Texas Regional Service Designation**

Texas Regional Service Designation - Refer to Form in Proposal Invitation

The Cooperative (referred to as "Texas Cooperative" in this form and in the State Service Designation form) offers vendors the opportunity to service its members throughout the entire State of Texas. If you do not plan to service all Texas Cooperative members statewide, you **must** indicate the specific regions you will service on this form. If you propose to serve different regions for different products or services included in your Proposal, you must complete and submit a separate Texas Regional Service Designation form for each group of products and clearly indicate the products or services to which the designation applies. ***By designating a region or regions, you are certifying that you are authorized and willing to provide the proposed products and services in those regions. Designating regions in which you are either unable or unwilling to provide the specified products and services shall be grounds for either rejection of your Proposal or, if awarded, termination of your Contract.*** Additionally, if you do not plan to service Texas Cooperative members (i.e., if you will service only states other than Texas), you must so indicate on this form.

State Service Designation

State Service Designation - Refer to Form in Proposal Invitation.

As set forth in the Proposal Invitation, it is the Cooperative's intent that other governmental entities in the United States have the opportunity to purchase goods or services awarded under the Contract, subject to applicable state law, through a piggy-back award or similar agreement through the National Purchasing Cooperative BuyBoard. If you plan to service the entire United States or only specific states, you must complete this form accordingly. *(Note: If you plan to service Texas Cooperative members, be sure that you complete the Texas Regional Service Designation form.)* ***In addition to this form, to be considered for a piggy-back award by the National Purchasing Cooperative, you must have an authorized representative sign the National Purchasing Cooperative Vendor Award Agreement that follows this form.***

If you serve different states for different products or services included in your Proposal, you must complete and submit a separate State Service Designation form for each group of products and clearly indicate the products or services to which the designation applies. *By designating a state or states, you are certifying that you are authorized and willing to provide the proposed products and services in those states. Designating states in which you are either unable or unwilling to provide the specified products and services shall be grounds for either rejection of your Proposal or, if awarded, termination of your Contract.*

The Local Government Purchasing Cooperative
Attn: TASB Asst. Division Director, Cooperative Procurement
12007 Research Blvd.
Austin, TX 78759

To Whom It May Concern,

ClearGov provides unique budget planning, building and reporting solutions for local government agencies: towns, cities, counties, school districts, special districts, etc. More than 1,400 customers have purchased the ClearGov platform via sole source. For starters, this letter confirms that ClearGov, Inc. is the sole source provider for the following modules:

- ClearGov Operational Budgeting
- ClearGov Personnel Budgeting
- ClearGov Capital Budgeting
- ClearGov Digital Budget Book
- ClearGov Transparency
- ClearGov Strategic Planning
- ClearGov Digital Financial Reporting
- ClearGov Capital Project Tracking
- ClearGov ClearForms

All of these products are proprietary software solutions for which ClearGov, Inc. exclusively owns all intellectual property rights, and these products are protected by copyrights, trademarks and service marks. In addition, there are no agents or dealers authorized to represent any of these ClearGov products.

In addition, while it may be possible to build and present your budget using other technologies, no company offers the unique combination of features and functionality delivered by ClearGov. In addition, all ClearGov modules are designed and built to work seamlessly together. What follows is a partial list of the key features and functionality offered in each ClearGov Budget Cycle Management module.

Operational Budgeting

- Ability to create multi-year operational budget forecasts & adjust variables by individual categories.
- Ability to collaboratively build a budget via a single, shared online workspace

- Ability to create an unlimited number of budget versions
- Ability to view historical trend analysis at fund, department, object or line item level
- Collaborative workflows to assign and track budget requests by department
- Includes drill-down functionality to review and/or request budget information at the line item or even sub-line item detail
- Ability to automatically generate a baseline budget based on multiple options, i.e. zero-based budgeting, forecasted budget, fixed percentage increase, etc.
- Ability for department heads to assign sub-requesters to portions of their budget
- Ability to review and approve/reject budget requests by individual request or by batch
- Ability to lock-down budget line items, e.g. headcount costs
- Ability to share budgets online for review by committee members
- Ability to add change justifications notes, comments and supporting materials to any line (or sub-line) item within the budget
- Integrated graphs that provide visual feedback throughout the budgeting process including historical trends and budget surplus/deficit
- Ability to track and report a thorough audit trail of all changes, comments and budget versions
- Includes a variety of pre-built reports as well as robust report builder and chart builder functionality that doesn't require programming knowledge
- Ability to export budget reports to Excel or other formats compatible with multiple ERP systems
- Ability to build, analyze, and approve/deny Funding Packages that include Personnel requests, e.g. new budget programs

Personnel Budgeting

- Ability to create and customize multi-year personnel budget plans and scenarios
- Ability to define units, wage schedules, benefits and additional pay elements, etc. by position, role and department, including position control functionality
- Collaborative workflows for the collection or personnel requests and changes
- Includes a filterable dashboard summary of all personnel requests by type, department, etc.
- Ability to see projected total compensation breakdown at an employee level
- Ability to present proposed personnel budget scenario(s) for review in a shared, online dashboard and respond to on-the-fly what-if requests
- Ability to support personnel vacancy, retirement and furlough planning scenarios
- Ability to support collective bargaining, what-if planning scenarios
- Includes a variety of pre-built reports as well as robust report builder and chart builder functionality that doesn't require programming knowledge
- Ability to export budget reports to Excel or other formats compatible with multiple ERP systems

Capital Budgeting:

- Ability to create and customize multi-year capital budget plans and scenarios
- Collaborative workflows for collecting capital requests
- Ability to automatically create detailed, shareable capital project summary pages
- Ability to add notes, comments, images, supplement documents, etc. to capital project summaries
- Ability to customize multiple types of capital request forms
- A filterable dashboard summary of all capital projects by type, department, funding source, etc
- Ability to score and rank capital requests by priority and strategic objectives

- Includes capital budget scenario planning functionality to enable allocation of capital projects across multiple funding sources
- Capital improvement website module with timelines, public commentary and ability for visitors to sign up for project change email notifications
- Includes a variety of pre-built reports as well as robust report builder and chart builder functionality that doesn't require programming knowledge
- Ability to export budget reports to Excel or other formats compatible with multiple ERP systems

Digital Budget Book:

- Ability to automatically create a customizable budget book template
- Ability to create and present a budget book via an interactive, accessible Website with built-in navigation
- Includes built-in GFOA and ASBO award criteria guidelines
- Includes templated pages for fund pages, department pages, revenue pages, etc.
- Includes a pre-populated, customizable glossary of terms
- Includes automated narrative generation, powered by ClearGov AI
- Automatically populates pages with financial data, charts, tables, etc.
- Collaborative workflows for multi-user editing and creation of budget book pages
- Ability to embed dynamic data into narrative text throughout budget book
- Ability to embed customizable Financial Statements throughout budget book
- Ability to automatically update financial data throughout budget book
- Ability to upload and embed images, spreadsheets and other objects into budget book pages
- Ability to add links to attachments within budget book pages
- Ability to customize colors, fonts, graphics and other look & feel components
- Ability to create and embed custom financial and non-financial charts, graphs and tables
- Ability to generate and embed organizational charts
- Ability to automatically embed submitted and approved capital improvement projects
- Ability to duplicate the budget book & update financial data as the basis for next FY budget book
- Ability to automatically format and print to .PDF any portion of the budget book and/or the complete budget book with dynamic Table of Contents and page numbering

Transparency:

- Ability to provide fiscal transparency via automated infographic profiles
- Ability to view financial data via multiple ERP dimensions, i.e. department, object, rev. source, etc.
- Includes drill-down functionality to view financial information in granular detail
- Includes census demographic profile data
- Ability to add commentary/context to all panels, charts and graphs within the transparency profile
- Ability to add custom panels to transparency profile
- Ability to display budget vs. actuals and provide regular updates
- Ability to display historical and forecasted financial figures
- Ability to create custom graphs and embed them in the transparency profile and/or directly in the municipal website.
- Ability to include department dashboards to communicate key performance metrics, including financial and non-financial graphs and metrics
- Ability to deliver a searchable, filterable open checkbook to provide check-level detail transparency

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

Strategic Planning:

- Ability to create, manage and execute any type of strategic plan, including focus areas, goals and action items
- Automated workflow to enable updates to action items and goals
- Automated dashboard to present plan progress with built-in filters and drill-down
- Ability to allocate budget to specific focus areas and goals
- Collaborative workflows for multi-user editing and creation of plan components and plan presentation pages
- Ability to automatically create a customizable plan template
- Ability to create and present any plan via an interactive, accessible Website with built-in navigation
- Includes templated pages for SWOT analysis, focus areas, strategic objectives, etc.
- Ability to upload and embed images, spreadsheets and other objects into plan pages
- Ability to add links to attachments within plan pages
- Ability to customize colors, fonts, graphics and other look & feel components
- Ability to create and embed custom financial and non-financial charts, graphs and tables
- Plan pages built with responsive design to automatically resize and optimize viewing for desktop, pad or mobile environments
- Ability to automatically format and print to .PDF any portion of the plan and/or the complete plan document with dynamic Table of Contents and page numbering
- Seamless integration with budget data

Digital Financial Reporting

- Ability to automatically create a customizable Annual Comprehensive Financial Report (ACFR) and Annual Financial Report (AFR) template
- Ability to automatically publish an online, ADA accessible and mobile-optimized version of the AFR or ACFR and integrate directly into any Website
- Collaborative workflows for multi-user editing and creation of financial reporting pages
- Ability to embed and update dynamic data into narrative text throughout the report
- Ability to upload and embed images, spreadsheets and other objects into report pages
- Ability to add links to attachments within report pages
- Ability to create and embed custom financial and non-financial charts, graphs and tables
- Ability to automatically format and print to .PDF any portion of the report and/or the complete report with dynamic Table of Contents and page numbering
- Seamless integration with a dynamic statement builder application
- Ability to create financial statements from best-practice templates
- Ability to map trial balance information into financial statements
- Ability to automatically update financial data in financial statements
- Includes built-in GFOA award criteria guidelines

Capital Project Tracking

- Ability to create, manage and execute any capital project
- Ability to define phases and action items for each project
- Ability to track progress and status across all projects, phases and action items

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

- Automated workflow to enable updates to projects, phases and action items
- Automated dashboard to present progress across all projects
- Seamless integration with Capital Budgeting data
- Expedited sync workflow to quickly transition projects from budget requests to actionable projects
- Ability to allocate budget and spend to specific projects and phases, and to allocate funding for projects and categorize by specific funding sources
- Collaborative workflows for multi-user editing and creation of project components
- Ability to templatize project types to reduce time for project setup
- Ability to deliver a list of projects via an interactive, accessible website with built-in navigation
- Ability to upload and embed images, attachments and other objects into projects details
- Ability to set the specific location or area on a map for project location
- Ability to export a list of projects with high level detail, progress and financial information
- Ability for public website visitors to subscribe to email notifications for project updates
- Project pages built with responsive design to automatically resize and optimize viewing for desktop, pad or mobile environments

ClearForms

- Fully self-service, no-code setup functionality
- Ability to customize and brand public form and landing pages
- Ability to customize URLs for portal and landing pages
- Ability to clone existing workflows and forms
- Includes flexible digital forms builder
- Includes flexible digital survey step builder
- Includes version control for workflows
- Ability to review queue and approve processes (mobile-responsive)
- Ability to require that subprocess(e)s must be completed before main workflow is finalized
- Ability to create custom, print-at-home output documents (PDFs) for issued licenses and permits
- Supports conditional logic for branching workflows - including sections, reviews, assignments, subprocesses, and payments
- Includes no-code formula editor for application/license fees and calculations
- Includes discussion pane for direct government/applicant communication
- Includes status updates and automated/custom email notifications
- Includes activity log for step notifications
- Ability to create, import, and store workflow data entities, e.g. parcel data for building permits
- Built-in directory for searching applicants and entities
- Supports team functionality with role-based permissions for segregation and transfer of duties between staff in real time
- Integrated payments via credit/debit card or ACH
- Integrated handling for charge disputes and refunds
- Supports automated payouts on customer's self-determined schedule (daily, weekly, monthly)
- Supports online signatures from applicants and reviewers
- Supports comprehensive, exportable transaction history
- Includes data visualization for performance management, i.e. workflow activity, completion time, license revenue, et. al.
- Includes smart dashboards for both administrators and applicants

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

We look forward to having the opportunity to continue working with you. Please let me know if you have any questions or require additional information.

Sincerely yours,

Bryan A. Burdick
President, ClearGov, Inc.

Exhibit C

Form 2 - Statement Of Conflicts Of Interest (If Any)

Conflict of Interest Disclosure Instructions

The Respondent must disclose any conflicts of interest related to the goods and/or services associated with this solicitation. A conflict-of-interest statement is required if any conflicts exist, along with a detailed plan for mitigating the conflict(s). The City reserves the sole discretion to determine whether a conflict disqualifies a firm and/or whether a conflict mitigation plan is acceptable.

If a conflict of interest exists, the Respondent must:

- Complete Form CIQ
- File the form with the City Secretary
- Include a copy of the completed Form CIQ with the proposal

If no conflict of interest exists, Form CIQ is not required. Regardless of whether a conflict exists, this Form 2 must be completed and signed.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Chapter 176, Texas Local Government Code, regarding conflict-of-interest disclosures.
2. The Respondent understands that a completed Texas Ethics Commission Form CIQ must be filed with the City Secretary's Office of the City of Brownsville, Texas, within seven (7) business days after the Respondent becomes aware of a conflict.
3. The Respondent acknowledges that the completed Form CIQ is a public record and will be made available by the City Secretary in accordance with state law.
4. The Respondent understands that failure to file a required Form CIQ is a violation of state law and may result in penalties under Texas Local Government Code §176.006 and possible disqualification from consideration for award.
5. The Respondent shall submit this acknowledgment form as part of its solicitation response and attach a copy of the completed TEC Form CIQ, if applicable.

City Secretary Contact Information

City of Brownsville – Office of the City Secretary
1034 E Levee Street, City Plaza, 1st Floor, Brownsville, TX 78520
Email: City.Secretary@brownsvilletx.gov
Phone: (956) 548-6042

Docusign Envelope ID: 4C73A5AD-86CF-8DEB-83A3-597FB8B23823

Certification

By signing below, the Respondent certifies that they have reviewed and understand the requirements of Chapter 176, Texas Local Government Code and have determined whether a conflict of interest exists. The Respondent further certifies that, if a conflict of interest exists, a completed Conflict of Interest Questionnaire (Form CIQ) has been or will be filed with the City Secretary in accordance with state law and that a copy of the completed Form CIQ is included with this submission, if applicable. The Respondent affirms that all information provided is true and correct and that they are authorized to bind the entity.

CONFLICT OF INTEREST QUESTIONNAIRE

For vendor doing business with local governmental entity

FORM CIQ

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

N/A

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

N/A

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

N/A ☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

N/A ☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

N/A

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

Form 3 – Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Purpose

This form serves as an acknowledgment of the statutory requirement for certain vendors to file a Certificate of Interested Parties (Form 1295) with the Texas Ethics Commission (TEC) before a contract can be executed with the City of Brownsville.

The requirement applies to any contract that:

- Must be approved by the City Commission or executed by a City official before becoming effective, or
- Otherwise meets the criteria established by the Texas Ethics Commission under Texas Government Code §2252.908 and 1 Texas Administrative Code Chapter 46.

Respondent Acknowledgment

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has reviewed the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46.
2. When applicable, the Respondent shall complete and file Form 1295 electronically at https://www.ethics.state.tx.us/filinginfo/1295/ to obtain a Certificate Number issued by the TEC.
3. The Respondent shall print and provide a PDF copy to the City of Brownsville Procurement Department **after** notice of intent to award but prior to contract execution.
4. The Respondent understands that the City may not execute a contract until a completed and verified Form 1295 is received.
5. The Respondent acknowledges that the Certificate of Interested Parties will be made publicly accessible on the TEC's website in accordance with state law.

Certification

By signing below, the undersigned Respondent certifies that they have read and understood the requirements of Texas Government Code §2252.908 and 1 TAC Chapter 46 and that a completed Form 1295 will be filed and provided to the City prior to contract execution, if applicable.

The Respondent further understands that the Form 1295 itself must be signed in accordance with TEC requirements.

PROCUREMENT ANALYSIS

Date: Tuesday, September 22, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, City Manager
CC: Mr. Damian Espinoza, Procurement Director
Mr. Stephen Muse, Finance Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, October 6, 2026.
"Consideration and Action to Authorize a Contract with ClearGov, Inc in the amount of $171,965.09 for Contract No. 371-26-FIN-CP, for a term of Three (3) Years, for budgeting and financial management software services for the Finance Department."

Executive Summary:

- Department: Finance Department
- Exemption Type: Cooperative Purchase Exemption
- Contract Number: 371-26-FIN-CP
- Vendor: ClearGov, Inc.
- Contract Amount: 171,965.09
- Term: Three (3) Years; end date of September 30, 2029

Background:
The Finance Department and Enterprise Project Management Office currently utilize ClearGov for various budgeting and financial management functions. This agreement will consolidate the City's existing ClearGov services under a single agreement to support operational, personnel, and capital budgeting, financial reporting, budget tracking, and financial transparency.

Exemption Justification:
Authorized use of contracts competitively solicited and awarded by another governmental entity or cooperative organization in compliance with Texas Local Government Code §271.102.

Procurement has verified that this contract falls under an active Buyboard Cooperative Agreement No. 792-26.

Vendor Information:
ClearGov, Inc.
2 Mill & Main Place, Suite 630, Maynard, MA 01754
Point of Contact: Michael Masters Martinez, Sr. Client Success Manager
Phone/Email: (800) 307-7488 | mmasters@cleargov.com

Exhibits & Supporting Documents:

- Exhibit A - Quote
- Exhibit B – Buyboard Cooperative Agreement No. 792-26
- Exhibit C – Form 1295 Acknowledged

Recommendation:

The Procurement Department recommends that the City Commission authorize a contract with **ClearGov, Inc.** under a Buyboard Cooperative Agreement No.792-26 in accordance with Texas Local Gov't Code §271.102, for a three (3) year term in an amount not to exceed $171,965.09.

Approval of this agenda item will authorize the full contract value.

Valid Until	**Sep 30, 2026**	Pricing set forth herein is valid only if ClearGov Service Order is executed on or before this date.
Payment	**Net 30**	All invoices are due Net 30 days from the date of invoice.
Rate Increase	5% per annum	The Annual Subscription Service Fee shall automatically increase by this amount.

General Terms & Conditions

Taxes	The Service Fees and Billing amounts set forth above in this ClearGov Service Order **DO NOT** include applicable taxes. In accordance with the laws of the applicable state, in the event that sales, use or other taxes apply to this transaction, ClearGov shall include such taxes on applicable invoices and Customer is solely responsible for such taxes, unless documentation is provided to ClearGov demonstrating Customer's exemption from such taxes.
Term & Termination	Subject to the termination rights and obligations set forth in the ClearGov BCM Service Agreement, this ClearGov Service Order commences upon the Order Date set forth herein and shall continue until the completion of the Service Period(s) for the Service(s) set forth herein. Each Service shall commence upon the Start Date set forth herein and shall continue until the completion of the applicable Service Period.
Auto-Renewal	After the Initial Period, the Service Period for any ClearGov Annual Subscription Services shall automatically renew for successive annual periods (each an [illegible] unless either Party provides written notice of its desire not to renew at least sixty (60) days prior to the end of the then current Annual Term.

Original Service Orders	As of 10/1/26, this ClearGov Service Order supersedes the ClearGov Service Orders with an Order Date of 12/20/2023, 10/2/2024, 06/24/2025 (the "Original Service Orders"). The Original Service Orders shall be null and void as of 10/1/26.
Appropriations	Customer shall have the option to terminate this ClearGov Service Order in advance of any annual renewal in the event that the applicable appropriating body does not appropriate funds for such upcoming renewal period.
Agreement	The signature herein affirms your commitment to pay for the Service(s) ordered in accordance with the terms set forth in this ClearGov Service Order and also acknowledges that you have read and agree to the terms and conditions set forth in the ClearGov BCM Service Agreement found at the following URL: http://www.ClearGov.com/terms-and-conditions. This Service Order incorporates by reference the terms of such ClearGov BCM Service Agreement.

Welcome to BuyBoard!

Re: *Notice of The Local Government Purchasing Cooperative Contract Award;* Proposal Invitation No. 792-26, Software as a Service (SaaS), Cybersecurity Assessments, and Related Products and Services

Congratulations, The Local Government Purchasing Cooperative (Cooperative) has awarded your company a BuyBoard® contract based on the above-referenced Proposal Invitation. The contract is effective for an initial one-year term of April 1, 2026, through March 31, 2027, and may be subject to two possible one-year renewals. Please refer to the Proposal Invitation for the contract documents, including the General Terms and Conditions of the Contract.

To review the items your company has been awarded, please review Proposal Tabulation No. 792-26 at: www.buyboard.com/vendor. Only items marked as awarded to your company are included in this contract award, and only those awarded items may be sold through the BuyBoard contract. All sales must comply with the contract terms and must be at or below the awarded pricing as set forth in the General Terms and Conditions.

A list of Cooperative members is available on the buyboard.com website. In addition, the BuyBoard Administrator's vendor relations staff is available to assist you in locating available BuyBoard informational resources and answering questions you may have as an awarded BuyBoard vendor.

On behalf of the Cooperative, we appreciate your interest in the Cooperative and we are looking forward to your participation in the program. If you have any questions, feel free to contact me at bids@buyboard.com.

Sincerely,

Ava Benford, Department Director, Cooperative Procurement
Texas Association of School Boards, Inc.,
Administrator for The Local Government Purchasing Cooperative

Welcome to BuyBoard!

Re: *Notice of National Purchasing Cooperative Award;* Proposal Invitation No. 792-26, Software as a Service (SaaS), Cybersecurity Assessments, and Related Products and Services

Congratulations, The National Purchasing Cooperative (National Cooperative) has awarded your company a BuyBoard® contract based on the above-referenced Proposal Invitation. The contract is effective for an initial one-year term of April 1, 2026, through March 31, 2027, and may be subject to two possible one-year renewals. Please refer to the Proposal Invitation for the contract documents, including the National Purchasing Cooperative Vendor Award Agreement and General Terms and Conditions of the Contract.

To review the items your company has been awarded, please review Proposal Tabulation No. 792-26 at www.buyboard.com/vendor. Only items marked as awarded to your company are included in this contract award, and only those awarded items may be sold through the BuyBoard contract. All sales must comply with the contract terms and must be at or below the awarded pricing as set forth in the General Terms and Conditions.

A list of National Cooperative members is available on the buyboard.com website. In addition, the BuyBoard Administrator's vendor relations staff is available to assist you in locating available BuyBoard informational resources and answering questions you may have as an awarded BuyBoard vendor.

On behalf of the National Cooperative, we are looking forward to your participation in the program. If you have any questions, feel free to contact me at bids@buyboard.com.

Sincerely,

Ava Benford, Department Director, Cooperative Procurement
Texas Association of School Boards, Inc.,
Administrator for The Local Government Purchasing Cooperative

v.01.03.2025

PROPOSER'S ACCEPTANCE AND AGREEMENT

Proposal Invitation Name Software as a Service (SaaS), Cybersecurity Assessments, and Related Products and Services	**Proposal Due Date/Opening Date and Time** October 2, 2025, at 4:00 PM
Proposal Invitation Number 792-26	**Location of Proposal Opening** Texas Association of School Boards, Inc. BuyBoard Department 12007 Research Blvd. Austin, TX 78759
Contract Term April 1, 2026, through March 31, 2027, with two possible one-year renewals.	**Anticipated Cooperative Board Meeting Date** February 2026

By signature below, the undersigned acknowledges and agrees that you are authorized to submit this Proposal, including making all acknowledgements, consents, and certifications herein, on behalf of Proposer and, to the best of your knowledge, the information provided is true, accurate, and complete.

PROPOSAL FORMS PART 1: COMPLIANCE FORMS

INSTRUCTIONS:

Proposer must review and complete all forms in this Proposal Forms Part 1:

- Proposal Acknowledgements
- Felony Conviction Disclosure
- Resident/Nonresident Certification
- Debarment Certification
- Vendor Employment Certification
- No Boycott Verification
- No Excluded Nation or Foreign Terrorist Organization Certification
- Historically Underutilized Business Certification
- Acknowledgement of BuyBoard Technical Requirements
- Construction-Related Goods and Services Affirmation
- Deviation and Compliance
- Vendor Consent for Name Brand Use
- Confidential/Proprietary Information
- EDGAR Vendor Certification
- Compliance Forms Signature Page

An authorized representative of Proposer *must initial in the bottom right corner of each page* where indicated and complete and sign the Compliance Forms Signature Page. Proposer's failure to fully complete, initial, and sign forms as required may result in your Proposal being rejected as non-responsive.

PROPOSAL ACKNOWLEDGEMENTS

The proposing company ("you" or "your") hereby acknowledges and agrees as follows:

1. You have carefully examined and understand all information and documentation associated with this Proposal Invitation, including the Instructions to Proposers, General Information, General Terms and Conditions, attachments/forms, appendices, item specifications, and line items (collectively "Requirements");
2. By your response ("Proposal") to this Proposal Invitation, you propose to supply the products or services submitted at the pricing quoted in your Proposal and in strict compliance with the Requirements, unless specific deviations or exceptions are noted in the Proposal;
3. By your Proposal, you acknowledge and certify all items set forth in the General Terms and Conditions, Section B.12 (Certifications), including all non-collusion certifications and certifications regarding legal, ethical, and other matters set forth therein.
4. Any and all deviations and exceptions to the Requirements have been noted in your Proposal on the required form and no others will be claimed;

Initial: BB

5. If the Cooperative accepts any part of your Proposal and awards you a Contract, you will furnish all awarded products or services at the pricing quoted and in strict compliance with the Requirements (unless specific deviations or exceptions are noted on the required form and accepted by the Cooperative), including without limitation the Requirements related to:
   a. conducting business with Cooperative members, including offering pricing to members that is the best you offer compared to similarly situated customers in similar circumstances;
   b. payment of a service fee in the amount specified and as provided for in this Proposal Invitation;
   c. the **possible** award of a piggy-back contract by the National Purchasing Cooperative or nonprofit entity, in which event you will offer the awarded products and services in accordance with the Requirements; and
   d. submitting price sheets or catalogs in the proper format as required by the Cooperative as a prerequisite to activation of your Contract;
6. You have clearly identified on the included form any information in your Proposal that you believe to be confidential or proprietary or that you do not consider to be public information subject to public disclosure under the Texas Public Information Act or similar public information law;
7. The individual submitting this Proposal is duly authorized to enter into the contractual relationship represented by this Proposal Invitation on your behalf and bind you to the Requirements, and such individual (and any individual signing a form or Proposal document) is authorized and has the requisite knowledge to provide the information and make the representations and certifications required in the Requirements;
8. You have carefully reviewed your Proposal, and certify that all information provided is true, complete, and accurate to the best of your knowledge, and you authorize the Cooperative to take such action as it deems appropriate to verify such information; and
9. Any misstatement, falsification, or omission in your Proposal, whenever or however discovered, will be grounds for disqualifying you from consideration for a contract award under this Proposal Invitation, termination of a contract award, or any other remedy or action provided for in the General Terms and Conditions or by law.

FELONY CONVICTION DISCLOSURE

Subsection (a) of Section 44.034 of the Texas Education Code (Notification of Criminal History of Contractor) states: "A person or business entity that enters into a contract with a school district must give advance notice to the district if the person or an owner or operator has been convicted of a felony. The notice must include a general description of the conduct resulting in the conviction of a felony."

Section 44.034 further states in Subsection (b): "A school district may terminate a contract with a person or business entity if the district determines that the person or business entity failed to give notice as required by Subsection (a) or misrepresented the conduct resulting in the conviction. The district must compensate the person or business entity for services performed before the termination of the contract."

Please check (√) one of the following:

☐ My company is a publicly-held corporation. (Advance notice requirement does not apply to publicly-held corporation.)
☒ My company is not owned or operated by anyone who has been convicted of a felony.
☐ My company is owned/operated by the following individual(s) who has/have been convicted of a felony:

Name of Felon(s): _____

Details of Conviction(s): _____

_____

Initial: BB

RESIDENT/NONRESIDENT CERTIFICATION

Chapter 2252, Subchapter A, of the Texas Government Code establishes certain requirements applicable to proposers who are not Texas residents. Under the statute, a "resident" proposer is a person whose principal place of business is in Texas, including a contractor whose ultimate parent company or majority owner has its principal place of business in Texas. A "nonresident" proposer is a person who is not a Texas resident. Please indicate the status of your company as a "resident" proposer or a "nonresident" proposer under these definitions.

Please check (√) one of the following:

☐ I certify that my company is a **Resident Proposer.**
☒ I certify that my company is a **Nonresident Proposer.**

If your company is a Nonresident Proposer, you must provide the following information for your resident state (the state in which your company's principal place of business is located):

ClearGov, Inc.	2 Mill and Main Place, Suite 630		
Company Name	Address		
Maynard	MA	01754	
City	State	Zip Code	

A. Does your resident state require a proposer whose principal place of business is in Texas to under-price proposers whose resident state is the same as yours by a prescribed amount or percentage to receive a comparable contract?

☐ Yes ☒ No

B. What is the prescribed amount or percentage? $_____ or _____%

DEBARMENT CERTIFICATION

By signature on the Compliance Forms Signature Page, I certify that neither my company nor an owner or principal of my company has been debarred, suspended or otherwise made ineligible for participation in Federal Assistance programs under Executive Order 12549, "Debarment and Suspension," as described in the Federal Register and Rules and Regulations. Neither my company nor an owner or principal of my company is currently listed on the government-wide exclusions in SAM, debarred, suspended, or otherwise excluded by agencies or declared ineligible under any statutory or regulatory authority. My company agrees to immediately notify the Cooperative and all Cooperative members with pending purchases or seeking to purchase from my company if my company or an owner or principal is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under any statutory or regulatory authority.

VENDOR EMPLOYMENT CERTIFICATION

Section 44.031(b) of the Texas Education Code establishes certain criteria that a school district must consider when determining to whom to award a contract. Among the criteria for certain contracts is whether the vendor or the vendor's ultimate parent or majority owner (i) has its principal place of business in Texas; or (ii) employs at least 500 people in Texas. If neither your company nor the ultimate parent company or majority owner has its principal place of business in Texas, does your company, ultimate parent company, or majority owner employ at least 500 people in Texas?

Please check (√) one of the following:

☐ Yes ☒ No

Initial: BB

NO BOYCOTT VERIFICATION

A Texas governmental entity may not enter into a contract with a value of $100,000 or more that is to be paid wholly or partly from public funds with a company (excluding a sole proprietorship) that has 10 or more full-time employees for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel and will not boycott Israel during the term of the contract (TEX. GOV'T CODE Ch. 2271), (2) does not boycott energy companies and will not boycott energy companies during the term of the contract (TEX. GOV'T CODE Ch. 2276), and (3) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association and will not discriminate during the term of the contract against a firearm entity or firearm trade association (TEX. GOV'T CODE Ch. 2274). Accordingly, this certification form is included to the extent required by law.

"Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes. TEX. GOV'T CODE §808.001(1).

"Boycott energy company" means, without an ordinary business purpose, refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company: (A) engages in the exploration, production, utilization, transportation, sale, or manufacturing of fossil fuel-based energy and does not commit or pledge to meet environmental standards beyond applicable federal and state law; or (B) does business with a company described by Paragraph (A). TEX. GOV'T CODE §809.001(1).

"Discriminate against a firearm entity or firearm trade association" means, (A) with respect to the entity or association, to: (i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association; (ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or (iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and (B) does not include: (i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and (ii) a company's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship: (aa) to comply with federal, state, or local law, policy, or regulations or a directive by a regulatory agency; or (bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity's or association's status as a firearm entity or firearm trade association. TEX. GOV'T CODE §2274.001(3).

By signature on the Compliance Forms Signature Page, to the extent applicable, I certify and verify that Vendor does not boycott Israel, boycott energy companies, or discriminate against a firearm entity or firearm trade association and will not do so during the term of any contract awarded under this Proposal Invitation, that this certification is true, complete and accurate, and that I am authorized by my company to make this certification.

Initial: BB

NO EXCLUDED NATION OR FOREIGN TERRORIST ORGANIZATION CERTIFICATION

Chapter 2252 of the Texas Government Code provides that a Texas governmental entity may not enter into a contract with a company engaged in active business operations with Sudan, Iran, or a foreign terrorist organization – specifically, any company identified on a list prepared and maintained by the Texas Comptroller under Texas Government Code §§806.051, 807.051, or 2252.153. (A company that the U.S. Government affirmatively declares to be excluded from its federal sanctions regime relating to Sudan, Iran, or any federal sanctions regime relating to a foreign terrorist organization is not subject to the contract prohibition.)

By signature on the Compliance Forms Signature Page, I certify and verify that Vendor is not on the Texas Comptroller's list identified above; that this certification is true, complete and accurate; and that I am authorized by my company to make this certification.

HISTORICALLY UNDERUTILIZED BUSINESS CERTIFICATION

A Proposer that has been certified as a Historically Underutilized Business (also known as a Minority/Women Business Enterprise or "MWBE" and all referred to in this form as a "HUB") is encouraged to indicate its HUB certification status when responding to this Proposal Invitation. The BuyBoard website will indicate HUB certifications for awarded Vendors that properly indicate and document their HUB certification on this form. *(Please check (√) all that apply)*

☐ I certify that my company has been certified as a HUB in the following categories:

☐ **Minority Owned Business** ☐ **Women Owned Business**
☐ **Service-Disabled Veteran Owned Business (veteran defined by 38 U.S.C. §101(2), who has a service-connected disability as defined by 38 U.S.C. § 101(16), and who has a disability rating of 20% or more as determined by the U. S. Department of Veterans Affairs or Department of Defense)**

Certification Number: _____

Name of Certifying Agency: _____

☒ My company has **NOT** been certified as a HUB.

ACKNOWLEDGEMENT OF BUYBOARD TECHNICAL REQUIREMENTS

Vendor shall review the BuyBoard Technical Requirements included in this Proposal Invitation. By signature on the Compliance Forms Signature Page, the undersigned affirms that Proposer has obtained a copy of the BuyBoard Technical Requirements, has read and understands the requirements, and certifies that Vendor is able to meet and will comply with those requirements except as follows: *[List and explain BuyBoard Technical Requirements, if any, to which your company **cannot** or will **not** comply.]*

Note: In accordance with the General Terms and Conditions of the Contract, to the extent Vendor is awarded a Contract under this Proposal Invitation but is unable or unwilling to meet the applicable BuyBoard Technical Requirements, the information available on the BuyBoard for Vendor's awarded products or services may be limited, potentially placing Vendor at a disadvantage and impacting the ability of Cooperative members to search, find, review, and purchase Vendor's awarded products and services on the BuyBoard website. Further, to the extent Vendor has acknowledged ability to meet and comply with the BuyBoard Technical Requirements, any subsequent failure or refusal by Vendor to promptly provide information upon request to the Cooperative administrator in accordance with those technical requirements may be deemed an event of default under the Contract. **Initial:** BB

CONSTRUCTION-RELATED GOODS AND SERVICES AFFIRMATION

The Cooperative issued the BuyBoard Procurement and Construction-Related Goods and Services Advisory for Texas Members ("Advisory"), which provides information specifically relevant to the procurement of construction-related goods and services by Texas Cooperative members. The Advisory, available at buyboard.com/Vendor/Resources.aspx, provides an overview of certain legal requirements that are potentially relevant to a Cooperative member's procurement of construction or construction-related goods and services, including those for projects that may involve or require architecture, engineering or independent testing services. A copy of the Advisory can also be provided upon request. Because many BuyBoard contracts include goods or installation services that might be considered construction-related, Proposer must make this Construction Related-Goods and Services Affirmation regardless of type of goods or services associated with this Proposal Invitation.

A contract awarded under this Proposal Invitation covers only the specific goods and/or services awarded by the Cooperative. As explained in the Advisory ("Advisory"), **Texas law prohibits the procurement of architecture or engineering services through a purchasing cooperative. This Proposal Invitation and any Contract awarded thereunder does not include such services. Architecture or engineering services must be procured by a Cooperative member separately, in accordance with the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code) and other applicable law and local policy.**

By signature on the Compliance Forms Signature Page, Proposer affirms that Proposer has obtained a copy of the Advisory, has read and understands the Advisory, and is authorized by Proposer to make this affirmation. If Proposer sells construction-related goods or services to a Cooperative member under a Contract awarded under this Proposal Invitation, Proposer will comply with the Advisory and applicable legal requirements, make a good faith effort to make its Cooperative member customers or potential Cooperative member customers aware of such requirements, and provide a Cooperative member with a copy of the Advisory before accepting the member's Purchase Order or other agreement for construction-related goods or services.

Initial: BB

DEVIATION AND COMPLIANCE

If your company intends to deviate from the General Terms and Conditions, Proposal Specifications or other requirements associated with this Proposal Invitation, you MUST list all such deviations on this form, and provide complete and detailed information regarding the deviations on this form or an attachment to this form. **Prior to completing this form, Vendor shall review the General Terms and Conditions section B.4 (Deviations from Item Specifications and General Terms and Conditions). Please note that, as provided in section B.4, certain provisions of the General Terms and Conditions are NOT subject to deviation, and certain deviations will be deemed rejected without further action by the Cooperative. Any attempted deviation, whether directly or indirectly, to provisions identified in this Proposal Invitation as not subject to deviation shall be deemed rejected by the Cooperative and, unless otherwise withdrawn by Vendor, may result in Vendor's Proposal being rejected in its entirety.**

The Cooperative will consider any deviations in its contract award decision and reserves the right to accept or reject a proposal based upon any submitted deviation.

In the absence of any deviation identified and described in accordance with the above, your company must fully comply with the General Terms and Conditions, Proposal Specifications and all other requirements associated with this Proposal Invitation if awarded a Contract under this Proposal Invitation. A deviation will not be effective unless accepted by the Cooperative. The Cooperative, by and through the Cooperative administrator, may, in its sole discretion, seek clarification from and/or communicate with Proposer(s) regarding any submitted deviation, consistent with general procurement principles of fair competition. The Cooperative reserves the right to accept or reject a Proposal based upon any submitted deviation.

Please check (√) one of the following:

☒ **No**; Deviations
☐ **Yes**; Deviations

List and fully explain any deviations you are submitting:

VENDOR CONSENT FOR NAME BRAND USE

BuyBoard members seeking to make purchases using a Contract awarded under this Proposal Invitation may view information regarding awarded Vendors, including but not limited to product catalogs, pricelists, pricing, and Proposals, through the BuyBoard website. To improve and enhance the experience of BuyBoard members seeking to procure goods and services under the Contract utilizing the BuyBoard website, any Vendor logo, product images, and similar brand and trademark information provided by Vendor for purposes of the Contract ("Vendor Information") may be posted on the BuyBoard website.

You acknowledge that, by submitting your Proposal, unless you specifically opt out below, you consent to use of your company's Vendor Information on the BuyBoard website if awarded a Contract. You further acknowledge that whether, where, and when to include the Vendor Information on the BuyBoard website shall be at the sole discretion of the BuyBoard Administrator. Vendor retains, however, the right of general quality control over the BuyBoard Administrator's authorized display of proprietary Vendor Information. Neither the BuyBoard nor its administrator will be responsible for the use or distribution of Vendor Information by BuyBoard members or any other third party using the BuyBoard website. This Vendor Consent shall be effective for the full term of the Contract, including renewals, unless Vendor provides a signed, written notice revoking consent to contractadmin@buyboard.com. BuyBoard shall have up to thirty days from the date of receipt of a termination or revocation of a Vendor Consent to remove Vendor information from the BuyBoard website.

This Vendor Consent is subject to the Terms and Conditions of the Contract, including, but not limited to, those terms pertaining to Disclaimer of Warranty and Limitation of Liability, Indemnification, and Intellectual Property Infringement.

Vendor logo files must be submitted in one of the formats set forth in the BuyBoard Technical Requirements. Proposers are requested to submit this information with Vendor's Proposal. (This consent shall not authorize use of your company's Vendor Information by BuyBoard if your company is not awarded a Contract.)

OPT OUT:

If your company wishes to opt out of the Vendor Consent for Name Brand Use, you must check the opt out box below. *DO NOT select this box unless your company is opting out of this Vendor Consent for Name Brand Use.*

☐ By checking this box, Vendor hereby declines to provide consent for use of Vendor Information (as defined herein) on the BuyBoard website. **By opting out, Vendor acknowledges and agrees that, if Vendor is awarded a Contract under this Proposal Invitation, information available on the BuyBoard for Vendor's awarded products or services may be limited, potentially placing Vendor at a disadvantage and impacting the ability of Cooperative members to search, find, review, and purchase Vendor's awarded products and services on the BuyBoard website.**

Initial: BB

CONFIDENTIAL/PROPRIETARY INFORMATION

A. Public Disclosure Laws

All Proposals, forms, documentation, catalogs, pricelists, or other materials submitted by Vendor to the Cooperative in response to this Proposal Invitation, may be subject to the disclosure requirements of the Texas Public Information Act (Texas Government Code chapter 552.001, *et. seq.*) or similar disclosure law. Proposer must clearly identify on this form any information in its Proposal (including forms, documentation, or other materials submitted with the Proposal) that Proposer considers proprietary or confidential. If Proposer fails to properly identify the information, the Cooperative shall have no obligation to notify Vendor or seek protection of such information from public disclosure should a member of the public or other third party request access to the information under the Texas Public Information Act or similar disclosure law. When required by the Texas Public Information Act or other disclosure law, Proposer may be notified of any third-party request for information in a Proposal that Proposer has identified in this form as proprietary or confidential.

Does your Proposal (including forms, documentation, catalogs, pricelists, or other materials submitted with the Proposal) contain information which Vendor considers proprietary or confidential?

Please check (√) one of the following:

☒ **NO**, I certify that none of the information included with this Proposal is considered confidential or proprietary.

☐ **YES**, I certify that this Proposal contains information considered confidential or proprietary and all such information is specifically identified on this form.

If you responded "YES", you must clearly identify below the specific information you consider confidential or proprietary. List each page number, form number, or other information sufficient to make the information readily identifiable. The Cooperative and Cooperative administrator shall not be responsible for a Proposer's failure to clearly identify information considered confidential or proprietary. Further, by submitting a Proposal, Proposer acknowledges that the Cooperative and Cooperative administrator will disclose information when required by law, even if such information has been identified herein as information Vendor considers confidential or proprietary.

Confidential / Proprietary Information:

_____

_____

_____

_____

_____

(Attach additional sheets if needed.)

Initial: BB

B. Copyright Information

Does your Proposal (including forms, documentation, pricelists, catalogs, or other materials submitted with the Proposal) contain copyright information?

Please check (√) one of the following:

☒ **NO,** Proposal (including forms, documentation, pricelists, catalogs, or other materials submitted with the Proposal) does not contain copyright information.

☐ **YES,** Proposal (including forms, documentation, pricelists, catalogs, or other materials submitted with the Proposal) does contain copyright information.

If you responded "YES", clearly identify below the specific documents or pages containing copyright information.

Copyright Information: _____

_____

_____

_____

(Attach additional sheets if needed.)

C. Consent to Release Confidential/Proprietary/Copyright Information to BuyBoard Members

BuyBoard members (Cooperative and nonprofit members) seeking to make purchases through the BuyBoard may wish to view information included in the Proposals of awarded Vendors. If you identified information on this form as confidential, proprietary, or subject to copyright, and you are awarded a BuyBoard contract, your acceptance of the BuyBoard contract award constitutes your consent to the disclosure of such information to BuyBoard members, including posting of such information on the secure BuyBoard website for members. Note: Neither the Cooperative nor Cooperative administrator will be responsible for the use or distribution of information by BuyBoard members or any other party.

D. Consent to Release Proposal Tabulation

Notwithstanding anything in this Confidential/Proprietary Information form to the contrary, by submitting a Proposal, Vendor consents and agrees that, upon Contract award, the Cooperative may publicly release, including posting on the public BuyBoard website, a copy of the proposal tabulation and award information for the Contract including Vendor name; proposed catalog/pricelist name(s); proposed percentage discount(s), hourly labor rate(s), or other specified pricing; and Vendor award or non-award information.

Initial: BB

EDGAR VENDOR CERTIFICATION
(2 CFR Part 200 and Appendix II)

When a Cooperative member seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200 (sometimes referred to as the "Uniform Guidance" or new "EDGAR"). All Vendors submitting a Proposal must complete this EDGAR Certification Form regarding Vendor's willingness and ability to comply with certain requirements which ***may*** be applicable to specific Cooperative member purchases using federal grant funds. Completed forms will be made available to Cooperative members for their use while considering their purchasing options when using federal grant funds. Cooperative members may also require Vendors to enter into ancillary agreements, in addition to the terms and conditions of the BuyBoard contract, to address the member's specific contractual needs, including contract requirements for a procurement using federal grants or contracts.

For <u>each</u> of the items below, Vendor should certify Vendor's agreement and ability to comply, where applicable, by having Vendor's authorized representative check the applicable boxes, initial each page, and sign the Compliance Forms Signature Page. If you fail to complete any item in this form, the Cooperative will consider and may list the Vendor's response on the BuyBoard as "NO," the Vendor is unable or unwilling to comply. A "NO" response to any of the items may, if applicable, impact the ability of a Cooperative member to purchase from the Vendor using federal funds.

1. Vendor Violation or Breach of Contract Terms:

Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 USC 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Provisions regarding Vendor default are included in the BuyBoard General Terms and Conditions, including Section E.18, Remedies for Default and Termination of Contract. Any Contract award will be subject to such BuyBoard General Terms and Conditions, as well as any additional terms and conditions in any Purchase Order or Cooperative member ancillary contract agreed upon by Vendor and the Cooperative member which must be consistent with and protect the Cooperative member at least to the same extent as the BuyBoard Terms and Conditions. The remedies under the Contract are in addition to any other remedies that may be available under law or in equity. By submitting a Proposal, you agree to these Vendor violation and breach of contract terms.

■ **YES**, I agree. ☐ **NO**, I do not agree.

2. Termination for Cause or Convenience:

For any Cooperative member purchase or contract in excess of $10,000 made using federal funds, you agree that the following term and condition shall apply:

The Cooperative member may terminate or cancel any Purchase Order under this Contract at any time, with or without cause, by providing seven (7) business days advance written notice to the Vendor. If this Agreement is terminated in accordance with this Paragraph, the Cooperative member shall only be required to pay Vendor for goods or services delivered to the Cooperative member prior to the termination and not otherwise returned in accordance with Vendor's return policy. If the Cooperative member has paid Vendor for goods or services not yet provided as of the date of termination, Vendor shall immediately refund such payment(s).

If an alternate provision for termination of a Cooperative member purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is included in the Cooperative member's Purchase Order or ancillary agreement agreed to by the Vendor, the Cooperative member's provision shall control.

■ **YES**, I agree. ☐ **NO**, I do not agree. **Initial:** BB

3. Equal Employment Opportunity:

Except as otherwise provided under 41 CFR Part 60, all Cooperative member purchases or contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 shall be deemed to include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

The equal opportunity clause provided under 41 CFR 60-1.4(b) is hereby incorporated by reference. Vendor agrees that such provision applies to any Cooperative member purchase or contract that meets the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 and Vendor agrees that it shall comply with such provision.

■ **YES**, I agree. ☐ **NO**, I do not agree.

4. Davis-Bacon Act:

When required by Federal program legislation, Vendor agrees that, for all Cooperative member prime construction contracts/purchases in excess of $2,000, Vendor shall comply with the Davis-Bacon Act (40 USC 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, Vendor is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determinate made by the Secretary of Labor. In addition, Vendor shall pay wages not less than once a week.

Current prevailing wage determinations issued by the Department of Labor are available at www.sam.gov. Vendor agrees that, for any purchase to which this requirement applies, the award of the purchase to the Vendor is conditioned upon Vendor's acceptance of the wage determination.

Vendor further agrees that it shall also comply with the Copeland "Anti-Kickback" Act (40 USC 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled.

■ **YES**, I agree. ☐ **NO**, I do not agree.

5. Contract Work Hours and Safety Standards Act:

Where applicable, for all Cooperative member contracts or purchases in excess of $100,000 that involve the employment of mechanics or laborers, Vendor agrees to comply with 40 USC 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 USC 3702 of the Act, Vendor is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week.

The requirements of 40 USC 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

■ **YES**, I agree. ☐ **NO**, I do not agree.

Initial: BB

6. Right to Inventions Made Under a Contract or Agreement:

If the Cooperative member's Federal award meets the definition of "funding agreement" under 37 CFR 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance or experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Vendor agrees to comply with the above requirements when applicable.

■ **YES**, I agree. ☐ **NO**, I do not agree.

7. Clean Air Act and Federal Water Pollution Control Act:

Clean Air Act (42 USC 7401-7671q.) and the Federal Water Pollution Control Act (33 USC 1251-1387), as amended – Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 USC 7401-7671q.) and the Federal Water Pollution Control Act, as amended (33 USC 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

When required, Vendor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act and the Federal Water Pollution Control Act.

■ **YES**, I agree. ☐ **NO**, I do not agree.

8. Debarment and Suspension:

Debarment and Suspension (Executive Orders 12549 and 12689) – A contract award (see 2 CFR 180.220) must not be made to parties listed on the government-wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1966 Comp. p. 189) and 12689 (3 CFR Part 1989 Comp. p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Vendor certifies that Vendor is not currently listed on the government-wide exclusions in SAM, is not debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549. Vendor further agrees to immediately notify the Cooperative and all Cooperative members with pending purchases or seeking to purchase from Vendor if Vendor is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549.

■ **YES**, I agree. ☐ **NO**, I do not agree.

9. Byrd Anti-Lobbying Amendment:

Byrd Anti-Lobbying Amendment (31 USC 1352) - Vendors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 USC 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. As applicable, Vendor agrees to file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 USC 1352).

■ **YES**, I agree. ☐ **NO**, I do not agree.

Initial: BB

10. Procurement of Recovered Materials:

For Cooperative member purchases utilizing Federal funds, Vendor agrees to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act where applicable and provide such information and certifications as a Cooperative member may require to confirm estimates and otherwise comply. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery, and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

■ **YES**, I agree. ☐ **NO**, I do not agree.

11. Domestic Preferences for Procurements:

Where appropriate and consistent with law, 2 CFR §200.322 contains certain considerations for domestic preferences for procurements which may be applicable to Cooperative members using federal funds. When required by a Cooperative member, Vendor agrees to provide such information or certification as may reasonably be requested by the Cooperative member regarding Vendor's products, including whether goods, products, or materials are produced in the United States.

■ **YES**, I agree. ☐ **NO**, I do not agree.

12. Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

2 CFR §200.216 prohibits expending federal loan or grant funds to procure or obtain covered telecommunications equipment or services. To the extent applicable and when required by a Cooperative member, Vendor agrees to provide such information or certification as may reasonably be requested by the Cooperative member to confirm whether any telecommunications equipment or services provided by Vendor is covered telecommunications equipment or services under 2 CFR §200.216.

■ **YES**, I agree. ☐ **NO**, I do not agree.

13. General Compliance and Cooperation with Cooperative Members:

In addition to the foregoing specific requirements, Vendor agrees, in accepting any Purchase Order from a Cooperative member, it shall make a good faith effort to work with Cooperative members to provide such information and to satisfy such requirements as may apply to a particular Cooperative member purchase or purchases including, but not limited to, applicable recordkeeping and record retention requirements.

■ **YES**, I agree. ☐ **NO**, I do not agree.

PROPOSAL FORMS PART 2: VENDOR INFORMATION FORMS

INSTRUCTIONS:

Proposer must completely and accurately provide all information requested in the following Vendor Information Forms or your Proposal may be rejected as non-responsive:

- Vendor Business Name
- Vendor Contact Information
- Federal and State/Purchasing Cooperative Experience
- Governmental References
- Company Profile
- Texas Regional Service Designation
- State Service Designation
- National Purchasing Cooperative Vendor Award Agreement *(Vendors serving outside Texas only)*
- Local/Authorized Seller Listings
- Manufacturer Dealer Designation
- Proposal Invitation Questionnaire

To the extent any information requested is not applicable to your company, you must so indicate on the form.

VENDOR BUSINESS NAME

By submitting a Proposal, Vendor is seeking to enter into a legal contract with the Cooperative. As such, Vendor must be an individual or legal business entity capable of entering into a binding contract.

Name of Proposing Company:

ClearGov, Inc.

*(List the **legal** name of the company seeking to contract with the Cooperative. Do **NOT** list an assumed name, dba, aka, etc. here. Such information may be provided below. If you are submitting a joint proposal with another entity to provide the same proposed goods or services, each submitting entity should complete a separate vendor information form. Separately operating legal business entities, even if affiliated entities, which propose to provide goods or services separately must submit their own Proposals.)*

Please check (√) one of the following:

Type of Business: ☐ Individual/Sole Proprietor ■ Corporation ☐ Limited Liability Company ☐ Partnership

☐ Other (Specify: _____)

State of Incorporation (if applicable): Delaware

Federal Employer Identification Number: 47-5205793
*(Vendor must include a completed **IRS W-9** form with their Proposal)*

Name by which Vendor, if awarded, wishes to be identified on the BuyBoard: *(Note: If different than the Name of Proposing Company listed above, only valid trade names (dba, aka, etc.) of the Proposing Company may be used and a copy of your Assumed Name Certificate(s), if applicable, must be attached.)* _____

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

ClearGov Inc.

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☑ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . .

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions)

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any)

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any)

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

5 Address (number, street, and apt. or suite no.). See instructions.

2 Mill and Main Pl, Ste 630

Requester's name and address (optional)

6 City, state, and ZIP code

Maynard, MA 01754

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

4	7	–	5	2	0	5	7	9	3

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here | **Signature of U.S. person** Bruce Lueddke **Date** 5/5/2025

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

VENDOR CONTACT INFORMATION

Vendor shall provide the requested Vendor Contact Information in the electronic proposal submission system including contract, purchase order, RFQ, and invoice contacts (or, if submitting a hard copy Proposal, timely request and complete the Vendor Contact Information form in accordance with the Instructions to Proposers).

FEDERAL AND STATE/PURCHASING COOPERATIVE EXPERIENCE

The Cooperative strives to provide Cooperative members with the best services and products at the best prices available from Vendors with the technical resources and ability to serve Cooperative members. Please respond to the following questions.

1. Provide the dollar value of sales to or through purchasing cooperatives at or based on an established catalog or market price during the previous 12-month period or the last fiscal year: $ 4,800,000. (The period of the 12-month period is 01/01/2024 / 12/31/2024). In the event that a dollar value is not an appropriate measure of the sales, provide and describe your own measure of the sales of the item(s).
2. By submitting a proposal, you agree that, based on your written discounting policies, the discounts you offer the Cooperative are equal to or better than the best price you offer other purchasing cooperatives for the same items under equivalent circumstances.
3. Provide the information requested below for other purchasing cooperatives for which Proposer currently serves, or in the past has served, as an awarded vendor. Rows should be added to accommodate as many purchasing cooperatives as required.

PURCHASING GROUP	CURRENT VENDOR? (Y/N)	FORMER VENDOR (Y/N)? – IF YES, LIST YEARS AS VENDOR	AWARDED COMMODITY CATEGORY(IES)

9. Other	Y		SaaS

☐ **MY COMPANY DOES NOT CURRENTLY HAVE ANY OF THE ABOVE OR SIMILAR TYPE CONTRACTS.**

CURRENT BUYBOARD VENDORS

If you are a current BuyBoard vendor in the same contract category as proposed in this Proposal Invitation, indicate the discount for your current BuyBoard contract and the proposed discount in this Proposal. Explain any difference between your current and proposed discounts.

Current Discount (%): 0% **Proposed Discount (%):** 0%

Explanation: ClearGov does not offer discounts through any other procurement cooperatives and has made a strategic decision to utilize a standard rate card for all customers.

GOVERNMENTAL REFERENCES

For your Proposal to be considered, you must supply a minimum of five (5) individual governmental entity references. The Cooperative may contact any and all references provided as part of the Proposal evaluation. Provide the information requested below, including the existing pricing/discounts you offer each customer. The Cooperative may determine whether pricing/discounts are fair and reasonable by comparing pricing/discounts stated in your Proposal with the pricing/discounts you offer other governmental customers. Attach additional pages if necessary.

	Entity Name	Contact	Phone#	Email Address	Discount	Quantity/ Volume
1.	Grand Island, NE	Patrick Brown	308-385-5444	patrickb@grand-island.com	0%	1
2.	Hilton Head, SC	John Troyer	843-341-4650	johntr@hiltonheadislandsc.gov	0%	1
3.	Naperville, IL	Sherrian Kelly	630-420-6059	kellys@naperville.il.us	0%	1
4.	Orange County, VA	Glenda Paul	540-672-3313	gbradley@orangecountyva.gov	0%	1
5.	Tri-Town School Union, MA	Steven Greenberg	978-887-0771	sgreenberg@tritownschoolunion.com	0%	1

Do you ever modify your written policies or standard governmental sales practices as identified in the above chart to give better discounts (lower pricing) than indicated? **YES** ☐ **NO** ■ If YES, please explain:

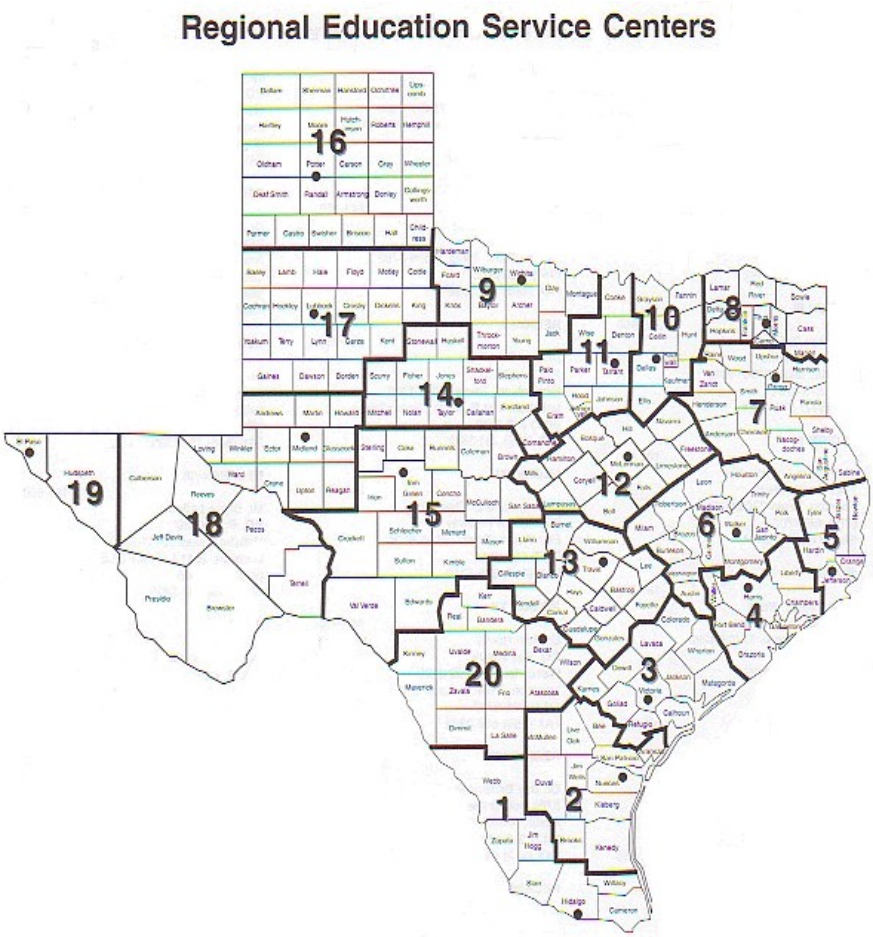
COMPANY PROFILE

Information on awarded Cooperative Contracts is available to Cooperative Members on the BuyBoard website. If your company is awarded a Contract under this Proposal Invitation, please provide a brief company description that you would like to have included with your company profile on the BuyBoard website. **Submit your company profile in a separate file, in Word format, with your Proposal**. (Note: Vendor is solely responsible for any content provided for inclusion on the BuyBoard website. The Cooperative reserves the right to exclude or remove any content in its sole discretion, with or without prior notice, including but not limited to any content deemed by the Cooperative to be inappropriate, irrelevant to the Contract, inaccurate, or misleading.)



Company Profile

ClearGov® makes it easy to plan, build, and present your budget with confidence. Over 1,400 local governments, counties, schools, and special districts use ClearGov to bring stakeholders together in one central platform to manage the complete budget cycle - planning and tracking, budgeting, reporting, and engaging the community. Modern software built for the specific needs of the public sector, ClearGov is how to build the budget quickly and accurately, tell your financial story in a way that builds trust and support, and spend more time on the strategic initiatives that will help your community thrive. ClearGov is proudly endorsed by the National Association of Counties (NACo) and is an Affinity Partner with the International Association of School Business Officials (ASBO). For more information, visit www.cleargov.com.

TEXAS REGIONAL SERVICE DESIGNATION

This form must be completed in the electronic proposal submission system (or, if submitting a hard copy Proposal, timely request and complete the form in accordance with the Instructions to Proposers).

The Cooperative (referred to as "Texas Cooperative" in this form and in the State Service Designation form) offers vendors the opportunity to service its members throughout the entire State of Texas. In the electronic proposal submission system, you must indicate if you will service Texas Cooperative members statewide or, if you do not plan to service all Texas Cooperative members statewide, you ***must*** indicate the specific regions you will service. If you propose to serve different regions for different products or services included in your Proposal, you must complete and submit a separate Texas Regional Service Designation form for each group of products and clearly indicate the products or services to which the designation applies. **(Additional forms can be obtained by contacting** bids@buyboard.com *at least five (5) business days prior to the Proposal Due Date*.) ***By designating a region or regions, you are certifying that you are authorized and willing to provide the proposed products and services in those regions. Designating regions in which you are either unable or unwilling to provide the specified products and services shall be grounds for either rejection of your Proposal or, if awarded, termination of your Contract.*** Additionally, if you do not plan to service Texas Cooperative members (i.e., if you will service only states other than Texas), *you must so indicate on the form in the electronic proposal submission system.*

STATE SERVICE DESIGNATION

This form must be completed in the electronic proposal submission system (or, if submitting a hard copy Proposal, timely request and complete the in accordance with the Instructions to Proposers).

As set forth in the Proposal Invitation, it is the Cooperative's intent that other governmental entities in the United States have the opportunity to purchase goods or services awarded under the Contract, subject to applicable state law, through a piggy-back award or similar agreement through the National Purchasing Cooperative BuyBoard. If you plan to service the entire United States or only specific states, *you must complete the State Service Designation information in the electronic proposal submission system. (Note: If you plan to service Texas Cooperative members, be sure that you complete the Texas Regional Service Designation form.)* ***In addition to this form, to be considered for a piggy-back award by the National Purchasing Cooperative, you must have an authorized representative sign the National Purchasing Cooperative Vendor Award Agreement that follows this page.***

If you serve different states for different products or services included in your Proposal, you must complete and submit a separate State Service Designation form for each group of products and clearly indicate the products or services to which the designation applies. **(Additional forms can be obtained by contacting bids@buyboard.com** ***at least five (5) business days prior to the Proposal Due Date.) By designating a state or states, you are certifying that you are authorized and willing to provide the proposed products and services in those states. Designating states in which you are either unable or unwilling to provide the specified products and services shall be grounds for either rejection of your Proposal or, if awarded, termination of your Contract.***

- I will service all states in the United States.

NATIONAL PURCHASING COOPERATIVE VENDOR AWARD AGREEMENT

In accordance with the Terms and Conditions associated with this Proposal Invitation, a contract awarded under this Proposal Invitation may be "piggy-backed" by another governmental entity. The National Purchasing Cooperative is an intergovernmental purchasing cooperative formed by certain school districts outside of Texas to serve its members throughout the United States. If you agree to be considered for a piggy-back award by the National Purchasing Cooperative, you agree to the following terms and agree to serve National Purchasing Cooperative members in the states you have indicated on the State Service Designation form, in your Proposal.

By signing this form, Proposer (referred to in this Agreement as "Vendor") agrees as follows:

1. Vendor acknowledges that if The Local Government Purchasing Cooperative ("Texas Cooperative") awards Vendor a contract under this Proposal Invitation ("Underlying Award"), the National Purchasing Cooperative ("National Cooperative") may - but is not required to - "piggy-back" on or re-award all or a portion of that Underlying Award ("Piggy-Back Award"). By signing this National Cooperative Vendor Award Agreement ("Agreement"), Vendor accepts and agrees to be bound by any such Piggy-Back Award as provided for herein.

2. In the event National Cooperative awards Vendor a Piggy-Back Award, the National Cooperative Administrator ("BuyBoard Administrator") will notify Vendor in writing of such Piggy-Back Award, which award shall commence on the effective date stated in the Notice and end on the expiration date of the Underlying Award, subject to annual renewals as authorized in writing by the BuyBoard Administrator. Vendor agrees that no further signature or other action is required of Vendor in order for the Piggy-Back Award and this Agreement to be binding upon Vendor. Vendor further agrees that no interlineations or changes to this Agreement by Vendor will be binding on National Cooperative, unless such changes are agreed to by its BuyBoard Administrator in writing.

3. Vendor agrees that it shall offer its goods and services to National Cooperative members at the same pricing and same general terms and conditions, subject to applicable state laws in the state of purchase, as required by the Underlying Award. However, nothing in this Agreement prevents Vendor from offering National Cooperative members better (i.e., lower) competitive pricing and more favorable terms and conditions than those in the Underlying Award.

4. Vendor hereby agrees and confirms that it will serve those states it has designated on the State Service Designation Form of this Proposal Invitation. Any changes to the states designated on the State Service Designation Form must be approved in writing by the BuyBoard Administrator.

5. Vendor agrees to pay National Cooperative the service fee provided for in the Underlying Award based on the amount of purchases generated from National Cooperative members through the Piggy-Back Award. Vendor shall remit payment to National Cooperative on such schedule as it specifies (which shall not be more often than monthly). Further, upon request, Vendor shall provide National Cooperative with copies of all purchase orders generated from National Cooperative members, vendor invoices, and/or such other documentation regarding those purchase orders as the Cooperative's administrators may require in their reasonable discretion for purposes of reviewing and verifying purchase activity. Vendor further agrees that National Cooperative shall have the right, upon reasonable written notice, to review Vendor's records pertaining to purchases made by National Cooperative members in order to verify the accuracy of service fees.

6. Vendor agrees that the Underlying Award, including its General Terms and Conditions, are adopted by reference to the fullest extent such provisions can reasonably apply to the post-proposal/contract award phase. The rights and responsibilities that would ordinarily inure to the Texas Cooperative pursuant to the Underlying Award shall inure to National Cooperative; and, conversely, the rights and responsibilities that would ordinarily inure to Vendor in the Underlying Award shall inure to Vendor in this Agreement. Vendor recognizes and agrees that Vendor and National Cooperative are the only parties to this Agreement, and that nothing in this Agreement has application to other third parties, including the Texas Cooperative. In the event of conflict between this Agreement and the terms of the Underlying Award, the terms of this Agreement shall control, and then only to the extent necessary to reconcile the conflict.

7. This Agreement shall be governed and construed in accordance with the laws of the State of Texas and venue for any dispute shall lie in the federal district court of Travis County, Texas.

8. Vendor acknowledges and agrees that the award of a Piggy-Back Award is within the sole discretion of National Cooperative, and that this Agreement does not take effect unless and until National Cooperative awards Vendor a Piggy-Back Award and the BuyBoard Administrator notifies Vendor in writing of such Piggy-Back Award as provided for herein.

WHEREFORE, by signing below Vendor agrees to the foregoing and warrants that it has the authority to enter into this Agreement.

LOCATION/AUTHORIZED SELLER LISTINGS

If you have more than one location/authorized seller that will service a Contract awarded under this Proposal Invitation, please list each location/authorized seller below. If additional sheets are required, please duplicate this form as necessary. NOTE: Awarded Vendors shall remain responsible for all aspects of the Contract, including processing of Purchase Orders, and shall be responsible for the performance of all locations and authorized sellers under and in accordance with the Contract. ***If you are a product manufacturer and wish to designate Designated Dealers as defined in the General Terms and Conditions to receive Cooperative member Purchase Orders on your behalf, you must complete the Manufacturer Designated Dealer form.***

MANUFACTURER DEALER DESIGNATION

If Vendor is a manufacturer that sells products through a dealer network and wishes to designate a dealer or multiple dealers ("Designated Dealers") to receive Cooperative member Purchase Orders on Vendor's behalf, you must complete this form for each dealer you wish to designate.

Regardless of any Designated Dealers submitted by Vendor, Vendor specifically agrees and acknowledges that any such designations are for Vendor's convenience only and shall not, if Vendor is awarded a Contract, relieve Vendor of any obligations under the Contract, including payment of Cooperative service fees on all Purchase Orders submitted to Vendor or any Designated Dealer. In accordance with the General Terms and Conditions, an awarded Vendor shall remain responsible and liable for all of its obligations under the Contract and the performance of both Vendor and any of Vendor's Designated Dealers under and in accordance with the Contract and remain subject to all remedies for default thereunder, including, but not limited to suspension and termination of Vendor's Contract for nonpayment of service fees.

If awarded, Vendor authorizes the Cooperative, in its sole discretion, to list any Vendor Designated Dealers in the BuyBoard system and to receive Purchase Orders directly from Cooperative members on behalf of Vendor. To the extent a Vendor with Designated Dealers receives a Purchase Order directly, it shall be the responsibility of Vendor to appropriately process such Purchase Order in accordance with the Contract, including but not limited to timely forwarding such Purchase Order to a Designated Dealer for processing.

The Cooperative reserves the right, in its sole discretion, to refuse addition of, or request removal of, any Designated Dealer, and Vendor agrees to immediately require such Designated Dealer to cease accepting Purchase Orders or otherwise acting on Vendor's behalf under the Contract. Further, the Cooperative administrator shall be authorized to remove or suspend any or all Designated Dealers from the BuyBoard at any time in its sole discretion.

If you wish to designate a dealer to service a contract awarded under this Proposal Invitation, please list the Designated Dealer below. If you wish to designate multiple dealers, please duplicate this form as necessary.

PROPOSAL INVITATION QUESTIONNAIRE

The Cooperative will use your responses to the questions below in evaluating your Proposal and technical and financial resources to provide the goods and perform the services ("Work") under the BuyBoard contract contemplated by this Proposal Invitation ("Contract"). Proposers must fully answer each question, numbering your responses to correspond to the questions/numbers below. Proposers must complete below or attach your responses to this questionnaire and submit in one document with your Proposal. **You must submit the questionnaire and responses with your Proposal or the Proposal will not be considered.**

1. List the number of years Proposer has been in business and former business names (if applicable). Note whether your company is currently for sale or involved in any transaction that would significantly alter its business or result in acquisition by another entity.

ClearGov, Inc. was incorporated in 2015 and has been in business for close to 10 years. ClearGov is not currently for sale or involved in any transaction that would significantly alter its business or result in acquisition by another entity.

2. Describe the resources Proposer has to manage staff and successfully perform the Work contemplated under this Contract. State the number and summarize the experience of company personnel who may be utilized for the Work, including those who will be available to Cooperative members for assistance with project development, technical issues, and product selection for Work associated with this Contract.

ClearGov currently provides software solutions to over 1,400 local government, school district and special district customers across all 50 states. ClearGov has a dedicated staff of Client Success managers who support our customers.

3. **Marketing Strategy:** For your Proposal to be considered, you must submit the Marketing Strategy you will use if the Cooperative accepts all or part of your Proposal. *(Example: Explain how your company will initially inform Cooperative members of your BuyBoard Contract, and how you will continue to support the BuyBoard for the duration of the Contract term.)* Attach additional pages if necessary.

The bulk of ClearGov's prospect/client interactions are directly between customers and our sales executives. We have instructed our sales team to present BuyBoard as the first and preferred option if a customer wishes to contract through a procurement cooperative/aggregator. We also encourage customers to become BuyBoard members if they are not already part of the BuyBoard community. Finally, ClearGov will continue to include BuyBoard on the Partners page of our ClearGov website.

4. Describe Proposer's financial capability to perform the Contract. State or describe the firm's financial strength and rating, bonding capacity, and insurance coverage limits. State whether the firm, or any of the firm's past or present owners, principal shareholders or stockholders, or officers, have been a debtor party to a bankruptcy, receivership, or insolvency proceeding in the last 7 years, and identify any such debtor party by name and relationship to or position with your firm.

ClearGov is financially solvent and rapidly growing; None of the firm's past or present owners, principal shareholders, or officers have filed for bankruptcy, receivership or insolvency.

5. Does your company have any outstanding financial judgments and/or is it currently in default on any loan or financing agreement? If so, provide detailed information on the nature of such items and prospects for resolution.

None.

6. List all contracts, if any, in the last 10 years on which Proposer has defaulted, failed to complete or deliver the work, or that have been terminated for any reason. For each such contract, provide the project name, scope, value and date and the name of the procuring entity. Fully explain the circumstances of the default, failure to complete or deliver the work, or termination.

None.

7. List all litigation or other legal proceedings (including arbitration proceedings), if any, in the last 10 years brought against your firm, or any of the firm's past or present owners, principal shareholders or stockholders, officers, agents or employees, that relate to or arise from a contract similar to this Contract or the Work contemplated under this Contract. Provide the style of the lawsuit or proceeding (name of parties and court or tribunal in which filed), nature of the claim, and resolution or current status.

None.

8. For software-related products, does your company permit escrow of source code and other items needed to provide the customer with continued use of the software in the event of Vendor bankruptcy or other issues which cause the functionality of the software to cease? Explain.

No. ClearGov's product is a turnkey, SaaS solution. We do not do custom software development work.

PROPOSAL SPECIFICATION SUMMARY

The categories and items specified for this Proposal Invitation are summarized below. For full Proposal Specifications, you must review and complete the Proposal Specification information in the electronic proposal submission system in accordance with the Instructions to Proposers (or, if submitting a hard copy Proposal, timely request and complete the Proposal Specification Form in accordance with the Instructions to Proposers).

PROPOSAL NOTE 1: Vendors shall submit catalog(s)/pricelist(s) with their Proposal response or the Proposal will not be considered. Vendors shall submit catalog(s)/pricelist(s) with the Proposal in a readily available and readable electronic format, with Excel or searchable PDF preferred. *No paper catalogs or manufacturer/vendor websites will be accepted.*

PROPOSAL NOTE 2: This Proposal Invitation is limited to products within the specified categories. For purposes of clarification, the specified SaaS categories do **not** include board or meeting agenda preparation products, policy and manual management products, or School Health and Related Services (SHARS) Medicaid reimbursement products.

Section I: Software as a Service (SaaS) Products and Related Services

Bid Attributes

1 Name of Proposing Company (Legal Name)

By submitting a Proposal, Vendor is seeking to enter into a legal contract with the Cooperative. As such, Vendor must be an individual or legal business entity capable of entering into a binding contract. List the **LEGAL NAME** of the company seeking to contract with the Cooperative. Do **NOT** list an assumed name, dba, aka, etc. here. Such information may be provided below.

ClearGov Inc.

2 Vendor Business Name

Name by which Vendor, if awarded, wishes to be identified on the BuyBoard. If different than the Name of Proposing Company listed above, only valid trade names (dba, aka, etc.) of the Proposing Company may be used.

8 No Boycott Verification/No Excluded Nation or Foreign Terrorist Organization Certification/Historically Underutilized Business Certification

No Boycott Verification/No Excluded Nation or Foreign Terrorist Organization Certification/Historically Underutilized Business Certification

9 **No Boycott Certification**

A Texas governmental entity may not enter into a contract with a value of $100,000 or more that is to be paid wholly or partly from public funds with a company (excluding a sole proprietorship) that has 10 or more full-time employees for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel and will not boycott Israel during the term of the contract (TEX. GOV'T CODE Ch. 2271), (2) does not boycott energy companies and will not boycott energy companies during the term of the contract (TEX. GOV'T CODE Ch. 2276), and (3) does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association and will not discriminate during the term of the contract against a firearm entity or firearm trade association (TEX. GOV'T CODE Ch. 2274). Accordingly, this certification form is included to the extent required by law.
"Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes. TEX. GOV'T CODE §808.001(1).

"Boycott energy company" means, without an ordinary business purpose, refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with a company because the company: (A) engages in the exploration, production, utilization, transportation, sale, or manufacturing of fossil fuel-based energy and does not commit or pledge to meet environmental standards beyond applicable federal and state law; or (B) does business with a company described by Paragraph (A). TEX. GOV'T CODE §809.001(1).

"Discriminate against a firearm entity or firearm trade association" means, (A) with respect to the entity or association, to: (i) refuse to engage in the trade of any goods or services with the entity or association based solely on its status as a firearm entity or firearm trade association; (ii) refrain from continuing an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; or (iii) terminate an existing business relationship with the entity or association based solely on its status as a firearm entity or firearm trade association; and (B) does not include: (i) the established policies of a merchant, retail seller, or platform that restrict or prohibit the listing or selling of ammunition, firearms, or firearm accessories; and (ii) a company's refusal to engage in the trade of any goods or services, decision to refrain from continuing an existing business relationship, or decision to terminate an existing business relationship: (aa) to comply with federal, state, or local law, policy, or regulations or a directive by a regulatory agency; or (bb) for any traditional business reason that is specific to the customer or potential customer and not based solely on an entity's or association's status as a firearm entity or firearm trade association. TEX. GOV'T CODE §2274.001(3).

By signature on the Compliance Forms Signature Page, to the extent applicable, I certify and verify that Vendor does not boycott Israel, boycott energy companies, or discriminate against a firearm entity or firearm trade association and will not do so during the term of any contract awarded under this Proposal Invitation, that this certification is true, complete and accurate, and that I am authorized by my company to make this certification.

Yes

10 **No Excluded Nation or Foreign Terrorist Organization Certification**

Chapter 2252 of the Texas Government Code provides that a Texas governmental entity may not enter into a contract with a company engaged in active business operations with Sudan, Iran, or a foreign terrorist organization – specifically, any company identified on a list prepared and maintained by the Texas Comptroller under Texas Government Code §§806.051, 807.051, or 2252.153. (A company that the U.S. Government affirmatively declares to be excluded from its federal sanctions regime relating to Sudan, Iran, or any federal sanctions regime relating to a foreign terrorist organization is not subject to the contract prohibition.)

By signature on the Compliance Forms Signature Page, I certify and verify that Vendor is not on the Texas Comptroller's list identified above; that this certification is true, complete and accurate; and that I am authorized by my company to make this certification.

Yes

11 **Historically Underutilized Business Certification**

A Proposer that has been certified as a Historically Underutilized Business (also known as a Minority/Women Business Enterprise or “MWBE” and all referred to in this form as a “HUB”) is encouraged to indicate its HUB certification status when responding to this Proposal Invitation. The BuyBoard website will indicate HUB certifications for awarded Vendors that properly indicate and document their HUB certification on this form.

I certify that my company has been certified as a MWBE/HUB in the following categories: *(Please check all that apply)*

Are credit card payments acceptable to your company?

Yes

86 **Texas Regional Service Designation**

Texas Regional Service Designation - Refer to Form in Proposal Invitation

The Cooperative (referred to as “Texas Cooperative” in this form and in the State Service Designation form) offers vendors the opportunity to service its members throughout the entire State of Texas. If you do not plan to service all Texas Cooperative members statewide, you **must** indicate the specific regions you will service on this form. If you propose to serve different regions for different products or services included in your Proposal, you must complete and submit a separate Texas Regional Service Designation form for each group of products and clearly indicate the products or services to which the designation applies. ***By designating a region or regions, you are certifying that you are authorized and willing to provide the proposed products and services in those regions. Designating regions in which you are either unable or unwilling to provide the specified products and services shall be grounds for either rejection of your Proposal or, if awarded, termination of your Contract.*** Additionally, if you do not plan to service Texas Cooperative members (i.e., if you will service only states other than Texas), you must so indicate on this form.

87 **Company Name**

Company Name

ClearGov Inc.

88 **Texas Regional Service Designation**

Select only one of the following options**.** If you select **"I will NOT serve all Regions of Texas",** you must then check the individual Regions you wish to serve.

I will serve all Regions of Texas

89 **Region 1**

The Local Government Purchasing Cooperative
Attn: TASB Asst. Division Director, Cooperative Procurement
12007 Research Blvd.
Austin, TX 78759

To Whom It May Concern,

ClearGov provides unique budget planning, building and reporting solutions for local government agencies: towns, cities, counties, school districts, special districts, etc. More than 1,400 customers have purchased the ClearGov platform via sole source. For starters, this letter confirms that ClearGov, Inc. is the sole source provider for the following modules:

- ClearGov Operational Budgeting
- ClearGov Personnel Budgeting
- ClearGov Capital Budgeting
- ClearGov Digital Budget Book
- ClearGov Transparency
- ClearGov Strategic Planning
- ClearGov Digital Financial Reporting
- ClearGov Capital Project Tracking
- ClearGov ClearForms

All of these products are proprietary software solutions for which ClearGov, Inc. exclusively owns all intellectual property rights, and these products are protected by copyrights, trademarks and service marks. In addition, there are no agents or dealers authorized to represent any of these ClearGov products.

In addition, while it may be possible to build and present your budget using other technologies, no company offers the unique combination of features and functionality delivered by ClearGov. In addition, all ClearGov modules are designed and built to work seamlessly together. What follows is a partial list of the key features and functionality offered in each ClearGov Budget Cycle Management module.

Operational Budgeting

- Ability to create multi-year operational budget forecasts & adjust variables by individual categories.
- Ability to collaboratively build a budget via a single, shared online workspace

- Ability to create an unlimited number of budget versions
- Ability to view historical trend analysis at fund, department, object or line item level
- Collaborative workflows to assign and track budget requests by department
- Includes drill-down functionality to review and/or request budget information at the line item or even sub-line item detail
- Ability to automatically generate a baseline budget based on multiple options, i.e. zero-based budgeting, forecasted budget, fixed percentage increase, etc.
- Ability for department heads to assign sub-requesters to portions of their budget
- Ability to review and approve/reject budget requests by individual request or by batch
- Ability to lock-down budget line items, e.g. headcount costs
- Ability to share budgets online for review by committee members
- Ability to add change justifications notes, comments and supporting materials to any line (or sub-line) item within the budget
- Integrated graphs that provide visual feedback throughout the budgeting process including historical trends and budget surplus/deficit
- Ability to track and report a thorough audit trail of all changes, comments and budget versions
- Includes a variety of pre-built reports as well as robust report builder and chart builder functionality that doesn't require programming knowledge
- Ability to export budget reports to Excel or other formats compatible with multiple ERP systems
- Ability to build, analyze, and approve/deny Funding Packages that include Personnel requests, e.g. new budget programs

Personnel Budgeting

- Ability to create and customize multi-year personnel budget plans and scenarios
- Ability to define units, wage schedules, benefits and additional pay elements, etc. by position, role and department, including position control functionality
- Collaborative workflows for the collection or personnel requests and changes
- Includes a filterable dashboard summary of all personnel requests by type, department, etc.
- Ability to see projected total compensation breakdown at an employee level
- Ability to present proposed personnel budget scenario(s) for review in a shared, online dashboard and respond to on-the-fly what-if requests
- Ability to support personnel vacancy, retirement and furlough planning scenarios
- Ability to support collective bargaining, what-if planning scenarios
- Includes a variety of pre-built reports as well as robust report builder and chart builder functionality that doesn't require programming knowledge
- Ability to export budget reports to Excel or other formats compatible with multiple ERP systems

Capital Budgeting:

- Ability to create and customize multi-year capital budget plans and scenarios
- Collaborative workflows for collecting capital requests
- Ability to automatically create detailed, shareable capital project summary pages
- Ability to add notes, comments, images, supplement documents, etc. to capital project summaries
- Ability to customize multiple types of capital request forms
- A filterable dashboard summary of all capital projects by type, department, funding source, etc
- Ability to score and rank capital requests by priority and strategic objectives

- Includes capital budget scenario planning functionality to enable allocation of capital projects across multiple funding sources
- Capital improvement website module with timelines, public commentary and ability for visitors to sign up for project change email notifications
- Includes a variety of pre-built reports as well as robust report builder and chart builder functionality that doesn't require programming knowledge
- Ability to export budget reports to Excel or other formats compatible with multiple ERP systems

Digital Budget Book:

- Ability to automatically create a customizable budget book template
- Ability to create and present a budget book via an interactive, accessible Website with built-in navigation
- Includes built-in GFOA and ASBO award criteria guidelines
- Includes templated pages for fund pages, department pages, revenue pages, etc.
- Includes a pre-populated, customizable glossary of terms
- Includes automated narrative generation, powered by ClearGov AI
- Automatically populates pages with financial data, charts, tables, etc.
- Collaborative workflows for multi-user editing and creation of budget book pages
- Ability to embed dynamic data into narrative text throughout budget book
- Ability to embed customizable Financial Statements throughout budget book
- Ability to automatically update financial data throughout budget book
- Ability to upload and embed images, spreadsheets and other objects into budget book pages
- Ability to add links to attachments within budget book pages
- Ability to customize colors, fonts, graphics and other look & feel components
- Ability to create and embed custom financial and non-financial charts, graphs and tables
- Ability to generate and embed organizational charts
- Ability to automatically embed submitted and approved capital improvement projects
- Ability to duplicate the budget book & update financial data as the basis for next FY budget book
- Ability to automatically format and print to .PDF any portion of the budget book and/or the complete budget book with dynamic Table of Contents and page numbering

Transparency:

- Ability to provide fiscal transparency via automated infographic profiles
- Ability to view financial data via multiple ERP dimensions, i.e. department, object, rev. source, etc.
- Includes drill-down functionality to view financial information in granular detail
- Includes census demographic profile data
- Ability to add commentary/context to all panels, charts and graphs within the transparency profile
- Ability to add custom panels to transparency profile
- Ability to display budget vs. actuals and provide regular updates
- Ability to display historical and forecasted financial figures
- Ability to create custom graphs and embed them in the transparency profile and/or directly in the municipal website.
- Ability to include department dashboards to communicate key performance metrics, including financial and non-financial graphs and metrics
- Ability to deliver a searchable, filterable open checkbook to provide check-level detail transparency

Strategic Planning:

- Ability to create, manage and execute any type of strategic plan, including focus areas, goals and action items
- Automated workflow to enable updates to action items and goals
- Automated dashboard to present plan progress with built-in filters and drill-down
- Ability to allocate budget to specific focus areas and goals
- Collaborative workflows for multi-user editing and creation of plan components and plan presentation pages
- Ability to automatically create a customizable plan template
- Ability to create and present any plan via an interactive, accessible Website with built-in navigation
- Includes templated pages for SWOT analysis, focus areas, strategic objectives, etc.
- Ability to upload and embed images, spreadsheets and other objects into plan pages
- Ability to add links to attachments within plan pages
- Ability to customize colors, fonts, graphics and other look & feel components
- Ability to create and embed custom financial and non-financial charts, graphs and tables
- Plan pages built with responsive design to automatically resize and optimize viewing for desktop, pad or mobile environments
- Ability to automatically format and print to .PDF any portion of the plan and/or the complete plan document with dynamic Table of Contents and page numbering
- Seamless integration with budget data

Digital Financial Reporting

- Ability to automatically create a customizable Annual Comprehensive Financial Report (ACFR) and Annual Financial Report (AFR) template
- Ability to automatically publish an online, ADA accessible and mobile-optimized version of the AFR or ACFR and integrate directly into any Website
- Collaborative workflows for multi-user editing and creation of financial reporting pages
- Ability to embed and update dynamic data into narrative text throughout the report
- Ability to upload and embed images, spreadsheets and other objects into report pages
- Ability to add links to attachments within report pages
- Ability to create and embed custom financial and non-financial charts, graphs and tables
- Ability to automatically format and print to .PDF any portion of the report and/or the complete report with dynamic Table of Contents and page numbering
- Seamless integration with a dynamic statement builder application
- Ability to create financial statements from best-practice templates
- Ability to map trial balance information into financial statements
- Ability to automatically update financial data in financial statements
- Includes built-in GFOA award criteria guidelines

Capital Project Tracking

- Ability to create, manage and execute any capital project
- Ability to define phases and action items for each project
- Ability to track progress and status across all projects, phases and action items

- Automated workflow to enable updates to projects, phases and action items
- Automated dashboard to present progress across all projects
- Seamless integration with Capital Budgeting data
- Expedited sync workflow to quickly transition projects from budget requests to actionable projects
- Ability to allocate budget and spend to specific projects and phases, and to allocate funding for projects and categorize by specific funding sources
- Collaborative workflows for multi-user editing and creation of project components
- Ability to templatize project types to reduce time for project setup
- Ability to deliver a list of projects via an interactive, accessible website with built-in navigation
- Ability to upload and embed images, attachments and other objects into projects details
- Ability to set the specific location or area on a map for project location
- Ability to export a list of projects with high level detail, progress and financial information
- Ability for public website visitors to subscribe to email notifications for project updates
- Project pages built with responsive design to automatically resize and optimize viewing for desktop, pad or mobile environments

ClearForms

- Fully self-service, no-code setup functionality
- Ability to customize and brand public form and landing pages
- Ability to customize URLs for portal and landing pages
- Ability to clone existing workflows and forms
- Includes flexible digital forms builder
- Includes flexible digital survey step builder
- Includes version control for workflows
- Ability to review queue and approve processes (mobile-responsive)
- Ability to require that subprocess(e)s must be completed before main workflow is finalized
- Ability to create custom, print-at-home output documents (PDFs) for issued licenses and permits
- Supports conditional logic for branching workflows - including sections, reviews, assignments, subprocesses, and payments
- Includes no-code formula editor for application/license fees and calculations
- Includes discussion pane for direct government/applicant communication
- Includes status updates and automated/custom email notifications
- Includes activity log for step notifications
- Ability to create, import, and store workflow data entities, e.g. parcel data for building permits
- Built-in directory for searching applicants and entities
- Supports team functionality with role-based permissions for segregation and transfer of duties between staff in real time
- Integrated payments via credit/debit card or ACH
- Integrated handling for charge disputes and refunds
- Supports automated payouts on customer's self-determined schedule (daily, weekly, monthly)
- Supports online signatures from applicants and reviewers
- Supports comprehensive, exportable transaction history
- Includes data visualization for performance management, i.e. workflow activity, completion time, license revenue, et. al.
- Includes smart dashboards for both administrators and applicants

We look forward to having the opportunity to continue working with you. Please let me know if you have any questions or require additional information.

Sincerely yours,

Bryan A. Burdick
President, ClearGov, Inc.

INTERLOCAL COOPERATION AGREEMENT BETWEEN THE CITY OF BROWNSVILLE, TEXAS AND THE COUNTY OF CAMERON, TEXAS FOR THE FY 2026 EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT (JAG) PROGRAM LOCAL SOLICITATION

This agreement is made and entered by and between the CITY OF BROWNSVILLE, TEXAS acting by and through its governing body and the City Commissioners, hereinafter referred to as CITY, and COUNTY OF CAMERON, TEXAS acting by and through its governing body, the COUNTY Commissioners Court, all of Cameron County, State of Texas. This Agreement shall become effective upon execution by the authorized officials of both parties.

WHEREAS this Agreement is made under the authority of Sections V.T.C.A., 791 Government Code; and

WHEREAS, the CITY and COUNTY have agreed to divide a 2026 JAG award in the amount of $90,450.00 for the performance of the governmental functions described hereunder. Funds shall be distributed as follows: CITY shall receive $67,817.00 and COUNTY $22,633.00;

WHEREAS, each governing body finds that the performance of this Agreement is in the best interest of all parties, that the undertaking will benefit the public, and that the division of grant funds fairly compensates the performing party for said functions under this Agreement;

NOW THEREFORE, the CITY and COUNTY agree as follows:

SECTION 1. CITY and COUNTY agree that CITY will be the fiscal agent, apply for the FY 2026 Edward Byrne Memorial Justice Assistance Grant (JAG) Program Local Solicitation and be responsible for all financial and programmatic requirements.

SECTION 2. COUNTY agrees to submit quarterly expenditures and supporting documentations to CITY for reimbursement. Reimbursements are subject to on a request for reimbursement basis.

SECTION 3. COUNTY agrees to submit quarterly progress and performance data to CITY due ten days after the quarter ends.

SECTION 4. COUNTY is required to maintenance and provide an inventory list of all items purchased under this grant and update as necessary to CITY, as part of grant requirement.

SECTION 5. Nothing in the performance of this Agreement shall impose any liability for claims against CITY other than claims for which liability may be imposed by the Texas Tort Claims Act.

SECTION 6. Nothing in the performance of this Agreement shall impose any liability for claims against the COUNTY other than claims for which liability may be imposed by the Texas Tort Claims Act.

SECTION 7. Each party to this Agreement will be responsible for its own actions in the performance of their governmental functions under this Agreement and shall not be liable for any civil liability that may arise from the performance of said functions by the other party.

SECTION 8. The parties to this Agreement do not intend for any third party to obtain a right by virtue of this Agreement.

SECTION 9. By entering into this Agreement, the parties do not intend to create any obligations express or implied other than those set out herein; further, this Agreement shall not create any rights in any party not a signatory hereto.

SECTION 10. This Agreement shall be governed by and construed in accordance with the laws of the State of Texas.

2026 Texas Local JAG Allocations

Only jurisdictions listed below in the state are eligible to receive FY 2026 JAG funding directly from BJA, with award amounts determined by the annual formula. Important notes:

1) Disparate jurisdictions are listed in shaded groups below, in alphabetic order by county. A single jurisdiction must serve as the fiscal agent on behalf of the group. BJA will only fund one award for the disparate group. Disparate jurisdictions are responsible for determining individual amounts within the Joint Allocation and for documenting allocations via a memorandum of understanding.

2) Jurisdictions eligible for a direct allocation (i.e., not part of a disparate group) are listed alphabetically below the shaded, disparate groupings.

For additional details on eligibility and disparate group requirements, refer to the JAG the Frequently Asked Questions here: https://bja.ojp.gov/program/jag/frequently-asked-questions. For additional details regarding the JAG formula and award calculation process, please refer to the JAG Technical report here: https://bjs.ojp.gov/library/publications/justice-assistance-grant-jag-program-2024.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Simon Ortiz, Transit Manager, Gennie Garcia, B Metro Director
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to approve the renewal of one (1) year contract with TRIPPP Consulting that provides Transportation Rideshare company service with Uber to the City of Brownsville and Cameron County for Brownsville Metro's Route 30 for $149,230, as budgeted. (Brownsville Metro)

Summary:
Brownsville Metro is partnered with TRIPPP Consulting and Cameron County for Uber rideshare and on-demand rides for a service that provides access to public transportation to low-income areas of Cameron County in the southernmost rural part of the county. It allows residents the ability to transfer to other routes within the City of Brownsville and Brownsville Metro's urban service area. We are seeking to renew the contract for one (1) year to continue providing service.

Project Scope and Analysis:
Brownsville Metro began an innovative way to improve transportation access beyond Route 30 in November 2025. Brownsville Metro provided rideshare services through Uber and TRIPPP Consulting for the pilot year of FY 26. The program has been very successful with an increase in ridership of 250% from FY 25 and 486% increase from November 2025 to August 2026. The projected cost for the renewal period of one (1) year is $149,230 for a projected number of 9,936 trips. This will include a fixed fee of $30,000 for the renewal period. Of the $149,230 please note that 60% will be covered by Cameron County and 40% by the City of Brownsville/BMetro. More specifically, Cameron County will reimburse the City $89,538. The City will cover $59,692 (this will be partially reimbursed with FTA funds).

Funding:

Source: 65-562-848-584

Amount: $149,230 (Total: 60% County; 40% City/BMetro)

Local Contribution if Applicable: 59,692 (City/BMetro Portion)

Recommendation:
Staff recommends approval

Commission Pillar:
Quality of Life & Vibrancy

Attachments:
1. Attachment I - Project Description TRIPPP FY 27
2. TRIPP - First Renewal signed

(Attachment 1)- PROJECT DESCRIPTION

The purpose of this project is to continue to provide access to the southernmost rural part of Cameron County, to connect with the urbanized area, which will allow residents to continue the ability to transfer to other routes within the city, a service provided by Brownsville Metro.

Brownsville Metro is partnered with Uber, a Transportation Network Company and TRIPPP Consulting for Uber rides for Fiscal Year 27. This service will continue to be fare free with direct drop off (Door to Door or Point to Point) with extended hours of service from 6am to 8pm. Service will continue to provide connectivity to the following routes: 6- Southmost, 7- Jose Colunga/East Side Transfer Station, and 9- Austin.

Cost Breakdown:

Route 30 Oct 1, 2026 - September 30, 2027			
FY 27 Budget	**Brownsville**	**Cameron County**	**Total**
FY 2026	$35,412.52	$52,215.70	$87,628.22
FY 2027	$59,692.00	$89,538.00	$149,230.00
Increase	**$24,279.48**	**$37,322.30**	**$61,601.78**

First Renewal for Program Management and Oversight of Route 30 Pilot Program
 # 340-25-BMT-SS

This **FIRST RENEWAL** ("Renewal") to the Agreement for Program Management and Oversight of Route 30 Pilot Program, Agreement No. 340-25-BMT-SS ("Agreement"), by and between the City of Brownsville ("City"), a Texas municipal corporation, and **TRIPPP Consulting, LLC** ("Consultant"), is entered into after approval by the Brownsville City Commission and as of the date the last party signs this Renewal below (the "Effective Date"). City and Consultant are collectively referred to as the "Parties."

WHEREAS, the City has recognized the necessity to renew the above-mentioned Agreement with the Consultant; and

WHEREAS, the City and Consultant now desire to renew the Agreement as stated herein.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is acknowledged, the Parties hereby agree as follows:

The First Renewal of the Agreement shall be for the period of **October 1, 2026, through September 30, 2027**, subject to approval by the Brownsville City Commission, with a total estimated budget of **One Hundred Forty-Nine Thousand Two Hundred Thirty Dollars ($149,230.00)**, as further detailed in **Exhibit A**.

Contract Term and Renewal

1. The initial term of the Agreement commenced upon approval and execution of the Agreement by the City of Brownsville.
2. Pursuant to the Agreement, the Parties may renew the Agreement for additional one-year terms upon mutual written agreement and approval by the Brownsville City Commission.
3. The Parties hereby exercise the First Renewal of the Agreement for the period of October 1, 2026, through September 30, 2027.
4. The First Renewal is subject to the appropriation and availability of funds by the City.

Compensation

During the First Renewal period, the Consultant shall continue to receive a monthly management fee of Two Thousand Five Hundred Dollars ($2,500.00), not to exceed Thirty Thousand Dollars ($30,000.00) for the one-year renewal period, in accordance with the Agreement.

In addition to the management fee, the City shall reimburse the Consultant for voucher-based costs associated with the Route 30 Pilot Program in accordance with the BMetro Route 30 FY27 Estimated Budget, attached hereto and incorporated herein as Exhibit A.

The total estimated budget for the First Renewal period shall be **One Hundred Forty-Nine Thousand Two Hundred Thirty Dollars ($149,230.00)**, inclusive of the annual management fee, as further detailed in Exhibit A.

The Parties acknowledge that the estimated voucher-based costs and allocation between the City of Brownsville and Cameron County are set forth in Exhibit A. The Consultant shall continue to monitor voucher usage and program costs in accordance with the terms of the Agreement.

Exhibit A

The **BMetro Route 30 FY27 Estimated Budget** is attached to this Renewal as **Exhibit A** and incorporated herein by reference.

These services shall be performed in accordance with the terms and conditions of the Agreement.

Except as expressly renewed herein, all terms and conditions of the Agreement between the City and Consultant shall remain in full force and effect.

IN WITNESS WHEREOF, City and Consultant have executed this First Renewal to the Agreement as of the date last written below.

THE STATE OF TEXAS §
§
COUNTY OF CAMERON §

ADMINISTRATIVE SERVICES AGREEMENT
BETWEEN THE CITY OF BROWNSVILLE AND
THE BROWNSVILLE COMMUNITY IMPROVEMENT CORPORATION

This Service Agreement is made on this 1st day of October 2025, in the City Of Brownsville, State Of Texas, by and between the BROWNSVILLE COMMUNITY IMPROVEMENT CORPORATION, a Texas non-profit corporation having a place of business at 1304 East Adams Street, Brownsville, Cameron County, Texas 78520, hereinafter referred to as "BCIC," and the CITY OF BROWNSVILLE, TEXAS, an incorporated home-rule municipality of the State Of Texas having its administrative offices at 1001 Elizabeth St., Brownsville, Cameron County, Texas 78520, hereinafter referred to as "CITY."

WHEREAS, the BCIC is a corporation established under the auspices of the CITY to enhance economic development and quality of life in the City Of Brownsville, pursuant to Article 5190.6 of the Texas Revised Civil Statutes, the Development Corporation Act of 1979 (as amended).

WHEREAS, the CITY is interested in enhancing economic development and quality of life in the City Of Brownsville, and has acted to provide certain sales tax revenues to fund the BCIC to fulfill such goals and endeavors.

WHEREAS, the BCIC has become interested in enhancing economic development and quality of life with a minimum of cost and without spending its funds to create another bureaucracy, and has expressed an interest in having the CITY provide certain support services to BCIC, including personnel.

WHEREAS, the BCIC has entered into an agreement with the CITY to utilize certain facilities and personnel of the CITY to perform certain administrative functions and services for the BCIC.

WHEREAS, in order to encourage the BCIC to successfully enhance economic development, and in order to enhance economic development and generate revenue for itself and to compensate itself for the provision of such services, the CITY is willing and able to enter into an agreement to serve as a service contractor for the BCIC, on a compensated basis.

WHEREAS, each party hereto is willing to enter into this Agreement, and is legally authorized to do so.

NOW, THEREFORE, for and in consideration of the premises and mutual promises of the parties and the mutual benefits they will gain by the performance thereof, all in accordance with the provisions hereinafter set forth, the BROWNSVILLE COMMUNITY IMPROVEMENT CORPORATION and the CITY OF BROWNSVILLE, TEXAS agree as follows:

I.
General and Administrative Services

Docusign Envelope ID: 7F81D6C6-6780-841E-817E-FDE365BA214E

The parties agree that the CITY will serve as a service contractor for the BCIC, whereby the BCIC, in operating as a non-profit corporation seeking to enhance economic development and quality of life in and for Brownsville, TX, will utilize certain designated employees of the CITY to act and operate to attempt to fulfill such goals and endeavors.

Pursuant to prior corporate action of the BCIC, these services to be rendered include and are not limited to the provision of the recordation of BCIC financial affairs, the preparation of financial reports thereof, the preparation of a budget thereof, the issuance of financial reports where required, the maintenance of the financial records and ledgers of the corporation, and legal services, Human Resources Services, IT (MIS) services, payroll, time keeping, Accounts Payables, Retirement Services, Health Insurance Coverage, Employee Benefits package, Credit Rating Assistance, and Bond Services.

The City agrees to add BCIC staff members to the City's healthcare plans, dental plans, and ancillary benefits. BCIC agrees to reimburse the City for its share of the premium contributions, plan(s) administrative expenses, stop-loss premiums, and any other associated costs as appropriate and applicable. This amount does not include medical/dental/prescription reimbursable claims not to exceed $100,000 annually per covered individual, at which point the City will directly cover covered individual claims over $100,000 up to $300,000 before stop-loss coverage will assume the remaining claims liability.

II.
Compensation

As compensation for all services rendered and expenses incurred under this Agreement, during the term of this Agreement, including the provision or use of equipment, labor and materials, the BCIC shall pay to the CITY the sum of $24,000 per year in equal monthly payments.

The City agrees that any compensation due to any employees of the CITY serving hereunder will be paid to said employees by the CITY in accordance with the terms of the contracts of employment of said individuals with the CITY, and all compensation payable there under shall be subject to withholding for federal income taxes, FICA, FUTA and other legally required withholding taxes and contributions, which shall not be the responsibility of the BCIC under any circumstances.

BCIC agrees to reimburse the City as stated in Section I, General and Administrative Services, as relates to the employee benefit plan.

III.
Term Of Agreement

This agreement for monthly services shall not exceed a term of one year, commencing October 1, 2025 and terminating September 30, 2026. Upon mutual agreement, this Agreement may be extended for up to one additional year under the same terms as contained in this Agreement.

IV.
Status Of Parties

Docusign Envelope ID: 7F81D6C6-6780-841E-817E-FDE365BA214E

Both parties hereto shall not be construed to have the relationship of partners, joint venturers, principal-agent or employer-employee. The parties hereto are separate corporate entities who enter into this contract for their respective (and the public's) benefit. No employee of the CITY shall be construed or deemed an employee of the BCIC.

V.
Termination

This Agreement may be terminated at any time by the BCIC by providing sixty days written notice of termination of this Agreement to Brownsville City Commission.

VI.
Insurance; Indemnity

Both of the parties agree to accept the errors and omissions insurance coverage as provided through the general liability policy in effect for the City of Brownsville.

VII.
No Assignment

This Agreement shall not be assigned in whole or in part by either party without the consent and approval of the other party, set forth in writing and signed by both parties. Any assignee will be bound by the terms of this Agreement.

VIII.
Compliance With All Laws

Both parties will act, at all times, in compliance with all pertinent and applicable laws and regulations.

IX.
Notice

All notices to either party shall be sent by certified or registered mail, addressed to the pertinent party as set forth above, at its respective address as set forth above, or at such other address as may be otherwise designated.

X.
No Waiver

Any waiver by either party of any default under or breach of this Agreement shall not be construed to be a continuing waiver of such default or breach, nor as a waiver of or permission for (express or implied) any other or subsequent default or breach.

XI.
Parties Bound

This Agreement shall be binding upon and inure to the benefit of the parties to this Agreement and their respective commissioners, directors, officers, agents, representatives, employees, administrators, successors and assigns, as appropriate.

Docusign Envelope ID: 7F81D6C6-6780-841E-817E-FDE365BA214E

XII.
Entire Agreement: Amendment

This instrument contains the entire agreement between the parties relating to the rights herein granted and obligations herein assumed, and supersedes any prior understandings, representations, memorandums or agreements regarding the service relationship that is the subject of this Agreement. Any oral representations or modifications concerning this instrument shall be of no force or effect. This Agreement may be amended, provided that no amendment, modification or alteration of the terms of this Agreement shall be binding unless the same is in writing and duly executed by the parties hereto.

XIII.
Breach Of Obligation

This Agreement is entire as to all of the performances to be rendered under it. Breach of any obligation to be performed by either party shall constitute a breach of the entire agreement and shall give the other party the right to terminate this Agreement, in accordance with the paragraph regarding termination above.

XIV.
Law Governing; Venue

This Agreement shall be governed by and construed in accordance with the laws of the State Of Texas (and where applicable, the laws of the United States of America). The obligations and undertakings of each of the parties to this Agreement shall be performable in Cameron County, Texas.

XV.
Invalidity

If any term, provision, covenant or condition of this Agreement is held by a tribunal of competent jurisdiction to be invalid, void or unenforceable, the remainder of the provisions of this Agreement shall remain in full force and effect and shall not be affected, impaired or invalidated. Moreover, it is the intention of the parties to this Agreement that in lieu of each clause or provision of this Agreement that is held to be invalid, void or unenforceable, there be added as a part of this Agreement a clause or provision as similar in terms to such invalid, void or unenforceable clause or provision as may be possible which shall nevertheless be valid, legal and enforceable.

XVI.
Construction Of Instrument

Both of the parties hereto have been represented by or have had the opportunity to be represented by counsel in the negotiation and drafting of this Agreement, and accordingly, this Agreement shall not be construed in favor of either party.

XVII.
"Act Of God" Excuses Performance

In the event that either party shall be prevented from completing performance of their respective obligations hereunder by an act of God or any other occurrence whatsoever which is

Docusign Envelope ID: 7F81D6C6-6780-841E-817E-FDE365BA214E

beyond the control of the parties hereto, then they shall be excused from any further performance of their obligations and undertakings hereunder, provided however, that in the event that any such performance is only interrupted or delayed, the affected party shall be excused from such performance for such period of time as is reasonably necessary after such occurrence to remedy the effects thereof.

XVIII.
Alternate Dispute Resolution

ONLY THE CITY, THROUGH ACTION OF THE CITY COMMISSION, OR THE BCIC BOARD, THROUGH VOTE OF THE BCIC BOARD, MAY SUBMIT ANY DISPUTE, CONTROVERSY OR CLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT, OR THE BREACH, TERMINATION OR INVALIDITY THEREOF, TO NON-BINDING MEDIATION BEFORE ANY MUTUALLY AGREED UPON ATTORNEY-MEDIATOR. NO PARTY SHALL HAVE THE RIGHT TO REQUIRE THAT THIS CASE BE SUBMITTED TO BINDING ARBITRATION.

XIX.
Authority

The BCIC certifies that it is authorized to enter into this Agreement, and that its Board of Directors has authorized the execution of such Agreement by its presiding officer, its Chair. The CITY certifies that it is authorized to enter into this Agreement, and that its City Commission has authorized the execution of such Agreement by its administrative officer, its City Manager.

AGENDA #26TH ANNUAL VETERANS DAY PARADE

25th Annual Veterans Day Parade

The 26th Annual Veterans Day Parade in the City of Brownsville is a great opportunity to honor all the men and women who bravely served our country. They are our protectors, warfighters, and peacekeepers.

26th Annual Veterans Day Parade

It's an opportunity for us as a community to show our appreciation and gratitude to the men and women who have dedicated their lives to serving our country.

2026-129
RESOLUTION NUMBER

A RESOLUTION BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, APPROVING AGREEMENT BETWEEN THE CITY OF BROWNSVILLE AND THE TEXAS DEPARTMENT OF TRANSPORTATION TEMPORARY CLOSURE OF A STATE RIGHT-OF-WAY FOR THE ANNUAL VETERANS DAY PARADE ON NOVEMBER 7, 2026.

WHEREAS, the state owns and operates a system of highways for public use and benefit, including Brownsville, in Cameron County; and

WHEREAS, the City of Brownsville (the "City") is sponsoring and assisting with the Annual Veterans Day Parade on November 7, 2026; and

WHEREAS, the event will require the temporary closure of a portion of FM 1419 (Southmost Blvd.) from SH 4 (International Blvd.) to E. 30th St.; and

WHEREAS, the State, in recognition of the public purpose of the event, wishes to cooperate with the City so long as the safety and convenience of the traveling public is ensured and that the closure of the State's right-of-way will be performed within the State's requirement, and in connection therewith, the State requires an agreement between the City and the State in regard thereto; and

NOW, THEREFORE, BE RESOLVED BY THE CITY OF BROWNSVILLE THAT the MAYOR is authorized to enter into an Agreement for the Temporary Closure of State Right-Of-Way with TxDOT for this Parade.

PASSED AND **APPROVED** on this 6th day of October 2026.

Southmost Veterans Parade Committee

September 01, 2026

Re: 26th Annual Veterans Day Parade

Dear Friends,

On behalf of the Southmost **Veterans Day Parade Committee** and **the City of Brownsville,** we would like to ask for your support and participation in our **26th Annual Veterans Day Parade** to be held on Saturday, November 7, 2026 at 2:00 P.M.

The Parade is our way of honoring all the brave men and women who have served or are serving in the armed forces of the United States. On this day, we pay tribute to the men and women who have served our country. Our Nation has remained strong and free because of its sacrifices.

We plan to begin the parade at Porter High School and proceed down Coolidge Street through Southmost Blvd. Then proceed from Southmost Road South to Cromack Elementary School, located at Southmost Road and 30th Street.

I would like to extend this opportunity to you to be a part of this historic celebration. Please join us in this patriotic endeavor and make this year's parade a huge success. We are counting on our community support. We extend a special thanks to you, schools, groups, businesses, and individuals who have supported us for the past 23 years.

For more information, please call Connie Rosas (956)459-0958, Evaristo Gamez (956)465-7909, Laura Ortiz (956)640-4457, Arnold Salinas (956)465-9687, Reyes Torres (956)442-9292, and Rafael Ruiz (956)551-6672.

Best regards,

Bobby Salazar

26th Veterans Day Parade Road Closure

Agreement No._____

STATE OF TEXAS §

COUNTY OF §

AGREEMENT FOR THE TEMPORARY CLOSURE OF STATE RIGHT-OF-WAY

THIS AGREEMENT is made by and between the State of Texas, acting by and through the Texas Department of Transportation, hereinafter called the "State," and the City of Brownsville, a municipal corporation, acting by and through its duly authorized officers, hereinafter called the "City."

W I T N E S S E T H

WHEREAS, the State owns and operates a system of highways for public use and benefit, including Brownsville, in Cameron, County; and

WHEREAS, the City has requested the temporary closure of FM 1419 (southmost Rd.) from SH 4 (International Blvd.) to E. 30th St. for the purpose of 26th Annual Veterans Day Parade, as described in the attached "Exhibit A," hereinafter identified as the "Event;" and

WHEREAS, the Event will be located within the City's incorporated area; and

WHEREAS, the State, in recognition of the public purpose of the Event, wishes to cooperate with the City so long as the safety and convenience of the traveling public is ensured and that the closure of the State's right-of-way will be performed within the State's requirements; and

WHEREAS, on the 6th day of October, 20 26, the Brownsville City Council passed Resolution / Ordinance No. 2026-129, attached hereto and identified as "Exhibit B," establishing that the Event serves a public purpose and authorizing the City to enter into this agreement with the State; and

WHEREAS, 43 TAC, Section 22.12 establishes the rules and procedures for the temporary closure of a segment of the State highway system; and

WHEREAS, this agreement has been developed in accordance with the rules and procedures of 43 TAC, Section 22.12;

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements of the parties hereto, to be by them respectively kept and performed as hereinafter set forth, it is agreed as follows:

A G R E E M E N T

Article 1. CONTRACT PERIOD

This agreement becomes effective upon final execution by the State and shall terminate upon completion of the Event or unless terminated or modified as hereinafter provided.

Article 2. EVENT DESCRIPTION

The description of the Event, including the proposed schedule of start and stop times, approximate number of people attending the Event, and equipment involved shall be attached hereto and identified as "Exhibit C."

Article 3. OPERATIONS OF THE EVENT

A. The City shall assume all costs for the operations associated with the Event, to include but not limited to, plan development, materials, labor, public notification, providing protective barriers and barricades, protection of highway traffic and highway facilities, and all traffic control and temporary signing.

B. The City shall submit to the State for review and approval the construction plans, if construction or modifications to the State's right-of-way is required, the traffic control and signing plans, traffic enforcement plans, and all other plans deemed necessary by the State.

C. The City will not initiate closure prior to 24 hours before the scheduled Event and all barriers and barricades will be removed and the highway reopened to traffic within 24 hours after the completion of the Event.

D. The City will provide adequate enforcement personnel to prevent vehicles from stopping and parking along the main lanes of highway right-of-way and otherwise prevent interference with the main lane traffic by both vehicles and pedestrians. The City will prepare a traffic enforcement plan, to be approved by the State in writing at least 48 hours prior to the scheduled Event. Additionally, the City shall provide to the State a letter of certification from the law enforcement agency that will be providing traffic control for the Event, certifying that they agree with the enforcement plan and will be able to meet its requirements.

E. The City hereby assures the State that there will be appropriate passage allowance for emergency vehicle travel and adequate access for abutting property owners during construction and closure of the highway facility. These allowances and accesses will be included in the City's traffic control plan.

F. The City will avoid or minimize damage, and will, at its own expense, restore or repair damage occurring outside the State's right-of-way and restore or repair the State's right-of-way, including roadway and drainage structures, signs, and pavement, etc. to a condition equal to that existing before the closure, and, to the extent practicable, restore the natural environment, including landscape features.

Article 4. OWNERSHIP OF DOCUMENTS

Upon completion or termination of this agreement, all documents prepared by the City will remain the property of the City. All data prepared under this agreement shall be made available to the State without restriction or limitation on their further use.

Article 5. TERMINATION

A. This agreement may be terminated by any of the following conditions:

(1) By mutual written agreement and consent of both parties.

(2) By the State upon determination that use of the State's right-of-way is not feasible or is not in the best interest of the State and the traveling public.

(3) By either party, upon the failure of the other party to fulfill the obligations as set forth herein.

(4) By satisfactory completion of all services and obligations as set forth herein.

B. The termination of this agreement shall extinguish all rights, duties, obligations and liabilities of the State and City under this agreement. If the potential termination of this agreement is due to the failure of the City to fulfill its contractual obligations as set forth herein, the State will notify the City that possible breach of contract has occurred. The City

must remedy the breach as outlined by the State within ten (10) days from receipt of the State's notification. In the event the City does not remedy the breach to the satisfaction of the State, the City shall be liable to the State for the costs of remedying the breach and any additional costs occasioned by the State.

Article 6. DISPUTES
Should disputes arise as to the parties' responsibilities or additional work under this agreement, the State's decision shall be final and binding.

Article 7. RESPONSIBILITIES OF THE PARTIES
The State and the Local Government agree that neither party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

Article 8. INSURANCE
A. Prior to beginning any work upon the State's right-of-way, the City and/or its contractors shall furnish to the State a completed "Certificate of Insurance" (TxDOT Form 1560, latest edition) and shall maintain the insurance in full force and effect during the period that the City and/or its contractors are encroaching upon the State right-of-way.
B. In the event the City is a self-insured entity, the City shall provide the State proof of its self-insurance. The City agrees to pay any and all claims and damages that may occur during the period of this closing of the highway in accordance with the terms of this agreement.

Article 9. AMENDMENTS
Any changes in the time frame, character, agreement provisions or obligations of the parties hereto shall be enacted by written amendment executed by both the City and the State.

Article 10. COMPLIANCE WITH LAWS
The City shall comply with all applicable federal, state and local environmental laws, regulations, ordinances and any conditions or restrictions required by the State to protect the natural environment and cultural resources of the State's right-of-way.

Article 11. LEGAL CONSTRUCTION
In case one or more of the provisions contained in this agreement shall for any reason be held invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provisions hereof and this agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Article 12. NOTICES
All notices to either party by the other required under this agreement shall be delivered personally or sent by certified U.S. mail, postage prepaid, addressed to such party at the following respective addresses:

City:	State:
_____	Texas Department of Transportation
City of Brownsville	_____
1001 E. Elizabeth St.	_____
Brownsville, TX, 78520	_____

All notices shall be deemed given on the date so delivered or so deposited in the mail, unless otherwise provided herein. Either party hereto may change the above address by sending written notice of such change to the other in the manner provided herein.

Article 13. SOLE AGREEMENT
This agreement constitutes the sole and only agreement between the parties hereto and supersedes any prior understandings or written or oral agreements respecting the within subject matter.

IN TESTIMONY WHEREOF, the parties hereto have caused these presents to be executed in duplicate counterparts.

Agenda #:	Consideration and **ACTION** on **Resolution Number 2026-134** in supporting the submission of the FY 2027 Crime Victims Notification Systems Grant #6010001 for $73,359.00 through the Office of the Governor, Public Safety Office and accept the terms and conditions of said grant for the City of Brownsville. (Police Department)

Summary:
The Office of the Governor, Public Safety Office is providing grant funding for the FY 2027 Crime Victims Notification Systems Grant. This grant will be for the second year of the subscription fee for our current software.

Project Scope and Analysis:
Through the Office of the Governor, the Brownsville Police Department will be applying for the software subscription. This grant does not require a match of the total project. Grant project term begins on September 1, 2026 and concludes on August 31, 2027. A signed resolution is a mandatory requirement and must be submitted with application.

Agreement No._____

STATE OF TEXAS §

COUNTY OF §

AGREEMENT FOR THE TEMPORARY CLOSURE OF STATE RIGHT-OF-WAY

THIS AGREEMENT is made by and between the State of Texas, acting by and through the Texas Department of Transportation, hereinafter called the "State," and the City of Brownsville, a municipal corporation, acting by and through its duly authorized officers, hereinafter called the "City."

W I T N E S S E T H

WHEREAS, the State owns and operates a system of highways for public use and benefit, including Brownsville, in Cameron, County; and

WHEREAS, the City has requested the temporary closure of a segment of Bus 77Z, Elizabeth St, and SH 4 (International Blvd.) for the purpose of 74th Brownsville Christmas Parade, as described in the attached "Exhibit A," hereinafter identified as the "Event;" and

WHEREAS, the Event will be located within the City's incorporated area; and

WHEREAS, the State, in recognition of the public purpose of the Event, wishes to cooperate with the City so long as the safety and convenience of the traveling public is ensured and that the closure of the State's right-of-way will be performed within the State's requirements; and

WHEREAS, on the 6th day of October, 2026, the Brownsville City Council passed Resolution / Ordinance No. 2026-130, attached hereto and identified as "Exhibit B," establishing that the Event serves a public purpose and authorizing the City to enter into this agreement with the State; and

WHEREAS, 43 TAC, Section 22.12 establishes the rules and procedures for the temporary closure of a segment of the State highway system; and

WHEREAS, this agreement has been developed in accordance with the rules and procedures of 43 TAC, Section 22.12;

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and agreements of the parties hereto, to be by them respectively kept and performed as hereinafter set forth, it is agreed as follows:

A G R E E M E N T

Article 1. CONTRACT PERIOD

This agreement becomes effective upon final execution by the State and shall terminate upon completion of the Event or unless terminated or modified as hereinafter provided.

Article 2. EVENT DESCRIPTION

The description of the Event, including the proposed schedule of start and stop times, approximate number of people attending the Event, and equipment involved shall be attached hereto and identified as "Exhibit C."

Article 3. OPERATIONS OF THE EVENT

A. The City shall assume all costs for the operations associated with the Event, to include but not limited to, plan development, materials, labor, public notification, providing protective barriers and barricades, protection of highway traffic and highway facilities, and all traffic control and temporary signing.

B. The City shall submit to the State for review and approval the construction plans, if construction or modifications to the State's right-of-way is required, the traffic control and signing plans, traffic enforcement plans, and all other plans deemed necessary by the State.

C. The City will not initiate closure prior to 24 hours before the scheduled Event and all barriers and barricades will be removed and the highway reopened to traffic within 24 hours after the completion of the Event.

D. The City will provide adequate enforcement personnel to prevent vehicles from stopping and parking along the main lanes of highway right-of-way and otherwise prevent interference with the main lane traffic by both vehicles and pedestrians. The City will prepare a traffic enforcement plan, to be approved by the State in writing at least 48 hours prior to the scheduled Event. Additionally, the City shall provide to the State a letter of certification from the law enforcement agency that will be providing traffic control for the Event, certifying that they agree with the enforcement plan and will be able to meet its requirements.

E. The City hereby assures the State that there will be appropriate passage allowance for emergency vehicle travel and adequate access for abutting property owners during construction and closure of the highway facility. These allowances and accesses will be included in the City's traffic control plan.

F. The City will avoid or minimize damage, and will, at its own expense, restore or repair damage occurring outside the State's right-of-way and restore or repair the State's right-of-way, including roadway and drainage structures, signs, and pavement, etc. to a condition equal to that existing before the closure, and, to the extent practicable, restore the natural environment, including landscape features.

Article 4. OWNERSHIP OF DOCUMENTS

Upon completion or termination of this agreement, all documents prepared by the City will remain the property of the City. All data prepared under this agreement shall be made available to the State without restriction or limitation on their further use.

Article 5. TERMINATION

A. This agreement may be terminated by any of the following conditions:

(1) By mutual written agreement and consent of both parties.

(2) By the State upon determination that use of the State's right-of-way is not feasible or is not in the best interest of the State and the traveling public.

(3) By either party, upon the failure of the other party to fulfill the obligations as set forth herein.

(4) By satisfactory completion of all services and obligations as set forth herein.

B. The termination of this agreement shall extinguish all rights, duties, obligations and liabilities of the State and City under this agreement. If the potential termination of this agreement is due to the failure of the City to fulfill its contractual obligations as set forth herein, the State will notify the City that possible breach of contract has occurred. The City

must remedy the breach as outlined by the State within ten (10) days from receipt of the State's notification. In the event the City does not remedy the breach to the satisfaction of the State, the City shall be liable to the State for the costs of remedying the breach and any additional costs occasioned by the State.

Article 6. DISPUTES
Should disputes arise as to the parties' responsibilities or additional work under this agreement, the State's decision shall be final and binding.

Article 7. RESPONSIBILITIES OF THE PARTIES
The State and the Local Government agree that neither party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

Article 8. INSURANCE
A. Prior to beginning any work upon the State's right-of-way, the City and/or its contractors shall furnish to the State a completed "Certificate of Insurance" (TxDOT Form 1560, latest edition) and shall maintain the insurance in full force and effect during the period that the City and/or its contractors are encroaching upon the State right-of-way.
B. In the event the City is a self-insured entity, the City shall provide the State proof of its self-insurance. The City agrees to pay any and all claims and damages that may occur during the period of this closing of the highway in accordance with the terms of this agreement.

Article 9. AMENDMENTS
Any changes in the time frame, character, agreement provisions or obligations of the parties hereto shall be enacted by written amendment executed by both the City and the State.

Article 10. COMPLIANCE WITH LAWS
The City shall comply with all applicable federal, state and local environmental laws, regulations, ordinances and any conditions or restrictions required by the State to protect the natural environment and cultural resources of the State's right-of-way.

Article 11. LEGAL CONSTRUCTION
In case one or more of the provisions contained in this agreement shall for any reason be held invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provisions hereof and this agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Article 12. NOTICES
All notices to either party by the other required under this agreement shall be delivered personally or sent by certified U.S. mail, postage prepaid, addressed to such party at the following respective addresses:

City:	State:
City of Brownsville 1001 E. Elizabeth St. Brownsville, TX, 78520	Texas Department of Transportation

All notices shall be deemed given on the date so delivered or so deposited in the mail, unless otherwise provided herein. Either party hereto may change the above address by sending written notice of such change to the other in the manner provided herein.

Article 13. SOLE AGREEMENT
This agreement constitutes the sole and only agreement between the parties hereto and supersedes any prior understandings or written or oral agreements respecting the within subject matter.

IN TESTIMONY WHEREOF, the parties hereto have caused these presents to be executed in duplicate counterparts.

Lucio Gutierrez
Traffic Department Manager
404 E. Washington St.
Brownsville, Texas 78520

Dear Mr. Gutierrez:

The purpose of this correspondence is to respectfully request your permission and assistance regarding our upcoming event, the 74th Annual Christmas Parade to be held on Saturday, December 5, 2026 at 7:00 p.m. In case of inclement weather, the alternate date will be Saturday, December 12, 2026 at 7:00 p.m.

Charro Days Inc. is also requesting that Elizabeth Street from Central Boulevard to West Second Street be closed at 5:00 p.m. on said date to allow parking of floats and other parade participants.

As in the past, we appreciate your support and guidance in helping us continue the tradition of the Annual Christmas Parade presented by Charro Days Inc.

Sincerely,

Henry LeVrier
President

Pharr, TX 78577

I am writing to formally acknowledge the receipt of the traffic plan(s) and associated responsibilities for the 74th Annual Christmas Parade scheduled for Saturday, December 5, 2026. As is customary during this annual celebration, the Brownsville Police Department will be responsible for the comprehensive management of traffic and the implementation of detour routes.

Thank you for entrusting us with this vital task, and we look forward to ensuring the safety and smooth traffic flow during this festive event.

Cell: 956-592-5274

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-021-PD**, to establish a Planned Development District (PD) to establish development-specific zoning regulations that would permit reduced setbacks, detached accessory structures in the front yard, and unique design standards for the proposed residences, for 2.817 acres, being all of Common Area 1 of Butterfly Grove Subdivision, Cameron County, Texas, located at 1903 Grove Lane, Brownsville, Texas 78526, as shown in Exhibit "A". (District 3) (Planning & Redevelopment Department)

Summary:

Property owner, Palo Alto Groves Owner's Association Inc., proposes to establish a Planned Development District (PD) to establish development-specific zoning regulations that would permit reduced setbacks, detached accessory structures in the front yard, and unique design standards for the proposed residences, for 2.817 acres, being all of Common Area 1 of Butterfly Grove Subdivision, Cameron County, Texas, located at 1903 Grove Lane, Brownsville, Texas 78526. The proposed Planned Development District will establish development specific zoning regulations that will primarily allow setbacks unique to the development as well as home design/model regulations permitting detached accessory structures in the front yard for the purpose of being used as an alternative dwelling unit or garage. The base zoning of the development will continue to be Residential Single Family (R-1).
The predominant land use in the surrounding area is undeveloped land. Additional uses, such as single-family development, Brownsville Sports Park, and railroad switch yard are also present within proximity of the subject property.

The property is located within the Employment Hub. The proposed zoning/use is consistent with the Future Land Use Map.

Project Scope and Analysis:

As background to the Planned Development District tool, staff would like to point out that the base zoning districts established by the UDC are intended to facilitate a broad range of development within appropriate areas of the city. However, staff recognizes that there are a variety of development types as well as unique areas within the city. Therefore, the intent of this tool is to provide a mechanism for a specialized zoning district that facilitates the creation of developments that are unique due to various factors. The PDD is intended to establish specific development standards that ensure each Planned Development exceeds the standards of the equivalent base zoning districts.
Because the subject residential development has irregular lot configurations due to the meandering design of the subdivision, building setbacks are unique for each property. Additionally, as per UDC requirements, detached alternative dwelling units (accessory structures) are only permitted behind the primary structure (residence). This requirement is intended to keep the primary structure's façade visibly unobstructed within the typical residential development. The approval of the PDD would alleviate issues with setbacks and would allow the proposed home configuration with the detached structure in the front yard throughout the subdivision.

The following conditions are tied to the proposed Planned Development District:

- Allow the proposed front setback of 20 feet
- Allow detached accessory structures in the front yard
- Allow unique design standards for the proposed residences

Staff finds that the requested PDD would permit a cohesive design pattern within the proposed development.

Recommendation:

There was no written or verbal opposition at the Planning and Zoning Commission meeting on September 3, 2026. The Planning and Zoning Commission approves this request to create a Planned Development District (PD) to establish development-specific zoning regulations.

This item was approved by City Commission at 1st Reading on September 22, 2026.

Commission Pillar:

Planning & Zoning

Attachments:

1. Case 235-2026-021-PD Binder

ORDINANCE NUMBER 235-2026-021-PD

AN ORDINANCE AMENDING THE "CITY ZONING ORDINANCE" BY AMENDING THE OFFICIAL ZONING ATLAS TO ESTABLISH A PLANNED DEVELOPMENT DISTRICT (PD) TO ESTABLISH DEVELOPMENT-SPECIFIC ZONING REGULATIONS THAT WOULD PERMIT REDUCED SETBACKS, DETACHED ACCESSORY STRUCTURES IN THE FRONT YARD, AND UNIQUE DESIGN STANDARDS FOR THE PROPOSED RESIDENCES, FOR 2.817 ACRES, BEING ALL OF COMMON AREA 1 OF BUTTERFLY GROVE SUBDIVISION, CAMERON COUNTY, TEXAS, LOCATED AT 1903 GROVE LANE, BROWNSVILLE, TEXAS 78526.; AND DEALING WITH RELATED MATTERS INCLUDING $2000 PENALTIES.

WHEREAS, this ordinance is in accordance with the City's comprehensive plan; is consistent with the existing zoning surrounding the area to be rezoned; and bears a substantial relationship to the public health, safety, morals or general welfare; and all procedural requirements for the passage hereof have been met;

Be It Ordained by the City of Brownsville:

Section 1. That the City Commission of the City of Brownsville, Texas, hereby amends the "City Zoning Ordinance" by amending the Official Zoning Atlas To establish a Planned Development District (PD) to establish development-specific zoning regulations that would permit reduced setbacks, detached accessory structures in the front yard, and unique design standards for the proposed residences, for 2.817 acres, being all of Common Area 1 of Butterfly Grove Subdivision, Cameron County, Texas, located at 1903 Grove Lane, Brownsville, Texas 78526.

Section 2. The property described above and within the boundaries of the Planned Development District described by the ordinance establishes the following development-specific zoning regulations:

- Allow the proposed front setback of 20 feet.
- Allow detached accessory structures in the front yard
- Allow unique design standards for the proposed residences

Section 3. That all provisions of the City of Brownsville Unified Development Code are incorporated herein by reference and declared to be a part hereof; and that this ordinance shall become effective on the earliest date allowed by law.

INTRODUCED at a public hearing on **September 22, 2026**. Passed at First Reading on **September 22, 2026**. PASSED at Second and Final Reading and ADOPTED, APPROVED, and ENACTED on **October 6, 2026**.

Overlay(s): None
No. of Mail-outs: 26

Geo ID: 77-3431-0000-0010-00
Case No.: 235-2026-021-PD
Proposed Use: Single Family Homes
Proposed Zoning: Residential Single Family (R-1) / Updated Planned Development District (PDD)
P&Z Date: September 3, 2026
Electoral District: 3
Annexation Year: 1999
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: 2.817 acres, being all of Common Area 1 of Butterfly Grove Subdivision, Cameron County, Texas, located at 1903 Grove Lane, Brownsville, Texas 78526.
Roadway Frontage: The subject property is fronting Old Alice Road, a Collector, and Grove Lane a Local Street.
Predominant Land Use: The predominant land use within the area is a mix of undeveloped land, with single family residential, commercial uses, and public spaces.

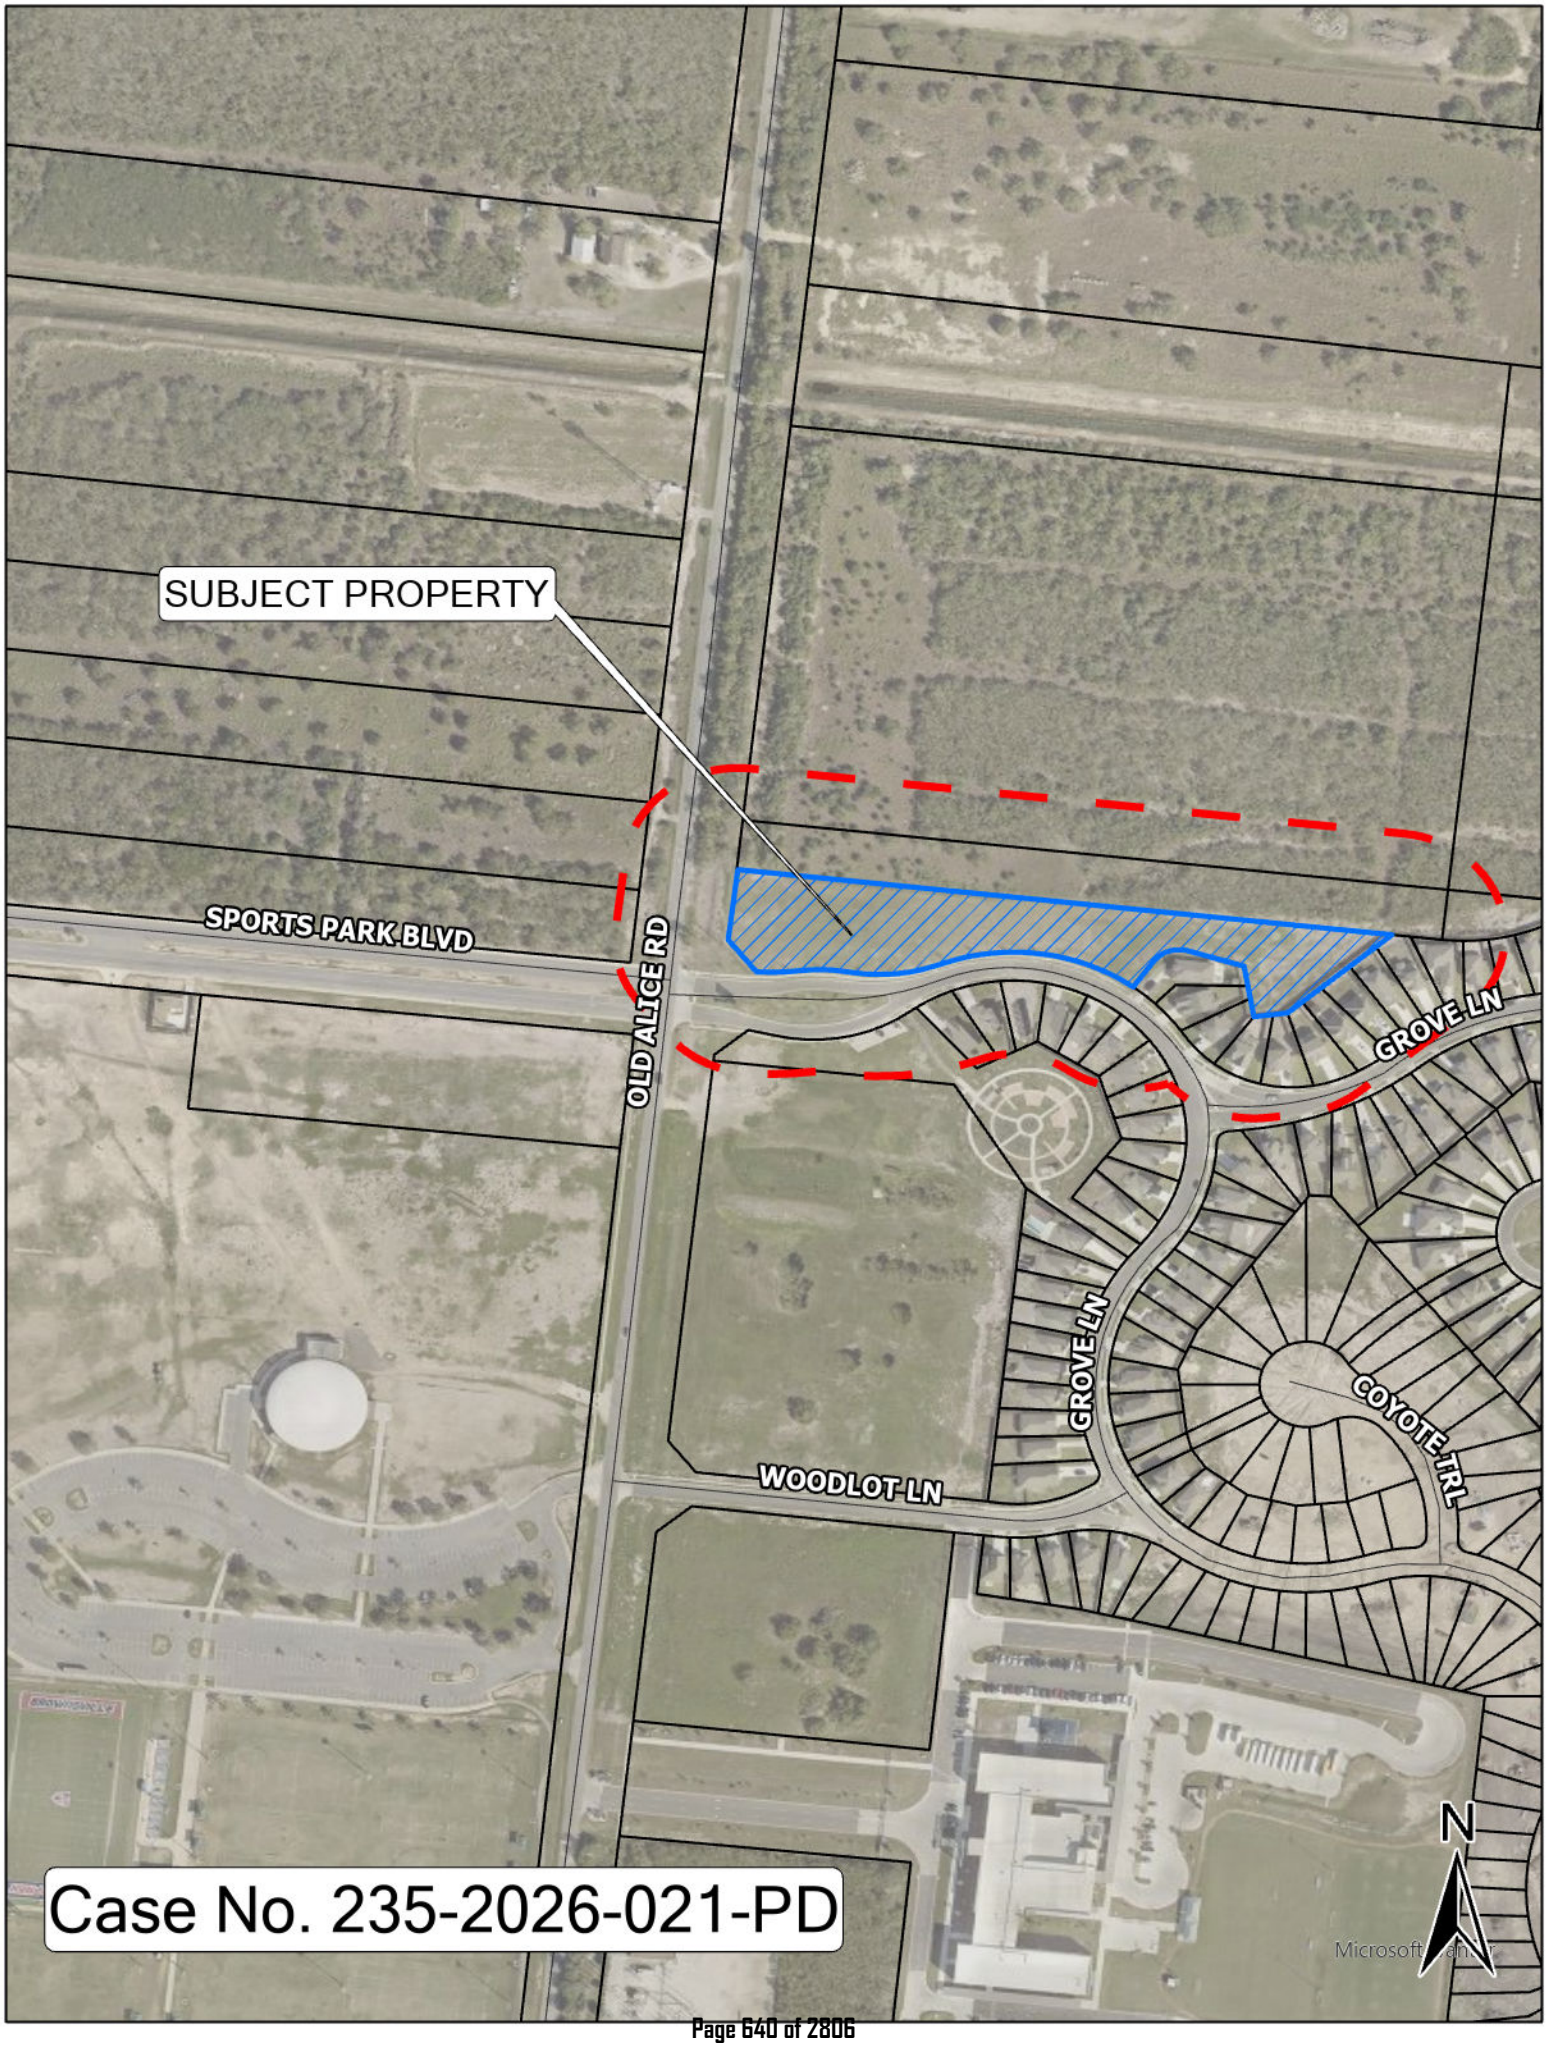
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Undeveloped Land, Commercial
East: Residential Single Family
South: Residential Single Family, Undeveloped Land
West: Public Space / Sports Park, Undeveloped Land

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Residential Transition (R-1), Regional Center (RC)
East: Residential Transition (R-1)
South: Residential Single Family (R-1), Residential Transition (R-3)
West: Regional Center (RC), Residential Transition (R-3)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



Land uses in the Employment Hub are half industrial with a healthy mixture of all other land uses. Residential land uses should be primarily single-family, duplex and triplex uses with an average density of 4 dwelling units per acre. This rezone request is consistent with the Future Land Use Plan.

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed zoning and associated use would be generally compatible with adjacent existing zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems. Staff is recommending a Planned Development District with the following conditions: reduced setbacks, detached accessory structures within the front yard, and unique design standards for the proposed residences.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends approval of the Planned Development District (PDD) request to permit reduced setbacks, detached accessory structures in the fronts yard, and unique design standards for the proposed residences.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-019**, to rezone from Residential Estate (RE) to Residential Single-Family (R-1) to allow a single-family residential development for a 1.00-acre tract of land out of Lot 4, Block 307, El Jardin Re-Subdivision, Cameron County, Texas, located at 835 South Indiana Avenue, Brownsville, Texas 78521, as shown in Exhibit "A". (District 1) (Planning & Redevelopment Department)

Summary:

Property owners, Alfredo M. Sobrevilla and Veronica Barrera, propose to change the Zoning Designation for a 1.00-acre tract of land out of Lot 4, Block 307, El Jardin Re-Subdivision, Cameron County, Texas, located at 835 South Indiana Avenue, Brownsville, Texas 78521. The applicant requests to rezone the subject property from Residential Estate (RE) to Residential Single-Family (R-1) to allow single-family development.
The predominant land use in the surrounding area is single-family dwelling. Additional uses, such as undeveloped land, multi-family development, and commercial uses, are also present within proximity of the subject property.

The property is located within the Loop Corridor. The proposed zoning/use is consistent with the Future Land Use Map.

Project Scope and Analysis:

The subject property consists of approximately 1.00 acre and is proposed to be subdivided into four single-family residential lots, each averaging approximately 0.25 acre in size.
The applicants are requesting a zoning reclassification because the property's current Residential Estate (RE) zoning district is intended for single-family residential development on larger lots and requires a minimum lot area of 20,000 square feet. The requested zoning designation would accommodate the proposed subdivision and allow the intended single-family residential uses on the resulting lots.

Because the subject property fronts an arterial roadway, access management requirements will also need to be addressed during the platting process. To minimize the number of individual access points along the arterial, the applicants will be required to provide shared driveways serving the proposed lots. This arrangement would reduce the number of driveway connections and turning points along the roadway to two, thereby improving access management and bringing the development into compliance with applicable City policy.

Staff finds that the proposed zoning designation would be appropriate for the area.

Be It Ordained by the City of Brownsville:

Section 1. That the City Commission of the City of Brownsville, Texas, hereby amends the "City Zoning Ordinance" by amending the Official Zoning Atlas To rezone from Residential Estate (RE) to Residential Single-Family (R-1) to allow a single-family residential development for a 1.00-acre tract of land out of Lot 4, Block 307, El Jardin Re-Subdivision, Cameron County, Texas, located at 835 South Indiana Avenue, Brownsville, Texas 78521.

Section 2. That all provisions of the City of Brownsville Unified Development Code are incorporated herein by reference and declared to be a part hereof; and that this ordinance shall become effective on the earliest date allowed by law.

INTRODUCED at a public hearing on **September 22, 2026**. Passed at First Reading on **September 22, 2026**. PASSED at Second and Final Reading and ADOPTED, APPROVED, and ENACTED on **October 6, 2026**.

STAFF REPORT

Planning & Redevelopment Department
Zoning Division
1034 E. Levee St. 2nd Floor
Brownsville, TX 78520
(956) 548-6150

APPLICATION DETAILS

Applicant/Representative: Paco Aldape
Property Address: 835 S Indiana Avenue
Application Type: Rezone
Current Zoning: Residential Estate (RE)
Application Date: July 7, 2026
CC Meeting Dates: 1st – September 22, 2026 / 2nd - October 6, 2026
Overlay(s): None
No. of Mail-outs: 7

Geo ID: 74-7540-3070-0040-00
Case No.: 235-2026-019
Proposed Use: Residential Single Family
Proposed Zoning: Residential Single Family (R-1)
P&Z Date: September 3, 2026
Electoral District: 1
Annexation Year: 1995
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: An 1.00-acre tract of land out of Lot 4, Block 307, El Jardin Re-Subdivision, Cameron County, Texas, located at 835 South Indiana Avenue, Brownsville, Texas 78521.
Roadway Frontage: The subject property is fronting South Indiana Avenue, a Primary Arterial (R.O.W. 120')
Predominant Land Use: The predominant land use within the area is a mix of undeveloped land, scattered single and multi family residential and commercial uses.

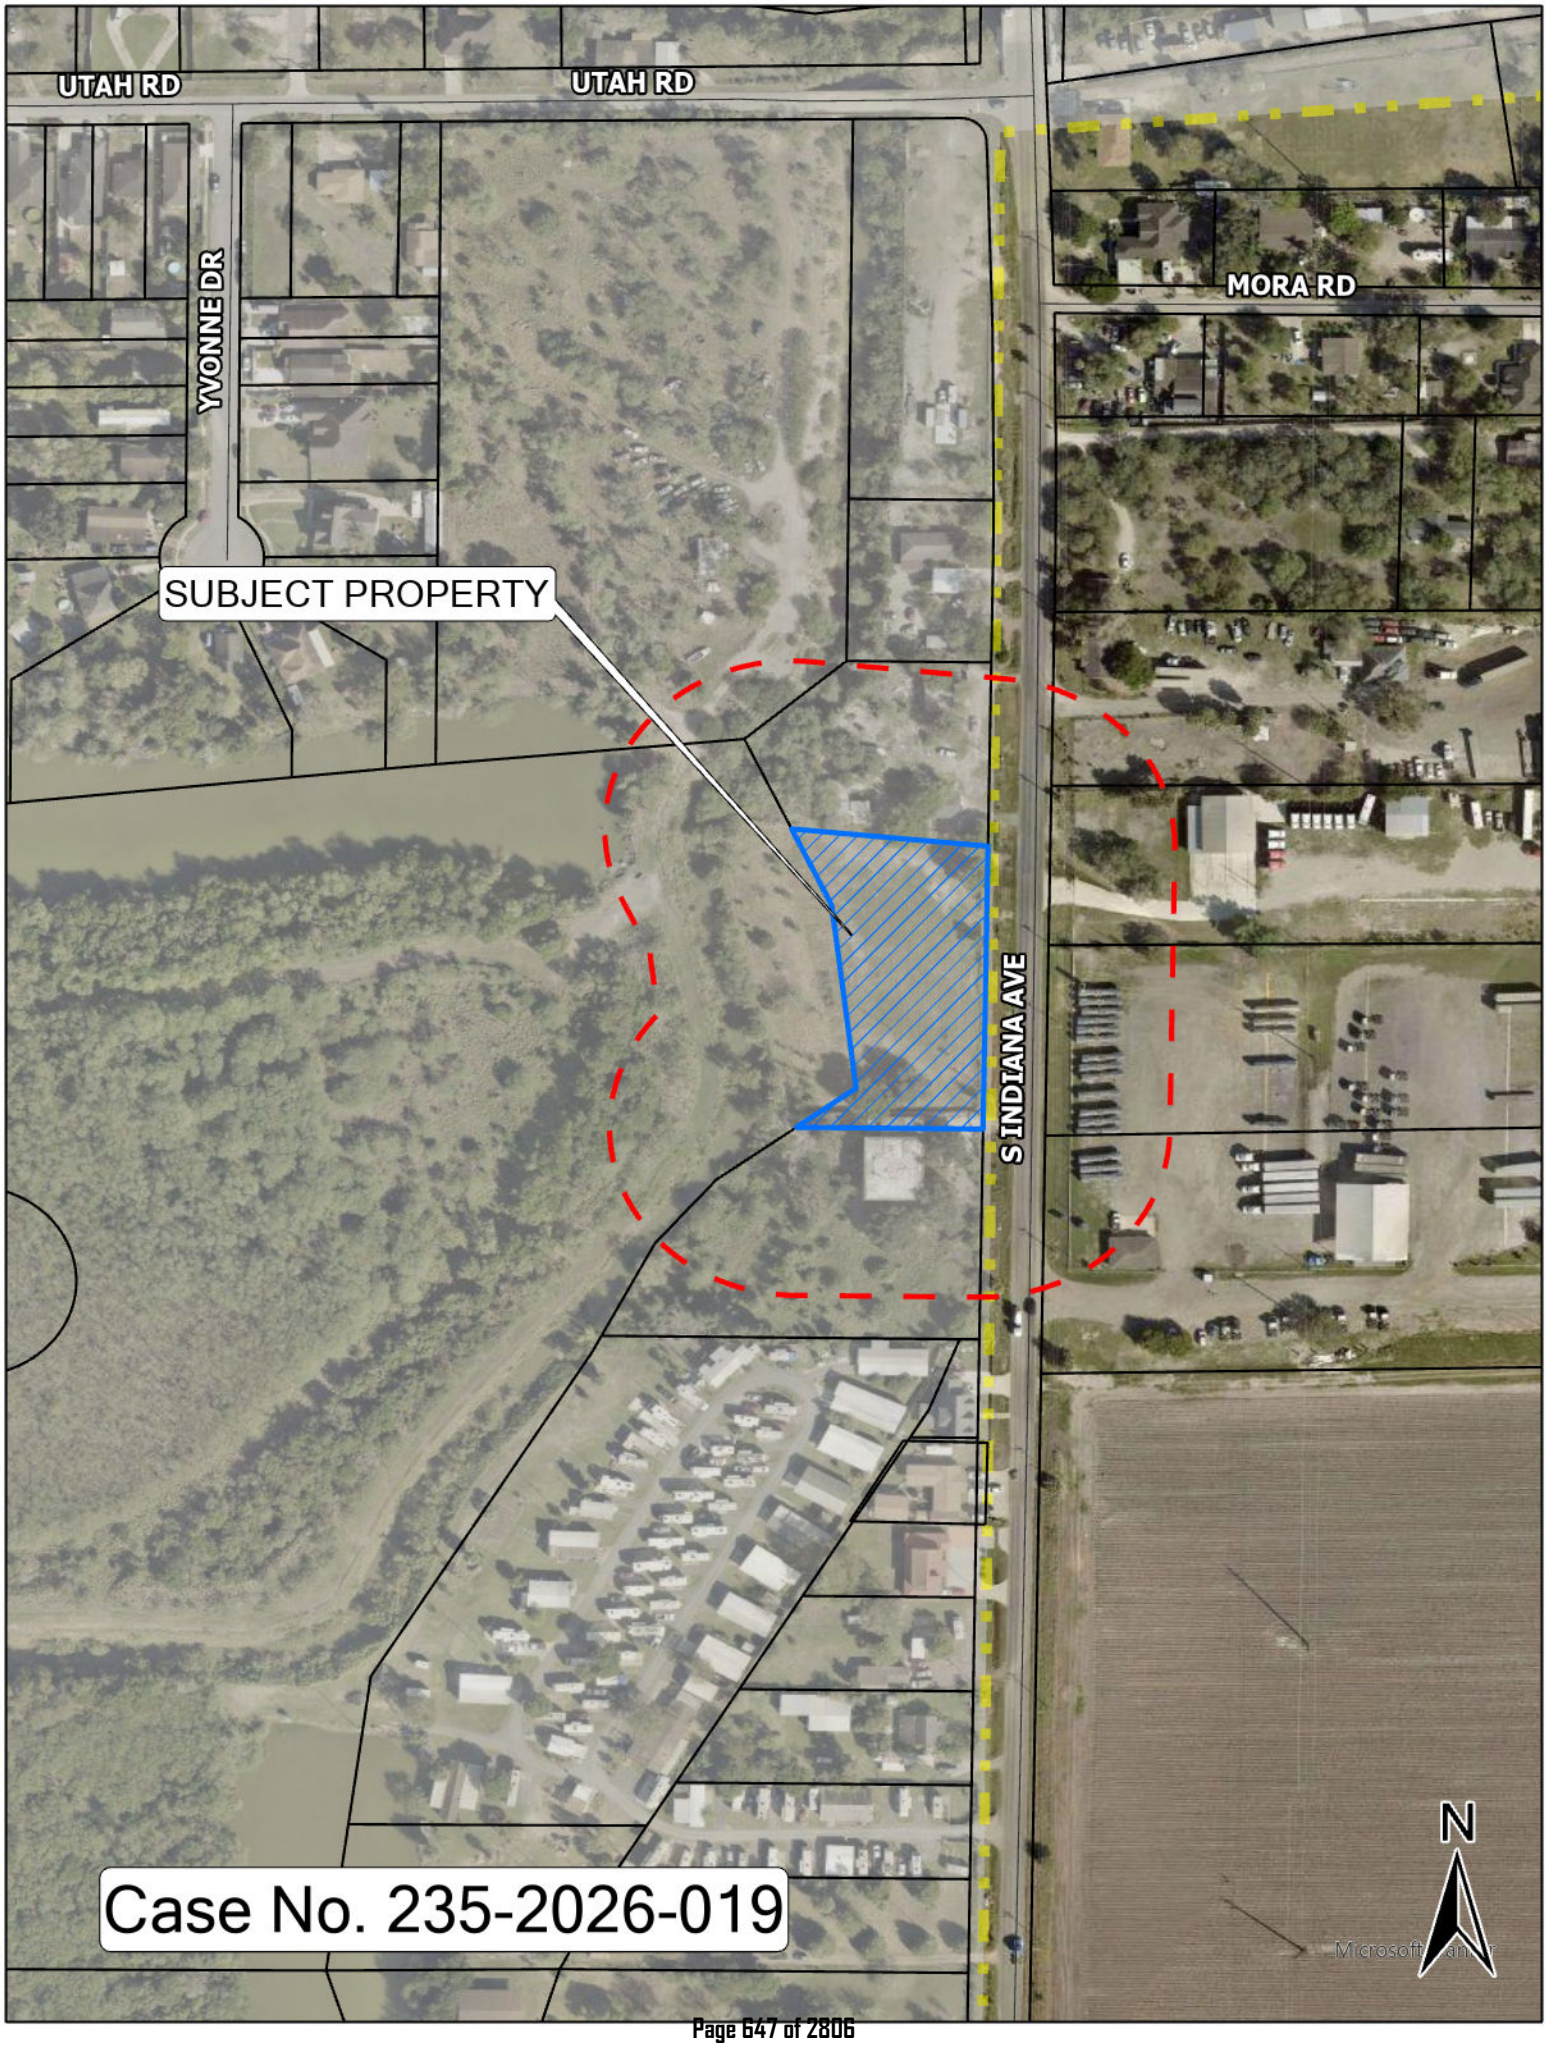
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Single Family Residential
East: Extraterritorial Jurisdiction (ETJ)
South: Single Family Residential, Multi Family Residential
West: Undeveloped Land

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Residential Estate (RE), Residential Suburban (R-2)
East: Extraterritorial Jurisdiction (ETJ)
South: Residential Estate (RE), Agriculture (AG)
West: Residential Suburban (R-2), Light Industrial (LI)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



The City of Brownsville Future Land Use Plan indicates that the subject land is located within the Loop Corridor. Commercial uses are dominant but should include a healthy mixture of residential, institutional, industrial and community facility land uses. Residential land uses should be primarily single-family and attached apartment houses with an average density of 4 dwelling units per acre. It is the opinion of staff that the request is consistent with the Future Land Use Plan..

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed zoning and associated use would be generally compatible with adjacent existing zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems. Although single-family residential uses are permitted within the existing zoning district, the request is intended solely to allow for increased residential density within the proposed future single-family subdivision.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends approval of the zoning change request from Residential Estate (RE) District to Residential Single Family (R-1) District.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Martin Vega, Assistant Director of Land Development Services
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **APPROVAL** on **SECOND** and **FINAL READING** on **Ordinance Number 235-2026-022-S**, to request a Specific Use Permit in a Regional Center (RC) zoning district to allow an event center for Suite G, Lot 3, Block 1, Springmart I Subdivision Replat #2, Cameron County, Texas, located at 3231 Pablo Kisel Boulevard, Brownsville, Texas 78526, as shown in Exhibit "A". (District 3) (Planning & Redevelopment Department)

Summary:

Property owner, Leeds Group PK LLC., has requested a Specific Use Permit to allow an event center for Suite G, Lot 3, Block 1, Springmart I Subdivision Replat #2, Cameron County, Texas, located at 3231 Pablo Kisel Boulevard, Brownsville, Texas 78526.
The base zoning of the property is Regional Center (RC) and shall remain unchanged.
The predominant land use in the surrounding area is commercial development. Additional uses, such as undeveloped land, are also present within the vicinity.

The property is located within the Transition Central District. The request is consistent with the Future Land Use Map.

Project Scope and Analysis:

The subject property is currently developed as an existing commercial plaza located within the northern commercial area of the City. The subject tenant space is presently occupied by a Christian bookstore and has an approximate area of 2,800 square feet.
The applicant is proposing to expand and diversify the existing business by incorporating an event center component within the same tenant space. According to the applicant, the event center would primarily accommodate small family gatherings and celebrations while continuing to operate in conjunction with the bookstore use.

It is also important to note that the commercial plaza in which the proposed event center would be located provides approximately 150 on-site parking spaces. This existing parking supply would serve the various tenants within the plaza, including the proposed event center use.

Pursuant to the UDC, the establishment and operation of an event hall within city limits requires approval of a Specific Use Permit. A Specific Use Permit provides an additional layer of review and protection for surrounding properties by allowing the City to establish development standards intended to address potential use-related impacts, including noise.

If approved, the development shall be subject to the following conditions:

• Sound mitigation measures, including interior finish-out materials such as acoustic tiles or other approved sound-dampening insulation, shall be installed to ensure that noise levels do not exceed sixty (60) decibels when measured at the common property line shared by the noise-emitting use and adjacent residential zoning districts.

Funding:

Source: Fiscal Dept. Approval Not Required

Amount: N/A

Local Contribution if Applicable: N/A

Recommendation:

There was no written or verbal opposition at the Planning & Zoning Commission meeting on September 3, 2026. The Planning & Zoning Commission recommends approval for this Specific Use Permit to allow an event center in Regional Center (RC).

This item was approved by City Commission at 1st Reading on September 22, 2026.

Commission Pillar:

Planning & Zoning

Attachments:

1. Case 235-2026-022-S Binder

ORDINANCE NUMBER 235-2026-022-S

AN ORDINANCE AMENDING THE "CITY ZONING ORDINANCE" BY AMENDING THE OFFICIAL ZONING ATLAS TO ALLOW AN EVENT CENTER IN A REGIONAL CENTER (RC) ZONING DISTRICT FOR SUITE G, LOT 3, BLOCK 1, SPRINGMART I SUBDIVISION REPLAT #2, CAMERON COUNTY, TEXAS, LOCATED AT 3231 PABLO KISEL BOULEVARD, BROWNSVILLE, TEXAS 78526, CAMERON COUNTY, TEXAS; AND DEALING WITH RELATED MATTERS INCLUDING $2000 PENALTIES.

WHEREAS, this ordinance is in accordance with the City's comprehensive plan; is consistent with the existing zoning surrounding the area to be rezoned; and bears a substantial relationship to the public health, safety, morals or general welfare; and all procedural requirements for the passage hereof have been met;

Be It Ordained by the City of Brownsville:

Section 1. That the City Commission of the City of Brownsville, Texas, hereby amends the "City Zoning Ordinance" by amending the Official Zoning Atlas to allow an event center in a Regional Center (RC) zoning district to allow an event center for Suite G, Lot 3, Block 1, Springmart I Subdivision Replat #2, Cameron County, Texas, located at 3231 Pablo Kisel Boulevard, Brownsville, Texas 78526, as shown in Exhibit "A"; the area rezoned by this amendment being situated entirely within the corporate limits of Brownsville, Cameron County, Texas.

Section 2. That all provisions of the City of Brownsville Unified Development Code are incorporated herein by reference and declared to be a part hereof; and that this ordinance shall become effective on the earliest date allowed by law.

Section 3. The property described above and by this ordinance is subject to the following conditions:

- Sound mitigation measures and interior finish-out materials such as acoustic tiles or other approved sound-dampening insulators shall be installed to maintain a noise level less than or equal to sixty (60) decibels when measured at the common property line shared by the noise emitting use and adjacent residential zoning districts.

INTRODUCED at a public hearing on **September 22, 2026**. Passed at First Reading on **September 22, 2026**. PASSED at Second and Final Reading and ADOPTED, APPROVED, and ENACTED on **October 6**, **2026**.

Annexation Year: 1965-1984
Opposition: No Verbal or Written Opposition

PROPERTY DETAILS

Legal Description: Lot 3, Block 1, Springmart I Replat #2 Subdivision, Cameron County, Texas, located at 3231 Pablo Kisel Blvd, Brownsville, TX 78526.
Roadway Frontage: The subject property is fronting Pablo Kisel Blvd, a Collector.
Predominant Land Use: The predominant land use within the area is commercial.

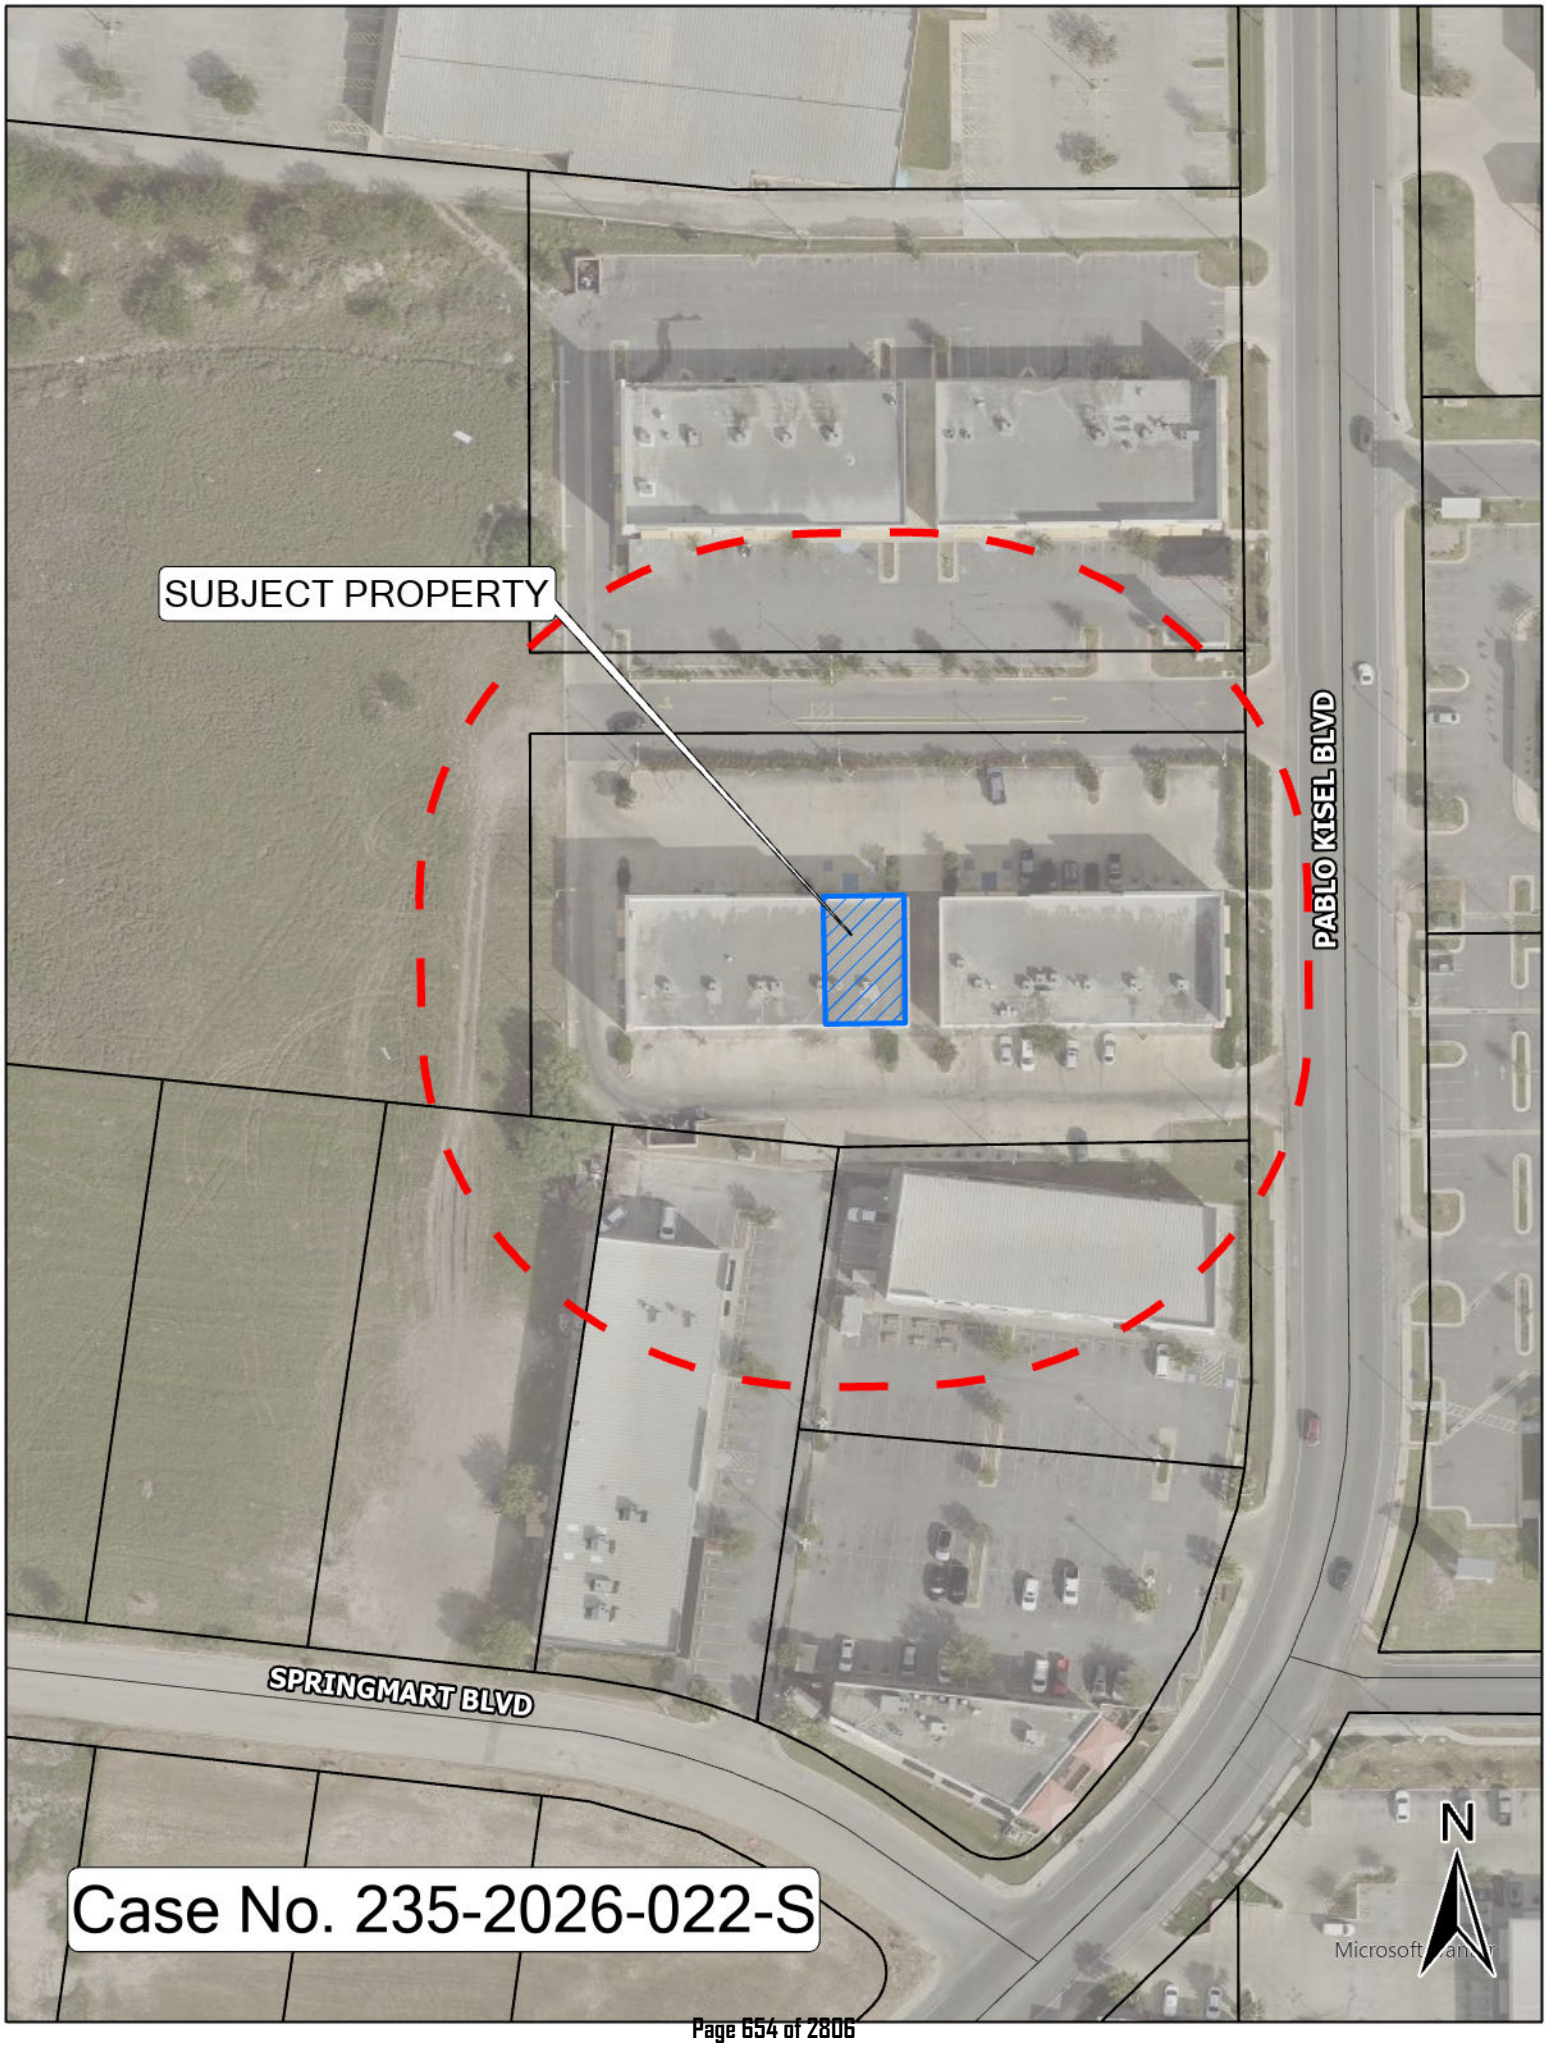
ABUTTING LAND USES (*SEE ATTACHED AERIAL VIEW MAP)*

North: Commercial, Undeveloped Land
East: Commercial
South: Commercial
West: Commercial, Undeveloped Land

EXISTING ZONING DESIGNATIONS (*SEE ATTACHED ZONING MAP)*

North: Regional Center (RC)
East: Regional Center (RC)
South: Regional Center (RC)
West: Regional Center (RC)

FUTURE LAND USE PLAN (*SEE ATTACHED FUTURE LAND USE MAP)*



The City of Brownsville Future Land Use Plan indicates that the subject land is located within the Transition Central District. Commercial uses should be neighborhood and service oriented and could include both light and medium industry and warehousing. Residential land uses should be primarily single-family with an average density of 2 dwelling units per acre in a variety of lot sizes to create visual variation within the District and encourage the formation of distinct neighborhoods. It is the opinion of staff that the request is not consistent with the Future Land Use Plan.

REVIEW CRITERIA

After an analysis of the subject property and its surrounding context, staff has determined that the proposed Specific Use Permit and associated use would be generally compatible with adjacent existing zoning districts and land uses, and would not place significant or undue strain on existing public infrastructure, including water, wastewater, and transportation systems. Approval of an event center is conditioned on compliance to sound mitigation requirments.

STAFF RECOMMENDATION

Based upon the analysis presented in this report and observations from the Planning & Redevelopment Department, staff recommends approval of the Specific Use Permit (SUP) request for an event center within the existing Regional Center (RC) District, subject to sound mitigation requirements and site review approval during the Certificate of Occupancy process.

1. BASIC INFORMATION

Purpose of the Funding

The Office of Justice Programs (OJP) is committed to advancing work that furthers the U.S. Department of Justice's (DOJ) mission to keep our country safe and secure and uphold the rule of law and protect the rights of American citizens. OJP provides federal leadership, funding, and other critical resources to directly support law enforcement, combat violent crime, protect American children, provide services to American crime victims, and address public safety challenges, including human trafficking and the opioid crisis.

This is a notice of funding opportunity (NOFO) for the **BJA FY 2026 Edward Byrne Memorial Justice Assistance Grant (JAG) Program—Local Formula**. This opportunity will provide formula funding to eligible units of local government to, in general, support hiring additional personnel and/or purchase equipment, supplies, contractual support, training, technical assistance, and information systems for criminal justice or civil proceedings, including for any one or more of the following program areas:

1. Law enforcement programs.
2. Prosecution and court programs.
3. Prevention and education programs.
4. Corrections and community corrections programs.
5. Drug treatment and enforcement programs.
6. Planning, evaluation, and technology improvement programs.
7. Crime victim and witness programs (other than compensation).
8. Mental health programs and related law enforcement and corrections programs, including behavioral programs and crisis intervention teams.
9. Implementation of state crisis intervention court proceedings and related programs or initiatives, including but not limited to mental health courts, drug courts, veterans courts, and extreme risk protection order programs.
10. Programs to purchase and operate unmanned aircraft systems (as defined in section 44801 of title 49, United States Code) to benefit public safety.
11. Programs to purchase and operate counter-UAS systems (as defined in section 44801 of title 49, United States Code) included on the list of technologies established by subsection (d)(2)(A)(iii) section 210G of the Homeland Security Act of 2002 (6 U.S.C. 124n(d)(2)(A)(iii)) to exercise the authority granted under subsection (a)(2) of such section.

Additionally, JAG funds awarded under this NOFO may be used for any purpose indicated here: Purposes for Which Funds Awarded Under the Edward Byrne Memorial Justice Assistance Grants (JAG) Program May Be Used.

See the Eligible Applicants section for eligibility details.

Funding Details

Announcement Type	Initial
Assistance Listing Number	16.738
Statutory Authority	Pub. L. No. 90-351, Title I, Part E, subpart 1 (codified at 34 U.S.C. 10151 - 10158); see also 28 U.S.C. 530C(a)
Grants.gov Opportunity Number	O-BJA-2026-172705
Expected Total Amount of Funding	Up to $96,518,469
Anticipated Number of Awards	1,190
Award Type(s)	Grants
Anticipated Award Amount	Up to $4,964,030
Expected Award Period(s)	24 months (awards less than $25,000) or 48 months (awards $25,000 or more) starting on October 1, 2025

Key Dates and Times

NOFO Release Date	August 25, 2026
SAM.gov Registration/Renewal	Begin the process by September 1, 2026, and no later than September 9, 2026

Step 2: JustGrants Deadline	8:59 p.m. ET on October 16, 2026

See Questions? at the end of this NOFO for agency contact information.

2. ELIGIBILITY

Eligible Applicants

The types of entities that are eligible to apply are:

Government Entities

- County governments
- City or township governments
- Special district governments
- Native American tribal governments (federally recognized)

Other

- Other units of local government

"Other" Entities Definition:

- By law, for purposes of the JAG Program, the term "units of local government" includes a town, township, village, parish, city, county, borough, or other general-purpose political subdivision of a state, or it may be a federally recognized American Indian tribal government that performs law enforcement functions (as determined by the Secretary of the Interior). A unit of local government also may be any law enforcement district or judicial enforcement district established under applicable state law with authority to independently establish a budget and impose taxes; for example, in Louisiana, a unit of local government means a district attorney or parish sheriff.

Prior to starting an application to this NOFO, all prospective unit of local government applicants should check the JAG Allocations page and the link to their relevant state to determine if they are eligible for a direct award from BJA.

- Only one eligible unit of local government that is a member of a disparate group may apply for funding as the fiscal agent for the other members of the group.
- Applications from ineligible units of local government (*i.e.,* not listed in the allocation charts) will not be accepted for funding.

Cost Sharing (Match) Requirement: This NOFO does **not** require cost sharing (match).

3. PROGRAM DESCRIPTION

Statutory Authority

Pub. L. No. 90-351, Title I, Part E, subpart 1 (codified at 34 U.S.C. 10151-10158); see also 28 U.S.C. 530C(a)

Agency Funding Priorities

In order to advance public safety and help meet its mission, OJP's priorities include:

a. Directly supporting law enforcement operations (including immigration law enforcement operations);
b. Combatting violent crime;
c. Supporting services to American citizens;
d. Protecting American children; and
e. Supporting American victims of trafficking and sexual assault.

Areas of Emphasis

BJA recognizes that many state and local criminal justice systems currently face challenging fiscal environments and that an important, cost-effective way to relieve those pressures is to share or leverage resources through cooperation among federal,

state, local, tribal, and territorial law enforcement. BJA encourages state and local recipients of FY 2026 JAG funding to join federal law enforcement agencies in addressing the following challenges.

Combating Violent Crime: JAG funds may be used to implement, enhance, or expand projects that combat violent crime. This should include directly supporting law enforcement operations.

Specific activities could include addressing human trafficking of American citizens; dismantling criminal gangs, street crews, and drug networks, including drug manufacturing, dealing, and trafficking; and cracking down on the open use of illegal drugs. State and local agencies are encouraged to coordinate with their United States Attorneys and Project Safe Neighborhoods grantees in order to leverage JAG funding for violent crime reduction projects, including the DOJ Operation Take Back America to eliminate cartels and transnational criminal organizations, and to coordinate their law enforcement activities with those of federal law enforcement agencies such as the Federal Bureau of Investigation (FBI); the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF); the Drug Enforcement Administration; the United States Marshals Service; and the Department of Homeland Security. Further, state and local agencies may use JAG funds to protect the public, critical infrastructure, mass gathering events, and public facilities from threats posed by the careless or unlawful use of unmanned aircraft systems (UAS), as well as to interrupt drug cartels' use of UAS for smuggling and surveilling law enforcement, to include purchase of UAS (see BJA's UAS page for prior approval requirements before using JAG funds for UAS or counter-UAS) or equipment or services for the detection, tracking, or identification of drones and drone signals.

Immigration Enforcement: State and local agencies may use JAG funds to partner with federal law enforcement on immigration enforcement operations (e.g., information sharing, entering into and fully participating in a 287(g) partnership and/or a Homeland Security Task Force, honoring detainers, protecting critical infrastructures, and information/intelligence problems).

Safe Communities: State and local agencies may use JAG funds to support services to American citizens and American victims of crime to create safe communities. JAG funds can be used to collaborate with federal law enforcement and task forces to address endemic vagrancy and encampments that create safe havens for drugs, crime, and human trafficking. Additionally, state and local agencies may use JAG funds to focus on improving public order and quality of life through enforcement and prosecution of nuisance abatement and blight including, among other things, petty larceny and criminal damage to property, as well as utilization of maximally flexible civil commitment, institutional treatment, and step-down treatment standards to address untreated mental health and substance use disorders. JAG funds may also be used to support American victims of trafficking and sexual assault.

Safe Houses of Worship: State and local agencies may use JAG funds to respond to and deter threats to houses of worship and other religious institutions, including religious schools. Religious institutions have recently been targeted for acts of violence and desecration. These organizations typically lack sufficient security resources to respond to heightened threats. State and local law enforcement support to houses of worship, religious schools, and other religious institutions is an effective way to combat such threats.

Unallowable Activities: The following are certain unallowable costs and certain activities that are out of the program scope and will not be funded.

1. Out of program scope is any program or activity, at any tier that, directly or indirectly, violates (or promotes or facilitates the violation of) federal immigration law (including 8 U.S.C. § 1373) or impedes or hinders the enforcement of federal immigration law—including by failing to comply with 8 U.S.C. § 1373, give access to DHS agents, or honor DHS requests and provide requested notice to DHS agents.
2. Out of program scope is any program or activity, at any tier that violates any applicable Federal civil rights or nondiscrimination law. This includes violations that (1) indirectly violate the law, including by promoting or facilitating violations; or (2) unlawfully favor individuals in any race or protected group, including on a majority or minority, or privileged or unprivileged, basis, within a given area, population, or sector.
3. As specified in the DOJ Grants Financial Guide, in Chapter 3.13 “Unallowable Costs” (“Legal Services for Aliens”), any obligations of funds, at any tier, under this award to provide (or to support the provision of) legal services to any removable alien or any alien otherwise unlawfully present in the United States shall be unallowable costs for purposes any award made under this notice, but the foregoing shall not be understood to apply: (1) to legal services to obtain protection orders for victims of crime; or (2) to immigration-related legal services that may be expressly authorized or required by any law, or any judicial ruling, governing or applicable to the award.

Formula Allocations

The FY 2026 Local JAG Allocations are listed on the JAG Allocations website, with separate lists for each state. According to the JAG Program statute, a “disparity” may exist between the funding eligibility of a county and its associated municipalities. See 34 U.S.C. § 10156(d)(4). **Units of local government identified as disparate must select a fiscal agent that will submit an application for the total allocation that includes all disparate jurisdictions.** See the JAG FAQs for more information on the requirements for disparate groups.

The JAG statutory formula is fully described within the JAG Technical Report.

Other JAG Statutory Requirements

Certification and Assurances: The JAG statute, at 34 U.S.C. § 10153 (A)(1-5), details requirements related to governing body review and public comment of a JAG application, prohibition on supplanting, as well as other requirements for which JAG recipients must submit to BJA certification and assurances.

Prohibited Items: The JAG statute, at 34 U.S.C. § 10152, prohibits the use of JAG funds for certain items, and it prohibits the use of JAG funds for other items unless BJA grants a waiver. The JAG Prohibited Expenditures Guidance provides lists, details, definitions, and procedures for prohibited expenditures under the BJA JAG Program.

Administrative Costs: The JAG statute, at 34 U.S.C. § 10152, requires that not more than 10 percent of a JAG grant may be used for costs incurred to administer such grant.

Trust Fund: The JAG statute, at 34 U.S.C. § 10158, requires that a state or unit of local government that elects to draw down JAG funds in advance must establish a trust fund in which to deposit amounts. The trust fund must be in an interest-bearing account, unless one of the exceptions in 2 C.F.R. § 200.305(b)(11) apply.

Goals and Objectives of This Funding Opportunity

Goal: Improve the administration of the criminal justice system.

- **Objective 1:** Provide units of local government with additional personnel, equipment, supplies, contractual support, training, technical assistance, and information systems.
- **Objective 2:** Assist units of local government with their criminal justice needs.

For a description of how awards under this NOFO will contribute to achieving these goals and objectives, see the Performance Reports section below.

Expected Outcomes

OJP expects recipients to submit deliverables and performance reports, as described below. Read the Application Resource Guide for more information. OJP will measure success by reviewing a recipient's submission of performance reports and data and the extent to which project implementation reflects progress toward the goals and objectives of this NOFO.

Deliverables

Recipients do not need to submit any deliverables other than the standard items in the Post-Award Requirements and Administration section.

Performance Reports

OJP requires recipients to submit regular performance reports that communicate progress toward achieving Program Goals and Objectives. Read information on performance reporting.

Award recipients will receive further guidance on post award reporting requirements.

4. APPLICATION CONTENTS AND FORMAT

Application Contents List

The table below lists the contents for your application. Refer to the DOJ Grant Application Submission Checklist for application instructions.

Application Item	Submission Type
Step 1: Grants.gov	
Application for Federal Assistance: SF-424	Online Form
Step 2: JustGrants	
Standard Applicant Information	Online Form
Proposal Abstract	Text Box
Data Requested With Application • Financial Management and System of Internal Controls Questionnaire (including Applicant Disclosure of High-Risk Status) • JAG Survey	Online Form
Proposal Narrative	Attachment
Budget	Attachment
Other Budget/Financial Attachments • Indirect Cost Rate Agreement (if applicable) • Consultant Rate (if applicable)	Attachment
Additional Application Components • Certifications and Assurances by the Chief Executive of the Applicant Government • BWC Policy Certification (if applicable) • Body Armor Mandatory Wear Certification (if applicable) • Extreme Risk Protection Order (ERPO) Certification (if applicable) • Prohibited Expenditure Waiver Request (if applicable) • Unmanned Aircraft System (UAS) Certification (if applicable) • Counter-UAS Certification (if applicable)	Attachment

Standard Applicant Information

Review and edit as needed the information imported from the SF-424 submitted in Grants.gov. Add ZIP codes for areas affected by the project.

Proposal Abstract

In JustGrants, enter a proposal abstract (limited to 2,000 characters) summarizing the proposed project. As abstracts for funded projects are public, do not include any personally identifying information (e.g., staff names). Examples of brief Proposal Abstracts are included below.

JAG Abstract Examples

- The city of [insert] will use JAG funds for overtime for increased patrols to bolster the security of at-risk religious institutions, such as houses of worship and religious schools.
- The county of [insert] will use JAG funds to purchase police cruisers and officer personal protected equipment for increased law enforcement operations.

Disparate JAG Abstract Example

- The disparate jurisdictions of [insert] and [insert] will use JAG funds for technology improvements and law enforcement equipment. Specifically, the county of [insert] will use JAG funds to replace its records management system, and the city of [insert] will use JAG funds to purchase ruggedized laptops for officers.

Data Requested With Application

Financial Management and System of Internal Controls Questionnaire (including Applicant Disclosure of High-Risk Status)

Review information on this questionnaire.

JAG Survey

Applicants will be required to respond to JAG specific survey questions as part of the JustGrants application. Please refer to the steps below to help guide you through initiating, completing, modifying, and obtaining the status of the survey in the JustGrants system:

1. To initiate the survey, click on the survey title to open.
2. When you have completed the survey, click the “Finish” button in the lower right corner of the screen. The system will direct you to a review screen displaying your survey responses.
3. To go back to the main application screen, go to the “Actions” menu in the top right corner of the screen and select “Close” to exit the survey review screen.
4. The survey you just completed will still display an “Open” status. To confirm the completed status of your survey, go back to the “Actions” menu and select

"Refresh." The status of your completed survey will change to "Resolved—Completed."

5. To verify responses to a completed survey, click the survey title to reopen it and view your saved responses.
6. To change and/or update responses to a completed survey, click the "Reopen" option to update your saved responses.

Proposal Narrative

Format of the Proposal Narrative

Submit the narrative as an attachment in JustGrants.

Sections of the Proposal Narrative

The Proposal Narrative must include the three sections listed below.

1. Description of the Need: What critical issue or problem do you propose to address with this project? Please include:

- Identify the issues the unit(s) of local government intend(s) to address with JAG funds, to include gaps in the jurisdiction's needed resources for criminal justice purposes.

2. Project Design and Implementation: How will you implement project activities that meet the project goals and objectives? Please include the following:

- Describe how JAG funds will be coordinated with state and related justice funds.
- Provide description of the programs to be funded over the grant period, to include any subawards.

3. Capabilities and Competencies: What administrative and technical capacity and expertise do you bring to successfully complete this project? Please include:

- Describe the applicant's capacity to deliver the proposed project and meet the requirements of the award, including collecting and reporting the required performance measure data. Who will be responsible for this task, and how will the applicant collect the data? Refer to Program Description: Performance Reports for additional details on performance measures for this funding opportunity.

Project Evaluations: An applicant that proposes to use award funds to conduct project evaluations must follow the guidance on project evaluations.

Budget and Associated Documentation

Budget

Use the Budget Detail Separate Attachment (attach file in JustGrants) to submit the budget. Read information on budget preparation and JustGrants Application Submission Training.

- List each cost needed to implement the project under the appropriate cost category.

- Clearly name and describe each cost.
- Show the computation of each cost (e.g., cost per unit, number of units, and total cost).
- Enter narrative, as needed, to explain the cost calculations and connection to your project goals, objectives, and activities.
- Include only costs that are reasonable, allocable, and necessary to implement the project. They must be allowable under the funding statute and agency requirements.[1]

The following information specific to this funding opportunity will help you develop your project budget:

- In addition to the instructions above, Local JAG applicants must include in the budget worksheet the following:
- If using funds for administering the grant, provide clear designation for any cost line items that are JAG administrative costs within each budget category and project year. For example, in the line-item description or explained in the narrative section.
- For applications for disparate groups, the preference is for the applicant to include a single budget worksheet and narrative that lists each jurisdiction's proposed costs by category, labeled to distinguish the use between partner agencies. Alternatively, separate budget attachments for each partner of unit of local government are acceptable.
- Funding restrictions—JAG funds may not be used to supplant state or local funds but must be used to increase the amounts of such funds that would, in the absence of federal funds, be made available.

  Additional restrictions apply to certain costs or activities, to include but not limited to:

  - Administrative costs
  - Prohibited items per 34 U.S.C. § 10152, absent a waiver
  - UAS and C-UAS
  - Body Armor
  - Body Worn Cameras
  - ERPO activities
  - DNA Testing of Evidentiary Materials

Please refer to the JAG Frequently Asked Questions for more information.

Budget/Financial Attachments

- **Indirect Cost Rate Agreement (if applicable):** If the budget includes indirect costs calculated using a current, federally approved indirect cost rate, upload your indirect cost rate agreement. Read information about indirect costs.
- **Consultant Rate (if applicable):** Read information on limits to consultant rates and

[1] See 2 C.F.R. Part 200, Subpart E and the DOJ Grants Financial Guide. Read information on unallowable costs that apply to all funding opportunities.

whether you need to request approval to exceed those limits.

Additional Application Components

Attach these in JustGrants:

- **Certifications and Assurances by the Chief Executive of the Applicant Government:** Found at: https://bja.ojp.gov/program/jag/certifications-assurances. This certification contains assurances that the governing body notification and public comment requirements, which are required under the JAG statute (at 34 U.S.C. § 10153(a)(2).
- **Body-Worn Camera (BWC) Policy Certification (if applicable)**: Only required if the direct recipient will be using JAG funds for a BWC project.
- **Body Armor Mandatory Wear Certification (if applicable)**: Only required if the direct recipient will be using JAG funds for body armor.
- Extreme Risk Protection Order (ERPO) Certification (if applicable): Only required if JAG funds will be used for an ERPO program.
- **Prohibited Expenditure Waiver Request (if applicable)**: Only required if a JAG applicant would like to request a pre-award waiver to purchase a specific prohibited expenditure request.
- **Unmanned Aircraft System (UAS) Certification (if applicable)**: Only required if a JAG application will include costs for UAS in the budget.
- **Counter-UAS Certification (if applicable)**: Only required if a JAG application will include costs for C-UAS in the budget.

Refer to the JAG Frequently Asked Questions for more information on these attachments. If a required attachment is missing from an eligible JAG application, OJP will issue an award agreement, but funds may be withheld until it is provided.

Disclosures and Assurances

Read the disclosures and assurances and complete them in JustGrants:

- Disclosure of Lobbying Activities
- Disclosure of Duplication in Cost Items (if applicable)
- DOJ Certified Standard Assurances
- DOJ Certifications
- Applicant Disclosure and Justification—DOJ High-Risk Grantees (if applicable)

5. SUBMISSION REQUIREMENTS AND DEADLINES

The DOJ Grant Application Submission Checklist provides instructions for how to submit you application by the deadlines. Executive Order (E.O.) 12372 (Intergovernmental Review of Federal Programs) does apply to this funding opportunity: read the Application Resource Guide for details. Read OJP's policy for applicants to request late submission due to technical difficulties, severe weather, or natural or manmade disasters.

6. APPLICATION REVIEW INFORMATION

OJP will review applications to ensure the information presented is reasonable, understandable, measurable, achievable, and consistent with the goals of the funding opportunity. See the Application Resource Guide for information on the application review process for formula grants, including risk review, and the deciding official.

7. AWARD NOTICES

Read about the award notification process.

8. POST-AWARD REQUIREMENTS & ADMINISTRATION

Read the Application Resource Guide for more information about: standard award terms and conditions, administrative and national policy requirements, and post-award reporting requirements.

1. BROWNSVILLE DRAFT SWU Ordinance WT 10.6.2026
2. DRAFT Brownsville Public Notice revised for 10.6.2026

ORDINANCE NO. 2026-1824

AN ORDINANCE OF THE CITY OF BROWNSVILLE, TEXAS, AMENDING THE CODE OF ORDINANCES BY AMENDING CHAPTER 102 "UTILITIES," TO ADD ARTICLE XII "MUNICIPAL DRAINAGE UTILITY SYSTEM," DIVISION 1 "CREATION AND ADMINISTRATION" TO ESTABLISH A MUNICIPAL DRAINAGE UTILITY SYSTEM; PROVIDING FOR DRAINAGE SERVICE, BILLING, EXEMPTIONS, DRAINAGE CHARGES, AND APPEALS; PROVIDING A REPEALING CLAUSE; PROVIDING A SEVERABILITY CLAUSE, PROVIDING A SAVINGS CLAUSE; PROVIDING FOR A CRIMINAL PENALTY OF A FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00); AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City Commission (the "City Commission") of the City of Brownsville, Texas (the "City"), has investigated and determined that it would be advantageous and beneficial to the citizens of the City to promote the public health, safety, and welfare of the citizens to adopt a Municipal Drainage Utility System; and

WHEREAS, the City Commission further investigated and determined that it would be in the best interest of the citizens to adopt the Municipal Drainage Utility Systems Act as set forth in Chapter 552, Subchapter C, Texas Local Government Code, as amended ("Act"); and

WHEREAS, the City Commission hereby adopts the Act and incorporates it herein in its entirety for all purposes; and

WHEREAS, the City Commission further finds that the City will establish a schedule of drainage charges against all benefitted property in the proposed service area(s) which included the entire City subject to charges under this Ordinance; and

WHEREAS, the City Commission further finds that the City will provide drainage for all benefitted property in the proposed service area(s) on payment of drainage charges, except benefitted property exempted under the Act or pursuant to this Ordinance; and

WHEREAS, the City Commission further finds that the City will offer drainage service on nondiscriminatory, reasonable, and equitable terms; and

WHEREAS, in accordance with the Act, notices of a public hearing regarding this Ordinance were published, and a public hearing on this Ordinance was held concerning the matters set forth herein; and

WHEREAS, as set forth herein, the City Commission, in accordance with the procedures set forth in the Act, declares that the stormwater drainage infrastructure and services of the City are a public utility within the meaning of the Act.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, THAT:

SECTION 1. The above and foregoing recitals and premises to this ordinance are true and correct and are incorporated herein and made a part hereof for all purposes.

SECTION 2. Chapter 102 "UTILITIES" of the Code of Ordinances of the City of Brownsville, Texas, is amended by adding Article XII, "Municipal Drainage Utility System," to read entirely as follows:

ARTICLE XII. Municipal Drainage Utility System

Sec. 102-714. Municipal Drainage Utility System Established.

The Municipal Drainage Utility Systems Act, Chapter 552, Subchapter C, Texas Local Government Code, as amended (the "Act"), is hereby adopted and shall be fully implemented as provided by the Act and by the City Commission; and the drainage of the City is hereby found to be a public utility within the meaning of the Act.

Sec. 102-715. Definitions.

Except as otherwise defined below, the definitions in the Act shall apply.

"Impervious area" means surfaces that do not provide stormwater significant opportunity for infiltration into the soil and result in increased stormwater runoff to the municipal storm sewer system.

"Equivalent Residential Unit (ERU)" means the typical amount of impervious area for a residential property in Brownsville.

Sec. 102-716. Drainage Service Provided.

The City will provide stormwater drainage for all benefitted property within its boundaries upon payment of the determined drainage charges, as defined in the Act, and excluding property exempt under the Act and certain benefitted property exempted pursuant to this Article, and that the fees, assessments, and charges will be based on nondiscriminatory, reasonable and equitable terms. The drainage charges established herein shall be for all non-exempt benefitted property as defined in the Act within the City drainage system.

Sec. 102-717. Billing for Drainage Service.

The City, directly or through its designated billing and collection agent, is hereby authorized to bill the drainage charges incurred as a result of the adoption of the Act and through the establishment of the municipal drainage utility system. The drainage charge shall be separately identified from other public utility billings. Drainage charges may only be expended for the costs of service as defined by the Act.

Sec. 102-718. Authority to Levy Drainage Charges; Findings.

The City may levy a schedule of drainage charges upon satisfaction of the procedural requirements provided in the Act and this Article. Prior to the levy of any drainage charges, the City Commission shall conduct a public hearing on the drainage charges pursuant to the Act. Prior to adoption of this Article, the City Commission found and determined:

(1) Impervious cover increases storm-water runoff and associated pollutants and is directly related to drainage;

(2) The City will establish a schedule of drainage charges against all benefitted property in the proposed area, which includes the entire City, subject to the charges under the Act;

(3) The City will provide drainage for all benefitted property in the proposed service area on payment of the drainage charges, except for benefitted property exempt under the Act; and

(4) The City will offer drainage service on nondiscriminatory, reasonable, and equitable terms.

Sec. 102-719. Exemptions

The City is authorized to exempt certain property from drainage charges in accordance with the Act and the establishment of its municipal drainage utility system. Any exemptions to the drainage charges established herein other than the exemptions required by the Act shall be set forth in the drainage charge schedule.

Sec. 102-720. Charges.

(a) The City Commission shall, following the adoption of this Article, from time to time, establish by ordinance a drainage charge schedule for charges which shall be collected through a utility bill or other billing statement issued by the City or its designated billing and collection agent pursuant to the Act and other applicable law. There shall be a drainage charge on each applicable monthly public utility statement issued by the City or its designated billing and collection agent for the City drainage system, as set forth in the drainage charge schedule. The City Manager, or designee, is authorized to administer and cause the collection of such charges in a manner consistent with the City Charter, the Act and this Article. The drainage charges shall be a separate line item on the public utility

statement, and shall be clearly identified as a separate charge. Except, as otherwise provided herein, the billing, charges and collection procedures shall be consistent with the applicable collection procedures of the City or its designated billing and collection agent for public utility services.

(b) The drainage charges established pursuant to this Article will apply to the accounts maintained by the City or its designated billing and collection agent for public utility services.

(c) All billings, credits, exemptions and other procedures relating to drainage charges established pursuant to this Article shall be subject to the provisions of the Act and other applicable law.

(d) A deposit for the drainage services as a precondition to accepting surface flow from benefitted property into the City drainage utility system shall not be required. All benefitted property of the City will be provided with drainage utility system service on timely payment of drainage charges established herein.

Sec. 102-721. Drainage Utility Fund.

(a) A separate fund is hereby created, known as the Drainage Utility Fund, for the purpose of segregating, identifying, and controlling all revenues and expenses attributable to the Drainage Utility.

(b) The Drainage Utility Fund shall be administered in accordance with Section 552.049 (Segregation of Income) of the Texas Local Government Code.

Sec. 102-722. Appeals.

(a) Billing and payment disputes for administrative issues relating to the drainage charges shall be subject to appeals procedures used by the City or its designated billing and collection agent for other public utility billing disputes. A person or entity that owns or occupies a benefitted property may appeal the drainage charges established herein pursuant to this procedure set forth in this section.

(b) Appeals shall be directed to the City Engineer for evaluation and determination. An appeal shall be in writing and submitted to the City Engineer within thirty (30) days after the public utility billing statement containing the matter to be disputed. During all periods of appeal the person or entity that owns or occupies the benefitted property and/or the account holder shall be responsible for payment of the charges in full.

(c) The City Engineer shall render a written decision on such appeals within thirty (30) days after receiving a timely written notice of appeal from the person or entity that owns or occupies the benefitted property and/or the account holder. The City Engineer shall deliver a copy of the appeal decision to the person or entity that owns or occupies the benefitted property and/or the account holder by U.S. mail to the address of the

landowner/account holder according to the most recent records in the possession of the City or its designated billing and collection agent.

(d) Any person or entity who owns or occupies the benefitted property and/or the account holder who disagrees with the decision of the City Engineer may appeal such decision to the City Manager in writing within ten (10) days after receipt of the decision of the City Engineer. The decision of the City Manager shall render a written decision within thirty (30) days after receipt of a timely appeal. The decision of the City Manager shall be final.

Sec. 102-723. Penalties; Enforcement.

(a) Failure to pay the drainage charges promptly when due shall subject such user to discontinuance of any public utility services provided by or on behalf of the City, in accordance with the procedures adopted by the applicable utility provider, including the Brownsville Public Utilities Board, for discontinuance of public utility service, including water and/or wastewater service, and other applicable laws.

(b) Any person, firm, or corporation that violates any provision of this Ordinance shall be subject to the penalties provided in the City's Code of Ordinances, and upon conviction may be fined up to $2,000 for each offense involving public health, fire safety, or zoning, and up to $500 for all other violations; each day a violation continues constitutes a separate offense.

Sec. 102-724. No waiver of immunity.

This article does not imply that a Benefitted Property will be free from flooding or erosion, and does not create additional duties on the part of the City. This chapter does not waive the City's immunity under any law.

SECTION 3. All provisions of the ordinances of the City of Brownsville in conflict with the provisions of this Ordinance be, and the same are hereby, repealed, and all other provisions of the ordinances of the City of Brownsville not in conflict with the provisions of this Ordinance shall remain in full force and effect.

SECTION 4. Should any sentence, paragraph, subdivision, clause, phrase or section of this Ordinance be adjudged or held to be unconstitutional, illegal or invalid, the same shall not affect the validity of this Ordinance as a whole, or any part or provision thereof other than the part so decided to be invalid, illegal or unconstitutional, and shall not affect the validity of the Code of Ordinances as a whole.

SECTION 5. An offense committed before the effective date of this Ordinance is governed by prior law and the provisions of the Code of Ordinance, as amended, in effect when the offense was committed and the former law is continued in effect for this purpose.

SECTION 6. Any person, firm or corporation violating any of the provisions or terms of this Ordinance shall be subject to the same penalty as provided for in the Code of Ordinances of the City of Brownsville as heretofore amended and upon conviction shall be punished by a fine not to

exceed the sum of Two Thousand Dollars ($2,000.00) for each offense involving public health, fire safety, or zoning, and up to $500 for all other violations; each day a violation continues constitutes a separate offense.

SECTION 7. This ordinance shall take effect from and after its passage and the publication of the caption of said ordinance as the law and the City Charter in such cases provides.

INTRODUCED at a public hearing on October 6, 2026. Passed at Second and Final Reading and **ADOPTED**, **APPROVED**, **ENACTED** on October 7, 2026.

NOTICE OF PUBLIC HEARING
CITY OF BROWNSVILLE, TEXAS

The City Commission of the City of Brownsville, Texas, will hold a Public Hearing during a Regular Meeting on Tuesday, October 6, 2026, at 5:00 p.m. at Brownsville City Hall in the City Commission Chambers, 1001 East Elizabeth Street, Brownsville, Texas 78520, to hear public opinion regarding the adoption of an Ordinance to establish rates to be charged as a Drainage Charge. The second and final reading and approval of the Ordinance will occur on Wednesday, October 7, 2026, at 5:00 p.m. at Brownsville City Hall in the City Commission Chambers, 1001 East Elizabeth Street, Brownsville, Texas 78520.

This notice is being published in accordance with the public notice requirements set forth in Subchapter C of Chapter 552, Local Government Code, for public hearings. As required by the aforementioned statute, this public notice is being published in a newspaper of general circulation to the residents of the City of Brownsville thirty (30) days or more prior to the date of the public hearing and will be published for a total of three times before the scheduled hearing.

All written or oral objections to the proposed Drainage Charge will be considered at the public hearing. The Commission will vote on the proposed Ordinance immediately following the public hearing. State law provides that approval of the proposed Ordinance shall require an affirmative vote of a majority of the members of the City Commission.

The entire proposed Ordinance to establish a Municipal Storm Water Utility Fee in the City of Brownsville is provided herewith, in accordance with requirements set forth in Subchapter C, Chapter 552, Local Government Code. A copy of the proposed Ordinance is also available for public inspection at the office of the City Secretary, Brownsville City Plaza, 1034 E. Levee St., Brownsville, Texas 78520.

This Notice of Public Hearing is given, and the public hearing is being held pursuant to the requirements of Subchapter C of Chapter 552, Local Government Code.

ORDINANCE NO. 2026-1825

AN ORDINANCE OF THE CITY OF BROWNSVILLE, TEXAS, AMENDING CHAPTER 102 "UTILITIES" OF THE CODE OF ORDINANCES OF THE CITY OF BROWNSVILLE, TEXAS, BY AMENDING ARTICLE III "RATES AND CHARGES," BY ADDING DIVISION 5 "DRAINAGE UTILITY FEES"; ESTABLISHING A MUNICIPAL DRAINAGE UTILITY SYSTEM FEE; PROVIDING FOR EXEMPTIONS AND CREDITS; PROVIDING A REPEALING CLAUSE; PROVIDING A SEVERABILITY CLAUSE, PROVIDING A SAVINGS CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City Commission of the City of Brownsville, Texas has previously investigated and determined that it would be advantageous and beneficial to the citizens of the City of Brownsville, Texas to promote the public health, safety and welfare of the citizens to adopt a Municipal Drainage Utility System; and

WHEREAS, the City Commission has created a Municipal Drainage Utility System as authorized by Chapter 552, Subchapter C, Texas Local Government Code, as amended, ("the Act") pursuant to Ordinance No. 2026-1824, which is to be codified as Chapter 102 "Utilities," Article XII "Municipal Drainage Utility System," Division 1 "Creation and Administration," Section 102-714 through 102-722 of the Code of Ordinances; and

WHEREAS, pursuant the Act, the City Commission has investigated and determined that a schedule of drainage fees shall be applied against all real property in the proposed service area(s); and

WHEREAS, the City Commission further finds that it would be in the best interest of its citizens to amend the Code of Ordinances to adopt the drainage utility system charges to be collected in support of operation of the City's drainage utility system:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, THAT:

SECTION 1. The above and foregoing recitals and premises to this ordinance are true and correct and are incorporated herein and made a part hereof for all purposes.

SECTION 2. Chapter 102 "Utilities," Article III "Rates and Charges," of the Code of Ordinances of the City of Brownsville, Texas, is hereby amended by adding Division 5 "Drainage Utility Fees" to read as follows:

Division 5. Drainage Utility Fees

The drainage utility fee schedule for the municipal drainage utility system shall be as set forth in Sections 102-222 through 102-224.

Sec. 102-222. Establishment of Drainage Utility Fee.

The drainage utility fee set forth in Sections 102-222 through 102-224 is adopted pursuant to Section 102-720 and shall be collected through a utility bill or other billing statement issued by the City or its designated billing and collection agent pursuant to the Act, Chapter 102, Article XII of this Code, and other applicable law.

Sec. 102-223. Impervious Area; Fee Assessed.

(a) Drainage utility fees shall be charged based on a property's contribution to the public drainage utility system. The contribution shall be based on the impervious area for the property.

(b) The drainage utility fee, payable monthly, shall be established with respect to all property according to the following schedule:

Property Type	Monthly Drainage Utility Fee
Residential Tier 1(0-1500 Square Feet of Impervious Area)	$3.00*
Residential Tier 2 (1500+ Square Feet of Impervious Area)	$6.25*
All Other Non-Exempt Property	$6.25 per whole ERU**

*Residential Property includes single-family, duplex, triplex, and quadplex property. Multifamily property containing five or more dwelling units shall be included within All Other Non-Exempt Property.

**ERU (Equivalent Residential Unit) = 3,600 square feet impervious area

(c) A minimum charge of one (1) ERU shall be applied to each non-exempt non- residential property, except for undeveloped property, regardless of classification.

Sec. 102-224. Exemptions.

(a) **State Mandated Exemptions:** The following property shall not be assessed a drainage utility fee, as required by section 552.053, subchapter C of Texas Local Government Code, and section 580.003 of Texas Local Government Code:

(1) Property held and maintained in its natural state, until such time that the property is developed and all of the public infrastructure constructed has been accepted by the City in which the property is located for maintenance;

(2) A subdivided lot, until a structure has been built on the lot and a Certificate of Occupancy has been issued by the City;

(3) Property with proper construction and maintenance of a wholly sufficient and privately owned drainage system;

(4) State property; and

(5) Public or private institutions of higher education property.

(b) **Additional Exemptions:** As permitted by Section 552.053, Subchapter C of Texas Local Government Code, and Section 580.003 of the Texas Local Government Code: the City has determined the following property shall receive an exemption:

(1) N/A

SECTION 3. All provisions of the ordinances of the City of Brownsville in conflict with the provisions of this Ordinance be, and the same are hereby, repealed, and all other provisions of the ordinances of the City of Brownsville not in conflict with the provisions of this Ordinance shall remain in full force and effect.

SECTION 4. Should any sentence, paragraph, subdivision, clause, phrase or section of this Ordinance be adjudged or held to be unconstitutional, illegal or invalid, the same shall not affect the validity of this Ordinance as a whole, or any part or provision thereof other than the part so decided to be invalid, illegal or unconstitutional, and shall not affect the validity of the Code of Ordinances as a whole.

SECTION 5. This ordinance shall become effective October 1, 2026, after its passage and the publication of the caption of said ordinance as the law and the City Charter in such cases provides.

INTRODUCED at a public hearing on October 6, 2026. Passed at Second and Final Reading and **ADOPTED**, **APPROVED**, **ENACTED** on October 7, 2026.

NOTICE OF PUBLIC HEARING
CITY OF BROWNSVILLE, TEXAS

The City Commission of the City of Brownsville, Texas, will hold a Public Hearing during a Regular Meeting on Tuesday, October 6, 2026, at 5:00 p.m. at Brownsville City Hall in the City Commission Chambers, 1001 East Elizabeth Street, Brownsville, Texas 78520, to hear public opinion regarding the adoption of an Ordinance to establish rates to be charged as a Drainage Charge. The second and final reading and approval of the Ordinance will occur on Wednesday, October 7, 2026, at 5:00 p.m. at Brownsville City Hall in the City Commission Chambers, 1001 East Elizabeth Street, Brownsville, Texas 78520.

This notice is being published in accordance with the public notice requirements set forth in Subchapter C of Chapter 552, Local Government Code, for public hearings. As required by the aforementioned statute, this public notice is being published in a newspaper of general circulation to the residents of the City of Brownsville thirty (30) days or more prior to the date of the public hearing and will be published for a total of three times before the scheduled hearing.

All written or oral objections to the proposed Drainage Charge will be considered at the public hearing. The Commission will vote on the proposed Ordinance immediately following the public hearing. State law provides that approval of the proposed Ordinance shall require an affirmative vote of a majority of the members of the City Commission.

The entire proposed Ordinance to establish a Municipal Storm Water Utility Fee in the City of Brownsville is provided herewith, in accordance with requirements set forth in Subchapter C, Chapter 552, Local Government Code. A copy of the proposed Ordinance is also available for public inspection at the office of the City Secretary, Brownsville City Plaza, 1034 E. Levee St., Brownsville, Texas 78520.

This Notice of Public Hearing is given, and the public hearing is being held pursuant to the requirements of Subchapter C of Chapter 552, Local Government Code.

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Carlos Lastra, City Engineer
Date:	Tuesday, October 6, 2026
Agenda #:	Public Hearing and **ACTION** on **FIRST READING** on **Ordinance Number 2026-1827** to amend Chapter 98 "Traffic and Vehicles", Article IV, "Speed Restrictions" Establishing Speed Limits at FM 1419 in the City of Brownsville and Dealing with Related Matters. (Engineering and Public Works Department)

Summary:
The City of Brownsville, in coordination with the Texas Department of Transportation (TxDOT), is implementing a speed limit reduction on FM 1419. The change will lower the posted speed limit from 55 to 50 miles per hour within the designated project limits.

This adjustment is based on a speed study conducted for the first time in July 2020, and a second study performed in August 2024. It aims to improve safety for all road users. The Pharr District from the Texas Department of Transportation will be responsible for fabricating and erecting the new regulatory signage.

Project Scope and Analysis:
The current posted speed of 55 MPH was evaluated by TxDOT in 2024. Upon review, TxDOT determined that reducing the speed limit to 50 MPH is warranted based on safety concerns, roadway characteristics, and surrounding development. The reduced speed is expected to enhance driver reaction time, promote safer interactions at intersections, and provide a more appropriate speed environment for this corridor. Since FM 1419 (Southmost Road) is a state-maintained roadway, TxDOT will install the updated speed limit signs in accordance with state standards and the Texas Manual on Uniform Traffic Control Devices (TMUTCD).

Existing Speed Limit Zones

1. 40 MPH - From Esperanza Rd./ Morningside Rd. to 311 FT North of Isbell Dr., speed will remain the same.

2. 55 MPH - From 42 FT South of SH 4 to SH 4 (Boca Chica Blvd.)

Proposed Speed Limit Zones

1. 40 MPH - From Esperanza Rd./ Morningside Rd. to 311 FT North of Isbell Dr., speed will remain the same.

2. 50 MPH - From 42 FT South of SH 4 to SH 4 (Boca Chica Blvd.).

Existing School Zone

1. 25 MPH - From 333 FT North of Palma Tejana Dr. to 21 FT North of Minnesota Ave., 40 MPH all other times, speed will remain the same.

Proposed School Zone

1.- 25 MPH - From 333 FT North of Palma Tejana Dr. to 21 FT North of Minnesota Ave., 40 MPH all other times, speed will remain the same

FM 1419 Speed Zone Survey

Dear Mr. Guard:

We conducted a speed zone survey along FM 1419 between Esperanza Rd. / Morningside Rd. and SH 4 (Boca Chica Boulevard). The current and proposed speed limit zones on FM 1419 are included on the following page. I am attaching a copy of our updated strip map with data that supports this change in speed limits. Also attached is a breakdown map showing existing and proposed speed limit zones.

We ask the City of Brownsville to pass an ordinance in support of these speed limit changes. We have attached a sample city ordinance for your use as well. Once we receive the ordinance, we will replace the existing speed limit signs with the new signs.

Please feel free to reach out with any questions you may have on this issue. I can be reached at (956) 702-6145 or via email at Gabriel.Garcia@txdot.gov.

Sincerely,

Signed by:

ORDINANCE NO. 2026-1827

AN ORDINANCE OF THE CITY COMMISSION OF THE CITY OF BROWNSVILLE, TEXAS, AMENDING CHAPTER 98 "TRAFFIC AND VEHICLES", ARTICLE IV, "SPEED RESTRICTIONS", ESTABLISHING SPEED LIMITS AT FM 1419; ESTABLISHING PRIMA FACIE MAXIMUM SPEED LIMITS IN SUCH ZONES; PROVIDING FOR PENALTIES; PROVIDING FOR AN EFFECTIVE DATE; AND FINDING AND DETERMINING THAT THE MEETING AT WHICH THIS ORDINANCE IS PASSED IS OPENED TO THE PUBLIC AS REQUIRED BY LAW.

WHEREAS, Section 545.336 of the Texas Transportation Code states that the governing body of a municipality has the authority to alter speed limits upon the basis of an engineering and traffic investigation that any prima facie speed therein set forth is greater or less than reasonable or prudent under the conditions found to exist at any part of a street or highway in the municipality; and

WHEREAS, it has been determined by investigation that there is a need to alter speed zones to provide reasonable and safe prima facie speed limits; and

WHEREAS, the City Council of the City of Brownsville, Texas, finds it necessary for speed zones on section FM 1419 and the reasonable and safe prima facie maximum speed of motor vehicles in said speed zones, should be set forth below.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY OF BROWNSVILLE, TEXAS, ACTING BY AND THROUGH ITS CITY COUNCIL

Section 1: The City Council of the City of Brownsville hereby establishes a speed zone on the sections as follows:

Existing Speed Limit Zones

1. 40 MPH - From Esperanza Rd./ Morningside Rd. to 311 FT North of Isbell Dr., speed will remain the same.
2. 55 MPH - From 42 FT South of SH 4 to SH 4 (Boca Chica Blvd.)

Proposed Speed Limit Zones

1. 40 MPH - From Esperanza Rd./ Morningside Rd. to 311 FT North of Isbell Dr., speed will remain the same.
2. 50 MPH - From 42 FT South of SH 4 to SH 4 (Boca Chica Blvd.).

Existing School Zone

1. 25 MPH - From 333 FT North of Palma Tejana Dr. to 21 FT North of Minnesota Ave., 40 MPH all other times, speed will remain the same.

Proposed School Zone

1.- 25 MPH - From 333 FT North of Palma Tejana Dr. to 21 FT North of Minnesota Ave., 40 MPH all other times, speed will remain the same

Section 2. Any person violating any provision of this ordinance shall, upon conviction, be fined in any sum not exceeding the $500.00

Section 3. All Ordinances or parts of ordinances in conflict with the provisions of this ordinance are, to the extent of such conflict, hereby repealed.

Section 4. It is hereby officially found and determined that the meeting at which this ordinance is passed open to the public as required and that the public notice of said meeting was given as required by law.

Section 5 . This ordinance shall become effective on October 6, 2026, after its passage and the publication of the caption of said ordinance as the law and the City Charter in such cases provides.

INTRODUCED at a public hearing on October 20, 2026. Pass at Second and Final Reading and **ADOPTED, APPROVED, ENACTEED** on October 21, 2026.

ATTEST: **APPROVED:**

APPROVED AS TO FORM:

_____,

City Attorney

To:	Mayor and City Commission
Through:	Alan Guard, Interim City Manager
From:	Maribel Guerrero, Director Engineer and Public Works
Date:	Tuesday, October 6, 2026
Agenda #:	Consideration and **ACTION** to Authorize a Contract with 4X Construction Group, LLC for the construction of Landfill Cell #6 and other site improvements, for an amount not to exceed $3,733,577.47 for Contract No. 296-26-EPW-IFB, for a term of 150 consecutive calendar days, as budgeted. (Engineering and Public Works Department)

Summary:
Consideration and ACTION to award a contract for Landfill Cell #6 Construction and Associated Improvements with 4X Construction Group, LLC, for Project 296-26-EPW-IFB, in the amount of $3,733,577.47. The contract is for the construction of Disposal Cell #6 at the landfill and is for 150 consecutive calendar days, starting after the contractor receives a Notice to Proceed.

Project Scope and Analysis:
The contract with 4X Construction will provide for the preparation and development of Cell #6 for the active disposal of municipal waste materials at the landfill. The project consists of landfill infrastructure improvements, including excavation, structural fill placement, compacted cohesive soil barrier layer placement, underdrain and leachate collection system installation, protective soil layer placement, manhole, concrete headwall, and forcemain construction, and other associated site improvements at the City of Brownsville Landfill.

Funding:

PROCUREMENT ANALYSIS

Date: Monday, August 10, 2026
To: Mr. John Cowen Jr., City Mayor
From: Mr. Alan Guard, Interim City Manager
CC: Mr. Damian Espinoza, Procurement Director
Ms. Maribel Guerrero, Engineering and Public Works Director

Agenda Title:
Agenda Item for the City Commission meeting of Tuesday, September 1, 2026.
"Consideration and Action to Authorize a Contract with 4X Construction Group, LLC in the amount of $3,733,577.47 for Contract No. 296-26-EPW-IFB, for a term of 150 consecutive calendar days. [EPW Department]."

Executive Summary:

- Department: Engineering and Public Works Department
- Procurement Method: IFB
- Submittals Received: 4
- Contract Number: 296-26-EPW-IFB
- Vendor: 4X Construction Group, LLC.
- Contract Amount: 3,733,577.47
- Term: 150 Consecutive Calendar Days

Background: The Engineering and Public Works Department requested competitive bids for the City of Brownsville Landfill Cell 6 and Associated Site Improvements Construction. The project consists of landfill infrastructure improvements, including excavation, structural fill placement, compacted cohesive soil barrier layer placement, underdrain and leachate collection system installation, protective soil layer placement, manhole, concrete headwall and forcemain construction, and other associated site improvements at the City of Brownsville Landfill.

Procurement Process:
The Procurement Department issued an IFB in compliance with the Texas Local Government Code. The solicitation was advertised in the local newspaper and posted on the City's electronic bidding platform. 4 bids were received.

This procurement is governed by the following statute:

- **IFB (Competitive Sealed Bidding): Texas Local Government Code Chapter 252, Subchapter C – Competitive Sealed Bidding (§252.041).**

Results: A total of 4 bids were received. After review, 4X Construction Group, LLC submitted the lowest responsive and responsible bid at $3,733,577.47 The bid tabulation is provided as Exhibit A.

Vendor Information:
Vendor Name: 4X Construction Group, LLC
Vendor Address: 99 Regency Parkway, Suite 303 Mansfield, TX 76063
Point of Contact: Jeff Parrish, Managing Member
Phone/Email: 817-779-3290 / jeff.parrish@4xconstruction.com

Exhibits & Supporting Documents:

- Exhibit A – Official Bid Tab (lowest responsive/responsible bidder).
- Exhibit B- Texas Ethics Commission Certificate of Interested Parties (Form 1295)

Recommendation:
The Procurement Department recommends that the City Commission authorize a contract with 4X Construction Group, LLC under IFB, in a total amount not to exceed $ 3,733,577.47, for 150 consecutive calendar days.

Approval of this agenda item will authorize the full contract value, including the renewal option. The City Manager will be authorized to execute renewal(s) if exercised.

CONTRACT FOR:
Landfill Cell #6 Construction & Associated Improvements
296-26-EPW-IFB

A. **AGREEMENT**

This Agreement is made by and between:

the Owner ("Owner" or "City"):	The City of Brownsville 1001 E. Elizabeth St., P.O. Box 911 Brownsville, Texas 78520
and the Contractor ("Contractor"):	4X Construction Group, LLC 99 Regency Parkway, Suite 303 Mansfield, TX 76063
for the following Project ("Project"):	IFB #: 296-26-EPW-IFB City of Brownsville Landfill 9000 Ruben M Torres Brownsville, TX 78521

Each individually referred to as a "Party" and collectively referred to as the "Parties". Owner and Contractor, in consideration of the covenants contained herein, and for the mutual benefits to be obtained hereby, the parties hereto agree as follows:

B. **CONTRACT DOCUMENTS**

The Contractor shall complete the Work described in the Contract Documents for the project. The Contract Documents consist of the following Exhibits:

A. This Agreement;
B. Notice of Award;
C. Proof of Invitation for Bid (IFB) 296-26-EPW-IFB
D. Addenda, as indicated in the IFB;
E. Original Bid submittal;
F. Bid Tabulation;
G. Plans and Specifications;
H. General Conditions;
I. Special Conditions;
J. Certificates of Insurance;
K. Payment Bond; (Added After City Commission Approval)
L. Performance Bond; (Added After City Commission Approval)
M. Written Change Orders issued after execution of this Agreement,

which are attached hereto and incorporated herein, and made a part of this Agreement for all purposes. The Contract Documents represent the entire and integrated agreement

between the Owner and the Contractor and supersede all prior negotiations, representations, or agreements, either oral or written. This Agreement may be amended only by written instrument signed by both the Owner and the Contractor. In the event of an inconsistency or conflict in any of the provisions of the Contract Documents, then the inconsistency or conflict shall be resolved by giving precedence first to this Agreement then to the Contract Documents in the order in which they are listed above.

C. **WORK**

Contractor shall complete all Work as specified or indicated in the Contract Documents for the Project identified herein.

D. **PROJECT**

The Project is the total construction for which the Work performed under the Contract Documents may be the whole or a part and which may include construction by the Owner and by Separate Contractors, and is generally defined as IFB #: 296-26-EPW-IFB.

E. **CONTRACT PRICE; PAYMENT TERMS**

Owner agrees to pay Contractor for performance of the Work in accordance with the Contract Documents the guaranteed maximum price of **Three Million Seven Hundred Thirty-Three Thousand Five Hundred Seventy-Seven Dollars and Forty-Seven Cents ($3,733,577.47)** (hereinafter "Guaranteed Maximum Price" or "GMP"). Guaranteed Maximum Price includes all costs incurred by Contractor, including but not limited to Costs of Work (including among others, labor, equipment, materials, fees, inspections, and permits), construction contingency amount, and Contractor's overhead, all bond financing, profit, price escalation and market price variations. Nothing contained in this Agreement shall require the Owner to pay Contractor an aggregate amount that exceeds the Guaranteed Maximum Price or to make any payment if, in the Owner's belief, the cost to complete the Work would exceed the Guaranteed Maximum Price. Change orders may be approved in writing by Owner for increased costs needed for refinement, development and completion of the Project. However, the maximum allowable amount of change orders payable to the Project shall not exceed twenty-five percent (25%) of the Guaranteed Maximum Price for the Project.

The Owner shall pay within ***thirty (30) days*** for completed work in monthly draws, less 10% retainage, upon receipt of an acceptable invoice. Invoices shall be in standard form, Application and Certificate for Payment, and shall be accompanied by signed Conditional Release of Liens forms from each applicable subcontractor and supplier.

Retainage shall be paid within in thirty (30) days of receipt of an acceptable Final Invoice. The final Application for Payment shall be accompanied by signed Final Release and Waiver of Liens forms from all subcontractors and suppliers.

F. **CONTRACT TIME**

The Contract Time will commence to run on the day indicated in the Notice to Proceed. A Notice to Proceed may be given at any time within 14 days after the Effective Date of the Agreement, and shall substantially complete the Work within 150 consecutive calendar days as identified in the Bid package.

G. **LIQUIDATED DAMAGES**

Contractor recognizes that time is of the essence for completion of the Work, and to achieve Final Acceptance of the Work, and City will suffer financial loss if the Work is not completed within the time(s) specified herein. The Contractor also recognizes the delays, expense and difficulties involved in proving in a legal proceeding, the actual loss suffered by the City if the Work is not completed on time. Accordingly, instead of requiring any such proof, Contractor agrees that as liquidated damages for delay (but not as a penalty), Contractor shall pay City **One Thousand Dollars ($1000.00)** for each day that expires after the time specified in Paragraph F above, for Final Acceptance until the City issues the Final Letter of Acceptance.

H. **INSPECTION AND FINAL ACCEPTANCE**

The City's inspection and acceptance of contractual compliance will be accomplished by an engineering Inspector of the engineering Department. The City reserves the right to reject unsatisfactory work within a 24-hour period. Contractors have 48 hours to correct unacceptable work. (To be corrected during regular working days, holidays or weekends.)

Prior to beginning work, the Contractor shall provide to the City a Schedule of Values related to the Work, which shall be used for purposes of periodic payments.

The Contract Sum shall include all materials, supplies, tools, equipment, permits, perimeter fencing, portable restrooms, construction debris container(s), supervision and labor necessary for the proper prosecution and completion of the Work.

The Contractor warrants that the completed Project shall be adequate for the purposes intended.

I. **INDEMNIFICATION**

(a) CONTRACTOR COVENANTS AND AGREES TO FULLY INDEMNIFY, DEFEND AND HOLD HARMLESS, THE CITY AND THE ELECTED OFFICIALS, EMPLOYEES, OFFICERS, DIRECTORS, VOLUNTEERS AND REPRESENTATIVES OF THE CITY, INDIVIDUALLY AND COLLECTIVELY, FROM AND AGAINST ANY AND ALL COSTS, CLAIMS, LIENS, DAMAGES, LOSSES, EXPENSES, FEES, FINES, PENALTIES, PROCEEDINGS, ACTIONS, DEMANDS, CAUSES OF ACTION, LIABILITY AND SUITS OF ANY KIND AND NATURE, INCLUDING BUT NOT LIMITED TO, PERSONAL OR BODILY INJURY, DEATH AND PROPERTY DAMAGE, MADE UPON THE CITY DIRECTLY OR INDIRECTLY ARISING OUT OF, RESULTING FROM OR RELATED TO CONTRACTOR'S ACTIVITIES UNDER THIS AGREEMENT,

INCLUDING ANY ACTS OR OMISSIONS OF CONTRACTOR, ANY AGENT, OFFICER, DIRECTOR, REPRESENTATIVE, EMPLOYEE, CONSULTANT OR SUBCONTRACTOR OF CONTRACTOR, AND THEIR RESPECTIVE OFFICERS, AGENTS EMPLOYEES, DIRECTORS AND REPRESENTATIVES WHILE IN THE EXERCISE OF THE RIGHTS OR PERFORMANCE OF THE DUTIES UNDER THIS AGREEMENT. THIS INDEMNIFICATION PROVISION IS SPECIFICALLY INTENDED TO OPERATE AND BE EFFECTIVE EVEN IF IT IS ALLEGED OR PROVEN THAT ALL OR SOME OF THE DAMAGES BEING SOUGHT WERE CAUSED, IN WHOLE OR IN PART, BY ANY ACT, OMISSION OR NEGLIGENCE OF THE CITY. THIS INDEMNITY PROVISION IS INTENDED TO INCLUDE, WITHOUT LIMITATION, INDEMNITY FOR COSTS, EXPENSES AND LEGAL FEES INCURRED BY THE CITY IN DEFENDING AGAINST SUCH CLAIMS AND CAUSES OF ACTIONS. IN THE EVENT CONTRACTOR AND CITY ARE FOUND JOINTLY LIABLE BY A COURT OF COMPETENT JURISDICTION, LIABILITY SHALL BE APPORTIONED COMPARATIVELY IN ACCORDANCE WITH THE LAWS FOR THE STATE OF TEXAS, WITHOUT, HOWEVER, WAIVING ANY GOVERNMENTAL IMMUNITY AVAILABLE TO THE CITY UNDER TEXAS LAW AND WITHOUT WAIVING ANY DEFENSES OF THE PARTIES UNDER TEXAS LAW.

(b) THE PROVISIONS OF THIS INDEMNITY ARE SOLELY FOR THE BENEFIT OF THE PARTIES HERETO AND NOT INTENDED TO CREATE OR GRANT ANY RIGHTS, CONTRACTUAL OR OTHERWISE, TO ANY OTHER PERSON OR ENTITY. CONTRACTOR SHALL ADVISE THE CITY IN WRITING WITHIN 24 HOURS OF ANY CLAIM OR DEMAND AGAINST THE CITY OR CONTRACTOR KNOWN TO CONTRACTOR RELATED TO OR ARISING OUT OF CONTRACTOR'S ACTIVITIES UNDER THIS AGREEMENT, AND SHALL SEE TO THE INVESTIGATION AND DEFENSE OF SUCH CLAIM OR DEMAND AT CONTRACTOR'S COST. THE CITY SHALL HAVE THE RIGHT, AT ITS OPTION AND AT ITS OWN EXPENSE, TO PARTICIPATE IN SUCH DEFENSE WITHOUT RELIEVING CONTRACTOR OF ANY OF ITS OBLIGATIONS UNDER THIS PARAGRAPH.

(c) This Indemnification provision shall survive termination or expiration of the Agreement.

J. **INDEPENDENT CONTRACTOR; PERSONNEL**

(a) Contractor enters into this Agreement as, and shall continue to be, an independent contractor. All Services shall be performed only by Contractor and Contractor's employees. Specifically, Contractor must perform within its own organization, work equivalent to at least thirty-five (35) percent of the Contract Price, unless otherwise approved by the City. Subject to and in accordance with the conditions and provisions of this Agreement, Contractor shall have the exclusive right to control the details of its operations and activities and be solely responsible for the acts and omissions of its officers, agents, servants, employees, consultants and subcontractors. Under no circumstances shall

Contractor, or any of Contractor's employees, look to City as his/her employer, or as a partner, agent or principal. Neither Contractor, nor any of Contractor's employees, shall be entitled to any benefits accorded to City's employees, including without limitation worker's compensation, disability insurance, vacation or sick pay. Contractor shall be responsible for providing, at Contractor's expense, and in Contractor's name, unemployment, disability, worker's compensation and other insurance, as well as any and all licenses and permits usual or necessary for conducting the Services. Contractor shall be responsible for paying all applicable local, state and federal taxes.

(b) Contractor represents and warrants to City that its employees performing Work hereunder will have sufficient expertise, training, licensure (if applicable) and experience to accomplish the Work for the Project.

(c) Contractor shall not subcontract any portion of the work required by this Agreement, except as provided in the Contract Documents. City may terminate this Agreement, effective immediately, if there is any assignment, or attempted assignment, transfer, or encumbrance, by Contractor of this Agreement or any right or interest herein without City's written consent. In the event Contractor engages any subcontractor in the performance of this Agreement, Contractor shall ensure that all of Contractor's subcontractors perform in accordance with the terms and conditions of this Agreement. Contractor shall be fully responsible for all of Contractor's subcontractors' performance, and liable for any of Contractor's subcontractors' non-performance and all of Contractor's subcontractors' acts and omissions.

K. **INSURANCE**

(a) The Contractor shall furnish proof of insurance requirements as indicated below. The coverage is to remain in force at all times during the contract period. The following minimum insurance coverage is required. The commercial general liability insurance policy shall name the City of Brownsville, Texas, as an "additional insured." This MUST be written in the description section of the insurance certificate, even if there is a check-off box on the insurance certificate. Any costs for adding the City as "additional insured" shall be at the Contractor's expense.

(b) The City of Brownsville shall be given notice ten (10) days prior to cancellation or modification of any required insurance. The insurance provided shall be endorsed or amended to comply with this notice requirement. In the event that the insurer is unable to accommodate, it shall be the responsibility of the Contractor to provide the proper notice. Such notification will be in writing by registered mail, return receipt requested and addressed to the Purchasing & Contract Services Department located at City Hall, 1001 E. Elizabeth St. 1st Floor Suite 101.

(c) The Contractor's insurance must be provided by an A.M. Best's "A-"rated or better insurance company authorized to issue insurance policies in the State of Texas, subject to approval by the City of Brownsville Department of Safety and Risk Management. Any exclusions or provisions in the insurance maintained by the Contractor that excludes coverage for work contemplated in this solicitation shall be deemed unacceptable, and shall be considered breach of contract.

i. Workers' Compensation and Employers' Liability Insurance

Contractor shall purchase and maintain such insurance coverage with limits consistent with statutory benefits outlined in the Texas Workers' Compensation Act (Texas Labor Code, Ch. 406, as amended), and minimum limits for Employers' Liability as is appropriate for the Work being performed and as will provide protection from claims set forth below which may arise out of or result from Contractor's performance of the Work and Contractor's other obligations under the Contract Documents, whether it is to be performed by Contractor, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to perform any of the Work, or by anyone for whose acts any of them may be liable:

1. claims under workers' compensation, disability benefits, and other similar employee benefit acts;

2. claims for damages because of bodily injury, occupational sickness or disease, or death of I Contractor' s employees. Any firm performing work for or on behalf of the City of Brownsville must provide Workers' Compensation insurance.

ii. General Liability Insurance

Covering premises-operations, products-completed operations, independent contractors and contractual liability.

Limits: Combined single limit bodily injury/property damage $1,000,000.

This coverage must include, but not limited to:

1. Coverage for the liability assumed by the Contractor under the indemnity provision of the contract.
2. Coverage for Premises/Operations
3. Products/Completed Operations
4. Broad Form Contractual Liability
5. Independent Contractors

iii. Commercial Automobile Liability Insurance

Covering all owned, hired and non-owned automobile equipment.

Limits:	Bodily injury	$250,000 each person, $500,000 each occurrence
	Property damage	$100,000 each occurrence

This insurance shall be kept in force until the work under this Agreement has been completed and accepted by the City. The City shall be listed as Additional Insured under the policy.

L. **TERMINATION**

(a) *Termination for Cause.* The aggrieved party may terminate this Agreement for cause if the party in breach has not corrected the breach within ten (10) days after written notice from the aggrieved party identifying the breach. The City Manager may also terminate this Agreement upon such notice as the City Manager deems appropriate under the

circumstances in the event the City Manager determines that termination is necessary to protect the public health or safety. The parties agree that if the City erroneously, improperly or unjustifiably terminates for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

This Agreement may be terminated for cause for reasons including, but not limited to, Contractor's repeated (whether negligent or intentional) submission for payment of false or incorrect bills or invoices, failure to perform the Work to the City's satisfaction; or failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement.

(b) *Termination for Convenience.* The City reserves the right, in its best interest as determined by the City, to cancel this Agreement for convenience by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. In the event this Agreement is terminated for convenience, Contractor shall be paid for any services performed to the City's satisfaction pursuant to the Agreement through the termination date specified in the written notice of termination. Contractor acknowledges and agrees that he/she/it has received good, valuable and sufficient consideration from City, the receipt and adequacy of which are hereby acknowledged by Contractor, for City's right to terminate this Agreement for convenience.

(c) *Cancellation for Non-appropriated Funds.* The City reserves the right, in its best interest as determined by the City, to cancel this Agreement for non-appropriated funds or unavailability of funds by giving written notice to the Contractor at least thirty (30) days prior to the effective date of such cancellation. The obligation of the City for payment to a Contractor is limited to the availability of funds appropriated in a current fiscal period, and continuation of the contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise provided by law.

(d) *Force Majeure.* The City and Contractor will be excused from the performance of their respective obligations under this Agreement when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, civil commotion, malicious damage, act or omission of any governmental authority, delay or failure or shortage of any type of transportation, equipment, or service from a public utility needed for their performance, provided that:

i. The non performing party gives the other party prompt written notice describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;

ii. The excuse of performance is of no greater scope and of no longer duration than is reasonably necessary when considered in light of the Force Majeure;

iii. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure; and

iv. The non-performing party uses its best efforts to remedy its inability to perform.

v. Notwithstanding the above, performance shall not be excused under this Section for a period in excess of sixty (60) days, provided that in extenuating circumstances, the City may excuse performance for a longer term. Economic hardship of the Contractor will not constitute Force Majeure. The term of the agreement shall be extended by a period equal to that during which either party's performance is suspended under this Section.

M. **WARRANTIES**

The Contractor warrants to the Owner that materials and equipment furnished under the Agreement will be of good quality and new unless the Contract Documents require or permit otherwise. The Contractor further warrants that the Work will conform to the requirements of the Contract Documents and will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials, or equipment not conforming to these requirements may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Contractor, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage. If required by the Architect, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

N. **MISCELLANEOUS PROVISIONS**

(a) *Successors and Assigns.* All of the provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto, and their partners, assigns, successors, subcontractors, executors, heirs, officers, agents, employees, representatives, and administrators.

(b) *Choice of Law.* The laws of the state of Texas shall govern the validity of this Agreement, the construction of its terms and the interpretation of the rights and duties of the parties hereto.

(c) *No Waiver of Governmental Immunity.* NOTHING IN THIS AGREEMENT SHALL BE CONSTRUED TO WAIVE CITY'S GOVERNMENTAL IMMUNITY FROM LAWSUIT, WHICH IMMUNITY IS EXPRESSLY RETAINED TO THE EXTENT IT IS NOT CLEARLY AND UNAMBIGUOUSLY WAIVED BY STATE LAW.

(d) *Assignment.* Contractor shall not assign any of Contractor's rights under this Agreement, or delegate the performance of any of Contractor's duties hereunder, without the prior written consent of the City.

(e) *Modification or Amendment.* No amendment, change or modification of this Agreement shall be valid unless in writing signed by the parties hereto.

(f) *Venue.* This Agreement and any and all matters arising directly or indirectly herefrom shall be governed by and construed and enforced in accordance with the Laws of the State of Texas, with the Federal and State Courts of **Cameron County**, Texas having jurisdiction.

If at any time there is a dispute between or among the Parties with respect to any matter arising directly or indirectly from this Agreement (an "Agreement Matter"), the Parties agree that, prior to seeking judicial remedy, they will engage in face-to-face negotiations in an attempt to resolve such dispute and shall, upon failing to negotiate a mutually-satisfactory resolution, choose a mutually agreeable neutral third party to mediate such dispute. Mediation shall be non-binding and shall be confidential.

(g) *Execution and Consideration.* This Agreement is executed by the parties hereto without coercion or duress for any substantial consideration, the sufficiency of which is forever confessed

(h) *Notices.* Any and all notices, demands, or other communications required or desired to be given hereunder by any party shall be in writing and shall be validly given or made to another party if personally served, or if deposited in the United States mail, certified or registered, postage prepaid, return receipt requested. If such notice or demand is served personally, notice shall be deemed constructively made at the time of such personal service. If such notice, demand or other communication is given by mail, such notice shall be conclusively deemed given five days after deposit thereof in the United States mail addressed to the party to whom such notice, demand or other communication is to be given as follows:

If to Contractor:	4X Construction Group, LLC 99 Regency Parkway, Suite 303 Mansfield, TX 76063
If to City:	City of Brownsville Attn: City Manager 1001 E Elizabeth St. Brownsville, TX 78520
With Copy to:	City of Brownsville Attn: City Attorney 1001 E Elizabeth St. Brownsville, TX 78520

Any party hereto may change its address for purposes of this paragraph by written notice given in the manner provided above.

(i) *Cumulative Remedies.* All rights and remedies of the Parties under this Agreement shall be cumulative, and none shall exclude any other right or remedy provided by law, or by any other provisions of the Agreement. All such rights and remedies may be exercised and enforced concurrently and whenever, and as often, as occasion for their exercise arises.

(j) *Waiver of Breach.* A waiver by either Party of a breach of the Agreement by the other Party does not constitute a continuing waiver or a waiver of any subsequent breach of the

Agreement.

(k) *No Third Party Beneficiaries*. Nothing in this Agreement shall be construed to create any right in any third party not a signatory to this Agreement, and the Parties do not intend to create any third party beneficiaries by entering into this Agreement.

(l) *Entire Understanding.* This document and any exhibit attached hereto, constitute the entire understanding and agreement of the parties, and any and all prior agreements, understandings, and representations are hereby terminated and canceled in their entirety and are of no further force and effect.

(m) *Counterparts*. This Agreement may be executed in a number of identical counterparts, each of which shall be deemed an original for all purposes. A facsimile signature will also be deemed to constitute an original if properly executed.

(n) *Miscellaneous Drafting Provisions*. This Agreement shall be deemed drafted equally by the Parties hereto. The language of all parts of this Agreement shall be construed as a whole according to its fair meaning, and any presumption or principle that the language herein is to be construed against any Party shall not apply. Headings in this Agreement are for the convenience of the Parties and are not intended to be used in construing this document.

(o) *Authority to Execute*. The individuals executing this Agreement on behalf of the respective Parties below represent to each other and to others that all appropriate and necessary action has been taken to authorize the individual who is executing this Agreement to do so for and on behalf of the Party for which his or her signature appears, that there are no other parties or entities required to execute this Agreement in order for the same to be an authorized and binding agreement on the Party for whom the individual is signing this Agreement and that each individual affixing his or her signature hereto is authorized to do so, and such authorization is valid and effective on the date hereof.

(p) *Savings/Severability*. In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

(q) *Prohibition On Contracts With Companies Boycotting Israel*. Contractor acknowledges that in accordance with Chapter 2270 of the Texas Government Code, the City is prohibited from entering into a contract with a company for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel; and (2) will not boycott Israel during the term of the contract.

The terms " boycott Israel" and" company" shall have the meanings ascribed to those terms in Section 808.001 of the Texas Government Code. ***By signing this* Agreement, *Contractor certifies that Contractor' s signature provides written verification to the City that Contractor: (1) does not boycott Israel, and (2) will not boycott Israel during the***

term of the Agreement.

(r) Immigration Nationality Act. As required by law, Contractor shall verify the identify and employment eligibility of its employees who perform work under this Agreement, including completing the Employment Eligibility Verification Form (I-9). Upon request by the City, Contractor shall provide City with copies of all I-9 forms and supporting eligibility documentation for each employee who performs work under this Agreement. Contractor shall adhere to all Federal and State laws as well as establish appropriate procedures and controls so that no services will be performed by any Contractor employee who is not legally eligible to perform such services. **CONTRACTOR SHALL INDEMNIFY CITY AND HOLD CITY HARMLESS FROM ANY PENALTIES, LIABILITIES, OR LOSSES DUE TO VIOLATIONS OF THIS PARAGRAPH BY CONTRACTOR, CONTRACTOR'S EMPLOYEES, SUBCONTRACTORS, AGENTS, OR LICENSEES.** City, upon written notice to Contractor, shall have the right to immediately terminate this Agreement for violation of this provision by Contractor.

(s) *Representations*. Each signatory represents this Agreement has been read by the Party for which this Agreement is executed and that such Party has had an opportunity to confer with its legal counsel.

IN WITNESS WHEREOF the undersigned have executed this Agreement as of the day and year first written above.

NO OFFICIAL, EMPLOYEE, AGENT, OR REPRESENTATIVE OF THE OWNER HAS ANY AUTHORITY, EITHER EXPRESSED OR IMPLIED, TO AMEND THIS AGREEMENT, EXCEPT SUCH EXPRESS AUTHORITY AS MAY BE GRANTED BY THE CITY COMMISION OF THE CITY OF BROWNSVILLE.

EXECUTED THIS _____ DAY OF _____, 2026.

Exhibit "B"

NOTIFICATION OF INTENT TO AWARD

To:	4X Construction Group, LLC. 99 Regency Parkway STE 303 Mansfield, Texas 76063
Date:	08/07/2026
Attn:	Jeff Parrish, Managing Member
Project Title	Landfill Cell #6 Construction & Associated Improvements
Project Location	City of Brownsville Landfill 9000 Ruben M Torres Brownsville, TX 78521
Project Number	296-26-EPW-IFB

Dear Jeff Parrish,

On behalf of the City of Brownsville, I am pleased to announce that your company, 4X Construction Group, LLC., will be submitted for approval to City Commission for the above referenced project on September 15, 2026.

This Notice of Intent to Award is subject to execution of a written contract and, as a result, this Notice does NOT constitute the formation of a contract between the City of Brownsville and 4X Construction Group, LLC. 4X Construction Group, LLC. shall not acquire any legal or equitable rights relative to the contract services until a contract containing terms and conditions acceptable to the City of Brownsville is executed.

The City of Brownsville further reserves the right to cancel this Notice of Intent to Award at any time, with or without cause, prior to the execution of a written contract.

Congratulations and we look forward to working with your company on this project.

Thank you,

Alexandra Guajardo

Form 1 – Proposal Acknowledgment & Authorized Contact

Purpose

This form officially acknowledges the Respondent's intention to submit a response to this solicitation. It also identifies the authorized contact who is empowered to act on behalf of the Respondent and will serve as the primary point of contact throughout the project. By submitting this form, the Respondent acknowledges and accepts all terms, conditions, and requirements stated in the solicitation.

Solicitation No. 296-26-EPW-IFB

Respondent Information

Legal Entity Name: 4X Construction Group, LLC

Primary Contact Name: Jeff Parrish

Title: Managing Member

Telephone: 817-779-3290 Email: Jeff.Parrish@4xconstruction.com

Acknowledgment of Solicitation Requirements

By signing below, the Respondent certifies and acknowledges the following:

1. The Respondent has examined the solicitation documents, including all addenda issued, and is familiar with all conditions affecting the response.
2. The Respondent understands that submission of this acknowledgment constitutes a binding offer subject to the terms, conditions, and validity period stated in the solicitation package issued by the City of Brownsville.
3. The Respondent certifies that they possess full authority to bind the entity and to enter into an agreement with the City of Brownsville if selected.
4. The Respondent acknowledges that failure to submit this completed form or to sign below may result in rejection of the response as nonresponsive.
5. The Respondent acknowledges receipt of all addenda issued and confirms that all changes, clarifications, and revisions have been incorporated into this submission.

☐ No Addenda Issued Out

■ Addendum No. 1 Date: 07/23/2026

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

☐ Addendum No. ____ Date: _____

(Attach additional sheet if necessary)

Note: This acknowledgment applies to all addenda issued, regardless of whether each addendum is individually listed above.

Certification

By signing below, the undersigned Respondent certifies that all statements made herein are true and correct and that they are duly authorized to sign this form and bind the Respondent to its contents.

ADDENDUM #1

Invitation For Bids For: Landfill Cell #6 Construction & Associated Improvements

IFB#: 296-26-EPW-IFB

ADDENDUM NOTICE
This Addendum modifies the original solicitation documents. Respondents are responsible for reviewing all changes, clarifications, and revisions contained herein.

ACTION REQUIRED:
Addendum acknowledgment shall be completed in Form 1 – Proposal Acknowledgment & Authorized Contact.

Separate signatures, email confirmations, or individual acknowledgments for each addendum are not required unless explicitly stated in this Addendum.

CONTACT INFORMATION:

Jaydy Valdez

Email: purchasing@brownsvilletx.gov

Clarifications/Additional Information/Changes to the Original Solicitation Package:
The following documents are included with this Addendum:

- Attachment A: Answers to Questions
- Attachment B: Mandatory Site Visit Sign In Sheet
- Attachment C: Pre-Bid Meeting Attendance List
- Attachment D: Revised Form 10- Bid Price Form
- Attachment E: Revisions to Cell 6 Construction Plans
- Attachment F: Revisions to Cell 6 Construction Specifications
- Attachment G: Geotechnical Soil Testing Results

***Vendors must submit the REVISED Form 10: Bid Price Form with their submissions.**

Attachment A: Answers to Questions

Vendor, Jul 14, 2026 3:27 PM CDT

Would you please send or upload the attendees list for Job Site visit today?

Response: Please see below Attachment B: Mandatory Site Visit Sign In Sheet.

Vendor, Jul 17, 2026 7:25 AM CDT

Spec 02222 Section 1.2.1 designates a soil source area within a 1-mile off-road haul for select/structural fill and the compacted cohesive soil barrier. Please confirm (a) the designated source area has sufficient volume for the full barrier demand (~15,000 CY compacted) plus embankment and protective cover needs, (b) geotechnical test data (PI, gradation, moisture) for the source area will be furnished to bidders, and (c) processing of oversize material (>3/4-inch for barrier layer) from this source is considered incidental or will be paid separately.

Response: (a) The designated source area has sufficient volume for the 12" Compacted Cohesive Soil Barrier Layer, Embankment Fill and Protective Cover; (b) Please see attached below Attachment G: Geotechnical Soil Testing Results; (c) Any processing of oversized material is considered incidental.

Vendor, Jul 17, 2026 7:25 AM CDT

Please confirm all 199,000 CY of Item 106 General Excavation remains on site, and identify the designated stockpile/berm placement areas and maximum haul distances. Is stockpile grading for drainage per Section 02110 3.3 the only required finish treatment?

Response: The area of Cell 6 has been partially excavated by the City. The final pay quantities for General Excavation will be based on the pre-construction topographic survey to be conducted by the City and SCS Engineers. The proposed soil stockpile location is shown on Drawing No. 2 of the Construction Plans. Stockpile grading for drainage shall be maintained throughout the project and the finished condition.

Vendor, Jul 17, 2026 7:26 AM CDT

No groundwater or piezometer data is included in the bid package. Please provide available groundwater information for the Cell 6 footprint, and confirm whether Item 104 Construction Dewatering is a fixed LS regardless of encountered conditions or whether differing site conditions provisions apply.

Response: A Historical High Groundwater Map and Current Groundwater Map; as of February 24, 25 and 26 of 2026; have been provided as an Appendix to the Technical Specifications. Bid Item No. 104, Construction Dewatering is a fixed Lump Sum condition regardless of encountered conditions or differing site conditions. Additionally, Section 6.0, Liners Constructed Below the Seasonal High Water Table of the Soil and Liner Quality Control Plan of the Technical Specifications discusses the groundwater conditions at the site.

Vendor, Jul 17, 2026 7:26 AM CDT

The Engineer provides CQA services. To support the 150-calendar-day schedule, please confirm expected CQA response/testing turnaround times for (a) cohesive barrier lift approvals and (b) geosynthetics conformance testing and seam approvals, and confirm the Contractor bears cost only for RE-testing of failed work.

Response: The Construction Quality Assurance (CQA) Technician will be on-site during construction of the cohesive soil layer and will be testing the material as it is placed. Geosynthetic conformance testing and seam approval times vary depending on the materials tested but will typically be within industry standards. The contactor only bears the cost for re-testing failed tests.

Vendor, Jul 17, 2026 7:27 AM CDT

Are there pre-approved or minimum-qualification requirements for the geosynthetics installer (e.g., manufacturer-certified, IAGI, minimum square footage installed)? Please confirm acceptable geomembrane manufacturers or approved equals.

Response: There are no pre-approved or minimum qualification requirements for the geosynthetics installer. The Contractor is to install all geosynthetics in accordance with the Soil and Liner Quality Control Plan, Manufacture's Recommendations and the Contractor must have been in business providing work similar in scope for the past five (5) years and provide references for 3 project similar in scope and cost within the past five (5) years. No requests for approved equals have been received.

Vendor, Jul 17, 2026 7:27 AM CDT

Please provide the basis-of-design manufacturer/model for the leachate pump and control panel, and clarify who provides electrical power to the control panel location (utility coordination, service conductors, and energization).

Response: The leachate pump has been designed for the forcemain system operation. The City will coordinate and provide electrical service to a pole near the control panel. The Contractor will connect the control panel to the electrical service.

Vendor, Jul 17, 2026 7:27 AM CDT

Section 5 references funding-agency guidelines (e.g., Davis-Bacon). Please confirm whether federal Davis-Bacon or Texas Chapter 2258 prevailing wage rates apply to this contract, and if so, provide the applicable wage determination.

Response: No, Davis-Bacon or Texas Chapter 2258 prevailing wage rates apply to this contract.

Vendor, Jul 17, 2026 7:28 AM CDT

The IFB states retainage of ten percent (10%). Please confirm this complies with Texas Government Code 2252.032, which limits retainage to no more than 5% on public works contracts of this size, or advise if retainage will be revised by addendum.

Response: Please refer to section 5.18.4. Retainage withholding will conform to Texas Government Code § 2252.032 as follows:
• For public works contracts with a total value less than $5,000,000, the City may withhold up to ten percent (10%) of the contract price as retainage.
• For public works contracts with a total value of $5,000,000 or more, the City may withhold up to five percent (5%) of the contract price.

Vendor, Jul 17, 2026 12:50 PM CDT

Can you please supply a copy of the Prebid sign in sheet for all subcontractors to review?

Response: Please see below Attachment C: Pre-Bid Meeting Attendance List.

Vendor, Jul 17, 2026 7:28 AM CDT

Will as-built drawings/panel layouts of the existing Cell 5 liner system be furnished? Please confirm responsibility for repair of pre-existing (latent) defects in the Cell 5 liner discovered during exposure, versus damage caused by the Contractor.

Response: As-built drawings and panel layouts of the existing Cell 5 liner system may be provided to the awarded contractor upon request. The Contractor will be responsible for repair of pre-existing defects in the Cell 5 liner in accordance with Bid Item No. 122, Cell 5 Liner Tie-in.

Vendor, Jul 17, 2026 7:28 AM CDT

Please identify the available construction water source for moisture conditioning (hydrant, on-site well, or leachate/stormwater reuse) and any fees or restrictions on its use.

Response: A hydrant is available on the west side of the facility for water. The Contractor shall attach a meter on the hydrant and report water quantities used to the City weekly. There are no fees for the water.

Vendor, Jul 17, 2026 7:29 AM CDT

Please confirm the definition of substantial completion for assessment of liquidated damages (cell acceptance by TCEQ/Engineer vs. final completion), and the mechanism for weather-day time extensions given the moisture-sensitive barrier and liner work.

Response: Substantial completion shall reflect the entire project. Weather days will be tracked on a daily basis by both the City and the Contractor. Weather days will be discussed at each construction meeting, and a running tally will be kept.

Vendor, Jul 17, 2026 7:29 AM CDT

For the Bonfire electronic submission, please confirm whether the 5% bid bond may be submitted as a scanned copy with the electronic bid, with the original available on request, or whether a hard-copy original must be delivered prior to bid opening.

Response: A scan of the bid bond with the initial electronical submittal is acceptable.

Vendor, Jul 17, 2026 2:19 PM CDT

Could you please provide the existing elevations of the job site? Have a great day!

Response: Existing elevations of the jobsite are shown on Drawing No. 2, Site Layout Plan of the Construction Plans.

Vendor, Jul 20, 2026 12:41 PM CDT

Where will the approx. 199,000 cy of dirt be disposed to?

Response: Soil excavated from Cell 6 shall be stockpiled at the Soil Stockpile area shown on Drawing No. 2, Site Layout Plan of the Construction Plans.

Vendor, Jul 20, 2026 12:56 PM CDT

Who if responsible for hiriing the surveyor for certifcation surveys for SG, Top of clay seperation layer and top of protective cover?

Response: The City's CQA firm, SCS Engineers, will provide the surveying certification services for the pre-construction, excavation, top of cohesive soil, geomembrane and top of protective cover certifications surveys.

Vendor, Jul 20, 2026 12:57 PM CDT

Will the owner hire a QA consultent for field & lab testing and any third party liner testing

Response: The City has hired SCS Engineers as the CQA consultant.

NOTES:

1. THE CURRENT LANDFILL PERMIT SHALL GOVERN OVER ANY DISCREPANCY BETWEEN THESE PLANS AND THE PERMIT.
2. THESE PLANS ARE ISSUED FOR INTERIM REVIEW PURPOSES.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR TIMELY UNLOADING OF LINER MATERIALS. UNLOADING OF MATERIAL SHALL BE CONDUCTED ONLY UNDER THE SUPERVISION OF THE OWNERS REPRESENTATIVE. A LAY DOWN AREA WILL NEED TO BE GRADED/CONSTRUCTED TO ALLOW FOR PROPER STORAGE OF LINER MATERIALS. THIS AREA SHALL HAVE MINIMUM DIMESNIONS OF 100'x100' AND SHALL BE ELVATED, COMPACTED AND GRADED TO PREVENT PONDING OF WATER IN THE LINER STORAGE AREA. THE GCL AND GEOMEMBRANE SHALL NOT BE STACKED OVER 3 ROLLS HIGH. STOCKPILES SHALL BE NEAT AND ORDERLY. PUSHING OR PULLING ROLLS OFF THE TRUCK SHALL NOT BE ACCEPTABLE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO THE MATERIAL DURING UNLOADING AND STORAGE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING THE LAYDOWN AREA UNTIL GEOSYNTHETICS WORK IS COMPLETE.

SECTION 01150
MEASUREMENT AND PAYMENT BASIS

1.0 GENERAL

1.1 SUMMARY

1.1.1 Under the price specified to be paid for each item, the Contractor shall furnish all labor, materials, equipment and all operations necessary to complete all work specified or shown. All supervision, overhead and profit items, protection and precautions and all other costs incidental to the construction work, and as specified, are included.

1.1.2 A complete working job shall be produced whether or not any particular wording or direction is omitted or not clearly stated.

1.1.3 Measurement and Payment shall be by the ENGINEER and/or OWNER, except where noted elsewhere in the specifications. Measurement for payment for lump sum items shall be on the basis of percentage of work complete.

1.1.4 Each price stated in the Bid shall constitute full compensation for each item of work completed.

1.1.5 The price for those items which involve excavation shall include compensation for disposal of surplus excavated material.

1.1.6 All final payments shall be based upon either construction drawing **plan view** quantities or by **in-place survey** measured procedures. All plan view quantities (square foot, square yard, linear foot, etc.) are measured in plan (planar) quantities. Limits of pay for excavation are shown on plans.

1.1.7 The CONTRACTOR shall submit the monthly invoice to both the OWNER and ENGINEER for review. The ENGINEER shall make his/her recommendation to the OWNER in a timely fashion. Only one invoice per month shall be permitted by the CONTRACTOR.

1.2 ITEM DESCRIPTIONS

1.2.1 Item No. 101, Mobilization/Demobilization:

1. Under the **lump sum** price, the CONTRACTOR shall perform all work necessary to mobilize and demobilize all equipment, materials and labor to and from the site, including office trailer and utilities. **Cost not to exceed 5 percent of the total bid price.**

2. Measurement and payment for this item shall be sixty (60) percent after mobilization and forty (40) percent after demobilization. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.2 Item No.102, Payment of Bonds:

1. Under this lump sum price, the CONTRACTOR will acquire a performance and a payment bond for the total amount of the project.

2. Payment for this item shall be the total **lump sum** amount based on an invoice from the Bond Company **for the cost of the bond without mark up**.

1.2.3 Item No. 103, Construction Surveying:

1. Under the bid for this item, the CONTRACTOR shall furnish all construction surveying required to complete the project. The CONTRACTOR shall be responsible to construct project to the lines and grades provided for on the construction drawings.

2. Measurement and payment for this item shall be **lump sum** and shall be paid monthly based on percentage of work completed as approved by ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.4 Item No. 104, Construction Dewatering:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform project dewatering on a seven-day per week, 24-hour per day basis throughout the duration of the project. ~~This includes the west temporary diversion ditch, berm and culvert, as well as the Cell 6 temporary stormwater diversion dike.~~ This shall include rain and runoff water from adjacent areas and groundwater, including water collected from the dewatering system. For water collected in the dewatering system, the CONTRACTOR may use the pump specified for the dewatering system or a temporary pump. The CONTRACTOR shall be required to have all standing water removed from the affected work areas within 6 hours of the completion of the rain event. Pump water discharge locations shall be approved in advance by the owner.

2. Measurement and payment for this item shall be **lump sum** and shall be paid monthly based on percentage of work completed as approved by ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.5 Item No. 105, Clearing and Grubbing:

1. Under the bid for this item, the CONTRACTOR shall be responsible for clearing and grubbing the areas designated on the construction plans. The contractor shall be responsible for clearing trees, bushes, and undergrowth within the "Area to be Cleared and Grubbed" as indicated on the construction drawings. Trees and bushes shall be stockpiled at a location designated by the OWNER.

2. Measurement and payment for this item shall be **per acre** basis. Payment for this item shall be made based on the percentage of the total acreage cleared and grubbed. Final payment will be based on survey quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.6 Item No. 106, General Excavation:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform excavation for the construction of Cell 6 to the lines and grades shown on the construction drawings between 0 and plus one-tenth foot of subgrade elevations and limits and stockpiling material as shown in the construction drawings. This item also includes any excavation for the construction of the perimeter ~~drainage channel~~ access road. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be per **cubic yard**. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.7 Item No. 107, 12" Compacted Cohesive Soil Barrier Layer:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and material required to construct a minimum 1.0-foot thick and maximum 1.1-foot thickness (as measured vertically) on sideslopes of the disposal cell of onsite soil layer of compacted cohesive soil barrier to provide a stable base for the installation of the geosynthetics in the disposal cell. The cohesive soil barrier shall be placed, processed and compacted in two 6-inch lifts to 95% MDD at moisture content of -1 to +3 of optimum moisture content. The subgrade surface shall be proof-rolled to identify any soft or wet areas prior to geosynthetic installation. The subgrade surface shall be smooth drum rolled to produce a smooth, even surface for the geomembrane. This work includes, but is not limited to, transportation of the soil material from on-site stockpiles to the area of

placement, placement, moisture condition, compaction, and preparation of the subgrade for liner of the soil material.

2. Measurement and payment for this item shall be per **square yard** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.8 Item No. 108, Embankment Fill:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform filling, compacting, grading and contouring along the berm and slope construction as shown on the construction drawings, all to between 0 and plus one-tenth foot of the subgrade elevations and limits. This item also includes any embankment fill for the construction of the perimeter access road. The CONTRACTOR is responsible for compacting materials in accordance with the site's approved permit.

2. Measurement and payment for this item shall be per **cubic yard** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.9 Item No. 109, Protective Cover:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to place a minimum 2.0-foot thick and maximum 2.2-foot thick (as measured vertically) protective soil cover layer on floors and sideslopes of disposal cell from onsite over the geosynthetic liner, except south of intercell berm, where area shall be filled to prevent stormwater from ponding, to the lines and grades shown on the construction drawings. This work includes, but is not limited to, transportation of the soil material from on-site stockpiles to the area of placement, and placement of the soil material.

2. Measurement and payment for this item shall be per **cubic yard** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.10 Item No. 110, Chimney Drain:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the stone, geotextiles, sacrificial plastic sheet and any other materials necessary to install the chimney drains at the locations shown on the drawings. The CONTRACTOR is responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be per **linear foot** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.11 Item No. 112, Underdrain Trench:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 6" underdrain pipe, stone, geotextiles, and any other materials necessary to install the underdrain trenches and pipe. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of underdrain trench. Monthly payment shall be based on percent completed and approved by the ENGINEER. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.12 Item No. 112, Underdrain Collection Sump:

1. Under the unit bid for this item, the CONTRACTOR shall furnish and install the underdrain collection sump components, including pipes and fittings, stone, bedding materials and geotextiles and any other materials to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum basis** and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.13 Item No. 113, Leachate Collection Trench:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the stone, geotextiles, sacrificial plastic sheet and any other materials necessary to construct the leachate collection trench with chimney drains. This does not include the 6" leachate collection and 18" riser pipes. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of leachate collection trench. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.14 Item No. 114, Leachate Collection Sump:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor equipment and materials to install the leachate collection sump components, including pipes and fittings, stone, bedding materials and geotextiles and any other materials to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum basis** and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.15 Item No. 115, 14" Underdrain Riser:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 14" underdrain riser pipe (perforated and non-perforated), all fittings, compacted soil, and any other materials necessary to install the underdrain riser pipe in the underdrain sump of Cell 6. The riser pipe will have a blind flange at the top end. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of underdrain riser pipe. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.16 Item No. 116, 18" Leachate Sump Riser:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 18" diameter leachate riser pipe (perforated and non-perforated), flatstock, all fittings, bedding material, and any other materials necessary to install the leachate riser pipe in the leachate collection sump of Cell 6. This does not include the 6" leachate collection pipe. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of leachate riser pipe. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.17 Item No. 117, 6" Leachate Collection Pipe:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the leachate collection pipes (perforated and non-perforated), including all fittings, and any other materials necessary to install 6" the leachate collection pipe. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of leachate collection and riser pipe. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.18 Item No. 118, 4"x8" Dual Contained Force Main:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the dual walled force main pipe (4" diameter carrier pipe within an 8" diameter containment pipe) including trench excavation, filling, granular bedding material, compacting soil, warning marker tape, for construction of the force main trench to the lines and grades shown on the construction drawings. The force main shall be installed as shown on the drawings and as specified. The Contractor shall provide all materials necessary to install the force main. The force main piping shall be HDPE SDR 11 for the 4" carrier pipe and SDR 17 for the 8" containment pipe. Both the carrier and containment pipe shall be tested for leaks prior to final acceptance. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of installed leachate dual wall force main. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.19 Item No. 119, Leachate Manhole:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform excavation, backfilling with select soil and compacting soil for the installation of one (1) HDPE SIDR ~~32.5~~ 41.17 ~~72~~ 84" manhole. Included in this bid item is excavation to the depth specified on the drawings for the manhole; provide and installation of sand bedding material; backfilling and compacting select material; concrete pads and wing walls; and other materials and appurtenances necessary to install the force main manhole. Also include all interior manhole piping which is to include ball valves, check valves, air release valves, and in-line IFM magnetic flow meter, as shown on the construction drawings. The manhole requires complete interior piping, including the connection piping between the leachate collection riser to the manhole as indicated on the construction drawings. Flow meter shall have cable routed to a digitizer to be installed within the control panels and be visible from the outside of the panel box. All material, including pipe supports, shall be suited for leachate liquid. All manholes shall be watertight. Shop drawings shall be submitted to the ENGINEER for approval. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall be paid monthly based on percentage of work completed as approved by ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.20 Item No. 120, Underdrain Dewatering Discharge System:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor equipment and materials to install the underdrain dewatering discharge system, including the 3" discharge piping, fittings, ball valves, check valves, pump, panel box, electrical hook up, concrete anchor block, bollards, concrete discharge pad, rip-rap, and all other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.21 Item No. 121, Leachate Pump and Control Panel:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the leachate pump controls and all components, including 2" discharge piping, panel box, pipes, fittings, electrical hook up and any other materials and services to complete this item. The CONTRACTOR shall furnish and install the leachate pump and all components, including pipes, fittings, and any other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.22 Item No. 122, Cell 5 Liner Tie-in:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to locate, excavate and prepare the tie-in to the existing Cell 5 liner system to allow the liner installation CONTRACTOR for placement of liner material. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of liner tie-in. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.23 Item No. 123, Cell Marker Post:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 8' cell marker post and all components, including 6' of above ground steel post, painted red, 2' of below ground steel post, encased in concrete, and any other materials and services to complete this item. The CONTRACTOR shall be responsible

to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be on a per **each** basis. Final payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.24 Item No. 124, Perimeter Access Road:

1. Under the bid for this item, the CONTRACTOR shall be responsible for the supply of materials and the construction of an all-weather perimeter road. The road shall be constructed as indicated in the construction drawings. The subgrade material shall be compacted and proof rolled. A 4 oz./s.y. non-woven geotextile, shall be placed on the subgrade. An 8-inch flexible base caliche (TxDOT Specification No. 247 A and/or D, Grade 1) shall be constructed over the compacted subgrade and non-woven geotextile material. The road shall be constructed as indicated in the construction drawings.

2. Measurement and payment for this item shall be on a square yard basis. Final payment will be based on survey, plan (planar) quantities. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.25 Item No. 125, Removing Existing Culvert Crossing:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to remove and dispose in the active landfill face the existing culvert crossing, rip-rap pads and any other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.26 Item No. 126, Perimeter Access Road Culvert Crossing:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 4-24” corrugated metal pipe culvert crossing, rip-rap pads and any other materials and services to complete this item. The pipe shall be corrugated (2-2/3” x 1/2"), 12 gage, galvanized metal. The rip-rap pads for the perimeter access road culvert

crossing shall be composed of 18" thick common, dry, stone rip-rap with diameter of 6" to 12" and ~~underdrain~~ underlain with a 10 oz./sy. non-woven geotextile fabric. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.27 Item No. 127, North Perimeter Ditch Re-grading:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to re-grade (excavate and fill as necessary) the north perimeter ditch. Limits of regrading extend from the perimeter access road culvert crossing to the cell 4 culvert crossing. The CONTRACTOR to re-grade to allow for drainage. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of ditch re-grading. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.28 Item No. 128, Diversion Dike – 24":

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to perform fill, compacting, grading, contouring along with diversion dike construction. The diversion dike location shall be determined during construction and will be based on the waste fill conditions in the adjacent Cell 5. The OWNER and ENGINEER will determine when and where the diversion dike will be installed. Diversion dike soil shall be clay rich soil, either CH, SC, or CL material. Diversion dike soil will be available from the future Cell 6 excavated soil stockpile or soil borrow area located southeast of the work area. The soil borrow source shall be graded smooth to drain and approved by the OWNER prior to completion of the project. Diversion dike soil shall be placed in maximum 8 inch loose lifts, moisture conditioned and compacted. The Contractor shall be responsible for compacting materials, including anchor trenches, to 90% standard proctor. **The diversion dike should be lined with North American Green EroNet™ SC150 or equivalent Erosion Control Blanket with minimum permissible velocity of 8 feet per second (fps).** The turf

reinforcement mat shall be installed in accordance with manufacturer's recommendations. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of diversion dike installed. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.29 Item No. 129, Temporary Diversion Ditch and Berm:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to perform excavation, fill, compacting, grading, and contouring to construct a temporary diversion ditch and berm. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of temporary diversion ditch and berm constructed. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.30 Item No. 130, 24" Culvert:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 24" corrugated metal pipe culvert crossing and any other materials and services to complete this item. The pipe shall be corrugated (2-2/3" x 1/2"), 12 gage, galvanized metal. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of culvert. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.31 Item No. 131, Clean and Muck Channel, including Windblown Waste:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to clean and muck channel, including windblown waste and any other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and

workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be per **acre** basis. Payment for this item shall be made based on the percentage of the total acreage cleaned and mucked. Final payment will be based on survey quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.32 Item No. 132, Regrade North Channel:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to re-grade (excavate approximately 3,400 CY and fill approximately 3,600 CY as necessary) the existing north channel as per drawing 17. The CONTRACTOR to re-grade to allow for drainage as well as clean up existing culverts. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be on a **per acre** basis of ditch re-grading. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.33 Item No. 133, Regrade South Channel:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to re-grade (excavate approximately 6,800 CY and fill approximately 10 CY as necessary) the existing south channel as per drawing 18. The CONTRACTOR to re-grade to allow for drainage as well as clean up existing culverts. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be on a **per acre** basis of ditch re-grading. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.34 Item No. 134, Remove and Replace Existing Gabion Lining:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to remove and replace existing gabion lining at south channel near existing downchute as shown on drawing 18 and any other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and

workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.37 Item No. 201, Geosynthetic Clay Liner:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install a geosynthetic clay liner **($k \leq 1 \times 10^{-9}$)** within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The CONTRACTOR shall be responsible to completely protect the stored material from rain (using heavy plastic sheet or tarps) until it is installed. CONTRACTOR shall pay particular attention to the material specifications for this item found in the SLQCP. The GCL may not be standard run material by all manufacturers. **The specifications provided in the SLQCP must be met.** The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install GCL over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan (planar) area** with geosynthetic clay liner installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in the unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.38 Item No. 202, 60-mil Smooth HDPE Geomembrane Liner:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install smooth 60-mil High Density Polyethylene Geomembrane within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install smooth HDPE geomembrane over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan (planar) area** with 60-mil smooth HDPE liner installed does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area.

A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.39 Item No. 203, 60-mil Double-sided Textured HDPE Geomembrane Liner:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install 60-mil High Density Polyethylene Geomembrane – Double-Sided Textured within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install textured HDPE geomembrane over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan (planar) area** with 60-mil High Density Polyethylene Geomembrane – Double-Sided Textured liner installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.40 Item No. 204, 200-mil Geonet:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install 200-mil High Density Polyethylene geonet within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install geonet over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan (planar) area** with 200-mil Geonet installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.41 Item No. 205, Cell Geotextile:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install non-woven geotextile fabric (10 oz./sy.) within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the

CONTRACTOR will need to install geotextile over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan (planar) area** with non-woven geotextile fabric installed in the cell and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.42 Item No. 206, Leachate Collection Double-Sided Geocomposite:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install leachate collection geocomposite drainage layer, consisting of a **200-mil high density polyethylene geonet drainage layer with 10 oz./sy. non-woven geotextile fabric** heat bonded to both sides installed within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The leachate collection geocomposite shall be **GSE FabriNet, or Agru 200-mil Geocomposite with 10 oz./sy. nonwoven geotextile or equivalent**. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install geocomposite over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan (planar) area** with Leachate Collection Double-Sided Geocomposite installed as the leachate collection layer and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.43 Item No. 207, Underdrain Double-Sided Geocomposite:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install geocomposite drainage layer, consisting of a **300-mil bi-planar high density polyethylene geonet drainage layer with 10 oz./sy. nonwoven geotextile fabric** heat bonded to both sides installed within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The underdrain geocomposite shall be **GSE FabriNet, or Agru 300-mil Geocomposite with 10 oz./sy. nonwoven geotextile or equivalent**. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install geocomposite over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan (planar) area** with Underdrain Double-Sided Geocomposite liner installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

- END OF SECTION -

SECTION 02531
HIGH DENSITY POLYETHYLENE MANHOLES

1.0 GENERAL

This specification shall govern the materials and fabrication of high density polyethylene manholes.

2.0 DESCRIPTION OF WORK

This contract covers the purchase and fabrication of high density polyethylene manholes.

3.0 MATERIALS

The pipe for the manholes shall be made from high density polyethylene (HDPE) resins meeting the following requirements.

3.1 HDPE MATERIAL SPECIFICATIONS

3.1.1 HDPE material supplied under this specification shall be manufactured from a PE 4710 resin listed with the Plastic Institute (PPI) as TR-4. The resin material shall meet ASTM D 3350 with a minimum cell classification of 445474C. The polyethylene compound shall be suitably protected against degradation by ultraviolet light by means of carbon black of not less than 2 percent.

3.1.2 Physical Properties of HDPE Compound

1. The density shall be no less than 0.955 gms/ccm as referenced in ASTM D 1505.

2. The melt index shall be no greater than 0.15 gms/10 minutes when tested in accordance to ASTM D 1238 – Condition E. Melt flow shall be no greater than 4.0 gms/10 min when tested in accordance with ASTM D1238 – Condition F.

~~3. The flexural modulus shall be 110,000 to less than 160,000 psi as referenced in ASTM D790.~~

~~4. The tensile strength at yield shall be 3,200 to less than 3,500 psi in~~

~~accordance with ASTM D 638.~~

~~5. Slow Crack Growth Resistance shall be per ASTM F 1473 (PENT test). The results shall be greater than 100 hours.~~

~~6. Hydrostatic Design Basis shall be 1,600 psi at 23 degrees C when tested in accordance with ASTM D 2837.~~

4.0 SUBMITTALS AND QUALITY ASSURANCE

4.1 QA/QC CERTIFICATION

4.1.1 The manhole supplier shall submit certification that the HDPE material meets the specifications.

4.1.2 The fabricator of the manholes shall submit drawings showing the position of the inlets, outlets and overall dimensions along with any other special features such as manways, ladders, etc.

4.1.3 The fabricator shall submit data indicating the manholes meet the requirements of ASTM F 1759, "Design of High Density Polyethylene (HDPE) Manholes for Subsurface Applications". The manholes should be proven to have acceptable design for the following areas.

1. Ring compressive strain
2. Combined ring compressive and ring bending strain
3. Ring buckling
4. Axial strain
5. Axial buckling
6. Thickness of the bottom based on depth and groundwater. Thickness should be based on acceptable stress and deflection amounts.

4.1.4 Calculations supporting these requirements will be part of the submittal package.

4.1.5 The fabrication technician shall perform the work in accordance to butt fusion of HDPE per ASTM D 2657 and for extrusion and hot air welding ASTM C 1147. The fabricator shall submit the written quality assurance program used during fabrication of the manholes. The fabricator may be required to submit their overall QA/QC program for fabricating

thermoplastic structures, the welding certification program for the fabrication technician per ASTM C 1147 and the facility safety program.

4.1.6 The manholes and pipe shall be tested with water and air. The structure shall be determined to be leak free prior to shipping. A written certification shall be sent to the ENGINEER certifying the manholes are leak free. The test results shall become part of the submittals. An identification plate indicating the job number, testing data, date built and by whom shall be attached to the manhole.

4.2 APPROVAL OR REJECTION

4.2.1 Written approval or rejection of substitution given by the ENGINEER.

4.2.2 ENGINNER reserves the right to require proposed product to comply with the requirements of specified product.

4.2.3 In the event substitution results in a change of Contract Price or time, provisions in the Agreement will be applied for adjustment.

4.2.4 Substitutions will be rejected if:

1. Submittal is not through the CONTRACTOR with his stamp or approval.
2. Requests are not made in accordance with this section.
3. In the ENGINEERS opinion, acceptance will require substantial revision of the original design.
4. In the ENGINEERS opinion, substitution is not equal to original product specified or will not perform adequately the function for which it is intended.

4.3 THIRD PARTY TESTING

The OWNER or ENGINEER may request certified lab data to verify the physical properties of materials not meeting the requirements of this specification.

4.4 DEVIATIONS - Procedure for requesting substitute

4.4.1 Consider after award of Contract

4.4.2 A letter defining the deviation and justification must be sent to the

ENGINEER. The letter must identify:

1. The product
2. Manufacturer's name
3. Representative contact name and telephone number
4. Specification section or drawing reference of originally specified product
5. Discrete name or tag number assigned to original product in Contract document

4.4.3 Manufacturer's literature must be clearly marked to show compliance of proposed product with contract document.

4.4.4 Itemize comparison of original and proposed product addressing product characteristics including but not limited to:

1. Size
2. Composition or material of construction
3. Weight
4. Electrical or mechanical requirements
5. Product experience
   - A. Location of past projects utilizing the product.
   - B. Name and telephone numbers of persons associated with referenced projects knowledgeable concerning proposed product.
   - C. Available field data and reports associated with proposed product.
6. Data relating to changes in construction schedule.
7. Data relating to changes in cost.
8. Samples: At request of the ENGINEER, a full size sample may be required. This sample may be held by the ENGINEER until completion of the project.

4.5 REJECTION

The high density polyethylene manhole may be rejected for failure to meet any of the requirements of this specification.

5.0 HDPE MANHOLE CONSTRUCTION

5.1 The HDPE manholes shall be constructed of HDPE pipe with a nominal ID of 84" and an SIDR of 41.17.

5.2 The bottom thickness of the manholes will be determined in accordance with ASTM F 1759. Calculations must be provided to justify the thickness of the bottom.

5.3 The inlets and outlets shall be extrusion welded on the inside and outside of the structure using good welding practice. Gussets shall be attached at 90 degrees, 180 degrees, 270 degrees and 360 degrees around the inlets and outlets unless impractical.

5.4 All manhole connections larger than 4" nominal OD pipe shall be butt fusion welded, electrofusion welded or flanged connections. For 4" OD pipe and smaller threaded transition fittings can also be used as well as the acceptable connections listed.

5.5 Manholes shall be factory tested with water. The hydrostatic test shall be conducted by filling the structure with water and checking for leaks. Minimum test duration will be one hour. Data showing the structure to be leak-free will be supplied. The OWNER or his representative may request to observe the test.

5.6 The ladders in the manholes shall conform to OSHA standards.

5.7 Top of manholes shall be built to requirements on the drawings.

5.8 When large changes in temperature are expected restraints shall be designed as an integral part of the manhole by the fabricator/manufacturer to prevent strain at the inlets and outlets. These restraints shall be cast into a concrete collar around the pipe. Anti-flotation and/or anti-settling anchor collars, if required, shall be designed as an integral part of the manhole by the fabrication/manufacturer of the manholes. Shop drawings, approved by the ENGINEER shall be required for restraints, anchors, collars, etc... that are designed by the manhole fabricator/manufacturer prior to acceptance of the HDPE structures.

6.0 CONSTRUCTION PRACTICES

6.1 Handling of Manholes. HDPE manholes shall be stored on clean, level and dry ground to prevent undue scratching or gouging of the material. The handling of HDPE manholes shall be done in such a manner that there is no damage. Nylon slings shall be used.

6.2 Flanged connections. Flange adapters (where shown on the drawings) shall be

attached to the HDPE manhole inlets and outlets stubs during fabrication by butt fusion welding per ASTM D 2657. A ductile iron back up ring will be used with each flanged connection. The rings will use a standard ANSI 150# bolt pattern. Check the drawings for materials required for corrosive conditions.

6.2.1 Bolts shall be tightened in a "star pattern" to recommended torque values.

6.2.2 Bolts must be tightened a second time after 24 hours to ensure a positive seal.

6.2.3 Gaskets are not required on HDPE to HDPE connections.

6.3 Pipe joining. HDPE pipe shall be joined by using butt fusion. All butt fusion welds should be made as described in ASTM D 2657. Electrofusion welding can be used for making pipe welds. Hot air and extrusion welding are not permitted for pipe joining. All pipes and fittings welds should be made using equipment that has been serviced by an authorized service and repair center with at least one certified master mechanic on staff within 3 months from the first fusion on the project. An authorized fusion data recorder shall be used to record al fusion welds n hydraulically operated fusion machines. A record of the temperature, pressure and graph of the fusion cycle shall be maintained by the CONTRACTOR.

6.4 Handling of Fused Pipe. Fused segments of pipe shall be handled so as to avoid damage to the pipe. Limit bending of the pipe welded to fittings or manholes. Nylon slings shall be used.

7.0 DIRECT BURIAL INSTALLATION

7.1 Manhole Excavation. The manhole excavation shall be constructed in accordance with construction drawings. All required safety precautions for manhole installation are responsibility of the CONTRACTOR.

7.2 Backfilling shall extend at least 3.5 feet beyond the edge of the manhole for the full height of the manhole and extend laterally to undisturbed soils. Compaction shall meet the requirements on the construction drawings and the approved SLQCP.

- END OF SECTION -

SECTION 11210
LEACHATE EXTRACTION PUMPING SYSTEM

1.0 GENERAL

1.1 SCOPE OF WORK

1.1.1 The (or each) leachate extraction pumping system as outlined in this section shall minimally consist of pump-end and motor with power cable (complete pump assembly); system controller and level sensor(s), deployment and retrieval system to include pump carriage/sled and shroud, if necessary and associated discharge hose/pipe and appropriate fittings to exit the sump or riser, tested, complete and per the operating conditions as shown on drawings and specifications.

1.1.2 System shall be designed for leachate extraction and or dewatering service. Multiple systems shall ideally be identical and interchangeable and if not identical, will share as many identical and interchangeable components as practicable.

1.2 EXPERIENCE ASSURANCE

1.2.1 All equipment within the leachate extraction pumping system listed in this section shall be provided by a single manufacturer who shall have complete responsibility for the system. The manufacturer shall be a duly incorporated, licensed and insured entity with experience in providing complete leachate extraction pumping systems for landfills and other wastewater applications.

1.2.2 The supplier of the leachate removal system shall provide all warranty and warranty services without regard for or dependence on pass through warranties, which may or may not be provided by the original equipment manufacturer (OEM) of varies components of the system for a period of 18 months from date of start-up.

1.2.3 Any system manufacturer or supplier not specifically named as an approved manufacturer must provide a complete submittal package to the engineer prior to the bid date for pre-approval as an equal system provider. Submittals must include manufacturer's UL ID number and a copy of manufacturer's SCCR (Short Circuit Current Rating) label. It is the design engineer's purpose to insure that the equipment provided on the project be of satisfactory performance and quality to give the end-user the maximum long lived benefit as possible. To simplify comparison, the manufacturer seeking approval will address each paragraph as either "no exception taken" meaning acceptance of both the fact and spirit of the specification or "exception taken" with relevant information and data arguing equality to the specification requirement.

1.3 SUBMITTALS

1.3.1 The submittal package shall include a complete list of components to be provided, pump curves, motor data, layout drawing, control panel drawings consisting of wiring schematic, bill of materials and component layout drawing, and warranty statement.

2.0 PRODUCTS

2.1 PUMPS

2.1.1 The contractor shall furnish and install one complete leachate extraction pumping system.

2.1.2 Pump shall be of centrifugal multi-stage turbine submersible design suitable for primary landfill leachate. The pump shall be coupled to an industrial rated submersible motor that is non-overloading throughout the operating curve of the pump.

2.1.3 Leachate extraction pump shall be rated for a minimum duty performance of 60 gallons per minute (GPM) at 65' Total Dynamic Head (TDH). Alternate curves will require Engineer approval.

2.1.4 Motor horsepower shall be a minimum of 1.5 horsepower for the leachate extraction pump, and shall operate on 230 volt, single phase, 60 hertz supply power.

2.1.5 Pump design shall include the following features:

2.1.5.1 All series 300 stainless steel construction shall include impellers, bowls, guide vanes, and inlet screen.

2.2 MOTOR DESIGN

2.2.1 The motor shall conform to NEMA standards for submersible applications.

2.2.2 All materials coming in contact with leachate shall be 300 series stainless steel and E-Glide.

2.2.3 The motor shall not require the use of oil or grease for lubrication.

2.2.4 A properly sized one-piece jacketed power cable, from pump motor to motor lead breakout box, suitable for leachate service shall be provided.

2.3 CARRIAGE

2.3.1 The leachate extraction pump shall be supplied as a sealed unit and mounted on a stainless steel wheeled carriage/sled shroud for use in a 18" HDPE riser pipe with a constant inside diameter set at a 3 to 1 slope. No plastic or HDPE housings will be accepted.

2.3.2 The wheeled carriage shall provide a low center of gravity and all wheels shall remain in contact with the inner contour of the riser pipe. The wheels shall be constructed of E-TEC non-corrosive material with self-lubricating qualities and must be able to travel over welding beads typically found in riser pipe fabrications. A stainless steel inlet suction screen shall be provided to prevent debris from entering the inlet of the pump.

2.3.3 The level sensor shall be mounted at the center bottom of the wheeled carriage and be removable or replaceable without disassembly of the pump assembly or removal of the pump from the wheeled carriage. A continuous length of sensor cable shall be field trimmed to proper length at time of installation by the installing contractor.

2.3.4 A safety/retrieval cable assembly with properly sized cable clips, snap hooks, and anchor eye bolt constructed of 300 series stainless steel shall be provided.

2.4 DISCHARGE PIPE

2.4.1 Discharge pipe, between the pump and top of the riser, shall be 2" HDPE pipe. HDPE to be field welded.

2.5 DISCHARGE PIPE FITTINGS

2.5.1 All pipe fittings shall be 300 series stainless steel. Fittings shall consist of two (2) 2" stainless steel HDPE transitions, and one (1) 2" stainless steel camlock/adapter assembly for each pumping system.

2.6 DISCHARGE EXIT FITTINGS

2.6.1 A right angle slip fit taper lock discharge adapter with Viton o-ring seal shall be provided, that will allow quick connection/disconnection of the pump discharge hose from the riser exit, and allow the pump to be removed without interference of the stationary fittings. The exit arrangement shall thread through the riser pipe as to provide gas tight connection.

2.6.2 All fittings shall be 300 series stainless steel construction.

2.6.3 The exit connections will penetrate the riser wall approximately 6" from the top of the riser pipe by means of 300 series stainless steel, male threaded exit nipple.

3.0 CONTROLS

3.1 CONTROL PANEL

3.1.1 The system controller shall be manufactured by the same manufacturer as the pumps and built and listed under UL508 and UL698a for use in Class I, II, and III, Division 1, Hazardous Locations. The system controller shall have an attached detailed UL label and an attached detailed SCCR label in compliance with Article 409 of the 2005 National electric Code (NFPA 70). The system controller will comply with all necessary requirements dictated by the installed panel's location and service.

3.1.2 The control panel shall provide level indication, pump operation, and motor protection.

3.1.3 Control panel shall consist of a NEMA 4X, 14 gauge, 304 stainless steel enclosure with lockable outer cover. The door shall open a minimum of 180 degrees and be provided with a view window. Mount control panel with the bottom of the control panel 3 feet to 0 inches above concrete pad or finished grade.

3.1.4 The inner door shall be polished aluminum dead front mounted on a continuous aircraft type hinge. The dead front door shall contain cutouts for the mounted equipment and operator accessible equipment and provide protection of personnel from live internal wiring.

3.1.5 Operator accessible components mounted on the dead front door shall include following:

a. H-O-A Switch

b. Pump Run Indicating Light (Green)

c. Motor Overload Indicating Light (Red)

d. Digital Level Indicator

e. Elapsed Time Meter

3.1.6 The back plate shall consist of 12-gauge sheet steel and finished with a primer coat and two coats of baked on enamel. All hardware mounted to the sub-panel shall be accomplished with machine thread tapped holes. Sheet metal screws are not acceptable. All devices shall be permanently identified with phenolic engraved nameplates.

3.1.7 The panel power distribution shall include all necessary components and shall be completely wired with standard copper conductors. Control wiring shall be properly sized and installed in Panduit type wiring trays.

3.1.8 Individual fuses be provided from main power, each pump, and control circuit.

3.1.9 The motor contactor shall be sized to the pump horsepower. A capacitor shall be used to start the motor and a relay shall be used to remove the start winding from the circuit when the motor reaches operating speed.

3.1.10 A fused type control transformer shall be used to provide the 120 VAC control circuit.

3.1.11 Individual surge arrestors shall be provided in the control panel for incoming supply power, control circuit and the 4 to 20 mA instrument circuit.

3.1.12 A thermostat-controlled heater shall be provided to control the inside temperature and alleviate the buildup of condensation in the control panel.

3.1.13 A corrosion inhibitor shall be provided within the enclosure.

3.1.14 A top mounted, 40 watt, weatherproof/shatterproof red visual high-level alarm beacon shall be provided.

3.2 BREAK OUT JUNCTION BOXES

3.2.1 Separate and individual breakout boxes, for power leads and level sensor leads shall be provided for installation near the top of the riser pipe.

3.2.2 Breakout boxes to be NEMA 4X fiberglass and include proper sized cord restraint and ½" conduit gastight seal fitting.

3.3 LEVEL CONTROL

3.3.1 A panel mounted digital readout display controller with a non-fading digital display shall be provided to indicate level in the sump. The pump "ON",

"OFF"' and "HIGH LEVEL" selections shall be user friendly and capable of being set/adjusted using buttons on the front of the meter.

The controller shall be capable of accepting a 4 to 20 mA signal from a submersible transducer, and provide a level indication range of 0 to 138.6 inches of liquid. When a high level condition occurs, the display will flash until the condition is corrected.

3.3.2 A submersible transducer with adequate sized cable shall be provided. The transducer shall be constructed of 300 series stainless steel and shall be mounted to the front center axis of the wheeled pump carriage. Transducer shall provide a 4 to 20 mA output signal and come equipped with built-in surge protection. Static accuracy shall be no less than 1.0%.

3.3.3 A permanent aneroid bellows type breather device shall be mounted in the level breakout box to prevent moisture in the vent tube.

3.3.4 A panel mounted intrinsically safe barrier shall be provided for the transducer signal.

3.4 REMOTE TANK LOCKOUT (If Required)

3.4.1 A storage tank high level lockout/tank float shall be provided to temporarily prevent the leachate extraction pump from pumping from the landfill if a high level condition exists in the storage or equalization tank. The lockout will automatically reset once the tank liquid level drops and adequate storage capacity is available. Signal from the pump system controller to the tank shall be intrinsically safe.

3.4.2 A NEMA 4X fiberglass breakout box, with proper sized cord restraint and ½" conduit gastight seal fitting, for tank float lead shall be provided for installation at the tank.

4.0 FLOW MONITORING

4.1 FLOW METER SYSTEM

4.1.1 An IFM Magnetic Flow Meter System shall be provided to register liquid flow rate and to record total flow and shall operate from a 115V, 60H, single-phases power supply.

4.1.2 Sensor shall be linear with a repeatability factor of +/-0.5% and will incorporate the following features:

a. Electromagnetic sensor with no moving parts, sized for specified flow rate range to maximized system accuracy.

b. Digital transmitter.

c. Line size shall be 2".

d. Flow velocity shall be between 1.5 and 27 fps.

4.1.3 Meter shall be a bi-directional, eight digit flow rate display and eight digit flow totalizer display.

4.1.4 Meter shall be front panel programmable for ease of calibration to line size and change in units.

4.1.5 Meter shall include a non-volatile memory to retain programmed settings and totalized flow when power is disconnected.

4.1.6 Meter shall include a two line, eight digit, 1/3 inch high display showing flow rate and totalized flow.

4.1.7 Meter programming shall be menu driven to simplify setup.

4.1.8 Meter shall maintain full function in temperatures between 0 degrees and 55 degrees C, with ability to extend low temperature range with optional meter heater.

4.1.8 Flow meter shall be scalable in a variety of engineering units.

5.0 MISCELLANEOUS ITEMS

5.1 CABLE FITTINGS

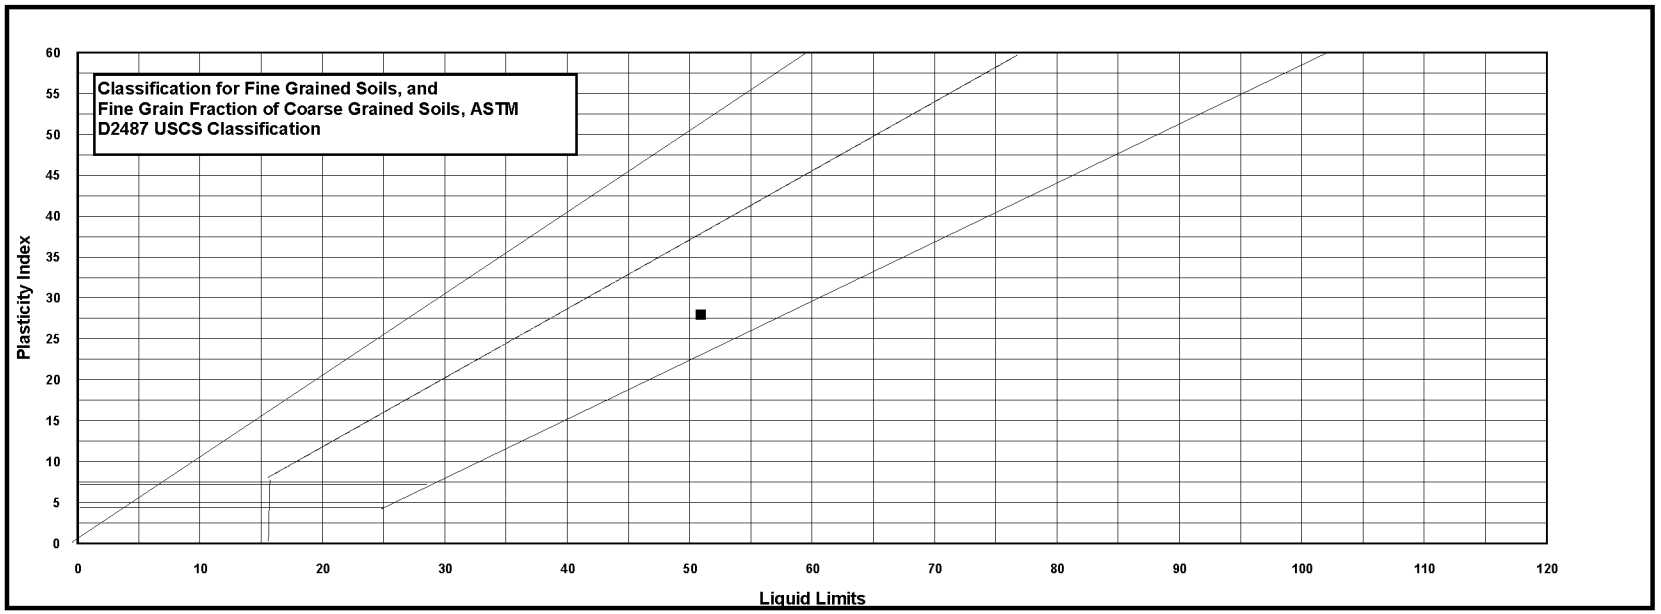
5.1.1 Non-metallic, compression type threaded cable exit fittings, properly sized for the pump power cable and level sensor cable shall be provided for installation in the riser.

6.0 EXECUTION

6.1 START-UP

6.1.1 The manufacturer of the system shall provide field installation assistance, start-up and training of the system. The scheduling of this service shall be coordinated with the Contractor to insure the riser is in place and the control

panel is connected to power, prior to the arrival of the manufacturers certified technician.



6.1.2 A start-up report shall be provided to include all component settings and motor operating characteristics. The report shall certify the system has been properly installed, or note any found deficiencies that need to be corrected.

6.1.3 At the time of start-up, the contractor shall coordinate with the manufacturer and the owner to provide operator training and troubleshooting.

6.1.4 A complete operations and maintenance manual with index for the system shall be provided. Information shall include manufacturers contact list, equipment list, equipment cut sheets, parts breakdowns, control panel information and a troubleshooting guide.

Subject: Award Recommendation for the City of Brownsville Landfill Cell 6 Construction
Bid Number: 296-26-EPW-IFB

Dear Mrs. Valdez,

SCS Engineers (SCS) is pleased to provide our evaluation of the four construction bids received and opened on August 4, 2026, for the above-referenced project.

The City of Brownsville (the City) received bids from 4X Construction Group LLC, A&I Custom Manufacturing LLC, Blue World Construction, Inc., and Longhorn Excavators, Inc.

SCS reviewed the submitted bid schedules for completeness, mathematical accuracy, and general conformance with the bidding requirements. The bid amounts received were as follows:

4X Construction Group, LLC bid $3,733,577.47
A&I Custom Manufacturing, LLC bid $4,198,016.40
Blue World Construction bid $4,464,675.00
Longhorn Excavators, Inc. bid $3,936,690.00

Our review identified no mathematical discrepancies, irregularities, or concerns within any of the submitted bid schedules. Furthermore, an evaluation of the individual bid items and unit prices did not reveal any unusual pricing trends or items that would warrant further clarification.

Based on our review, 4X Construction Group, LLC submitted the lowest responsive bid for the project in the amount of $3,733,577.47. Accordingly, SCS recommends that the City award the contract for the above-referenced project to 4X Construction Group, LLC.

Please feel free to contact us should you have any questions or require additional information regarding our review and recommendation.

Sincerely,

J. Roy Murray, P.E.

NOTES:

1. THE CURRENT LANDFILL PERMIT SHALL GOVERN OVER ANY DISCREPANCY BETWEEN THESE PLANS AND THE PERMIT.
2. THESE PLANS ARE ISSUED FOR INTERIM REVIEW PURPOSES.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR TIMELY UNLOADING OF LINER MATERIALS. UNLOADING OF MATERIAL SHALL BE CONDUCTED ONLY UNDER THE SUPERVISION OF THE OWNERS REPRESENTATIVE. A LAY DOWN AREA WILL NEED TO BE GRADED/CONSTRUCTED TO ALLOW FOR PROPER STORAGE OF LINER MATERIALS. THIS AREA SHALL HAVE MINIMUM DIMESNIONS OF 100'x100' AND SHALL BE ELVATED, COMPACTED AND GRADED TO PREVENT PONDING OF WATER IN THE LINER STORAGE AREA. THE GCL AND GEOMEMBRANE SHALL NOT BE STACKED OVER 3 ROLLS HIGH. STOCKPILES SHALL BE NEAT AND ORDERLY. PUSHING OR PULLING ROLLS OFF THE TRUCK SHALL NOT BE ACCEPTABLE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE TO THE MATERIAL DURING UNLOADING AND STORAGE. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING THE LAYDOWN AREA UNTIL GEOSYNTHETICS WORK IS COMPLETE.

DRAWING NO. 4

LEGEND:

- EXISTING 10' CONTOUR
- EXISTING 2' CONTOUR
- PROPOSED 5' CONTOUR
- PROPOSED 1' CONTOUR
- OUTER EDGE OF ANCHOR TRENCH (LIMIT OF GEOSYNTHETIC LINER PAY)
- PROPOSED PERIMETER ROAD
- X109 COHESIVE SOIL BARRIER LAYER POINT
- PROPOSED DRAINAGE DITCH
- EXISTING LINER TIE-IN

NOTES:

1. GRID SYSTEM IS BASED ON STATE PLANE COORDINATES PROVIDED BY AMBIOTEC CIVIL ENGINEERING GROUP, SEPTEMBER 2001.
2. TOPOGRAPHY PROVIDED BY I.F. ROOKS & ASSOCIATES, DATED NOVEMBER 13, 2025.
3. SEE SHEET 6 FOR CELL 6 TOP OF COMPACTED COHESIVE SOIL BARRIER LAYER POINTS.
4. THE GRADES ON THIS SHEET REFLECT THE BOTTOM OF THE 12" COMPACTED COHESIVE SOIL BARRIER LAYER.
5. THE GRADES FOR THE INVERT OF THE LEACHATE COLLECTION TRENCH ARE NOT SHOWN. FOR LEACHATE COLLECTION TRENCH, LOWER ELEVATION BY 2.0 FEET.

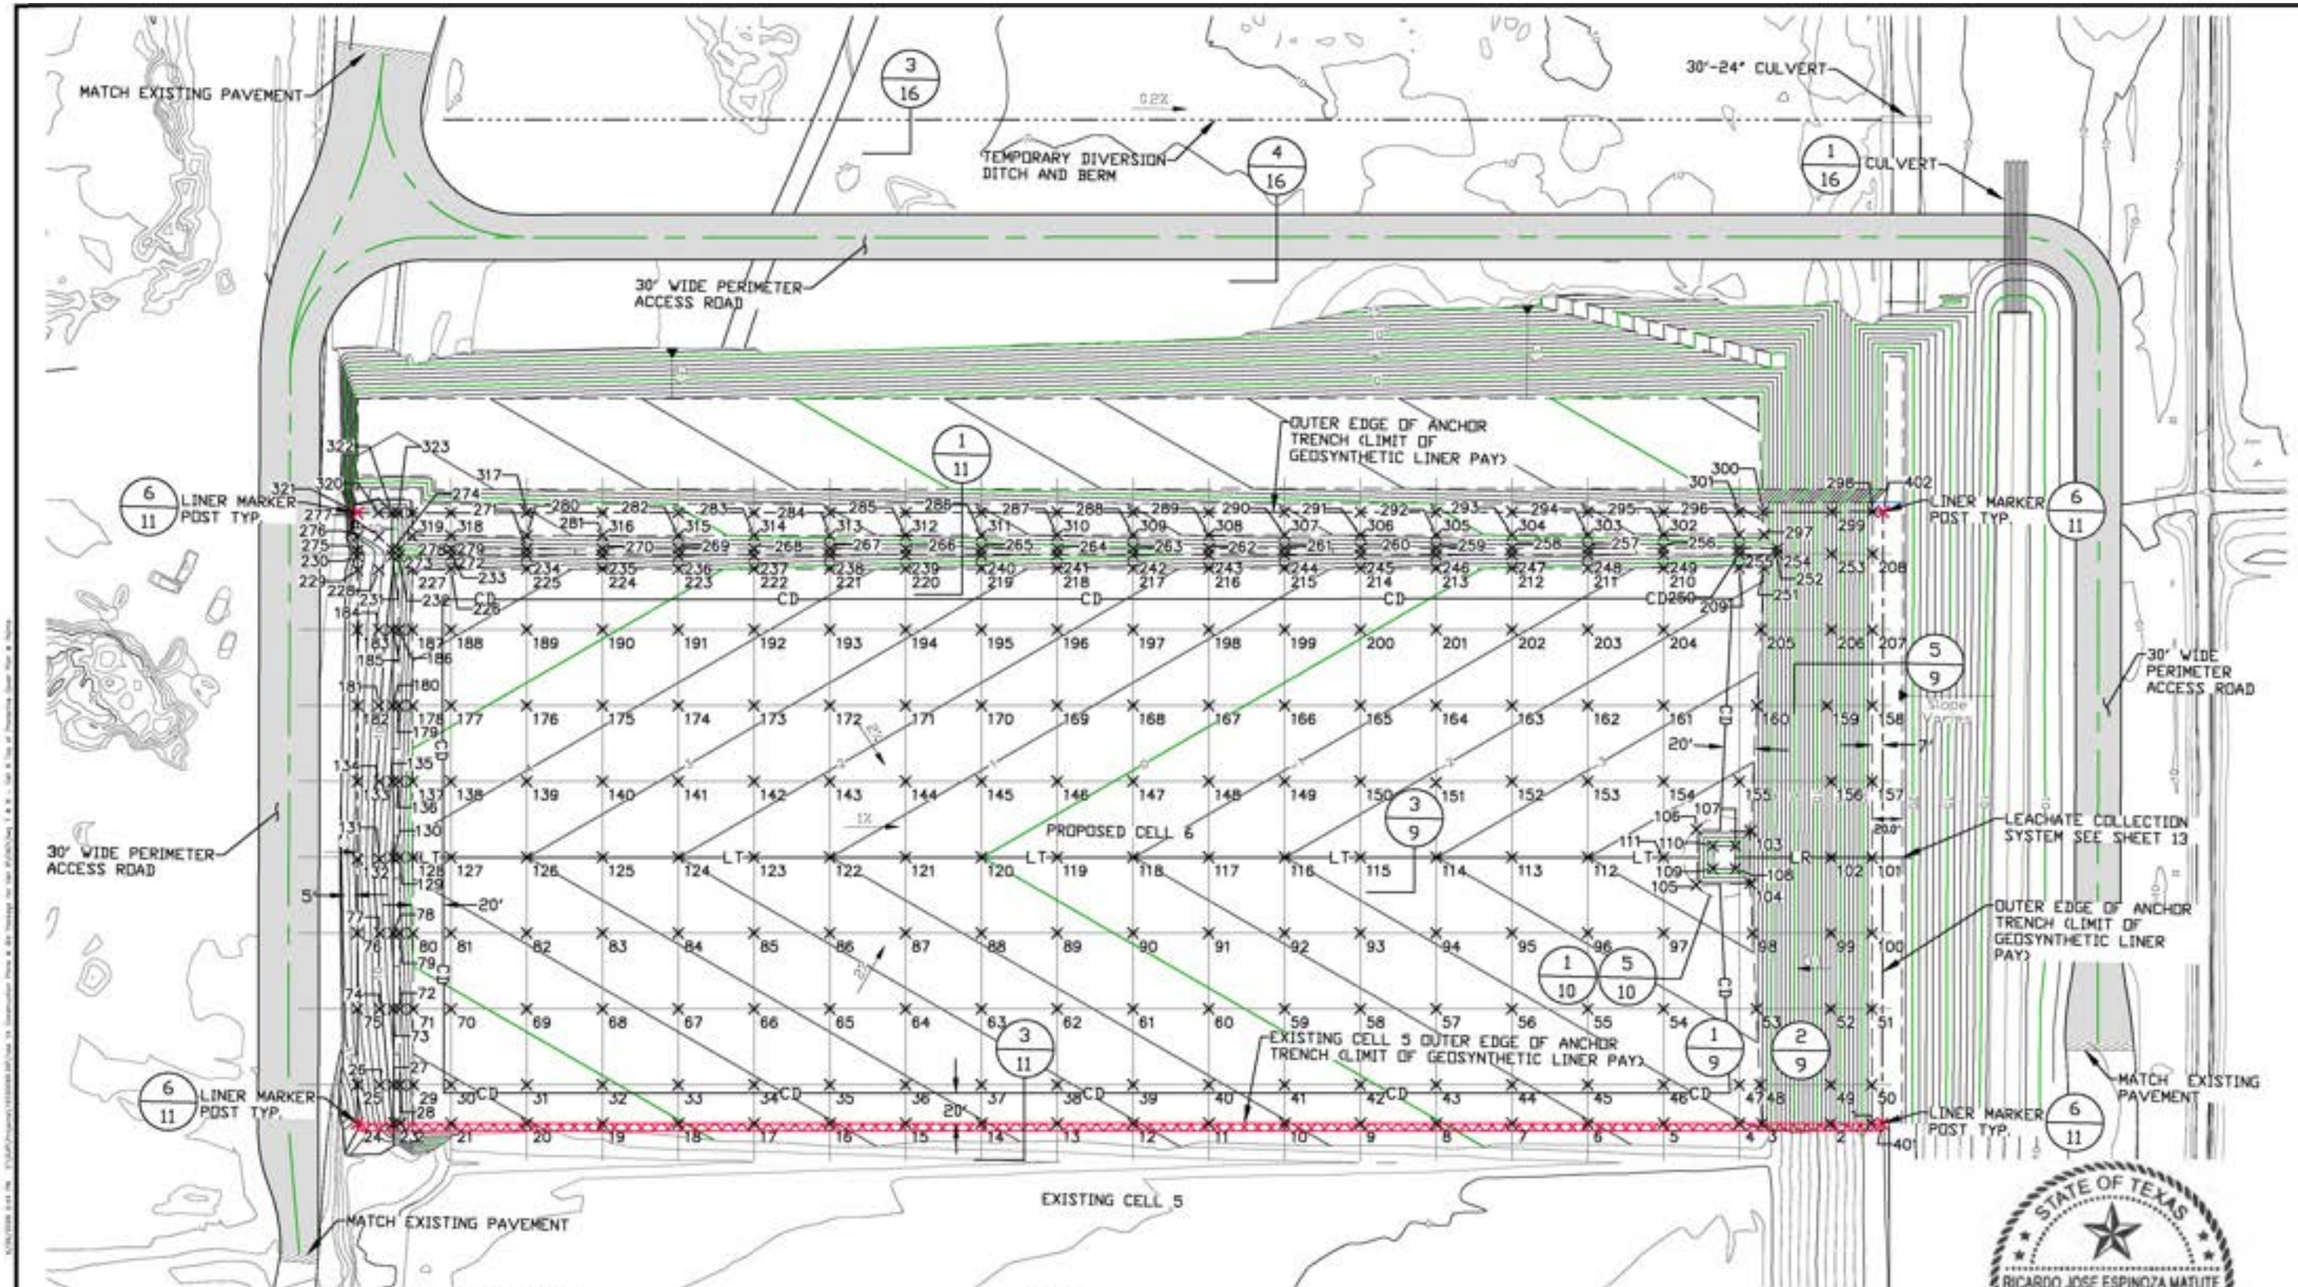
DRAWING TITLE: CELL 6 TOP OF COMPACTED COHESIVE SOIL BARRIER LAYER POINTS

PROJECT TITLE: CELL 6 CONSTRUCTION PLANS

CLIENT: CITY OF BROWNSVILLE MUNICIPAL LANDFILL
9000 F.M. 802
BROWNSVILLE, TEXAS 78521



SCS ENGINEERS
STEARNS, CONRAD AND SCHMIDT
CONSULTING ENGINEERS
10801 BRAE FOREST, SUITE 200, HOUSTON, TX 77077
PH (281) 293-8400 FAX NO. (281) 293-7976

CADD FILE:

DATE: 06/2026

SCALE: AS SHOWN

DRAWING NO: 6

LEGEND:

- EXISTING 10' CONTOUR
- EXISTING 2' CONTOUR
- PROPOSED 5' CONTOUR
- PROPOSED 1' CONTOUR
- OUTER EDGE OF ANCHOR TRENCH (LIMIT OF GEOSYNTHETIC LINER PAY)
- PROPOSED PERIMETER ROAD
- X109 TOP OF PROTECTIVE COVER POINT
- LT LEACHATE TRENCH, DETAIL 3/9
- LR LEACHATE RISER, DETAIL 4/10
- CD CHIMNEY DRAIN, DETAIL 4/9
- LINER MARKER POST, DETAIL 4/11
- PROPOSED DRAINAGE DITCH
- EXISTING LINER TIE-IN

NOTES:

1. GRID SYSTEM IS BASED ON STATE PLANE COORDINATES PROVIDED BY AMBIOTEC CIVIL ENGINEERING GROUP, SEPTEMBER 2001.
2. TOPOGRAPHY PROVIDED BY I.F. ROOKS & ASSOCIATES, DATED NOVEMBER 13, 2025.
3. SEE SHEET 8 FOR CELL 6 TOP OF PROTECTIVE COVER POINTS.
4. THE GRADES ON THIS SHEET REFLECT THE TOP OF THE 24" PROTECTIVE COVER LAYER.
5. THE GRADES FOR THE COVER OF THE LEACHATE COLLECTION TRENCH ARE NOT SHOWN. FOR LEACHATE COLLECTION TRENCH COVER, RAISE ELEVATION BY 1.5 FEET.

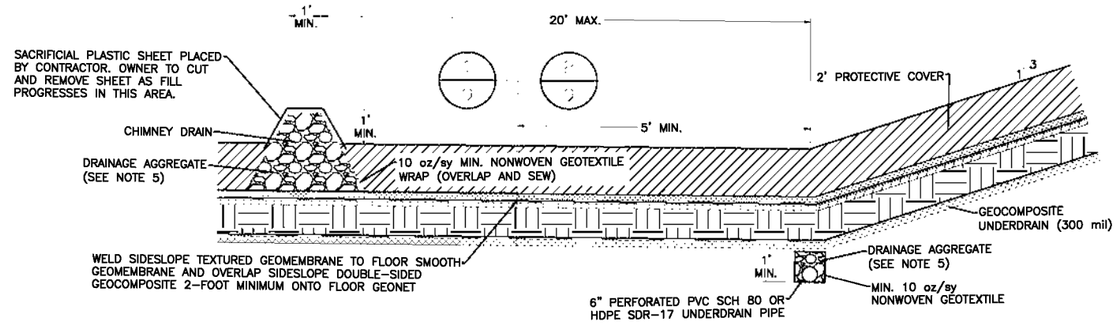
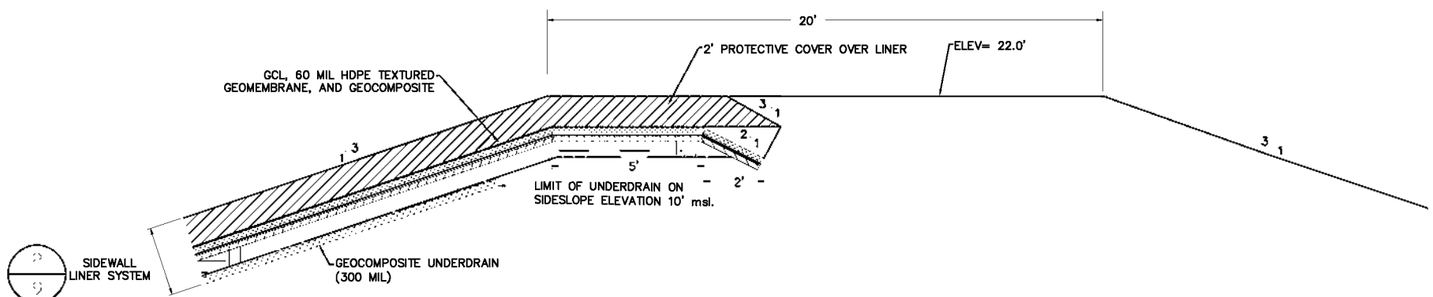
FLOOR LINER SYSTEM
NOT TO SCALE



SIDEWALL LINER SYSTEM
NOT TO SCALE

NOTES:



1. THE 1 FOOT COMPACTED COHESIVE SOIL BARRIER LAYER SHALL BE COMPACTED TO AT LEAST 95% OF STANDARD PROCTOR MAXIMUM DRY DENSITY, AND MOISTURE CONDITIONED TO WITHIN -1 TO +3 PERCENT OF OPTIMUM MOISTURE CONTENT.
2. CONTRACTOR SHALL PROVIDE ADEQUATE ANCHORAGE OF GEOSYNTHETIC DURING CONSTRUCTION TO WITHSTAND UPLIFT FROM WIND AND OPERATIONAL FUNCTIONS.
3. ~~A 1.5 FOOT THICK LAYER OF TIRE CHIPS (DURING PLACEMENT) MAY REPLACE THE TOP FOOT OF SOIL PROTECTIVE COVER ON FLOOR AREAS ONLY (NOT ON SLOPES).~~
4. A (10 oz/sy NONWOVEN, 300 mil) GEOCOMPOSITE UNDERDRAIN UP TO ELEVATION 10 FT. MSL.
5. DRAINAGE AGGREGATE SHALL CONSIST OF NATURAL STONE OR GRAVEL, SUBROUND TO SUBANGULAR, FREE OF SHALE, CLAY, ORGANICS, FOREIGN OBJECTS FRIABLE MATERIAL AND DEBRIS AND NOT DERIVED FROM LIMESTONE OR DOLOMITE ORIGIN. DRAINAGE AGGREGATE SHALL HAVE A CALCIUM CARBONATE CONTENT OF LESS THAN 15 PERCENT (J&S TEST S-105-89 MODIFIED USING PH-4 ACID, OR EQUIVALENT). THE DRAINAGE AGGREGATE SHALL HAVE LESS THAN 5 PERCENT PASSING THE 3/8 INCH SIEVE AND MAXIMUM PARTICLE SIZE OF 3 INCHES.

NOTES:

1. DRAINAGE AGGREGATE SHALL CONSIST OF NATURAL STONE OR GRAVEL, SUBROUND TO SUBANGULAR, FREE OF SHALE, CLAY, ORGANICS, FOREIGN OBJECTS, FRIABLE MATERIAL AND DEBRIS AND NOT DERIVED FROM LIMESTONE OR DOLOMITE ORIGIN. DRAINAGE AGGREGATE SHALL HAVE A CALCIUM CARBONATE CONTENT OF LESS THAN 15 PERCENT (J&S TEST S-105-89 MODIFIED USING PH-4 ACID, OR EQUIVALENT). THE DRAINAGE AGGREGATE SHALL HAVE LESS THAN 5 PERCENT PASSING THE 3/8 INCH SIEVE AND MAXIMUM PARTICLE SIZE OF 3 INCHES.
2. BEDDING MATERIAL SHALL HAVE MINIMUM SOIL MODULES OF 3,000 PSI AS REQUIRED TO ACHIEVE ACCEPTABLE PIPE STABILITY UNDER FULL DESIGN LOAD.

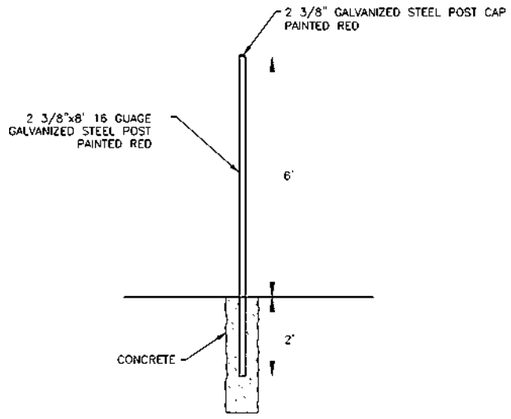
NOTES:

1. THE 1 FOOT COMPACTED COHESIVE SOIL BARRIER LAYER SHALL BE COMPACTED TO AT LEAST 95% OF STANDARD PROCTOR MAXIMUM DRY DENSITY, AND MOISTURE CONDITIONED TO WITHIN -1 TO +3 PERCENT OF OPTIMUM MOISTURE CONTENT.
2. CONTRACTOR SHALL PROVIDE ADEQUATE ANCHORAGE OF GEOSYNTHETIC DURING CONSTRUCTION TO WITHSTAND UPLIFT FROM WIND AND OPERATIONAL FUNCTIONS.
3. A (10 oz/sy NONWOVEN, 300 mil) GEOCOMPOSITE UNDERDRAIN TO ELEVATION 10 FT. MSL.
4. TIE-IN:
   - 4.1. GEOCOMPOSITE UNDERDRAIN TO OVERLAP EXISTING GEOCOMPOSITE UNDERDRAIN 2 FT. MIN.
   - 4.2. 1 FT. COMPACTED COHESIVE SOIL BARRIER LAYER TO OVERLAP EXISTING 1 FT. COMPACTED COHESIVE SOIL BARRIER LAYER 5 FT. MIN. AT A 5 HORIZONTAL TO 1 VERTICAL SLOPE.
   - 4.3. GCL TO OVERLAP EXISTING GCL 3 FT. MIN.
   - 4.4. CONTRACTOR TO EXTRUSION WELD 60 mil SMOOTH HDPE GEOMEMBRANE TO EXISTING 60 mil SMOOTH HDPE GEOMEMBRANE.
   - 4.5. 10 oz/sy NON-WOVEN GEOTEXTILE AND HDPE GEONET (200 mil) TO OVERLAP EXISTING 10 oz/SY NON-WOVEN GEOTEXTILE AND HDPE GEONET (200 mil) 2 FT. MIN.
   - 4.6. ALL GEOCOMPOSITE SEAMS SHALL HAVE A MINIMUM 4 INCH OVERLAP OF THE GEONETS AND BE FASTENED WITH PLASTIC FASTENERS. THE FASTENERS SHALL BE INSTALLED EVERY 12 INCHES 5 FEET ALONG THE ROLL LENGTH, EVERY 12 INCHES ALONG THE ROLL WIDTH, EVERY 12 INCHES IN THE ANCHOR TRENCH, AND 12 INCHES ALONG THE TIE-IN.
   - 4.7. ALL DAMAGED GEOSYNTHETIC MATERIAL MUST BE REPAIRED AND OR PATCHED IN ACCORDANCE WITH THE SLQCP SO THAT NO GAPS ARE LEFT IN THE LINER SYSTEM.



NOTE:

1. TRANSDUCER AND CLEANOUT RISER NOT SHOWN FOR CLARITY. END COMPLETION SIMILAR TO THAT OF SUMP RISER.
2. UNDERDRAIN GEOCOMPOSITE SHALL EXTEND A MINIMUM 1 FOOT ABOVE SEASON HIGH GROUNDWATER LEVEL

SECTION 01100
SUMMARY OF WORK

1.0 GENERAL

1.1 WORK SPECIFIED

The major items of work to be performed by the CONTRACTOR involved in the Cell 6 Construction at the City of Brownsville Landfill for the City of Brownsville Department of Public Works shall include the following:

1.1.1 Site inspection and acceptance of pre-construction conditions at the site.

1.1.2 Site preparation, general excavation, waste excavation, structural fill, subgrade preparation and construction of intercell and perimeter berms, underdrain system installation, compacted cohesive soil barrier layer, geosynthetic liner system, leachate collection system, protective cover placement, and chimney drain installation.

1.1.3 Furnishing and installing leachate force main and manhole.

1.1.4 Construction of perimeter drainage channel and perimeter road.

1.1.5 Construction of drainage culverts.

1.1.6 Backfilling and re-grading of all areas disturbed during construction.

1.1.7 Cleanup of work site, including stockpile, borrow and material laydown areas.

1.2 MATERIAL

1.2.1 Soil material to be used as select/structural fill, compacted cohesive soil barrier layer and protective cover will be available from the cell excavation. Excavated materials shall be stockpiled as shown on the construction plans. A soil borrow area is located within a 1-mile off-road haul distance from the proposed work area. This borrow area is to be used if additional soil is required and the stockpile is exhausted. The borrow area is located southeast of the work area. The materials are in-situ and some segregation or removal of layers may be needed to locate the required material. Light clearing may also be required. Any disturbed areas shall be re-shaped and graded to drain prior to project completion.

1.2.2 The CONTRACTOR will provide temporary and permanent stormwater control necessary for construction and as shown on the contract documents or directed by the ENGINEER.

1.2.3 The CONTRACTOR shall supply all dewatering system components, as specified for this project. Components shall include (but not limited to) collection pipes and trenches, pumps, valves, fittings, outflow structures, and other items shown on the construction plans.

1.2.4 The CONTRACTOR shall supply all geosynthetic materials, as specified for this project. Materials shall include (but not limited to) geosynthetic clay liner (GCL), 60 mil HDPE smooth geomembrane, 60 mil HDPE double-sided textured geomembrane, 10-oz/sy nonwoven geotextile fabric, HDPE geonet and geonet/geotextile geocomposite, 10-oz/sy nonwoven geotextile for rip-rap pad and rock check dam (if applicable), and 4-oz/sy nonwoven geotextile for perimeter access road.

1.2.5 The CONTRACTOR shall supply all force main components, as specified for this project. Components shall include (but not limited to) leachate force main collection pipes and trenches, chimney drains, sumps, pumps, polyethylene manhole, valves, fittings, flow meters, and other items shown on the construction plans.

1.2.6 The CONTRACTOR shall supply all components for the culvert work, as specified for this project. Components shall include (but not limited to) earthwork grading, pipe, rip-rap pad, and other items shown on the construction plans.

1.2.7 The CONTRACTOR shall supply 4'' to 7'' stone or crushed concrete for stone check dam (if applicable), 6''to 12'' stone for stone rip-rap pad, and manufacturer recommended stone for gabion mat (if applicable).

1.2.8 The CONTRACTOR shall supply all post, steel wire, and fabric for silt fence.

1.2.9 The CONTRACTOR shall supply all materials to construct the perimeter access road.

1.2.10 The CONTRACTOR shall supply all electrical components as indicated on the construction drawings. The City will provide for the electrical connections to the electrical components.

1.2.11 The CONTRACTOR shall supply all equipment and manpower to construct the proposed project shown on the drawings.

1.2.12 All other materials necessary for performance of the work must be provided by the CONTRACTOR.

1.3 SPECIAL REQUIREMENTS

1.3.1 The CONTRACTOR is responsible for protecting all existing structures at the landfill during construction. The CONTRACTOR is responsible for protecting all existing landfill gas components during construction. Any damage to these components shall be repaired or replaced at the CONTRACTOR's expenses. The CONTRACTOR shall maintain all dike and berm elevations at all times if used as a haul route. The CONTRACTOR is responsible for protecting areas downgradient of the area under construction from erosion caused by runoff from the area under construction.

1.3.2 The CONTRACTOR and/or Subcontractors must abide by the CONTRACTOR's HEALTH AND SAFETY PLAN. The CONTRACTOR'S Health and Safety Plan shall meet all local, state, federal, and OSHA requirements. This document shall be submitted to the ENGINEER for review prior to the start of work.

1.3.3 The CONTRACTOR and/or Subcontractors must abide by the City of Brownsville Municipal Landfill Permit Amendment, Cameron County, Texas, Permit No. 1273-A, dated November 2002, Part III, Attachment 10, Soil and Liner Quality Control plan included therein.

1.3.4 The CONTRACTOR shall be responsible to pump all groundwater and storm water from the construction area, including the cell excavation and from the dewatering system.

1.3.5 The CONTRACTOR shall be responsible to provide any water required for his work, including water required for any structural fill moisture requirements. Water is available on-site.

1.3.6 The CONTRACTOR is responsible to control rain and storm run-off water in the construction area.

1.3.7 The CONTRACTOR shall not interfere with the daily operations of the landfill. Any work that may affect the haul road or other areas of the landfill must have prior OWNER'S approval or be completed during closed hours at the landfill.

1.4 WORK OUTSIDE THE CONSTRUCTION AREA

1.4.1 The CONTRACTOR shall be responsible for restoring disturbed areas outside the construction area by providing positive grading and backfill with common fill as necessary. Six (6) inches of topsoil and grassing shall be required over any previously existing grassed area disturbed by the CONTRACTOR.

1.5 DRAWINGS

The following drawings are provided along with these Specifications for use by the CONTRACTORS/Subcontractors.

SECTION 01150
MEASUREMENT AND PAYMENT BASIS

1.0 GENERAL

1.1 SUMMARY

1.1.1 Under the price specified to be paid for each item, the Contractor shall furnish all labor, materials, equipment and all operations necessary to complete all work specified or shown. All supervision, overhead and profit items, protection and precautions and all other costs incidental to the construction work, and as specified, are included.

1.1.2 A complete working job shall be produced whether or not any particular wording or direction is omitted or not clearly stated.

1.1.3 Measurement and Payment shall be by the ENGINEER and/or OWNER, except where noted elsewhere in the specifications. Measurement for payment for lump sum items shall be on the basis of percentage of work complete.

1.1.4 Each price stated in the Bid shall constitute full compensation for each item of work completed.

1.1.5 The price for those items which involve excavation shall include compensation for disposal of surplus excavated material.

1.1.6 All final payments shall be based upon either construction drawing **plan view** quantities or by **in-place survey** measured procedures. All plan view quantities (square foot, square yard, linear foot, etc.) are measured in plan (planar) quantities. Limits of pay for excavation are shown on plans.

1.1.7 The CONTRACTOR shall submit the monthly invoice to both the OWNER and ENGINEER for review. The ENGINEER shall make his/her recommendation to the OWNER in a timely fashion. Only one invoice per month shall be permitted by the CONTRACTOR.

1.2 ITEM DESCRIPTIONS

1.2.1 Item No. 101, Mobilization/Demobilization:

1. Under the **lump sum** price, the CONTRACTOR shall perform all work necessary to mobilize and demobilize all equipment, materials and labor to and from the site, including office trailer and utilities. **Cost not to exceed 5 percent of the total bid price.**

2. Measurement and payment for this item shall be sixty (60) percent after mobilization and forty (40) percent after demobilization. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.2 Item No.102, Payment of Bonds:

1. Under this lump sum price, the CONTRACTOR will acquire a performance and a payment bond for the total amount of the project.

2. Payment for this item shall be the total **lump sum** amount based on an invoice from the Bond Company **for the cost of the bond without mark up**.

1.2.3 Item No. 103, Construction Surveying:

1. Under the bid for this item, the CONTRACTOR shall furnish all construction surveying required to complete the project. The CONTRACTOR shall be responsible to construct project to the lines and grades provided for on the construction drawings.

2. Measurement and payment for this item shall be **lump sum** and shall be paid monthly based on percentage of work completed as approved by ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.4 Item No. 104, Construction Dewatering:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform project dewatering on a seven-day per week, 24-hour per day basis throughout the duration of the project. This includes the west temporary diversion ditch, berm and culvert, as well as the Cell 6 temporary stormwater diversion dike. This shall include rain and runoff water from adjacent areas and groundwater, including water collected from the dewatering system. For water collected in the dewatering system, the CONTRACTOR may use the pump specified for the dewatering system or a temporary pump. The CONTRACTOR shall be required to have all standing water removed from the affected work areas within 6 hours of the completion of the rain event. Pump water discharge locations shall be approved in advance by the owner.

2. Measurement and payment for this item shall be **lump sum** and shall be paid monthly based on percentage of work completed as approved by ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.5 Item No. 105, Clearing and Grubbing:

1. Under the bid for this item, the CONTRACTOR shall be responsible for clearing and grubbing the areas designated on the construction plans. The contractor shall be responsible for clearing trees, bushes, and undergrowth within the "Area to be Cleared and Grubbed" as indicated on the construction drawings. Trees and bushes shall be stockpiled at a location designated by the OWNER.

2. Measurement and payment for this item shall be **per acre** basis. Payment for this item shall be made based on the percentage of the total acreage cleared and grubbed. Final payment will be based on survey quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.6 Item No. 106, General Excavation:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform excavation for the construction of Cell 6 to the lines and grades shown on the construction drawings between 0 and plus one-tenth foot of subgrade elevations and limits and stockpiling material as shown in the construction drawings. This item also includes any excavation for the construction of the perimeter drainage channel. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be per **cubic yard**. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.7 Item No. 107, 12" Compacted Cohesive Soil Barrier Layer:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and material required to construct a minimum 1.0-foot thick and maximum 1.1-foot thickness (as measured vertically) on sideslopes of the disposal cell of onsite soil layer of compacted cohesive soil barrier to provide a stable base for the installation of the geosynthetics in the disposal cell. The cohesive soil barrier shall be placed, processed and compacted in two 6-inch lifts to 95% MDD at moisture content of -1 to +3 of optimum moisture content. The subgrade surface shall be proof-rolled to identify any soft or wet areas prior to geosynthetic installation. The subgrade surface shall be smooth drum rolled to produce a smooth, even surface for the geomembrane. This work includes, but is not limited to, transportation of the soil material from on-site stockpiles to the area of

placement, placement, moisture condition, compaction, and preparation of the subgrade for liner of the soil material.

2. Measurement and payment for this item shall be per **square yard** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.8 Item No. 108, Embankment Fill:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform filling, compacting, grading and contouring along the berm and slope construction as shown on the construction drawings, all to between 0 and plus one-tenth foot of the subgrade elevations and limits. The CONTRACTOR is responsible for compacting materials in accordance with the site's approved permit.

2. Measurement and payment for this item shall be per **cubic yard** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.9 Item No. 109, Protective Cover:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to place a minimum 2.0-foot thick and maximum 2.2-foot thick (as measured vertically) protective soil cover layer on floors and sideslopes of disposal cell from onsite over the geosynthetic liner, except south of intercell berm, where area shall be filled to prevent stormwater from ponding, to the lines and grades shown on the construction drawings. This work includes, but is not limited to, transportation of the soil material from on-site stockpiles to the area of placement, and placement of the soil material.

2. Measurement and payment for this item shall be per **cubic yard** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.10 Item No. 110, Chimney Drain:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the stone, geotextiles, sacrificial plastic

sheet and any other materials necessary to install the chimney drains at the locations shown on the drawings. The CONTRACTOR is responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be per **linear foot** of placed material. Monthly payments shall be based on percentage of work completed and approved by the ENGINEER. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.11 Item No. 112, Underdrain Trench:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 6" underdrain pipe, stone, geotextiles, and any other materials necessary to install the underdrain trenches and pipe. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of underdrain trench. Monthly payment shall be based on percent completed and approved by the ENGINEER. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.12 Item No. 112, Underdrain Collection Sump:

1. Under the unit bid for this item, the CONTRACTOR shall furnish and install the underdrain collection sump components, including pipes and fittings, stone, bedding materials and geotextiles and any other materials to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum basis** and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.13 Item No. 113, Leachate Collection Trench:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the stone, geotextiles, sacrificial plastic sheet and any other materials necessary to construct the leachate collection

trench with chimney drains. This does not include the 6" leachate collection and 18" riser pipes. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of leachate collection trench. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.14 Item No. 114, Leachate Collection Sump:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor equipment and materials to install the leachate collection sump components, including pipes and fittings, stone, bedding materials and geotextiles and any other materials to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum basis** and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.15 Item No. 115, 14" Underdrain Riser:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 14" underdrain riser pipe (perforated and non-perforated), all fittings, compacted soil, and any other materials necessary to install the underdrain riser pipe in the underdrain sump of Cell 6. The riser pipe will have a blind flange at the top end. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of underdrain riser pipe. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.16 Item No. 116, 18" Leachate Sump Riser:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 18" diameter leachate riser pipe

(perforated and non-perforated), flatstock, all fittings, bedding material, and any other materials necessary to install the leachate riser pipe in the leachate collection sump of Cell 6. This does not include the 6" leachate collection pipe. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of leachate riser pipe. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.17 Item No. 117, 6" Leachate Collection Pipe:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the leachate collection pipes (perforated and non-perforated), including all fittings, and any other materials necessary to install 6" the leachate collection pipe. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of leachate collection and riser pipe. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.18 Item No. 118, 4"x8" Dual Contained Force Main:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the dual walled force main pipe (4" diameter carrier pipe within an 8" diameter containment pipe) including trench excavation, filling, granular bedding material, compacting soil, warning marker tape, for construction of the force main trench to the lines and grades shown on the construction drawings. The force main shall be installed as shown on the drawings and as specified. The Contractor shall provide all materials necessary to install the force main. The force main piping shall be HDPE SDR 11 for the 4" carrier pipe and SDR 17 for the 8" containment pipe. Both the carrier and containment pipe shall be tested for leaks prior to final acceptance. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of installed leachate dual wall force main. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar)

quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.19 Item No. 119, Leachate Manhole:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to perform excavation, backfilling with select soil and compacting soil for the installation of one (1) HDPE SDR 32.5 72" manhole. Included in this bid item is excavation to the depth specified on the drawings for the manhole; provide and installation of sand bedding material; backfilling and compacting select material; concrete pads and wing walls; and other materials and appurtenances necessary to install the force main manhole. Also include all interior manhole piping which is to include ball valves, check valves, air release valves, and in-line IFM magnetic flow meter, as shown on the construction drawings. The manhole requires complete interior piping, including the connection piping between the leachate collection riser to the manhole as indicated on the construction drawings. Flow meter shall have cable routed to a digitizer to be installed within the control panels and be visible from the outside of the panel box. All material, including pipe supports, shall be suited for leachate liquid. All manholes shall be watertight. Shop drawings shall be submitted to the ENGINEER for approval. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall be paid monthly based on percentage of work completed as approved by ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.20 Item No. 120, Underdrain Dewatering Discharge System:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor equipment and materials to install the underdrain dewatering discharge system, including the 3" discharge piping, fittings, ball valves, check valves, pump, panel box, electrical hook up, concrete anchor block, bollards, concrete discharge pad, rip-rap, and all other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER.

A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.21 Item No. 121, Leachate Pump and Control Panel:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the leachate pump controls and all components, including 2" discharge piping, panel box, pipes, fittings, electrical hook up and any other materials and services to complete this item. The CONTRACTOR shall furnish and install the leachate pump and all components, including pipes, fittings, and any other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.22 Item No. 122, Cell 5 Liner Tie-in:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to locate, excavate and prepare the tie-in to the existing Cell 5 liner system to allow the liner installation CONTRACTOR for placement of liner material. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of liner tie-in. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.23 Item No. 123, Cell Marker Post:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 8' cell marker post and all components, including 6' of above ground steel post, painted red, 2' of below ground steel post, encased in concrete, and any other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be on a per **each** basis. Final payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.24 Item No. 124, Perimeter Access Road:

1. Under the bid for this item, the CONTRACTOR shall be responsible for the supply of materials and the construction of an all-weather perimeter road. The road shall be constructed as indicated in the construction drawings. The subgrade material shall be compacted and proof rolled. A 4 oz./s.y. non-woven geotextile, shall be placed on the subgrade. An 8-inch flexible base caliche (TxDOT Specification No. 247 A and/or D, Grade 1) shall be constructed over the compacted subgrade and non-woven geotextile material. The road shall be constructed as indicated in the construction drawings.

2. Measurement and payment for this item shall be on a square yard basis. Final payment will be based on survey, plan (planar) quantities. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.25 Item No. 125, Removing Existing Culvert Crossing:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to remove and dispose in the active landfill face the existing culvert crossing, rip-rap pads and any other materials and services to complete this item. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.26 Item No. 126, Perimeter Access Road Culvert Crossing:

1. Under the unit bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to install the 4-24" corrugated metal pipe culvert crossing, rip-rap pads and any other materials and services to complete this item. The pipe shall be corrugated (2-2/3" x 1/2"), 12 gage, galvanized metal. The rip-rap pads for the perimeter access road culvert crossing shall be composed of 18" thick common, dry, stone rip-rap with diameter of 6" to 12" and underdrain with a 10 oz./sy. non-woven geotextile fabric. The CONTRACTOR shall be responsible to provide

materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **lump sum** basis and shall include all items necessary to complete this portion of the project. Payment shall be made upon completion as approved by the ENGINEER. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.27 Item No. 127, North Perimeter Ditch Re-grading:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials to re-grade (excavate and fill as necessary) the north perimeter ditch. Limits of regrading extend from the perimeter access road culvert crossing to the cell 4 culvert crossing. The CONTRACTOR to re-grade to allow for drainage. The CONTRACTOR shall be responsible to provide materials and workmanship in accordance with the project specifications and the construction drawings.

2. Measurement and payment for this item shall be **linear foot** of ditch re-grading. Monthly payment shall be based on percent completed. Final payment shall be based on surveyed, plan (planar) quantity. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.25 Item No. 201, Geosynthetic Clay Liner:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install a geosynthetic clay liner **($k \leq 1 \times 10^{-9}$)** within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The CONTRACTOR shall be responsible to completely protect the stored material from rain (using heavy plastic sheet or tarps) until it is installed. CONTRACTOR shall pay particular attention to the material specifications for this item found in the SLQCP. The GCL may not be standard run material by all manufacturers. **The specifications provided in the SLQCP must be met.** The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install GCL over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan area** with geosynthetic clay liner installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in the unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.26 Item No. 202, 60-mil Smooth HDPE Geomembrane Liner:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install smooth 60-mil High Density Polyethylene Geomembrane within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install smooth HDPE geomembrane over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan area** with 60-mil smooth HDPE liner installed does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.27 Item No. 203, 60-mil Double-sided Textured HDPE Geomembrane Liner:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install 60-mil High Density Polyethylene Geomembrane – Double-Sided Textured within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install textured HDPE geomembrane over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan area** with 60-mil High Density Polyethylene Geomembrane – Double-Sided Textured liner installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.28 Item No. 204, 200-mil Geonet:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install 200-mil High Density Polyethylene geonet within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install geonet over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan area** with 200-mil Geonet installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.29 Item No. 205, Cell Geotextile:

1. Under the unit price bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install non-woven geotextile fabric (10 oz./sy.) within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install geotextile over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan area** with non-woven geotextile fabric installed in the cell and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.30 Item No. 206, Leachate Collection Double-Sided Geocomposite:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install leachate collection geocomposite drainage layer, consisting of a **200-mil high density polyethylene geonet drainage layer with 10 oz./sy. non-woven geotextile fabric** heat bonded to both sides installed within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The leachate collection geocomposite shall be **GSE FabriNet, or Agru 200-mil Geocomposite with 10 oz./sy. nonwoven geotextile or equivalent**. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install geocomposite over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan area** with Leachate Collection Double-Sided Geocomposite installed as the leachate collection layer and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

1.2.31 Item No. 207, Underdrain Double-Sided Geocomposite:

1. Under the bid for this item, the CONTRACTOR shall furnish all labor, equipment and materials required to install geocomposite drainage layer, consisting of a **300-mil bi-planar high density polyethylene geonet drainage layer with 10 oz./sy. nonwoven geotextile fabric** heat bonded to both sides installed within the limits of the cell as shown on the construction drawings. Price shall include all manufacturers' quality control testing and reporting requirements specified in the SLQCP. The underdrain geocomposite shall be **GSE FabriNet, or Agru 300-mil Geocomposite with 10 oz./sy. nonwoven geotextile or equivalent**. The item shall include any overages, scraps or additional materials that the CONTRACTOR will need to install geocomposite over the areas requiring lining.

2. Measurement and payment for this item shall be **per square foot of surveyed plan area** with Underdrain Double-Sided Geocomposite liner installed and does not include square footage for overlap, anchor trench, or excess material. These costs shall be included in unit cost for plan (planar) area. A ten-percent (10%) retainer will be applied to each of the monthly invoices.

- END OF SECTION -

SECTION 01155
ON-SITE HEALTH AND SAFETY REQUIREMENTS

1.0 GENERAL

1.1 SUMMARY

1.1.1. Construction activities at landfill sites may place CONTRACTOR'S personnel, personnel of other Contractors hired by OWNER to perform Work at site, and public in potentially hazardous situations due to exposure to landfill refuse, leachate, and gases.

1.1.2. CONTRACTOR is responsible for implementation and enforcement of safe Work practices including, but not limited to, personnel exposure to refuse; leachate and gases; operation of equipment; and safety of public during progress of Work.

1.2 QUALITY ASSURANCE

1.2.1. Regulatory Requirements:

1. CONTRACTOR shall plan for and ensure personnel comply with basic provisions of OSHA Safety and Health Standards (29 CFR 1910 and especially 29 CFR 1910.120, March 6, 1990), and General Construction Standards (29 CFR 1926) as appropriate.

2. Comply with applicable laws and regulations of any public body having jurisdiction for safety of persons or property.

3. Comply with the Landfill's site safety program.

1.3 OPERATIONS AND EQUIPMENT SAFETY

1.3.1. CONTRACTOR is responsible for initiating, maintaining, and supervising safety precautions and programs in connection with Work. CONTRACTOR shall take necessary precautions for safety of employees on Project site and other persons and organizations that may be affected by Project.

1.3.2. CONTRACTOR'S duties and responsibilities for safety in connection with Work shall continue until such time as Work is complete and ENGINEER has issued notice to CONTRACTOR that Work is complete.

1.4 HEALTH AND SAFETY

1.4.1. CONTRACTOR is responsible for implementation and enforcement of health and safety requirements, taking necessary precautions and providing protection for following.

1. Personnel working on or visiting Project site, irrespective of employer.

2. Work and materials or equipment to be incorporated in Work area on or off-site.

3. Other property at or adjacent to Project site.

4. Public exposed to job related operations or potential release of toxic or hazardous materials.

1.4.2. CONTRACTOR shall prepare site-specific health and safety plan (HASP). CONTRACTOR is solely responsible for adequacy of HASP's preparation, monitoring, management, and enforcement.

1.5 SUBMITTALS

1.5.1 Contractor shall make available to the OWNER and/or ENGINEER a copy of the HASP. A copy of the document shall be maintained at the site at all times.

- END OF SECTION -

SECTION 01160
SURVEY CONTROL

1.0 GENERAL

1.1 LINES, GRADES AND LEVELS

1.1.1 Coordination and responsibility of construction surveying work on-site shall be that of the CONTRACTOR'S Superintendent.

1.1.2 The OWNER will provide a survey base line and benchmarks for construction purposes as required for the Limit of Work. The CONTRACTOR shall safeguard all survey points and benchmarks. Should any of these points be destroyed, the replacement cost will be borne by the CONTRACTOR. The CONTRACTOR shall assume the entire expense of rectifying work improperly constructed due to failure to maintain and protect such established survey points and benchmarks.

1.1.3 Construction benchmarks, layout, and record drawing data shall be based on the benchmark used to generate the existing topographic information as described in the referenced notes on the design drawings.

1.1.4 The CONTRACTOR shall be responsible for the layout of all grid coordinate locations, lines, grades, and levels necessary for the proper construction of the work called for on the Drawings and in the Specifications, at no additional cost to the OWNER.

1.1.5 The OWNER shall employ a Registered Land Surveyor, registered in the State of Texas, to provide all surveys necessary for contractual payment quantities and for record drawing submission.

1.1.6 The CONTRACTOR shall be responsible for the costs of any additional CQA re-survey work performed due to the CONTRACTOR'S work not being correct or complete at the time the CQA surveyor performs his work.

- END OF SECTION -

SECTION 01200
PROJECT COORDINATION AND MEETINGS

1.0 GENERAL

1.1 PRE-CONSTRUCTION CONFERENCE

1.1.1 The CONTRACTOR shall not commence work until a pre-construction conference with representatives of the CONTRACTOR, ENGINEER and OWNER is conducted. This pre-construction conference will be arranged by the OWNER and is intended to establish lines of communication between the parties involved. The time and place of the pre-construction conference will be determined at the time of bid award.

1.2 PROGRESS MEETINGS

1.2.1 Progress meetings will be held to review the work, to review the construction schedule, to discuss upcoming work, to make necessary adjustments to schedules, to discuss submittals, changes and substitutions, and to discuss any and all other items affecting the Project. The ENGINEER and/or OWNER will preside at progress meetings, the frequency of which will be determined during the preconstruction conference and may be altered as the project proceeds.

1.2.2 Attendance at the progress meetings will include the CONTRACTOR, OWNER, ENGINEER, major subcontractors and suppliers as appropriate to discuss agenda topics for each meeting.

1.2.3 Meeting minutes will be taken and distributed by the ENGINEER.

1.3 JOB SITE ADMINISTRATION

1.3.1 The CONTRACTOR shall keep a competent and authorized supervisory representative at each work location during all working hours who shall act as the agent of the CONTRACTOR.

1.3.2 The supervisory representative shall be a competent English-speaking superintendent capable of reading and thoroughly understanding the Contract Plans and Specifications, with full authority to fulfill the CONTRACTOR'S duties and responsibilities on the job. If, in the opinion of the OWNER, the supervisory representative or any of his successors proves incompetent, not conscientious, or not industrious, then the CONTRACTOR shall replace the supervisory representative upon written request by the OWNER.

1.3.3 The CONTRACTOR shall only employ competent individuals on the job. Whenever the ENGINEER or the OWNER notifies the CONTRACTOR in writing that any individual on the job, whether employed by the CONTRACTOR

or any Subcontractors, is not adhering to the Safety and Health Rules or imperils the safety of others or is incompetent, unfaithful, disorderly, or otherwise unsatisfactory, such individual shall be discharged from the contract work and shall not be employed on it, except with the written consent of the OWNER.

- END OF SECTION -

SECTION 01330
SUBMITTAL PROCEDURES

1.0 GENERAL

1.1 PROGRESS REPORTS, RECORDS AND DATA

1.1.1 The CONTRACTOR shall submit to the OWNER such schedules of quantities and costs, progress schedules, certified payrolls, reports, estimates, records and other data as the OWNER may request concerning work performed or to be performed under this Contract.

1.2 SHOP DRAWINGS, SAMPLES, AND PROJECT DATA

1.2.1 The CONTRACTOR shall submit for review by the ENGINEER ***four*** (4) copies of all shop drawings, construction schedules and such other information as may be required by the prosecution of the work in the shop and in the field as required by the Drawings, Specifications or the ENGINEER and/or OWNER'S instructions. Deviations from the Drawings and Specifications shall be called to the attention of the ENGINEER and/or OWNER at the time of the first submission of shop drawings and other drawings for consideration. The ENGINEER and/or OWNER'S review of any shop drawings shall not release the CONTRACTOR from responsibility for such deviations. Shop drawings shall be submitted with such promptness as to cause no delay in the work or the work of any other CONTRACTOR.

1.2.2 When submitted for the ENGINEER review, all shop drawings shall bear the CONTRACTOR'S certification that they have been reviewed, checked and approved, that they are in harmony with the requirements of the project and with the provisions of the Contract Documents, and that all field measurements and construction criteria, materials, catalog numbers and similar data have been verified. The CONTRACTOR shall also certify that the work represented by the shop drawings is recommended by the CONTRACTOR and that the CONTRACTOR'S guarantee will fully apply.

1.2.3 Checking of submittals is only for general conformance with the design concept of the project and general compliance with the information given in the Contract Documents. Any action shown is subject to the requirements of the Contract Documents. The CONTRACTOR is responsible for the fabrication processes and techniques of construction coordination of work, and the satisfactory performance of the work.

1.2.4 The CONTRACTOR may only proceed with the fabrication and construction for items on returned submittals marked **"NO EXCEPTION TAKEN"** or **"MAKE CORRECTIONS AS NOTED."** Submittals must be resubmitted if marked

"REJECTED," "REVISE AND RESUBMIT," or **"SUBMIT SPECIFIED ITEM."**

1.3 The following items are required to be submitted by the CONTRACTOR to the ENGINEER prior to the ordering, fabricating or installation.

Geosynthetic clay liner
Geomembrane liner (smooth and textured)
Geocomposite
Geotextile
HDPE Pipe (Dual and single wall)
HDPE Manholes
Flexible Base
Concrete mix design
Rebar
Valves and Fittings
Flow Meter and Digitizer
Leachate Pump
Dewatering Pump
24" Culverts
Stone Rip-Rap
Gabion Mat
Flap Gates
Nuts, Bolts, and Washers
XR-5 Geomembrane
Post, steel wire and fabric for silt fence
40-mil HDPE Geomembrane
Geotextile
Stone or crushed concrete
Erosion Control Mat
Seed

1.4 CONSTRUCTION PROGRESS SCHEDULE

1.4.1 The CONTRACTOR shall, within 15 days after award of contract, provide and submit to the ENGINEER for review, the planned construction schedule for the work. This schedule may be in bar chart format. The schedule shall indicate, at a minimum, the start and finish dates for the major work tasks, show any overlapping work and indicate the overall project completion. Any planned non-work days shall also be indicated.

1.5 OPERATIONS AND MAINTENANCE MANUALS

1.5.1 All operations and maintenance manuals are considered part of the shop drawing submittal for any and all piece(s) of equipment, and the CONTRACTOR is responsible for providing ***four*** (4) such manuals to the ENGINEER as part of this contract.

1.6 SEDIMENTATION AND EROSION CONTROL

1.6.1 The CONTRACTOR'S plan for silt and erosion control shall be submitted to the ENGINEER and/or OWNER for review and authorization to proceed prior to implementation.

- END OF SECTION -

SECTION 01400
QUALITY REQUIREMENTS

1.0 GENERAL

1.1 GENERAL QUALITY CONTROL

1.1.1 The CONTRACTOR shall maintain quality control over the suppliers, manufacturers, products, services, site conditions, and workmanship to produce work of specified quality.

1.1.2 The CONTRACTOR shall comply with industry standards except when more restrictive tolerances or specified requirements indicate more rigid standards or more precise workmanship.

1.1.3 All testing locations for in-place testing shall be as determined by the ENGINEER. The ENGINEER reserves the right to require the CONTRACTOR to retest areas where samples locations were not selected by the ENGINEER, at no cost to the OWNER or ENGINEER.

1.2 OBSERVATION AND TESTING

1.2.1 The ENGINEER shall provide Construction Quality Assurance (CQA) services. These services will be performed in accordance with the requirements of governing authorities, and with specified standards, to establish whether the work is in accordance with the Contract Plans, Specifications, the site's permit, Erosion and Sediment Control Plan, Soil and Liner Quality Control Plan, and TCEQ requirements. Reports of the results of soil and material testing indicating compliance or non-compliance with specified standards and with the Contract Documents shall be submitted to the OWNER for review.

1.2.2 The CONTRACTOR shall cooperate with the ENGINEER and/or OWNER during all testing and sampling and furnish tools, equipment, samples of materials, and assistance as requested.

1.2.3 The CONTRACTOR shall allow the ENGINEER and/or OWNER ample time and opportunity for testing of materials used in the work. The CONTRACTOR shall advise the ENGINEER promptly upon placing orders for materials so that arrangements may be made, if desired, for inspection before shipment from the place of manufacture. The CONTRACTOR shall allow proper time for inspecting and testing of materials and workmanship. The CONTRACTOR must anticipate that possible delays in the execution of this work due to the necessity of materials being inspected and accepted for use.

1.2.4 The work shall at all times be subject to the observation of the OWNER and/or ENGINEER. Observation or non-observation by the OWNER and/or the

ENGINEER shall not relieve the CONTRACTOR from the contractual obligation to furnish work and material as required and properly complete the work in accordance with these Contract Documents. If the OWNER or the ENGINEER considers the work not properly accomplished, all or any part of the materials or equipment incorporated in it may be condemned or rejected. If any material, equipment, or work is condemned or rejected by the OWNER or ENGINEER, the CONTRACTOR shall bear all expenses for removal and proper replacement of such material, equipment, or work replacing any work done by others that is adversely affected by removal and proper replacement of improper work done by the CONTRACTOR shall be borne by the CONTRACTOR.

1.2.5 The approved SLQCP shall govern in any dispute between the contract documents as determined by the ENGINEER. A copy of this document is included in this bid package.

1.2.6 The CONTRACTOR shall be responsible for all costs associated with any CQA re-testing due to the failure of the CONTRACTOR's work.

1.3 SUBSTANDARD WORK OR MATERIALS

1.3.1 Any defective or substandard work or materials furnished by the CONTRACTOR which is discovered before the final acceptance of the work, as established by the ENGINEER and/or OWNER'S Certificate of Substantial Completion, or during the subsequent guarantee period, shall be removed immediately by the CONTRACTOR even if initially overlooked by the ENGINEER and/or OWNER and was recommended for payment. Any equipment or materials condemned or rejected by the ENGINEER and/or OWNER shall be tagged as such and shall be immediately removed from the site by the CONTRACTOR. Satisfactory work or materials shall be substituted by the CONTRACTOR for that rejected.

1.3.2 The ENGINEER and/or OWNER may order tests on substandard or damaged work, equipment, or materials to determine the required functional capability for possible acceptance, if there is no other reason for rejection. The cost of such test shall be borne by the CONTRACTOR and the nature, extent, and supervision of the tests will be as determined by the ENGINEER and/or OWNER. If the results of the tests indicate that the required functional capability of the work, equipment, or material is not impaired, consistent with the final general appearance of same, the work, equipment, or materials may be deemed acceptable. If the results of such tests reveal that the required functional capability of the questionable work or materials has been impaired, then such work or materials shall be deemed substandard and shall be replaced by the CONTRACTOR. The CONTRACTOR may elect to replace the substandard work or material in lieu of performing the tests.

1.4 WATERTIGHTNESS

1.4.1 All structures, pipes, and equipment which are to contain fluids shall be watertight under all operating conditions for which they are intended. The CONTRACTOR shall furnish all labor, materials and equipment and do all work required by the ENGINEER and/or OWNER to make all such parts of the work watertight, or to replace them if in the opinion of the ENGINEER and/or OWNER any leakage is excessive. All such parts of the work filled with water for testing watertightness shall be left filled as ordered by the ENGINEER and/or OWNER.

1.5 CARE OF WATERCOURSES

1.5.1 The CONTRACTOR shall maintain the flow in all watercourses, including open channels or in pipes, in all sewers and other pipes interfered with in the line of work and convey the flow to a suitable point of discharge so as not to flow upon the work or create a nuisance. In the discharge of water removed from the excavations by pumping or by gravity, similar precautions shall be observed. Any accumulation of silt caused by the pumping operation shall be removed by the CONTRACTOR at the end of the projects, or more frequent as necessary to maintain flow.

- END OF SECTION -

SECTION 01420
REFERENCES

1.0 GENERAL

The following Definitions are applicable to the specification:

1.1 The word "OWNER" shall mean City of Brownsville, or a duly authorized representative.

1.2 The word "CONTRACTOR" shall mean the successfully bidded contracting firm, or a duly authorized representative.

1.3 The word "ENGINEER" shall mean SCS Engineers (SCS) or a duly authorized OWNER's representative during the construction period. They shall have authority to reject the Work whenever such rejection may be necessary in their reasonable opinion to insure the proper execution of the Contract. The ENGINEER shall also provide Construction Quality Assurance and Construction Management services.

1.4 "SUBCONTRACTOR" shall mean any individual, firm or corporation supplying work and/or material at the Site pursuant to a separate agreement with the CONTRACTOR.

1.5 "Site" shall mean the specific area adjacent to and including the area upon which the Work is to be performed.

1.6 "Work" shall mean all activities of the CONTRACTOR undertaken at the Site pursuant to the Contract Documents relating to the Agreement.

1.7 "Project" shall mean the total construction of which the Work performed under the Contract Documents may be the whole or a part.

1.8 "Superintendent" shall be that person or persons appointed as the CONTRACTOR'S agent at the Site.

1.9 "Geotechnical Firm" shall mean any company capable of performing laboratory and field soils testing as required. Said Geotechnical Firm shall be under the supervision of a Registered Professional Engineer licensed in the State of Texas, and under contract with the ENGINEER.

1.10 "Contract Documents" shall mean all drawings, plans, specifications, and addendum prepared by SCS and made available for purchase during the bidding phase of this project.

- END OF SECTION -

SECTION 01500
TEMPORARY FACILITIES AND CONTROLS

1.0 GENERAL

1.1 EQUIPMENT

1.1.1 The CONTRACTOR shall furnish labor and equipment which will be efficient, appropriate and large enough to secure a satisfactory quality of work and at a rate of progress which will ensure the completion of the work within the time stipulated in the Agreement. If at any time such labor and equipment appears to the ENGINEER and/or OWNER to be inefficient, inappropriate or insufficient for securing the quality of work required or for producing the rate of progress aforesaid, the CONTRACTOR may be ordered to increase the efficiency, change the character or increase the labor and equipment, and the CONTRACTOR shall conform to such order. Failure of the ENGINEER and/or OWNER to give such order shall in no way relieve the CONTRACTOR of his obligations to secure the quality of the work and the rate of progress required.

1.2 PRIVATE LAND

1.2.1 The CONTRACTOR shall not enter or occupy private land outside of easements except by permission of the landowner.

1.3 PIPE LOCATIONS

1.3.1 Pipelines shall be located substantially as indicated on the Drawings, but the ENGINEER and/or OWNER reserves the right to make such modifications in locations as may be found desirable to avoid interference with existing structures or for other reasons. Where fittings are noted on the Drawings, such notation is for the CONTRACTOR'S convenience and is not a release from laying and jointing different or additional items where required.

1.4 HAULING, HANDLING, AND STORAGE OF MATERIALS

1.4.1 The CONTRACTOR shall, at his own expense, handle and haul all furnished materials and shall remove any surplus materials at the completion of the work. The CONTRACTOR shall provide suitable and adequate storage for equipment and materials that are liable to injury and shall be responsible for any loss or damage to any equipment or materials by theft, breakage, or otherwise. The CONTRACTOR shall be responsible for all damages to the work under construction during its progress and until final completion and acceptance even though partial payments have been made under the Contract.

1.5 OPEN EXCAVATIONS

1.5.1 All open excavations shall be adequately safeguarded by providing temporary barricades, caution signs, lights and other means to prevent accidents to persons, and damage to property. The CONTRACTOR shall, at own expense, provide suitable and safe means for completely covering all open excavations and for accommodating travel when work is not in progress. The length of open trench will be controlled by the particular surrounding conditions but shall always be confined to the limits prescribed by the ENGINEER and/or OWNER. If the excavation becomes a hazard, or if it excessively restricts traffic at any point, then special construction procedures shall be taken, such as limiting the length of trench.

1.6 TEST PITS

1.6.1 Test pits for the purpose of locating bedding material, select or structural fill in advance of the construction shall be at the discretion of the CONTRACTOR. Test pits shall be excavated and backfilled by the CONTRACTOR as directed by the ENGINEER and/or OWNER. Test pits shall be backfilled immediately after their purpose has been satisfied and the surface restored and maintained in a manner satisfactory to the ENGINEER and/or OWNER.

1.7 PROTECTION AND RELOCATION OF EXISTING STRUCTURES AND UTILITIES

1.7.1 The CONTRACTOR shall assume full responsibility for the protection of all buildings, structures, and utilities, public or private, including signs, services to buildings, gas pipes, water pipes, hydrants, sewers, drains, and electric and telephone cables, whether or not they are shown on the Drawings. The CONTRACTOR shall carefully support and protect all such structures and utilities from injury of any kind. The CONTRACTOR is required to comply with all provisions of General Laws Chapter 353 entitled "Excavations-Public Ways-Notice Requirements" otherwise known as Dig Safe. Any damage resulting from the CONTRACTOR'S operations shall be repaired at the CONTRACTOR'S own expense.

1.7.2 Assistance will be given the CONTRACTOR in determining the location of existing services. The CONTRACTOR, however, shall bear full responsibility for obtaining all locations of underground structures and utilities (including existing water services, drains, and sewers). Services to buildings shall be maintained and all costs or charges resulting from damage thereto shall be paid by the CONTRACTOR.

1.7.3 Protection and temporary removal and replacement of existing utilities and structures as described in this section shall be a part of the work under the Contract and all costs in connection therewith shall be included in the unit prices established in the Contract.

1.7.4 If, in the opinion of the ENGINEER and/or OWNER, permanent relocation of a

utility owned by the OWNER that is not shown on the plans or in the specifications is required, OWNER may direct the CONTRACTOR in writing to perform the work. Work so ordered will be paid as extra work. If relocation of a privately owned utility is required, the OWNER will notify the utility to perform the work as expeditiously as possible. The CONTRACTOR shall fully cooperate with the OWNER and utility, and shall have no claim for delay due to such relocation. The CONTRACTOR shall notify public utility companies in writing at least 72 hours (excluding Saturdays, Sundays, and legal holidays) before excavating in any public way.

1.7.5 All existing top of berm and dike elevations must be maintained. Should CONTRACTOR use any top of berm or dike to run equipment on, the existing top elevation must be maintained at all times.

1.8 PROTECTION OF CONSTRUCTION AND EQUIPMENT

1.8.1 All newly constructed work shall be carefully protected from damage in any way. All injured portions shall be reconstructed by and at the CONTRACTOR'S own expense.

1.8.2 All structures shall be protected in a manner approved by the ENGINEER and/or OWNER. Should any parts of the structures become heaved, cracked, or otherwise damaged, all such damaged portions of the work shall be completely repaired and made good by and at the CONTRACTOR'S own expense and to the satisfaction of the ENGINEER and/or OWNER.

1.8.3 If, in the final inspection of the work, any defects, faults or omissions are found, the CONTRACTOR shall cause the same to be repaired or removed and replaced by proper materials and workmanship without extra compensation for the materials and labor required. Further, the CONTRACTOR shall be fully responsible for the satisfactory maintenance and repair of the construction and other work undertaken herein for at least the guarantee period described in the Contract Documents.

1.8.4 The CONTRACTOR shall take all necessary precautions to prevent damage to any structure due to water pressure during and after construction and until such structure is accepted and taken over by the OWNER.

1.9 CARE AND PROTECTION OF PROPERTY

1.9.1 The CONTRACTOR shall be responsible for the preservation of all public and private property, and shall use every precaution necessary to prevent damage thereto. If any direct or indirect damage is done to public or private property by or on account of any act, omission, neglect, or misconduct in the execution of the work on the part of the CONTRACTOR, such property shall be restored by and at the Contractor's own expense to a condition similar or equal to that existing

before the damage was done or shall make good the damage in another manner acceptable to the ENGINEER and/or OWNER.

1.9.2 Along the location of this work, all fences, walks, bushes, trees, shrubbery, and other physical features shall be protected and restored in a thoroughly workmanlike manner. Fences and other features removed by the CONTRACTOR shall be replaced in the location indicated on the Drawings as soon as conditions permit. All grass areas beyond the limits of construction that have been damaged by the CONTRACTOR shall be graded and seeded.

1.9.3 Trees close to the work shall be boxed or otherwise protected against injury. The CONTRACTOR shall trim all branches that are liable to damage due to operations, but in no case shall any trees be cut or removed without prior notification of the OWNER. All injuries to bark, trunk, limbs, and roots of trees shall be repaired by dressing, cutting, and painting according to approved methods using only approved tools and materials.

1.9.4 The protection, removal, and replacement of existing physical features along the line of work shall be a part of the work under the Contract, and all costs in connection therewith shall be included in the Bid Proposal.

1.10 REJECTED MATERIALS AND DEFECTIVE WORK

1.10.1 Materials furnished by the CONTRACTOR and condemned by the ENGINEER and/or OWNER as unsuitable or not in conformity with the specifications shall forthwith be removed from the work by the CONTRACTOR, and shall not be made use of elsewhere in the work. Any errors, defects or omissions in the execution of the work or in the materials furnished by the CONTRACTOR, even though they may have been passed or overlooked or have appeared after the completion of the work, discovered at any time before the final payment is made hereunder, shall be forthwith rectified and made good by and at the expense of the CONTRACTOR and in a manner satisfactory to the ENGINEER and/or OWNER. The CONTRACTOR shall reimburse the OWNER for any expenses, losses or damages incurred in consequence of any defect, error, omission or act of the CONTRACTOR or Contractor's employees, as determined by the ENGINEER and/or OWNER, occurring previous to the final payment.

1.11 TEMPORARY UTILITIES

1.11.1 Temporary Light, Communication, and Power: The CONTRACTOR shall at own expense, provide temporary light and power as required for the prosecution and completion of work.

1.11.2 Temporary Water: The CONTRACTOR will provide water at his own expense for drinking purposes and other usage.

1.12 ACCESS TO THE WORK

1.12.1 The CONTRACTOR shall provide sufficient and proper facilities at all times for the inspection of all work under this project in preparation or in progress, by the OWNER, the agents and employees of the OWNER, by authorized representatives of the Texas Commission on Environmental Quality, and by the ENGINEER.

1.12.2 The CONTRACTOR shall furnish the ENGINEER and/or OWNER or its authorized representative and other personnel mentioned above with such facilities and assistance as are necessary to ascertain performance of the work in accordance with the Contract Documents.

1.13 DUST CONTROL

1.13.1 During the progress of the work, the CONTRACTOR shall conduct operations and maintain the activities area, including sweeping and sprinkling of water as necessary, so as to minimize the creation and dispersion of dust. No calcium chloride shall be used.

1.14 POLLUTION CONTROL

1.14.1 The CONTRACTOR shall conduct clean up and disposal operations, as necessary, to comply with state and local ordinances and anti-pollution laws.

1.14.2 Outdoor burning of rubbish and waste material on the site will not be permitted.

1.14.3 Disposal of volatile fluid wastes (such as mineral spirits, oil, gasoline, or paint thinner) in storm or sanitary sewer systems or into streams or waterways is not permitted.

1.15 SEDIMENTATION AND EROSION CONTROL

1.15.1 The CONTRACTOR shall plan and execute all operations, particularly those associated with excavation and backfilling, in such a manner as to minimize the amount of excavated and exposed fill or other foreign material that is washed or otherwise carried into waterways. The water quality of waterways shall not be degraded due to construction activities.

1.15.2 The CONTRACTOR'S plan for siltation control shall be submitted to the ENGINEER and/or OWNER for review and authorization to proceed prior to implementation.

1.15.3 The CONTRACTOR shall furnish and place hay bales and other materials necessary for sedimentation and erosion control.

1.15.4 Hay bales shall consist of hay from acceptable grasses and legumes, free from weeds, reeds, twigs, chaff, debris, other objectionable material or excessive amounts of seeds and grain. It shall be free from rot or mold and the moisture content shall not exceed fifteen (15) percent by weight at the time of weighing.

1.15.5 The hay shall be securely baled with wire of adequate size to allow for possible rusting while in use and to permit rehandling when the bale is in a saturated condition.

1.15.6 It is the intent of these Specifications to prevent the unnecessary occurrence of sedimentation or siltation of adjacent properties. In the event the sedimentation or siltation prevention measures used by the CONTRACTOR prove to be inadequate as determined by the ENGINEER and/or OWNER, the CONTRACTOR shall be required to adjust his operations to the extent necessary to prevent any such sedimentation or siltation or erosion, shall be repaired by the CONTRACTOR at no additional cost to the OWNER.

1.15.7 Existing natural drainage patterns and vegetative cover shall be preserved to the maximum possible extent.

1.15.8 Baled hay shall be placed to form temporary water stops, dams, diversions, dikes, berms and for other uses connected with water pollution control; bales may be left in place or disposed of by the CONTRACTOR as best suits field conditions and requirements, all as directed by the ENGINEER and/or OWNER.

1.15.9 On sloping terrain, hay bales may be used to trap sediment until vegetation has become established. The details of their placement shall be as approved by the ENGINEER and/or OWNER.

1.15.10 Sediment laden water pumped from the trenches or excavations shall not be pumped directly into watercourses. Sedimentation basins of hay bales, check dams, or other means acceptable to the ENGINEER and/or OWNER shall be used for this purpose.

1.15.11 The CONTRACTOR shall include the cost of sedimentation and erosion control work in his total bid price.

- END OF SECTION –

SECTION 01600
PROJECT REQUIREMENTS

1.0 GENERAL

1.1 SUMMARY

1.1.1 Material and Equipment Incorporated into Work:

1. Conform to applicable specifications and standards.

2. Comply with size, make, type, and quality specified or as specifically approved by Shop Drawing, ENGINEER and/or OWNER, or other submittal.

1.1.2 Manufactured and Fabricated Materials and Equipment:

1. Design, fabricate, and assemble in accordance with engineering and shop practices standard with industry.

2. Manufacture like parts of duplicate units to standard sizes and gauges, to be interchangeable.

3. Two or more items of same kind shall be identical, by same manufacturer.

4. Material and equipment shall be suitable for service conditions.

5. Equipment capabilities, sizes, and dimensions shown or specified shall be adhered to, unless variations are specifically approved, in writing, in accordance with General Conditions.

6. Equipment shall be adapted to best economy in power consumption and maintenance. Parts and components shall be proportioned for stresses occurring during continuous or intermittent operation, and for additional stresses occurring during fabrication or installation.

7. Design so working parts readily accessible for inspection and repair, easily duplicated, and replaced.

1.1.3 Do not use material or equipment for purpose other than for which it is designed or specified.

1.2 SUBSTITUTIONS

1.2.1 Substitutions:

1. CONTRACTOR'S requests for changes in equipment and materials from those required by Contract Documents are considered "requests for substitutions" and subject to CONTRACTOR'S representations and review provisions of Contract Documents when one of following conditions are satisfied.

   A. Where request directly related to "or equal" clause or other language of same effect in Specifications.
   B. Where required equipment or material cannot be provided within Contract Time, but not as result of CONTRACTOR'S failure to pursue Work promptly or coordinate various activities properly.
   C. Where required equipment or material cannot be provided in manner compatible with other materials of Work, or cannot be properly coordinated therewith.

2. CONTRACTOR'S Options:

   A. Compatibility of Options: Where more than one choice is available as options for CONTRACTOR'S selection of equipment or material, select option compatible with other equipment and materials already selected.
   B. Standards, Codes, and Regulations: Where compliance with imposed standard, code or regulation is required, select from among products which comply with requirements of those standards, codes, and regulations.
   C. "Or Equal": For material or equipment specified by naming one or more equipment manufacturer and "or equal", CONTRACTOR shall submit request for substitution for equipment or manufacturer not specifically named. Submit in accordance with Article 6 of General Conditions and these General Requirements.
   D. Two or More Manufacturers: For equipment or material specified by naming several manufacturers, select one of manufacturers named. Do not provide or offer to provide unnamed manufacturer or equipment.
   E. Single Manufacturer or Material: For equipment or material specified by naming only one manufacturer or material and followed by words indicating no substitution, there is no option.

1.2.2 Conditions which are not substitutions:

1. Requirements for substitutions do not apply to CONTRACTOR options on materials and equipment provided for in Specifications.

2. Revisions to Contract Documents, where requested by OWNER or

ENGINEER, are "changes" not "substitutions."

3. CONTRACTOR'S determination of and compliance with governing regulations and orders issued by governing authorities do not constitute substitutions or basis for Change Orders, except as provided for in Contract Documents.

1.3 MANUFACTURER'S INSTRUCTIONS

1.3.1 Installation of equipment and materials shall comply with manufacturer's instructions. Obtain and distribute printed copies of such instructions to parties involved in installation, including 2 copies to ENGINEER and/or OWNER.

1. Maintain one set of complete instructions at job site during installation and until completion of Work.

1.3.2 Handle, store, install, connect, clean, condition, and adjust materials and equipment in accordance with manufacturer's written instructions and in conformance with Specifications.

1. If job conditions or specified requirements conflict with manufacturer's instructions, consult ENGINEER and/or OWNER for further instructions.

2. Do not proceed with Work without written instructions.

1.4 TRANSPORTATION AND HANDLING

1.4.1 The CONTRACTOR shall arrange deliveries of materials and equipment in accordance with Construction Progress Schedule, coordinate to avoid conflict with Work and conditions at site.

1. Deliver materials and equipment in undamaged condition, in manufacturer's original containers or packaging, with identifying labels intact and legible.

2. Immediately upon delivery, inspect shipments to ensure compliance with Contract Documents and approved submittals, and ensure products have been protected and are not damaged.

1.4.2 Provide equipment and personnel to handle materials and equipment by methods recommended by manufacturer to prevent soiling or damage to materials or equipment, or packaging.

1.5 STORAGE, PROTECTION, AND MAINTENANCE

1.5.1 On-site storage areas and buildings shall conform to requirements of Section

01500.

1.5.2 OWNER assumes no responsibility for materials and equipment stored in buildings or on-site or at another location approved in writing. Each CONTRACTOR assumes full responsibility for damage due to storage of materials and equipment.

1.5.3 Interior Storage:

1. Store materials and equipment in accordance with manufacturer's instructions, with seals and labels intact and legible.

2. Store materials and equipment subject to damage by elements in weather tight enclosures.

3. Maintain temperature and humidity within ranges required by manufacturer's instructions.

1.5.4 Exterior Storage:

1. Store fabricated materials and equipment above ground, on blocking or skids, to prevent soiling or staining. Cover materials and equipment subject to deterioration with impervious sheet coverings. Provide adequate ventilation to avoid condensation.

2. Store loose granular materials in well-drained area on solid surfaces to prevent mixing with foreign matter.

3. Materials such as geosynthetic materials, pipe, reinforcing and structural steel, and equipment shall be stored on pallets or racks, off ground.

1.5.5 Inspection and Maintenance:

1. Arrange storage to provide easy access for inspection, maintenance, and inventory.

2. Make periodic inspections of stored materials and equipment to ensure materials and equipment maintained under specified conditions and free from damage or deterioration, and coverings in-place and in condition to provide required protection.

3. Perform maintenance on stored material and equipment in accordance with manufacturer's written instructions and in presence of OWNER or ENGINEER.

1.5.6 The CONTRACTOR shall assume responsibility for protection of completed

construction and repair and restore damage to completed Work equal to original condition.

- END OF SECTION -

SECTION 01770
CLOSEOUT PROCEDURES

1.0 GENERAL

1.1 CLOSEOUT PROCEDURES

1.1.1 The CONTRACTOR shall submit Final Receipt, Waiver, and Release of Lien Rights (to be completed by each Supplier, Subcontractor, and Material Vendor) prior to final payment and/or issuance of Substantial Completion. A copy of the Final Receipt, Waiver, and Release of Lien Rights form follows this section.

1.1.2 The CONTRACTOR shall submit Final Payment - General Release and Indemnity Agreement within thirty (30) days of receiving final payment. A copy of the Final Payment - General Release and Indemnity Agreement follows this section.

1.1.3 The CONTRACTOR shall request from the ENGINEER and/or OWNER for issuance of the Certificate of Substantial Completion.

1.1.4 The CONTRACTOR shall submit a written certification that the Contract Documents have been reviewed and that the work is complete in accordance with the Contract Documents and ready for inspection.

1.1.5 The CONTRACTOR shall submit a statement of accounting giving the total adjusted Contract Sum, previous payments, and the sum remaining due.

1.2 FINAL CLEANING

1.2.1 The CONTRACTOR shall perform the final cleaning prior to final site inspection by the OWNER and/or ENGINEER. Final cleaning shall consist of removal or relocation, as directed by the ENGINEER and/or OWNER, of temporary construction materials and any and all removal of waste and surplus materials and rubbish arising from the action of the CONTRACTOR within the site.

1.3 WARRANTIES

For items of work delayed materially beyond the date of substantial completion, the CONTRACTOR shall provide an updated submittal within ten days after acceptance of the delayed items of work, listing the date of acceptance as the start of the warranty period.

FINAL PAYMENT
GENERAL RELEASE AND INDEMNITY AGREEMENT

KNOW ALL MEN BY THESE PRESENT:

That _____(CONTRACTOR) a _____ corporation, with an office at _____ in consideration of the payment of $_____ on Invoice No._____representing the final payment under the Agreement dated _____, between the undersigned and City of Brownsville (OWNER), covering the design, engineering, procurement, construction, or performance of services at (or for) the City of Brownsville Municipal Landfill – Disposal Cell 6, does hereby certify and warrant that it has been fully paid on account of said Agreement and does further certify and warrant that it has fully paid and satisfied all claims for work, labor, materials, supplies, equipment, and all other items used or furnished by the undersigned and its subcontractors and material ment in the performance of said Agreement. The undersigned therefore waives, releases, and discharges the City of Brownsville (OWNER) and the real property on which the undersigned's performance of this Agreement was performed, from and against any and all claims, liabilities, actions and judgments arising out of any matter related to this Agreement.

The undersigned, in consideration of the final payment being made by OWNER pursuant to such Agreement, does hereby release and forever discharge the City of Brownsville (OWNER) from any right of lien it may have against OWNER under said Agreement, and the undersigned hereby agrees to defend, indemnify, and hold harmless OWNER and its officers and agents from and against all claims, demands, and liabilities arising out of labor performed or material and equipment supplied by the undersigned or by its subcontractors or material vendors or otherwise caused in whole or in part by the undersigned in connection with the performance of said Agreement.

In addition, the undersigned agrees to reimburse OWNER for any excess payments made by it to the undersigned, which may be discovered as a result of OWNER's audit of the aforementioned Agreement.

IN WITNESS WHEREOF, the undersigned has caused this Release and Indemnity to be executed by its duly authorized officer this _____ day of _____, 20 __.

FINAL RECEIPT, WAIVER, AND RELEASE OF LIEN RIGHTS
(to be completed by each Supplier, Subcontractor and Material Vendor)

The undersigned hereby acknowledges receipt, payment, and satisfaction in full for all labor, services, and materials furnished or supplied up to and including the (date) _____, relating to use, to be used, or contributing to the construction, addition, or development of the work or improvements concerning that certain real property, commonly known as The City of Brownsville Municipal Landfill – Disposal Cell 6 Construction.

The undersigned hereby expressly waives, releases, and discharges the real property described above and the Owner thereof, of and from any and all claims for mechanics' liens and rights to any such claim which the undersigned has or may have for labor, services, or materials or otherwise in connection with said work of improvements and every part thereof up to and including the date hereof and does hereby waive and release any and all rights that the undersigned now has or may have to levy or place any mechanics' lien, attachment lien, judgment lien, or execution lien on or against the real property described above for any existing indebtedness of the Owner of said real property to the undersigned.

SECTION 01781
PROJECT RECORD DOCUMENTS

1.0 GENERAL

1.1 MAINTENANCE OF RECORD DOCUMENTS AND SAMPLES

1.1.1 The CONTRACTOR shall maintain at the site for the OWNER'S permanent record one complete set of Record Documents which include a copy of the Contract Plans, Contract Specifications, Addenda, Change Orders, OWNER's Field Orders, Shop Drawings, Product Data, and Samples. The Contract Plans are to be used as Record Drawings by the CONTRACTOR.

1.1.2 The Record Documents shall be stored in the CONTRACTOR'S field office apart from other field documents used by the CONTRACTOR for construction purposes. The CONTRACTOR shall maintain the Record Documents in clean, dry, legible condition and in good order. The Record Documents shall be made available at all times for inspection by the OWNER and ENGINEER.

1.2 MARKING

1.2.1 The CONTRACTOR shall mark all changes on the Record Drawings upon construction of that item of work. The CONTRACTOR shall record information concurrently with construction progress and shall not cover any work until the required information has been recorded on the Record Drawings.

1.3 SUBMITTAL OF RECORD DRAWINGS

1.3.1 Record Drawings shall be provided by the CONTRACTOR, approved by the ENGINEER, and shall be submitted to the OWNER.

- END OF SECTION -

DIVISION 2

SECTION 02100
SITE PREPARATION

1.0 GENERAL

1.1 SECTION INCLUDES

1.1.1 Remove surface debris.

1.1.2 Clear site of plant life and grass. Being careful to avoid plant life and other features as landscaping as designated by OWNER.

1.1.3 Remove and stockpile topsoil.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 All materials and equipment used in conjunction with this work shall be considered incidental to the work.

3.0 EXECUTION

3.1 PROTECTION

3.1.1 Notify corporations, companies, individuals, or authorities owning utilities running to property or encountered during excavating operations.

3.1.2 Protect, support, and maintain utilities that are to remain.

3.1.3 Protect benchmarks from damage or displacement.

3.2 CLEARING

3.2.1 Clear areas required for access to site and execution of work.

3.3 REMOVAL

3.3.1 Remove debris, rock, and extracted plant life as directed by OWNER.

3.3.2 Remove topsoil to entire depth in areas where grade is to be raised and in areas to be covered by structure, walk, or paving. Stockpile where indicated on Drawings or designated by OWNER and/or ENGINEER. Grade stockpile for proper drainage. Strip stockpile areas of vegetation prior to stockpiling.

- END OF SECTION -

SECTION 02210
ROUGH GRADING

1.0 GENERAL

1.1 SECTION INCLUDES

1.1.1 Removal of subsoil.

1.1.2 Cutting, grading, and compacting soil to bottom of liner grades.

1.1.3 Segregating and stockpiling excess materials as directed by OWNER.

1.2 RELATED SECTIONS

1.2.1 02100 - Site Preparation

1.2.2 02211 - Surface Preparation

1.3 REFERENCES

1.3.1 ASTM D698 - Test Methods for Moisture-Density Relations of Soils and Soil Aggregate Mixtures Using 5.5-lb. (2.49 kg) Rammer and 12-in. (305 mm) Drop.

1.3.2 ASTM D1557 - Test Methods for Moisture Density Relations of Soils and Soil Aggregate Mixtures Using 10-lb. (4.54 kg)Rammer and 18-in. (457 mm) Drop.

1.3.3 ASTM D2216 - Method for Laboratory Determination of Water (Moisture) Content of Soil, Rock, and Soil-Aggregate in-place by Nuclear Methods.

1.3.4 ASTM D2922 - Test Method for Density of Soil and Soil-Aggregate in-place by Nuclear Methods.

1.3.5 ASTM D1556 - Test Method for Density of Soil in-place by the Sand-Cone Method.

1.3.6 ASTM D2167-84 - Test Method for Density and Unit Weight of Soil in Place by the Rubber Balloon Method.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Soils are classified in accordance with Unified Soil Classification System.

1. Suitable materials for structural fill for the landfill shall be GW, GP, SW, SP, SM, GM, GC, SC, ML, CH or CL, properly worked within moisture content range which will readily facilitate compaction to requirements specified.

2. Unsuitable materials for soil fill are PT, OH, MH, and OL. Use as general fill only.

3. Maximum size aggregate for soil fill materials shall be 4-inches. For GCL, maximum particle size at subgrade surface shall not exceed $^{3}/_{4}$ inch.

4. Off-site borrow sources must be approved by OWNER or OWNER'S representative.

5. Free of frozen material, ice, snow, or excessive moisture.

6. Compacted soil material shall be approved by ENGINEER before placement based upon information obtained from quality assurance testing.

3.0 EXECUTION

3.1 EXAMINATION

3.1.1 Verify site conditions are consistent with the design Drawings. Any discrepancies shall be reported to the OWNER and/or ENGINEER.

3.1.2 Verify that construction benchmarks designated on Drawings and intended elevations for the Work are as indicated.

3.2 PREPARATION

3.2.1 Identify required lines, levels, contours, and datum.

3.2.2 Stake and flag locations of known monitoring devices.

3.2.3 Locate, identify, and protect monitoring devices to remain from damage.

3.2.4 Protect plant life and other features remaining as a portion of landscaping

as designated by OWNER.

3.2.5 Protect benchmarks, existing structures, fences, paving, and curbs from excavating equipment and vehicular traffic as required.

3.3 EXCAVATION

3.3.1 Excavate subsoil from areas to be regraded for drainage ditches, perimeter berm, access road and anchor trench. Segregate and stockpile for use as common fill.

3.3.2 Grade in areas as established by project schedule and perform in manner and sequence providing proper drainage.

3.4 FILLING

3.4.1 Fill berms to contours and elevations shown in the Drawings.

3.4.2 Place fill materials in 8 inch loose lifts to compact to an approximate 6 inch lift. Anchor trench fill shall be placed in maximum 8 inch loose lift thickness and compacted with a vibrating tamper or equivalent.

3.4.3 Maintain moisture content at no greater than 5% above the predetermined optimum moisture content. Fill materials to be compacted to attain a density of 95% of maximum dry density as determined by ASTM D698, or 90% relative compaction based on ASTM D1557.

3.4.4 Make grade changes gradual. Blend slope into level areas, maintaining proper drainage.

3.4.5 Remove and store surplus fill materials from site as directed by OWNER.

3.4.6 Do not damage any underlying geosynthetics in anchor trench area.

3.4.7 Density test will be performed by the CQA firm at a minimum rate of 1/10,000 ft^2 per lift.

3.5 FIELD QUALITY CONTROL

3.5.1 ENGINEER will determine optimum moisture content and maximum dry density for all materials prior to construction.

3.5.2 Cooperate fully with the OWNER and ENGINEER in complying with the construction quality assurance plans for this site including performing compaction control tests.

3.5.3 Field inspection and testing will be performed by the ENGINEER.

- END OF SECTION -

SECTION 02211
SURFACE PREPARATION

1.0 GENERAL

1.1 SECTION INCLUDES

1.1.1 Preparation of the subgrade surface material to facilitate geosynthetic liner installation.

1.1.2 Removing unsuitable subgrade material, as determined by the ENGINEER, and filling with compacted soil so described in Section 02210. All undercutting and backfilling with surface material below subgrade as necessary and approved by OWNER to render the prepared surface acceptable for geosynthetic liner installation will be included in cost for surface preparation.

1.2 DEFINITIONS

1.2.1 Subgrade materials - In situ soils and soil fill materials located directly beneath the landfill liner.

1.2.2 Prepared Surface - Top of the subgrade materials. The material in contact with the landfill liner.

1.3 RELATED SECTIONS

1.3.1 Section 02210 - Rough Grading

1.4 REFERENCES

1.4.1 ASTM D698 - Test Methods for Moisture-Density relations of Soils and Soil Aggregate Mixtures Using a 5.5-lb. (2.49 kg) Rammer and 12-in. (305 mm) Drop.

1.4.2 ASTM D1557 - Test Methods for Moisture Density Relations of Soils and Soil Aggregate Mixtures Using 10-lb. (4.54 kg) Rammer and 18-in. (457 mm) Drop.

1.4.3 ASTM D2216 - Method for Laboratory Determination of Water (Moisture) Content of Soil, Rock, and Soil-Aggregate in-place by Nuclear Methods.

1.4.4 ASTM D2922 - Test Method for Density of Soil and Soil-Aggregate in-place by Nuclear Methods.

1.4.5 ASTM D1556 - Test Method for Density of Soil in-place by the Sand-Cone Method.

1.4.6 ASTM D2167-84 - Test Method for Density and Unit Weight of Soil in-place by the Rubber Balloon Method.

1.4.7 ASTM D5084-90 - Standard Test Method for Measurements of Hydraulic Conductivity of Saturated Porous Materials Using a Flexible Wall Permeameter.

1.4.8 ASTM D2166-91-Standard Test Method for Unconfined Compressive Strength of Cohesive Soil.

2.0 PRODUCTS

2.1 MATERIAL

2.1.1 Free of organic material, silt or muck or other deleterious material as determined by the ENGINEER.

2.1.2 Maximum particle size - $^{3}/_{4}$ inch for GCL

2.1.3 Contains no ice, snow, frozen material or excessive moisture.

3.0 EXECUTION

3.1 PLACEMENT TO TOP OF SUBGRADE ELEVATION

3.1.1 Excavate or fill and finish grading to a tolerance of +0.1 foot. Fill placement shall be in accordance with Section 02210.

3.1.2 Stockpile soils as directed by the OWNER and/or ENGINEER.

3.2 REMOVING UNSUITABLE SUBGRADE

3.2.1 Examine prepared surface for ruts and fill with soil as described in Section 02210.

3.2.2 Examine and remove soft soil, desiccated soil, or other unsuitable material as determined by ENGINEER. Replace with soil as described in Section 02210.

3.2.3 Remove buildup of fines to stockpile as directed by OWNER and/or ENGINEER.

3.3 SUBGRADE PREPARATION PRIOR TO LINER INSTALLATION

3.3.1 Finish grade with a smooth drum roller. Scarify, moisture condition, and compact as necessary.

3.3.2 Rake surface to remove soil, debris, and rock particles greater than $^{3}/_{4}$ inch in diameter for GCL.

- END OF SECTION -

SECTION 02222
EXCAVATION

1.0 GENERAL

1.1 SUMMARY

1. Section includes requirements for stripping vegetation, excavating the force main trench, manhole area and related work.

1.2 MEASUREMENT AND PAYMENT

1.2.1 Where there is not a separate item listed for work of this Section, no separate measurement and payment is made. Include cost for work under this Section in the related item listed on the Unit Price Schedule.

1.2.2 Measurement and payment is as noted on the Unit Price Schedule.

1.2.3 Refer to Section 01150 - Measurement and Payment for unit price procedures.

1.2.4 Measurement shall be on linear foot basis.

1.2.5 No payment will be made for over-excavation or over-filling beyond the design limits, except as directed by the Engineer.

1.2.6 Final payment is based upon surveyed quantities.

2.0 EXECUTION

2.1 SITE PREPARATION

2.1.1 Prepare the site for construction in accordance with Section 02100 - Site Preparation.

2.1.2 Remove material that may interfere with the proposed work, including unusable materials, disturbed soils and/or objectionable materials as directed by Engineer.

2.2 CONSTRUCTION

2.2.1 Construct to lines, grades and dimensions shown on the Plans, and to within -0.1 foot tolerance.

2.2.2 CONTRACTOR shall bear the cost to backfill any over-excavated areas not due to poor or weak soils as defined by the ENGINEER

- END OF SECTION -

SECTION 02223
SELECT FILL

1.0 GENERAL

1.1 DESCRIPTION

1.1.1 Transport, place and compact fill materials to the lines and grades in accordance with the Drawings and as directed by the OWNER.

1.1.2 Select fill material shall be used to construct the Cell 6 berm, backfill any over-excavated areas of Cell 6, construct the non-flex-base portions of the perimeter road, backfill manhole, and force main trench~~, diversion dikes and let down structures~~.

1.2 RELATED SECTIONS

1.2.1 Structural Fill - Soil Liner Quality Control Plan (SLQCP)

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Non-organic soils, including those classified as GW, GP, SW, SP, SM, GM, GC, SC, ML, CH or CL by the unified soil classification system. Free of silt, muck, or other deleterious material as determined by the OWNER'S REPRESENTATIVE or QAC.

2.1.2 Maximum particle dimension - 2- inch.

2.1.3 Free of frozen material, ice, snow, or excessive moisture.

2.1.4 Select fill material shall be approved by the OWNER'S REPRESENTATIVE or ENGINEER before placement based upon information obtained from quality assurance testing.

2.2 COMPACTED COHESIVE SOIL BARRIER MATERIAL

2.2.1 Non-organic soils, having a plasticity index (PI) between 5 and 50 percent, at least 10 percent passing the No. 200 sieve, and at least 90 percent passing the No. 4 sieve. Free of silt, muck, or other deleterious material as determined by the OWNER'S REPRESENTATIVE or QAC.

2.2.2 Maximum particle dimension – 3/4- inch.

2.2.3 Free of frozen material, ice, snow, or excessive moisture.

2.2.4 Compacted cohesive soil barrier material shall be approved by the OWNER'S

REPRESENTATIVE or QAC before placement based upon information obtained from quality assurance testing.

3.0 EXECUTION

3.1 INSTALLATION

3.1.1 Do not place select fill material until subbase is approved by OWNER'S REPRESENTATIVE or ENGINEER. Coordinate subbase construction with ENGINEER.

3.1.2. Place at a moisture content between -2% and +3% of the predetermined optimum moisture content.

3.1.3 Place in loose lifts in maximum thickness of 8-inch loose lift prior to compaction.

3.1.4 Compact each lift to 90% relative compaction based on ASTM D-698-78.

3.1.5 Compaction around manhole and in force main trench shall be with mechanical tampers.

3.1.6 Select fill material shall be compacted with mechanical tampers for under concrete slabs and against concrete wing walls.

3.2 FIELD QUALITY CONTROL

3.2.1 OWNER will determine optimum moisture content and maximum dry density for all materials prior to construction.

- END OF SECTION -

SECTION 02400
60-mil HDPE GEOMEMBRANE

1.0 GENERAL

1.1 DESCRIPTION

1.1.1 Supply and install polyethylene geomembrane for cell liner system.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Supply geomembranes and resins which comply to the specifications provided in the Soil and Liner Quality Control Plan.

2.1.2 The primary liner, installed directly over the Geosynthetic Clay Liner (GCL), shall be a 60-mil HDPE geomembrane.

2.1.3 Smooth geomembrane shall be installed on the floor and double-sided textured geomembrane shall be installed on the slopes.

3.0 EXECUTION

3.1 EXAMINATION

3.1.1 Manufacturer's Quality Control Testing shall comply to the requirements provided in the Soil and Liner Quality Control Plan.

3.2 INSTALLATION

3.2.1 Installation of the geomembrane shall comply with the requirements provided in the Soil and Liner Quality Control Plan.

3.2.2 The use of a loader or other large equipment may not be allowed for the geomembrane deployment over the GCL. The ENGINEER shall make the determination in the field.

- END OF SECTION -

SECTION 02410
GEOTEXTILE

1.0 GENERAL

1.1 SECTION INCLUDES

Supply and install geotextile for landfill liner system.

1.2 RELATED SECTIONS

1.2.1 Section 02400 – 60-mil HDPE Geomembrane

1.2.2 Section 02712 – Bedding Material

1.2.3 Section 02727 – Protective Soil Cover

1.3 REFERENCES

Use the latest version of referenced standards.

1.3.1 ASTM D3776 - Test Methods for Mass Per Unit Area (Weight) of Woven Fabric.

1.4 QUALITY CONTROL SUBMITTALS

1.4.1 Pre-installation

Submit the following to OWNER and/or ENGINEER for approval, prior to geotextile deployment:

1. Manufacturer's specification for the geotextile which includes properties contained in Article 2.01 of this Section.

2. Written certification that minimum average roll values given in manufacturer's specification are guaranteed by geotextile manufacturer.

3. Quality control certificates, signed by a responsible party employed by geotextile manufacturer. Each quality control certificate shall include roll identification numbers, sampling procedures and results of quality control tests.

1.5 DELIVERY, STORAGE AND HANDLING

1.5.1 Packing and Shipping

1. Geotextiles shall be supplied in rolls wrapped in relatively impermeable and opaque protective covers.

2. Geotextile rolls shall be marked or tagged with the following information.

a) Manufacturer's name
b) Product identification
c) Roll number
d) Roll dimensions

1.5.2 Storage and Protection

1. CONTRACTOR shall store and protect geotextile from dirt, water, ultraviolet light exposure, and other sources of damage.

2. Preserve integrity and readability of geotextile roll labels.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Supply geotextile in which "minimum average roll values", as defined by Federal Highway Administration (FHWA), meet or exceed geotextile property values specified below. Obtain written approval for these materials from the OWNER.

1. Non-woven geotextile to have a minimum mass per unit area of 10.0 oz./sq yd per

ASTM D3776

2.1.2 Geotextiles shall be stock products, i.e., except when specifically authorized in writing by OWNER, supplier shall not furnish products specifically manufactured to meet these specifications.

2.1.3 Geotextile shall be comprised of polymeric yarns, or fibers, oriented into a stable network which retains its structure during handling and placement.

2.2 SOURCE QUALITY CONTROL

Ensure that geotextile manufacturer meets the conditions in this Section.

2.2.1 Tests, Inspections

1. Geotextiles shall be tested by geotextile manufacturer to evaluate characteristics for quality control. At a minimum, the mass per unit area test shall be performed in accordance with test methods specified in Article 2.01 of this Section.

2. At a minimum, quality control tests shall be performed for every 100,000 ft^2

(10,000 m^2) of geotextile produced. Samples not satisfying these specifications and manufacturer's specifications shall result in rejection of applicable rolls.

3. At geotextile manufacturer's discretion and expense, additional testing of individual rolls may be performed to more closely identify noncomplying rolls and to qualify individual rolls.

3.0 EXECUTION

3.1 INSTALLATION

3.1.1 Geotextile Deployment

Handle geotextiles in a manner to ensure they are not damaged. Comply with the following:

1. On slopes, anchor geotextile securely and deploy it down slope in a controlled manner to continually keep geotextile in tension.

2. Weight geotextile with sandbags or equivalent in presence of wind. Do not remove weight until replaced with cover material.

3. Cut geotextiles with a geotextile cutter (hook blade). Protect adjacent materials from potential damage due to cutting of geotextile.

4. Prevent damage to underlying layers during placement of geotextile.

5. During geotextile deployment, do not entrap in or beneath geotextile, stones, excessive dust, or moisture that could damage geomembrane, cause clogging of drains or filters, or hamper subsequent seaming.

6. Visually examine entire geotextile surface before seaming. Ensure no potentially harmful foreign objects, such as needles, are present. Remove foreign objects encountered or replace geotextile.

3.1.2 Seaming Procedures

1. In general, no horizontal seams or splices are allowed on side slopes (i.e., seams shall be downslope, not across the slope) except as part of a patch. A splice is defined as a seam connecting the ends of two rolls.

2. Overlap geotextile a minimum of 3 inches (75 mm) prior to seaming.

3. On slopes steeper than 10:1 (horizontal:vertical), continuously sew geotextiles. Spot sewing is not allowed.

4. On slopes shallower than 10:1 (horizontal: vertical), continuously sew

geotextiles (preferred), or thermally bond with written approval of OWNER.

5. Ensure at seams that no earth cover material is present beneath geotextile.

6. When sewing, use polymeric thread with chemical and ultraviolet light resistance properties equal to or exceeding those of the geotextile.

7. Use a sewing thread color that contrasts with color of geotextile being sewn, to allow for ease of inspection.

8. Use a locking stitch.

3.1.3 Defects and Repairs

Repair holes or tears in geotextile as follows:

1. On slopes, sew into place, in accordance with Article 3.02 B of this Section, a patch made from same geotextile.

2. On slopes shallower than 10:1 (horizontal: vertical), sew geotextile patch into place (preferred) or spot-seam in place a patch made from same geotextile, with a minimum 12 inches (0.60 m) overlap in all directions.

3. Remove any soil or other material that may have penetrated the torn geotextile.

3.2 INTERFACE WITH OTHER PRODUCTS

3.2.1 Ensure the following when deploying soil materials located on top of a geotextile.

1. Geotextile and underlying lining materials are not damaged.

2. Minimal slippage of geotextile on underlying layers occurs.

3. No excess tensile stresses occur in geotextile.

- END OF SECTION -

SECTION 02420
GEONET

1.0 GENERAL

1.1 SECTION INCLUDES

Supply and install geonet for landfill lining and leachate systems.

1.2 RELATED SECTIONS

1.2.1 Section 02400 – 60-mil HDPE Geomembrane

1.2.2 Section 02410 – Geotextile

1.2.3 Section 02430 – Geotextile/Geonet Composite

1.3 REFERENCES

Use the latest version of referenced standards.

1.3.1 ASTM D1505 - Test Method for Density of Plastics by the Density-Gradient Technique.

1.3.2 ASTM D1603 or D4218- Test Method for Carbon Black in Olefin Plastics.

1.3.3 ASTM D1682 - Test Methods for Breaking Load and Elongation of Textile Fabrics. Modifications: Use 4 in x 8 in specimens with a grip separation of 4 inches and test at a rate of 8 in/minimum. Continue test until first strand completely separates. Report average of 5 tests in machine and cross direction.

1.3.4 ASTM D374 or D5199 - Method for Measuring Thickness of Textile Materials.

1.3.5 ASTM D3776 - Test Methods for Mass Per Unit Area (Weight) of Woven Fabric (Option C).

1.3.6 ASTM D4716 - Test Method for Constant Head Hydraulic Transmissivity (In-Plane Flow) of Geotextiles and Geotextile Related Products. Modifications: Measure between two steel plates at a gradient of 1.0 and a confining pressure of 15,000 psf for leachate collection applications. Apply confining pressure at least one hour prior to test.

1.4 QUALITY CONTROL SUBMITTALS

1.4.1 Pre-installation

Submit the following to OWNER for approval, prior to geonet deployment:

1. Origin (supplier's name and production plant) and identification (brand name and number) of resin.

2. Copies of dated quality control certificates issued by resin supplier.

3. Results of tests conducted by geonet manufacturer to verify that resin used to manufacture geonet meets the specifications listed in Article 2.01 of this Section.

4. Statement indicating that any reclaimed polymer added to resin during manufacturing was done with appropriate cleanliness and, for geonet used for leachate collection applications, did not exceed 2 percent by weight.

5. List of materials which comprise geonet, expressed in the following categories as percent by weight: polyethylene, carbon black, other additives.

6. Geonet specification which includes properties listed in Article 2.01 of this Section measured using the appropriate test methods.

7. Written certification that minimum values given in geonet manufacturer's specification are guaranteed by geonet manufacturer.

8. Quality control certificates, signed by a responsible party employed by manufacturer. Each quality control certificate shall include roll identification numbers, testing procedures and results of quality control tests.

1.5 DELIVERY, STORAGE AND HANDLING

1.5.1 Packing and Shipping

1. Geonet rolls shall be marked or tagged with the following information:

   a) Manufacturer's name

b) Product identification
c) Roll number
d) Roll dimensions

1.5.2 Storage and Protection

1. CONTRACTOR shall store and protect geonet from dirt, water, and other sources of damage.

2. Preserve integrity and readability of geonet roll labels.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Provide geonet meeting the following specifications and capable of retaining its structure during handling, placement, and long-term service.

GEONET PROPERTIES

PROPERTY	METHOD	VALUE
Thickness	ASTM D379 or D5199	200 mils min.
Mass per Unit Area	ASTM D5261	0.16 lb/ft^2 min.
Density (geonet)	ASTM D1505	0.940 g/cc min.
Tensile Strength	ASTM D1682*	40 lb/in min.
Carbon Black Content	ASTM D4218 or D1603	2.0 - 3.0%
Transmissivity	ASTM D4716* @ 20 psi confining pressure	1x10^{-3} m^2/sec min.

*Test Methods as modified in Article 1.03

2.2 SOURCE QUALITY CONTROL

Ensure that geonet manufacturer meets the conditions in this Section.

2.2.1 Tests, Inspection

1. Geonets shall be tested by geonet manufacturer to evaluate characteristics for quality control. At a minimum, the following tests shall be performed for quality control in accordance with test methods specified in Article 1.03 of this Section:

    a) Density
    b) Mass per unit area
    c) Thickness
    d) Carbon black content

2. Geonet manufacturer shall perform quality control tests for at least every 100,000 ft^2 (4000 m^2) of geonet produced (1 per resin lot minimum). Samples not satisfying these specifications and manufacturer's specifications shall result in the rejection of applicable rolls.

3. At geonet manufacturers' discretion and expense, additional testing of individual rolls may be performed to more closely identify noncomplying rolls and to qualify individual rolls.

4. The following tests need not be run at 1 per 100,000 ft^2 frequency. Geonet manufacturer shall certify that these tests have been performed for each resin in accordance with test methods specified in Article 2.01 A of this Section:

    a) Transmissivity
    b) Tensile strength

3.0 EXECUTION

3.1 INSTALLATION

3.1.1 Geonet Deployment

Do not damage geonets while handling. Comply with the following:

1. On slopes, secure geonet and then roll it down slope in a manner to continually keep geonet in tension. If necessary, position geonet by hand after unrolling to minimize wrinkles.

2. Weight geonets with sandbags or equivalent in presence of wind. Do not remove weight until replaced with cover material. Handle sandbags with care to prevent rupture or damage of sandbag.

3. Do not weld geonet to geomembrane.

4. Cut geonet using scissors or other cutting tools, approved by OWNER. Do not leave tools in geonet.

5. Do not damage underlying layers during placement of geonet.

6. During geonet deployment, do not entrap in geonet dirt or excessive dust that could cause clogging of drainage system, and stones that could damage adjacent geomembrane. If dirt or excessive dust is entrapped in geonet, hose clean prior to placement of next layer of material.

3.1.2 Seams and Overlaps

Join adjacent geonet in accordance with Design Drawings and specifications. At a minimum, meet the following requirements:

1. Overlap adjacent geonet rolls a minimum of 4 in (100 mm).

2. Tie geonet overlaps with plastic fasteners. Use white or yellow tying devices for easy inspection. Do not use metallic devices.

3. Tie every 5 feet (1.5 m) along slope, every 6 inches (0.15 m) in anchor trench, and every 6 inches (0.15 m) along end-to-end seams on base of landfill.

4. In general, no horizontal seams are allowed on side slopes.

5. In corners of side slopes, where overlaps between perpendicular geonet strips are required, unroll an extra layer of geonet along slope, on top of previously installed geonets, from top to bottom of slope.

6. Stagger joints when more than one layer of geonet is installed.

3.1.3 Defects and Repairs

1. Repair damage to geonet as follows, if hole or tear width across roll is less than 50 percent of width of roll.

   a) Place a patch extending 1 foot (0.3 m) beyond edges of hole or tear.
   b) Secure patch to original geonet by tying every 6 inches (0.15 m). Use tying devices as indicated in Article 3.02 B of this Section.

2. Repair damage to geonet as follows, if hole or tear width across roll is more than 50 percent of width of roll.

   a) On base of landfill, cut out damaged area and join the two portions of the geonet as indicated in Article 3.02 B of this Section.

   b) On sideslopes, remove and replace damaged geonet panel.

3. ENGINEER shall observe repairs and report noncompliance with the above requirements in writing to OWNER.

3.2 INTERFACE WITH OTHER PRODUCTS

3.2.1 Do not place soil in direct contact with geonet.

3.2.2 Ensure the following when deploying soil materials near geonet:

1. Geonet and underlying lining materials are not damaged.

2. Minimal slippage of geonet on underlying layers occurs.

3. No excess tensile stresses occur in geonet.

- END OF SECTION -

SECTION 02430
GEOTEXTILE/GEONET COMPOSITE

1.0 GENERAL

1.1 SECTION INCLUDES

Supply and install thermally bonded geotextile and geonet as a composite drainage on landfill floor and side slope.

1.2 RELATED SECTIONS

1.2.1 Section 02400 – 60-mil HDPE Geomembrane

1.2.2 Section 02410 – Geotextile

1.2.3 Section 02420 – Geonet

1.3 REFERENCES

Use the latest version of referenced standards.

1.3.1 ASTM D413 - Standard Test Method for Rubber Property - Adhesion to Flexible Substrate.

1.3.2 ASTM D374 or D5199 - Method for Measuring Thickness of Textile Materials.

1.3.3 ASTM D3776 - Test Methods for Mass Per Unit Area (Weight) of Woven Fabric.

1.3.4 ASTM D4716 - Test Method for Constant Head Hydraulic Transmissivity (In-Plane Flow) of Geotextiles and Geotextile Related Products. Modifications: Measure between two steel plates at a gradient of 1.0 and a confining pressure of 15,000 psf for leachate collection applications. Apply confining pressure at least one hour prior to test.

1.4 QUALITY CONTROL SUBMITTALS

1.4.1 Pre-installation

Submit the following to OWNER for approval, prior to geocomposite deployment:

1. Origin (supplier's name and production plant) and identifications (brand name and number of geotextile and geonet used to manufacture composite).

2. Copies of dated quality control certificates issued by geotextile and geonet manufacturer.

3. A specification fo the geocomposite which includes all properties published by manufacturer measured using appropriate methods.

4. Written certification that minimum values given in the manufacturer's specification are guaranteed by geocomposite manufacturer.

5. Quality control certificates for the geocomposite, signed by a responsible party employed by manufacturer. Quality control certificates shall include roll identification numbers, testing procedures and results of quality control tests.

1.5 DELIVERY, STORAGE AND HANDLING

1.5.1 Packing and Shipping

1. Geocomposites shall be supplied in rolls wrapped in relatively impermeable and opaque protective covers.

2. Geocomposite rolls shall be marked or tagged with the following information:

   a) Manufacturer's name
   b) Product identification
   c) Roll number
   d) Roll dimensions

1.5.2 Storage and Protection

1. CONTRACTOR shall store and protect geocomposites from dirt, water, ultraviolet light exposure, and other sources of damage.

2. Preserve integrity and readability of geocomposite roll labels.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Provide geonet meeting the following specifications and capable of retaining its structure during handling, placement, and long-term services.

GEOCOMPOSITE PROPERTIES

PROPERTY	METHOD	VALUE
Mass per Unit Area (geotextile)	ASTM D3776	10.0 oz/yd^2 min.
Mass per Unit Area (geonet)	ASTM D5261	0.16 lb/ft^2 min.
Thickness (geonet)	ASTM D1777	200 to 300 mils (See Measurement and Payment)
Peel Strength	ASTM D413	1 lb/in min.

2.2 SOURCE QUALITY CONTROL

Ensure that geocomposite manufacturer meets the conditions in this Section.

2.2.1 Tests, Inspection

1. Geocomposites shall be tested by geocomposite manufacturer to evaluate characteristics for quality control. At a minimum, the following tests shall be performed for quality control in accordance with test methods specified in Article 1.03 of this Section:

   a) Mass per unit area
   b) Thickness
   c) Geotextile-geonet adhesion (peel strength)

2. Geocomposite manufacturer shall perform quality control tests for at least every 100,000 ft^2 (4000 m^2) of geocomposite produced (1 per resin lot minimum). Samples not satisfying these specifications

and manufacturer's specifications shall result in the rejection of applicable rolls.

3. At geocomposite manufacturers' discretion and expense, additional testing of individual rolls may be performed to more closely identify noncomplying rolls and to qualify individual rolls.

4. Geocomposite components shall be evaluated by component manufactures to determine characteristics for quality control.

3.0 EXECUTION

3.1 INSTALLATION

3.1.1 Geocomposite Deployment

Do not damage geocomposites while handling. Comply with the following:

1. On slopes, anchor geocomposite securely and deploy it down the slope in a controlled manner to continually keep the geocomposite in tension.

2. Weight geonets with sandbags or equivalent in presence of wind. Do not remove weight until replaced with cover material. Handle sandbags with care to prevent rupture or damage of sandbag.

3. Cut geocomposite with a cutter (hook blade). Protect adjacent materials from potential damage due to cutting of geomembrane.

4. Prevent damage to underlying layers during placement of geocomposite.

5. During deployment, do not entrap in or beneath geocomposite, stones, excessive dust, or moisture that could damage geomembrane, cause clogging of geonet, or hamper subsequent seaming.

6. Visually examine entire geocomposite surface before seaming. Ensure no potentially harmful foreign object such as needles are present. Remove foreign objects encountered or replace geocomposite.

3.1.2 Seams and Overlap Procedures

Join adjacent geonet in accordance with Design Drawings and specifications. At a minimum, meet the following requirements:

1. Overlap adjacent geonet rolls a minimum of 4 in (100 mm).

2. Tie geonet overlaps with plastic fasteners. Use white or yellow tying devices for easy inspection. Do not use metallic devices.

3. Tie every 5 feet (1.5 m) along slope, every 6 inches (0.15 m) in anchor trench, and every 6 inches (0.15 m) along end-to-end seams on base of landfill.

4. In general, no horizontal seams are allowed on side slopes, unless approved by ENGINEER.

5. Overlap geotextile a minimum of 3 inches (75 mm) prior to seaming.

6. On slopes steeper than 10:1 (horizontal: vertical), continuously sew geotextiles. Spot sewing is not allowed.

7. On slopes shallower than 10:1 (horizontal: vertical), seam geotextiles as indicated in section 3.1.2 above (preferred), or thermally bond with written approval of OWNER.

8. Ensure at seams that no earth cover material is present beneath geotextile.

9. When sewing, use polymeric thread with chemical and ultraviolet light resistance properties equal to or exceeding those of the geotextile.

3.2 FIELD QUALITY CONTROL

3.2.1 Defects and Repairs

Repair small defects as judged by ENGINEER as follows, if geonet is undamaged but geotextile is damaged:

1. Remove damaged geotextile.
2. Cut patch of new geotextile to provide a minimum of 12 inches overlap.
3. Thermally bond geotextile patch to existing geocomposite.

If the geonet is damaged:

1. Remove damaged geonet.
2. Cut a patch of new material to replace removed geonet.
3. Secure a patch to original geonet by tying every 6 inches (.15 m). use tying devices as indicated in Article 3.2.1 of this section.
4. Place a geotextile patch overlapping the damaged area by a minimum 12 inches.
5. Thermally bond the geotextile patch to the existing geocomposite.

Replace the geocomposite if judged by the ENGINEER to be a large defect.

3.3 INTERFACE WITH OTHER PRODUCTS

3.3.1 Ensure the following when deploying soil materials located on top of geocomposite.

1. Geocomposite and underlying lining materials are not damaged.
2. Minimal slippage of geocomposite on underlying layers occurs.

4. No excess tensile stresses occur in geocomposite.

3.3.2 If textile is bonded to only one side of geonet, do not place soil in direct contact with geonet.

- END OF SECTION -

SECTION 02440
GEOSYNTHETIC CLAY LINER

1.0 GENERAL

1.1 DESCRIPTION

1.1.1 Supply and install Geosynthetic Clay Liner (GCL) for the cell lining system.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Supply GCL which complies with the requirements provided in the Soil Liner Quality Control Plan.

2.1.2 GCL must meet a maximum permeability of **1×10^{-9} cm/sec.**

2.1.3 GCL material requirements stated in the Soil Liner Quality Control Plan (SLQCP) may be more stringent than standard product. CONTRACTOR shall provide material meeting the SLQCP.

3.0 EXECUTION

3.1 EXAMINATION

3.1.1 Manufacturer's Quality Control Testing shall comply with the requirements provided in the Soil Liner Quality Control Plan.

3.1.2 Maximum soil particle size allowed in the upper surface of the subgrade is ¾-inch.

3.1.3 CONTRACTOR shall cover and protect GCL from rain while it is stockpiled at the site. Cover shall be heavy plastic or tarp and shall be secured from wind. GCL rolls shall be stored off the ground and be stacked no more than three rolls high. Rolls must be unloaded from trucks using a roll core stinger bar or by straps as not to damage the core. Fork lift blades shall not be allowed.

3.2 PREPARATION

3.2.1 Earthwork CONTRACTOR shall be responsible for preparing supporting soil to the specifications provided in the Soil Liner Quality Control Plan.

3.3 INSTALLATION

3.3.1 Installation of the GCL shall comply with the specifications provided in the Soil Liner Quality Control Plan.

3.3.2 Loose bentonite powder shall be placed in seam overlap in accordance with the SLQCP.

3.3.3 The CONTRACTOR shall continuously water (if necessary) and smooth drum roll ahead of GCL deployment.

- END OF SECTION -

SECTION 02531
HIGH DENSITY POLYETHYLENE MANHOLES

1.0 GENERAL

This specification shall govern the materials and fabrication of high density polyethylene manholes.

2.0 DESCRIPTION OF WORK

This contract covers the purchase and fabrication of high density polyethylene manholes.

3.0 MATERIALS

The pipe for the manholes shall be made from high density polyethylene (HDPE) resins meeting the following requirements.

3.1 HDPE MATERIAL SPECIFICATIONS

3.1.1 HDPE material supplied under this specification shall be manufactured from a PE 4710 resin listed with the Plastic Institute (PPI) as TR-4. The resin material shall meet ASTM D 3350 with a minimum cell classification of 445474C. The polyethylene compound shall be suitably protected against degradation by ultraviolet light by means of carbon black of not less than 2 percent.

3.1.2 Physical Properties of HDPE Compound

1. The density shall be no less than 0.955 gms/ccm as referenced in ASTM D 1505.

2. The melt index shall be no greater than 0.15 gms/10 minutes when tested in accordance to ASTM D 1238 – Condition E. Melt flow shall be no greater than 4.0 gms/10 min when tested in accordance with ASTM D1238 – Condition F.

~~3. The flexural modulus shall be 110,000 to less than 160,000 psi as referenced in ASTM D790.~~

~~4. The tensile strength at yield shall be 3,200 to less than 3,500 psi in~~

~~accordance with ASTM D 638.~~

~~5. Slow Crack Growth Resistance shall be per ASTM F 1473 (PENT test). The results shall be greater than 100 hours.~~

~~6. Hydrostatic Design Basis shall be 1,600 psi at 23 degrees C when tested in accordance with ASTM D 2837.~~

4.0 SUBMITTALS AND QUALITY ASSURANCE

4.1 QA/QC CERTIFICATION

4.1.1 The manhole supplier shall submit certification that the HDPE material meets the specifications.

4.1.2 The fabricator of the manholes shall submit drawings showing the position of the inlets, outlets and overall dimensions along with any other special features such as manways, ladders, etc.

4.1.3 The fabricator shall submit data indicating the manholes meet the requirements of ASTM F 1759, "Design of High Density Polyethylene (HDPE) Manholes for Subsurface Applications". The manholes should be proven to have acceptable design for the following areas.

1. Ring compressive strain
2. Combined ring compressive and ring bending strain
3. Ring buckling
4. Axial strain
5. Axial buckling
6. Thickness of the bottom based on depth and groundwater. Thickness should be based on acceptable stress and deflection amounts.

4.1.4 Calculations supporting these requirements will be part of the submittal package.

4.1.5 The fabrication technician shall perform the work in accordance to butt fusion of HDPE per ASTM D 2657 and for extrusion and hot air welding ASTM C 1147. The fabricator shall submit the written quality assurance program used during fabrication of the manholes. The fabricator may be required to submit their overall QA/QC program for fabricating

thermoplastic structures, the welding certification program for the fabrication technician per ASTM C 1147 and the facility safety program.

4.1.6 The manholes and pipe shall be tested with water and air. The structure shall be determined to be leak free prior to shipping. A written certification shall be sent to the ENGINEER certifying the manholes are leak free. The test results shall become part of the submittals. An identification plate indicating the job number, testing data, date built and by whom shall be attached to the manhole.

4.2 APPROVAL OR REJECTION

4.2.1 Written approval or rejection of substitution given by the ENGINEER.

4.2.2 ENGINNER reserves the right to require proposed product to comply with the requirements of specified product.

4.2.3 In the event substitution results in a change of Contract Price or time, provisions in the Agreement will be applied for adjustment.

4.2.4 Substitutions will be rejected if:

1. Submittal is not through the CONTRACTOR with his stamp or approval.
2. Requests are not made in accordance with this section.
3. In the ENGINEERS opinion, acceptance will require substantial revision of the original design.
4. In the ENGINEERS opinion, substitution is not equal to original product specified or will not perform adequately the function for which it is intended.

4.3 THIRD PARTY TESTING

The OWNER or ENGINEER may request certified lab data to verify the physical properties of materials not meeting the requirements of this specification.

4.4 DEVIATIONS - Procedure for requesting substitute

4.4.1 Consider after award of Contract

4.4.2 A letter defining the deviation and justification must be sent to the

ENGINEER. The letter must identify:

1. The product
2. Manufacturer's name
3. Representative contact name and telephone number
4. Specification section or drawing reference of originally specified product
5. Discrete name or tag number assigned to original product in Contract document

4.4.3 Manufacturer's literature must be clearly marked to show compliance of proposed product with contract document.

4.4.4 Itemize comparison of original and proposed product addressing product characteristics including but not limited to:

1. Size
2. Composition or material of construction
3. Weight
4. Electrical or mechanical requirements
5. Product experience
   - A. Location of past projects utilizing the product.
   - B. Name and telephone numbers of persons associated with referenced projects knowledgeable concerning proposed product.
   - C. Available field data and reports associated with proposed product.
6. Data relating to changes in construction schedule.
7. Data relating to changes in cost.
8. Samples: At request of the ENGINEER, a full size sample may be required. This sample may be held by the ENGINEER until completion of the project.

4.5 REJECTION

The high density polyethylene manhole may be rejected for failure to meet any of the requirements of this specification.

5.0 HDPE MANHOLE CONSTRUCTION

5.1 The HDPE manholes shall be constructed of HDPE pipe with a nominal OD of 72" and a SDR of 32.5.

5.2 The bottom thickness of the manholes will be determined in accordance with ASTM F 1759. Calculations must be provided to justify the thickness of the bottom.

5.3 The inlets and outlets shall be extrusion welded on the inside and outside of the structure using good welding practice. Gussets shall be attached at 90 degrees, 180 degrees, 270 degrees and 360 degrees around the inlets and outlets unless impractical.

5.4 All manhole connections larger than 4" nominal OD pipe shall be butt fusion welded, electrofusion welded or flanged connections. For 4" OD pipe and smaller threaded transition fittings can also be used as well as the acceptable connections listed.

5.5 Manholes shall be factory tested with water. The hydrostatic test shall be conducted by filling the structure with water and checking for leaks. Minimum test duration will be one hour. Data showing the structure to be leak-free will be supplied. The OWNER or his representative may request to observe the test.

5.6 The ladders in the manholes shall conform to OSHA standards.

5.7 Top of manholes shall be built to requirements on the drawings.

5.8 When large changes in temperature are expected restraints shall be designed as an integral part of the manhole by the fabricator/manufacturer to prevent strain at the inlets and outlets. These restraints shall be cast into a concrete collar around the pipe. Anti-flotation and/or anti-settling anchor collars, if required, shall be designed as an integral part of the manhole by the fabrication/manufacturer of the manholes. Shop drawings, approved by the ENGINEER shall be required for restraints, anchors, collars, etc... that are designed by the manhole fabricator/manufacturer prior to acceptance of the HDPE structures.

6.0 CONSTRUCTION PRACTICES

6.1 Handling of Manholes. HDPE manholes shall be stored on clean, level and dry ground to prevent undue scratching or gouging of the material. The handling of HDPE manholes shall be done in such a manner that there is no damage. Nylon slings shall be used.

6.2 Flanged connections. Flange adapters (where shown on the drawings) shall be

attached to the HDPE manhole inlets and outlets stubs during fabrication by butt fusion welding per ASTM D 2657. A ductile iron back up ring will be used with each flanged connection. The rings will use a standard ANSI 150# bolt pattern. Check the drawings for materials required for corrosive conditions.

6.2.1 Bolts shall be tightened in a "star pattern" to recommended torque values.

6.2.2 Bolts must be tightened a second time after 24 hours to ensure a positive seal.

6.2.3 Gaskets are not required on HDPE to HDPE connections.

6.3 Pipe joining. HDPE pipe shall be joined by using butt fusion. All butt fusion welds should be made as described in ASTM D 2657. Electrofusion welding can be used for making pipe welds. Hot air and extrusion welding are not permitted for pipe joining. All pipes and fittings welds should be made using equipment that has been serviced by an authorized service and repair center with at least one certified master mechanic on staff within 3 months from the first fusion on the project. An authorized fusion data recorder shall be used to record al fusion welds n hydraulically operated fusion machines. A record of the temperature, pressure and graph of the fusion cycle shall be maintained by the CONTRACTOR.

6.4 Handling of Fused Pipe. Fused segments of pipe shall be handled so as to avoid damage to the pipe. Limit bending of the pipe welded to fittings or manholes. Nylon slings shall be used.

7.0 DIRECT BURIAL INSTALLATION

7.1 Manhole Excavation. The manhole excavation shall be constructed in accordance with construction drawings. All required safety precautions for manhole installation are responsibility of the CONTRACTOR.

7.2 Backfilling shall extend at least 3.5 feet beyond the edge of the manhole for the full height of the manhole and extend laterally to undisturbed soils. Compaction shall meet the requirements on the construction drawings and the approved SLQCP.

- END OF SECTION -

SECTION 02712
BEDDING MATERIAL

1.0 GENERAL

1.1 DESCRIPTION

1.1.1 Transport and place on-site bedding material in accordance with the Drawings and as directed by the OWNER.

1.2 REFERENCES

1.2.1 ASTM D 422-63 - Standard Test Method for Particle-Size Analysis of Soils.

2.0 PRODUCTS

2.1 DRAINAGE MATERIAL

2.1.1 CONTRACTOR to supply material obtained from on-site sources.

2.1.2 Free of organic or other deleterious material as determined by the OWNER.

2.1.3 Free of frozen material, ice, snow, or excessive moisture.

2.1.4 Meets the following gradation requirements:

Bedding material:	U.S. Sieve Size	Percent Passing
	½"	100
	No. 200	15

2.1.5 Material will be available on site. However, some removal of overburden may be encountered in order to obtain acceptable material. Excess overburden material shall be spread evenly over adjacent areas.

3.0 EXECUTION

3.1 PLACEMENT

3.1.1 Place only when trenching elevations and lines have been verified.

3.1.2 Place to lines and grades indicated on the Drawings.

3.1.3 CONTRACTOR shall be responsible for costs involved in repairing any damage done to pipes, manhole, and existing components as a result of placement of granular bedding material.

- END OF SECTION -

SECTION 02727
PROTECTIVE SOIL COVER

1.0 GENERAL

1.1 DESCRIPTION

1.1.1 Excavate, transport, stockpile, and place drainage layer and/or protective soil cover from on-site source above geomembrane and/or geotextile/geonet composite in accordance with the Drawings and as directed by OWNER.

1.2 RELATED SECTIONS

1.2.1 Section 02400 – 60-mil HDPE Geomembrane

1.2.2 Section 02410 – Geotextile

1.2.3 Section 02430 – Geonet/Geotextile Geocomposite

1.2.4 Section 02712 – Drainage Stone and Bedding Material

2.0 PRODUCTS

2.1 PROTECTIVE SOIL COVER

2.1.1 CONTRACTOR to supply material obtained from on-site or off-site sources.

2.1.2 Free of organic or other deleterious material as determined by the OWNER.

2.1.3 Free of frozen material, ice, snow, or excessive moisture.

2.1.4 Shall not contain rocks or large clods.

3.0 EXECUTION

3.1 PLACEMENT

3.1.1 Place only when underlying geosynthetic installations are completed.

3.1.2 Place to the lines and grades indicated on the drawings.

3.1.3 Place in uniform lifts of **no less than 12 inches** in accordance with the Drawings and as directed by OWNER. Do not operate any equipment closer than 12 inches to the geomembrane.

3.1.4 Do not damage underlying geosynthetic installations. CONTRACTOR shall be responsible for costs involved in repairing any damage done to geosynthetic components as a result of drainage layer or protective soil cover placement.

3.1.5 Place in accordance with Section 02400 - Polyethylene Geomembrane.

3.1.6 Do not compact drainage layer or protective soil cover layer.

3.1.7 Finish grade to a tolerance of +0.1 foot, unless variance from plus-side tolerance is approved by OWNER.

3.1.8 Use only track vehicles with a ground pressure of 5 psi or less to place the first 12 inches of material.

3.1.9 Restrict rubber tired vehicles to areas with 3 feet of cover over geomembrane. Vehicles must not travel faster than 5 mph.

- END OF SECTION -

DIVISION 3

SECTION 03300
CAST-IN-PLACE CONCRETE

1.0 GENERAL

1.1 RELATED DOCUMENTS

1.1.1 Drawings and general provisions of the Contract, including General and Supplementary Conditions and Division 1 Specification Sections, apply to this Section.

1.2 SUMMARY

1.2.1 This Section specifies cast-in place concrete, including formwork, reinforcement, concrete materials, mixture design, placement procedures, and finishes, for the following:

1.2.1.1. Head walls, wing walls, slope paving, pads, and anchor block.

1.2.2 Related Sections include the following:

1.2.2.1. Division 2 Section 02223 Select Fill

1.3 DEFINITIONS

1.3.1 Cementitious Materials: Portland cement alone or in combination with one or more of the following: blended hydraulic cement, fly ash and other pozzolans, ground granulated blast-furnace slag, and silica fume; subject to compliance with requirements.

1.4 SUBMITTALS

1.4.1 Product Data: For each type of product indicated.

1.4.2 Design Mixtures: For each concrete mixture. Submit alternate design mixtures when characteristics of materials, Project conditions, weather, test results, or other circumstances warrant adjustments.

1.5 QUALITY ASSURANCE

1.5.1 Manufacturer Qualifications: A firm experienced in manufacturing ready-mixed concrete products and that complies with ASTM C 94/C 94M requirements for production facilities and equipment.

1.5.2 Source Limitations: Obtain each type or class of cementitious material of the same brand from the same manufacturer's plant, obtain aggregate from one source, and obtain admixtures through one source from a single manufacturer.

1.5.3 Welding: Qualify procedures and personnel according to AWS D1.4, "Structural Welding Code--Reinforcing Steel."

1.5.4 ACI Publications: Comply with the following unless modified by requirements in the Contract Documents:

1.5.4.1. ACI 301, "Specification for Structural Concrete,"

1.5.4.2. ACI 117, "Specifications for Tolerances for Concrete Construction and Materials."

1.6 DELIVERY, STORAGE, AND HANDLING

1.6.1 Steel Reinforcement: Deliver, store, and handle steel reinforcement to prevent bending and damage

2.0 PRODUCTS

2.1 FORM-FACING MATERIALS

2.1.1 Smooth-Formed Finished Concrete: Form-facing panels that will provide continuous, true, and smooth concrete surfaces. Furnish in largest practicable sizes to minimize number of joints.
2.1.1.1. Plywood, metal, or other approved panel materials.
2.1.1.2.1.1. Exterior-grade plywood panels, suitable for concrete forms.

2.1.2 Chamfer Strips: Wood, metal, PVC, or rubber strips, 3/4 by 3/4 inch minimum.

2.1.3 Form-Release Agent: Commercially formulated form-release agent that will not bond with, stain, or adversely affect concrete surfaces and will not impair subsequent treatments of concrete surfaces.

2.1.4 Form Ties: Factory-fabricated, removable or snap-off metal or glass-fiber-reinforced plastic form ties designed to resist lateral pressure of fresh concrete on forms and to prevent spalling of concrete on removal.

2.1.4.1. Furnish units that will leave no corrodible metal closer than 1 inch to the plane of exposed concrete surface.

2.1.4.2. Furnish ties that, when removed, will leave holes no larger than 1 inch in diameter in concrete surface.

2.2 STEEL REINFORCEMENT

2.2.1 Reinforcing Bars: ASTM A 615/A 615M, Grade 60 deformed.

2.3 REINFORCEMENT ACCESSORIES

2.3.1 Joint Dowel Bars: ASTM A 615/A 615M, Grade 60 plain-steel bars, cut bars true to length with ends square and free of burrs.

2.3.2 Bar Supports: Bolsters, chairs, spacers, and other devices for spacing, supporting, and fastening reinforcing bars and welded wire reinforcement in place. Manufacture bar supports from steel wire, plastic, or precast concrete according to CRSI's "Manual of Standard Practice," of greater compressive strength than concrete and as follows:

2.3.2.1. For concrete surfaces exposed to view where legs of wire bar supports contact forms, use CRSI Class 1 plastic-protected steel wire or CRSI Class 2 stainless-steel bar supports.

2.4 CONCRETE MATERIALS

2.4.1 Cementitious Material: Use the following cementitious materials, of the same type, brand, and source, throughout Project:

2.4.1.1. Portland Cement: ASTM C 150, Type II

2.4.2 Normal-Weight Aggregates: ASTM C 33, Class 3S coarse aggregate or better, graded. Provide aggregates from a single source:

2.4.2.1. Maximum Coarse-Aggregate Size: 3/4 inch nominal.

2.4.2.2. Fine Aggregate: Free of materials with deleterious reactivity to alkali in cement.

2.4.3 Water: ASTM C 94/C 94M and potable.

2.5 ADMIXTURES

2.5.1 Air-Entraining Admixture: ASTM C260.

2.5.2 Chemical Admixtures: Provide admixtures certified by manufacturer to be compatible with other admixtures and that will not contribute water-soluble chloride ions exceeding those permitted in hardened concrete. Do not use calcium chloride or admixtures containing calcium chloride.

1. Water-Reducing Admixture: ASTM C 494/C 494M, Type A.
2. Retarding Admixture: ASTM C 494/C 494M, Type B.
3. Water-Reducing and Retarding Admixture: ASTM C 494/C 494M, Type D.
4. High-Range, Water-Reducing Admixture: ASTM C 494/C 494M, Type F.
5. High-Range, Water-Reducing and Retarding Admixture: ASTM C 494/C 494M, Type G.
6. Plasticizing and Retarding Admixture: ASTM C 1017/C 1017M, Type II.

2.6 CURING MATERIALS

2.6.1 Evaporation Retarder: Waterborne, monomolecular film forming, manufactured for application to fresh concrete.

2.6.1.1. Products:

A. Axim Concrete Technologies; Cimfilm.
B. Burke by Edoco; BurkeFilm.
C. ChemMasters; Spray-Film.

2.6.2 Absorptive Cover: AASHTO M 182, Class 2, burlap cloth made from jute or kenaf, weighing approximately 9 oz./sq. yd. when dry.

2.6.3 Moisture-Retaining Cover: ASTM C 171, polyethylene film or white burlap-polyethylene sheet.

2.6.4 Water: Potable.

2.6.5 Clear, Waterborne, Membrane-Forming Curing Compound: ASTM C 309, Type 1, Class B, dissipating.

1. Products:

A. Anti-Hydro International, Inc.; AH Curing Compound #2 DR WB.
B. Burke by Edoco; Aqua Resin Cure.
C. ChemMasters; Safe-Cure Clear.

2.7 CONCRETE MIXTURES, GENERAL

2.7.1 Prepare design mixtures for each type and strength of concrete, proportioned on the basis of laboratory trial mixture or field test data, or both, according to ACI 301.

1. Use a qualified independent testing agency for preparing and reporting proposed mixture designs based on laboratory trial mixtures.

2.7.2 Cementitious Materials: Limit percentage, by weight, of cementitious materials other than portland cement in concrete as follows:

1. Fly Ash: 25 percent.
2. Combined Fly Ash and Pozzolan: 25 percent.
3. Ground Granulated Blast-Furnace Slag: 50 percent.
4. Combined Fly Ash or Pozzolan and Ground Granulated Blast-Furnace Slag: 50 percent portland cement minimum, with fly ash or pozzolan not exceeding 25 percent.
5. Silica Fume: 10 percent.
6. Combined Fly Ash, Pozzolans, and Silica Fume: 35 percent with fly ash or pozzolans not exceeding 25 percent and silica fume not exceeding 10 percent.
7. Combined Fly Ash or Pozzolans, Ground Granulated Blast-Furnace Slag, and Silica Fume: 50 percent with fly ash or pozzolans not exceeding 25 percent and silica fume not exceeding 10 percent.

2.7.3 Limit water-soluble, chloride-ion content in hardened concrete to 0.06 percent by weight of cement.

2.7.4 Admixtures: Use admixtures according to manufacturer's written instructions.

1. Use plasticizing admixture in concrete, as required, for placement and workability.
2. Use water-reducing and retarding admixture when required by high temperatures, low humidity, or other adverse placement conditions.

2.8 CONCRETE MIXTURES

2.8.1 Slabs-on-Grade and Wing Walls: Proportion normal-weight concrete mixture as follows:

1. Minimum Compressive Strength: 3000 psi at 28 days, Type II.
2. Minimum Cementitious Materials Content: 470 lb/cu. yd.
3. Slump Limit: 5 inches, plus or minus 1 inch.
4. Air Content: 6 percent, plus or minus 1.5 percent at point of delivery for 3/4-inch nominal maximum aggregate size.

2.9 FABRICATING REINFORCEMENT

2.9.1 Fabricate steel reinforcement according to CRSI's "Manual of Standard Practice."

2.10 CONCRETE MIXING

2.10.1 Ready-Mixed Concrete: Measure, batch, mix, and deliver concrete according to ASTM C 94/C 94M, and furnish batch ticket information.

1. When air temperature is between 85 and 90 deg F, reduce mixing and delivery time from 1-1/2 hours to 75 minutes; when air temperature is above 90 deg F, reduce mixing and delivery time to 60 minutes.

2.10.2 Project-Site Mixing: Not Allowed.

3.0 EXECUTION

3.1 FORMWORK

3.1.1 Design, erect, shore, brace, and maintain formwork, according to ACI 301, to support vertical, lateral, static, and dynamic loads, and construction loads that might be applied, until structure can support such loads.

3.1.2 Construct formwork so concrete members and structures are of size, shape, alignment, elevation, and position indicated, within tolerance limits of ACI 117.

3.1.3 Limit concrete surface irregularities, designated by ACI 347R as abrupt or gradual, as follows:
1. Class B, 1/4 inch for smooth-formed finished surfaces.
2. Class C, 1/2 inch for rough-formed finished surfaces.

3.1.4 Construct forms tight enough to prevent loss of concrete mortar.

3.1.5 Fabricate forms for easy removal without hammering or prying against concrete surfaces. Provide crush or wrecking plates where stripping may damage cast concrete surfaces. Provide top forms for inclined surfaces steeper than 1.5 horizontal to 1 vertical.
1. Install keyways, reglets, recesses, and the like, for easy removal.
2. Do not use rust-stained steel form-facing material.

3.1.6 Set edge forms, bulkheads, and intermediate screed strips for slabs to achieve required elevations and slopes in finished concrete surfaces. Provide and secure units to support screed strips; use strike-off templates or compacting-type screeds.

3.1.7 Provide temporary openings for cleanouts and inspection ports where interior area of formwork is inaccessible. Close openings with panels tightly fitted to forms and securely braced to prevent loss of concrete mortar. Locate temporary openings in forms at inconspicuous locations.

3.1.8 Retain one of two options in first paragraph below. ACI 301 requires chamfers, unless otherwise specified.

3.1.9 Chamfer exterior corners and edges of permanently exposed concrete.

3.1.10 Form openings, chases, offsets, sinkages, keyways, reglets, blocking, screeds, and bulkheads required in the Work. Determine sizes and locations from trades providing such items.

3.1.11 Clean forms and adjacent surfaces to receive concrete. Remove chips, wood, sawdust, dirt, and other debris just before placing concrete.

3.1.12 Retighten forms and bracing before placing concrete, as required, to prevent mortar leaks and maintain proper alignment.

3.1.13 Coat contact surfaces of forms with form-release agent, according to manufacturer's written instructions, before placing reinforcement.

3.2 STEEL REINFORCEMENT

3.2.1 General: Comply with CRSI's "Manual of Standard Practice" for placing reinforcement.

3.2.2 Clean reinforcement of loose rust and mill scale, earth, ice, and other foreign materials that would reduce bond to concrete.

3.2.3 Accurately position, support, and secure reinforcement against displacement. Locate and support reinforcement with bar supports to maintain minimum concrete cover. Do not tack weld crossing reinforcing bars.
1. Weld reinforcing bars according to AWS D1.4, where indicated.

3.2.4 Set wire ties with ends directed into concrete, not toward exposed concrete surfaces.

3.3 CONCRETE PLACEMENT

3.3.1 Before placing concrete, verify that installation of formwork, reinforcement, and embedded items is complete and that required inspections have been performed.

3.3.2 Do not add water to concrete during delivery, at Project site, or during placement unless approved by ENGINEER.

3.3.3 Deposit concrete continuously in one layer or in horizontal layers of such thickness that no new concrete will be placed on concrete that has hardened enough to cause seams or planes of weakness. If a section cannot be placed continuously, provide construction joints as indicated. Deposit concrete to avoid segregation.
1. Deposit concrete in horizontal layers of depth to not exceed formwork design pressures and in a manner to avoid inclined construction joints.
2. Consolidate placed concrete with mechanical vibrating equipment according to ACI 301.

3. Do not use vibrators to transport concrete inside forms. Insert and withdraw vibrators vertically at uniformly spaced locations to rapidly penetrate placed layer and at least 6 inches into preceding layer. Do not insert vibrators into lower layers of concrete that have begun to lose plasticity. At each insertion, limit duration of vibration to time necessary to consolidate concrete and complete embedment of reinforcement and other embedded items without causing mixture constituents to segregate.

3.3.4 Deposit and consolidate concrete for floors and slabs in a continuous operation, within limits of construction joints, until placement of a panel or section is complete.

1. Consolidate concrete during placement operations so concrete is thoroughly worked around reinforcement and other embedded items and into corners.
2. Maintain reinforcement in position on chairs during concrete placement.
3. Screed slab surfaces with a straightedge and strike off to correct elevations.
4. Slope surfaces uniformly to drains where required.
5. Begin initial floating using bull floats or darbies to form a uniform and open-textured surface plane, before excess bleedwater appears on the surface. Do not further disturb slab surfaces before starting finishing operations.

3.3.5 Hot-Weather Placement: Comply with ACI 301 and as follows:

1. Maintain concrete temperature below 90 deg F at time of placement. Chilled mixing water or chopped ice may be used to control temperature, provided water equivalent of ice is calculated to total amount of mixing water. Using liquid nitrogen to cool concrete is Contractor's option.
2. Fog-spray forms, steel reinforcement, and subgrade just before placing concrete. Keep subgrade uniformly moist without standing water, soft spots, or dry areas.

3.4 FINISHING FORMED SURFACES

3.4.1 Rough-Formed Finish: As-cast concrete texture imparted by form-facing material with tie holes and defects repaired and patched. Remove fins and other projections that exceed specified limits on formed-surface irregularities. Rub finish exposed concrete walls. Broom finish exposed pads.

3.5 CONCRETE PROTECTING AND CURING

3.5.1 General: Protect freshly placed concrete from premature drying and excessive cold or hot temperatures. Comply with ACI 306.1 for cold-weather protection and ACI 301 for hot-weather protection during curing.

3.5.2 Cure concrete according to ACI 308.1, by one or a combination of the following methods:

1. Moisture Curing: Keep surfaces continuously moist for not less than seven days with the following materials:
   - A. Water.
   - B. Continuous water-fog spray.
   - C. Absorptive cover, water saturated, and kept continuously wet. Cover concrete surfaces and edges with 12-inch lap over adjacent absorptive covers.
2. Moisture-Retaining-Cover Curing: Cover concrete surfaces with moisture-retaining cover for curing concrete, placed in widest practicable width, with sides and ends lapped at least 12 inches, and sealed by waterproof tape or adhesive. Cure for not less than seven days. Immediately repair any holes or tears during curing period using cover material and waterproof tape.
   - A. Moisture cure or use moisture-retaining covers to cure concrete surfaces to receive floor coverings.
   - B. Moisture cure or use moisture-retaining covers to cure concrete surfaces to receive penetrating liquid floor treatments.
   - C. Cure concrete surfaces to receive floor coverings with either a moisture-retaining cover or a curing compound that the manufacturer certifies will not interfere with bonding of floor covering used on Project.
3. Curing Compound: Apply uniformly in continuous operation by power spray or roller according to manufacturer's written instructions. Recoat areas subjected to heavy rainfall within three hours after initial application. Maintain continuity of coating and repair damage during curing period.
   - A. After curing period has elapsed, remove curing compound without damaging concrete surfaces by method recommended by curing compound manufacturer.

3.6 CONCRETE SURFACE REPAIRS

3.6.1 Defective Concrete: Repair and patch defective areas when approved by ENGINEER. Remove and replace concrete that cannot be repaired and patched to ENGINEER's approval.

3.6.2 Repairing Formed Surfaces: Surface defects include color and texture irregularities, cracks, spalls, air bubbles, honeycombs, rock pockets, fins and other projections on the surface, and stains and other discolorations that cannot be removed by cleaning.

1. Immediately after form removal, cut out honeycombs, rock pockets, and voids more than 1/2 inch in any dimension in solid concrete, but not less than 1 inch in depth. Make edges of cuts perpendicular to concrete surface. Clean, dampen with water, and brush-coat holes and voids with bonding agent. Fill and compact with patching mortar before bonding agent has dried. Fill form-tie voids with patching mortar or cone plugs secured in place with bonding agent.

- END OF SECTION -

DIVISION 11

SECTION 11210
LEACHATE EXTRACTION PUMPING SYSTEM

1.0 GENERAL

1.1 SCOPE OF WORK

1.1.1 The (or each) leachate extraction pumping system as outlined in this section shall minimally consist of pump-end and motor with power cable (complete pump assembly); system controller and level sensor(s), deployment and retrieval system to include pump carriage/sled and shroud, if necessary and associated discharge hose/pipe and appropriate fittings to exit the sump or riser, tested, complete and per the operating conditions as shown on drawings and specifications.

1.1.2 System shall be designed for leachate extraction and or dewatering service. Multiple systems shall ideally be identical and interchangeable and if not identical, will share as many identical and interchangeable components as practicable.

1.2 EXPERIENCE ASSURANCE

1.2.1 All equipment within the leachate extraction pumping system listed in this section shall be provided by a single manufacturer who shall have complete responsibility for the system. The manufacturer shall be a duly incorporated, licensed and insured entity with experience in providing complete leachate extraction pumping systems for landfills and other wastewater applications.

1.2.2 The supplier of the leachate removal system shall provide all warranty and warranty services without regard for or dependence on pass through warranties, which may or may not be provided by the original equipment manufacturer (OEM) of varies components of the system for a period of 18 months from date of start-up.

1.2.3 Any system manufacturer or supplier not specifically named as an approved manufacturer must provide a complete submittal package to the engineer prior to the bid date for pre-approval as an equal system provider. Submittals must include manufacturer's UL ID number and a copy of manufacturer's SCCR (Short Circuit Current Rating) label. It is the design engineer's purpose to insure that the equipment provided on the project be of satisfactory performance and quality to give the end-user the maximum long lived benefit as possible. To simplify comparison, the manufacturer seeking approval will address each paragraph as either "no exception taken" meaning acceptance of both the fact and spirit of the specification or "exception taken" with relevant information and data arguing equality to the specification requirement.

1.3 SUBMITTALS

1.3.1 The submittal package shall include a complete list of components to be provided, pump curves, motor data, layout drawing, control panel drawings consisting of wiring schematic, bill of materials and component layout drawing, and warranty statement.

2.0 PRODUCTS

2.1 PUMPS

2.1.1 The contractor shall furnish and install one complete leachate extraction pumping system.

2.1.2 Pump shall be of centrifugal multi-stage turbine submersible design suitable for primary landfill leachate. The pump shall be coupled to an industrial rated submersible motor that is non-overloading throughout the operating curve of the pump.

2.1.3 Leachate extraction pump shall be rated for a minimum duty performance of 60 gallons per minute (GPM) at 60' Total Dynamic Head (TDH). Alternate curves will require Engineer approval.

2.1.4 Motor horsepower shall be a minimum of 1.5 horsepower for the leachate extraction pump, and shall operate on 230 volt, single phase, 60 hertz supply power.

2.1.5 Pump design shall include the following features:

2.1.5.1 All series 300 stainless steel construction shall include impellers, bowls, guide vanes, and inlet screen.

2.2 MOTOR DESIGN

2.2.1 The motor shall conform to NEMA standards for submersible applications.

2.2.2 All materials coming in contact with leachate shall be 300 series stainless steel and E-Glide.

2.2.3 The motor shall not require the use of oil or grease for lubrication.

2.2.4 A properly sized one-piece jacketed power cable, from pump motor to motor lead breakout box, suitable for leachate service shall be provided.

2.3 CARRIAGE

2.3.1 The leachate extraction pump shall be supplied as a sealed unit and mounted on a stainless steel wheeled carriage/sled shroud for use in a 18" HDPE riser pipe with a constant inside diameter set at a 3 to 1 slope. No plastic or HDPE housings will be accepted.

2.3.2 The wheeled carriage shall provide a low center of gravity and all wheels shall remain in contact with the inner contour of the riser pipe. The wheels shall be constructed of E-TEC non-corrosive material with self-lubricating qualities and must be able to travel over welding beads typically found in riser pipe fabrications. A stainless steel inlet suction screen shall be provided to prevent debris from entering the inlet of the pump.

2.3.3 The level sensor shall be mounted at the center bottom of the wheeled carriage and be removable or replaceable without disassembly of the pump assembly or removal of the pump from the wheeled carriage. A continuous length of sensor cable shall be field trimmed to proper length at time of installation by the installing contractor.

2.3.4 A safety/retrieval cable assembly with properly sized cable clips, snap hooks, and anchor eye bolt constructed of 300 series stainless steel shall be provided.

2.4 DISCHARGE PIPE

2.4.1 Discharge pipe, between the pump and top of the riser, shall be 2" HDPE pipe. HDPE to be field welded.

2.5 DISCHARGE PIPE FITTINGS

2.5.1 All pipe fittings shall be 300 series stainless steel. Fittings shall consist of two (2) 2" stainless steel HDPE transitions, and one (1) 2" stainless steel camlock/adapter assembly for each pumping system.

2.6 DISCHARGE EXIT FITTINGS

2.6.1 A right angle slip fit taper lock discharge adapter with Viton o-ring seal shall be provided, that will allow quick connection/disconnection of the pump discharge hose from the riser exit, and allow the pump to be removed without interference of the stationary fittings. The exit arrangement shall thread through the riser pipe as to provide gas tight connection.

2.6.2 All fittings shall be 300 series stainless steel construction.

2.6.3 The exit connections will penetrate the riser wall approximately 6" from the top of the riser pipe by means of 300 series stainless steel, male threaded exit nipple.

3.0 CONTROLS

3.1 CONTROL PANEL

3.1.1 The system controller shall be manufactured by the same manufacturer as the pumps and built and listed under UL508 and UL698a for use in Class I, II, and III, Division 1, Hazardous Locations. The system controller shall have an attached detailed UL label and an attached detailed SCCR label in compliance with Article 409 of the 2005 National electric Code (NFPA 70). The system controller will comply with all necessary requirements dictated by the installed panel's location and service.

3.1.2 The control panel shall provide level indication, pump operation, and motor protection.

3.1.3 Control panel shall consist of a NEMA 4X, 14 gauge, 304 stainless steel enclosure with lockable outer cover. The door shall open a minimum of 180 degrees and be provided with a view window. Mount control panel with the bottom of the control panel 3 feet to 0 inches above concrete pad or finished grade.

3.1.4 The inner door shall be polished aluminum dead front mounted on a continuous aircraft type hinge. The dead front door shall contain cutouts for the mounted equipment and operator accessible equipment and provide protection of personnel from live internal wiring.

3.1.5 Operator accessible components mounted on the dead front door shall include following:

a. H-O-A Switch

b. Pump Run Indicating Light (Green)

c. Motor Overload Indicating Light (Red)

d. Digital Level Indicator

e. Elapsed Time Meter

3.1.6 The back plate shall consist of 12-gauge sheet steel and finished with a primer coat and two coats of baked on enamel. All hardware mounted to the sub-panel shall be accomplished with machine thread tapped holes. Sheet metal screws are not acceptable. All devices shall be permanently identified with phenolic engraved nameplates.

3.1.7 The panel power distribution shall include all necessary components and shall be completely wired with standard copper conductors. Control wiring shall be properly sized and installed in Panduit type wiring trays.

3.1.8 Individual fuses be provided from main power, each pump, and control circuit.

3.1.9 The motor contactor shall be sized to the pump horsepower. A capacitor shall be used to start the motor and a relay shall be used to remove the start winding from the circuit when the motor reaches operating speed.

3.1.10 A fused type control transformer shall be used to provide the 120 VAC control circuit.

3.1.11 Individual surge arrestors shall be provided in the control panel for incoming supply power, control circuit and the 4 to 20 mA instrument circuit.

3.1.12 A thermostat-controlled heater shall be provided to control the inside temperature and alleviate the buildup of condensation in the control panel.

3.1.13 A corrosion inhibitor shall be provided within the enclosure.

3.1.14 A top mounted, 40 watt, weatherproof/shatterproof red visual high-level alarm beacon shall be provided.

3.2 BREAK OUT JUNCTION BOXES

3.2.1 Separate and individual breakout boxes, for power leads and level sensor leads shall be provided for installation near the top of the riser pipe.

3.2.2 Breakout boxes to be NEMA 4X fiberglass and include proper sized cord restraint and ½" conduit gastight seal fitting.

3.3 LEVEL CONTROL

3.3.1 A panel mounted digital readout display controller with a non-fading digital display shall be provided to indicate level in the sump. The pump "ON",

"OFF"' and "HIGH LEVEL" selections shall be user friendly and capable of being set/adjusted using buttons on the front of the meter.

The controller shall be capable of accepting a 4 to 20 mA signal from a submersible transducer, and provide a level indication range of 0 to 138.6 inches of liquid. When a high level condition occurs, the display will flash until the condition is corrected.

3.3.2 A submersible transducer with adequate sized cable shall be provided. The transducer shall be constructed of 300 series stainless steel and shall be mounted to the front center axis of the wheeled pump carriage. Transducer shall provide a 4 to 20 mA output signal and come equipped with built-in surge protection. Static accuracy shall be no less than 1.0%.

3.3.3 A permanent aneroid bellows type breather device shall be mounted in the level breakout box to prevent moisture in the vent tube.

3.3.4 A panel mounted intrinsically safe barrier shall be provided for the transducer signal.

3.4 REMOTE TANK LOCKOUT (If Required)

3.4.1 A storage tank high level lockout/tank float shall be provided to temporarily prevent the leachate extraction pump from pumping from the landfill if a high level condition exists in the storage or equalization tank. The lockout will automatically reset once the tank liquid level drops and adequate storage capacity is available. Signal from the pump system controller to the tank shall be intrinsically safe.

3.4.2 A NEMA 4X fiberglass breakout box, with proper sized cord restraint and ½" conduit gastight seal fitting, for tank float lead shall be provided for installation at the tank.

4.0 FLOW MONITORING

4.1 FLOW METER SYSTEM

4.1.1 An IFM Magnetic Flow Meter System shall be provided to register liquid flow rate and to record total flow and shall operate from a 115V, 60H, single-phases power supply.

4.1.2 Sensor shall be linear with a repeatability factor of +/-0.5% and will incorporate the following features:

a. Electromagnetic sensor with no moving parts, sized for specified flow rate range to maximized system accuracy.

b. Digital transmitter.

c. Line size shall be 2".

d. Flow velocity shall be between 1.5 and 27 fps.

4.1.3 Meter shall be a bi-directional, eight digit flow rate display and eight digit flow totalizer display.

4.1.4 Meter shall be front panel programmable for ease of calibration to line size and change in units.

4.1.5 Meter shall include a non-volatile memory to retain programmed settings and totalized flow when power is disconnected.

4.1.6 Meter shall include a two line, eight digit, 1/3 inch high display showing flow rate and totalized flow.

4.1.7 Meter programming shall be menu driven to simplify setup.

4.1.8 Meter shall maintain full function in temperatures between 0 degrees and 55 degrees C, with ability to extend low temperature range with optional meter heater.

4.1.8 Flow meter shall be scalable in a variety of engineering units.

5.0 MISCELLANEOUS ITEMS

5.1 CABLE FITTINGS

5.1.1 Non-metallic, compression type threaded cable exit fittings, properly sized for the pump power cable and level sensor cable shall be provided for installation in the riser.

6.0 EXECUTION

6.1 START-UP

6.1.1 The manufacturer of the system shall provide field installation assistance, start-up and training of the system. The scheduling of this service shall be coordinated with the Contractor to insure the riser is in place and the control

panel is connected to power, prior to the arrival of the manufacturers certified technician.

6.1.2 A start-up report shall be provided to include all component settings and motor operating characteristics. The report shall certify the system has been properly installed, or note any found deficiencies that need to be corrected.

6.1.3 At the time of start-up, the contractor shall coordinate with the manufacturer and the owner to provide operator training and troubleshooting.

6.1.4 A complete operations and maintenance manual with index for the system shall be provided. Information shall include manufacturers contact list, equipment list, equipment cut sheets, parts breakdowns, control panel information and a troubleshooting guide.

- END OF SECTION -

SECTION 11211
DEWATERING EXTRACTION PUMPING SYSTEM

1.0 GENERAL

1.1 SCOPE OF WORK

1.1.1 The (or each) dewatering extraction pumping system as outlined in this section shall minimally consist of pump-end and motor with power cable (complete pump assembly); system controller and level sensor(s), deployment and retrieval system to include pump carriage/sled and shroud, if necessary and associated discharge hose/pipe and appropriate fittings to exit the sump or riser, tested, complete and per the operating conditions as shown on drawings and specifications.

1.1.2 System shall be designed for dewatering extraction and or leachate service. Multiple systems shall ideally be identical and interchangeable and if not identical, will share as many identical and interchangeable components as practicable.

1.2 EXPERIENCE ASSURANCE

1.2.1 All equipment within the dewatering extraction pumping system listed in this section shall be provided by a single manufacturer who shall have complete responsibility for the system. The manufacturer shall be a duly incorporated, licensed and insured entity with experience in providing complete dewatering extraction pumping systems for landfills and other dewatering applications.

1.2.2 The supplier of the dewatering extraction system shall provide all warranty and warranty services without regard for or dependence on pass through warranties, which may or may not be provided by the original equipment manufacturer (OEM) of varies components of the system for a period of 18 months from date of start-up.

1.2.3 Any system manufacturer or supplier not specifically named as an approved manufacturer must provide a complete submittal package to the engineer prior to the bid date for pre-approval as an equal system provider. Submittals must include manufacturer's UL ID number and a copy of manufacturer's SCCR (Short Circuit Current Rating) label. It is the design engineer's purpose to insure that the equipment provided on the project be of satisfactory performance and quality to give the end-user the maximum long lived benefit as possible. To simplify comparison, the manufacturer seeking approval will address each paragraph as either "no exception taken" meaning acceptance of both the fact and spirit of the specification or

"exception taken" with relevant information and data arguing equality to the specification requirement.

1.3 SUBMITTALS

1.3.1 The submittal package shall include a complete list of components to be provided, pump curves, motor data, layout drawing, control panel drawings consisting of wiring schematic, bill of materials and component layout drawing, and warranty statement.

2.0 PRODUCTS

2.1 PUMPS

2.1.1 The contractor shall furnish and install one complete dewatering extraction pumping system.

2.1.2 Pump shall be of centrifugal multi-stage turbine submersible design suitable for primary landfill dewatering. The pump shall be coupled to an industrial rated submersible motor that is non-overloading throughout the operating curve of the pump.

2.1.3 Dewatering pump shall be rated for a minimum duty performance of 200 gallons per minute (GPM) at 60' Total Dynamic Head (TDH). Alternate curves will require Engineer approval.

2.1.4 Motor horsepower shall be a minimum of 3 horsepower for the dewatering extraction, and shall operate on 230 volt, single phase, 60 hertz supply power.

2.1.5 Pump design shall include the following features:

2.1.5.1 All series 300 stainless steel construction shall include impellers, bowls, guide vanes, and inlet screen.

2.2 MOTOR DESIGN

2.2.1 The motor shall conform to NEMA standards for submersible applications.

2.2.2 All materials coming in contact with leachate shall be 300 series stainless steel and E-Glide.

2.2.3 The motor shall not require the use of oil or grease for lubrication.

2.2.4 A properly sized one-piece jacketed power cable, from pump motor to motor lead breakout box, suitable for landfill service shall be provided.

2.3 CARRIAGE

2.3.1 The dewatering pump shall be supplied as a sealed unit and mounted on a stainless steel wheeled carriage/sled shroud for use in a 14" HDPE riser pipe with a constant inside diameter set at a 3 to 1 slope. No plastic or HDPE housings will be accepted.

2.3.2 The wheeled carriage shall provide a low center of gravity and all wheels shall remain in contact with the inner contour of the riser pipe. The wheels shall be constructed of E-TEC non-corrosive material with self-lubricating qualities and must be able to travel over welding beads typically found in riser pipe fabrications. A stainless steel inlet suction screen shall be provided to prevent debris from entering the inlet of the pump.

2.3.3 The level sensor shall be mounted at the center bottom of the wheeled carriage and be removable or replaceable without disassembly of the pump assembly or removal of the pump from the wheeled carriage. A continuous length of sensor cable shall be field trimmed to proper length at time of installation by the installing contractor.

2.3.4 A safety/retrieval cable assembly with properly sized cable clips, snap hooks, and anchor eye bolt constructed of 300 series stainless steel shall be provided.

2.4 DISCHARGE PIPE

2.4.1 Discharge pipe, between the pump and top of the riser, shall be 3" HDPE pipe. HDPE to be field welded.

2.5 DISCHARGE PIPE FITTINGS

2.5.1 All pipe fittings shall be 300 series stainless steel. Fittings shall consist of two (2) 3" stainless steel HDPE transitions, and one (1) 3" stainless steel camlock/adapter assembly for each pumping system.

2.6 DISCHARGE EXIT FITTINGS

2.6.1 A right angle slip fit taper lock discharge adapter with Viton o-ring seal shall be provided, that will allow quick connection/disconnection of the pump discharge hose from the riser exit, and allow the pump to be removed without interference of the stationary fittings. The exit arrangement shall thread through the riser pipe as to provide gas tight connection.

2.6.2 All fittings shall be 300 series stainless steel construction.

2.6.3 The exit connections will penetrate the riser wall approximately 6" from the top of the riser pipe by means of 300 series stainless steel, male threaded exit nipple.

3.0 CONTROLS

3.1 CONTROL PANEL

3.1.1 The system controller shall be manufactured by the same manufacturer as the pumps and built and listed under UL508 and UL698a for use in Class I, II, and III, Division 1, Hazardous Locations. The system controller shall have an attached detailed UL label and an attached detailed SCCR label in compliance with Article 409 of the 2005 National electric Code (NFPA 70). The system controller will comply with all necessary requirements dictated by the installed panel's location and service.

3.1.2 The control panel shall provide level indication, pump operation, and motor protection.

3.1.3 Control panel shall consist of a NEMA 4X, 14 gauge, 304 stainless steel enclosure with lockable outer cover. The door shall open a minimum of 180 degrees and be provided with a view window. Mount control panel with the bottom of the control panel 3 feet to 0 inches above concrete pad or finished grade.

3.1.4 The inner door shall be polished aluminum dead front mounted on a continuous aircraft type hinge. The dead front door shall contain cutouts for the mounted equipment and operator accessible equipment and provide protection of personnel from live internal wiring.

3.1.5 Operator accessible components mounted on the dead front door shall include following:

a. H-O-A Switch

b. Pump Run Indicating Light (Green)

c. Motor Overload Indicating Light (Red)

d. Digital Level Indicator

e. Elapsed Time Meter

3.1.6 The back plate shall consist of 12-gauge sheet steel and finished with a primer coat and two coats of baked on enamel. All hardware mounted to the sub-panel shall be accomplished with machine thread tapped holes. Sheet metal screws are not acceptable. All devices shall be permanently identified with phenolic engraved nameplates.

3.1.7 The panel power distribution shall include all necessary components and shall be completely wired with standard copper conductors. Control wiring shall be properly sized and installed in Panduit type wiring trays.

3.1.8 Individual fuses be provided from main power, each pump, and control circuit.

3.1.9 The motor contactor shall be sized to the pump horsepower. A capacitor shall be used to start the motor and a relay shall be used to remove the start winding from the circuit when the motor reaches operating speed.

3.1.10 A fused type control transformer shall be used to provide the 120 VAC control circuit.

3.1.11 Individual surge arrestors shall be provided in the control panel for incoming supply power, control circuit and the 4 to 20 mA instrument circuit.

3.1.12 A thermostat-controlled heater shall be provided to control the inside temperature and alleviate the buildup of condensation in the control panel.

3.1.13 A corrosion inhibitor shall be provided within the enclosure.

3.1.14 A top mounted, 40 watt, weatherproof/shatterproof red visual high-level alarm beacon shall be provided.

3.2 BREAK OUT JUNCTION BOXES

3.2.1 Separate and individual breakout boxes, for power leads and level sensor leads shall be provided for installation near the top of the riser pipe.

3.2.2 Breakout boxes to be NEMA 4X fiberglass and include proper sized cord restraint and ½" conduit gastight seal fitting.

3.3 LEVEL CONTROL

3.3.1 A panel mounted digital readout display controller with a non-fading digital display shall be provided to indicate level in the sump. The pump "ON",

"OFF"' and "HIGH LEVEL" selections shall be user friendly and capable of being set/adjusted using buttons on the front of the meter.

The controller shall be capable of accepting a 4 to 20 mA signal from a submersible transducer, and provide a level indication range of 0 to 138.6 inches of liquid. When a high level condition occurs, the display will flash until the condition is corrected.

3.3.2 A submersible transducer with adequate sized cable shall be provided. The transducer shall be constructed of 300 series stainless steel and shall be mounted to the front center axis of the wheeled pump carriage. Transducer shall provide a 4 to 20 mA output signal and come equipped with built-in surge protection. Static accuracy shall be no less than 1.0%.

3.3.3 A permanent aneroid bellows type breather device shall be mounted in the level breakout box to prevent moisture in the vent tube.

3.3.4 A panel mounted intrinsically safe barrier shall be provided for the transducer signal.

3.4 REMOTE TANK LOCKOUT (If Required)

3.4.1 A storage tank high level lockout/tank float shall be provided to temporarily prevent the leachate extraction pump from pumping from the landfill if a high level condition exists in the storage or equalization tank. The lockout will automatically reset once the tank liquid level drops and adequate storage capacity is available. Signal from the pump system controller to the tank shall be intrinsically safe.

3.4.2 A NEMA 4X fiberglass breakout box, with proper sized cord restraint and ½" conduit gastight seal fitting, for tank float lead shall be provided for installation at the tank.

4.0 MISCELLANEOUS ITEMS

4.1 CABLE FITTINGS

4.1.1 Non-metallic, compression type threaded cable exit fittings, properly sized for the pump power cable, level sensor cable and flow sensor cable shall be provided for installation in the riser.

5.0 EXECUTION

5.1 START-UP

5.1.1 The manufacturer of the system shall provide field installation assistance, start-up and training of the system. The scheduling of this service shall be coordinated with the Contractor to insure the riser is in place and the control panel is connected to power, prior to the arrival of the manufacturers certified technician.

5.1.2 A start-up report shall be provided to include all component settings and motor operating characteristics. The report shall certify the system has been properly installed, or note any found deficiencies that need to be corrected.

5.1.3 At the time of start-up, the contractor shall coordinate with the manufacturer and the owner to provide operator training and troubleshooting.

5.1.4 A complete operations and maintenance manual with index for the system shall be provided. Information shall include manufacturers contact list, equipment list, equipment cut sheets, parts breakdowns, control panel information and a troubleshooting guide.

- END OF SECTION -

DIVISION 15

SECTION 15060
HIGH DENSITY POLYETHYLENE PIPE

1.0 GENERAL

1.1 DESCRIPTION

Supply and install high density polyethylene (HDPE) pipe for underdrain system and leachate collection as shown on the Drawings and as directed by the OWNER.

1.2 RELATED SECTIONS

1.2.1 Section 02712 - Bedding Material

1.3 REFERENCES

1.3.1 ASTM D-1248 Specification for Polyethylene Plastics Molding and Extrusion Materials.

1.3.2 ASTM D-3350 Specification for Polyethylene Plastics Pipe and Fitting Materials.

2.0 PRODUCTS

2.1 HDPE PIPE

2.1.1 Drisco 1000 pipe manufactured by Phillips DriscoPipe, Inc. or an ENGINEER approved equivalent.

2.1.2 Conform to cell classification of 345434-C in accordance with ASTM D-3350.

2.1.3 Conform with dimensions shown on the drawings.

3.0 EXECUTION

3.1 STORAGE AND HANDLING

3.1.1 Exercise care during loading, transit, and unloading to prevent damage by abrasion and puncturing.

3.1.2 Store pipe with support to prevent development of permanent set.

3.2 PIPE CONNECTIONS

3.2.1 Connect HDPE pipe sections by fusion welding.

3.2.2 Fusion equipment used in joining procedures shall be capable of meeting conditions recommended by pipe manufacturer, including but not limited to, temperature requirements, alignment, and fusion pressures.

3.2.3 Excessive extrudate within the pipe must be removed.

3.2.4 All pipes shall be beadles at the seams of the interior wall.

3.2.5 All shavings MUST be removed by either flushing with water or high pressure air.

3.3 FIELD QUALITY CONTROL

3.3.1 Pipe may be rejected for failure to conform to Specifications for:

1. Fractures or cracks passing through pipe wall, except single crack not exceeding 2 in. in length at either end of pipe which could be cut off and discarded. Pipes within one shipment will be rejected if defects exist in more than 5% of shipment or delivery.

2. Cracks sufficient to impair strength, durability or serviceability of pipe.

3. Defects indicating improper proportioning, mixing, and molding.

4. Damaged ends, where such damage would prevent making satisfactory joint.

3.3.2 Acceptance of fittings, stubs or other specially fabricated pipe sections shall be based on visual inspection at job site and documentation they conform to these Specifications.

3.3.3 Pipe testing shall be as described in Section 15070.

- END OF SECTION -

SECTION 15070
DUAL CONTAINED HIGH DENSITY POLYETHYLENE FORCE MAIN

1.0 GENERAL

1.1 DESCRIPTION OF WORK

1.1.1 Work Included

1. This section covers the material (pipe, fittings, and appurtenances, including carrier access ports/structures and low point inspection points, pipe sleeves, concrete inserts, hangers and supports), joining methods and general installation practice for dual contained high density polyethylene (HDPE) piping systems to be furnished, installed and tested as shown on the Drawings and as specified herein. All piping and fittings, flanges, sleeve couplings, pipe hangers and supports, not otherwise specifically provided for in these Specification, but necessary to complete the various systems shall be included under this section of Work.

2. Work under this contract will require installation of containment pipe with carrier pipe at the location shown on the drawings.

1.1.2 Related Section

1. All items of related Work, necessary to complete the Work, shall be provided by the CONTRACTOR.

1.2 SUBMITTALS

1.2.1 Product Data - The CONTRACTOR shall obtain a letter certifying the pipes suitability for the proposed application and its compatibility with the leachate constituents from the pipe manufacturer. Submit product data to the ENGINEER for review in accordance with this section for all dual contained pipe, fittings and related appurtenances.

1.2.2 Shop Drawings - The piping Drawings included with these Specifications are not intended to show all piping details. The intent of the Drawings is to illustrate the conceptual layout, routing and approximate pipe sizes.

1.2.3 Certifications

1. The CONTRACTOR shall obtain certification from the manufacturer confirming the pipes physical properties meet the specifications.

2. The CONTRACTOR shall have a registered professional ENGINEER provide certification of the pressure testing results of the installed piping.

3. Certified dimensional as-built drawings/profiles of all installed pipe, fittings, and structures.

4. The Supplier of the material shall submit, through the CONTRACTOR, a Certificate of Compliance that the pipe, fittings and other products or materials furnished for this project have been inspected at the plant and meet or exceed the standards set forth in this specification. The CONTRACTOR shall submit these certificates to the ENGINEER for approval prior to installation of the pipe materials.

5. Provide a statement that personnel responsible for fusing the pipe have been trained and qualified.

1.2.4 For items that do not meet all of the requirements of this specification, the bid/submittal shall include a written description of the deviations, along with data that show the magnitude and the justification for the deviation from the specification. The decision to accept material deviating from this specification shall be the responsibility of the specifying ENGINEER and must be approved in writing.

1.3 QUALITY ASSURANCE

1.3.1 All pipes and pipe fittings used in the various piping systems shall conform to the specifications. All materials and equipment shall be in accordance with the appropriate requirements specified herein, and shall be equal to the products listed.

1.3.2 Standards

1. All Work shall conform to the applicable provisions of the codes, standards, Specifications and requirements as specified herein.

2. Piping System materials, fabrication erection, testing and inspection shall conform to the requirements of ASTM D-1248, "Specification for Polyethylene Plastics Molding and Extrusions Materials" and ASTM D3350, "Specification for Polyethylene Plastics Pipe and Fitting Material."

1.3.3 All shavings MUST be removed by either flushing with water or high pressure air.

1.4 REFERENCE DOCUMENTS AND STANDARDS

Unless otherwise specified, references to documents shall mean the latest published edition of the referenced document in effect at the project bid date.

1.4.1 ANSI/AWWA

1. ANSI/AWWA C901 Polyethylene (PE) Pressure Pipe and Tubing, ½ in. (13 mm) Through 3 in. (76 mm) for Water Service.

2. ANSI/AWWA C906 Polyethylene (PE) Pressure Pipe and Fittings, 4 in. (100 mm) Through 63 in. (1,600 mm), for Water Distribution and Transmission.

3. AWWA M55 Manual of Water Supply Practices, PE Pipe–Design and Installation.

1.4.2 Plastic Pipe Institute, PPI

1. PPI Handbook of Polyethylene Pipe – 2009 (2ndEdition).

2. PPI Material Handling Guide for HDPE Pipe and Fittings.

3. PPI TR-38 Bolt Torque for Polyethylene Flanged Joints.

4. PPI TN-42 Recommended Minimum Training Guidelines for PE Pipe Butt Fusion Joining Operators for Municipal and Industrial Projects.

5. PPI TR-46 Guidelines for Use of Mini-Horizontal Directional Drilling for Placement of High Density Polyethylene Pipe.

1.4.3 ASTM

1. ASTM D 1238 Standard Test Method for Melt Flow Rates of Thermoplastics by Extrusion Plastometer.

2. ASTM D 1505 Standard Test Method for Density of Plastics by the Density-Gradient Technique.

3. ASTM D 2321 Standard Practice for Underground Installation of Thermoplastic Pipe for Sewers and Other Gravity-Flow Applications.

4. ASTM D 2774 Standard Practice for Underground Installation of Thermoplastic Pressure Piping.

5. ASTM F 2880 Standard Specification for Lap-Joint Type Flange Adapters for Polyethylene Pressure Pipe in Nominal Pipe Sizes 3⁄4 in. to 65 in.

6. ASTM D 3035 Standard Specification for Polyethylene (PE) Plastic Pipe (DR-PR) Based on Controlled Outside Diameter.

7. ASTM D 3261 Standard Specification for Butt Heat Fusion Polyethylene (PE) Plastic Fittings for Polyethylene (PE) Plastic Pipe and Tubing.

8. ASTM D 3350 Standard Specification for Polyethylene Plastics Pipe and Fittings Materials.

9. ASTM F 585 Standard Guide for Insertion of Flexible Polyethylene Pipe Into Existing Sewers.

10. ASTM F 714 Standard Specification for Polyethylene (PE) Plastic Pipe (SDR-PR) Based on Outside Diameter.

11. ASTM F1417 Standard Test Method for Installation Acceptance of Plastic Gravity Sewer Lines Using Low-Pressure Air.

12. ASTM F 1962 Standard Guide for Use of Maxi-Horizontal Directional Drilling for Placement of Polyethylene Pipe or Conduit under Obstacles, Including River Crossings.

13. ASTM F 2164 Standard Practice for Field Leak Testing of

Polyethylene (PE) Pressure Piping Systems Using Hydrostatic Pressure.

14. ASTM F 2206 Standard Specification for Fabricated Fittings of Butt-Fused Polyethylene (PE) Plastic Pipe, Fittings, Sheet Stock, Plate Stock, or Block Stock.

15. ASTM F 2620 Standard Practice for Heat Fusion Joining of Polyethylene Pipe and Fittings.

16. ASTM F 3124 Standard Practice for Data Recording the Procedure Used to Produce Heat Butt Fusion Joints.

17. ASTM F 3183 Standard Practice for Guided Side Bend Evaluation of Polyethylene Pipe Butt Fusion Joint.

18. ASTM F 3190 Standard Practice for Heat Fusion Equipment (HFE) Operator Qualification on Polyethylene (PE) and Polyamide (PA) Pipe and Fittings.

2.0 PRODUCTS

2.1 RESIN AND MATERIAL REQUIREMENTS

1. All pipe and fitting material shall be manufactured from a PE 4710 resin listed with the Plastic Pipe Institute (PPI) as TR-4. The resin material shall meet the specifications of ASTM D 3350 with a minimum cell classification of 445474C. The polyethylene compound shall be suitably protected against degradation by ultraviolet light by means of carbon black of not less than 2 percent.

2.2 DUAL CONTAINED HDPE PIPE AND FITTINGS

2.1.1 Pipe, Fittings, and Supports

1. Pipe used to fabricate the dual contained system shall be made of HDPE material with a minimum material designation code of PE4710 and with a minimum Cell Classification as noted in 2.1. The density shall be no less than 0.941 – 0.955 gms/cm^3 as referenced in ASTM D1505. Melt flow shall be no greater than 0.15 gms/10 min when tested in accordance with ASTM D1238 – Condition E. Melt flow shall be no greater than 4.0 gms/10 min

when tested in accordance with ASTM D1238 – Condition F.

2. Both the carrier and containment pipe shall have an IPS (Iron Pipe Size) OD and, when required, pipe shall meet AWWA C901 (1/2" to 3") or AWWA C906 (4" to 63"), and shall be listed as meeting NSF-61. Pipe sizes 3" and large shall have a manufacturing standard of ASTM F 714, while pipe smaller than 3" shall be manufactured to the dimensional requirements listed in ASTM D 3035.

3. The carrier pipe will have a nominal OD of 4" with Standard Dimension Ratio (SDR) of 11 . The containment pipe will have a nominal OD of 8" with Standard Dimension Ratio (SDR) of 17. (Alternatively, the size and SDR of the dual containment pipe combinations shall be as specified on plans.)

4. Dual Contained pipe shall be prefabricated prior to shipment to the jobsite. No on-site fabrication to the pipe, fittings or system shall be allowed without express written consent of the ENGINEER and the piping supplier. Each end of pipe will have a centralizer that is thermally bonded to both the OD of the primary carrier and the ID of the secondary containment piping and designed such that movement will be restrained between the two piping systems during the simultaneous butt fusion process. Centralizer shall be thermally bonded to the primary carrier pipe, and maintain position and alignment of the primary carrier in relation to the secondary containment piping.

5. Dual Contained Pipe shall be manufactured by an ISO 9001 certified manufacturer. The pipe manufacturer shall have a minimum 10 years of experience in manufacturing and production of dual contained piping and related fittings.

6. The fittings supplied under this specification shall be made from a polyethylene compound having a cell classification equal to or exceeding the compound used in the pipe or shall be manufactured using a polyethylene compound having a cell classification equal to or exceeding the cell classification of the pipe supplied under this specification. The pressure rating of carrier fittings shall have a minimum pressure rating equal to or greater than the pipe to which they are joined unless otherwise specified on the plans or accepted by OWNER/ENGINEER. To insure compatibility of polyethylene

resins, all fittings supplied under this specification shall be the same manufacture as the pipe being supplied. Where required, all fitting shall meet the requirements of AWWA C901 or C906.

7. End termination fittings shall be used to seal the system at both ends. The fitting shall be simultaneously butt fused to the carrier and containment pipe to seal the annular space. Terminations that are not butt fused in the system will not be allowed. This fitting will also provide the transition to single wall piping using the following components and guidelines:

   a. Flange Adapters shall meet the dimensional and material requirements of ASTM F 2880.

   b. Ductile Iron, Stainless Steel, or Steel back-up rings (Van-Stone style lap joint flanges) shall have a radius on the inside diameter of the bore so as to be compatible with HDPE Flanges. Back up rings shall have bolt pattern that will mate with AWWA C207 Class D (or B or E), ASME/ANSI B 16.5 Class 150, ASME/ANSI B 16.1 Class 125, or ASME/ANSI B16.47 Series A.

   c. Flange assemblies shall be assembled and torqued according to PPI TN-38, "Bolt Torque for Polyethylene Flanged Joints."

   d. Threaded transition fittings may be used in lieu of flanges, but unions must be employed to allow connections where pipe will not have any freedom of movement.

8. Centralizers used for pipe ends will be either molded from HDPE Pipe Grade resins or machined from HDPE Pipe Grade sheet. Manual or hand cut centralizers are not permitted since they have a low degree of dimensional accuracy. Centralizers should have at least two openings that will permit the flow of liquid between the carrier pipe and the containment pipe. The OD of the centralizer shall match the ID of the containment piping as closely as possible. Centralizer spacing for prefabricated pipe will have a spacing of 53", or standard spacing based on industry standards.

9. The pipe supports supplied under this specification shall be provided complete with all necessary appurtenances to provide

a complete and working system. The pipe supports shall be placed where shown on the drawings and any additional areas recommended by the pipe manufacturer. The pipe supports shall be Grinnell Figure 191 or equal.

10. Manholes and structures shall be supplied by the same supplier as dual containment pipe and fittings. Structures shall meet the specific requirements of Section 02531 of the specifications and details on the plan drawings.

11. Flanges or electrofusion couplings shall be used for all manhole connections. The inlets and outlets shall be flanged for ease of installation.

12. All pipe flanges shall have ANSI gaskets.

2.1.2 Fusion Unit Requirements

1. All Fusion Equipment, whether new or used, rented or owned, shall be adhere to Dual Contained piping system manufacturer's recommendations. The butt fusion equipment used to join the pipe shall be capable of meeting all normal butt fusion requirements: alignment, heating, trimming and fusion pressure.

2. If the CONTRACTOR owns butt fusion equipment, the equipment must be serviced within 3 months prior to use for this project. The machine must be environmentally friendly and in satisfactory working order. The hydraulic system must be leak free. The pressure gage and thermometer must be checked for accuracy. For projects with pipe quantities of 5000' or longer, the fusion equipment should be serviced by an authorized service and repair center with at least one certified master mechanic on staff within 3 months from the first fusion on the project.

3. Rental Fusion Equipment must be supplied by an authorized service and repair center with at least one certified master mechanic on staff. When requested by OWNER or his authority, an inspection report detailing the components inspected within 3 months prior to arrival at jobsite will be provided.

2.1.3 Pipeline Locating Materials

1. A detectable plastic marker tape shall be 5 mil minimum thickness with a solid aluminum core of .35mil minimum thickness and a minimum width of 2". The background of the tape shall be colored based on pipe service with black lettering continuously printed. Marker tape shall have a minimum 35 lbs./inch tensile strength. The installation of the tape shall be at 18 inches below finish grade.

2.1.4 The OWNER or the ENGINEER may request certified lab data to verify the physical properties of the materials supplied under this specification or may take random samples and have them tested by an independent laboratory.

2.1.5 Rejection - Polyethylene pipe, and fittings may be rejected for failure to meet any of the requirements of this specification.

3.0 EXECUTION

3.1 ERECTION, INSTALLATION AND APPLICATION

3.1.1 Pipe Joining - Sections of polyethylene pipe should be joined into continuous lengths on the job site above ground. The joining method shall be the butt fusion method and shall be performed in strict accordance with the pipe manufacturer's recommendations. The butt fusion equipment used in the joining procedures should be capable of meeting all conditions recommended by the pipe manufacturer, including, but not limited to, temperature requirements, alignment and fusion pressures. Joining, laying, and pulling of polyethylene pipe shall be accomplished by personnel trained in working with dual containment polyethylene pipe systems.

3.1.2 General - Keeping the annular space of dual contained pipe and fittings clean and dry should be the goal of all installations. Contamination of the annular space could lead to either poor fusions or problematic false indications of leaks or loss of integrity of the carrier/containment pipe system.

3.1.3 Direct Burial

1. Buried HDPE pipe and fittings shall be installed in accordance with ASTM D 2321 or ASTM D 2774 for pressure systems and AWWA Manual of Practice M55 Chapter 8. The Design Window identified in AWWA M55 Chapter 5 (page 65 of 2006 version) shall be considered acceptable design and installation conditions based on

the containment pipe DR.

2. Pipe embedment - Embedment material should be Class I, Class II, or Class III materials as defined by ASTM D-2321 Section 6. Class IV or Class V materials are not recommended; however, they may be used only with the evaluation and approval of the ENGINEER at a demonstrated achievable compaction.

3. Bedding: Pipe bedding shall be in conformance with ASTM D 2321 Section 8. Compaction rates should be as specified in ASTM D 2321. Deviations shall be approved by the ENGINEER.

4. Haunching and backfill shall be as specified in ASTM D 2321 Section 9 with Class I, II, or III materials. Compaction shall be in excess of 85% Proctor, providing a minimum modulus of 1000 psi or greater.

3.1.4 Fusion Joining Requirements:

1. All Dual Contained HDPE pipe shall be joined using the simultaneous butt fusion welding process which produces homogeneous, seal, leak tight joints for both the carrier and containment pipe.

2. The Dual Containment supplier shall provide written simultaneous butt fusion welding procedure as part of the submittal package. The procedure should identify quality checks and incorporate principles outlined in ASTM F 2620 or PPI TR-33. The procedure shall identify how the simultaneous butt fusion pressure is determined.

3. Fusion joints shall be made by personnel trained by the dual containment system supplier. A record or certificate of training for the fusion operator must be provided that documents training date.

4. Considerations should be given to adverse weather conditions, such as temperatures below freezing, precipitation, or wind. Provisions shall be accepted by the OWNER/ENGINEER.

3.1.5 Fusion Operators:

1. The employer of the fusion machine operator is responsible for the

fusion joint quality of the fusion weld made by that individual. The employer is responsible for documenting all training and qualification records for that individual, including compliance to any code requirements for fusion/bonder operators.

2. All HDPE fusion equipment operators shall be trained by the dual containment system manufacture to the simultaneous fusion procedure. Fusion equipment operators shall have current, formal training on all fusion equipment employed on the project. Training received more than two years prior to operation with no evidence of activity within the past 6 months shall not be considered current.

3. When the fusion machine operator is employed by the fusion machine and dual contained system supplier, the supplier shall maintain an ISO 9001 Certified Quality Management System.

3.1.6 Butt Fusion Equipment:

1. For 6" and larger pipe sizes, the pipe butt fusion machine shall be a self-contained hydraulic fusion machine capable of butt fusing HDPE pipe. The carriage must be removable from the chassis for in-ditch use. The machine must be compatible with an electronic data recording device. Accessories will include all butt fusion inserts for the specified range of pipe sizes, a pyrometer kit for checking the surface temperature of the heater, extension cord of appropriate gauge (25' minimum), and hydraulic extension hoses (minimum of four at 25' each).

2. Fusion Data Recording:

a. For containment sizes 6" and larger pipe sizes, an authorized fusion data recorder shall be used to record all fusion welds on hydraulically operated fusion machines. The device shall be capable of meeting the requirements of ASTM F 3124, "Standard Practice for Data Recording the Procedure used to Produce Heat Butt Fusion Joints in Plastic Piping Systems or Fittings". The device, or combination of devices, shall record the following variables of each fused joint:

I. Heater surface temperature- immediately before inserting the heater plate, measure with a pyrometer

and manually enter into the weld record.

ii. Gauge pressure during the initial heat cycle

iii. Gauge pressure and elapsed time during the heat-soak cycle

iv. Heater removal (dwell) time

v. Gauge pressure and elapsed time during the fusing/cool cycle

vi. Drag pressure

vii. Pipe diameter(s) and wall thickness(es)

viii. Type of HDPE material (Specification and Classification) and manufacturer

ix. Fusion Machine Identification

b. The device shall record the operator name and a unique operator ID number, along with the date and time of each weld.

c. Records showing the device is up to date on all required calibration should be available for review when requested.

d. All fusion welds should be traceable to the report (via operator and weld ID) with an indentation weld stamp or by permanent paint marker/pen next to fusion weld.

3.1.7 Butt Fusion Examination and Data Review:

1. Visual: For pipe sections, examine the full exterior circumference of the containment for bead uniformity before cutting. Where required, create a test fusion and disassemble after cutting the pipe sections to review the interior beads. All beads should have visually acceptable bead formation as shown in Fig 4 and Appendix X2 of ASTM F 2620. In addition, the following characteristics are expected:

a. There shall be no evidence of cracks or incomplete fusing

b. There shall be no evidence of captured objects (e.g., pipe shavings, facer ribbons) between bonded surfaces.

c. Variations in upset bead heights on opposite sides of the cleavage and around the circumference of fused pipe joints are acceptable.

d. The apex of the cleavage between the upset beads of the fused joint shall remain above the base material surface

e. Fused joints shall not display visible angular misalignment, and outside diameter mismatch shall be less than 10% of the nominal wall thickness

f. Fusion data records, when required, shall be reviewed to meet acceptable fusion criteria can be used as additional verification of visual indicators.

3.1.8 Fusion Data Record Review

1. The fusion date record for each fused joint shall be compared to the approved fusion procedure. The reviewer shall verify the following:

a. That all data required by section 3.1.6 was recorded

b. pressure was within the acceptable range

c. Heater surface temperature was within the acceptable range

d. Butt fusion pressure applied during the fusing/cool cycle was correctly calculated to include drag pressure, fell within the acceptable range for the applicable size and agrees with the recorded hydraulic fusing pressure.

e. Butt fusing pressure was reduced to a value less than or equal to drag pressure at the beginning of the heat soak cycle.

f. Fusing machine was opened at the end of the heat soak cycle, the heater was removed, and the end were brought together at the fusion pressure with the acceptable time range

g. Cooling time at butt fusing pressure met the minimum time specified

2. If the recorded data is outside the limits of the acceptable range, the joint is unacceptable and must be removed and replaced.

3. Frequency. Records for test fusion joints should be reviewed immediately after the joint is completed. Fusion joints for jobsite fusions should be reviewed daily or before being covered with backfill.

3.2 TRASPORTATION, UNLOADING, HANDLING AND STORAGE

All pipe ends shall be sealed with polyethylene in order to prevent debris from entering the pipe during delivery. Pipe shall be stored on clean, level ground to prevent undue scratching or gouging. Nylon slings are suggested for handling in order to prevent damage. If the pipe must be stacked for storage, such stacking should be done in accordance with the pipe manufacturer's recommendations.

3.2.1 The manufacturer shall package product in a manner designed to deliver the pipe and fittings to the project neatly, intact and without physical damage. During transportation each pipe shall rest on suitable pads, strips skids, or blocks securely wedged or tied in place.

3.2.2 During loading, transportation, and unloading, every precaution should be taken to prevent damage to the pipe. The handling of the pipeline shall be in such a manner that the pipe is not damaged by dragging it over sharp and cutting objects. Cuts or gouges that reduce the wall thickness by more than 10% are not acceptable and must be cut out and discarded.

3.2.3 Handle all piping material in accordance with the PPI Handbook of Polyethylene Pipe (2nd Edition), Chapter 2. All pipe and accessories shall be loaded and unloaded by lifting with hoists or by skidding in order to avoid shock or damage. Under no circumstances shall materials be dropped. Pipe handled on skidways shall not be rolled or skidded against pipe on the ground. Slings, hooks or pipe tongs shall be padded and used in such a manner as to prevent damage to the exterior surface or interior of

the pipe. All pipe and fittings shall be subjected to visual inspection at time of delivery and before they are lowered into the trench to be laid.

3.2.4 Materials, if stored, shall be kept safe from damage and shall not be stacked higher than the limits recommended by the manufacturer. The bottom tiers shall be kept off the ground on timbers, rails, or concrete. Pipe shall not be stored close to heat sources. The CONTRACTOR shall be responsible for all security, damage and loss of pipe, excluding Acts of God.

3.2.5 Sealing surfaces of mating components (i.e. flange faces) shall be kept free from dirt or foreign matter at all times. The open ends of all pipe sections of joined and/or installed pipe (not in service) shall be capped or plugged to prevent insects, animals, or foreign material from entering the pipe line or pipe section. Use waterproof nightcaps to prevent the entrance of any type of natural precipitation into the carrier or containment pipe and will be secured to the pipe in such a manner that the wind cannot blow them loose. Where possible, the pipe shall be raised and supported at a suitable distance from the open end such that the open end will be below the level of the pipe at the point of support.

3.2.6 All pipe and fittings shall be subjected to visual inspection at time of delivery and before they are installed or lowered into the trench to be laid. Defective, damaged, or unsound pipe will be rejected. Cuts, punctures, or gouges that penetrate or reduce the wall thickness by 10% or more are not acceptable and must be removed and discarded. Joints or fittings that do not conform to these specifications will be rejected and must be removed immediately by the CONTRACTOR.

3.3 FIELD QUALITY CONTROL

The CONTRACTOR shall insure testing can be accomplished in a safe manner, including protection of personnel, equipment, and public in the event of a failure during testing. The CONTRACTOR shall restrain pipe, components, and test equipment as required. All pumps, valves, temporary connections, meters, gauges and other measuring devices shall be furnished, installed and operated by the CONTRACTOR and all such equipment and devices and their installation shall be approved by the OWNER's ENGINEER. The pressure gauges or data recorders should be calibrated and sufficiently sized to provide mid-range data (pressure tested will not be below 10% or greater than 90% of gauge capacity) that result in easy reading, interpretation. Gauges shall be accurate to within 2% of full scale with increments no greater than X psi. Test pressure shall not exceed the lowest rated component of the system, which may be a fitting or valve.

3.3.1 Water Piping Test - All water piping shall be tested at the hydrostatic pressure specified in Table 1 for a duration of one hour and shall not vary more than ±5 psi. The hydrostatic pressure shall be applied and the pipe allowed to stretch to equilibrium over a 2-3 hour period. The hydrostatic pressure shall then be returned to the test pressure and the one hour test conducted.

3.3.2 Compressed Air Test - All piping tested with compressed air as the medium shall be tested at the pressures shown in Table I for a duration of ten minutes. Each joint shall be tested with a soap solution shall show no sign of leakage.

3.3.3 Leakage Test - The leakage test for the line shall be conducted concurrently with the pressure test. The test pressure of 100 psi at the same location as the pressure test connection shall be maintained constant during the entire time that line leakage measurements are being made, so that the allowable leakage rate specified in Table 2 may be determined accurately.

3.3.4 Table 1: Pipe Test Pressure Schedule

Line Description	Pipe	Type	Pressure or Gravity	Test Pressure (PSIG)	Test Media
HDPE Carrier Pipe	HDPE	SDR11	Pressure	100	Water
HDPE Containment Pipe	HDPE	SDR17	Gravity	110	Water/Air

3.3.5 Table 2: Allowance for Expansion Under Test Pressure

Nominal Pipe Size (in.)	Allowance for Expansion (US Gals/100 feet of pipe)
3 and smaller	0.1
4	0.13

3.3.6 Containment Pipe Testing

1. Access to the annular space via low point drains or access ports will used to conduct containment pipe testing.

2. The annular space between the carrier and containment pipe shall be tested to a maximum of 10 psi air pressure. Air pressure should be allowed to equalize for 10 minutes, then monitor the pipe for the test

period of 10 minutes, during which no drop in pressure shall be allowed.

3. Intermediate testing of containment annular space may be used for evaluation of fusion and pipe integrity prior to final testing. No hydrostatic test of the carrier is required for intermediate testing. Welding and subsequent removal of end terminations will likely be necessary to provide temporary closure of the annular space.

4. Final low pressure air testing of containment shall be conducted upon completion of the hydrostatic testing of the carrier pipe outlined in section 3.3.7.

5. Warning: All pneumatic test, regardless of pressure, can be dangerous and safety procedures shall be identified, documented, approved by the OWNER and ENGINEER, and followed. ASTM F1417 may provide useful guidance and information for reference.

3.3.7 Carrier Pipe Testing

1. Carrier Pressure testing shall be conducted in accordance with requirements and recommendations of ASTM F 2164 (Field Leak Testing of Polyethylene Pressure Piping Systems Using Hydrostatic Pressure), AWWA Manual of Practice M55 Chapter 9, and PPI Handbook of Polyethylene Pipe Chapter 2 (2nd Edition). High pressure or pneumatic (compressed air) leakage testing of HDPE pressure piping is prohibited for safety reasons.

   a. The section of pipe to be tested shall be filled with potable or generally clean water (uncontaminated river/lake water) approved by the OWNER/ENGINEER. While the system is being filled with water, air shall be carefully and completely exhausted. Due to the complexity of adding fittings in installed dual contained piping, systems requiring venting shall use air vent valves within containment structures located at high points during the design phase.

   b. The test procedure for HDPE pipe consists of two steps: 1) the initial phase or expansion phase and 2) the test phase. During the initial/expansion phase, sufficient make-up water shall be added hourly for 3 hours to return to the test

pressure. During the test phase, the expansion phase pressure is reduced by 10 psi to test phase pressure and monitored for at least one hour (3 hours maximum).

c. Under no circumstances shall the total time under hydrostatic test exceed eight (8) hours. If the test is not completed due to leakage, equipment failure or any other reason, depressurize the test section and permit the system to "relax" for eight (8) hours prior to the next testing sequence.

d. The test pressure shall be 1.5 times the operating pressure at the lowest point in elevation along the test section's vertical pipeline profile. In accordance with section 9.8 of ASTM F 2164, the pipe shall pass if the final pressure is within 5% of the test phase pressure for the testing period (3 hours maximum). If the test section fails this test, the CONTRACTOR shall repair or replace all defective materials and/or workmanship at no additional cost to the OWNER.

2. Test pressures require consideration of thermal conditions. Polyethylene piping materials are typically pressure rated at 73°F (23°C) and PE piping at temperatures greater than 80°F (26°C) require reduced test pressures. (Note that higher pipe temperatures should consider both ambient temperatures and radiant solar heating of exposed black HDPE pipe) Guidance for elevated temperatures can be found in the appendix of Chapter 3 (Material Properties) of the PPI Handbook of PE Pipe.

3. All pressure and leakage testing shall be done in the presence of a representative of the OWNER and ENGINEER.

3.4 ADJUSTING AND CLEANING

3.4.1 If inspections or tests show defects, such detective work or material shall be replaced and inspected and test repeated. All repairs to piping shall be made with new material. No caulking of screwed joint or holes will be accepted.

3.4.2 Repair of Damaged Sections - Segments of pipe having cuts or gouges in excess of 10 % of the wall thickness of the pipe should be cut out and

removed. The undamaged portions of the pipe shall be rejoined using the butt fusion joining method.

- END OF SECTION -

SECTION 15110
VALVES

1.0 GENERAL

1.1_ DESCRIPTION

1.1.1 Work under this Section includes check valves, ball valves, and air/vacuum valves.

2.0 PRODUCTS

2.1 Values shall meet the requirements of the applicable specification, and maximum operating pressure ratings.

2.1.1 Valves shall be chemically designed to handle leachate with a pH range of 4 to 6.

2.1.2 Valves shall be designed to joint with a HDPE Pipe.

2.1.3 Shop drawings are required for all valves.

3.0 EXECUTION

3.1 CHECK VALVES

3.1.1 All ball check valves shall be of a solid thermoplastic construction and shall be designed with an elastomeric uniseat/seal for tight and shut-off under pressure. The same seal shall function as both the ball seat and the union seal.

3.2 PLUG VALVES

3.2.1 The valve shall be of a tapered cylindrical plug design made of polypropylene. Valve shall come standard with a sealed position indicator, clean-out plug and EPDM seals and be of the non-rising stem design.

3.2.2 The valve shall be of a tapered cylindrical plug design made of CPVC, thickly lined with a styrene butadiene rubber (SBR) material. Valve is to come standard with a sealed position indicator and SBR seals. Valve shall have shallow seating area in bottom of valve body, be self-cleaning and be of the non-rising stem design.

3.3 BALL VALVES

3.3.1 The valve shall be made of polypropylene. Valve shall be true union type.

3.3.2 The valve shall be made of CPVC with viton seals.

- END OF SECTION -

DIVISION 16

SECTION 16010
GENERAL ELECTRICAL PROVISIONS

1.0 GENERAL

1.1_ DESCRIPTION

These specifications set forth conditions, and include the work to be performed, equipment to be installed, and certain methods to be employed to implement a complete operable electrical installation.

1.2 SUBMITTALS

1.2.1 Submit all materials and equipment for review. Each sheet of descriptive literature submitted shall be clearly marked to identify the material or equipment as follows:

1. Submit schematics and connection diagrams for all electrical equipment. A manufacturer's standard connection diagram or schematic showing more than one scheme of connection will not be accepted unless it is clearly marked to show the intended connections.

2. Equipment and materials descriptive literature not readily cross-referenced with the drawings or specifications shall be identified with a suitable notation.

1.3 CODES AND STANDARDS

1.3.1 These specifications are minimum requirements and shall govern except where made more stringent by other sections of this specification or local, state or federal laws or regulations. Where conflict between drawings, specifications, codes or standards occurs, the more stringent requirements shall govern. No extra compensation for such compliance will be allowed.

1.3.2 Submission of proposal is considered evidence that the Contractor is proficient and experienced, and knowledgeable of all standards, codes, ordinances, permits, and regulations affecting his work.

1.3.3 The materials and installation shall conform to the minimum requirements and latest outstanding issues and revisions of the following codes, standards, and regulations wherein they apply:

1. NFPA No. 70, National Electrical Code (latest edition).

2. American National Standard, National Electrical Safety Code, (latest edition).

3. Applicable publications of NEMA, ANSI, IEEE and ICEA.

4. Underwriters' Laboratories, Inc. Standards

5. OSHA requirements.

1.4 PERMITS, INSPECTIONS, AND UTILITY CONNECTIONS

1.4.1 The Contractor shall obtain all necessary permits and shall pay all fees in connection with all permits, inspections, and approval by the proper authorities in local jurisdiction of such work. Final inspection by the Engineer will not occur until necessary certificates of satisfactory inspection are received.

1.4.2 Utility company installation and/or premium charges in all forms are to be paid by the Contractor who will ascertain these charges prior to bidding.

1. Verify with Electric Utility service information specified herein and as shown on Drawings before submitting Bid. Include deviations required by Electric Utility from Drawings or Specifications. Consult with Electric Utility regarding service entrance requirements and metering equipment. Include in Bid, Electric Utility charges for extension of Electric Utility distribution system to point of services termination, in accordance with requirements of applicable service rules and regulations of Electric Utility, and complying with Drawings.

1.5 DRAWINGS

1.5.1 Drawings and specifications are provided for assistance of the Contractor and are diagrammatic only to indicate the general arrangement and location of circuits, outlets, etc. Exact locations will be governed by the building and site where dimensioned. Deviations from the arrangement indicated to meet structural conditions shall be made with no expense to the Owner.

1.5.2 The location of outlets and connections for equipment to be installed by

others are indicated on the plans; verify these locations with the party responsible for installing such equipment.

1.5.3 Throughout the progress of construction, the Contractor shall keep a set of detailed field record drawings, including the exact location of concealed work and underground utilities. This requirement does not authorize any deviations from the contract drawings without prior approval from the Engineer. The field record information shall be marked in a legible manner on prints of the drawings. At the completion of work, the field record information shall be delivered by the Contractor to the Engineer.

1.6 CLEARANCES

1.6.1 Equipment:

Maintain working clearances around electrical equipment as required for proper maintenance and operation, as required by N. E. C.

1.7 TEMPORARY POWER

1.7.1 The Electrical Contractor shall provide all labor and material for temporary power and lighting required in construction for all trades until the permanent system is in operation.

1.7.2 Complete installation shall be in compliance with all applicable codes. Electrical Contractor's bids will allow removal and salvage for any temporary service when it is no longer required to supply his own portable source for these machines.

1.7.3 Power for welding machines and other high current drawing machines will not be supplied. Contractor will be required to supply his own portable power source for these machines.

2.0 PRODUCTS

2.1 MATERIALS

2.1.1 Where specified herein, indicated in equipment list, or shown on the drawings, the Contractor will furnish all equipment and materials for installation, connection, and placing into satisfactory operating service. The Contractor shall review the drawings, specifications, manufacturer's recommendations, schedules, and building structures for clarification of his

responsibility in the handling and installation of equipment and material. Manufacturer's drawings and installation instructions shall be furnished with the equipment for use by the Contractor. Where applicable, and not in contradiction with the drawings and specifications, the Contractor shall install and connect the equipment in accordance with the manufacturer's recommendations and instructions.

2.1.2 Material and equipment shall be furnished new and as listed Underwriters' laboratories, Inc. and shall bear UL approval labels and all applicable federal specifications.

2.1.3 Products shall be by established manufacturers regularly engaged in making type of materials to be provided and complete with all parts, accessories, trimmings, connections, etc. reasonably incidental thereto as specified in detail or as described in manufacturer's catalog. All equipment shall be properly cleaned, adjusted, and put in complete working order ready for service.

2.1.4 All packaged equipment shall be completely factory wired prior to delivery to the job. Connection to and bonding of this equipment is required under this section of the specifications.

1. The CONTRACTOR shall check all prewired controls before energizing to verify that all internal wiring is properly coordinated to the voltage to be applied.

2. The General Equipment Requirements shall apply to all equipment furnished under this section.

3.0 EXECUTION

3.1 INSTALLATION

3.1.1 The CONTRACTOR shall provide and install all equipment as specified, required or implied in this specification except as noted. This requirement shall include all labor, materials, and incidentals in a manner consistent with good practice necessary for a complete operable installation. The systems and equipment to be provided and installed by the Contractor include:

1. Permanent power connections to the leachate pump control panels through a locally mounted disconnect panel.

2. Verify that all components of the control panel are in operating order.

3. Verify proper operation of the leachate pump.

3.1.2 Cooperation with other trades shall be implemented by the Contractor by his reference to the Drawings and other sections of the specifications for work by other trades and to be carried on simultaneously or sequentially with the electrical work. This requirement is to facilitate constriction to proceed with no harm to the Owner due to the absence of cooperation. All other drawings and sections of the specifications shall become part of the electrical specifications as they relate to electrical work.

3.1.3 The Contractor shall verify equipment dimensions to insure dimensional compatibility.

3.1.4 Contractor shall provide at all times services of one or more experienced superintendents in charge of all required personnel.

3.1.5 No work shall be covered or enclosed until work is tested in accordance with applicable Codes and Regulations and successful tests witnessed and approved by authorized inspection authority. Written approvals shall be secured by Contractor and shall be submitted to the Engineer before final acceptance of work.

3.1.6 All conduit penetrations through HDPE manholes shall be sealed to prevent transfer of water, heat and smoke. Use an approved sealant compatible with HDPE material.

3.1.7 The Electrical Contractor shall be responsible for repairs and finish of all holes placed for conduit if such holes are placed after general construction is completed.

3.1.8 All equipment wiring shall be installed in accordance with shop drawings to be furnished by the supplier of the equipment. Where necessary, circuits shall be adjusted in size to match equipment being furnished.

3.1.9 Direct connections between rough-in box, or conduit stub, and special equipment shall be made with flexible conduit. A green ground wire shall be installed in all flexible conduits to provide ground continuity.

3.1.10 All excavation, backfilling, and concrete work shall conform to the

respective sections of these specifications.

3.1.11 If an underground cable is installed, a plastic non-deteriorating warning maker shall be placed above cables and conduits the full length of the trench at a depth of 12" below grade. The marker shall be yellow, 6" wide, and labeled "BURIED ELECTRIC LINE" or similar; Brady UT 20- Y6, or approved equal.

3.1.12 The Contractor shall be responsible for receiving and promptly checking the equipment and for protecting the equipment against mechanical and electrical damage at all times after it is received.

3.1.13 Mounting heights unless otherwise noted shall be from the finished floor to the bottom of the device.

Receptacle	Bottom of leachate pump control panel
Disconnect Switches	4'-0"

3.1.14 Circuits for different types of signals shall be run in separate conduits, i.e., 120 V, 4-20 ma, thermocouple, and pulse circuits shall be grouped in their own conduits.

3.1.15 The Electrical Contractor shall be responsible for providing all conduit and wiring for the control and interconnections of mechanical equipment. The Contractor should refer to the mechanical specifications to determine work of this kind that will be handled by others.

3.1.16 Contractor Furnished: AB materials and equipment shall be of types and manufacturer specified wherever practical. Should materials or equipment so specified be unobtainable, the Contractor shall submit the description and manufacturer's literature, reason for the substitution request and shall secure the approval of the Owner before substitution of other material or equipment. This specification establishes performance requirements and the quality of equipment acceptable for use and shall in no way be construed to limit procurement from other manufacturers, except where noted "No Substitute."

3.1.17 Equal or Equivalent: The term "or equal" and similar terms as used on the drawings or specifications shall be interpreted to mean "equal or equivalent" in the opinion of the Owner's Representative.

3.1.18 Manufacturer's Prints: Where the Contractor furnishes equipment other than

standard construction items he shall furnish manufacturer's prints and reproducibles of all such equipment to the Owner.

3.1.19 The Contractor shall be responsible for properly protecting the equipment and materials at all times from the weather or any other adverse environmental conditions. Such responsibility shall include the furnishing of adequate shelter and heat to protect the insulation of all electrical apparatus subjected to humid conditions indoor or outdoor. Adequate shelter shall be defined as an enclosed, dried-in area complete with sealed roof.

3.2 IDENTIFICATION AND INSTRUCTIONS

3.2.1 All electrical systems shall be color coded. Neutrals shall be color code per National Electrical Code 210-5. Phase A, B and C shall be color code such that they shall be the same color throughout the entire building. Different voltages shall be different colors.

3.2.2 Wires in each disconnect or outlet shall be labeled with wrap-on numbers according to the circuit number to which they are connected.

3.2.3 All temporary electric service and wiring shall comply with NEC.

3.3 TESTS

3.3.1 During the course of construction, conduct the following tests on the electrical installation.

1. Test the ground system.

2. Check leachate pump motors for proper rotation.

3. Test each primary cable, if applicable, before energization with non-destructive DC potential test conducted by a testing agency approved by Engineer.

3.4 PLACING OF SYSTEMS IN OPERATION

3.4.1 Contractor shall be responsible for all start-up procedures and system checks.

3.4.2 All equipment shall be installed, tested and operated in accordance with

respective manufacturer's recommendations.

3.5 GUARANTEES

3.5.1 All labor, materials and equipment shall be guaranteed in writing by installing contractor for one year after final acceptance date and/or normal continuous complete season's operation applicable to equipment or system.

3.5.2 Acceptance date shall be determined by Engineer and stated in writing. Contractor shall secure equal guarantees from suppliers.

3.5.3 Contractor shall make all necessary alterations, repairs, adjustments and replacements during guarantee period as directed by Engineer to comply with Contract Documents, at no cost to the Owner.

3.5.4 Repair or replacements made under the guarantee provision shall bear further one year guarantee from date of acceptance of repair or replacement.

3.6 INSPECTION

Upon completion of the work described under these specifications and drawings, the Electrical Contractor shall obtain and pay for inspection and approval by the local electrical inspecting authority. One (1) certified copy of the inspection report shall be delivered to the Engineer.

3.7 HOUSEKEEPING AND CLEANUP

Daily remove from the site all debris and rubbish accumulating as a result of the electrical installation. Upon completion of the project, dispose of all debris and rubbish and leave manholes and electrical equipment rooms broom clean. Clean the interiors of all cabinets, pullboxes and equipment enclosures.

3.8 OPERATING INSTRUCTIONS

Provide four (4) bound sets of operating and maintenance instructions to ENGINEER.

3.9 TIE-INS

3.9.1 All tie-ins of new or modified equipment to existing energized equipment

shall be scheduled through the Owner. The Contractor shall not de-energize any circuit. If an operating circuit must be de-energized for purposes of performing work, de-energization of the circuit shall be scheduled through the Owner. The switch or circuit breaker will be opened by the plant personnel and the switch or breaker locked and tagged-out by both Contractor and Owner.

1.0 INTRODUCTION

1.1 Purpose

In keeping with Section (§) 330.6 of the Municipal Solid Waste Rules (MSWR), this Soil and Liner Quality Control Plan (SLQCP) has been developed to fulfill the requirements of §330.205 and §330.206 (relating to lining systems) and §330.203 (relating to liners constructed below the groundwater table). The intent of this SLQCP is to provide reasonable technical guidance and a suggested minimum level of construction control and testing for various types of liner systems and to provide guidance for the analysis, design, and construction of liners placed below the seasonal high water table.

1.2 Review of Regulatory Requirements

New Type I Municipal Solid Waste Landfill (MSWLF) units and lateral expansions must be constructed in accordance with one of the following provisions (§330.200):

> *(1) a design that ensures that the concentration values listed in Table 1 of this section will not be exceeded in the uppermost aquifer at the relevant point of compliance, as specified by the executive director under subsection (d) of this section; or*
>
> *(2) a composite liner, as defined in subsection (b) of this section, and a leachate collection system that is designed and constructed to maintain less than a 30-cm depth of leachate over the liner.*
>
> *(b) For purposes of this section, "composite liner" means a system consisting of two components; the upper component must consist of a minimum 30-mil flexible membrane liner (FML) and the lower component must consist of at least a two-foot layer of compacted soil with a hydraulic conductivity of no more than 1 x 10^{-7} cm/sec. FML components consisting of high density polyethylene (HDPE) shall be at least 60-mil thick. The FML component must be installed in direct and uniform contact with the compacted soil component.*

Alternate liner systems (e.g., the use of geosynthetic clay liner to replace the soil portion of a composite liner) may also be constructed in lieu of the standard Subtitle D liner which meet the requirements of 30 TAC

330.202.

The construction and testing of all liners must be in accordance with this Soil and Liner Quality Control Plan (SLQCP) as required by §330.205. It is recommended that a copy of the current SLQCP be maintained on site at all times and be available for reference by the TNRCC's inspector and permittee's employees responsible for the construction or testing of the liner.

This SLQCP provides materials, construction, and QA/QC (Quality Assurance/Quality Control) criteria for various elements of the liner system, including:

- In situ and constructed soil liners (Chapter 2)
- Geomembrane (Chapter 3)
- Geosynthetic clay liners as an alternative liner (Chapter 4)
- Leachate collection layer (Chapter 5).

This SLQCP also defines the various physical conditions that can be encountered in the field when designing and constructing liners below the seasonal high water table. Design and construction methods are discussed that can be employed to assure that the liner systems are constructed under stable conditions and can maintain their integrity throughout the landfill operations and post operations phases.

1.3 Full-Time Quality Control/Quality Assurance

The construction and testing of all elements of the liner and final cover must be in accordance with this SLQCP. Supervision of liner construction and all QA/QC activities should be provided by an independent licensed engineer with experience in geotechnical engineering (GP). The GP may be a geologist with experience in geotechnical testing and evaluating the engineering properties of soils for liner systems which involve in situ or compacted soil only. The GP or his representative should be on site for all liner system construction and testing. It is recommended that the GP be on site at least once weekly, or as often as necessary depending on the experience of the GP representative, for all extraordinary construction events during all liner system construction.

2.0 SOIL LINERS

2.1 General

All constructed soil liners must possess a coefficient of permeability no greater than $1x10^{-7}$ cm/sec, a liquid limit (LL) not less than 30, and a plasticity index (PI) not less than 15. The percentage of soil fines passing the 200 mesh sieve must be at least 30%. All of the soil material must pass the one-inch sieve and shall not contain rocks or stones that total more than 10% by weight. The minimum thickness for any constructed soil liner at the City of Brownsville Municipal Landfill is two feet for a composite liner. (§330.205(c)(6) and §330.205(h))

The sequence of development as approved in the Site Development Plan (SDP) on file with the TNRCC must be followed so that liner coverage in a landfill is developed in a fashion that minimizes contaminant migration beyond the constructed limits during filling and maximizes the operational life of the site. This sequence shall not be altered without an approved permit modification from the TNRCC.

The depth of excavation should be no deeper than that allowed within the SDP and should coincide with the bottom of the liner.

2.2 Soil Liner Material Requirements

Representative samples of the soils to be used for liners must first be tested, in accordance with the following standards, in a geotechnical laboratory to ensure that they meet the following minimum requirements set forth in the MSWR. Additional initial soil testing will be required if there is a change in material or borrow source. Table I at the end of this SLQCP lists the required quality control testing and minimum requirements.

- Sieve Analysis - ASTM D 422 or ASTM D 1140 - At least 30% passing the #200 mesh sieve.
- Atterberg Limits - ASTM D 4318 - Liquid Limit (LL) of not less than 30 and a Plasticity Index (PI) of not less than 15.
- Coefficient of Permeability - Appendix VII of the Corps of Engineers Manual EM 1110-2-1906 or ASTM D 5084 - $1x10^{-7}$cm/sec or less.

2.2.1 Soils for Constructed Liners

2.2.1.1 Moisture/Density (M/D) Testing

In addition to the minimum test requirements in 2.2, above, a moisture/density relationship must be determined for each soil borrow source to be used in soil liner construction. This moisture/density (M/D) compaction curve must include a zero-air-voids line based upon an estimated or measured Specific Gravity of the compacted soil. The two acceptable standard moisture/density relationship test procedures are:

- ASTM D 698 (Standard Proctor) -- 12,400 ft-lbf/ft^3 [1](for light-weight equipment), or
- ASTM D 1557 (Modified Proctor) -- 56,000 ft-lbf/ft^3 [1] (for heavy equipment)

In order to determine that the proposed soil is suitable for use as liner material, permeability tests must be conducted on samples compacted under the above-listed compactive-effort test procedures. These soils shall be prepared and tested as next described.

2.2.1.2 Coefficient of Permeability Testing

Once moisture-content/density relationships have been determined for one or more compactive efforts, a soil sample should be compacted to approximately 95% of the maximum dry density at the optimum moisture content using ASTM D 698 or to approximately 90% of maximum dry density at a moisture content 1% drier than optimum using ASTM D 1557. An appropriate coefficient of permeability test should then be performed on this sample. The maximum acceptable coefficient of permeability of $1x10^{-7}$ cm/sec for any given soil sample must be demonstrated in the laboratory before the material is considered suitable for liner construction.

Once the acceptable coefficient of permeability is demonstrated through testing, the percent compaction and moisture content of the demonstration sample become the minimum standards for use in field control (The minimum standards, however, must not be less than 95% compaction at optimum moisture using ASTM D 698 or 90% compaction at a moisture content 1% dry of optimum using ASTM D 1557).

---

[1] The energy values assigned to each of these two test methods are the compactive efforts used in the soils laboratory to compact each test specimen, and should be comparable to the compaction capability of the equipment used to construct the soil liner.

The permeant fluid for permeability testing must be: tap water, a 0.005N calcium sulfate solution, or captured ground water from the test boring where the soil samples are taken. Distilled or deionized water is not acceptable as a permeant and shall not be used. (§330.56(d)(5)(B)(ii))

Test methods and all test data calculations must be provided in the Soil Liner Evaluation Report (SLER). Any deviation from the methods listed below must be fully justified and explained to the TNRCC and its permission granted prior to their use. These variations must also be noted and TNRCC authorization documented in the SLER.

The two acceptable laboratory test methods for determining the coefficient of permeability are as follows:

- Falling head -- Appendix VII of the Corps of Engineers Manual EM 1110-2-1906 or ASTM D 5084.
- Constant head -- Appendix VII of the Corps of Engineers Manual EM 1110-2-1906 or ASTM D 5084

Alternate methods of testing for the coefficient of permeability by using field testing may be used for tests pads and are discussed later in 2.5.2 of this Section.

2.3 Soil Liner Construction Requirements

The key elements of soil liner construction are: strong quality control, suitable soil selection, moisture content, degree of compaction, type and weight of compaction equipment, lift thickness, clod size, lift interface bonding, liner protection from desiccation, protection from ponded water, and conscientious maintenance after the liner is complete.

2.3.1 General

Liners on side slopes with greater than a 3:1 slope angle (3 horizontal to 1 vertical) should not be constructed in parallel lifts due to both the inherent lack of stability of the compaction equipment on these steep slopes as well as the compaction inefficiency.

Placement of constructed liners (clay-type material) should be in accordance with the following:

- All surface areas should be properly scarified a minimum of two inches and prepared to receive the liner.
- The top of each lift should be roughened to a shallow depth prior to the placement of the next lift of soil for compaction.
- No loose lift should be thicker than the pads of the compactor so that complete bonding with the top of the previous lift is achieved.
- Equipment and safety limitations prohibit finished grades with slopes greater than 3:1 if the liner is constructed parallel to the surface. For an excavated wall with steeper than 3:1 side slopes, the sidewall liner must be constructed in successive horizontal lifts.
- The top surface of the completed soil liner must be proof rolled with a smooth-wheel roller prior to final liner thickness surveying when placement of a geomembrane liner is required.
- The surface of a soil liner shall be proof rolled when construction is shut down for more than 24 hours to mitigate the effects of desiccation.

2.3.2 Constructed Soil Liners

These constructed liners include those of over-excavated and recompacted in situ soils and soils from a borrow source.

Soil liners will be constructed in an expeditious manner. Any prolonged soil liner construction schedules or hiatus in construction; such as larger than typical cell constructions, inclement weather delays, contractor issues, etc., will be explained in the SLER.

2.3.2.1 Liner Tie-in

When a continuous trench (area fill) method of landfill development is in use, the leading twenty (20) feet of the floor liner shall not receive waste to facilitate tie-in with the next liner segment. Continuous floor liners shall not be constructed by "butting" the entire thickness of a new liner segment next to the previously constructed section of liner. Liner tie-ins shall be done using one of the following methods:

- The edge of the old section of liner is cut back on a slope so that the entire existing liner edge is tied to new construction without superimposed construction joints (Figure 1).
- The edge of the old section of liner is cut back on off-set layers (stair-step) so that each unit thickness of the existing liner edge is tied to new construction without superimposed

construction joints. The length of the tie-in area should be at least 5 feet per foot thickness of liner (Figure 2).

2.3.2.2 Hydrating Liner Soil

The proper method of adding water to the liner soil cannot be overemphasized. Because of their cohesive nature, some clay soils are at best difficult to hydrate to the required moisture content necessary for compaction. Therefore, prior to adding water, clod size reduction should be completed through disking, pulverizing, possibly screening, etc. (It is recommended that a minimum of five passes of a disk or three passes of a pulverizer be made at alternating right angles where space permits for soil processing. Additional passes should be performed if necessary to thoroughly break up and blend the liner soil prior to compacting.) Water is added, then the soil is thoroughly mixed and stockpiled if necessary to allow adequate time (usually overnight or longer) to hydrate. The higher the plasticity of the soil, the longer this mixing and hydration process will take. Water used in hydrating liner soils must be clean and shall not have come into contact with waste or any objectionable material.

2.3.2.3 Clod and Rock Size

The maximum clod size of the compacted liner soils shall be approximately one inch in diameter but in all cases soil clods shall be reduced to the smallest size necessary to achieve the coefficient of permeability reported by the testing laboratory and to destroy any macrostructure evidence after the compaction of the clods under density-controlled conditions. (§330.205(g))

The liner soil material shall contain no rocks or stones larger than one inch in diameter or that total more than 10% by weight (§330.205(h)). One-hundred percent of the material used in the soil liner must pass the 1-inch screen. The final lift for composite liners shall not contain any rocks or any other materials that can cause damage to the geomembrane.

2.3.2.4 Compactive Effort (Soils Compaction)

All constructed soil liners must be compacted with a pad/tamping-foot (preferable) or prong-foot roller (§330.205(g)). No other type of equipment is suitable for the compaction of constructed soil liners. The lift thickness shall be controlled so that there is total penetration through the loose lift under compaction into the top of the previously compacted lift; therefore, the compacted lift thickness must not be greater than the

pad or prong length. This is necessary to achieve adequate bonding between lifts and reduce seepage pathways. Adequate cleaning devices must be in place and maintained on the compaction roller so that the prongs or pad feet do not become clogged with clay soils to the point that they cannot achieve full penetration during initial compaction. The footed roller is necessary to achieve bonding and to reduce the individual clods and achieve a blending of the soil matrix through its kneading action. In addition to the kneading action, weight of the compaction equipment is important. When using ASTM Test Method D 698 (Standard Proctor) density, the minimum weight of the compactor should be 1500 pounds per linear foot of drum length, and a minimum of eight passes is recommended for the compaction process. Compaction equipment that develops a compactive effort equal to ASTM D 1557 (Modified Proctor) will result in greater compaction, lower coefficient of permeability due to decreased void space, and a lower optimum moisture content necessary to achieve the maximum dry density. This lower optimum moisture content may help in controlling the desiccation cracking of highly plastic clays frequently used for liner soil.

2.3.2.5 Soil Plasticity

Quality control of the soil plasticity shall be closely adhered to and maintained during material selection for liner construction. Testing of the Atterberg limits and gradation should be continually checked so that any changes in either physical property can be detected and additional appropriate laboratory testing performed. Any time the LL or PI changes by more than 10 points, a new compaction series should be run in the laboratory to determine the maximum dry density, optimum moisture, and the laboratory coefficient of permeability. To adequately determine the variability of the soil used for liner construction, it is strongly recommended that all liner soil borrow sources be thoroughly tested prior to use to establish their Atterberg limits and compaction parameters. This may require drilling auger holes at the borrow source to retrieve adequate samples to determine these factors.

Due to the high shrink/swell and desiccation cracking characteristic of highly-plastic clays it is suggested that, where possible, the PI of clay liner soils be limited to between 15 - 30.

2.3.2.6 Liner Protection

Constructed and tested liners on which a SLER has been submitted shall have sufficient surface-drainage controls to prevent the accumulation of both contaminated and non-contaminated water. Any ponded water that accumulates on newly constructed liner surfaces shall be promptly and appropriately removed. The surface of the completed soil liner must be kept moist prior to placement of geomembrane or other overlying

materials to reduce shrinkage cracking, but saturation of these soils by ponding water is not an acceptable practice. Complete saturation of any portion of the liner and its protective cover compromises their structural integrity and accelerates and increases the degree of shrinkage cracking in the event of drying.

2.3.2.7 Protective Cover

Protective cover overlying a leachate collection and removal system in general must have permeabilities equal to or exceeding 10^{-4} centimeters per second, or be provided with appropriate passageways for moisture, such as chimneys, in order to allow leachate to readily drain to the LCRS. The minimum protective cover thickness is as follows:

- There must be at a minimum 24 inches of cover material between a geomembrane and waste. Part of this separation can be provided by a suitably designed leachate collection and removal system.
- There must be at a minimum 12 inches of cover between leachate collection pipes and waste.
- There must be at a minimum 12 inches of cover between clay liners and waste.

2.4 Quality Assurance and Testing Frequency for Soil Liners

Each constructed liner sidewall and floor area developed as a separate segment (non-monolithically) must be considered as separately evaluated areas independent of each other for the purpose of calculating dimensions to determine the required number of samples. Those sidewall and floor areas constructed or excavated as a bowl (monolithically) may be added together for the determination of their testing frequency and locations.

All holes dug or created during any sampling and/or testing shall be backfilled with a mixture of at least 20% bentonite-enriched liner soil and compacted by hand tamping or filled with an appropriate bentonite grout.

2.4.1 Constructed Soil Liners

The quality assurance testing and frequency of testing of constructed soil liners is discussed below. Table I provides an easy reference for the types of testing, standard test methods and frequency of testing.

Sidewall liner evaluations for lifts constructed parallel to the surface of the excavation will be evaluated by using the same criteria and rate of testing as for the bottom.

Sidewall liner evaluations for lifts constructed horizontally may be evaluated at a frequency not to exceed 12 inches in thickness (i.e., 2 lifts). Sample locations for field density testing should not exceed 100 linear feet and should be located within the 4 feet closest to the protected wall.

The usual sampling practice for quality assurance laboratory testing of the constructed liner is to retrieve representative samples from the same sampling tube and/or conduct field permeability tests. The location of the sampling/testing is adjacent to a field density/moisture test for comparing field and laboratory results.

2.4.1.1 Field Densities and Moisture Content

All field densities and moisture contents must compare with the limits specified below and to the proper ASTM D 698 or ASTM D 1557 moisture/density curve for the corresponding soil borrow source in order to be considered passing. Passing field specifications for the ASTM D 698 moisture/density compaction relationship are at least 95% of maximum dry density and at or above the optimum moisture content. Passing specifications for the ASTM D 1557 moisture/density compaction relationship are at least 90% of maximum dry density and at or above a moisture content 1% drier than optimum. For both ASTM D 698 and D 1557, the moisture content should not exceed a maximum value which is governed by shear strength requirements and the need to minimize the possibility of rutting under construction equipment or desiccation upon drying.

As an alternative to the above as the acceptance criteria, the "line of optimums" (described by Benson et al [1999]) may be used as the basis in field control. Under this alternate procedure, 80% of the field densities must lie on or above the line of optimums. The line of optimums as described by Benson et al is essentially a line drawn through the points corresponding to the optimum moisture content/maximum dry density on the moisture/density relationship curves for the modified proctor test, the standard proctor test, and a third compaction test using a reduced energy from the standard proctor test. (It has been shown by Benson et al that compacted soil liners that have approximately 80% or more of the field density data points above, or wet, of the line of optimums have a significantly higher probability of achieving the 1×10^{-7} cm/sec permeability standard than liners constructed using the conventional percent compaction basis). If this procedure is used, those field density points that do not lie above the line of optimums must not be concentrated in any specific lift or section of lift.

Sections of compacted soils liner which do not pass both the density and moisture requirements must be reworked and retested until the section in question does pass. All field density test results must be reported in the SLER, whether they indicate passing or failing values. The frequencies of testing differ for the two lift placement methods below:

- Parallel Lifts--one test for each 8,000 square feet of surface area per lift (but no less than 3 density tests per 6 inch lift).
- Horizontal Lifts--one for each 100 linear feet for each 12 inches of thickness.

2.4.1.2 Sieve Analysis

A minimum of one test sample within each 100,000 square feet of surface area per lift, or major fraction thereof, but no less than one per 6-inch lift of parallel liner or one test per 2,000 linear feet per 12 inches of horizontal liner thickness.

2.4.1.3 Atterberg Limits

Use the same frequency of testing as for sieve analysis.

If either the LL or the PI varies by 10 or more points when compared against the appropriate moisture/density curve used for that soil borrow source, the soil is considered as a separate soil borrow source and a new test series including moisture/density, compaction relationship, sieve analysis and coefficient of permeability should be determined and these results used for field construction control.

2.4.1.4 Coefficient of Permeability

Use the same frequency of testing as for sieve analysis for either field or laboratory permeability tests.

2.4.2 Thickness Verification

Thickness of constructed soil liners will be determined by instrument survey methods only. There should be a minimum of one verification point per 5,000 square feet of surface area. If the area under evaluation is less than 5,000 square feet, a minimum of two reference points are required for verification. Reference locations will be noted on a drawing of the area evaluated. All elevation calculations necessary for thickness

determination will be attached as part of the supporting documentation to the SLER including any necessary corrections for true thicknesses measured perpendicularly to sidewalls. Cross-sections at approximately 100 foot spacing showing true liner thickness for sidewall liners that are constructed in horizontal lifts should be provided if appropriate.

2.5 Test Pads

The use of test pads may be considered as an alternative method of construction quality-control testing. It is a method of pre-qualifying the liner construction methods and the resultant coefficient of permeability.

2.5.1 Initial Testing

Initially, the liner source material must be tested in the laboratory for gradation (sieve analysis), Atterberg limits, its moisture/density relationship, and coefficient of permeability to verify its acceptability as a liner source. Upon satisfying all the liner test requirements, a test pad is constructed on site with these soils. A field-moisture/density versus field permeability relationship is established using the same type of compaction equipment and soil that are to be used during liner construction. The compaction equipment weight must be considered when performing the initial laboratory compaction testing so that the lab data reflect construction equipment capability. If the Atterberg limit values vary by 10 or more points from those earlier determined for the source materials, the constructed liner will be subject to all quality control and quality assurance testing in Table I at the specified frequencies in the table.

2.5.2 Field Testing

Select and prepare enough liner soil to cover a test section at least 50 feet long, three compaction equipment widths wide, and 24 inches deep, or deeper as needed depending on the selected field permeability test procedure. For example, the Boutwell Permeameter method requires 36 inches of liner depth to perform the test. Air-entry permeameter tests are performed on each lift. Individual lifts should not exceed approximately 6 inches in depth. Therefore, a minimum of two lifts are required for each one foot of liner construction.

After these compaction parameters have been verified through field-moisture/density testing, a field permeability test is performed by either Sealed Double Ring Infiltrometer (ASTM D 5093), Boutwell Permeameter, or air-entry permeameter.

Once field permeability testing is complete, a full cross-section cut of the test pad should be made to allow inspection to determine if there is complete clod "blending" and intra-lift bonding through the compaction processing of the soils.

After the field permeability, density and moisture content have been determined, the TNRCC may waive additional laboratory or field permeability testing of the constructed liner as long as the Atterberg limits are within 10 points of the test pad soil and all field density and moisture content determinations are within the design parameters.

2.5.3 Construction Requirements

The construction and testing method(s) utilized in the test pad must also be used when constructing the soil liner. Sections 2.3.1, 2.3.2, and 2.4.1 for constructed liners and quality assurance testing must also be followed.

The amount of compaction must be recorded by noting the type and weight of the compactor and the number of total passes completed on the test pad. Once sufficient compaction of the lift is suspected, a field-moisture/density test is performed to determine if the optimum moisture/maximum dry density have been achieved. (This is best undertaken with a nuclear density meter due to the speed with which it can determine these values but the accuracy of these test values should be checked against the test results of either sand cone (ASTM D 1556-90) or water balloon (ASTM D 2167-94) methods of density determination.)

After the test pad is compacted and fully tested, it should be considered as the standard example for the remaining liner construction. As long as the Atterberg limit values indicate that the soil material remains fairly uniform (within 10 points), the soil should achieve the same permeability if compacted in the same manner as the test pad. This relationship is valid only if the soils remain the same, the lift thickness is no thicker than that of the test section, and the same type of equipment is used during liner construction as was used for test-pad construction and with the same number of equipment passes.

2.6 Hydrostatic Considerations - Ballasting

Placement of soil liners below the seasonal high ground-water table or in areas subject to excess hydrostatic head levels shall be in accordance with the criteria given in Section 6.0.

3.0 GEOMEMBRANE LINERS

3.1 General

Geomembrane is used in a standard composite liner under Subtitle D. Geomembrane material may include HDPE (high-density polyethylene) or other materials approved by TNRCC. The City of Brownsville Landfill geomembrane will consist of HDPE. Materials, construction, and QA/QC standards for these geomembrane materials shall follow minimum industry standards and the manufacturer's guidelines.

As indicated in the MSW rules, the geomembrane shall have a minimum thickness of 60 mils for HDPE. The acceptable geomembrane material shall overlie and be in direct contact with an approved subgrade soil or geosynthetic liner material.

3.2 Manufacturing

Geomembrane material must be produced from virgin raw materials. Reground, reworked, or trim materials from the same lot may be acceptable but recycled or reclaimed materials must not be used in the manufacturing process. HDPE material and required welding rods shall contain between 2% and 3% carbon black and may contain no more than 1% other additives.

Geomembrane sheets must be free from pinholes, surface blemishes, scratches, or other defects (e.g., non-uniform color, streaking, roughness, agglomerates of carbon black or other additives or fillers, visibly discernible regrind or rework, etc.).

3.3 Shipping

All HDPE liner material shall be shipped in rolls. Folded or creased sections of panels are not acceptable and shall not be used unless they are a normal part of the manufacturing process.

3.4 Delivery

The GP or his qualified representative should inspect the delivered materials for damage and defects. Pushing, sliding or dragging of rolls or pallets can cause damage and should be avoided.

3.5 Storage

Geomembrane material must be protected from soft or wet ground and rocky or rough ground. HDPE geomembrane must not be stacked more than 5 rolls high (or as recommended by the manufacturer) to avoid crushing the cores of the rolls. A sacrificial cover must be used to protect the geomembrane if stored on site more than 6 months. The rolls shall be stored in such a manner as to avoid shifting, abrasion, or other adverse movements that can damage the geomembrane.

3.6 Installation

Geomembrane installations should follow all of the manufacturer's recommendations. All geomembrane material must overlie and have intimate contact with the constructed subgrade soil or geosynthetic material.

3.6.1 Subgrade Preparation

The surface of the subgrade soil must be free of sharp stones, stones larger than 3/8-inch in size, sticks, or other debris in order to minimize potential damage to the overlying geomembrane. The surface of soil subgrade must be finished by rolling with a flat wheel roller until a smooth uniform surface is achieved.

The soil subgrade must be protected from desiccation and cracking, rutting, erosion, and ponding prior to and during placement of the geomembrane. The condition of the subgrade must be preserved by regular watering and proof rolling or by placing a minimum of 12 inches (30.5 cm) of temporary soil cover which must be removed prior to geomembrane placement and the soil subgrade surface resurveyed.

3.6.2 Geomembrane Deployment

The deployment (including equipment used in the handling of the geomembrane) must not damage the subgrade. In cases where geomembrane material is placed over geosynthetics, construction equipment (other than ATV type vehicles) must not ride directly on the lower geosynthetic material.

3.6.3 Weather

The geomembrane should not be placed during inclement weather such as rain, high winds or freezing temperatures.

3.6.4 Equipment on Geomembrane

No vehicular traffic shall be allowed on the geomembrane prior to the placement of the leachate collection or protective cover layers. Only low-ground-pressure supporting equipment (e.g. golf carts, ATVs or other small rubber tired equipment with a ground pressure less than 5 psi and a total weight less than 750 pounds) may be allowed to traverse the geomembrane. If such supporting equipment is operating on the geomembrane it must be placed on a sacrificial surface or rub sheet in order to help protect the geomembrane. Personnel working on the geomembrane shall not smoke, wear damaging shoes, or engage in any other activity likely to damage the geomembrane.

3.7 Seaming

Field seaming (and repairs) shall be performed in strict accordance with methods approved by the manufacturer. This is usually by fusion welding or extrusion welding when placing HDPE. Strict attention to the details of seam preparation procedures recommended by the manufacturer is crucial in order to produce consistent seams that will not allow fluid leakage and will pass the QA testing.

3.7.1 Placement

Only those geomembrane sheets that are to be placed and seamed in 1 day should be unrolled. Sheets should be positioned with the overlap recommended by the manufacturer, but not less than 3 inches (7.6 cm) for HDPE. The GP or his representative shall visually inspect the placement and overlap of the geomembrane to verify that the material is placed with sufficient overlap.

3.7.2 Wrinkles

Wrinkles shall be walked-out or removed as much as possible prior to field seaming.

3.7.3 Foreign Material

All foreign matter (dirt, water, oil, etc.) shall be removed from the area to be bonded.

3.7.4 Tack Welds

Tack welds (if used) with HDPE geomembrane shall use heat only. No double-sided tape, glue, or other method will be permitted when extrusion or fusion welding is used for bonding.

3.7.5 Seam Joints

Seams on sideslopes (such as slopes steeper than 6H:1V) must be oriented parallel to the sideslope direction. Seams that join the sideslopes and bottom sections should be located at least 5 feet (1.52 meters) from the sideslope and along the floor. In corners and odd-shaped geometric locations, the number of field seams should be minimized.

3.7.6 Temperature

No seaming should be attempted above 104°F (40°C) or below 32°F (0°C) ambient air temperature unless it is demonstrated that the seams will meet the specifications outside this range. Below 32°F (0°C) ambient air temperature, special procedures such as preheating of the geomembrane material should be required.

3.7.7 Folds, Large Wrinkles, Fish Mouths

No folds, large wrinkles, or fish mouths (see Appendix A Glossary) shall be allowed in the seam. Only normal factory-induced creasing from the blown film process may be acceptable. Where wrinkles or folds occur, the material shall be cut, overlapped, and welded. This process should be accomplished in such a manner that constructed seams are not required to carry significant tensile loads. During wrinkle or fold repairs, adjacent geomembrane may not necessarily be required to meet the 3-inch (7.6 cm) minimum overlap if approved by the GP or his representative. All completed seams shall be tightly bonded and sealed.

3.7.8 End Of Each Work Day

At the end of each day or installation segment, all unseamed edges should be anchored by sand bags or other approved device. Staples, U-shaped rods, or other penetrating anchors shall not be used to secure the geomembrane.

3.8 Testing

The testing of raw materials, manufactured materials, and the installation of these materials is essential and required in order to determine their quality and suitability for geomembrane use. All geomembrane material properties must meet the manufacturer's standards and (for HDPE) the minimum values set forth in the Geosynthetic Research Institute (GRI) Standard GM13. Table II titled "Standard Tests on HDPE Geomembrane Material" addresses the applicable test methods and the frequency of testing for these geomembranes. For other types of geomembranes, manufacturer's recommendations and accepted industry practice should be followed.

3.8.1 Manufacturing Quality Control (MQC)

All materials related to the manufacturing of geomembranes must be tested by the geomembrane manufacturer to determine their quality and suitability for use. The tests, methods, and frequency of testing are found in Table II.

3.8.1.1 Resin Feed Stocks

Resin feed stock used in the manufacturing of the geomembranes is purchased by the geomembrane manufacturer. HDPE geomembranes must be tested by the geomembrane manufacturer for density and melt index. The test methods and frequency of testing for these tests are found in Table II.

3.8.1.2 Geomembrane Manufacturer Testing

The geomembrane manufacturer conducts many tests throughout the manufacturing process and after the geomembrane is produced. For HDPE geomembrane the manufacturer's tests may include thickness, density, carbon black content, carbon black dispersion, tensile properties, tear resistance, puncture resistance, oxidation induction time, oven aging, stress crack resistance, and (for textured HDPE) asperity height. The types and frequencies of testing are found in Table II.

3.8.2 Conformance

Prior to acceptance of the geomembrane from the manufacturer, the GP should verify that it meets the required specifications. For HDPE geomembrane the third-party independent laboratory must test thickness,

density, carbon black content, carbon black dispersion, and tensile properties. The test methods and frequencies of testing for HDPE are found in Table II.

3.8.3 Seams

The GP or his representative should observe all test seam procedures and all seam testing. All seam testing of the geomembrane should follow all of the manufacturer's recommended testing procedures.

3.8.3.1 Trial Seam Testing

Each day, prior to commencing field seaming, test seams shall be made on fragment pieces of geomembrane to verify that seaming conditions are adequate.

3.8.3.1.1 Trial Test Seam Criteria

Each trial test seam shall be at least 3 feet (0.91 meter) long by 1 foot (0.30 meter) wide. Four (6 when possible if using dual track fusion welding) adjoining 1-inch wide specimens will be die-cut from the test seam sample. Two specimens will be tested in the field for shear and 2 for peel (4 when possible if testing both inner and outer welds for dual track fusion welding). The extentiometer testing apparatus used for peel and shear tests must have an updated calibration certificate traceable to National Bureau of Standards (NBS).

The failure criteria is the same as that for destructive seam testing described below. If one test seam fails, the trial seam will be repeated. If this trial seam also fails, then two more trial seams must be constructed and tested. This process should continue and no welding can begin for the machine or welder (if applicable) until all test seams are passing.

3.8.3.1.2 Additional Trial Test Seam Criteria

Additional trial seams shall be made for all of the following:

- at the beginning of each seaming period for each seaming apparatus used that day (the beginning of each seaming period is considered to be the morning, and immediately after a break);
- each occurrence of significantly different environmental conditions (such as temperature,

humidity, dust, etc.);

- any time the machine is turned off for more than 30 minutes; and
- when seaming different geomembranes (e.g. tie-ins and smooth to textured).

Both the welder and the machine must be tested for each new trial seam when extrusion welding. Only the machine needs to be tested for each new trial seam when fusion welding since the machine is not as operator dependent. Each individual seamer shall make at least one test seam each day he/she actually performs seaming.

3.8.3.2 Non-Destructive Testing

Continuous, non-destructive testing shall be performed on all seams by the installer. Air-pressure testing on dual-track fusion welds and vacuum-box testing for extrusion welds are the only acceptable methods for HDPE geomembrane seams. All factory seams in addition to field seams should be non-destructively tested. All indicated leaks must be isolated and should be repaired by following the procedures described in Section 3.9 of this handbook.

3.8.3.2.1 Air-Pressure Testing

The ends of the air channel of the dual-track fusion weld must be sealed and pressured to approximately 30 psi for HDPE. The air pump must then be shut off and the air pressure observed after 5 minutes. A loss of less than 4 psi is acceptable if it is determined that the air channel is not blocked between the sealed ends. A loss equal to or greater than 4 psi indicates the presence of a seam leak which must then be isolated and repaired by following the procedures described under Section 3.9. The GP or his representative should observe and record all pressure gauge readings.

3.8.3.2.2 Vacuum-Box Testing

A suction value of approximately 3 to 5 inches (7.62 to 12.7 cm) of gauge vacuum must be applied to all extrusion welded seams that can be tested in this manner. Examples of extrusion welded seams that do not easily lend themselves to vacuum testing would be around boots, appurtenances, etc. The seam must be observed for leaks for at least 10 seconds while subjected to this vacuum. The GP or his representative should observe 100% of this testing.

3.8.3.2.3 Other Testing

Other non-destructive testing must have prior written approval from the TNRCC.

3.8.3.3 Destructive Testing

Destructive test samples shall be taken at a minimum of one stratified location for every 500 linear feet (152.4 meters) of field seam or major fraction thereof. The total footage of individual repairs of leaks of more than 10 feet (3.05 meters) and individual repairs of more than 10 feet (3.05 meters) for failed seams must also be counted and destructively tested using the same frequency of testing described above. At a minimum, a destructive test must be done for each welding machine used for seaming or repairs. A sufficient amount of the seam must be removed in order to conduct field testing, independent laboratory testing, and archiving of enough material in order to retest the seam when necessary. Field testing shall include at least 2 peel test specimens (4 when possible for testing both tracks on dual-track fusion welded seams) and 2 shear test specimens. Independent laboratory testing shall consist of 5 shear test specimens and 5 peel test specimens (10 when possible for both tracks of dual-track fusion welded seams). Destructive seam-testing locations shall be cap-stripped and the cap completely seamed by extrusion welding to the parent geomembrane. Capped sections shall be non-destructively tested. Additional destructive test samples may be taken if deemed necessary by the GP or his representative.

If a destructive test does not pass the criteria given below, additional destructive tests must be conducted at least 10 feet on both sides of the failed destructive test. If either of these destructive tests fail, the sampling and testing process must be repeated until the failed seam is bracketed by passing destructive tests. The failed seam must then be capped between the passing tests. Alternatively, all seams done by the welder/machine within the time period (between passing destructive tests or trial welds) represented by the failed destructive test may be capped.

3.8.3.3.1 Passing Criteria

All field-tested specimens from a destructive-test location must be passing in both shear and peel for the seam to be considered as passing. Field-tested specimens are determined as passing if the specimen tested in peel fails in film tear bond (FTB) and all test specimens meet the criteria listed in this subsection. Independent laboratory testing must confirm these field results.

The minimum passing criteria for independent laboratory testing are all 3 of the following:

- At least 4 of 5 specimens tested in the peel mode must fail in FTB.
- At least 4 of 5 specimens from each peel and shear determination must meet the minimum specified values given in Sections 3.8.3.3.1.1 and 3.8.3.3.1.2 below.
- The average value from all 5 specimens from each peel and shear determination must meet the minimum specified value.

The above criteria must be met by both tracks from each dual-track fusion welded seam before it is considered as passing.

The test methods for geomembrane are found in Table II. It should be noted that geomembrane manufacturers may have differing strength values for their geomembrane sheets and, therefore, the required specific shear and peel values are given in this SLQCP only as percentages. Consequently, the manufacturer's sheet-strength values must be provided in order to determine if the test results are passing.

3.8.3.3.1.1 Shear

The shear strength minimum requirement for HDPE is 95% of manufacturer's parent sheet strength but not less than 120 pounds per inch (ppi).

3.8.3.3.1.2 Peel

The peel strength minimum requirement for HDPE is 62% of manufacturer's parent sheet strength but not less than 78 ppi and exhibit FTB.

3.8.3.3.2 Failure Criteria

If less than 4 of the 5 specimens from each destructive test location pass, or if the average calculated from all 5 specimens is less than that listed above, or if more than one specimen from the group of 5 specimens exhibits a non-FTB failure, the seam has failed.

3.9 Repairs and Retesting

All seam leaks and destructive test locations shall be repaired for a distance of at least 6 inches (15.2 cm) on each side of the faulty spot or area detected. At a minimum, these repairs shall be non-destructively retested and possibly destructively tested (refer to destructive testing criteria for repaired seams as described in Section 3.8.3.3.)

3.10 Anchor Trench and Backfilling

The anchor trench should be completed around all portions of the geomembrane where the leading edge(s) of the geomembrane will not be needed for a tie-in for expansion into the next SLER/GLER area to be lined. The excavated anchor trench shall have rounded corners in order to help protect the geomembrane. No loose soil shall be allowed to underlie the geomembrane in the anchor trench. Excavation of the anchor trench shall not be done too far in advance of geomembrane deployment.

The anchor trench should be backfilled and compacted to at least 90 percent of the density as determined by the moisture/density compaction values detailed in the soils portion of this SLQCP. Care should be used when backfilling and compacting the trench to prevent damage to the geomembrane. The anchor trench shall be backfilled at the earliest practicable time following synthetics deployment. Results of the compaction testing need not be reported.

3.11 Protective Cover and Drainage Materials

3.11.1 Deployment

All soil materials placed over a geomembrane should be placed during the coolest part of the day and deployed in "fingers" along the surface so as to control the amount of slack and minimize wrinkles and folds in the geomembrane. These materials must be deployed only up-slope on sideslopes so that stress imparted to the geomembrane is minimized. Material placed as protective cover must be placed with light equipment (such as dozers with less than 5 psi contact pressure) while maintaining at least 12 inches (30.5 cm) of material between the dozer and the geomembrane. Full-time observation by the GP or his representative is required during deployment of these materials in direct contact with the geosynthetic materials.

3.11.2 Thickness and Material

At least 24 inches (61.0 cm) of protective cover (which may include a granular leachate collection layer) must be placed over the completed geomembrane to prevent damage during operation.

Protective cover placed over the surface of constructed HDPE geomembrane should contain no rock greater than 3/8 inch (.952 cm), vegetation, or other material that may damage the geomembrane. If the protective cover contains material greater than 3/8 inch in size, a layer of protective geotextile must be placed over the HDPE geomembrane's surface.

Protective cover overlying a leachate collection and removal system in general must have permeabilities greater than or equal to 1×10^{-4} cm/sec, or chimney drains or other appropriate passageways must be constructed to allow leachate to drain to the leachate collection and removal system.

4.0 GEOSYNTHETIC CLAY LINERS

4.1 General

The geosynthetic products described in this chapter for the potential use as alternate liner are generally designated as geosynthetic clay liners (GCLs). When hydrated, GCLs typically have very low permeabilities and are very useful in the construction of a liner if a clay source is unavailable on site or the haul distance from a borrow source is so great as to be impractical. The City of Brownsville Municipal Landfill will utilize a GCL as a compacted clay liner alternate. A demonstration has been made that shows a GCL material can be utilized as an equivalent substitute for compacted clay and meet all regulatory requirements of a liner as required in §330.200(a)(1).

4.2 Manufacturing

GCL refers to a factory-manufactured hydraulic barrier consisting of a bentonite layer supported by geotextiles or geomembrane. Depending on the GCL type and the manufacturer, the bentonite may be bonded to geomembrane or between layers of geotextile with chemical adhesives, held between layers of geotextile which are needle punched or stitch bonded together. The layers of geotextile shall include a woven geotextile on one side and a non-woven geotextile on the other side.

The bentonite used in the GCL must be of the sodium montmorillonite variety with a free swell (ASTM D 5890) of at least 24 ml and a fluid loss (ASTM D 5891) no greater than 18 ml. The finished GCL must contain a minimum of 0.8 lbs/ft^2 dry bentonite (oven dried basis) and have a permeability no greater than $1x10^{-9}$ cm/sec. The GCL and its component materials (bentonite, geotextile, geomembrane) must be tested as described in Section 4.5.

GCLs which include needle-punched nonwoven geotextiles must be verified to have been continuously inspected for the presence of broken needles using metal detectors and found to be needle-free. Magnets or other methods must be used during the manufacturing process for removal of broken needles for GCLs in contact with geomembranes.

It is recommended that overlap alignment lines be marked on the top side of the GCL as an installation aid.

GCLs which are to be used on slopes of steeper than 7H:1V should be reinforced (e.g. lock stitched or needle punched) to provide adequate internal shear resistance. Regardless of the type of GCL used, analyses must be conducted (as part of either the SDP, SLQCP, or liner evaluation reports) to verify the stability of the GCL and adjacent slope components on slopes steeper than 7H:1V under hydrated conditions. There should be NO HORIZONTAL SEAMS ON SIDESLOPES.

GCL rolls must be wrapped around cores which are structurally sound such that excessive bending or buckling during handling does not occur. Finished rolls must be covered with a water-proof, tightly fitting, weatherproof wrapping in preparation for shipment. GCL rolls must be stored indoors prior to shipment to the site.

GCL rolls must be labeled with the manufacturer's name, product identification, roll and lot number, roll dimensions, roll weight, and any other information which is necessary to trace the quality assurance documentation.

4.3 Shipping, Delivery and Storage

Throughout the entire process, from manufacture to storage, shipment, unloading and on-site storage, it should be remembered that the integrity of the weatherproof wrapping is the only means of keeping the GCL materials from taking on moisture and partially hydrating. Therefore, if at any time the roll covering is damaged and the outer portions of the GCL becomes wet or partially hydrated, that portion damaged should

be removed and the remainder of the roll once again tightly covered.

Off-loading and on-site delivery, as with geomembrane, may be undertaken by use of a crane or front-end loader fitted with a sling and center rod which is pushed through the core around which the GCL is rolled, with a fork lift with a "stinger", or other equipment which does not damage the GCL rolls. Each roll must be stored on a platform or otherwise elevated off the ground and covered with a tarpaulin in such a fashion to preclude moisture intrusion while awaiting deployment. It is recommended that this storage be in an enclosed building or closed shipping trailer if possible. The rolls must not be stacked higher than recommended by the manufacturer to preclude thinning of the bentonite at contact points.

4.4 Installation

4.4.1 Surface Preparation

GCL must not be placed directly over rough or uneven surfaces, surfaces with protrusions or ruts, or soil with particle sizes greater than 3/4-inch (or as recommended by the manufacturer if less than 3/4-inch). The soil surface on which the GCL is to be placed must be rolled with a flat wheel roller and maintained in a smooth, uniform, and compacted condition prior to GCL placement. Adequate drainage of the soil surface must be maintained until GCL installation is complete.

4.4.2 Placement of Panels

GCL panels must be installed with the woven side down and non-woven side up. Equipment used to deploy GCL over soil must not cause rutting of the subgrade. GCL placed over other geosynthetics must be placed by hand or using light equipment with low contact pressure rubber tires (e.g. smooth-tired ATVs or golf carts). Dragging of the geotextile or bentonite facing of the GCL on the subgrade should be avoided. Deployed GCL panels should contain no folds or excessive slack.

Each panel should be overlapped to the match lines on both edges of the GCL (at least 6 to 12 inches (15.24 to 30.48 cm), depending on the manufacturer). There is no required physical bonding such as sewing or gluing of the panel edges during placement. The needle punch manufactured GCLs, however, do normally require dry granular bentonite placed in the lap-joints between the panel edges to achieve adequate bonding upon exposure to a moisture source. Where bentonite enrichment in the lap-joints is required, the minimum amount must be 1/4-lb.(0.1 kg) dry bentonite per linear foot of lap joint or as recommended by the

manufacturer to produce a joint essentially as impermeable as the GCL itself. Bentonite placed in the lap-joints must be the same type used in the manufacture of the GCL. Other lapping materials should be only used with the prior approval of TNRCC.

Vehicle traffic other than low contact pressure vehicles such as smooth-tired ATVs or golf carts must not be allowed on the deployed GCL. Generators, gasoline or solvent cans, tools, or supplies must not be stored directly on GCL. Installation personnel must not smoke or wear damaging shoes when working on GCL. Deployed GCL must not be used as a work area unless a protective tarpaulin, rub sheet, or sacrificial sheet is placed over the GCL.

Care must be taken during installation to avoid entrapment of stones, trash, or other debris beneath or within the GCL which may cause damage to the GCL or overlying geomembrane, if applicable.

GCL on sideslopes must be unrolled in the direction of the slope. GCLs should be anchored at the top of the slope and then unrolled working down so as to keep the material free of wrinkles and folds. There should be NO HORIZONTAL SEAMS ON SIDESLOPES.

The installed GCL surface must be inspected to ensure that no stones, cutting blades, tools, or other objects which may damage the GCL are present prior to covering.

4.4.3 Weather Considerations

Weather conditions during GCL placement and before completion of the placement of the protective cover should be closely monitored. GCL should not be placed in the rain or at times of impending rain. If the GCL is subjected to high humidity or rainfall such that the bentonite material becomes partially hydrated prior to being covered, it must be removed and replaced with new GCL material. A partially hydrated GCL may lose its bearing capacity to such a degree that any subsequent weight placed on its surface will squeeze the partially hydrated bentonite paste from between the two confining layers resulting in a greatly diminished protective layer of bentonite in the area affected. In this manner, the GCL's ability to impede any fluid flow into or out of the waste is either reduced or completely destroyed.

Deployed GCL should be anchored by sandbags or other appropriate devices to prevent uplift by wind prior to covering. GCL (in particular non-woven GCL which requires that dry bentonite be added in the overlaps) should not be placed during excessive winds.

Deployed GCLs should be covered by geomembrane or other liner system components as required by the design on the same day as deployment to prevent hydration due to weather conditions.

4.4.4 Repairs

Torn or otherwise damaged geosynthetic facing (with no loss of bentonite from the GCL) must be patched with the same type of geosynthetic. The geosynthetic patch must extend at least 12 inches (30.5 cm) beyond the damaged area and must be adhesive or heat bonded to the main GCL to avoid shifting during backfilling. If the GCL damage includes loss of bentonite, the patch must consist of full GCL extending at least 12 inches (30.5 cm) beyond the damaged area. Lapping procedures must be the same as specified for original laps of GCL panels.

4.5 Testing

Quality control testing of GCL products are generally undertaken by the supplier of the various components (bentonite, geotextile, and geomembrane), the GCL manufacturer, and the third-party independent laboratory under the direction of the GP. The QC tests which should be conducted as a minimum are described below and are summarized in Table III. Also included in Table III are the test standards (ASTM or other) and the minimum testing frequencies for the various tests.

4.5.1 Raw Materials

The bentonite, geotextile, and geomembrane used in the manufacture of the GCL product must be tested by the supplier of the component or the GCL manufacturer prior to incorporation into the GCL product. The bentonite must be tested for the free swell and fluid loss criteria given in Section 4.2. Geomembranes must be tested for at least mass/unit area, thickness, and tensile properties. The measured properties of the geotextile and geomembrane must meet the manufacturer's criteria and the geotextile or geomembrane used must be certified as having been used successfully in similar applications in the past.

4.5.2 GCL Manufacturer

The finished GCL product must be tested by the manufacturer for at least clay mass per unit area, bentonite moisture content, grab tensile strength (non-geomembrane backed GCL), and permeability (non-geomembrane backed GCL). All test results must meet the GCL manufacturer's criteria and the values given in Section 4.2.

In addition to the above, the GCL manufacturer must be able to demonstrate by appropriate testing (using a flow box or other suitable device) that the overlap procedure produces a lap joint essentially as impermeable as the GCL itself. The lap joint permeability must be reverified through testing if any of the component materials change (it is recommended that the lap joint permeability be periodically retested to account for any small variations in GCL materials which may occur over time). Alternatively, if lap joint permeability testing on the material used has not been done or is not valid, the lap joint testing must be done as part of the conformance testing (Section 4.5.3).

4.5.3 Third-Party Conformance Testing

Conformance testing by the independent laboratory must include clay mass per unit area, permeability, direct shear (for GCL placed on slopes steeper than 7H:1V), and possibly lap joint permeability testing as determined by the GP or his representative. The measured clay mass per unit area and permeability must meet the criteria given in Section 4.2.

Direct shear testing must be conducted on hydrated GCL (for GCL which is not "sandwiched" between geomembranes) and must include internal shear as well as shear between GCL and underlying or overlying material (such as soil, geomembrane, synthetic drain, etc.). The minimum strength parameters obtained in the direct shear testing must be sufficient to demonstrate adequate stability of the GCL on the constructed slopes. The direct shear testing must be conducted with site-specific materials for the initial liner area and need not be repeated for subsequent areas unless any of the component materials (such as either GCL or adjacent soil or geosynthetic) change. If any of the component materials change, direct shear testing must be repeated with the new materials.

Direct shear testing must be performed by a laboratory experienced in the performance and interpretation of this test, using equipment meeting all requirements of ASTM D 6243. The direct shear test plan should consider all possible sources of instability and it should be specifically tailored to the design under review.

4.6 Cover

Protective cover must be placed as soon as possible after installation of the GCL and any overlying geosynthetic. Protective cover material over the GCL shall consist of the leachate collection layer plus any additional thickness required for minimum protection of the GCL to loads introduced by traffic on its surface. The thickness of the protective cover must not be less than 24 inches (61.0 cm).

Soil cover material placed directly over GCL should be non-calcareous and should contain no rocks greater than 3/4-inch in size (or as recommended by manufacturer) or other material which may damage the GCL or cause subsequent localized thinning of the bentonite component. The cover must be placed with low-ground-pressure dozers or other light equipment in such a way that the GCL is not damaged. Filling must be in the direction of downgradient shingling of the GCL overlaps. Placement on sideslopes must be from the bottom of the slope upward.

5.0 LEACHATE COLLECTION LAYER

5.1 Materials

Soil materials used to construct leachate collection layers should consist of clean granular soil. Unless specified otherwise in the SDP, granular soils in leachate collection layers should have permeabilities no less than approximately 1.7×10^{-3} cm/sec. Material placed in contact with geomembrane or GCL material should have a maximum particle size as indicated in Sections 3.11.2 and 4.6, respectively. Granular materials placed around collection pipes must have grain size compatible with the size of the holes in the collection pipes. Geosynthetic materials (i.e. geocomposite, geonet, and geotextiles) used in leachate collection layers must have the transmissivity and other properties as specified in the SDP.

5.2 Construction

Granular materials should be placed and spread using equipment and methods which minimize generation of fine material. Material placed over geomembrane or GCL (or other geosynthetics) should be placed as described in Sections 3.11.1 and 4.6, respectively. Granular materials should not receive any compaction other than that which is incidental to the placement and spreading process.

5.3 Quality Assurance Testing

Quality assurance testing on granular soils by the independent laboratory should consist of grain size (ASTM D 422) and permeability (ASTM D 2434) analyses conducted at a frequency of 1 per 3,000 yd^3 of material placed. Permeability testing requirements can be waived if it can be shown through correlation with the grain size analyses that the material easily meets the permeability criteria. All tests should be conducted on material after it has been placed to allow for any grain size reduction which may have occurred during the placement process. It is also recommended that the granular material be tested at its source for grain size (and permeability, if necessary) to pre-qualify the material prior to its use.

Granular material used in leachate collection layers must be tested for calcium carbonate content (using J&L Test Method S-105-89 or other appropriate method) by either the supplier or independent laboratory. The measured calcium carbonate content must not exceed 15%.

If chimney drains are not provided through the protective cover to the leachate collection system, permeability tests must also be conducted on the protective cover to verify a permeability no less than 1 x 10^{-4} cm/sec.

The manufacturer's test results for geosynthetic materials should be checked and verified by the GP to meet the minimum requirements for these materials established in the SDP.

The thickness of granular leachate collection and protective cover layers should be verified at a frequency of one verification point per 5,000 ft^2.

6.0 LINERS CONSTRUCTED BELOW THE SEASONAL HIGH WATER TABLE

6.1 General

Excavations below the seasonal high water table may experience bottom or slope instability or excessive groundwater influx which may preclude liner construction. Short-term control of groundwater can be accomplished by temporarily lowering the groundwater level with mechanical dewatering systems or drains, taking advantage of favorable geology, physically cutting off the groundwater seepage, or a combination of these methods. After the liner is placed, it may experience an upward force, or uplift, due to the hydrostatic pressure of the groundwater acting on the bottom of the liner. Long-term resistance to uplift of any

component of the liner system can be achieved by the weight of any overlying portions of the liner system and, if needed, by adding weight to the top of the liner system.

6.2 Analysis, Design, and Construction

6.2.1 General

The construction of liners below the seasonal high water table requires the owner or operator to:

- Analyze the physical conditions at the site to determine if the in situ soils and groundwater conditions do present the possibility that hydrostatic forces could cause subgrade instability or uplift of any components of the liner system;
- Design a system and corresponding procedures involving dewatering and/or employment of ballast in the form of soil or compacted solid waste that will adequately counteract the uplift forces and create a stable condition for the liner system during liner construction, landfill operation, and the closure and post-closure care periods; and
- Construct the system and complete the corresponding construction procedures with an acceptable level of monitoring and testing, and properly document all such activities to clearly show that the integrity of the liner system has been protected at all times during liner construction and will continue to be protected during the operational life and the closure and post-closure periods of the landfill.

6.2.2 Seasonal High Water Table Determination

The initial activity in the analysis process is to determine if the liner extends below the seasonal high water table and is subject to hydrostatic uplift pressures. Site specific stratigraphic and hydrogeologic information, obtained through site specific subsurface stratigraphy studies, was utilized to define groundwater occurrence, the groundwater flow direction, and the seasonal high water table for a specific site.

The seasonal high water table is the highest measured or calculated water level in an aquifer during investigations or monitoring at a site. Groundwater level measurements used for the determination of the seasonal high water table for this permit included documented monitoring events over recent years in existing monitoring wells as well as recently installed piezometers for the investigation presented in Part III-Attachment 4.

A seasonal high water table map is inclued as Figure 10-1. This seasonal high water table map forms the basis for the liner and ballast design specified in the SDP. However, if after the permit is granted, additional data become available which indicates the seasonal high water table is higher than originally determined, the seasonal high water table must be adjusted upward, in accordance with §330.203(j). The seasonal high water table may not be adjusted downward. Additional data which may result in the upward revision of the seasonal high water table could be obtained from water elevation readings from site groundwater monitoring wells, or from groundwater characterization studies performed as a basis of updating the groundwater monitoring system to Subtitle D standards. The re-evaluation of the seasonal high water table should be performed routinely as part of each liner evaluation.

In the Soils and Liner Evaluation Report (SLER) for each new increment of liner construction, the engineer must provide:

- A description of the seasonal high water table established in the SDP or previous SLER, as applicable;
- A summary of the groundwater data collected since the permit application or previous SLER;
- An evaluation of whether the seasonal high water table must be adjusted upward on the basis of this data; and
- An analysis of the changes required in liner design or ballast requirements as a result of the higher water table.

6.3 Overall Excavation Stability

Overall excavation stability was analyzed as part of this permit to demonstrate that the excavation depths proposed can be constructed with an acceptable factor of safety. See Part III-Attachment 10, Appendix D for this demonstration.

6.4 Short-Term Groundwater Control

The successful construction of the liner depends on the ability to maintain a stable excavation and to control groundwater seepage and uplift pressures during the construction period. Paragraphs (a) through (d) of §330.203 require the owner/operator to design a method for preventing uplift of the liner during construction, ensure the liner is stable during the filling of the landfill, and demonstrate that the liner foundation is stable

and suitable for liner construction. All three of these requirements relate to the short-term control of groundwater from the beginning of liner construction to the completion of ballast. The most straightforward method of controlling groundwater is to lower the groundwater level by means of a dewatering system (§330.203(a)(2)). The appropriate method of dewatering is a function of the in situ soil properties and the soil profile, as discussed below.

6.4.1 Characterization of In Situ Soils

The in situ soils on the bottom and sidewalls of the excavation provide the foundation for the liner system. For the purpose of discussing groundwater control and uplift potential the in situ soils at the landfill consist of heterogeneous layering of cohesionless and cohesive soils.

6.4.2 Dewatering Methods

The method used for dewatering will consist of an underdrain geocomposite along the floor of the landfill cells which shall extend up the sidewalls to 1 foot above the seasonal high water table at that area of the landfill. Drains at the toes of slopes and under the leachate collection trench consisting of gravel and pipe encased with geotextile shall direct groundwater to an underdrain sump which will be pumped at a sufficient rate to prevent uplift of the liner system. Additional drains may be necessary depending on the level of groundwater flow encountered. This system is illustrated in Figure 10-2.

Placing the first lift of compacted clay liner on the underdrain may not be easily accomplished. Care shall be taken to not damage the underdrain by the compactive effort.

6.5 Dewatering Design and Performance Documentation

The method proposed to control groundwater by dewatering during liner construction is described in Section 6.4.2 of this SLQCP. If necessary wellpoints or individual well dewatering systems may also be used to control uplift pressures on the liner. Sample calculations for the underdrain system is included in Part III-Attachment 10- Appendix D and includes an estimated seepage rate into the system, and the sizing of trenches, sumps, and pumps capable of removing the seepage at the rate it is accumulated.

Since the liner design requires an underdrain system, the system cannot be deleted without a further permit modification, unless provisions (including a poorly permeable demonstration) are made in the SLQCP for

deletion of the system.

Dewatering/underdrain systems placed for groundwater control must be operated until the liner and ballast are placed, and approval is received from TNRCC that the dewatering is no longer needed. The system must be monitored on a frequent basis to document that the dewatering system performed as required during the placement of ballast. After the liner is placed, the liner itself can accommodate a certain amount of uplift force, as described in the next section. The documentation of dewatering should identify this acceptable level and demonstrate that it was not exceeded.

6.6 Liner and Ballast Design for Long-Term Conditions

After construction of the liner and placement of ballast, the dewatering/underdrain system shall be terminated understanding that the groundwater will eventually rebound to the seasonal high water table. The design shall prevent liner uplift after the full hydrostatic pressure is redeveloped. The long-term uplift resistance proposed will provide sufficient weight to counteract the uplift force. This resistance will be provided by the weight of the leachate collection system components, protective cover, soil ballast if needed, waste ballast and final cover. A diagram of the hydrostatic and gravity pressures on the liner is shown on Figure 10-3.

The hydrostatic force exerted by groundwater on the bottom surface of a landfill liner is defined by a magnitude and a direction. Since no tangential stresses can exist in a fluid, the direction of the resultant hydrostatic force is perpendicular to the liner surface (Daugherty and Franzini, 1965). At a given location, the hydrostatic uplift pressures which will act at any given point on the liner (i.e., bottom of clay, bottom of geomembrane, etc.) can be calculated by multiplying the unit weight of water (γ_{water}) times the pressure head (H_p) at that point. The uplift pressure (PN) is therefore expressed as:

$$PN = \gamma_{water} * H_p \qquad \text{(Eq. 1)}$$

To evaluate the uplift stability at a given point, consider an element of soil and/or waste at that point of width ΔX subject to uplift pressure PN (Figure 10-4) along the base of the element. (In this simplified case, the pressure head H_p is equal to the height of the groundwater surface H above the element.) The uplift force on the element (which acts normal to the bottom surface) is given by:

$$U = PN_{avg} * \Delta X / \cos \beta \qquad \text{(Eq. 2)}$$

where PN_{avg} is the uplift pressure at the center of the bottom surface of the element and β is the angle of the bottom surface with respect to horizontal or the slope angle. The resisting gravity force of the element of the liner system at the given point can be expressed as:

$$RL = \Delta X * \Sigma(\gamma_i * Tv_i) \quad \text{or} \quad RL = \Delta X * (\gamma_L * T_L + \gamma_{PC} * T_{PC} \ldots) \qquad \text{(Eq. 3)}$$

where γ_i = unit weight of each component of the liner system (liner γ_L, protective cover γ_{PC}, etc.)

Tv_i = vertical thickness of each component of the liner system (liner T_L, protective cover T_{PC}, etc.)

Note that with a composite liner system consisting of a geomembrane overlying a constructed clay liner, the unit weight and vertical thickness of the clay liner component is not included and will not be considered as ballast.

When possible, the total unit weight of the liner should be determined from the standard or modified Proctors performed on the soil to be used as liner. For a clay liner compacted to a minimum 95% of maximum dry density (γd_{max}) and at a minimum water content of optimum moisture (ω_{opt}, in decimal form), the minimum total density of the liner is expressed as:

$$\gamma_L = (0.95 * \gamma d_{max}) * (1 + \omega_{opt}) \qquad \text{(Eq. 4)}$$

The total unit weight of the leachate collection system and cover soils should be measured in the field or laboratory when possible.

The following equation which balances the forces normal to the liner surface must be satisfied for the liner system element to be considered adequate to resist the normal uplift force with an adequate factor of safety (FS_U) by itself:

$$FS_U = RL * \cos\beta / U = \Sigma(\gamma_i * Tv_i) * \cos^2\beta / (\gamma_{water} * H) \geq 1.2 \qquad \text{(Eq. 5)}$$

If the above equation is satisfied at all liner locations, then no additional ballast is required for long-term uplift resistance.

If the factor of safety against uplift is less than 1.2 at any point in the liner system, then additional weight, or ballast, must be added to the top of the liner system. The additional weight may be in the form of soil or waste. If soil is used, the resisting gravity force (RS) of the soil ballast is equal to the total unit weight of the soil (γ_S) multiplied by the thickness (T_S) of the soil ballast. Sufficient soil ballast must be added to satisfy the equation:

$$(RL + RS) * \cos\beta / U \geq 1.2 \qquad \text{or} \quad \Sigma(\gamma_i * Tv_i) * \cos^2\beta / (\gamma_{water} * H) \geq 1.2 \qquad \text{(Eq. 6)}$$

where γ_i and Tv_i include γ_S and T_S, respectively. If waste is used as ballast, it must meet the requirements of the rules, which are:

- The first 5 feet or the total thickness of ballast, whichever is less, placed on the liner system shall be free of brush and large bulky items, which would damage the underlying parts of the liner system or which cannot be compacted to the required density.
- The waste shall be compacted to a density of not less than 1000 lb/cy, or 37 pcf.

The resisting gravity force of waste (RW) is equal to the total unit weight of the waste (γ_{waste} = 37 pcf) multiplied by the thickness of the waste (T_{waste}). Sufficient waste must be added to satisfy the equation:

$$(RL + RW) * \cos\beta / U \geq 1.5 \quad \text{or} \quad \Sigma(\gamma_i * Tv_i) * \cos^2\beta / (\gamma_{water} * H) \geq 1.5 \qquad \text{(Eq. 7)}$$

where γ_i and Tv_i include γ_{waste} and T_{waste}, respectively.

The method outlined above and in Figure 10-4 is simplified and conservative, especially as the slope configuration departs from an infinite slope model as ballast is placed. Sample ballast calculations for bottom and sideslope liners is included in Part III-Attachment 10, Appendix D, Appendix 1.

6.7 Slope Stability of Sidewall Liners

The procedures outlined in Section 6.6 was used to evaluate the stability against uplift for bottom and sidewall liners and to determine the minimum depth of ballast required for uplift stability. The procedures outlined in Section 6.6, it should be noted, evaluate the factor of safety against uplift in the direction normal to the slope only. For sideslopes, the normal pressures due to groundwater will decrease the resistance to translational sliding along the liner. For this reason, the stability of sideslope liners subject to hydrostatic

pressures were calculated accounting for the slope angle. Sideslope liner ballast calculations are provided in Part III-Attachment 10, Appendix D, Appendix 1.

7.0 DOCUMENTATION AND REPORTING

7.1 Liner Evaluation Reports

All liner quality assurance/quality control testing must be performed in conformance with the SLQCP as required by the MSWR. The data must be submitted as a Liner Evaluation Report (LER), which may be a Soil and Liner Evaluation Report (SLER), Geosynthetic Clay Liner Evaluation Report (GCLER), or Geomembrane Liner Evaluation Report (GLER), depending on the type of liner construction.

The limits of all constructed liners, including the most recent covered by the current evaluation, must be clearly marked with the placement of red-colored markers. These markers must be readily discernible by site workers and site inspectors, and shall be maintained at all times during the active disposal operations within the area and may be removed as needed to facilitate operations upon approval of subsequent LER areas. The LER markers must be tied into the master site grid system for reference and shall not be placed through the constructed liner.

Each LER submittal must include a clearly legible site map which depicts the grid system on site, graphic scale, north arrow, sectorized fill layout plan, filled area, present active area, and area covered by the current submittal. The site map must show the areas covered by all previous LER submittals. It may be a print from a master drawing which is annotated and updated with each new submittal. In addition, each LER submittal to the TNRCC must include all or parts of the following items as appropriate and depending on the constructed elements of the liner:

- all field and laboratory test documentation for liner soils and test and sample locations plotted on a location plan (SLER);
- all test documentation for leachate collection and protective cover layers (SLER/GCLER/GLER);
- if the liner includes a geomembrane, manufacturer's certifications, documentation of all manufacturer's and independent testing, seaming and repair records, seam tests, and a site map showing locations of panels, repairs, and tests (GLER);
- if the liner includes a geosynthetic clay liner, documentation of all manufacturer's and

independent materials tests, manufacturer's certifications, stability analyses (if required), and a site map showing panel layout (GCLER);

- manufacturer's certification and testing documentation for all geosynthetics (SLER/GCLER/GLER); and
- a survey documentation of the thickness of the soil liner, leachate collection, and protective cover layers (SLER/GCLER/GLER).

All field and laboratory sampling and testing of components of the liner and its construction must be under the direct supervision of a GP as defined in the Glossary or by his qualified representative. Any completed lined area that fails to meet the minimum specified conditions of the required tests must be reworked or reconstructed to achieve the required results. Inability to achieve the required results through reworking shall be cause for rejection of the area in question.. All reworked areas shall be retested to prove adequacy to meet all the applicable requirements.

In accordance with §330.206(b), MSWR, no area may be used for the receipt of solid waste until the TNRCC has given confirmation of its acceptance of the LER or fourteen days from the date(s) of arrival of the LER at the MSW Permits Section, TNRCC, have lapsed.[2] It is strongly recommended that the permittee call the MSW Permits Section prior to use of area in question if confirmation of acceptance has not been received and the permittee believes that the fourteen-day review period has lapsed.

7.2 Interim Status Report

An Interim Status Report (ISR) for all liners should be provided to the TNRCC for portions of the liner that remain uncovered with waste for more than six months from the date that the protective cover was applied, and the area shall be reevaluated by a geotechnical professional as stated in subsection §330.206(e).

7.3 Ballast

Liners constructed below the groundwater table require several elements of evaluation and quality assurance beyond the basic requirements of the LER. Most of these additional documentation and evaluation activities are performed as part of the liner design before construction or during the same time as the monitoring for

[2]The TNRCC staff will make every effort to notify the permittee by telephone or fax of final submittal status if the needed telephone numbers are listed within the signature block of the SLER or GLER.

the clay liner construction. To avoid duplication in reporting requirements, these activities should logically be included in the LER. The documentation and evaluation include the following:

- Summary of soil stratigraphy and properties of soils exposed on the bottom and sidewalls of the area being lined.
- Adjusted seasonal high water table, based on SDP data, groundwater monitoring well data, or other data.
- Calculation of ballast required, and type of ballast to be used (soil or waste).
- Discussion of whether subgrade required an underdrain system or other dewatering method, using criteria established in the SDP and SLQCP.
- Method of controlling uplift forces during construction (low-permeability foundation soil, dewatering, or combination).
- Monitoring of dewatering system to demonstrate that hydrostatic forces did not develop during liner construction.
- Pre-construction and top-of-liner elevations of the liner, and confirmation of liner weight. The survey elevations must be performed at the frequency required in the SLQCP.

7.3.1 Soil as Ballast

If soil is to be used as ballast, it would be placed immediately after liner or leachate collection system construction. If soil ballast is to be placed on the composite liner system, the SLER should include a statement that the ballast will be documented in the GLER, which will document the as-built density and thickness of the soil ballast. The soil ballast thickness should be surveyed at the same frequency required in the SLQCP for the liner.

7.3.2 Waste as Ballast

If waste is used for ballast, the approval of the GLER must first be received from TNRCC. A follow-up report in the form of a Ballast Evaluation Report (BER) must then be prepared. The BER must include the following documentation:

- The weight of the compactor being used to compact the waste is no less than 40,000 pounds, and a certification from the owner that this compactor was utilized during the entire period of placing the waste ballast.

- Certification from the owner of the type of waste placed in the lower 5 feet.
- If a 40,000 pound compactor was not used, calculations to show that the in-place density of waste is not less than 1000 pounds per cubic yard. These calculations must include the following:
  - initial survey of the area to receive waste as ballast;
  - final survey and calculated volume of waste placed as ballast; and
  - weight of waste placed, based on actual measurements of truck weights at the scalehouse.
- Survey of the top of waste to document that the thickness calculated in the LER has been placed.
- Documentation that any dewatering system used to lower the groundwater level during liner construction was in effect throughout the completion of the ballast placement.
- Groundwater level measurements and pneumatic/vibrating wire piezometer measurements to demonstrate that hydrostatic heads did not exceed the allowable values.

A BER should be submitted after sufficient ballast is in place to demonstrate adequate uplift resistance against the long-term seasonal high groundwater level for a given waste cell, sector, or LER area. If the BER for a given liner area is to be submitted more than one year after completion of the LER, interim BERs should be submitted annually. Interim BERs should serve mainly to certify that the underdrain system is and has been in operation through the interim period.

Table I - Standard Tests on Soils

SOIL TEST CATEGORY	TYPE OF TEST	STANDARD TEST METHOD	FREQUENCY OFTESTING
Quality Control Testing of Source Borrow Materials	Moisture/Density Relationship	ASTM D 698 or D 1557	Once per soil type
	Sieve (Gradation)	ASTM D 422 or D 1140	
	Atterberg Limits	ASTM D 4318	
	Coefficient of Permeability	ASTM D 5084 or CoE EM1110-2-1906	1/Moisture/Density Relationship
Constructed Soil Liners	Field Density	ASTM D 1556, D 2167, or D 2922	1/8,000 ft² per 6-inch parallel lift^A; 1/100 lineal ft per 12 inches sidewall liner (horizontal lifts)^A
	Sieve (Gradation)	ASTM D 422 or D 1140	1/100,000 ft² per 6-inch parallel lift^A; 1/2000 lineal ft per 12 inches sidewall liner (horizontal lifts)^A
	Atterberg Limits	ASTM D 4318	
	Coefficient of Permeability	ASTM D 5084 or CoE EM1110-2-1906 (laboratory) Air-Entry Permeameter (field)	
	Thickness	Registered Surveyor	1/5,000 ft² (parallel lifts)^A; 50-ft cross-sections (horizontal-lift sidewall liners)^A

Notes:

A - A minimum of one of each of the designated tests must be conducted for each unit thickness of liner as indicated, regardless of liner area or length.

Table II - Standard Tests on HDPE Geomembrane Material

TEST	TYPE OF TEST	STANDARD TEST METHOD	FREQUENCY OF TESTING
Resin	Density	ASTM D 1505	per 100,000 ft² and every resin lot
	Melt Flow Index	ASTM D 1238 (90/2.16 and 190/21.6)	
Manufacturer's Quality Control	Testing per GRI Standard GM13[A]		
Conformance Testing by 3rd Party Independent Laboratory	Thickness	ASTM D 5199 (smooth HDPE) or D 5994 (textured HDPE)	per 100,000 ft² and every resin lot
	Specific Gravity/Density	ASTM D 1505/D 792	per 100,000 ft² and every resin lot
	Carbon Black Content	ASTM D 1603	
	Carbon Black Dispersion	ASTM D 5596	
	Tensile Properties	ASTM D 638[B] Type IV
